Letter from the Chairman

10 November 2021

Dear Shareholder,

On behalf of the Board of Weebit Nano Ltd (**WBT or Company**), I am pleased to offer you the opportunity to participate in a 1-for-41 non-renounceable pro-rata entitlement offer (**Entitlement Offer**) of new fully paid ordinary shares in WBT (**New Shares**) at an issue price of \$2.84 per share to raise up to approximately \$9 million. This follows the successful share placement announced today with binding commitments from 4 Israel-based institutional investment and pension funds and directors to raise approximately \$25.7 million (**Placement**) (the Placement and Entitlement Offer are together the **Offer**).

The cornerstone investor for the Placement was Meitav Dash. Managing over US\$65 billion in assets, Meitav Dash is a major institutional investment and pension fund in Israel, operating for over 40 years with approximately 1,000 employees.

When Weebit last raised capital from shareholders in November 2020, the Company was well positioned to accelerate research and development activities and move towards first commercial agreement. Since that raising, Weebit has executed on its strategic objectives, achieving several important milestones, including:

- Securing the Company's first commercial deal, licensing its ReRAM technology to volume production with US-based semiconductor foundry SkyWater Technology Inc.
- Together with CEA-Leti, demonstrating excellent results of WBT's ReRAM technology at 28nm on 300mm wafers – a key step towards productisation of embedded NVM for AI, autonomous driving, 5G and advanced IoT
- Completing final design, verification and tape-out of embedded memory module test chip
- Demonstrating the industry's first commercial integration of an OTS selector with an oxide-based ReRAM cell for the discrete memory market
- Expanding the strategic development partnership with CEA-Leti to enhance Weebit's ReRAM offering and support commercialisation
- Filing a new patent optimising ReRAM power consumption
- Filing two new design-related patents with Leti, optimising ReRAM performance
- Further strengthening its executive team with the appointment of Ishai Naveh as Chief Technology Officer.

Market recognition of the need for new technologies to replace embedded Flash memory has materially increased. The successful demonstration of WBT's ReRAM reliability and robustness at 28 nanometres (nm) strongly positions WBT to be a leader in non-volatile memory (NVM) for advanced processes where it is no longer technically or economically feasible to embed Flash memory.

WBT is therefore raising funds to capitalise on growing momentum to accelerate new commercial opportunities and research and development activities to take its ReRAM into even smaller geometries, given progress on discussions with potential production partners and customers.

Having signed the Company's first commercial agreement and with its ReRAM technology delivering the performance expected of it, WBT is well positioned to execute on current and future opportunities in key growth markets.

The current round of funding, aside from introducing a group of well-known Israel-based institutional investment and pension funds, will ensure that WBT is capitalised to execute on its current commercial and technological opportunities, with the aim of converting current and future opportunities in key growth markets into commercial agreements and revenue.

The Entitlement Offer

As an Eligible Shareholder, you are entitled to subscribe for 1 New Share for every 41 existing WBT ordinary shares held on the Record Date (being 7.00 pm (AEDT) on Monday, 15 November 2021 without incurring brokerage or any other transaction costs (**Entitlement**). The Entitlement Offer aims to raise up to approximately \$9 million and is not underwritten.

Since the Entitlement Offer is non-renounceable, your Entitlement will not be tradeable on the ASX or

any other exchange, or otherwise transferrable. This means that if you do not take up this Entitlement Offer, you will not receive any value for those entitlements and your proportionate interest in WBT will be diluted.

Additional New Shares

Eligible Shareholders may also apply for New Shares in excess of their Entitlement (**Additional New Shares**), with such oversubscriptions to be satisfied from Entitlements that were not taken up by other Shareholders under the Entitlement Offer. The Directors reserve the right to allot and issue Additional New Shares in their absolute discretion. Please see section 3 for further details on how Additional New Shares will be allocated to Eligible Shareholders.

New Shares and Additional New Shares will be issued on a fully paid basis and will rank equally with existing Shares.

Purpose of the Offer and use of proceeds

4 ENTITLEMENT OFFER – HOW TO APPLY

4.1 Taking up all or part of your Entitlement

If you wish to take up all or part of your Entitlement, payment must be made via BPAY if possible. Eligible Shareholders based in New Zealand who do not have an Australian bank account will be able to pay by cheque, bank draft or money order.

Payments must be made by following the instructions set out on the personalised Application Form. Payment is due by no later than 5.00pm (AEDT) on Monday, 29 November 2021.

4.2 Taking up all of your entitlement and applying for Additional New Shares

Eligible Shareholders who take up all of their Entitlement (and are not a Related Party of WBT) may apply for more than their Entitlement in addition to their Entitlement as Additional New Shares. Additional New Shares will only be made from any available Shortfall.

If you wish to take up all of your Entitlement and apply for Additional New Shares, the Application Monies payable will be equal to the Offer Price multiplied by the total of the number of New Shares comprising your Entitlement and the number of Additional New Shares you wish to take up – you will need to calculate this number yourself.

Additional New Shares will only be allocated to you if there are sufficient New Shares resulting from a Shortfall, subject to any scale back which WBT may apply (in its absolute discretion). There is no guarantee you will be allocated any Additional New Shares. Related Parties of WBT may not apply for Additional New Shares.

If you wish to take up all of your Entitlement and any Additional New Shares, payment must be made via BPAY. For Eligible Shareholders based in New Zealand who do not have an Australian bank account that supports BPAY transactions, alternative electronic funds transfer (EFT) payment arrangements will be made available at <https://weebitnano2021nrri.thereachagency.com>. Payments must be made by following the instructions set out on the personalised Application Form. Payment is due by no later than 5.00pm (AEDT) on Monday, 29 November 2021.

4.3 Allowing your Entitlement to lapse

If you take no action, you will not be issued New Shares and your Entitlement will lapse. Your Entitlement is non-renounceable and is not tradeable or otherwise transferable. Eligible Shareholders who do not take up their Entitlements in full will not receive any value for those Entitlements they do not take up.

4.4 Payment

WBT will treat you as applying for as many New Shares as your payment will pay for, in full, up to your Entitlement.

