Not an offer

The material contained in this presentation is for information purposes only and is intended to be general background information on Aussie Broadband Limited (ABB) and its activities and is dated 17 February 2021. It is for information purposes only and is not, and should not be considered to be, an invitation, offer or recommendation to acquire shares or any other financial products

Summary information

The information in this presentation is supplied in summary form, is of a general background nature and does not purport to be complete or to provide all information that an investor should consider when making an investment decision. It should be read in conjunction with ABB's periodic and continuous disclosure announcements filed with the ASX.

Not financial product advice

This presentation is for information purposes only and it is not financial product nor investment advice (nor tax, accounting or legal advice) nor a recommendation to acquire shares and has been prepared without taking into account the objectives, financial situation or needs of recipients of this presentation. It is not intended that it be relied upon as advice to investors or potential investors, who should make their own enquiries and investigations regarding an investment in ABB and in relation to all information in this presentation (including but not limited to the assumptions, uncertainties and contingencies which may affect the future operations of ABB and the value and the impact that different future outcomes may have on ABB) and before making any investment decisions, should consider the appropriateness of the information having regard to their specific investment objectives, financial situation or particular needs and should seek independent professional advice appropriate to their jurisdiction before making an investment decision. Neither this presentation nor anything contained in it forms the basis of any contract or commitment and no agreement to subscribe for securities will be entered into on the basis of this presentation. ABB is not licensed to provide, and this presentation does not constitute the provision of, investment or financial product advice in respect of ABB's shares. Cooling off rights do not apply to the acquisition of ABB shares.

An investment in ABB shares is subject to investment and other known and unknown risks, some of which are beyond the control of ABB. ABB does not guarantee any particular rate of return or the performance of ABB, nor does it guarantee the repayment of capital from ABB or any particular tax treatment.

Financial data

All amounts are in Australian Dollars (\$) or AUD unless otherwise indicated. A number of figures, amounts, percentages, estimates, calculations of value and fractions in this presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this presentation.

Investors should also be aware that certain financial data included in this presentation including EBITDA and measures described as "pro forma", are "non-IFRS financial information" under ASX Regulatory Guide 230 (Disclosing non-IFRS financial information). The non-IFRS financial information financial measures do not have a standardised meaning prescribed by Australian International Financial Reporting Standards (AIFRS) and, therefore, may not be comparable to similarly titled measures presented by other companies, nor should they be construed as an alternative to other financial measures determined in accordance with AIFRS. Investors are cautioned, therefore, not to place undue reliance on any non-IFRS financial measures included in this presentation

Future Performance

Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding ABB's intent, belief or current expectations with respect to business and operations, market conditions, results of operations and financial conditions, including, without limitation, forecasted economic indicators and performance metric outcomes. This presentation contains words such as 'will', 'may', 'expect', 'indicative', 'intend', 'seek', 'would', 'should', 'could', 'continue', 'plan', 'probability', 'risk', 'forecast', 'likely', 'estimate', 'anticipate', 'believe', or similar words to identify forward-looking statements. Indications of, and guidance or outlook on, future earnings or financial position or performance are also forward-looking statements. These forward-looking statements reflect ABB's current views with respect to future events and are subject to change, certain risks, uncertainties and assumptions which are, in many instances, beyond the control of ABB, and have been made based upon ABB's expectations and beliefs concerning future developments and their potential effect on ABB. There can be no assurance that future developments will be in accordance with ABB's expectations. A number of important factors could cause ABB's actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements, including but not limited to, general economic conditions in Australia and other jurisdictions in which ABB or its related bodies corporate operate; exchange rates; competition in the markets in which ABB will operate, the inherent regulatory risks in the businesses of ABB and the duration of the COVID-19 pandemic. Assumptions on which forward-looking statements in this presentation are based may or may not prove to be correct and there can be no assurance that actual outcomes will not differ materially from these statements.

None of the **Associated Persons** nor any other person referred to in this presentation makes any representation as to the accuracy or likelihood of fulfilment of the forward-looking statements or any of the assumptions upon which they are based. When relying on forward-looking statements to make decisions with respect to ABB, investors and others should carefully consider such factors and other uncertainties and events. ABB is under no obligation to update any forward-looking statements contained in this presentation, as a result of new information, future events or otherwise, after the date of this presentation. As such, undue reliance should not be placed on any forward-looking statement.

Past performance information given in this presentation is given for illustrative purposes only and is not necessarily a guide to future performance and no representation or warranty is made by any person as to the likelihood or achievement or reasonableness of any forward-looking statements.

