

## July 2021 Monthly traffic update and August 2021 preview

# 59.7%

Auckland Airport total passenger volumes increased by 59.7% in July 2021 versus last year. International passengers (excl. transits) were up 332.4%, transit passengers were down 84.8% and domestic passengers were up by 46.3%.

### Key Points:

- The increase in total international passengers for July 2021 reflected the operation of trans-Tasman quarantine-free travel for most of the month, albeit quarantine-free travel was progressively paused on a state by state basis throughout July 2021, followed by an 8 week suspension of the entire Tasman Bubble on 23 July 2021.
- Domestic services for July 2021 were up on the prior year equivalent reflecting increased domestic activity due to school holidays and a boost from international passengers transferring to domestic flights.
- Please refer to Appendix 1 for a comparison with pre-COVID July 2018.

#### Notes:

This monthly traffic update from Auckland International Airport Limited (AIAL) is generated with assistance and data from Statistics New Zealand, the New Zealand Customs Service, Airways New Zealand, Immigration New Zealand, Queenstown Airport Corporation and AIAL. International and Domestic passenger movements are actual. This document is intended for information purposes. It should not be considered a recommendation, offer or invitation to purchase securities. All reasonable steps have been taken to ensure that the information is true and accurate at the time of publication. \*Maximum Certificated Take-Off Weight (MCTOW) forms the basis of determining airfield charges at Auckland Airport.

## August 2021 Monthly traffic update preview

### 68.4%

Auckland Airport total passenger volumes increased by 68.4% in August 2021 versus the prior year. International passengers (excl. transits) were up 61.6%, transit passengers were down 94.3% and domestic passengers were up by 74.5%.

#### Key Points:

- The increase in total international passengers for August 2021 reflects more international airlines operating than in August 2020. But following a community outbreak of the delta variant, New Zealand went into alert level 4 lockdown on 17 August 2021. This in effect suspended quarantine free travel with Australia and the Cook Islands until further notice.
- Prior to the move to Alert Level 4, domestic services for August 2021 were up on the prior year reflecting increased domestic activity over the peak winter season.
- Please refer to Appendix 2 for comparison with pre-COVID August 2018.
