### Operating and Financial Review

#### Principal Activities

The Group is principally engaged in the provision of diagnostic imaging services.

#### Performance

The Operating results for the half-year are driven from the ongoing delivery of the Group's strategic pillars.

The business continued its success in growing revenue 11.2% to \$94.8m despite another extended lockdown in its primary Victorian market and continuing Covid-19 impacts during the half-year.

The focus on strategy allowed the business to open another greenfield clinic in Pakenham, Victoria and complete the acquisition, with subsequent integration, of Womens' Imaging which has a specialist focus on women's health located in Hobart, Tasmania.

The Group continues to invest in new equipment with the planned replacement of clinical assets including CT scanners to improve service offering and cardiac capabilities and ultrasound systems with improvements in image quality and accuracy of diagnosis.

A safe working environment for staff was maintained through the pandemic with regular communication and provision of PPE. Staff have continued their professionalism by maintaining a high-quality service to patients and referrers, despite staff shortages due to isolation and furlough.

The focus on matching staffing levels to patient demand for services and operating cost control delivered an Operating EBITDA of \$22.2 million with an Operating EBITDA Margin of 23.4%.

Two small clinics were closed during the Victorian lockdown period and were not reopened, with activities being permanently consolidated into larger nearby clinics.

The company received \$4.3 million from the exercise of employee options.

### Financial Highlights

Capitol Health achieved a statutory net profit after tax for the half-year ended 31 December 2021 of \$8.1 million (2020: \$6.2 million).

- Revenue from services provided increased 11.2% on the prior comparative period to \$94.8 million driven by organic growth for services, a full six-month contribution from the acquisition of Direct Radiology, a one-month contribution from the acquisition of Womens' Imaging, an increase in Medicare rebates for certain services and the opening of greenfield clinics.
- Excluding revenue from the recent acquisitions, Direct Radiology and Womens' Imaging, the underlying organic growth rate for revenue was 5.8%.
- Profit Before Finance Costs, Income Tax, Depreciation and Amortisation ("EBITDA") increased 0.9% to \$22.8 million compared to \$22.6 million in the prior comparative period. This growth in EBITDA was achieved through strong growth in revenue, tight management of operating costs, reduced transaction costs and an unrealised foreign exchange gain. The prior comparative period included government funded Jobkeeper support of \$5.8 million.
- Operating EBITDA (EBITDA prior to non-operating items including Transaction costs, Unrealised foreign exchange gain/(loss), and Movement in financial liabilities) decreased 16.4%, from \$26.6 million in the prior comparative period, to \$22.2 million. If the government funded Jobkeeper support of \$5.8 million was excluded from the prior period comparison, then the Operating EBITDA of \$22.2 million for the half-year to 31 December 2021 would have represented a 6.9% increase on the prior comparative period result of \$20.8 million.
- Operating EBITDA Margin (Operating EBITDA as a percentage of Revenue from services provided) was 23.4% which is a decrease from the prior comparable period of 31.1%. If the prior comparable period excluded the government funded JobKeeper support of \$5.8m it would have represented an Operating EBITDA Margin of 24.3%.
- Transaction costs of \$0.3 million were incurred mostly in respect of the completed acquisition of Womens' Imaging.
- An Unrealised foreign exchange gain of \$0.7 million was recognised in respect of the foreign currency exchange movement (AUD : USD) for the investment in Enlitic. This was in comparison to an Unrealised foreign exchange loss of \$2.4 million in the prior comparable period.
- The effective Income tax rate for the period was 27.6% compared to 42.6% in the prior period.
- Cash at Bank was \$27.9 million and Borrowings were \$29.0 million as at 31 December 2021.

### Acquisitions

On 29 November 2021, the Group acquired the business and assets of Womens' Imaging which operates a dedicated diagnostic imaging clinic with a specialist focus on women's health in Hobart, Tasmania.

The acquisition is aligned to the Group's strategic plan for long term organic growth and expanding its network of high-quality community imaging centres. The consideration for the acquisition amounted to \$0.7 million funded from cash reserves.

### Capital Management initiatives

During the half-year to 31 December 2021 the Group did not undertake any new capital management initiatives and the share buy-back facility was not utilised over this period.

### Events Occurring after the Reporting Period

Subsequent to 31 December 2021:

#### *Coronavirus (Covid-19) pandemic*

The Coronavirus (Covid-19) pandemic continues to disrupt activity levels post half-year end with the Omicron variant spreading the disease more broadly across the community. Isolation periods, furloughed staff and restrictions on certain community activities are all impacting. The disruption to the national health care system continues with a range of elective surgery restrictions combined with a Code Brown for the Victorian hospital system.