If your payment will pay for more than your full Entitlement, WBT will treat you as applying for your full Entitlement and as many Additional New Shares under the Oversubscription Facility as your payment will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

4.5 Payment by BPAY

To pay by BPAY, please follow the instructions on your personalised Application Form (which includes the Biller Code and your unique Customer Reference Number). You can only make a payment via BPAY if you are the holder of an account with an Australian branch of a financial institution that supports BPAY transactions.

You should instruct payment well before 5.00pm (AEDT) on the Closing Date to enable its receipt before the Entitlement Offer closes.

Your Application Form is not required to be lodged with the Share Registry and you will be deemed to have made the declarations set out in this Prospectus and on the Application Form.

Please make sure to use the specific Biller Code and unique Customer Reference Number on your personalised Application Form. If you receive more than one personalised Application Form, you will need to complete individual BPAY transactions using the Customer Reference Number specific to each individual personalised Application Form that you receive.

You should be aware that your financial institution may implement earlier cut off times with regards to electronic payment and you should therefore take this into consideration when making payment. You may also have your own limit on the amount that you can pay via BPAY. It is your responsibility to check that the amount you wish to pay via BPAY does not exceed your limit.

For Eligible Shareholders based in New Zealand who do not have an Australian bank account that supports BPAY transactions, alternative electronic funds transfer (EFT) payment arrangements will be made available at <https://weebitnano2021nrri.thereachagency.com>.

Entitlement Offer

This Prospectus is important for people who meet all of the following requirements (referred to as "**Eligible Shareholders**" in this Prospectus):

- you have a registered address on the WBT share register in Australia or New Zealand; and
- you are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent you hold WBT Shares for the account or benefit of such person in the United States); and
- you are eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

If you are a retail Shareholder that is **not** an Eligible Shareholder, then you are referred to as an "**Ineligible Shareholder**" in this Prospectus.

To help you understand the terminology used in this Prospectus:

- references to 'you' are references to Eligible Shareholders; and
- references to 'your Entitlement' are references to the Entitlements of Eligible Shareholders; and
- references to 'your Application Form' are references to the form of that name accompanying this Prospectus that you can use to take up your Entitlement.

5.3 Minimum subscription

There is no minimum subscription for the Offer.

5.4 Scale-back

The Entitlement Offer aims to raise up to approximately A\$9,000,000. WBT may, in its absolute discretion, reduce the number of New Shares allotted to each applicant to the extent and in the manner that it sees fit, including if the aggregate amount applied for by all Eligible Shareholders exceeds WBT's requirements (**Scale-back**).

If there is a Scale-back, you may receive less than the parcel of New Shares for which you have applied.

If there is a Scale-back, the difference between the Application Monies received from you, and the number of New Shares allocated to you multiplied by the issue price of \$2.84 per New Share, will be refunded by WBT to you, without interest, following allotment.

If a Scale-back produces a fractional number of New Shares when applied to your Share parcel, the number of New Shares you will be allotted will be rounded down to the nearest whole number.

5.5 Dispute Resolution

WBT may settle in any manner it thinks fit, any difficulties, anomalies or disputes that may arise in connection with or by reason of the operation of the Entitlement Offer. The decision of WBT will be conclusive and binding on all participants and other persons to whom the determination relates. WBT's rights may be exercised by the Board or any delegate of the Board. The powers of WBT under these terms and conditions may be exercised by the Directors or any delegate or representative of the Directors or senior officers of WBT.

5.6 Underwriting

The Placement and the Entitlement Offer are not underwritten.

5.7 Shares will be quoted

Subject to the Corporations Act and the Listing Rules, application will be made to ASX no later than 7 days after the date of this Entitlement Offer Prospectus for Official Quotation of the Securities under the Offer. There is no assurance that the application will be granted.

If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of this Entitlement Offer Prospectus (or such period as varied by the ASIC), the Company will not issue any Shares.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

5.8 Issue

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out in this Entitlement Offer Prospectus.

Holding statements for Securities issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out in this Entitlement Offer Prospectus.

Due to legal restrictions, nominees and custodians may not send copies of this Entitlement Offer Prospectus or accept the Entitlement Offer on behalf of any person in the United States or other jurisdiction outside Australia or New Zealand, except to beneficial Shareholders who are institutional or professional investors in certain foreign countries as the Company may otherwise permit in compliance with applicable law.

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus. In particular, this Prospectus does not constitute an offer to Ineligible Shareholders. WBT has decided that it is unreasonable to make offers under the Entitlement Offer to retail investors who are holders of WBT Shares and who are resident outside Australia and New Zealand, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered and the cost of complying with the relevant regulatory and legal requirements in those places.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an application to take up Securities on the basis of this Prospectus. Wednesday, 10 November 2021 – **Weebit Nano Limited (ASX:WBT)**, a leading developer of next-generation memory technologies for the global semiconductor industry, is pleased to announce a capital raising comprising a placement of approximately A\$25.7 million to 4 Israel-based institutional investment and pension funds, and a pro rata non-renounceable entitlement offer to raise up to approximately A\$9.0 million (before costs) if fully subscribed.

The cornerstone investor for the institutional placement was Meitav Dash. Managing over US\$65 billion in assets, Meitav Dash is a major institutional investment and pension fund in Israel, operating for over 40 years with approximately 1,000 employees.

Commenting on the placement and entitlement offer, Weebit CEO Coby Hanoach said: “We have always believed we were progressing ground-breaking technology, and are very encouraged by the strong level of support shown by our new Israeli institutional investors. These institutional investment and pension funds have substantial technology investment experience and enter our register during an exciting time for Weebit Nano as we build off recent milestones.

“We see huge potential for Weebit Nano’s memory technology across multiple attractive markets. This Capital Raising allows us to bring forward growth initiatives that were planned for two years’ time, accelerating our ability to deliver on the attractive opportunities we see for the Company as commercial interest in our technology grows.

“With a loyal and supportive shareholder base, many of whom have been with the Company for the past five years, as with past capital raisings we wanted to ensure that existing shareholders also had an opportunity to further invest on the same terms as our new institutional shareholders. The Entitlement Offer announced today provides that opportunity and we look forward to the continued support from our existing shareholders as we further commercialise our ReRAM technology and progress our research and development activities.”

