FY22 Performance Update

H22 Results.

24 November 2021

WebBeds

webjet.com.au

GoSee

1H22 in review.

Targeting growth as global travel markets reopen.

- **Business turning around; cash flow positive for 1H22**
 - **Cash:** \$446 million
 - **1H22 cash surplus:** \$3.5 million/ month
 - **Deferred FY20 interim dividend** to be paid⁽¹⁾
- **B2B - WebBeds:** Profitable since July driven by domestic North American and European markets; 1H22 costs down 31% over pre-Covid levels; on track to be 20% more cost efficient at scale
- **B2C - Webjet OTA:** Profitable in 1Q but 2Q impacted by border closures; bookings picking up from October as domestic and international borders start to reopen
- **B2C - Online Republic:** GoSee rebrand to deliver greater efficiencies and target growth opportunities
- **Intense focus on global employee engagement and retention**
- **As global travel markets start to reopen, significant growth opportunities in all businesses**
 - **WebBeds** – increased market opportunity due to B2C channel expansion, targeting previously untapped domestic markets and increasing North America market penetration; “8/3/5” profitability target⁽²⁾ when back at scale
 - **Webjet OTA** – targeting market share growth as consumer preferences continue to shift online; investing in international opportunities
 - **GoSee** – one platform for cars and motorhomes to deliver greater efficiencies and growth potential

