## 1.1. STRUCTURE OF THE OFFER

### 1.1.1 ENTITLEMENT OFFER

The Company is making a non-renounceable pro-rata offer to Eligible Shareholders of one (1) Listed Option (exercisable at \$0.052 each and an expiry of 30 June 2024) ("**Listed Option**") for every three (3) Shares held on the Record Date at an issue price of \$0.015 to raise up to \$2,030,399 before costs ("**Entitlement Offer**").

The Entitlement Offer is fully underwritten by KTM Capital ("**Underwriter**"). Any Listed Options not taken up by Eligible Shareholders will be taken up by the Underwriter pursuant to the Underwriting Agreement (refer to section 5.1 for a summary of the terms of the Underwriting Agreement).

Entitlements under the Entitlement Offer will be rounded down to the nearest whole number. Entitlements of Shareholders that round down to zero will not have any entitlement under the Entitlement Offer.

Eligible Shareholders are being sent this Prospectus together with a personalised Acceptance Form and are invited to apply for Listed Options. The Entitlement Offer opens on 27 October 2021 and closes at 5.00pm (AEDT) on 8 November 2021.

Based on the current capital structure of the Company as at the date of this Prospectus, a maximum of 135,359,902 Listed Options will be issued pursuant to this Entitlement Offer to raise up to approximately \$2,030,399.

### 1.1.2 CLEANSING

This Prospectus has been prepared for the purposes of section 708A(11) of the Corporations Act to remove any trading restrictions on the sale of Listed Options issued under the Entitlement Offer issued prior to the Closing Date.

## 1.2. PURPOSE OF THE OFFER

The purpose of the Entitlement Offer is to raise up to \$2,030,399 (before costs) to be used for mining working capital and production commencement .

The funds raised under the Offer are planned to be used in accordance with the table set out below:

Use of Funds	Amount
Tiris Project	\$1,200,000
Corporate costs (including capital raising cost)	\$217,000
Working capital	\$613,399
<b>Total Use of Funds</b>	<b>\$2,030,399</b>

#### Notes:

Working capital may include wages, payments to contractors, rent and outgoings, insurance, accounting, audit, legal and listing fees, payments to creditors, interest payments, other items of a general administrative nature and cash reserves which may be used in connection with the Company's activities, as determined by the Board at the relevant time.

The above table is a statement of the Board's current intention as at the date of this Prospectus. However, Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

If Entitlements under the Entitlement Offer are not fully taken up by the Shareholders then this may have an effect on the rate at which any plans are undertaken by the Company, such as exploration programs. Additional funding through debt or equity may be considered by the Board where it is appropriate to accelerate a specific project or transaction.

If the Company decides to make any significant acquisitions of, or significant investments in, companies or other assets that are complimentary to its business, then it is possible that such acquisitions would be funded by additional financing through debt or equity (subject to any necessary Shareholder approvals).

### 1.3. ELIGIBLE SHAREHOLDERS

Eligible Shareholders for the purposes of the Entitlement Offer are those persons who:

- are registered as a holder of Shares as at 5.00pm (AEDT) on the Record Date; and
- have a registered address in Australia or New Zealand.

The Entitlements Offer made to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2002 (New Zealand)*.

Notwithstanding the above, the Company may (in its absolute discretion) extend the Entitlement to certain shareholders who have registered addresses outside the eligible countries in accordance with applicable law.

### 1.4. INELIGIBLE SHAREHOLDERS

Shareholders who are not Eligible Shareholders are **Ineligible Shareholders**.

The Company has determined, in reliance on ASX Listing Rule 7.7.1, that it would be unreasonable to extend the Entitlement Offer to Ineligible Shareholders, having regard to:

- the small number of Ineligible Shareholders;
- the small number and value of the Listed Options which would be offered to Ineligible Shareholders if they were Eligible Shareholders; and
- the cost of complying with the legal and regulatory requirements in the respective overseas jurisdictions.

Accordingly, this Entitlement Offer is not being extended to any Shareholders outside Australia and New Zealand. The Company will notify all Ineligible Shareholders of the Entitlement Offer and advise that the Company is not extending the Entitlement Offer to those Shareholders.