Since Weebit last raised capital from shareholders in November 2020, it has delivered a series of achievements that have demonstrated ongoing technological and commercial progress. As a result, Weebit is experiencing a growing level of customer interest in its unique Resistive Random-Access Memory (ReRAM) technology.

At the same time, market recognition of the need for new technologies to replace embedded Flash memory has materially increased. The successful demonstration of Weebit’s ReRAM reliability and robustness at 28 nanometres (nm) strongly positions it to be a leader in non-volatile memory (NVM) for advanced processes where it is no longer technically or economically feasible to embed Flash memory.

Weebit is therefore raising funds to capitalise on growing momentum to accelerate new commercial opportunities and research and development activities to take Weebit’s ReRAM into even smaller geometries, given progress on discussions with potential production partners and customers.

Executing on strategic priorities

When Weebit last raised capital from shareholders in November 2020, the Company was well positioned to accelerate research and development activities and move towards first commercial agreement. Since that raising, Weebit has executed on its strategic objectives, achieving several important milestones, including:

- Securing the Company’s first commercial deal, licensing its ReRAM technology to volume production with US-based semiconductor foundry SkyWater Technology Inc.
- Together with CEA-Leti, demonstrating production level parameters for Weebit’s ReRAM technology at 28nm on 300mm wafers – a key step towards productisation of embedded NVM for AI, autonomous driving, 5G and advanced IoT
- Completing final design, verification and tape-out of embedded memory module test chip
- Demonstrating the industry’s first commercial integration of an OTS selector with an oxide-based ReRAM cell for the discrete memory market
- Expanding the strategic development partnership with CEA-Leti to enhance Weebit’s ReRAM offering and support commercialisation
- Filing a new patent optimising ReRAM power consumption
- Filing two new design-related patents with CEA-Leti, optimising ReRAM performance
- Further strengthening its executive team with the appointment of Ishai Naveh as Chief Technology Officer.

Having signed the Company's first commercial agreement and with its ReRAM technology delivering the performance expected of it, Weebit is well positioned to execute on current and future opportunities in key growth markets.

Proceeds to accelerate growth opportunities

The current round of funding, aside from introducing a group of well-known Israel-based institutional investment and pension funds, will ensure that Weebit is capitalised to execute on its current commercial and technological opportunities, with the aim of converting current and future opportunities into commercial agreements and revenue.

The proceeds from this capital raising will support:

- Migrating Weebit's ReRAM technology to smaller geometries (below 28nm)
- Continued development of the discrete memory component, growing it to larger arrays
- Constant improvement of the technology parameters, making Weebit's ReRAM even more robust
- Expanding marketing and sales activities – transferring the technology to additional fabs, and signing up customer projects that will license the technology and embed it into their designs
- General working capital requirements.

Market Eye acted as corporate advisor, and Canaccord Genuity (Australia) Limited acted as Lead Manager to the Capital Raising.

DETAILS OF THE CAPITAL RAISING

Weebit is mindful of providing its existing shareholders with an opportunity to participate in the Company's capital raising. As such, the Company has structured the raising as follows:

1. Institutional Placement

A strongly supported institutional investment (including approximately A\$300,000 from Directors if approved by shareholders) in fully paid ordinary shares (**New Shares**) in Weebit by 4 Israel-based institutional investment and pension funds, with Meitav Dash as the cornerstone investor, raised approximately A\$25.7 million (before costs) (**Placement**).

The Placement comprises an offer of 9,040,147 new fully paid ordinary shares in the Company (**Placement Shares**) at an issue price of A\$2.84 per share (**Offer Price**). The issue price of A\$2.84 per share represents an 11.5% discount to the last closing share price on 8 November 2021, and a 15.0% discount to the 5-day volume weighted average market price of the Company's shares on ASX.

Subject to shareholder approval, certain of Weebit's non-Australian Directors intend to subscribe for approximately A\$300,000 of New Shares (in aggregate) at the Offer Price.

Placement Shares will rank equally with the Company's existing ordinary shares on issue but will not be entitled to participate in the Entitlement Offer. The Placement will take place as a single tranche and fall under the Company's available Listing Rule 7.1 capacity.

2. Entitlement Offer

Under the Entitlement Offer, eligible Weebit shareholders may apply for 1 new share for every 41 fully paid ordinary shares in the Company held at 7.00pm AEDT on Monday 15 November 2021 (**Record Date**), at an issue price of \$2.84 per New Share, to raise up to approximately A\$9.0 million before costs if fully subscribed (**Entitlement Offer**).

All shareholders at the Record Date with a registered address in Australia and New Zealand, or Weebit has otherwise determined is eligible to participate, will be eligible to participate in the Entitlement Offer (**Eligible Shareholders**). Eligible Shareholders may take up their entitlement to acquire New Shares in full or in part or not at all.

Holders of options issued by Weebit cannot participate in the Entitlement Offer without first exercising their options so that the underlying shares are issued and holders are registered by the Record Date.

The Entitlement Offer is non-renounceable. This means Eligible Shareholders who do not wish to subscribe for some or all of their entitlement may not sell or transfer their rights to some or all of their entitlement.

All New Shares will rank equally with existing ordinary shares in the capital of the Company.

Entitlements

Entitlements in respect of new shares will be rounded down to the nearest whole number and holdings on different registers or sub-registers will not be aggregated to calculate entitlements. The Entitlement Offer is non-renounceable and entitlements cannot be traded on ASX.

Eligible Shareholders may also apply for New Shares in excess of their entitlement (**Additional New Shares**) under a shortfall facility. Any Additional New Shares will be limited to the extent that there are New Shares not taken up under the Entitlement Offer and to the extent permitted by law. The Company reserves the right to issue the Additional New Shares in its absolute discretion. In the event that applications for Additional New Shares exceed the number of Additional New Shares available for issue under the shortfall facility, Additional New Shares will be allocated to applicants at the Board's sole discretion.

