

ASX ANNOUNCEMENT

26 May 2021

Redflex Holdings Limited | ABN 96 069 306 216

The Redflex logo features the word "Redflex" in a white, sans-serif font, followed by a stylized green circular graphic that resembles a lowercase 'r' or a speed limit sign.

Award of New Contract with Transport for New South Wales (TfNSW)

Redflex Holdings Limited (**ASX:RDF**) (**Company**) today announces that the Company's subsidiary, Redflex Traffic Systems Pty Ltd (**Redflex**), has executed a new three-year contract (with two optional one-year extensions) with Transport for NSW (**TfNSW**) for the operation of mobile roadside speed camera enforcement in various regions of New South Wales, Australia. The new contract will commence on 1 July 2021 (**New Contract**) and continues Redflex's important role in providing mobile roadside speed camera enforcement services to the New South Wales State Government since 2010.

The New Contract replaces the existing 5 year contract that Redflex currently has with TfNSW (formerly Roads & Maritime Services) which was announced to the ASX on 17 November 2017 (**Existing Contract**). The Existing Contract was due to expire on 30 June 2023.

Under the New Contract:

- Redflex will service the regions of New South Wales known as Northern, Hunter, Western and Sydney North; and
- Redflex anticipates the contract value will be approximately AUD68 million over the initial three-year term.

TfNSW leads the development of safe, integrated, and efficient transport systems for the people of New South Wales, and is committed to working towards zero road trauma in NSW by 2056. TfNSW undertakes such activities including transport planning, strategy, policy, procurement, and other functions across all modes of transport - roads, rail, ferries, light rail and point to point.

About Redflex

During the past 25 years, Redflex has established itself as a world leader in developing and implementing intelligent traffic management products and services which are sold and managed in the Asia Pacific, North America, United Kingdom, Europe and Middle East regions. Redflex develops, manufactures and operates a wide range of platform-based solutions all utilising advanced sensor and image capture technologies enabling active management of state and local motorways.

The Redflex Group runs its own systems engineering operations, system integration technologies and innovation centre for research and development. With a continuous program of product development, Redflex has been helping to improve roadway safety, alleviate congestion and reduce the harmful impacts of vehicle emissions.

Redflex was listed on the Australian Securities Exchange in January 1997.
