Disclaimer

The material contained in this presentation is intended to be general background information on Imricor Medical Systems, Inc. (**Imricor**) and its activities.

The information is supplied in summary form and is therefore not necessarily complete. It is not intended that it be relied upon as advice to investors or potential investors, who should consider seeking independent professional advice depending upon their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. None of Imricor, its officers, directors, employees and agents, nor any other person makes any representation or warranty as to the accuracy, completeness or reliability of the information contained in this presentation and none of them accepts responsibility or liability for any errors or omissions in this presentation whatsoever.

Unless otherwise noted, financial information in this presentation has been prepared in accordance with accounting principles generally accepted in the U.S. (**US GAAP**) and are denominated in US dollars.

This presentation may contain statements that constitute “forward-looking statements”. Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding Imricor’s intent, belief or current expectations with respect to its business and operations, market conditions, results of operations and financial condition.

Imricor uses words such as ‘will’, ‘may’, ‘expect’, ‘intend’, ‘seek’, ‘would’, ‘should’, ‘could’, ‘continue’, ‘plan’, ‘estimate’, ‘anticipate’, ‘believe’, ‘probability’, ‘risk’, ‘aim’, or other similar words to identify forward-looking statements. These forward-looking statements reflect Imricor’s current views with respect to future events and are subject to change, certain risks, uncertainties and assumptions which are, in many instances, beyond its control, and have been made based upon management’s expectations and beliefs concerning future developments and their potential effect upon Imricor. There can be no assurance that future developments will be in accordance with Imricor’s expectations or that the effect of future developments on Imricor will be those anticipated. Actual results could differ materially from

those which we expect, depending on the outcome of various factors. Investors and others are cautioned not to place undue reliance on forward-looking statements, particularly in light of the current economic climate and significant volatility, uncertainty and disruption caused by the COVID-19 pandemic.

Imricor is under no obligation to update any forward-looking statements contained in this presentation, whether as a result of new information, future events or otherwise, after the date of this presentation.

Imricor’s CHES Depositary Interests (**CDIs**) are traded on ASX in reliance on the safe harbour provisions of Regulation S under the US Securities Act of 1933, as amended, and in accordance with the procedures established pursuant to the provisions of a no-action letter dated 7 January 2000 given to ASX by the staff at the US Securities and Exchange Commission. The relief was given subject to certain procedures and conditions described in the no-action letter. One of the conditions is that the issuer provides notification of the Regulation S status of its securities in communications such as this presentation.

The distribution of this document outside of Australia may be restricted by law and any such restrictions should be observed. This presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States or in any other jurisdiction.

Introduction to Imricor

Cardiac ablation in conventional x-ray EP lab

Cardiac ablation in an iCMR EP lab

(iCMR: interventional cardiac magnetic resonance)

Transitioning cardiac ablation into a new kind of lab

Conventional x-ray EP lab

Everyone else

X-ray
to
iCMR

iCMR EP lab *(interventional cardiac magnetic resonance)*

Only Imricor

Transitioning cardiac ablation into a new kind of lab

Conventional x-ray EP lab

Everyone else

X-ray
to
iCMR

iCMR EP lab *(interventional cardiac magnetic resonance)*

Only Imricor

Enabled by Imricor's MRI-compatible devices

Transitioning cardiac ablation into a new kind of lab

Conventional x-ray EP lab

Everyone else

X-ray
to
iCMR

iCMR EP lab (interventional cardiac magnetic resonance)

Only Imricor

Physicians, Patients, Hospitals

- Same kinds of tools, same procedures
- Advantages of MRI imaging
- No radiation for patient or physician
- No lead gowns for medical personnel
- MRI generates extra revenue for hospital

