16th February 2022

Half Year to December 2021. Global Health has activated significant new customers while progressing Sales and Marketing expansion.

Australian Healthcare Software provider Global Health Limited (ASX:GLH) ("Global Health" or "Company") is pleased to provide its Half Year to December 2021 Update.

Key Highlights

- Recurring subscription & usage fees up 9.25% to \$2,509,067
- Total customer revenue \$2,930,865 down 6.32%
- Adjusted EBITDA \$(1,198,160)
- EBIT \$(1,341,571)
- Total available cash \$7,041,454
- Operating cashflow \$(1,043,500)

Revenue and Income	Dec-19 HY	Dec-20 HY	Dec-21 HY
Subscription Revenue	\$1,699,313	\$1,950,150	\$2,119,926
Expansion Revenue	\$ 259,553	\$ 346,576	\$ 389,141
Total Recurring Revenue	\$1,958,866	\$2,296,726	\$2,509,067
Other Customer Revenue	\$ 644,465	\$ 831,726	\$ 421,798
Total Customer Revenue	\$2,603,331	\$3,128,452	\$2,930,865
Other Income	\$ -	\$ 443,000	\$ -
Finance Income	\$ 5,273	\$ 2,201	\$ 138
Total Revenue and Income	\$2,608,604	\$3,573,653	\$2,931,003

Recurring Customer revenues have increased 9.25% per corresponding period (PCP), despite the activation of key clients occurring in the later part of the half. The impact of recurring revenues from the significant customers activated will be more evident in half two.

While total customer revenues are down half on half, this reflects the timing of professional services payments brought in late in last half for services that went live in this half.

Our MasterCare platform continues its strong performance with the successful deployment of services for Ballarat Community Health Centre, West Australian Mental Health Commission, NSW Rural Fire Service, Life Without Barriers and the first tranche for Peninsula Health. MasterCare also saw a material increase in opportunity developed during the half. Of note the new MasterCare platform, MasterCare+, has seen an uplift of customers as our new SaaS platform becomes suitable to address specific customer use cases.

Despite COVID-19 impacts on travel and office attendance, the team has performed well delivering material software upgrades and new customer activations while also developing a new sales and marketing focus.

Reconciliation to Adjusted EBITDA	Dec-19 HY	Dec-20 HY	Dec-21 HY
Net loss after income tax	\$ (505,639)	\$ (163,529)	\$(1,396,915)
Adjustments:			
Finance expenses	\$ 64,482	\$ 36,217	\$ 19,111
Income tax expense/(benefit)	\$ (40,565)	\$ 2,926	\$ 36,233
EBIT	\$ (481,722)	\$ (130,238)	\$(1,341,571)
Adjustments:	, , , ,		, ,
Depreciation	\$ 86,803	\$ 105,485	\$ 2,704
Amortisation	\$ 178,439	\$ 218,906	\$ 140,707
Impairment of intangible assets	\$ -	\$ 250,474	\$ -
Adjusted EBITDA (unaudited, non-IFRS term	\$ (216,480	\$ 444,627	\$(1,198,160)

The material reduction, half-on-half, in adjusted EBITDA is due in part to the non-recurring receipts of JobKeeper and government grants in the December 2020 half amounting to \$443,000. In addition, the clear focus of the company in this half, since the capital raise, has been an investment in future growth via the hiring of key new staff and design and implementation of strategic marketing initiatives.

Total expenses increased 14.7% in the six months to December 2021 primarily due to the recruitment of new resources in the leadership, sales, marketing, and development teams.

This has resulted in an adjusted EBITDA of \$(1,198,160) and EBIT of \$(1,341,571).

Significant development activity took place during the half to prepare the company for further growth including:

- Material uplift in opportunity pipeline for next year.
- Achieved ISO 27001 certification.
- Established our mobile application, MConnect, and moved to pilot phase.
- Delivered Medicare claiming for all products and commenced software upgrades for customers.
- Delivered My Health Record discharge summaries as a solution and sold our first solution to Toowoomba Hospital.
- Recruited great people to join the team across sales, marketing and R&D.
- Ran a successful intent based digital marketing campaign generating substantive leads for MasterCare.