Disclaimer

No representation or warranty, express or implied, is made as to the accuracy, completeness, reliability or fairness of the information, opinions and conclusions contained in this presentation. Any information in this presentation is made only at the date of this presentation, and opinions expressed reflect ABB's position at the date of this presentation, and are subject to change. ABB is under no obligation to update this presentation. Neither ABB, its related bodies corporate, shareholders or affiliates, nor any of their officers, directors, employees, affiliates, agents, contractors, advisers or any other associated persons (collectively, "Associated Persons") represents or warrants in any way, express or implied, that the information, opinions, conclusions or other information contained in this presentation, any of which may change without notice, is fair, accurate, complete, reliable, up to date or correct. ABB does not represent or warrant that this presentation is complete or that it contains all material information about ABB or which a prospective investor or purchaser may require in evaluating a possible investment in ABB or an acquisition or other dealing in ABB shares. To the maximum extent permitted by law, ABB and its Associated Persons each expressly disclaims and excludes all direct, indirect, consequential or contingent loss, damage or liability (including, without limitation, any liability arising from fault or negligence) that may arise from, or is connected to, this presentation, or the use of this presentation, or any other written or oral information provided by or on behalf of ABB.

- Customer satisfaction remained high even through price rise period of September to December
- Winner Customer Service Organisation of the Year, Large Business – Australian Service Excellence Awards

Financial results

Revenue

Revenue up 89% to \$157.4m due to:

- 81,273 net broadband additions in 1H21
- Growth in mobile, fetch TV and VoIP
- Strong growth in business broadband and Hosted phone
- Increase in retail broadband prices and lower than expected churn

EBITDA adjusted for IPO expenses

EBITDA adjusted for IPO expenses up 115% to \$8.4m due to:

- Strong organic growth in both residential & business segments
- Marketing efficiency better than forecast albeit with net spend being lower than forecast due to additional nbn marketing rebates received and advertising mail delivery restrictions during COVID-19 lock downs
- Extended nbn CVC rebates yielded an above forecast benefit of \$1.2m to the result.

Financial performance

Profit and Loss

\$'m	H1FY21	H1 FY20	Change %

- Successful IPO raised \$40m gross proceeds

Looking ahead

Continued growth

Residential

- Marketing spend will be accelerated for the remainder of the year to take advantage of opportunities as they present
- Additional focus on bundling with new campaigns to target existing customers towards multiple products
- Using nbn focus on fast campaign to further target growth into 100 Mbps and above tiers

Business

- Adding further pre sales engineering functions to target customers with more complex needs
- Business specific marketing now operating at scale and providing strong lead generation
- Business sales call centre increased and achieving good conversion results

Carbon

- Focus now shifting from onboarding MSPs into scaling up order volume from existing MSPs
- Continued platform development with mobiles the next product to be added into the platform

Fibre project

- Fibre build now operating at scale with over 150km currently under construction
- Builds are now underway in Victoria, New South Wales and Western Australia
- Queensland and South Australia presently in final design
- Exploring partnerships to reduce the need to construct redundancy paths and access regional POIs not originally contemplated in the initial project design
- Pipeline of direct fibre customer orders building with signed orders ahead of forecast

Network growth

- Next phase of network expansion underway to take the company past the present 500,000 connection design
- Presently assessing vendors and design pathways to support 1 million connections

Relaunch of mobiles

MVNO agreement signed with Optus Wholesale

- Will replace existing MVNO (mobile virtual network operator) agreement for access to the Telstra mobile network
- Will transition our existing 19,000 mobile customers on to the Optus network
- Flexible agreement with the ability for Aussie to create new plans without the need for wholesaler involvement
- We will offer 4G failover for both residential and business nbn customers
- Includes access to the full Optus 5G network and fixed wireless offering
- Expecting new plans and handsets to be available Q4 FY2021

Guidance

As noted by the Reserve Bank of Australia recently, a high degree of uncertainty continues to surround Australia's economic outlook. The potential exists for further COVID-19 geographic lockdowns as outbreaks occur, with associated bandwidth usage impacting the company's CVC and network costs.

The company is accelerating its investment in marketing in H2 which impacts short term EBITDA but drives long term growth. The company expects an impact from the NBN HFC stop sell which has been allowed for in the guidance below.

As a result, the Board provides the following updated guidance for FY2021:

	Updated Guidance for FY2021	Prospectus
Revenue	\$345 million to \$355 million	\$338.0 million
Normalised EBITDA ¹	\$13.0 million to \$15.0 million	\$12.3 million
Residential broadband ²	380,000 to 410,000	368,172
Business broadband ³	37,000 to 42,000	Not provided
Total broadband	417,000 to 452,000	Not provided

1. Normalised EBITDA is EBITDA excluding IPO costs

2. Residential broadband connections

3. Business broadband includes small business, enterprise and wholesale services
