

Patent Litigation Update

November 8, 2021 – Mach7 Technologies, Inc., a wholly-owned subsidiary of Mach7 Technologies Limited, announced today that it intends to vigorously defend itself against allegations of patent infringement brought by AI Visualize, Inc., a Texas corporation. In the complaint, AI Visualize alleges that Nuance Communication’s PowerShare™ Network, when used in combination with Mach7’s eUnity viewer, infringes upon four (4) [United States] patents that describe “methods and systems for fast access to advanced visualization of medical scans and 3 dimensional views using a dedicated web portal”.

Mach 7 believes these allegations are wholly without merit and it remains fully committed to the continued development and support of the eUnity enterprise viewing solution. “We, of course, remain focused on advancing patient treatment through our innovative technological solutions despite these baseless allegations” said Michael Lampron, CEO of Mach7. “We look forward to rebutting AI Visualize’s claims in court.”

About Mach 7

Mach7 Technologies develops innovative data management solutions that create a clear and complete view of the patient to inform diagnosis, reduce care delivery delays and costs, and improve patient outcomes. Mach7’s award-winning enterprise imaging platform provides a vendor neutral foundation for unstructured data consolidation and communication to power interoperability and enables healthcare enterprises to build their best-of-breed clinical ecosystems. Mach7’s sophisticated workflow tools, advanced clinical viewing and optimized vendor neutral archiving solutions unlock silos of legacy systems, empowering healthcare providers to own, access and share patient data without boundaries.