Available Cash and Operating Cashflow

Due to the successful capital raise undertaken in calendar 2021 the company remains in a very strong available cash position of \$7,041,454 to support its strategic growth expenditure plans.

In line with these plans, and the adjusted EBITDA results explained above, the operating cashflow usage of the company in the half amounted to \$(1,043,500).

In addition to this, R&D expenses of \$309,397 were invested by the company, primarily in the development of our new mobile application and the integration of existing applications to improve cross sell options for the product catalogue.

Forward Outlook

In October, as well as providing insight into our FY21 results, we outlined our key areas of focus; sales structure and activity; marketing focus; new product development; and M&A activity.

Sales Structure & Activity

From a sales perspective, our new staff have settled in well, and customer engagement has lifted materially, with the sales team actively developing new relationships in client organisations. We have seen strong interest and engagement from our existing customers and new prospects, resulting in a pipeline of new sales for the second half. The focus has moved from generating interest to proposing and closing.

During the half to December 2021 the team secured contracts with Waratah Intervention services, NSW Rural Fire Services, AIMC, St Andrews Toowoomba and Wolper Jewish Hospital for our MasterCare+ SaaS platform.

The team also secured La-Trobe University and Echuca Headspace for our MasterCare EMR solution.

New Product Development

We continue to invest in Research and Development with an increase in staff resources enabling us to enhance existing solutions and work on the next generation of solutions for our clients.

We previously mentioned our new product initiative, MConnect, our new mobile solution is in a pilot phase and will be live in field soon addressing an initial use case. We plan to pilot with another use

case in early 2022. The pilot phase will enable us to enhance experience based on user feedback before a more formal product launch in Autumn 2022. There has already been significant interest in this product, so we are excited by the opportunities.

Marketing Focus

Our marketing activity is delivering positive results with effective lead generation for our core EMR solution and significant testing of digital pathways to create lead generation for other products. The testing is informing our investments moving forward. Of note and for further focus in half two, our cross-sell engagement has not commenced in earnest as yet, further work is required for this activity. We will also be working on simplifying our messaging to market during early 2022.

Mergers & Acquisitions (M&A)

Our M&A opportunities include continued discussions with a number of parties focused on ASEAN expansion via partnering and locally with our Digital Front Door and Consumer Empowerment solutions.

Current and Future Trends

The key trends we are seeing are:

- A high degree of interest from our PAS customers to access EMR capability to address the
 expansion of their customer care to in home rather than just in the hospital. This
 represents opportunities for increased spend per customer within our existing base as well as
 an opportunity to expand our footprint in the private hospital sector.
- A number of health organisations are recognising that their ability to meet compliance
 requirements with existing paper-based processes is becoming untenable and are now
 seeking digital solutions. MasterCare represents a compelling solution for health providers
 looking to make the shift to digital.
- COVID-19 has exacerbated the need for Mental Health services nationally. We already have a number of clients using our solutions for Mental Health and believe this represents significant opportunity for expansion.

Overall, these trends represent an opportunity for us to deepen relationships with existing customers and explore new opportunities for growth.

Directors' Report

For the Half Year Ended 31 December 2021

The directors present their report, together with the consolidated interim financial statements of the Group, being Global Health Limited (the Company) and its controlled entities, for the financial half year ended 31 December 2021.

Directors

The names of the directors in office at any time during, or since the end of, the half year are:

 Names
 Position

 Steven Leigh Pynt
 Independent Non-Executive Chairman; Member of Audit Committee

 Mathew Cherian
 Executive Director

 Grant Smith
 Independent Non-Executive Director; Chairman of the Audit Committee

 Robert Knowles AO
 Independent Non-Executive Director

 Karen Corry
 Independent Non-Executive Director

Principal activities and significant changes in nature of activities

The principal activities of the Group during the financial half year were:

- the development, sales and support of application software for the healthcare sector; and
- the development of systems integration software that enables data to be securely exchanged between multiple, disparate applications within an enterprise and across the healthcare value chain.