Additional New Shares

Pursuant to the Entitlement Offer, Weebit will issue up to approximately 3.15 million New Shares. The New Shares issued under the Entitlement Offer will be fully paid ordinary shares and will rank equally in all respects with the existing Shares on issue.

About Weebit Nano Limited

Weebit Nano Ltd. is a leading developer of next-generation semiconductor memory technology. The company's ground-breaking Resistive RAM (ReRAM) addresses the growing need for significantly higher performance and lower power memory solutions in a range of new electronic products such as Internet of Things (IoT) devices, smartphones, robotics, autonomous vehicles, 5G communications and artificial intelligence.

Weebit's ReRAM allows semiconductor memory elements to be significantly faster, less expensive, more reliable and more energy efficient than those using existing Flash memory solutions. Because it is based on fab-friendly materials, the technology can be quickly and easily integrated with existing flows and processes, without the need for special equipment or large investments.

8 AUSTRALIAN TAXATION CONSIDERATIONS

8.1 Introduction

This section is a general summary of certain Australian income tax, GST and duty implications of the Entitlement Offer for certain Eligible Shareholders.

The Australian taxation implications of the Entitlement Offer and any application for Additional New Shares will vary depending upon your particular circumstances. Accordingly, you should seek and rely upon the professional advice of your own taxation or financial advisor before determining the particular taxation treatment that will apply to you.

Neither WBT nor any of its officers or employees, nor its taxation and other advisers, accepts any liability or responsibility in respect of any statement concerning taxation consequences, or in respect of the taxation consequences.

The comments in this section deal only with the Australian taxation implications of the Entitlement Offer if you:

- are a resident of, and only of, Australia for Australian income tax purposes; and
- hold your Shares on capital account (i.e. are not subject to Australian income tax on disposal of your Shares outside of the CGT regime).

The comments do not apply to you if you:

- are not a resident of Australia for Australian income tax purposes; or
- hold your Shares as revenue assets or trading stock (which will generally be the case if you are a bank, insurance company or carry on a business of share trading);
- are a custodian or are subject to concessionary tax rules or otherwise exempt from Australian income tax;
- acquired the Shares in respect of which the Entitlements are issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme;
- are subject to the taxation of financial arrangements regime in Division 230 of the *Income Tax Assessment Act 1997* (Cth); or
- participated in the Placement.

This taxation summary is necessarily general in nature and is based on the Australian tax legislation and administrative practice in force as at the date of this Prospectus. It does not take into account any individual circumstances, financial objectives, tax positions, or investment needs of Eligible Shareholders. It is strongly recommended that each Eligible Shareholder seek their own independent professional tax advice applicable to their particular circumstances in respect of the Entitlement Offer.

8.2 Issue of Entitlement

The issue of the Entitlement to you should not, in itself, result in any amount being included in your assessable income for Australian income tax purposes.

8.3 Exercise of Entitlement and application for Additional New Shares

You will acquire New Shares if you exercise all or part of your Entitlements under the Entitlement Offer. You will acquire Additional New Shares if you apply for them and are allocated them.

No amount should be included in your assessable income for Australian income tax purposes on the exercise (ie taking up) of your Entitlements, or the acquisition of New Shares.

If you take up all or some of your Entitlement or acquire Additional New Shares, you will acquire your New Shares and any Additional New Shares with a cost base (for CGT purposes) equal to the Offer Price payable by you for those New Shares and Additional New Shares plus certain non-deductible incidental costs, if any, you incur in acquiring them.

New Shares (other than Additional New Shares) will be taken to have been acquired for CGT purposes on the day you exercise the Entitlements. Additional New Shares will be taken to have been acquired for CGT purposes when they are issued to you.

8.4 Lapse of Entitlement

The lapse of any Entitlement should not, in itself, result in any amount being included in your assessable income for Australian income tax purposes.

8.5 Dividends on New Shares

Any future dividends or other distributions paid to you in respect of New Shares will be subject to the same Australian income taxation treatment as dividends or other distributions made on your Existing Shares held in the same circumstances.

In general terms, any amounts treated as dividends for Australian income tax purposes will be included in your assessable income. An additional amount may be required to be included in your assessable income in respect of any franking credits allocated to such dividends, and a tax offset may also be available in respect of such franking credits (which in certain circumstances may be refundable), in each case subject to certain anti-avoidance rules and qualification requirements.

Distributions on New Shares that are not treated as dividends for Australian income tax purposes will generally reduce the cost base of such New Shares

8.6 Disposal of New Shares

The future disposal of any New Shares by you will constitute a disposal for CGT purposes.

On disposal of a New Share or an Additional New Share, you will make a capital gain if the capital proceeds received on disposal exceed the cost base of that New Share. You will make a capital loss if the capital proceeds are less than the reduced cost base of the New Share. The cost base of the New Shares is described above in Section 8.3.

Eligible Shareholders that are individuals, trustees or complying superannuation entities that have held their New Shares for 12 months or more (excluding the acquisition and disposal dates) at the time of disposal for CGT purposes may be entitled to apply the applicable CGT discount to reduce the capital gain (after offsetting capital losses). The CGT discount is currently 50% for individuals and trustees and 33.33% for complying superannuation entities. The CGT discount does not apply to an Eligible Shareholder that is a company.

In calculating the 12 month period for the CGT discount. New Shares (other than Additional New Shares) will be treated as having been acquired when you exercise your Entitlement. Accordingly, to be eligible for the CGT discount, the New Shares must be held for at least 12 months after the date that you exercised their Entitlement. Additional New Shares will be treated as having been acquired when they are issued to you.

If you make a capital loss, you can only use that loss to offset other capital gains from other sources (ie the capital loss cannot be used to reduce your other taxable income). However, if the capital loss cannot be used in a particular income year, it can be carried forward to use in future income years against future capital gains, providing certain tests are satisfied.

8.7 Provision of TFN and/or ABN

WBT may be required to withhold tax at the specified rate (currently 47%) from payments of dividends that are not fully franked and remit such amounts to the Australian Taxation Office, unless you have provided an ABN or TFN to WBT, or you have informed WBT that you are exempt from quoting your ABN or TFN.