### 1.5. FOREIGN SHAREHOLDER RESTRICTIONS

The Prospectus does not constitute an offer in any jurisdiction where, or to any person to whom, it would not be lawful to issue this Prospectus or make such an offer. The return of a duly completed Acceptance Form will be taken by the Company as a representation and warranty by the Applicant that there has been no breach of such laws and that the Applicant is an Eligible Shareholder.

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

No action has been taken to register or qualify the Options or otherwise permit an offering of the Options the subject of this Prospectus in any jurisdiction outside Australia. It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction.

Applicants who are resident in countries other than Australia should consult their professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed. If you are outside Australia it is your responsibility to obtain all necessary approvals for the issue of the Shares pursuant to this Prospectus. The return of a completed Application Form will be taken by the Company to constitute a representation and warranty by you that all relevant approvals have been obtained.

## **1.11. ASX QUOTATION**

The Company will apply to ASX within 7 days after the date of this Prospectus for quotation of the Listed Options offered under this Prospectus. The Listed Options will only be admitted to official quotation if the quotation requirements under the Listing Rules are satisfied. If the quotation requirements are not satisfied or ASX otherwise does not grant official quotation of the Listed Option, the Listed Options will be issued on an unquoted basis.

The fact that ASX may grant official quotation to the Listed Options is not to be taken in any way as an indication of the merits of the Company or the Listed Options now offered under this Prospectus.

### **1.12. CHESS**

The Company participates in the Clearing House Electronic Subregister System (“**CHESS**”). ASX Settlement Pty Ltd (“**ASX Settlement**”), a wholly-owned subsidiary of ASX, operates CHESS in accordance with the ASX Listing Rules and the ASX Settlement Operating Rules.

The Company and the Share Registry collect, hold and use that personal information to assess applications, to provide facilities and services to security holders and to carry out various administrative functions. Access to the information collected may be provided to the Company’s agents and service providers and to ASX, ASIC and other regulatory bodies on the basis that they deal with such information in accordance with the relevant privacy laws. If the information requested is not supplied, applications may not be processed. In accordance with privacy laws, information collected in relation to specific Shareholders can be obtained by that Shareholder through contacting the Company or the Share Registry.

### **1.14. TAXATION**

It is the responsibility of all Shareholders to satisfy themselves of the particular taxation treatment that applies to them in relation to the Entitlement Offer by consulting their own professional tax advisers. Neither the Company nor the Directors accept any liability or responsibility in respect of the taxation consequences for Shareholders as a result of the matters referred to in this Prospectus.

## 2 HOW TO APPLY

This Section 2 sets out the choices for an Eligible Shareholder with respect to applying for Listed Options under the Offer.

Please refer to Section 1.3 to determine who is an Eligible Shareholder.

### 2.1. CHOICES AVAILABLE

Eligible Shareholders may do any of the following:

- take up all or part of their entitlement under the Entitlement Offer (refer to Section 2.2); or
- do nothing (refer to Section 2.3).

The Entitlement Offer is a non-renounceable pro rata offer to Eligible Shareholders. The Entitlement Offer is fully underwritten. Eligible Shareholders who take up their entitlement in full will not have their percentage shareholding in the Company diluted by the Entitlement Offer. The percentage shareholdings of Eligible Shareholders who do not take up all of their entitlement will be diluted. For further details on the effects of the Entitlement Offer, please refer to Section 3.

### 2.2. TAKE UP ALL OR PART OF ENTITLEMENT

Eligible Shareholders who wish to take up all or part of their entitlement under the Entitlement Offer should complete the Acceptance Form in respect of the number of Listed Options they wish to subscribe for and arrange for payment of the Application Monies in accordance with Section 2.4.

### 2.3. ALLOW ALL OR PART OF ENTITLEMENT TO LAPSE

If Eligible Shareholders decide not to accept all or part of their entitlement to Listed Options, or fail to accept by the Entitlement Offer Closing Date, the part of their entitlement not accepted will lapse. The Listed Options not subscribed for will form part of the Shortfall.

### 2.4. MAKING AN APPLICATION UNDER THE ENTITLEMENT OFFER

Eligible Shareholders have two payment Listed Options in order to take up their entitlement under the Entitlement Offer.

