## Global Health Secures Significant Regional Contract Win in Victoria

Australian Healthcare Software Provider **Global Health Limited (ASX: GLH)** (“Global Health” or “Company”) is pleased to announce that it has secured a significant contract with **Latrobe Community Health** to provide **MasterCare EMR, Data Warehouse, MasterCare Connect, e-switch integration and Referral Net SMD** to the largest community health agency based in Gippsland, Victoria.

The Latrobe Community Health contract continues Global Health’s exceptional momentum in key regional growth corridors of the Victorian Community Health landscape. Similar to recent contract announcements, this highlights the capabilities of the MasterCare solutions that Global Health provides. Global Health continues to provide integrated healthcare solutions to key growth corridors in regional areas across Australia, in the bid to empower community health resources that have been heavily strained due to the ongoing impact of the COVID-19 pandemic.

The contract value is approximately **\$360,000 in annual recurring revenue** over five years, with 2 x 2 year extensions. The contract also secures approximately **\$1.2M in professional services over the next two years**. This is a significant contract for Global Health, following on from the solid momentum built in FY21 and setting a strong benchmark for FY22, as MasterCare continues its strong growth trajectory, expanding its footprint across Victoria amongst community health organisations in regional and remote settings.

### Latrobe Community Health solution

Global Health is excited to be providing the **MasterCare EMR, Data warehouse, MasterCare Connect, e-switch integration and Referral Net SMD** solutions to the largest community health agency in Gippsland, Victoria. Latrobe Community Health operates over 50 sites with more than 1000 employees with services extending into Monash based in metro Melbourne. The solutions will enable Latrobe Community Health to improve continuity of care across multi-disciplinary service teams, improve patient outcomes through automated workflows; streamline data collection; enable better decision making at the point of care with mobile solutions; digitise referral management processes and improve coordination across all their services.

The MasterCare solution was chosen as it has the ability to manage the size and complexity of health care delivery which Latrobe Community health currently offers, whilst being able to scale as their services grow over the coming years.

This is a significant contract for the Company, with Latrobe Community Health being Gippsland's largest community health agency, solidifying MasterCare's position as the EMR of choice amongst the Victorian community health sector.

**Michael Davies, CEO of Global Health commented:**

"We are delighted that Latrobe Community Health, a highly respected, progressive and large community health provider has chosen MasterCare as an integrated solution for their health care needs. Latrobe Community Health operates across Gippsland and also in metro Melbourne offering a wide range of services. We are excited to offer a solution that not only works for today but, can develop as the community health service expands more services across Victoria in the coming years. This solution will help Latrobe Community Health improve patient outcomes through increased accessibility, enable better decision making at the point of care with mobile solutions and improve coordination across all their services."