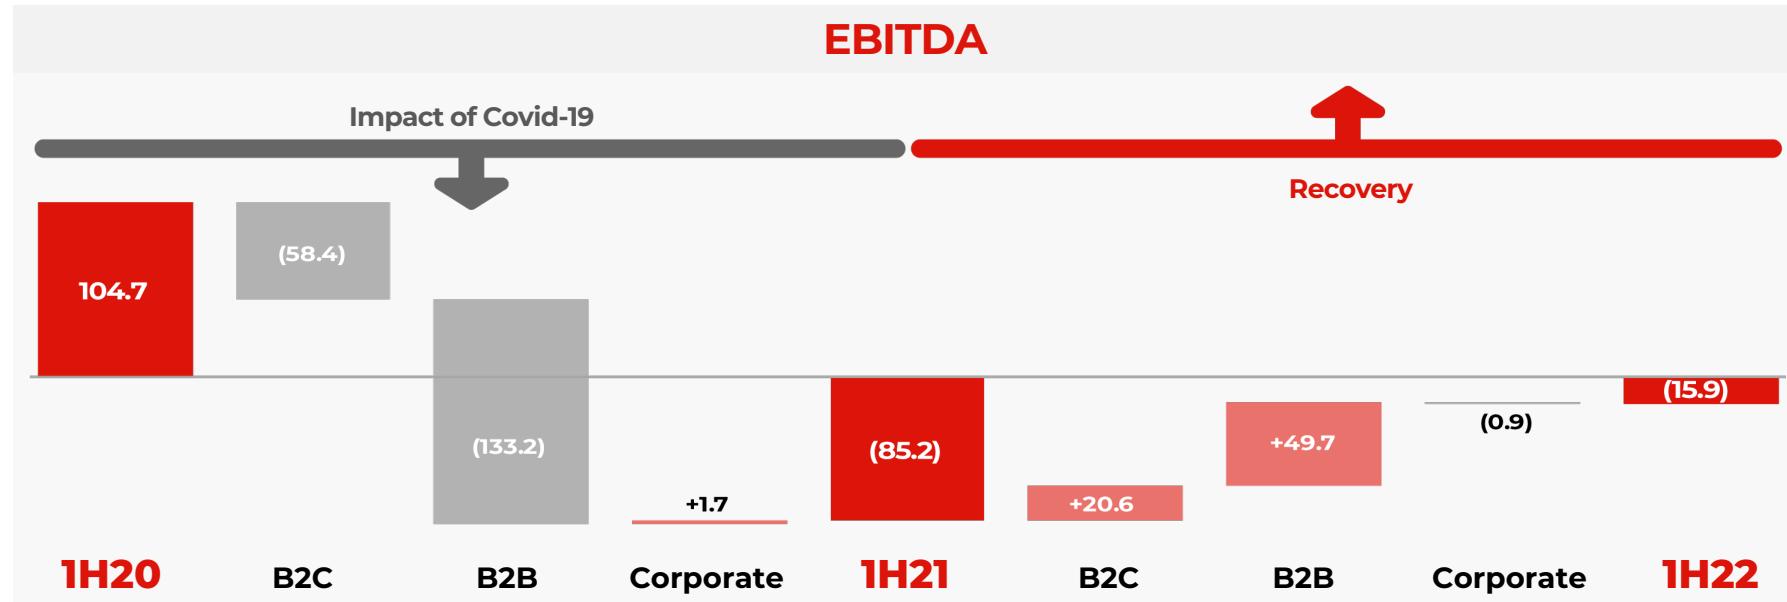

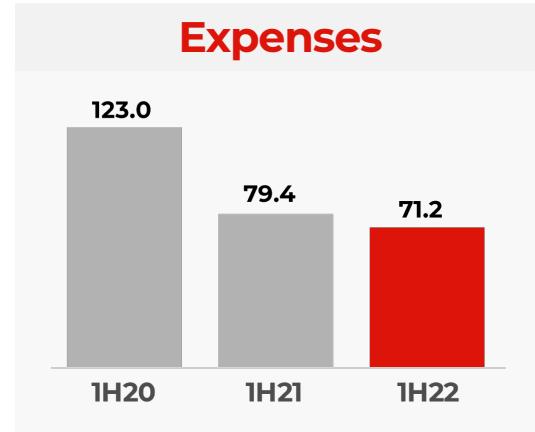

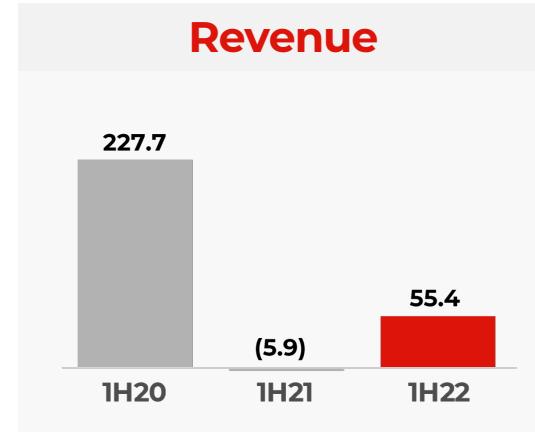

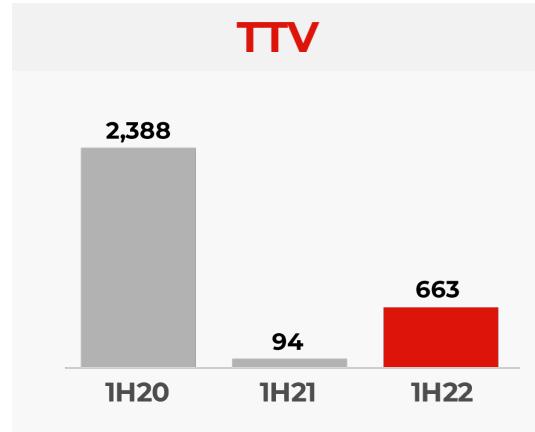

NOTE: Unless otherwise stated, in this document all financials are for Underlying Operations and all comparisons are over the previous corresponding period (pcp)

1) 80% franked (previously announced as 100% franked), based on record date 26th March 2020

2) 8/3/5 = at scale 8% revenue/TTV and 3% costs/TTV to drive 5% EBITDA/TTV

Revenue starting to return, costs materially down.

1H22 - Key Metrics. ⁽¹⁾

Webjet Limited

B2B Division Update

WebBeds.

Digital Provision of Hotel Rooms to Global Partners

WebBeds

The world has changed, and our opportunity has increased.

Taking advantage of changing market dynamics.

Our market opportunity has increased - making WebBeds more relevant than ever;

- Domestic markets are the first to open up
- B2C channels are seeking greater access to B2B content
- API connections are increasingly important as customers want easy access to significant content
- Hotels need global reach in order to fill rooms

Competition has decreased as financial pressures impact the industry

WebBeds is taking advantage of opportunities to deliver significant revenue growth;

- Expanded domestic offering in all regions
- Increased penetration into the large North American B2B market
- Increased and optimised API connections for key B2C clients
- Our financial strength makes us a trusted partner for hotel suppliers
- Retained our global footprint, hotel supply relationships and global customer network and are ready as intra-regional and international markets start to reopen