**Listed Option 1: Submit a completed Acceptance Form together with a cheque, bank draft or money order.**

To follow Listed Option 1, applicants should:

- complete the personalised Acceptance Form accompanying this Prospectus in accordance with the instructions set out on that form, and indicate the number of Listed Options they wish to subscribe for; and
- return the form to the Share Registry (address details below) together with a cheque, bank draft or money order which must be:
  - in respect of the full Application Monies (being \$0.015 multiplied by the number of Listed Options they wish to subscribe for); and
  - in Australian currency drawn on an Australian branch of a financial institution; and
  - made payable to 'Aura Energy Limited' and crossed 'Not Negotiable'.

Applicants should ensure that sufficient funds are held in the relevant account(s) to cover the Application Monies. If the amount of the cheque for Application Monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay for the number of Listed Options applied for in the Acceptance Form in full, the applicant will be taken to have applied for the lower number of

whole Listed Options as the cleared Application Monies will pay for (and to have specified that number of Listed Options in the Acceptance Form). Alternatively, the application will be rejected.

Cash payments will not be accepted. Receipts for payment will not be issued.

Applicants need to ensure that their completed Acceptance Form and cheque, bank draft or money order reaches the Share Registry at the address below by no later than 5:00pm (AEDT) on 22 April 2021.

Completed Acceptance Forms should be returned to the Share Registry at the following address:

Computershare Investor Services Pty Ltd  
GPO Box 505  
Melbourne VIC 3001  
Australia

#### **Listed Option 2: Pay via BPAY® payment**

To follow Listed Option 2, applicants should pay the full Application Monies, being \$0.015 multiplied by the number of Listed Options comprising their entitlement, or, if subscribing for only part of their entitlement, the number of Listed Options the applicant wishes to subscribe for, via BPAY® payment in accordance with the instructions set out on the personalised Acceptance Form (which includes the biller code and the applicant's unique customer reference number). Applicants can only make a payment via BPAY® if they are the holder of an account with an Australian financial institution.

Please note that if payment is made by BPAY®:

- the applicant does not need to submit the personalised Acceptance Form but is taken to make the statements on that form; and
- if the applicant subscribes for less than its entitlement or does not pay for its full entitlement, the applicant is taken to have taken up its entitlement in respect of such whole number of Listed Options which is covered in full by the Application Monies.

Applicants need to ensure that their BPAY® payment is received by the Share Registry by no later than 5:00pm (AEDT) on 8 November 2021. Applicants should be aware that their own financial institution may implement earlier cut off times with regards to electronic payment, and should therefore take this into consideration when making payment. It is the responsibility of the applicant to ensure that funds are submitted through BPAY® by the date and time mentioned above.

## **2.5. EFFECT OF MAKING AN APPLICATION**

Returning a completed Acceptance Form or making a BPAY® payment will be taken to constitute a representation by the applicant that it:

- makes the representations and warranties in this Section 2.5 and confirms its eligibility in respect of an offer of Listed Options under the Offer;

## **2.6. ENQUIRIES**

This Prospectus is important and should be read in its entirety. Shareholders who are in any doubt as to the course to follow should consult their stockbroker, lawyer, accountant or other professional adviser without delay.

Shareholders who:

- have questions relating to the calculation of their entitlement;
- have questions on how to complete an Acceptance Form or take up their entitlements; or
- have lost an Acceptance Form and would like a replacement form,

### 3.3. THE UNDERWRITER

The Entitlement Offer is fully underwritten by KTM Capital Pty Ltd (“**KTM Capital**” or “**Underwriter**”) (see Section 5.1 for further details). The extent to which Listed Options are issued to KTM Capital pursuant to the Underwriting Agreement and exercised, it will increase KTM Capital’s voting power in the Company.

If the scenario arises, the Underwriter intends to rely on the underwriting exception under item 13 of section 611 of the Corporations Act with respect to its voting power increasing from a shareholding position from under 20% to over 20%, noting that such an exception is available to be relied upon if the issue of securities is to a person as an underwriter and the disclosure document adequately discloses the effect that the acquisition would have on the person’s voting power in the entity.

