PROPTech GROUP

FINANCIALS

Acquisition accounting

On 19 November 2020, the PropTech Group Limited completed the acquisition of 100% of the shares in Real Estate CRM Pty Ltd (“RECRM”) and its wholly owned subsidiaries (“Acquisition”).

The Acquisition has been accounted for using the principles for reverse acquisitions in AASB 3 Business Combinations, as a result of the Acquisition, the former shareholders of RECRM (the legal subsidiary entity) obtained accounting control of the Company (the legal parent entity).

Therefore, the consolidated financials of PTG for the half year ended 31 December 2020 represents a continuation of the financial statements of RECRM (on the basis that RECRM is the deemed accounting acquirer), together with the results of PTG from the Acquisition date of 19 November 2020.

It should be noted that the results of the previous corresponding period being the six months ended 31 December 2019 (“PCP”) set out in this financial report represents only the financial results of RECRM when run as a private group, and does not include any results from PTG. The table below provides further clarification

Consolidated Statement of:	Six months to 31 December 2020	Previous corresponding period (“PCP”)
Profit or loss and other comprehensive Income	RECRM: 1 July 2020 to 31 December 2020. PTG: 19 November 2020 to 31 December 2020.	N/A - RECRM was not in existence, as it was incorporated on 13 February 2020.
Financial position	RECRM and PTG consolidated as at 31 December 2020.	RECRM only as at 30 June 2020.
Changes in equity	Equity balances of RECRM as at 1 July 2020, their results for the half-year and transactions with equity holders for the half-year. PTG’s transactions with equity holders since 19 November 2020 and its results for the period from 19 November 2020 to 31 December 2020.	RECRM only for the period from 13 February 2020 to 30 June 2020.
Cash flows	RECRM: 1 July 2020 to 31 December 2020. PTG: 19 November 2020 to 31 December 2020.	N/A - RECRM was not in existence, as it was incorporated on 13 February 2020.

Cashflows

As at 31 December 2020, the Group's cash balance was \$12,207,051. The rise in cash balance at the end of the period was attributed to the increase via a capital raise \$10,600,000, this was offset by a deficit of (\$118,170) in operating cash for the period which was heavily impacted by substantial extraordinary outflows which directly related to the raising of capital (not attributed to equity in accordance with AASB 132), ASX re-compliance and acquisition.

On an adjusted basis after removing all one-off costs in relation to the relisting, acquisition and historical payables, the underlying net cashflows from operating activities for the period is \$963,723.

The chart above gives further breakdown of the reconciliation of statutory net cashflows from operating activities to underlying net cashflows from operating activities:

Glossary

To assist in the evaluation of the performance of the Group, certain measures are used, that are not recognised under AAS or IFRS. These measures are collectively referred to as “non-IFRS financial measures”.

The non-IFRS financial measures and pro-forma results provide useful information about the financial performance of the Group, they should be considered as supplements to the financial statements that have been presented in accordance with AAS and IFRS and not as a replacement for them. As these non-IFRS financial measures are not based on AAS or IFRS, they do not have standard definitions, and the way the Group has calculated these measures may differ from similarly titled measures used by other companies. Investors and readers of this financial report should therefore not place undue reliance on these non-IFRS financial measures.

Non-IFRS financial measure	Definition
EBITDA	Represents earnings before interest, income tax expenses, depreciation and amortisation.
Underlying EBITDA	Underlying EBITDA has been adjusted to eliminate the effects of interest, tax, depreciation and amortisation, fair value adjustments, impairment expenses, loss on disposal on assets and any other non-operating items (Share based payments, bad debts, transaction and relisting costs and foreign currency translation differences)
EBIT	Earnings/ (losses) before interest (net finance income) and taxation;
AMRR	Annualised monthly recurring revenue (AMRR), represents monthly recurring revenue for the month of March 2021 (unless mentioned otherwise), multiplied by 12. It provides a 12 month forward looking view of recurring revenue if all factors such as new, churn, pricing and foreign exchange were to remain the same for that period.
Underlying net cashflows from operating activities	The Underlying net cashflows from operating activities provides a better view of the operating performance of the business eliminating one-off costs that would not have been usually occurred during the period, such costs relate to historical payables, transaction and relisting costs.