You are not required to provide your ABN or TFN to WBT, however, you may choose to do so. If you have previously quoted your ABN, TFN, or have notified us that an exemption from quoting your ABN/TFN exists, that quotation or exemption will also apply in respect of any New Shares acquired by you under the Entitlement Offer.

8.8 GST and duty

No GST or duty should be payable by you in respect of the issue, exercise (i.e. taking up) or lapse of Entitlements, or the acquisition of New Shares, or the payment of distributions on New Shares. .

An Eligible Shareholder may not be entitled to claim 'input tax credits', including 'reduced input tax credits', for GST that it has paid to third party suppliers for services associated with the acquisition or disposal of New Shares (such as brokerage or adviser fees).

9 RIGHTS AND LIABILITIES ATTACHING TO NEW SHARES

9.1 Shares

The following is a summary of the more significant rights and liabilities attaching to Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours:

(a) General meeting and notices

Each member is entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to members under the Constitution, the Corporations Act or the ASX Listing Rules.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at a general meeting of the Company every holder of fully paid ordinary shares present in person or by an attorney; representative or proxy has one vote on a show of hands (unless a member has appointed 2 proxies) and one vote per share on a poll.

A person who holds a share which is not fully paid is entitled, on a poll, to a fraction of a vote equal to the proportion which the amount paid bears to the total issue price of the share.

Where there are 2 or more joint holders of a share and more than one of them is present at a meeting and tenders a vote in respect of the share, the Company will count only the vote cast by the member whose name appears first in the Company's Register of members.

(c) **Issues of further Shares**

The Directors may, on behalf of the Company, issue, grant options over unissued shares to any person on the terms, with the rights, and at the times that the Directors decide. However, the Directors must act in accordance with the restrictions imposed by the Constitution, Listing Rules, the Corporations Act and any rights for the time being attached to the shares in any special class of those Shares.

(d) **Variation of Rights**

Unless otherwise provided by the terms of issue of a class of Shares and subject to the Corporations Act, the rights attached to the Shares in any class may be varied or cancelled only with the written consent of the holders of at least three-quarters of the issued shares of the affected class, or by special resolution passed at a separate meeting of the holders of the issued Shares of the affected class.

(e) **Transfer of Shares**

Subject to the Constitution, the Corporations Act and ASX Listing Rules, Shares are freely transferable.

The Shares may be transferred by a proper transfer effected in accordance with the ASX Settlement Operating Rules, by any other method of transferring or dealing with Shares introduced by ASX and as otherwise permitted by the Corporations Act or by a written instrument of transfer in any usual form or in any other form approved by either the Directors or ASX that is permitted by the Corporations Act.

The Directors may decline to register a transfer of Shares (other than a proper transfer in accordance with the ASX Settlement Operating Rules) where permitted to do so under the ASX Listing Rules. If the Directors decline to register a transfer, the Company must, within 5 Business Days after the transfer is delivered to the Company, give the party lodging the transfer written notice of the refusal and the reason for the refusal. The Directors must decline to register a transfer of Shares when required by law, by the ASX Listing Rules or by the ASX Settlement Operating Rules.

(f) **Dividends**

The Directors may from time to time determine dividends to be distributed to members according to their rights and interests. The Directors may fix the time for distribution and the methods of distribution.

Each share carries the right to participate in the dividend in the same proportion that the amount for the time being paid on the share (not credited) bears to the total amounts paid and payable (excluding amounts credited) in respect of such shares.

(g) **Dividend reinvestment and Share plans**

Subject to the requirements in the Corporations Act and the ASX Listing Rules, the Directors may implement and maintain dividend reinvestment plans (under which any member may elect that dividends payable by the Company be reinvested by way of subscription for fully paid shares in the Company).

(h) **Capitalisation of profits**

Subject to the ASX Listing Rules and any rights or restrictions attaching to any class of shares, the Company may capitalise profits. Members are entitled to participate in a capital distribution in the same proportions in which they are entitled to participate in dividends.

(i) **Winding-up**

Subject to the rights of holders of shares with special rights in a winding-up and the Corporations Act, if the Company is wound up all monies and property that are to be distributed among Shareholders on a winding-up, shall be distributed in proportion to the Shares held by them respectively, irrespective of the amount paid-up or credited as paid-up on the Shares.

(j) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(k) **Alteration of Constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

10 RISK FACTORS

An investment in WBT involves general risks associated with an investment in the share market. The price of New Shares may rise or fall.

There are also a number of risk factors, both specific to WBT and of a general nature, which may affect the future operating and financial performance of WBT and the value of an investment in WBT. Before deciding to invest in WBT, prospective investors should carefully consider the “Risk Factors” section in this Prospectus.

10.1 Introduction

This Section describes the key risks of investing in WBT. You should consult your own professional, financial, legal and tax advisers about the risks and suitability of investing in light of your particular circumstances.

This is not an exhaustive list of the relevant risks and the risks set out below are not in order of importance. The risks set out below and other risks not specifically referred to may in the future materially adversely affect the value of the WBT’s shares and their performance. Accordingly, no assurance or guarantee of future performance or profitability is given by WBT in respect of WBT’s shares.

In deciding whether to invest in WBT, you should read this Prospectus in its entirety and carefully consider the risks outlined in this Section. You should also consider publicly available information on WBT and examine the full content of this Prospectus.

10.2 COVID-19 Business Risks

Even though WBT is pre-revenue, WBT’s operating and financial performance is influenced by a variety of domestic and global general economic and business conditions. A prolonged deterioration in general economic conditions, including a decrease in business demand, would likely have a material adverse effect on WBT’s prospects or financial condition (or both). This risk is heightened in the current uncertain economic environment.

In light of recent global macroeconomic events, including but not limited to the global impact of COVID-19, the world economy is experiencing significant uncertainty and there is a risk that an economic downturn of uncertain severity and duration could transpire. Furthermore, the containment measures implemented in response to COVID-19 have led to significant and prolonged dislocation to economies globally, including in the markets in which WBT operates.

