Global Health Secures Three Key Contracts with Private Hospitals in NSW & WA

Australian Healthcare Software Provider **Global Health Limited (ASX: GLH)** (“**Global Health**” or “**Company**”) is pleased to announce that it has secured three key contracts with **Arcadia Healthcare**, **Matilda Nepean Private Hospital** and **Waikiki Private Hospital** for the implementation of a range of solutions including **MasterCare Patient Administration System (PAS)**, **In patient Electronic Medical Records (EMR)**, **Discharge Summaries**, **cloud hosting** and **digital engagement platform** to empower patients to engage in their health care.

Arcadia Healthcare

Arcadia Healthcare are an existing client and will extend their use of MasterCare PAS by taking up our new In patient EMR solution and cloud hosting for its Arcadia Pittwater Private Hospital based in Warriewood, NSW.

Matilda Nepean Private Hospital

Matilda Nepean Private Hospital based in Kingswood, NSW is a newly built hospital facility and will utilise MasterCare PAS, MasterCare Inpatient EMR, Discharge Summaries and cloud hosting.

Both Arcadia Pittwater and Matilda Nepean will use MasterCare PAS to streamline the patient journey from admission to discharge: to cost effectively manage all hospital operations, patient and revenue management from one single system.

MasterCare’s web based In patient EMR is a core part of their solution and has been developed due to the emerging needs for private and independent hospitals to digitise their medical records. This web based (SaaS) solution will enable Arcadia Pittwater and Matilda Nepean Private to digitise their electronic medical records, and access a range of modules, including the collection of patient data, medications and e-prescriptions as well as clinical modules, enabling them to streamline their patient care.

Arcadia Pittwater and Matilda Nepean continue the Company’s momentum in New South Wales and join **Wolper Jewish Hospital**, **East Sydney Private Hospital**, **Alwyn Rehabilitation Hospital**, **Royal Rehab Private Hospital**, **Metropolitan Rehabilitation Hospital** and **Wesley Mission** all of whom have come on board with Global Health’s MasterCare solutions in recent years.

Waikiki Private ‘Win’

Waikiki joins a number of existing MasterCare clients in Western Australia including The Perth Clinic, South Perth Community Hospital and the Western Australian Mental Health Commission (WAMHC) who use MasterCare as a state-wide solution.

Waikiki Private Hospital will utilise the MasterCare PAS solution to digitise their patient pre-admission processes, drive best practice workflows, simplify reporting and improve revenue management. PAS will provide a fully integrated solution and will be utilised alongside Discharge Summaries, Data Warehouse and HotHealth consumer digital engagement platform empowering patients to actively engage in their healthcare

Contract Value- Recurring Revenue

These three key contracts represent a collective value of **\$185,400 in annual recurring revenue** and **\$110,000 in professional services**. They represent indicators of the strong sales and marketing progress being made for the Company and highlight the highly prospective pipeline in place to target further developing opportunities.

Michael Davies, CEO of Global Health commented:

“We are excited to be working with more hospitals across Australia and supporting Arcadia Pittwater, Matilda Nepean Private and Waikiki, all progressive hospital providers, who deliver high-quality healthcare to improve patient outcomes and wellbeing.

Our range of solutions will enable our clients to streamline patient services; digitise electronic medical records reducing cost and risk; empower doctors and nurses with improved user experience and tailored workflows as well as providing a solution to better engage with patients and clients’.

We’re delighted that we are able to provide solutions to improve accessibility and streamline processes for hospital care in New South Wales and Western Australia respectively.”

Authorised for release to ASX by: Michael Davies, Chief Executive Officer

More Information on Global Health Solutions:

MasterCare

MasterCare Patient Administration System (PAS) provides a single solution to manage your hospital including digitised pre-admission processes, best practice patient management workflows, electronic discharge summaries, statutory reporting and more.

In patient EMR

This web-based solution (SaaS) supports a range of modules and extension points on which new capabilities can be developed. The solution enables the collection of client data, GP/care providers, medications, e-prescriptions, notifications as well as a range of clinical modules.

As a specialist Australian provider, MasterCare has a strong focus on listening to customer needs and delivering innovation to the sector. A dedicated roadmap will provide a range of web-based enhancements for In patient EMR over 2022 and 2023.

HotHealth

This solution gives organisations a “digital front door” to better engage with their patients and clients through an online presence and tools such as telehealth, forms, chat forums and information distribution.