The Underwriters Relevant Interest and voting power and changes under several scenarios are set out in the table below and assume that all of the Listed Options issued to the Underwriter are exercised. If no Listed Options issued to the Underwriter are exercised, no Shares will be issued to the Underwriter and there will be no effect on their Relevant Interest or Voting Power.

Subscription (%)	Shortfall	Underwriter	
		Relevant Interest	Voting Power
At the date of this Offer Document			
N/A	N/A	0	0%
At completion of the Offer			
100%	Nil	0	0%
75%	25%	33,839,975	6%
50%	50%	67,679,951	12%
40%	60%	81,215,941	14%
25%	75%	101,519,926	18%
0%	100%	135,359,902	24%

The number of Shares in which the Underwriters have a Relevant Interest in on conversion of its Listed Options in the table above shows the potential effect of the Underwriter’s underwriting of the Entitlement Offer. However, it is unlikely that no Shareholders will take up entitlements under the Entitlement Offer. The underwriting obligation and therefore voting power of the Underwriters will reduce by a corresponding amount for the amount of entitlements taken up under the Entitlement Offer by Eligible Shareholders.

The implementation of the Underwriter’s current intentions in relation to their ownership interest in the Company will be subject to the law including the Corporations Act, the Listing Rules and the Company’s Constitution.

### 3.4. PRO FORMA STATEMENT OF FINANCIAL POSITION

Set out on the following page is the audit reviewed statement of financial position for the Company at 30 June 2020, and pro forma statement of financial position at 30 June 2021. The unaudited pro forma statement of financial position has been prepared on the basis and assumption that there have

been no material movements in the assets and liabilities of the Company between 30 June 2021 and completion of the Offer other than:

- the issue of up to approximately 135,359,902 Listed Options (exercisable at \$0.052 and an expiry of 30 June 2024) at an issue price of \$0.015 each through the Entitlement Offer to raise up to approximately \$2,030,399 before costs; and
- the estimated expenses of the Offer are approximately \$217,000.

The significant accounting policies upon which the statement of financial position and the pro forma statement of financial position are based are contained in the audited Annual Report for the year ended 30 June 2021.

#### 3.6.1 EFFECT OF THE ENTITLEMENT OFFER ON CONTROL

The Offer will not have a material impact on the control (as defined by section 50AA of the Corporations Act) of the Company.

### 3.7. EFFECTS OF THE OFFER ON ACTIVITIES OF THE COMPANY

The issue of Listed Options under the Offer will provide funds for the purposes set out in Section 1.2.

## **4 RISK FACTORS**

As with any share investment, there are risks associated with an investment in the Company. The numerous risk factors are both of a specific and a general nature. Some can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated.

This Section 4 identifies the major areas of risk associated with an investment in the Company, but should not be taken as an exhaustive list of the risk factors to which the Company and its Shareholders are exposed. Potential investors should read the entire Prospectus and consult their stockbroker, lawyer, accountant or other professional adviser before deciding whether to apply for Listed Options.

### **4.1. SPECIFIC RISKS**

#### **4.1.1 EXPLORATION AND EVALUATION RISKS**

The mineral tenements that the Company owns or has the right to exploit are located in Mauritanian and Sweden and are at various stages of exploration. Shareholders and potential investors should understand that mineral exploration and development are high-risk undertakings, and only occasionally provide high rewards.

There can be no assurance that exploration of the Company's projects, or any other projects that may be acquired in the future, will result in the discovery of an economic mineral deposit. In addition, there may be high average costs of discovery of an economic deposit, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing difficulties, foreign currency fluctuations and technical problems all affect the ability of a company to profit from any discovery. There is no assurance that exploration and development of the mineral interests owned by the Company, or any other projects that may be acquired in the future can be profitably exploited.

#### **4.1.2 FUTURE CAPITAL REQUIREMENTS AND ADDITIONAL FUNDING**

The future capital requirements of the Company will depend on many factors including the results of future exploration and business development activities. Should the Company require additional funding there can be no assurance that additional financing will be available on acceptable terms, or at all.