#### *Dividend*

On 23 February 2022 the Company declared an interim dividend for the half-year ended 31 December 2021 of 0.5 cents per share (31 December 2020: 0.5 cents per share).

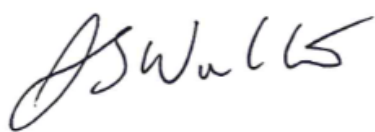

### Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 6 of the consolidated interim financial report and forms part of the Directors report for the half-year ended 31 December 2021.

### Rounding of Amounts

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and therefore the amounts contained in this report and in the financial report have been rounded to the nearest thousand dollars, or in certain cases, to the nearest dollar.

Signed in accordance with a resolution of the Directors made pursuant to section 306(3) of the *Corporations Act 2001*:

## Notes to the Condensed Consolidated Financial Statements for the Half-Year Ended 31 December 2021

---

### 1. General Information

#### 1.1. Reporting Entity

Capitol Health Limited (the “Company” or “Capitol Health”) is a company limited by shares which are publicly traded on the Australian Securities Exchange. The consolidated interim financial report of the Company for the half-year ended 31 December 2021 comprises the Company and its subsidiaries (together referred to as the “Group”).

The consolidated annual financial report of the Group for the year ended 30 June 2021 may be viewed on the Company’s website: <https://www.capitolhealth.com.au/reports-and-presentations>

#### 1.2. Going Concern

The financial statements have been prepared on a going concern basis. For the half-year ended 31 December 2021, the consolidated entity made a profit of \$8.1 million (31 December 2020: \$6.2 million) and had net current liabilities of \$1.4 million (31 December 2020: \$14.3 million).

The directors have considered the following factors in determining the appropriateness of the going concern basis of preparation in the financial statements:

- (a) the consolidated entity has sufficient working capital to enable it to meet its objectives and financial obligations. Net available funding through its secured banking facilities totals \$111 million.
- (b) the consolidated entity generated net operating cash inflow for the half-year ended 31 December 2021 of \$19.7 million (31 December 2020: \$24.1 million).

Accordingly, the consolidated interim financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

### 2. Significant Accounting Policies

#### 2.1. Basis of Preparation

This consolidated interim financial report is a general-purpose financial report which has been prepared in accordance with the Australian Accounting Standard AASB 134 *Interim Financial Reporting* issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*, as appropriate for-profit oriented entities. This report also complies with International Financial reporting Standards IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB).

The consolidated interim financial report does not include all of the information required for a full financial report and should be read in conjunction with the Annual Report of the Group for the year ended 30 June 2021. It is also recommended that the consolidated interim report be considered together with any public announcements made by the Group in accordance with continuous disclosure obligations under the *Corporations Act 2001* and ASX listing rules.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Annual Report for the year ended 30 June 2021, except as noted in 2.3 below.

The consolidated interim financial report was approved by the Directors on 23 February 2022.

#### 2.2. Comparative Figures

Where applicable comparative amounts have been adjusted to conform to changes in presentation in the current half-year.

## Notes to the Condensed Consolidated Financial Statements for the Half-Year Ended 31 December 2021

### 2. Basis of Preparation (continued)

#### 2.3. New Accounting Standards and Interpretations

The Group has adopted all new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period. Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. The Directors of the Group do not anticipate that the adoption of any of the amendments not yet adopted will have a material impact on the financial statements of the Group in future periods.

### 3. Significant Accounting Estimates, Assumptions and Judgements

The preparation of the consolidated interim financial report requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures and the disclosure of contingent liabilities. Estimates and underlying assumptions are reviewed on an ongoing basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets and liabilities affected in future periods. Actual results may differ from those estimates. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In preparing the consolidated interim financial report, the significant judgements made by management in applying the Groups' accounting policies and the key source of estimation uncertainty were consistent with those made for the consolidated financial report as at and for the year ended 30 June 2021.

### 4. Revenue

The Group solely operates within Australia and accordingly is only in one geographic market and only has one product and service category:

	31 Dec 2021 \$000	31 Dec 2020 \$000
<b>Major Service Category</b>		
Diagnostic imaging services	94,811	85,244

### 16. Business combinations - Summary of acquisitions

#### 16.1 Acquisitions

##### Acquisitions in 2022 financial half-year

On 29 November 2021, the Group acquired the business and assets of Womens' Imaging which operates a dedicated diagnostic imaging clinic with a specialist focus on women's health in Hobart, Tasmania.

The acquisition is aligned to the Group's strategic plan for long term organic growth and expanding its network of high-quality community imaging centres. The provisional goodwill of \$0.28 million comprises the value of expected synergies arising from the acquisition.