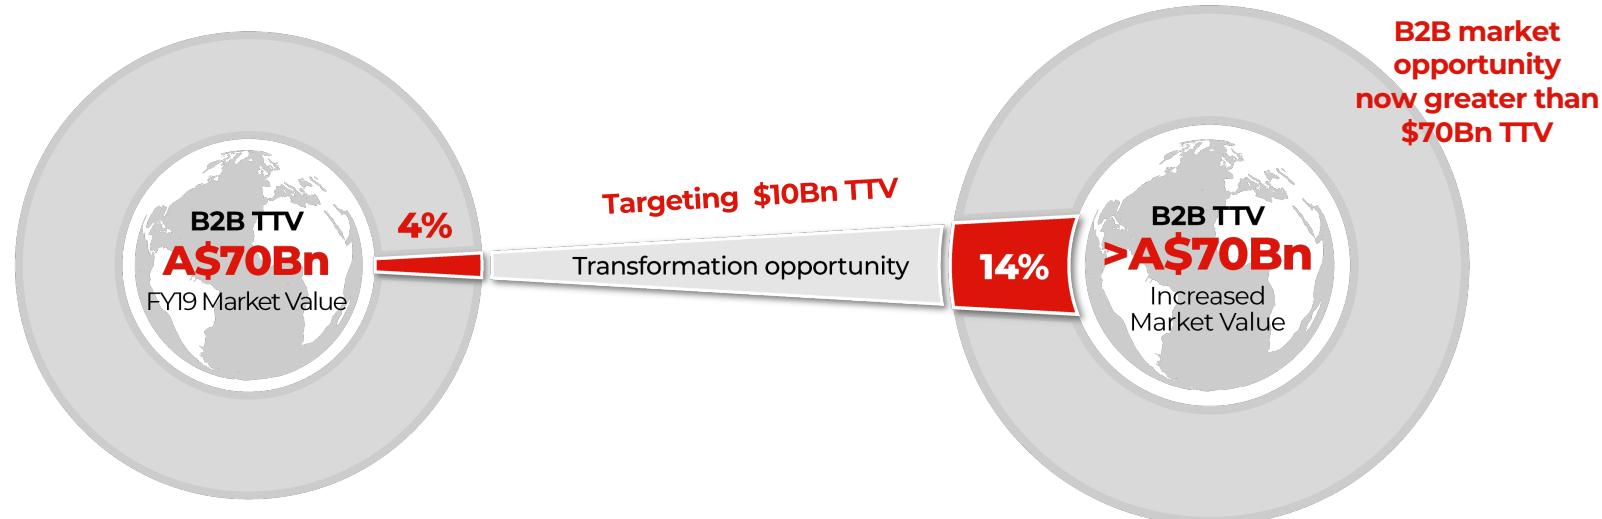

When markets rebound, they are coming back stronger;

- Nov-21 TTV tracking at 63% and bookings tracking at 69% of pre-Covid levels – yet many larger markets are yet to open

WebBeds

Strategic objective:
To become
the #1 global
B2B provider.

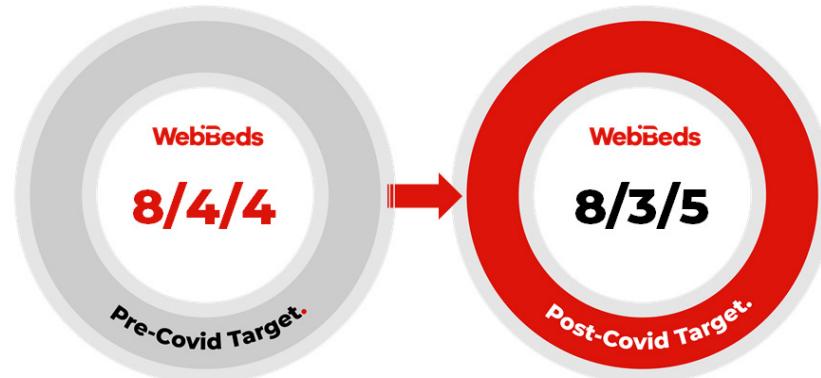

Targeting greater share of a larger market opportunity.

Transformation initiatives

- Diversifying into previously untapped markets
- Increasing North America market penetration
- B2C channel expansion
- Streamlined technology
- Enhancing Rezchain efficiencies
- Leveraging data analytics
- Simplifying processes across the business
- On track to be 20% more cost efficient at scale

Increased profitability target ⁽¹⁾

1) 8/4/4 = at scale 8% revenue/TTV and 4% costs/TTV to drive 4% EBITDA/TTV
8/3/5 = at scale 8% revenue/TTV and 3% costs/TTV to drive 5% EBITDA/TTV

WebBeds

Profitable for
2Q22.

Costs down 31%
over pre-Covid.

1H22 Summary - WebBeds Global.