There were no significant changes in the nature of the Group's principal activities during the financial half year.

Operating result

The consolidated loss of the Group for the financial half year after providing for income tax amounted to \$1,396,915 (2020: consolidated loss of \$163,529).

Dividends paid or recommended

No dividends were paid or declared since the start of the financial half year. No recommendation for payment of dividends has been made.

Review of operations

A review of the operations of the Group during the financial half year and the results of those operations found that, during the period, the Group continued to engage in its principal activities, the result of which are disclosed in the attached financial statements.

Commentary regarding the Group's operations for the financial half year is contained in the "Financial and Operations Review" preceding this Directors' Report.

ABN 75 091 377 892

Directors' Report

For the Half Year Ended 31 December 2021

Events after the reporting date

The COVID-19 pandemic continues to create unprecedented economic uncertainty. Actual economic events and conditions in the future may be materially different from those estimated by the Group at the reporting date. As responses by the government continue to evolve, management recognises that it is difficult to reliably estimate with any degree of certainty the potential impact of the pandemic after the reporting date on the Group's operations, its future results and financial position. Refer to Note 12 to the interim financial report for further information regarding the impact of COVID-19 on the Group.

Except for the above, no other matters or circumstances have arisen since the end of the financial half year which significantly affected or could significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Auditor's independence declaration

The auditor's independence declaration in accordance with section 307C of the *Corporations Act 2001* for the half year ended 31 December 2021 has been received and can be found on page 8 of the consolidated interim financial report.

Signed in accordance with a resolution of the Board of Directors:

Non-Executive Chairman:: .		
	Steven Leigh Pynt	

Dated this 16th day of February 2022

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the review of the interim consolidated financial report of Global Health Limited for the half-year ended 31 December 2021, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the review; and
- (b) any applicable code of professional conduct in relation to the review.

This declaration is in respect of Global Health Limited and the entities it controlled during the period.

Notes to the Financial Statements

For the Half Year Ended 31 December 2021

The consolidated interim financial report covers Global Health Limited and its controlled entities ('the Group'). Global Health Limited is a for-profit listed public company limited by shares, incorporated and domiciled in Australia.

Global Health Limited shares are listed on the Australian Securities Exchange (ASX code: GLH).

Each of the entities within the Group prepare their financial statements based on the currency of the primary economic environment in which the entity operates (functional currency). The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

The financial report was authorised for issue by the Directors on 16 February 2021.

When required by Accounting Standards, or when deemed appropriate by management for financial reporting clarity, comparative figures have been adjusted to conform to changes in presentation for the current financial period.

1 Basis of Preparation

This consolidated interim financial report for the reporting period ended 31 December 2021 has been prepared in accordance with the requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*.

The interim financial report is intended to provide users with an update on the latest annual financial statements of Global Health Limited. As such it does not contain information that represents relatively insignificant changes occurring during the half year within the Group. This interim financial report does not include all the notes normally included in an annual financial report. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2021, together with any public announcements made during the half year.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

2 Changes to the Group's Accounting Policies

Adoption of new and revised accounting standards

The Group has adopted all standards which became effective for the first time at 1 July 2021. The adoption of these standards has not resulted in material adjustments to the reported financial position, performance or cash flow of the Group.

3 Operating Segments

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision maker) in assessing performance and determining the allocation of resources.

The Group operates in a single segment, being the computer technology, software and services industry with particular emphasis on healthcare and associated professional services. In respect of geographical segments, the Group does not conduct material activities outside the Australia geographic area.

