ASX Announcement: 5 July 2021

Code: TEK

TEK ANNOUNCES TWO TRANCHE PLACEMENT TO RAISE \$25.3 MILLION

Thorney Technologies Ltd (ASX: TEK) (**TEK** or the **Company**) is pleased to announce it has received firm commitments to raise A\$25.3 million via a fully-committed two-tranche placement of fully paid ordinary shares to institutional, sophisticated and professional investors at a price of \$0.40 per New Share (the **Placement** or the **Capital Raising**). The shares issued as part of the Capital Raising are referred to as **New Shares**.

The proceeds of the Capital Raising will be used primarily to invest in technology-related companies in both Australia and overseas across the investment life-cycle with a continuing focus on pre-IPO opportunities. Funds will also be used to increase the Company's working capital and pay the costs associated with conducting the Capital Raising.

The Company continues to be inundated with exciting and potentially valuable pre-IPO investment opportunities. As one of Australia's pre-eminent small to mid-cap investment groups, the Company is well-positioned to evaluate and participate in these exciting opportunities. In a recent study completed by *Firstlinks*, a *Morningstar* company, TEK was the best performing small cap listed investment company over the 14 month period to 31 March 2021.

With the existing strong record of performance and a reputation of being a long term and patient value investor, the level of opportunities continue to be considerable and will continue to be assessed in a careful and deliberate fashion to establish whether they meet the criteria for TEK.

Placement

The price per New Share of \$0.40 under the Capital Raising represents a 7.0% discount to the Company's closing price on the ASX on 30 June 2021 of \$0.43, which was the last full day shares traded on ASX before the announcement of the Capital Raising. It also represents a 3% premium to the 90 day VWAP of the Shares for the period up to 30 June 2021, being the last full day Shares traded on ASX before the announcement of the Capital Raising.

The Thorney Group intends to subscribe for New Shares in the Placement for an aggregate amount of up to approximately \$3.5 million, subject to shareholder approval and receipt by the Thorney Group of specific ASIC relief (as described below). Non-executive Directors, Jeremy Leibler and Martin Casey, also intend to participate in the Placement, subject to shareholder approval. It is anticipated that an Extraordinary General Meeting of Shareholders' will be convened in early August, with Shareholders to be sent the notice of meeting and explanatory statement shortly.

The Placement will be completed in two tranches:

- Tranche 1: comprising the issue of 54.3 million New Shares to institutional, sophisticated and professional investors at \$0.40 per New Share, representing 15% of issued capital, raising approximately \$21.7 million; and
- Tranche 2: comprising the issue of up to 9.0 million New Shares at \$0.40 per New Share to the Thorney Group and Non-executive Directors, Jeremy Leibler and Martin Casey, to raise up to approximately \$3.6 million, subject to shareholder approval and, in respect of the Thorney Group's participation, the granting of ASIC relief (as described below).

The New Shares to be issued under Tranche 1 of the Placement will be issued under the Company's existing ASX Listing Rule 7.1 placement capacity. The Tranche 1 Placement shares are expected to settle on 12 July 2021. New Shares issued under the Capital Raising will rank equally in all respects with existing shares from their respective date of issue.

The New Shares to be issued under Tranche 2 of the Placement will be issued subject to the Company receiving shareholder approval under ASX Listing Rule 10.11 in relation to the Thorney Group's, Jeremy Leibler's and Martin Casey's proposed participation in Tranche 2 of the Placement.

The amount that the Thorney Group will invest in the Placement is also dependent on whether ASIC grants relief to the Thorney Group for it to continue to be able to rely on the '3% creep' exception under item 9 of section 611 of the *Corporations Act 2001* (Cth), and acquire New Shares under the Placement under such exception, given that Tranche 1 of the Placement will result in the Thorney Group's voting power in the Company being diluted below 19%. If such ASIC relief is granted, the Thorney Group intends to participate in Tranche 2 of the Placement up to approximately \$3.5 million, to take its post-Placement fully diluted ownership to approximately 20%. If ASIC relief is not granted, the Thorney Group intends to participate in Tranche 2 of the Placement to the maximum extent possible taking its voting power in the Company to 19.9%.

TEK Chairman, Alex Waislitz said: "We are delighted with the support shown by new and existing investors, with bids received well in excess of amounts raised under the Placement."