WebBeds	6 months ending 30-September				
	1H22	1H21	Change	1H20 (Pre-Covid)	Change
Bookings ('000s)	1,086	247	↑ 340%	2,343	↓ 54%
Average Booking Value	\$401	\$292	↑ 37%	\$649	↓ 38%
TTV	\$436m	\$72m	↑ 504%	\$1,521m	↓ 71%
Revenue	\$32.6m	(\$2.8m)	↑ nm	\$135.8m	↓ 76%
Expenses	\$43.0m	\$57.3m	↓ 25%	\$62.7m	↓ 31%
EBITDA	(\$10.4m)	(\$60.1m)	↑ 83%	\$73.1m	↓ 114%
TTV / Revenue Margin	7.5%	n/a	↑ nm	8.9%	↓ 146bps
EBITDA Margin	n/a	n/a	↑ nm	53.8%	↓ nm

- **Bookings and TTV increasing as markets start to open**
- **1H22 ABV reflects primarily domestic bookings;** ABV continuing to increase as more international markets open
- **Costs down 31% on comparable period pre-Covid;** Transformation initiatives delivering sustainable cost savings; on track to be 20% more cost efficient at scale as volumes return to pre-Covid levels
- **TTV margins continue to improve** (2H CY20 ⁽¹⁾: 6.1%; Q1 CY21 ⁽²⁾: 7.3%) - expected to return to pre-Covid levels once border restrictions ease and more international markets open
- **New organisational structure since May 2021**
 - Dedicated CEO for the WebBeds business
 - 4 commercial regions – Europe, MEA, Asia-Pacific and now also Americas; Americas expected to offer strong growth opportunities and be a significantly larger business post-Covid
 - Umrah Holidays International focused on capturing religious tourism opportunities

The comparative unaudited 1H20 period shows the six months ending 30 September 2019 (ie pre-Covid) and 1H21 shows the six months ending 30 September 2020

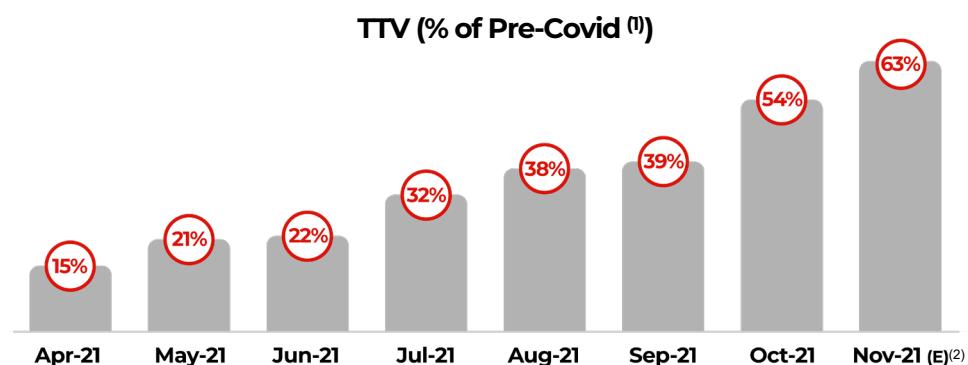

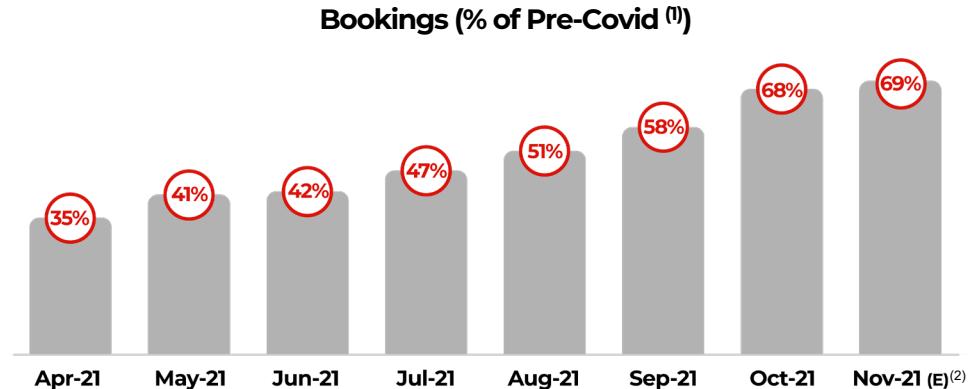

1) 2H CY20 means the period Jul-Dec 2020;

2) Q1 CY21 means the period Jan-Mar 2021

Post-Covid strategy is delivering 3Q22 on track to be better than 2Q22.

Profitable since July.

- **WebBeds has been profitable since July** driven by domestic sales in North America and Europe
- Recognising domestic markets would be first to open, **WebBeds pivoted contracting and sales efforts to domestic travel**
- **Increased North American penetration** to better target the c.\$20Bn TTV B2B market opportunity
- **Seeing new organic business** in all regions
- **When markets rebound, they are coming back stronger** - Nov-21 TTV tracking at 63% of pre-Covid levels, yet many larger markets are yet to open
- **3Q22 on track to be better than 2Q22** as more markets open - on track to deliver higher ABV, TTV margins and profitability
- **Acceleration expected to continue** – Dec-21 forward TTV⁽³⁾ run rate exceeds Nov-21

Bookings increasing as more markets start to open; TTV reflects lower ABV due primarily to domestic bookings

1) Shows 2021 Bookings/TTV (based on EUR functional currency) as % of comparable period in 2019 – ie April 2021 vs April 2019

2) Estimate for November 2021 based on extrapolation of actuals up to and including 21 November 2021

3) Booked TTV but not yet travelled

1H22 recovery driven by new business.