Notes to the Financial Statements

For the Half Year Ended 31 December 2021

5 Intangible Assets

	31 December	30 June	
	2021	2021	
	\$	\$	
Developed products			
Cost *	5,900,104	5,900,104	
Accumulated amortisation and impairment	(4,246,970)	(4,106,264)	
Net carrying value	1,653,134	1,793,840	
Products under development			
Cost	1,475,380	1,165,983	
Net carrying value	1,475,380	1,165,983	
Total Intangibles	3,128,514	2,959,823	

^{*} Developed products have finite useful lives of 10 years which are amortised on a straight-line basis over their effective life. The current amortisation charges for intangible assets have been separately presented as amortisation expense in the consolidated interim statement of profit or loss and other comprehensive income.

(a) Movements in carrying amounts of intangible assets

Movement in the carrying amounts for each class of intangible assets between the beginning and the end of the current financial half year:

	Products under development	Developed products	Total
	\$	\$	\$
Half Year ended 31 December 2021			
Balance at the beginning of the half year	1,165,983	1,793,840	2,959,823
Additions	309,397	-	309,397
Amortisation expense		(140,706)	(140,706)
Closing value at 31 December 2021	1,475,380	1,653,134	3,128,514

(b) Impairment testing of products under development

Irrespective of whether there is any indication of impairment, the Group will test an intangible asset with an indefinite useful life or an intangible asset not yet available for use for impairment at least annually by comparing its carrying amount with its recoverable amount. This impairment test is performed as at the end of the financial period. Further, all intangible assets are assessed for indication of impairment at each reporting period. If indicators of impairment are identified, a detailed impairment assessment is performed. Impairment testing is performed based on the cash generating units (CGUs) identified by software product lines.

As at 31 December 2021, there were no impairment indicators identified.

ABN 75 091 377 892

Notes to the Financial Statements

For the Half Year Ended 31 December 2021

5 Intangible Assets (continued)

(b) Impairment testing of products under development (continued)

The recoverable amount of each cash-generating unit is determined based on value-in-use calculations. Value-in-use is calculated based on the present value of cash flow projections over a 5 year period, except for products which are in the early stages of their lifecycle, where an extended cash flow projection over a maximum 10 year period is applied instead. The cash flows are discounted using a pre-tax discount rate of 16.75% (2020: 14.75%). Further, the estimation of terminal values for each product has been excluded from the value-in-use calculations on the basis that cash flows are not expected to continue into perpetuity and the useful life of intangible assets is estimated to be 10 years. The following key assumptions were used in the value-in-use calculations:

- Growth rates (sales) existing products 5% to 36% growth (2020: 5% to 30%)
- Growth rates (sales) new products 25% to 168% growth (2020: 50% to 250%)

Management has based the value-in-use calculations on budgets for each type of product. Costs are calculated taking into account historical gross margins as well as estimated weighted average inflation rates over the period, which are consistent with inflation rates applicable to the locations in which the Group operates.

6 Issued Capital

56,609,392 (2021: 49,528,085) fully paid Ordinary shares	31 December 2021 \$ 28,312,926	30 June 2021 \$ 25,091,048

As the Group generated losses in the financial periods ended 31 December 2021 and 2020, options on issue would decrease loss per share and are therefore anti-dilutive. Accordingly, issued options were excluded from the calculations of diluted earnings per share for the half years ended 31 December 2021 and 2020.

8 Correction of Prior Period Error

Correction of treatment of refundable capitalised research and development expenditure for tax purposes

As mentioned previously in the financial report for the year ended 30 June 2021, management performed an overall review of the tax calculations and respective treatments. As part of this exercise, amongst other minor matters, it was found that the historic treatment of a deferred tax liability on refundable capitalised research and development was incorrectly applied, which necessitated reworking the tax calculations. This resulted in adjustments to the previously reported deferred tax calculations. As the matter identified related to periods preceding 1 July 2019, the majority of the impact was recognised as an adjustment to the opening balances as at 1 July 2019 in accordance with the requirements of AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors. This has been disclosed in the financial report for the year ended 30 June 2021.

