

# Appointment of Pyne & Partners

1 March 2021

Titomic Limited (ASX:TTT) ('Company' or 'Titomic') is pleased to announce it has entered into an agreement with Christopher Pyne and his team at Pyne & Partners to assist Titomic develop revenue generating opportunities predominately in the defence sector.

Titomic has engaged Pyne & Partners to help identify government funding and departmental partnership opportunities to support Titomic as it commercialises its patented Titomic Kinetic Fusion® technology across Australia and globally.

Pyne & Partners will:

- Work with Titomic to identify and apply for government (including departmental and defence services) work and grants relevant to the defence and modern manufacturing portfolios;
- Work with Titomic to identify and harness private sector partnership opportunities; and
- Provide Titomic with pro-active and ongoing government relations support involving Titomic's interests in the Federal Government and industry.

Pyne & Partners are experienced navigators of the complexities of policy and politics. They are focused on helping clients manage risk, pursue business opportunities and ultimately, achieve their strategic objectives. Christopher Pyne has valuable experience which is important in the government sector.

Norbert Schulze, Interim Chief Executive commented "I am delighted to announce this agreement which will enhance Titomic's recognition in the market and increase the speed in commercialising our new technology".

Christopher Pyne, Chairman Pyne & Partners commented "Pyne & Partners is excited by Titomic's cutting-edge manufacturing technology and looks forward to working with Titomic to grow the business through securing public and private sector revenue generating opportunities with a focus on the defence sector".

**About Titomic Limited:**

Titomic Limited (ASX:TTT) is an Australian public company specialising in digital manufacturing solutions for industrial scale metal additive manufacturing using its patented Titomic Kinetic Fusion® (TKF) technology. The TKF technology provides unique capabilities for producing commercially viable additively manufactured metal products competing directly with traditional manufacturing methods. Titomic provides OEM production and R&D services from their TKF Smart Production Bureaus to the global Aerospace, Defence, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also provides an extensive range of metal powders for 3D Printing especially Titanium and super alloys whilst providing sales and support services for their TKF production systems.