The consideration for the acquisition amounted to \$0.7 million funded from cash reserves. Transaction costs of the acquisition (included in cash flows from investing activities) amounted to \$0.27 million.

##### *Revenue and profit contribution from the date of acquisition to 31 December 2021:*

From the date of acquisition, Womens' Imaging contributed \$0.24 million of revenue for the Group. If the combination had taken place from the start of the financial year, revenue would have been approximately \$1.3 million.

##### Acquisitions in 2021 financial year

##### *Acquisition of Direct Radiology*

On 1 February 2021, the Group acquired the business and assets of Direct Radiology which operates diagnostic imaging clinics in Fairfield, Monbulk and South Melbourne in Victoria. Direct Radiology is a general imaging provider with a full suite of imaging modalities up to MRI and a specialist focus on women's health.

The consideration for the acquisition amounted to \$12.55 million with \$11.9 million funded from cash reserves and existing bank debt facilities and \$0.65 million in issued shares in the Company. The shares are to be held in voluntary escrow until 31 August 2023 and are subject to achieving a revenue target in FY23 and the ongoing employment of the vendors.

##### *Revenue and profit contribution from the date of acquisition to 30 June 2021:*

From the date of acquisition, Direct Radiology contributed \$3.6 million of revenue for the Group. If the combination had taken place from the start of the year, revenue would have been approximately \$8.6 million.

AASB3 *Business Combinations* require a consolidated pro-forma revenue and profit for the current financial year as if the acquisition occurred at the start of the financial year. However, management has determined that the profit for the period of the acquired businesses is impracticable to report and is consistent with definition contained within paragraph 5(a) through (c) of AASB 1008 *Accounting Policies, Changes in Accounting Estimates and Errors* as the records are not available to the Group or are misleading. Notwithstanding the Group considers the revenues for the period to be sufficiently reliable and have reported those above.

#### 16.2 Combinations

##### Combinations in 2022 financial half-year

The Group preliminarily accounted for the acquisition of the business and assets of Womens' Imaging and finalised the acquisition of the business and assets of Direct Radiology during the period.

At 30 June 2021 the Group provisionally accounted for goodwill of Direct Radiology of \$7.9 million. At 31 December 2021, no completion adjustments were required in relation to this business acquisition.

There were no other new acquisitions during the period.

### 17. Contingent Liabilities

The Group has an obligation to provide rental property bank guarantees when requested by the landlords of rental premises. These are classified as a contingent liability unless supported by value for value specific deposits.

### 18. Segment Information

The Group has one business segment which is the operation of diagnostic imaging facilities in Australia. Senior management and the directors of Capitol Health regularly review the Group's operating results to allocate resources and assess/review the Group's performance as a whole. As the Group operates in a single business and geographic segment no further disclosures are required. Overseas controlled entities did not trade during the period and are in the process of de-registration.

### 19. Fair Value Measurement of Financial Instruments

The carrying amount of financial assets and financial liabilities, which are not measured at fair value in the statement of financial position, approximate their fair values.

### 20. Events Occurring after the Reporting Period

Subsequent to 31 December 2021:

#### *Coronavirus (Covid-19) pandemic*

The Coronavirus (Covid-19) pandemic continues to disrupt activity levels post half-year end with the Omicron variant spreading the disease more broadly across the community. Isolation periods, furloughed staff and restrictions on certain community activities are all impacting. The disruption to the national health care system continues with a range of elective surgery restrictions combined with a Code Brown for the Victorian hospital system.

#### *Dividend*

On 23 February 2022 the Company declared an interim dividend for the half-year ended 31 December 2021 of 0.5 cents per share (31 December 2020: 0.5 cents per share).

Other than the above, there have been no other matters or circumstances occurring subsequent to the end of the half-year that has significantly affected, or may significantly affect, the operations of the Group, the results of these operations, or the state of affairs of the Group in subsequent financial years.

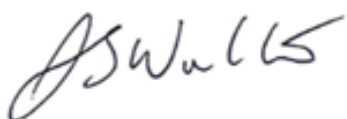

## Directors' Declaration

---

In the opinion of the Directors of Capitol Health Limited:

- (a) the attached condensed consolidated financial statements and notes thereto set out on pages 6 to 22, are in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the financial half-year ended on that date; and
  - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors made pursuant to section 303(5)(a) of the *Corporations Act 2001* on behalf of the Directors

## Independent Auditor's Review Report to the members of Capitol Health Limited

### *Conclusion*

We have reviewed the accompanying half-year financial report of Capitol Health Limited ('the Group'), which comprises the condensed consolidated statement of financial position as at 31 December 2021, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- (a) a giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### *Basis for Conclusion*

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report

### *Director's Responsibility for the Half-Year Financial Report*

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