There are also other changes in the macroeconomic environment which are also beyond the control of WBT and may be exacerbated in an economic downturn. These include, but are not limited to:

- changes in inflation, interest rates and foreign currency exchange rates;
- changes in employment levels and labour costs;
- changes in aggregate investment and economic output; and
- other changes in economic conditions which may affect the revenue or costs of WBT.

In particular, the inability for WBT’s people to travel and temporary shutdowns of certain facilities of WBT’s partners might delay the progress of technological development and commercialisation.

Due to the impact of COVID-19, many of these factors are in a state of change and may have an adverse impact on the financial position and prospects of WBT in the future. WBT may need to take additional measures in order to respond, including cost cutting and delays to development plans.

10.3 Risks in Respect of WBT's Current Operations

(a) **Funding risk**

WBT currently operates on a negative cash operating basis in that its operating expenses exceed its revenue, which is negligible. The Entitlement Offer is not underwritten. There is no minimum subscription for the Entitlement Offer. There is no guarantee that the monies raised under the capital raising will be adequate or sufficient to achieve its stated objectives or meet the ongoing funding requirements of WBT under its current business plan.

If the capital raising does not achieve the amount of capital sought, or WBT requires access to further funding at any stage in the future, there can be no assurance that additional funds will be available either at all or on terms and conditions which are commercially acceptable to WBT. If WBT is unable to obtain such capital, it may be required to reduce the scope of its anticipated activities, which could adversely affect its business, financial condition and operating results. If sufficient funding is not raised, the embedded memory module which is closer to generating revenue, may need to be prioritised over discrete memory. This is the case particularly given the challenges of developing selectors.

(b) **Existing technology risks**

Current memory storage technologies like DRAM, NAND Flash and NOR Flash face technological barriers to meet long term customer requirements and demands. These barriers include the ability to reduce costs, improve power consumption and improve reliability. Existing memory technologies may however be able to overcome these barriers and remain as the leading and customer preferred technology.

(c) **Termination of SkyWater Agreements**

As at the date of this Prospectus, WBT is party to a technology transfer and qualification agreement and a technology licencing agreement with SkyWater Technology Inc. (**SkyWater Agreements**). The SkyWater Agreements contain customary termination events. While it is expected that Weebit will sign additional similar agreements with other fabs, early termination of the SkyWater Agreements, for any reason, may mean that WBT will not realise the full value of the contracts, which may adversely affect the growth prospects, operating results and financial performance of the WBT's projects and business.

(d) **Failure to realise benefits from research and development investments**

Developing software and technology is expensive and the investment in the development of these offerings often involve an extended period of time to achieve a return on investment. WBT believes it can continue to dedicate resources to its innovation efforts to develop its technology service offering and embed its competitive position. However, WBT may not receive significant revenues from these investments for several years or may not realise such benefits at all.

(e) **Competition and new technologies**

The industry in which WBT is involved is subject to increasing domestic and global competition which is fast-paced and fast-changing. There are various companies working to develop alternative data storage solutions, including the development of technologies that are based on the concept of ReRAM.

While WBT will undertake all reasonable due diligence in its business decisions and operations, WBT will have no influence or control over the activities or actions of its competitors, whose activities or actions may positively or negatively affect the operating and financial performance of WBT's projects and business. For instance,

new technologies could result in the ReRAM Technology not being differentiated from other similar offerings.

The size and financial strength of some of WBT's competitors may make it difficult for it to maintain a competitive position in the technology market. In particular, WBT's ability to acquire additional technology interests could be adversely affected if it is unable to respond effectively and/or in a timely manner to the strategies and actions of competitors and potential competitors or the entry of new competitors into the market. This may in turn impede the financial condition and rate of growth of WBT. The key competition risk is in achieving appreciable market share and differentiation from its key competitors.

(f) **Sales and marketing success**

WBT is seeking to develop and market the ReRAM technology. By its nature, there is no guarantee that the ReRAM technology development and marketing campaign will be successful. In the event that it is not successful, WBT may encounter difficulty creating market awareness of the ReRAM technology. This would likely have an adverse impact on WBT's potential profitability.

Even if WBT does successfully commercialise the ReRAM technology, there is a risk WBT will not achieve an acceptable commercial return. For example, new technology may overtake WBT's technology.

(g) **Staff Risk**

There is a risk that knowledge will be lost in the event that development staff who have knowledge of the technology and business staff resign or retire. This involves the risk that those staff will have information in respect of WBT's intellectual property which has a commercial value, as well as an opportunity cost for replacement of those staff and subsequent training.

(h) **Protection of intellectual property rights**

WBT continues to pursue intellectual property protection in the form of patents for newly developed technologies. However, if WBT fails to protect its intellectual property rights, competitors may gain access to its technology which may harm its business.

Securing rights to intellectual property, and in particular patents, is an integral part of securing potential product value from the development of information technology. Competition in retaining and sustaining protection of intellectual property and the complex nature of intellectual property can lead to expensive and lengthy patents disputes for which there can be no guaranteed outcome.

Legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Effective patent, trademark, copyright and trade secret protection may not be available to WBT in every country in which the ReRAM technology may eventually be sold. Accordingly, despite its efforts, WBT may not be able to prevent third parties from infringing upon or misappropriating its intellectual property.

Market conditions depending, WBT may be required to incur significant expenses in monitoring and protecting future intellectual property rights. It may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of its rights. Any litigation, whether or not it is successful, could result in significant expense to WBT and cause a distraction to management.

In addition, unauthorised use of the “Weebit” brand in counterfeit products or services may not only result in potential revenue loss, but also have an adverse impact on its brand value and perceptions of its product qualities.

(i) **Currency Risk**

WBT expects to derive a majority of its revenue in US dollars. WBT will also be required to pay fees in the currency for the State of Israel (shekel), the Australian dollar and Euro. Accordingly, changes in the exchange rate between the US dollar and Euro, the US dollar and the Australian dollar or the Israel shekel and the Australian dollar or the Australian dollar and Euro would be expected to have a direct effect on the performance of WBT.