Any additional equity financing may be dilutive to Shareholders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy. Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

#### **4.1.3 DEVELOPMENT RISKS AND COSTS**

Possible future development of mining operations at any of the Company's projects is dependent on a number of factors and avoiding various risks, including, but not limited to, failure to acquire and/or delineate economically recoverable mineral bodies, unfavourable geological conditions, failing to receive the necessary approvals from all relevant authorities and parties, unseasonal weather patterns, excessive seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, risk of access to the required level of funding and contracting risk from third parties providing essential services.

In addition, the construction of any proposed future and current development may exceed the expected timeframe or cost for a variety of reasons out of the Company's control. Any delays to project development could adversely affect the Company's operations and financial results and may require the Company to raise further funds to complete the project development and commence operations.

#### **4.1.4 OPERATING RISKS**

The possible future development of a mining operation at any of the Company's projects is dependent on a number of factors. There is no assurance that can be given to the level of viability that the Company's operations may achieve. Unless and until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.

Lower than expected productivity and technical difficulties and late delivery of materials and equipment could have an adverse impact on any future construction and commissioning schedules. No assurance can be given that the intended production schedules will be met or that the estimated operating cash costs and development costs will be accurate.

Further, the operations of the Company (if production commences) may have to be shut down or may otherwise be disrupted by a variety of risks and hazards which are beyond the control of the Company, including environmental hazards, industrial accidents, technical failures, labour disputes, weather conditions, fire, explosions and other accidents at the mine, processing plant or related facilities beyond the control of the Company. The occurrence of any of the risks and hazards could also result in damage to, or destruction of, amongst other things, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability.

The Company intends to apply for insurance within ranges of coverage consistent with industry practice, no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all, or that any coverage it obtains will be adequate and available to cover any such claims).

#### **4.1.5 ENVIRONMENTAL RISKS AND REGULATIONS**

The Company's operations are mainly subject to Mauritanian and Swedish environmental laws and regulations. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds.

The Company attempts to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws. Government authorities may, from time to time, review the environmental bonds that are placed on permits. The Directors are not in a position to state whether a review is imminent or whether the outcome of such a review would be detrimental to the funding needs of the Company.

Further, the Company may require approval from the relevant authorities before it can undertake exploration or development activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations, which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business, financial condition and results of operations.

#### **4.1.6 LICENCES, PERMITS AND PAYMENT OBLIGATIONS**

The Company's activities are dependent upon the grant, or as the case may be, the maintenance of appropriate licences, claims, concessions, leases, permits and regulatory consents which may be withdrawn or made subject to limitations. The Company cannot guarantee that those mining tenements that are applications will ultimately be granted (in whole or in part).

The maintaining of tenements, obtaining renewals, or getting tenements granted, often depends on the Company being successful in obtaining the required statutory approvals for its proposed activities and that the licences, concessions, leases, permits or consents it holds will be renewed as and when

required. There is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed in connection therewith.

Pursuant to the licences comprising the Company's projects, the Company will become subject to payment and other obligations. In particular, licence holders are required to expend the funds necessary to meet the minimum work commitments attaching to the tenements.

Failure to meet these work commitments may render the licence subject to forfeiture or result in the holders being liable for fees. Further, if any contractual obligations are not complied with when due, in addition to any other remedies that may be available to other parties, this could result in dilution or forfeiture of the Company's interest in its projects.

#### **4.1.7 NO PRODUCTION REVENUES**

At present, the Company is not generating any revenues from its projects nor has the Company commenced commercial production on any of its properties. There can be no assurance that significant additional losses will not occur in the near future or that the Company will be profitable in the future.

The Company's operating expenses and capital expenditures may increase in subsequent years as additional consultants, personnel and equipment associated with advancing exploration, development and commercial production of the Company's projects are added. The amounts and timing of expenditures will depend on the progress of ongoing exploration and development, the results of consultants' analyses and recommendations, the rate at which are beyond the Company's control.

The Company expects to continue to incur losses unless and until such time as its projects enter into commercial production and generates sufficient revenues to fund its continuing operations. The development of the Company's projects will require the commitment of substantial resources to conduct the time-consuming exploration and development activities.

There can be no assurance that the Company will generate any revenues or achieve profitability. There can be no assurance that the underlying assumed levels of expenses will prove to be accurate.