Initiatives driving return to profitability.

Pivoted to domestic travel while waiting for international markets to open

- Global travel volume has not yet returned to pre-pandemic levels but **the volume that has returned is predominately domestic**
- **Domestic sales as % of total WebBeds sales have grown significantly** – and as international volume starts to return, domestic volumes continue to grow

Targeting new organic business

- While waiting for markets to reopen, **regions have targeted new business (i.e. business that did not exist pre-Covid)** including:
 - New clients
 - Existing clients booking to new destinations
 - New direct contracts for the domestic market
- **All regions have increased their directly contracted hotel inventory**, reflecting the importance of WebBeds as a distribution channel supporting travel industry recovery

**Dec-21 forward
TTV⁽¹⁾ on track to
be >70% of pre-
Covid volumes
yet many key
markets are
still to recover.**

Significant growth potential as more markets recover.

Many key markets are yet to recover

- Seeing bifurcation as some markets reopen while others remain effectively closed to international travel
- Some markets are already outperforming pre-Covid levels
 - North America, Russia, and key OTA customers (Europe and APAC) are all tracking >100% pre-Covid TTV levels
 - Key destinations outperforming pre-Covid levels include Dubai, Las Vegas and Majorca
- Number of key markets are less than 25% of pre-Covid TTV levels including South Korea, Japan, Hong Kong and China (international outbound)
 - Some large Asia-Pacific destinations are tracking at less than 10% pre-Covid TTV levels – including Singapore, Bali, Bangkok
- WebBeds is well placed to deliver TTV growth as more markets reopen

When international markets fully reopen, in addition to our existing global footprint, hotel supply relationships and global customer network; our transformation strategy is delivering:

- new domestic hotels,
- new domestic customers,
- new OTA customers,
- a significantly expanded North American presence,
- streamlined technology offering,
- a significantly lower cost base.

B2C Division Update

webjet OTA.

Australia & New Zealand

webjet.com.au

webjet.com.au

Return to profitability driven by domestic leisure markets in 1Q22.

1H22 Summary - Webjet OTA.

Webjet OTA	6 months ending 30-September				
	1H22	1H21	Change	1H20 (Pre-Covid)	Change
Bookings ('000s)	296	77	↑ 284%	809	↓ 63%
Average Booking Value	\$620	\$571	↑ 9%	\$886	↓ 30%
TTV	\$184m	\$44m	↑ 317%	\$717m	↓ 74%
Revenue	\$18.2m	(\$2.6m)	↑ 802%	\$76.5m	↓ 76%
Expenses	\$14.5m	\$9.3m	↑ 56%	\$43.1m	↓ 66%
EBITDA	\$3.6m	(\$11.9m)	↑ 131%	\$33.4m	↓ 89%
TTV / Revenue Margin	9.9%	n/a	↑ nm	10.7%	↓ 78bps
EBITDA Margin	20.1%	n/a	↑ nm	43.6%	↓ nm

- **1H22 EBITDA driven by domestic travel in 1Q22**
 - Profitability highly correlated to domestic border openings; lockdowns and border closures impacted 2Q22
 - Profitable as soon as key borders open; able to leverage highly scalable cost base and scale key costs in line with demand
 - Increase in 1H22 expenses over 1H21 relate to higher volume-based costs tied to TTV (ie transactions costs) during the period
- **1H22 TTV margins** reflect closure of Exclusives business and loss of overrides/commission earned on international bookings; **expected to normalise around 9-10%**
- **Brand strength continues to drive share**; significant bookings growth with targeted marketing spend as markets open; marketing costs expected to be less than 2% of TTV going forward
- **As markets open, bookings rebound** – bookings increasing as lockdowns lift and international travel begins to open up; returned to profitability in October