10.4 General risks

(a) **Share Price Fluctuations**

The market price of WBT's securities will fluctuate due to various factors, many of which are non-specific to WBT, including recommendations by brokers and analysts, Australian and international general economic conditions, inflation rates, interest rates, changes in government, fiscal, monetary and regulatory policies, global geopolitical events and hostilities and acts of terrorism, and investor perceptions. Fluctuations such as these may adversely affect the market price of the Shares. Neither WBT nor the Directors warrant the future performance of WBT or any return on investment in WBT.

(b) **Dilution Risk**

Eligible Shareholders that do not take up all or part of their Entitlements will be diluted by not participating to the full extent in the Entitlement Offer and will not be exposed to future increases or decreases in the price of those shares which would have been issued to them had they taken up all of their Entitlement.

(c) **Economic Risks**

WBT is exposed to economic factors in the ordinary course of business. A number of economic factors / conditions, both domestic and global, affect the performance of financial markets generally, which could affect the price at which the WBT's securities trade on ASX. Among other things, adverse changes in macroeconomic conditions, including movements on international and domestic stock markets, interest rates, exchange rates, cost and availability of credit, general consumption and consumer spending, input costs, employment rates and industrial disruptions, inflation and inflationary expectations and overall economic conditions, economic cycles, investor sentiment, political events and levels of economic growth, both domestically and internationally, as well as government taxation, fiscal, monetary, regulatory and other policy changes may affect the demand for, and price of, the WBT's securities and adversely impact WBT's business, financial position and operating results. Trading prices can be volatile, and volatility can be caused by general market risks such as those that have been mentioned. Securities in WBT may trade at or below the price at which they commence trading on ASX including as a result of any of the factors that have been mentioned, and factors such as those mentioned may also affect the income, expenses and liquidity of WBT. Additionally, the stock market can experience price and volume fluctuations that may be unrelated or disproportionate to the operating performance of WBT.

(d) **Taxation**

Future changes in taxation law in the jurisdictions in which WBT operates or in which shareholders are resident or are otherwise subject to tax, including changes in interpretation or application of the law by the courts or relevant taxation authorities in

those jurisdictions, may affect the taxation treatment of an investment in WBT's securities, the acquisition, holding and disposal of those securities and any dividends or other distributions paid on WBT's securities.

Further, changes in tax law, or changes in the way tax law is, or is expected to be, interpreted or applied, in the various jurisdictions in which WBT operates, may impact the future tax liabilities of WBT.

(e) **Accounting Standards**

WBT prepares its general-purpose financial statements in accordance with International Financial Reporting Standards (IFRS) and the *Corporations Act 2001* (Cth). Australian Accounting Standards are subject to amendment from time to time, and any such changes may impact on WBT's statement of financial position or statement of financial performance.

(f) **Forward-Looking Statements**

This Prospectus contains certain "forward looking statements". Forward looking statements should or can generally be identified by the use of forward looking words such as "anticipate", "believe", "expect", "project", "forecast", "estimate", "likely", "intend", "should", "will", "could", "may", "target", "plan" and other similar expressions within the meaning of securities laws of applicable jurisdictions. Indications of, and guidance or outlook on, future earnings, distributions or financial position or performance are also forward looking statements.

There can be no guarantee that the assumptions and contingencies on which the forward-looking statements, opinions, estimates, timelines and milestones are based will ultimately prove to be valid or accurate. The forward-looking statements, opinions and estimates depend on various factors, including known and unknown risks, many of which are outside the control of WBT. Actual performance of WBT may materially differ from forecast performance.

Forward looking statements may also be based on estimates and assumptions which are subject to change. Actual results, performance or achievements may vary materially for many projections because events and actual circumstances frequently do not occur as forecast and these differences may be material. These statements may assume the success of WBT's business strategies. The success of any of these strategies is subject to uncertainties and contingencies beyond WBT's control (including uncertainties described in the "Risk Factors" section in this Prospectus), and no assurance can be given that any of the strategies will be effective or that the anticipated benefits from the strategies will be realised in the period for which the forward looking statements may have been prepared or otherwise. Readers are cautioned not to place undue reliance on forward looking statements and, except as required by law, WBT assumes no obligation to update or revise such information to reflect any change in expectations or assumptions. The inclusion of the forward looking statements in this Prospectus should not be regarded as a representation, warranty or guarantee with respect to its accuracy or the accuracy of the underlying assumptions or that WBT will achieve, or is likely to achieve, any particular results.

(g) **Dividend Guidance**

No assurances can be given in relation to the payment of future dividends. Future determinations as to the payment of dividends by WBT will be at the discretion of WBT and will depend upon the availability of profits, the operating results and financial conditions of WBT, the taxation of WBT, future capital requirements, covenants in relevant financing agreements, general business and financial conditions and other factors considered relevant by WBT.

(h) **Changes in Applicable Law and Regulations**

WBT is subject to usual business risks such as there being changes in laws, regulations and government policy which may affect its operations and/or financial performance. Such changes may impact income or operational expenditure. WBT is also subject to the usual risks to changes in taxation regimes and Accounting Standards. There can be no assurance that such changes will not have a material adverse effect on WBT's business, operational performance or financial results or returns to Shareholders. Adverse changes to tax law may also reduce WBT's capacity to claim research and incentive grants or rebates, thereby increasing expenses and reducing WBT's assets.

Incidents involving China's or the region's security may cause uncertainty in the Chinese markets and may adversely affect the Chinese economy and WBT's activities in the region. Export growth continues to be a major driver of China's rapid economic growth. Reduction in spending on Chinese products and services, institution of tariffs or other trade barriers or a downturn in any of the economies of China's key trading partners may have an adverse impact on the Chinese economy. The ongoing trade war between China and the United States and the increasing regulatory intervention in markets, in particular the United States attempts to limit China's access to cutting-edge technology owned by the US companies and companies of its allies, may restrict the WBT's ability to exploit its technology as expeditiously as possible. Events such as these and their consequences are difficult to predict, and it is unclear whether further tariffs or barriers may be imposed, or other escalating actions may be taken in the future.

(i) **Cost Inflation**

Higher than expected inflation rates generally, or specific to the technology industry, could be expected to increase operating and development costs and potentially reduce the value of future project developments. While, in some cases, such cost increases might be offset by increased selling prices, there is no assurance that this would be possible or that WBT will be in its production and supply phase of its business when this occurs.