Imricor

- Imricor captures 100% of consumable device revenue
- No competition

A strong and growing market in cardiac ablation

Drivers of Global Catheter Ablation Market

Increased incidence of cardiac disease

Shift towards minimally invasive procedures

Cost effectiveness of catheter ablation as treatment option

Cardiac Ablation Disposables Market: US, EU, ANZ

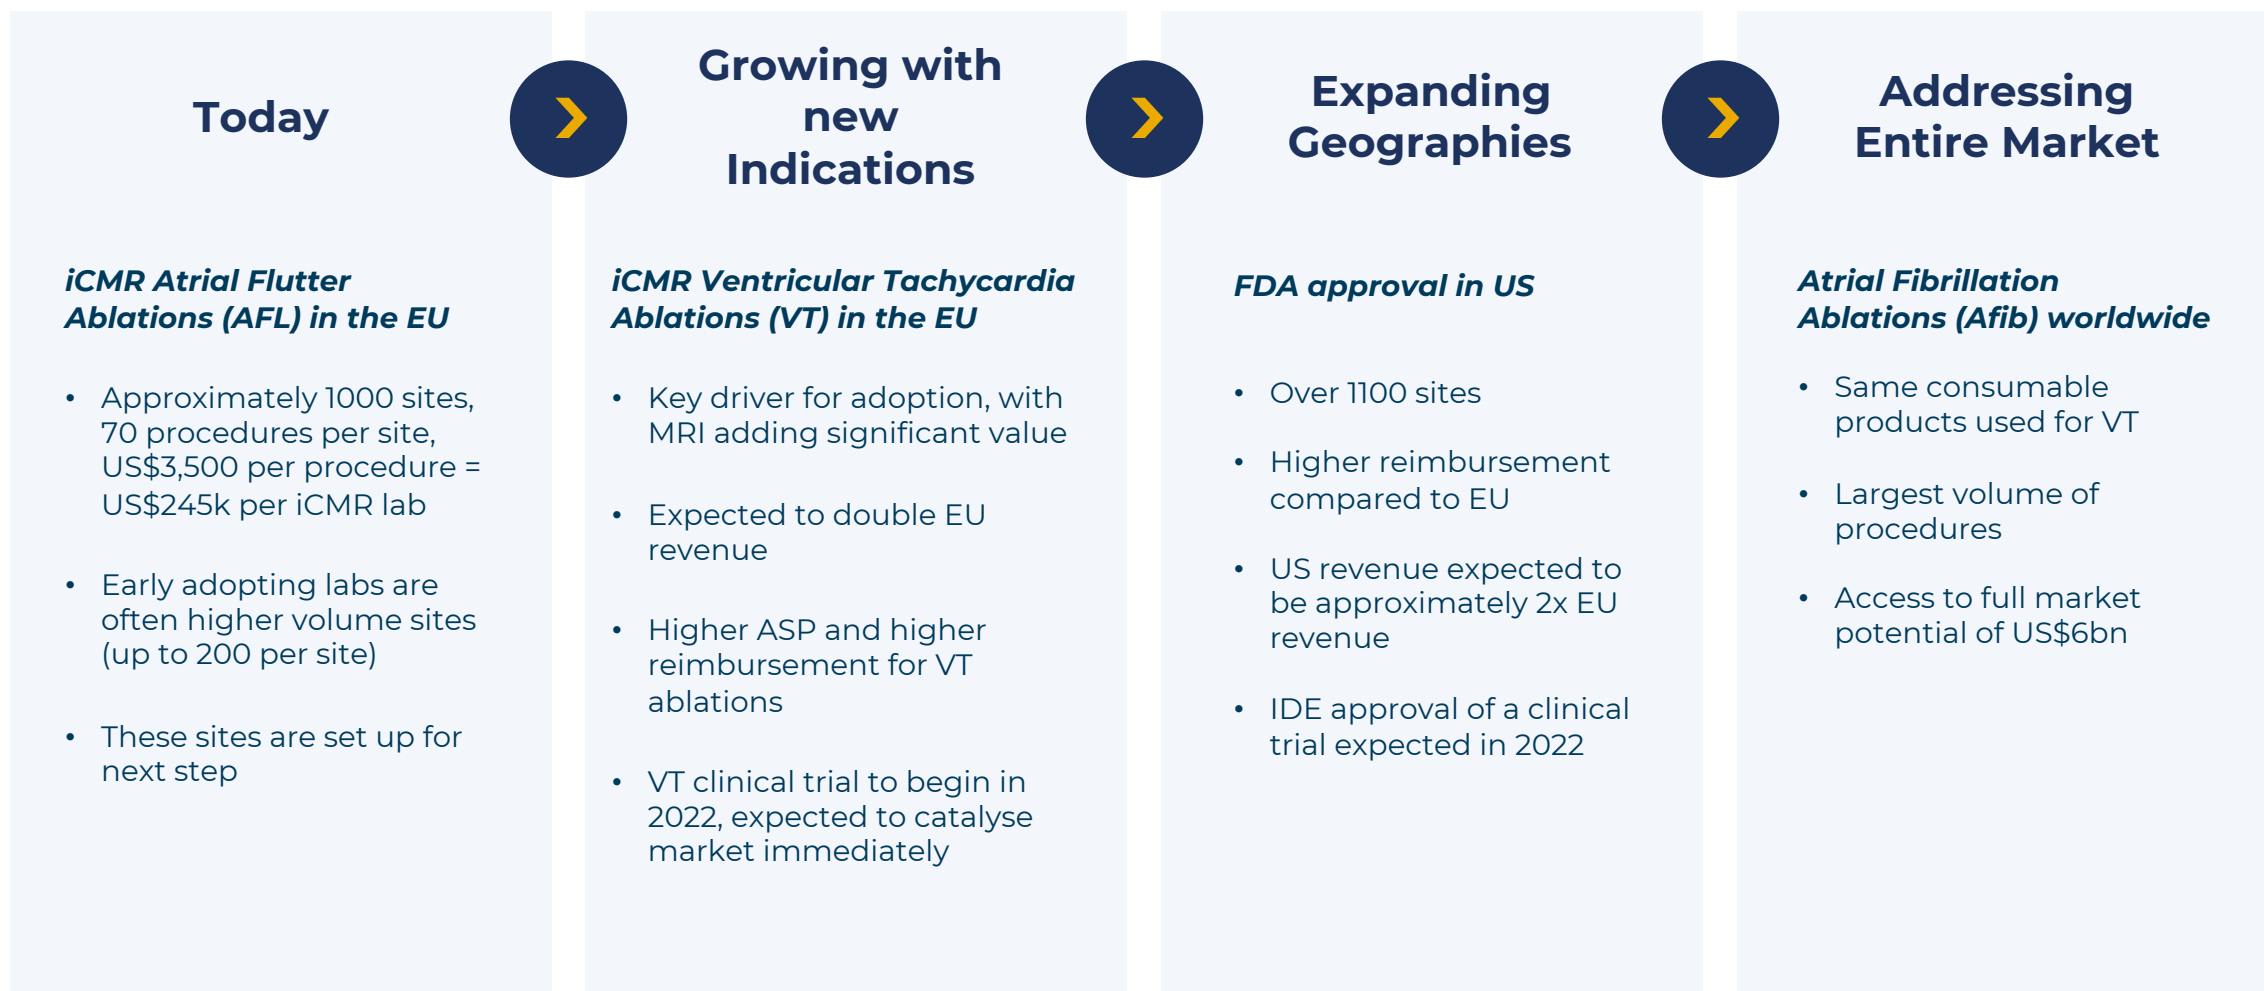

A large global addressable market with high growth potential supported by favourable growth drivers