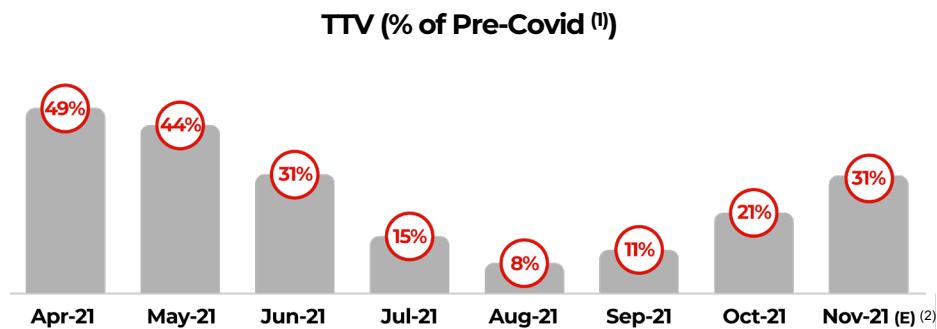

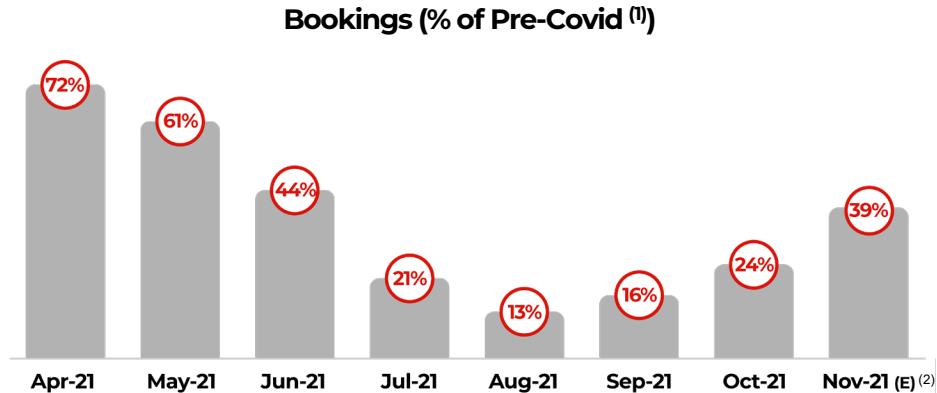

webjet.com.au

**Uniquely placed
to benefit as
borders open.
Significant
international
opportunity.**

Domestic border openings drive return to profitability.

- **Profitability highly correlated to domestic border openings** - 2Q impacted by extended NSW and VIC lockdowns; bookings increase as lockdowns start to lift
- **Returned to profitability in October**; will be profitable in November
- **Domestic bookings expected to return to pre-Covid levels in CY22** as State borders re-open
- **Significant international opportunity** as international borders start to re-open
- **Well placed to benefit as domestic and international markets reopen**
 - **Brand strength as #1 OTA**
 - **Predominantly serves the leisure market**
 - **Structural shift to online** continues to accelerate

**Bookings since June impacted by border closures;
picking up from September reflecting greater clarity
on border re-opening**

¹⁾ Shows 2021 bookings as % of comparable period in 2019 – ie April 2021 vs April 2019

GoSee

webjet.com.au

Investing in the international opportunity, Trip Ninja.

Acquisition of Trip Ninja.

- In November 2021, we agreed to acquire 100% of Canadian travel technology company Trip Ninja
- Trip Ninja has developed several **key products** for traditional or online travel agencies **to automate the highly manual process of selling complex international itineraries**
- **Trip Ninja products will be integrated into Webjet OTA**, starting with **FareStructure and Flextrip**, to deliver customers the best priced itineraries for their complex, multi-stop itineraries
- Pricing comparisons using **FareStructure** and **Flextrip** have shown **material price reductions** compared to existing pricing and will provide genuine price advantage for customers
- The Dynamic Pricing and Virtual Interlining products currently under development will be integrated in due course
- **Trip Ninja products will also be sold to other travel industry participants globally**

tripninja

Trip Ninja Products

- **FareStructure** – a tool that will automatically mix and match fares for multi-destination itineraries by automating a process called “split ticketing” and using machine learning
- **FlexTrip** – if a traveller is flexible in the order they visit cities, this module will instantly re-order a multi-city itinerary to achieve the best pricing
- **Dynamic Pricing (prototype)** – automatically maximises mark ups on the best priced combination so the agent achieves much higher margins
- **Virtual Interlining (prototype)** – combining non-aligned carriers in a point-to-point fare via a shared mid-point

Integrating Trip Ninja products into Webjet OTA provides the ability to offer unique, highly competitive content to propel additional international sales

webjet.com.au

Investment in an Open Source Blockchain.

HYDRA

LOCKTrip

Investment: LockTrip.