#### **4.1.8 POTENTIAL ACQUISITIONS**

As part of its business strategy, the Company may make acquisitions of or significant investments in other resource projects. Any such future transactions would be accompanied by the risks commonly encountered in making acquisitions of resource projects.

#### **4.1.9 ACCESS AND THIRD-PARTY RISKS**

The Company may be required to obtain the consent from the holders of third-party interests which overlay areas within its tenements or future tenements granted to the Company, prior to accessing or commencing any exploration or mining activities on the affected areas within its existing tenements or future tenements.

The Company's existing tenements are in areas that have been the subject of exploration activities. Given the history of the areas, the Directors believe that third party risk to access the tenements is low. As part of the process of submitting a program of works for any ground disturbing activities, any underlying stake holders will be notified and the Company will work to minimise disturbance in relation to the proposed activities in accordance with applicable law.

The Directors however acknowledge that delays may be caused to commencement of exploration programs. The activities contemplated by the Company under all of the tenement work programs are in and around areas historically disturbed by past exploration activities.

Given that the exploration activities contemplated by the Company are proximate to or otherwise in areas that have already been actively explored to some extent, the Directors consider the risk of any impediments with respect to underlying stake holders to be low. However, the Company

acknowledges that exploration success may result in extended work programs that may require further consents.

#### **4.1.10 JOINT VENTURE PARTIES, AGENTS AND CONTRACTORS**

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Company is or may become a party or the insolvency or managerial failure by any of the contractors used by the Company in any of its activities or the insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

#### **4.1.11 INSURANCE AND UNINSURED RISKS**

The Company, where economically feasible, may insure its operations in accordance with industry practice. However, even if insurance is taken out, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered, or fully covered, by insurance could have a material adverse effect on the business, financial condition and results of the Company. Insurance of all risks associated with mineral exploration and production is not always available and, where available, the costs can be prohibitive.

#### **4.1.12 COMMODITY PRICE AND EXCHANGE RATE RISKS**

To the extent the Company is involved in mineral production the revenue derived through the sale of commodities may expose the potential income of the Company to commodity price and exchange rate risks. The prices of uranium, vanadium, gold and base metals fluctuate widely and are affected by numerous factors beyond the control of the Company, such as industrial and retail supply and demand, exchange rates, inflation rates, changes in global economies, confidence in the global monetary system, forward sales of metals by producers and speculators as well as other global or regional political, social or economic events.

Future serious price declines in the market values of uranium, vanadium, gold and base metals could cause the development of, and eventually the commercial production from, the Company's projects and the Company's other properties to be rendered uneconomic. Depending on the prices of commodities, the Company could be forced to discontinue production or development and may lose its interest in, or may be forced to sell, some of its properties.

There is no assurance that, even as commercial quantities of uranium, vanadium, gold and base metals are produced, a profitable market will exist for it. Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company are and will be considered in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.

In addition to adversely affecting any reserve estimates of the Company and its financial condition, declining commodity prices can impact operations by requiring a reassessment of the feasibility of a particular project. Such a reassessment may be the result of a management decision or may be required under financing arrangements related to a particular project. Even if a project is ultimately determined to be economically viable, the need to conduct such a reassessment may cause substantial delays or may interrupt operations until the reassessment can be completed.

#### **4.1.13 CORONAVIRUS (COVID-19) RISK**

The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The price of Shares may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19.

Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company. The Company's ability to freely move people and equipment to and from exploration projects may cause delays or cost increases. The effects of COVID-19 on the Share price may also impede the

Company's ability to raise capital, or require the Company to issue capital at a discount, which may in turn cause dilution to Shareholders.

## **4.2. GENERAL RISKS**

### **4.2.1 RELIANCE ON KEY PERSONNEL**

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. To manage its growth, the Company must attract and retain additional highly qualified management, technical, sales and marketing personnel and continue to implement and improve operational, financial and management information systems. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

### **4.2.2 INVESTMENT RISKS**

The Listed Options to be issued pursuant to this Prospectus should be considered speculative due to the nature of the Company's business. There is no guarantee as to the payment of dividends, return of capital or the market value of the Shares. The prices at which an investor may be able to trade the Shares may be above or below the price paid by the investor for the Shares.

