Wed 16 March 2022

Appointment of Paul Brennan as Non-Executive Director

Immuron Limited (ASX: IMC; NASDAQ: IMRN), an Australian biopharmaceutical company focused on developing and commercializing oral immunotherapeutics for the prevention and treatment of gut mediated pathogens, is pleased to announce the appointment of Paul Brennan as an independent Non-Executive Director of the Company with effect from today.

Mr Brennan has extensive experience in the health system through his clinical background and commercial exposure with various multinational companies. Mr Brennan was Chief Executive Officer (CEO) of PolyNovo Limited (ASX:PNV) for 7 years from 2015 to 2021 and took the company from a market capitalisation of \$30M to a high of \$2B. Prior to this Mr Brennan was Marketing Director Australia and New Zealand and Sales Director New Zealand for Smith & Nephew Healthcare for 6 years.

Commenting on his appointment, Paul Brennan said, *"Immuron has unique intellectual property that places it at the forefront of gut health. This emerging field of medical advancement, coupled with Immuron's strength in clinical research, should deliver significant market opportunity. I am looking forward to working closely with the team."*

Dr. Roger Aston, Non-Executive Chairman, said, *"we are delighted with the appointment of Paul to the Board as he brings a diverse background including commercialisation of technology, company governance, strategic planning and international marketing and more."*

This release has been authorised by the directors of Immuron Limited.

About Immuron

Immuron Limited (ASX: IMC, NASDAQ: IMRN), is an Australian biopharmaceutical company focused on developing and commercializing orally delivered targeted polyclonal antibodies for the treatment of infectious diseases.

About Travelan®

Travelan® is an orally administered passive immunotherapy that prophylactically reduces the likelihood of contracting travelers' diarrhea, a digestive tract disorder that is commonly caused by pathogenic bacteria and the toxins they produce. Travelan® is a highly purified tabletized preparation of hyper immune bovine antibodies and other factors, which when taken with meals bind to diarrhea-causing bacteria and prevent colonization and the pathology associated with travelers' diarrhea. In Australia, Travelan® is a listed medicine on the Australian Register for Therapeutic Goods (AUST L 106709) and is indicated to reduce the risk of Travelers' Diarrhea, reduce the risk of minor gastro-intestinal disorders and is antimicrobial. In Canada, Travelan® is a licensed natural health product (NPN 80046016) and is indicated to reduce the risk of Travelers' Diarrhea. In the U.S., Travelan® is sold as a dietary supplement for digestive tract protection.

About Travelers' diarrhea

Travelers' diarrhea is a gastrointestinal infection with symptoms that include loose, watery (and occasionally bloody) stools, abdominal cramping, bloating and fever. Enteropathogenic bacteria are responsible for most cases, with enterotoxigenic *Escherichia coli* (ETEC) playing a dominant causative role. *Campylobacter* spp. are also responsible for a significant proportion of cases. The more serious infections with *Salmonella* spp. the bacillary dysentery organisms belonging to *Shigella* spp. and *Vibrio* spp. (the causative agent of cholera) are often confused with travelers' diarrhea as they may be contracted while travelling and initial symptoms are often indistinguishable.