- In March 2021, **Webjet Limited made a 25% investment** in **LockTrip Holdings UK** (LockTrip), with a further option to increase that to 51%
- LockTrip provides a B2C hotel marketplace, **underpinned by a blockchain economy** powered by a utility token, LOC
- LockTrip also provides its own decentralised public blockchain, Hydra chain, powered by the **HYDRA** coin
- LockTrip has developed a blockchain that **enables genuine commercial applications at scale**
- Webjet Limited's **interest in LockTrip is three-fold:**
 - **Accelerated development** of our blockchain expertise
 - **Integration** of LockTrip into Webjet OTA for its B2C hotel offering
 - **Potential migration of the Rezchain application** onto the Hydra chain, as Hydra solves many of the issues that prevent the wholesale adoption of blockchain as an underlying platform
- Work has begun to **integrate LockTrip into the Webjet OTA business**

Opportunity to invest further in attractive technology assets to support growth opportunities

- 1H22 Bookings and TTV improved as Australian/New Zealand borders opened in 1Q;** lockdowns and closure of trans-Tasman bubble impacted 2Q; profitability driven by Australian and trans-Tasman border openings
 - Motorhomes** - continues to be impacted by lack of international tourism into New Zealand
 - Cars** - global shortage of hire cars impacting inventory in key markets
- Costs down 30% compared to pre-Covid levels**
- TTV margins expected to normalise around 9-10%** as refunds start to wind back
- GoSee rebrand launched in October** – aimed at transforming the business to deliver greater efficiencies, improved customer experience and target global growth opportunities

One core brand across cars and motorhomes opportunity to transform the business.

Rebrand launched October 2021.

All cars and motorhome content on one easy-to-use website

Improving underlying performance

- One core brand providing all **cars and motorhome content on one easy-to-use website**
- More **scalable website development** investment
- **Centralised marketing investment**, improving return on advertising spend
- **Improved organic search rankings** and reduced reliance on generic pay-per-click (PPC)
- **Improved commercial negotiating position** with supplier and affiliate partners
- **Clear employer brand** position to attract and retain top talent

Improving the customer experience

- **Greater choice** as well as **enhanced search and compare functionality**
 - Modern user experience
 - Mobile first design
 - Upgraded technology
 - Faster site experience

Global growth opportunities

- **Simpler proposition to scale** in new markets
- **Easier cross-sell** between car and motorhome products
- **Seamless product extension opportunities** under one brand

**Greater choice
and enhanced
functionality.**

All content on one easy-to-use website.

The image shows a laptop screen and a smartphone side-by-side, both displaying the GoSee travel platform. The laptop screen is a MacBook Pro, showing the desktop version of the website with a green header, a search bar, and sections for 'Search, Compare & Save', 'Why book with us?', and 'Getting there can be as good as being there'. The smartphone screen shows the mobile app's interface with a similar layout, featuring the GoSee logo at the top, a search bar, and sections for car hire options. Both devices are set against a white background.

**Customer first
mission.**

Our Mission: Improved customer experience.

**Empower travellers by offering unrivalled choice and
an effortless experience, backed by people who care.**

More choice - with car and motorhome rental now under one roof, our customers will have multiple vehicle options on offer.

Great value rental rates and exclusive special deals from yourselves, our valued partners.

Easy to use website with enhanced search and compare functionality.

An increased focus on helping customers find the right fit vehicle for their needs.

Environmentally responsible options showcased.

24/7 customer support from our friendly Customer Support Team.

Brilliant travel tips and expert advice.

A professional man in a light blue button-down shirt is seated at a desk, looking down at a white tablet device he is holding in his hands. The tablet screen displays several blue-colored financial charts, including a bar chart and a line graph. He appears to be analyzing the data. In the background, another person's arm and shoulder are visible, suggesting a collaborative office environment.

Net debt ⁽¹⁾	(140.1)	1.6	(141.7)
Current ratio	1.9	1.1	+0.8

Cash and Equivalents

- Cash includes \$2.7 million client funds
- Cash increase primarily due to \$170 million net proceeds from April 2021 \$250 million Convertible Note issuance (less repayment of \$43 million term debt and \$33 million incentive fee to convert existing €100 million Note to equity) coupled with positive cash from operations.

Trade Debtors

- Growth due to TTV growth in B2B and managed in-line with enhanced credit policy

Trade and Other Payables

- Increase in line with TTV growth in B2B with payment terms consistent with pre-Covid period
- Trade payables \$194.8 million with \$28 million accrued expenses and other payables

Other Liabilities

- Decrease during the period due to repayment of €100 million Convertible Note which had an embedded derivative value of \$93.3 million as at 31 March 2021

Borrowings

- Closing balance represents \$86 million of term debt and debt component post bifurcation of the new \$250 million Convertible Note

Recovery delivering positive working capital.

1H22 - Cash Flow.

A\$m	1H22 6 months to Sep-21	1H21 6 months to Dec-20

1H22 - CAPEX Summary.

