Non IFRS Financial Information

This presentation uses Non-IFRS financial information including EBIT, NPAT, operating cashflow, gearing and net debt. These measures are Non-IFRS key financial performance measures used by Pact, the investment community and Pact's Australian peers with similar business portfolios. Pact uses these measures for its internal management reporting as it better reflects what Pact considers to be its underlying performance.

Underlying EBIT is used to measure segment performance and has been extracted from the Segment Information disclosed in the Full Year Consolidated Financial Report.

All Non-IFRS information has not been subject to audit by the Company's external auditor. Refer to the FY21 Full Year Results Presentation released to the ASX on the 18th August 2021 for definitions of non-IFRS financial measures.

FY21 Strategy Highlights

Delivery of strategy gaining momentum

Strengthen our core

- Disciplined financial management and balance sheet strengthened
- Delivery of margin improvements in Australian Packaging

Lead plastics recycling

- Albury 20kt PET recycling facility to be operational in December 2021
- Commitment to two new recycling projects which will increase recycling capability by 40kt
- Flight acquisition integrated
- Recycling capability providing differentiation in the market and enabling contract wins

Scale-up reuse solutions

- Increased pooling penetration in the fresh produce sector
- Developing "smart packaging" solutions
- Strong growth in reuse volumes into USA and new contract in Europe

Grow in Asia

- Consolidation of closures platform driving strong organic growth

Divestment of Contract Manufacturing

- Sale process ceased
- New management appointed, focused on managing short-term headwinds and developing a pathway to improve performance

Pact is leading change that is transforming our industry.

Strategic Growth Initiatives

The execution of our strategy is on track and our near-term priorities are clear

Priorities

Focus portfolio and strengthen balance sheet

Turnaround and defend core ANZ consumer packaging businesses

Lead plastics recycling in ANZ

Scale-up reuse solutions

Differentiate industrial and infrastructure businesses

Grow Asian packaging platform

Our Vision

Pact will lead the circular economy through reuse, recycling and packaging solutions

Near term initiatives

1. Deliver margin growth in Australian packaging
2. Lead plastics recycling in ANZ and deliver value as the partner of choice for recycled content packaging
3. Grow reuse platform to support growing demand for alternatives to single-use packaging
4. Grow Asian packaging platform

1

Deliver Margin Growth in Australian Packaging

We will return margins in our Australian packaging business to global industry standard

Multiple levers to deliver growth

Strategy

- Segment specific market based plans
- Differentiate using circular economy credentials and product innovation
- Investment to support growth strategies

Operations

- Investment to upgrade facilities
- Investment in automation and efficiency
- Improvements in safety, quality and delivery

Procurement and supply chain

- Centralise management of spend targeting step-change improvements in key categories

People

- Employee and leadership development
- Evolve functional support structures
- Sales capability and customer engagement

Margins in Australian packaging will return to global industry standard by FY25

Investing to improve service, support growth and drive cost competitiveness

- Fully automated, market leading clean room to support growth in the health segment
- High cavity, flexible and efficient IML (in-mould labelling) capability to improve service and reduce cost in the processed food segment
- Multi-layer manufacturing capability to support use of recycled content in the processed food segment
- Platform upgrade to support the supply of Smart Cubes, a patented product developed by Pact for the chemicals segment

2

Lead Plastics Recycling

Building scaled industry solutions for high-quality food grade recycled resins

Leading the development of scaled plastics recycling solutions

- Scaled, best in class facilities
- Strong government support for continued investment
- New projects complement Pact's existing 40,000 tonne plastics recycling capability, including the recently acquired Flight Plastics in New Zealand
- Contracted offtake from the Albury and Laverton facilities is 80% committed

3

Expand reuse platform

Compelling sustainability and efficiency benefits of reuse are driving strong growth in pooling and hanger reuse services

A best-in-class reuse platform

- Dramatically decreases use of single-use packaging and improves supply chain sustainability
- Innovative product design and leading technology delivers compelling efficiency benefits and reduces waste
- At end of life, packaging is recycled and repurposed, creating a truly circular process

Produce crate pooling

Our pooling platform of over 6 million crates has the potential to replace 850 million single-use boxes.

Growth opportunities

- Continued penetration in fresh produce categories
- Diversification into new pooling loops, such as protein and eggs
- Investment in “smart packaging”

Garment hanger reuse

Dramatically reduces use of single-use plastic hangers through an innovative closed-loop system whereby hangers are used multiple times before being recycled.

Growth opportunities

- Continued geographic diversification and expansion of garment hanger reuse services
- Diversification into new reuse loops

Reuse solutions have grown to 15% of total group revenue (from 1% in FY17)

Reuse solutions sales revenue FY21

4

Grow Asian Packaging Platform

Focus is now turning to the opportunities we have to accelerate growth in our Asian region

Well positioned to grow

- Regional leader in caps and closures with niche positions in specialty packaging
- Broad manufacturing footprint and geographic reach
- Proprietary technical capability
- Strong customer relationships with reputation for product quality and superior customer service – products “designed in region for the region”
- Strong in-region management team
- Servicing high growth segments including CSD, water, dairy, food and beverage, pharmaceutical and health

1. Including Pact share of Joint Venture sales revenues
2. 4% increase FY21 v FY20 at constant currency

Well positioned to create long- term shareholder value

Our targets

Top quartile shareholder returns¹ by 2025

ROIC above 13.5% by 2025, increased from 11.1% in FY19

A strong balance sheet with leverage maintained below 3x

30% recycled content across our packaging portfolio by 2025

A focussed portfolio with investments and divestments clearly aligned to strategy

Payment of **dividends** in line with dividend policy

1. Cumulative TSR 2019-2024 within our comparator group.

Outlook

Continued resilience through short-term market and supply chain disruption

Trading Perspectives

Packaging and Sustainability / Materials Handling and Pooling Segments

- Volumes have been generally in line with expectation despite the disruption arising from raw material shortages and pallet availability. Maintaining continuity of supply to our customers, however, has required increased working capital in some areas.
- Pleasingly, strict margin management activities are covering higher raw material and international freight costs. In the Packaging and Sustainability segment these actions will mostly mitigate the impact to earnings in our first half. Covering these costs in our garment hanger reuse business has been more challenging, but we are making great progress here too.
- In the 2nd half, we expect positive underlying demand to continue. While market and supply chain disruption is expected to persist in the near term, it will be managed with the same focus and discipline that has been demonstrated to date.

Contract Manufacturing Segment

- Performance has been impacted by lower demand, due to lockdowns in Victoria and New South Wales, and by higher input costs. For the first half, we expect Underlying EBIT to break even. While easing COVID-19 restrictions are expected to create a slightly more favourable demand environment in the 2nd half, further cost increases will challenge margins.

First Half FY22 Outlook

For the Group, we expect Underlying EBIT in the first half of FY22 to be around \$80 million. Excluding the Contract Manufacturing segment, this will be around \$5 million lower than the prior year.

A further update on earnings expectations for FY22 will be provided at the Company's half year results in February.
