

AHF confirms application for FDA Approval

Over the past week there has been considerable media attention in relation to the shortages of infant formula products in the United States due to the shutdown of a major US infant formula manufacturer due to health and safety concerns.

The Board of Australian Dairy Nutritionals (**AHF** or the **Group**) is pleased to advise that management has been working closely with Australian and US authorities to progress supply opportunities into the US market and have applied to the US Food & Drug Administration (**FDA**) for an enforcement discretion to facilitate accelerated approval for its future Gradulac Gentle infant formula range. The Group currently has inventory available as well as inventory scheduled for production in June 2022.

The release of this announcement was authorised by the Board of AHF.