- **1H22 CAPEX** shows spend for 6 months to Sep-21; 1H21 shows 6 months to Dec-20
- **FY22 CAPEX** expected to be c.\$22 million excluding ERP (down from pre-Covid CAPEX of \$32.7 million in FY19)
- **Accounting for new ERP Implementation** – Per FY21 results presentation, a review was undertaken to determine the impact on ERP implementation costs following clarification by IFRIC in late March 2021 on the application of IAS38 (accounting for SAAS implementations). The final accounting policy adopted is to expense 100% of the one-off implementation costs. This position is consistent with the preliminary accounting policy in FY21. FY22 forecast spend c. \$9 million.

Group update

FY22 Outlook.

WebBeds

webjet.com.au

GoSee

Some travel markets are open and demand has snapped back.

Webjet Limited will capitalise on travel recovery.

- Our geographic diversification has become a core strength as different regions recover at different times
- Our market opportunity has increased in all businesses – serving new market segments and benefiting from the structural shift to online
 - WebBeds - become the global #1 B2B provider
 - Webjet OTA - increase market share leadership
 - GoSee - transformational opportunity
- Our cost base is on track to be 20% lower at scale
- We have significant cash reserves and runway
- We are focused on attracting and retaining global human capital to support our growth initiatives

Group 3Q trading currently tracking ahead of 2Q22.

FY22 - Outlook.

We are seeing rapid returns to high-booking volumes as markets open

- **WebBeds** – 3Q22 TTV on track to be higher than 2Q22 despite traditional low seasonality
 - North America already tracking ahead of pre-Covid TTV volumes
 - Europe, MEA and APAC are in recovery mode and, subject to borders remaining open, are on track to return to pre-Covid TTV volumes in 2H23
- **Webjet OTA** – seeing bookings improve as domestic and international borders start to reopen
- **GoSee** – opening of Australian domestic and trans-Tasman borders will drive return to profitability

Markets are recovering at different rates

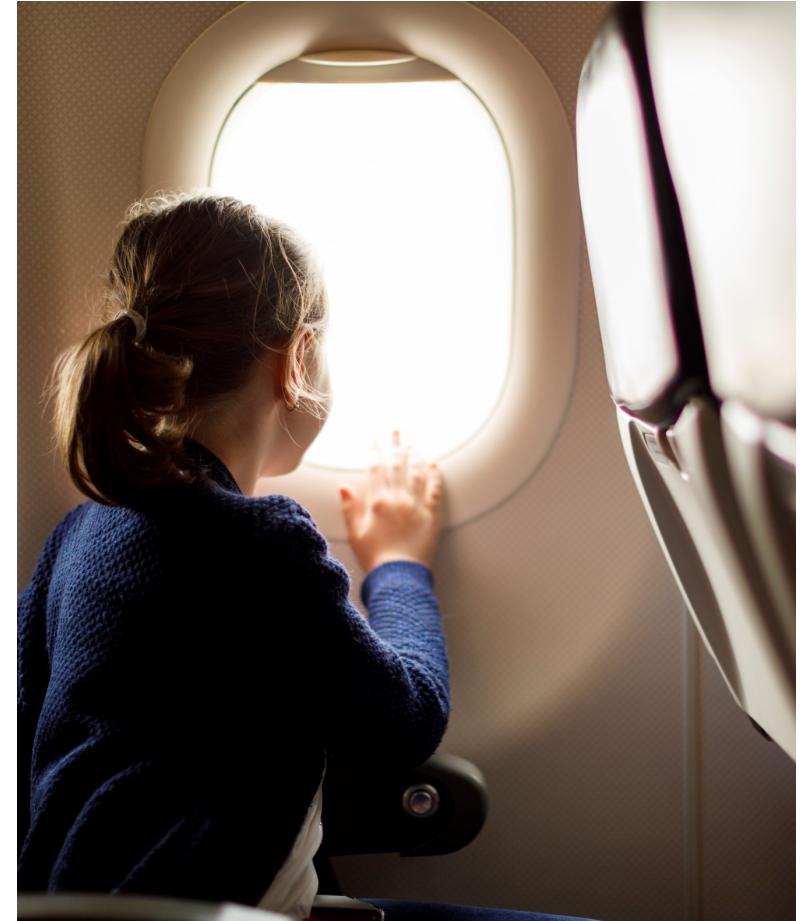

- Where markets are open, we are seeing significant pent-up demand materialising
- Where there is uncertainty, consumer behaviour is cautious
- A number of larger markets are effectively still closed

Group 3Q22 trading is currently tracking ahead of 2Q22

Beyond FY22.

While there remains **short term uncertainty** with pockets of new outbreaks around the world, **we believe ongoing vaccinations, boosters and anti-viral treatments will stabilise the impact of Covid-19 within the next 6-12 months.**

Based on our current trajectory of outperforming the market in our WebBeds and Webjet OTA businesses, **we believe we will be back at pre-Covid booking volumes by 2H23** (Oct-22 to Mar-23).