The aggregate effect of the error on the comparative information for the half year ended 31 December 2020 is as follows:

	Previously	31 December 2020		
	stated	Adjustments	Restated	
	\$	\$	\$	
Consolidated Interim Statement of Profit or Loss and Other Comprehensive Income				
Income tax expense/(benefit)	(114,334)	111,408	(2,926)	
Net loss for the year attributable to members of the parent entity	52,121	111,408	163,529	
Consolidated Interim Statement of Financial Position				
Tax receivable	107,111	(107,111)	-	
Deferred tax assets	354,342	(40,934)	313,408	
Deferred tax liabilities	(971,642)	918,046	(53,596)	
Net assets/(net liabilities)	263,983	770,001	1,033,984	
Accumulated losses	21,817,664	(770,001)	21,047,663	

As a result of the above adjustments, the basic and diluted loss per share (cents) increased by \$0.27 cents per share from \$0.12 cents per share to \$0.39 cents per share for the half year ended 31 December 2020.

12 Impact of COVID-19

The Victorian government imposed progressive restrictions throughout the financial period ended December 2021. Through this period, the Group continued to operate in the "Work from Home" model which had been implemented in March 2020.

The Executive and Board monitored the status with a focus on ensuring staff well-being and meeting customer expectations.

As the virus moves more prevalently through the community, the Group is inevitably impacted by staff absences via illness, and the illness of related family members. This also applies to the staff of our valued customers and suppliers.

Operationally, the impact on the Group in the half-year ended 31 December 2021 relates to the catch-up of customer projects that would have historically been implemented within tighter time-lines from their original contracted dates. Secondly, there is a general increase in the average lead time required to contract and on-board new customers, as well as new staff. The Group is proactively managing both of these impacts, ongoing, to ensure we are not held back from achieving our ambitious growth targets.

From a product perspective, COVID-19 is completely reshaping healthcare delivery in Australia, and indeed around the world. It has exposed the inadequacies of healthcare systems There is an unprecedented shift to online digital technology for the traditional customer facing healthcare businesses. Everything from patient management and engagement to service delivery and provisioning is being transformed by telehealth and digital technology providing accurate patient records and timely reporting. The major benefit of the COVID-19 pandemic will be a better healthcare system that provides accurate information on a timely basis for the patient and provider. The Group and its platforms are well placed to take advantage of this drive for better productivity and efficiency to the benefit of all participants in the Australian healthcare system.

The Group did not receive any financial assistance from the government in the half year ended 31 December 2021.

There are currently no known additional impacts on the Group.

ABN 75 091 377 892

Notes to the Financial Statements For the Half Year Ended 31 December 2021

13 Events Occurring After the Reporting Date

The consolidated interim financial report was authorised for issue on 16 February 2022 by the board of directors.

The COVID-19 pandemic continues to create unprecedented economic uncertainty. Actual economic events and conditions in the future may be materially different from those estimated by the Group at the reporting date. As responses by the government continue to evolve, management recognises that it is difficult to reliably estimate with any degree of certainty the potential impact of the pandemic after the reporting date on the Group's operations, its future results and financial position. Refer to Note 12 for further information regarding the impact of COVID-19 on the Group.

No matters or circumstances have arisen since the end of the financial half year which significantly affected or could significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

ABN 75 091 377 892

Directors' Declaration

The directors of the Company declare that:

- 1. The consolidated interim financial statements and notes, as set out on pages 9 to 21 are in accordance with the *Corporations Act 2001*, including:
 - (a) complying with Accounting Standard AASB 134: Interim Financial Reporting; and
 - (b) give a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date.
- 2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Non-Executive Chairman:		
-	Steven Leigh Pynt	

Dated this 16th day of February 2022

Independent Auditor's Review Report to the Members of Global Health Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Global Health Limited ("the Company"), which comprises the consolidated interim statement of financial position as at 31 December 2021, the consolidated interim statement of profit or loss and other comprehensive income, the consolidated interim statement of changes in equity and the consolidated interim statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration for the Group comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the Directors for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

hlb.com.au

HLB Mann Judd (VIC Partnership) ABN 20 696 861 713

Auditor's Responsibility for the Review of the half year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
