## **About**

Bid is an Australian-founded technology company with offices in Australia, New Zealand, the USA and the UK. Bid's cloud-based platform simplifies the complex utility bill management process by using automation, enabling organisations to have complete control over their utility spend and reporting. Unlike many manual consulting and business services, the platform automates the management of almost every component of the process for multi-site companies. By automatically capturing and validating invoices and meter data, Bid clients can streamline their accounting and payments processes, go to market at short notice to optimise their supply contracts, and reduce billing charges using sophisticated analytics and reporting. Bid's platform automatically captures and validate invoices, automating the payable function, discovering cost reduction opportunities and providing real-time energy information and accurate financial capabilities at the touch of a button, as and when they need it.