### **4.2.3 SHARE MARKET RISKS**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. The market price of the Shares may be subject to fluctuation and may be affected by many factors including, but not limited to, the following:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

There is also no guarantee that an active market in the Shares will develop or that the price of the Shares will increase. There may be relatively few buyers or sellers of Shares on the ASX at any particular time.

COVID-19 has increased global share market volatility and is likely to continue to negatively affect global share-markets for an undetermined period of time.

### **4.2.4 COMPETITION RISKS**

The industry in which the Company will be involved is subject to domestic and global competition. While the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, and such activities or actions may, positively or negatively, affect the operating and financial performance of the Company's business.

#### 4.2.5 **ECONOMY RISKS**

The future viability of the Company is also dependent on a number of factors which may affect the performance of all industries and not just the education industries including, but not limited to, the following:

- general economic conditions;
- changes in Government policies, taxation and other laws;
- the strength of the equity and share markets in Australia and throughout the world and, in particular, investment sentiment towards the education sector;
- movement in, or outlook on, exchange rates, interest rates and inflation rates; and
- natural disasters, social upheaval or war.

#### 4.2.6 **CLIMATE CHANGE REGULATION**

Increased regulation and government policy designed to mitigate climate change may adversely affect the Company's cost of operations and adversely impact the financial performance of the Company.

The efforts of the Australian government to transition towards a lower-carbon economy may also entail extensive policy, legal, technology and market changes to address mitigation and adaption requirements related to climate change that could significantly impact the Company. Depending on the nature, speed and focus of these changes, transition risks may pose varying levels of financial and reputational risk to the company.

Furthermore, the physical risks to the Company resulting from climate change can be event driven (acute) or longer-term shifts (chronic) in climate patterns. These physical risks may have financial implications for the Company, such as direct damage to assets and indirect impacts from supply chain disruption.

Pursuant to the Underwriting Agreement, the Company will pay the Underwriter an underwriting fee of 6% (plus GST) of the total amount raised under the Entitlement Offer.

The obligation of the Underwriter to underwrite the Entitlement Offer is subject to certain events of termination which are considered standard for an agreement of this type. The material circumstances in which the Underwriter may terminate its obligations under the Underwriting Agreement are:

- (**breach**): The Company fails to perform or observe any of its material obligations under the Underwriting Agreement;

The Underwriting Agreement also contains a number of indemnities, representations and warranties from the Company to the Underwriter that are considered standard for an agreement of this type.

## 6.3. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares being the underlying securities of the Listed Options to be issued pursuant to this Prospectus. The Shares will rank equally in all respects with existing fully paid ordinary shares in the capital of the Company on issue. This summary is not exhaustive. Full details of provisions relating to rights attaching to the Shares are contained in the Corporations Act, ASX Listing Rules and the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

### 6.3.1 GENERAL MEETINGS

- each security holder entitled to vote may vote in person or by proxy, attorney or representative;

- on a show of hands, every person present who is a security holder or a proxy, attorney or representative of a security holder has one vote, and
- on a poll, every person present who is a security holder or a proxy, attorney or representative of a security holder shall, in respect of each fully paid security held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the security, but in respect of partly paid securities shall have such number of votes as bears the same proportion to the total of such securities registered in the security holder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

### **6.3.3 DIVIDEND RIGHTS**

Subject to the rights of persons (if any) entitled to securities with special rights to dividend, the Directors may declare a final dividend out of profits in accordance with the Corporations Act and may authorise the payment or crediting by the Company to the shareholders of such a dividend. Subject to the rights of persons (if any) entitled to securities with special rights as to dividend, all dividends are to be declared and paid according to the amounts paid or credited as paid on the shares in respect of which the dividend is paid. The Company may not pay interest in respect of any dividend, whether final or interim.

### **6.3.4 WINDING UP**

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the security holders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the security holders or different classes of security holders. The liquidator may, with the authority of a special resolution of the Company, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no shareholder is compelled to accept any securities or other securities in respect of which there is any liability. Where an order is made for the winding-up of the Company or it is resolved by special resolution to wind up the Company, then on a distribution of assets to members, any securities classified as restricted securities at the time of the commencement of the winding up shall rank in priority after all other securities.

### **6.3.5 TRANSFER OF SECURITIES**