10.5 **General Risks Relating to WBT**

(a) **Additional Requirements for Capital**

The capital requirements of WBT depend on numerous factors. Depending on the ability of WBT to generate income from its operations, WBT may require further financing in addition to amounts raised under the Placement and Entitlement Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If WBT is unable to obtain additional financing as needed, it may be required to reduce the scope of its anticipated activities which could adversely affect its business, financial condition and operating results.

(b) **Reliance on Key Management**

The responsibility of overseeing the day-to-day operations and the strategic management WBT depends substantially on its senior management and Directors. There can be no assurance that there will be no detrimental impact on the performance of WBT or its growth potential if one or more of these employees cease their employment and suitable replacements are not identified and engaged in a timely manner.

(c) **Active market for Shares**

There can be no assurance that there will be, or continue to be, an active market for WBT's securities or that the price of WBT's securities will increase. As a result, investors may, upon selling their securities, receive a market price for their securities that is less than the price of the WBT's securities offered pursuant to the Placement.

(d) **Trading Price of Shares**

WBT's operating results, economic and financial prospects and other factors will affect the trading price of the WBT's securities. In addition, the price of WBT's securities is subject to varied and often unpredictable influences on the market for equities, including, but not limited to general economic conditions including the performance of the Australian dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the WBT's securities.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that WBT's market performance will not be adversely affected by any such market fluctuations or factors.

(e) **Litigation Risks**

In the ordinary course of conducting its business, WBT is exposed to potential litigation and other proceedings, including through claims of breach of agreements, intellectual property infringement or in relation to employees (through personal injuries, occupational health and safety or otherwise). If such proceedings were brought against WBT, it would incur considerable defence costs (even if successful), with the potential for damages and costs awards against WBT if it were unsuccessful, which could have a significant negative financial effect on WBT's business. Changes in laws can heighten litigation risk (for example, antitrust and intellectual property). Circumstances may also arise in which WBT, having received legal advice, considers that it is reasonable or necessary to initiate litigation or other proceedings, including for example to protect its intellectual property rights.

(f) **Economic Risks**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on WBT's activities, as well as on its ability to fund those activities.

Further, share market conditions may affect the value of WBT's securities regardless of WBT's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) interest rates and inflation rates;
- (iii) currency fluctuations;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and

(vi) terrorism or other hostilities.

(g) **Force Majeure**

WBT, now or in the future, may be adversely affected by risks outside the control of WBT including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(h) **Acquisitions**

As part of its business strategy, WBT may make acquisitions of, or significant investments in, companies, products, technologies and/or products that are complementary to WBT's business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving the sales and margins anticipated and retaining key staff and customer and supplier relationships.

(i) **Joint Venture Parties, Agents, Suppliers, Distributors and Contractors**

WBT is unable to predict the risk of financial failure or default by a participant in any joint venture to which WBT is or may become a party or the insolvency or managerial failure by any of the contractors used by WBT in any of its activities or the insolvency or other managerial failure by any of the other service providers used WBT for any activity. WBT engages with various third parties to assist with different stages of the research and development process, including agents, suppliers, distributors and contractors. It continues to actively seek new ones. There is no guarantee that these third parties will comply with their respective contractual obligations. This could adversely impact WBT's progress and cause delays in research or production, or cost increases.

(j) **Insurance and Uninsured Risks**

Although WBT maintains insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all the potential risks associated with its operations and insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. It is not always possible to obtain insurance against all such risks and WBT may decide not to insure against certain risks because of high premiums or other reasons.

10.6 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by WBT or by investors in WBT. The above factors, and others not specifically referred to above may, in the future, materially affect the financial performance of WBT and the value of WBT's securities.

That information is available to the public at <https://www.weebit-nano.com/asx-announcements/>

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

There may be additional announcements WBT makes during the Entitlement Offer period that may be relevant in your consideration of whether to take part in the Entitlement Offer. Therefore, it is prudent that you check whether any further announcements have been made by WBT before submitting an application. Announcements made by WBT can be found at: <https://www.weebit-nano.com/asx-announcements/>

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and

11.7 Trading of New Shares

Subject to approval being granted, it is expected that trading on ASX of New Shares to be issued under the Entitlement Offer will commence on Tuesday, 7 December 2021 on a normal settlement basis.

WBT and its advisors will have no responsibility and disclaim all liability (to the maximum extent permitted by law) to persons who trade New Shares they believe have been issued to them before they receive their holding statements, whether on the basis of a confirmation of issue provided by WBT or the Share Registry or otherwise or who otherwise trade or purport to trade New Shares in error or which they do not hold or are not entitled to.

If you are in any doubt as to these matters, you should seek professional advice.

11.8 Ranking of New Shares

The New Shares issued under the Entitlement Offer will be fully paid and rank equally with Existing Shares.

The rights attaching to the New Shares are set out in Section 9 of this Prospectus and are regulated by the Corporations Act, ASX Listing Rules and general law.

11.9 Rounding of New Shares

Where fractions arise in the calculation of Entitlements, they will be rounded up to the next whole number of New Shares.

11.11 Not financial product advice

This Prospectus is for information purposes only and is not an invitation or offer of securities for subscription, purchase or sale in any jurisdiction. Any Eligible Shareholder who wishes to participate in the Entitlement Offer should consider this Prospectus in full. Any Eligible Shareholder who wishes to subscribe for and purchase New Shares will need to follow the instructions contained in this Prospectus and the Application Form which accompanies it. This Prospectus does not constitute investment or financial product advice or any recommendation to acquire WBT Shares or New Shares and does not and will not form any part of any contract for the acquisition of New Shares.

Each recipient of this Prospectus should make their own enquiries and investigations regarding all information in this Prospectus, including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of WBT and the impact that different future outcomes may have on WBT. This Prospectus has been prepared without taking account of any person's investment objectives, financial situation or particular needs.

11.12 Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares or Options issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Any information or representation that is not in this Prospectus may not be relied on as having been authorised by WBT, or its related bodies corporate, in connection with the Entitlement Offer.
