Management Commentary

Planpay (previously Play Travel)

Planpay (previously Play Travel) continues to develop their lay-buy payment solution for the travel industry and is making good progress with a number of travel companies. Touch Ventures advanced \$2.1m to Planpay as a loan in October, with a commitment to advance up to \$3.0m in additional funding.

Early Stage Portfolio

Touch Ventures completed one new investment in the early stage portfolio, investing US\$1.25 million (A\$2.0 million) in to a U.S.-based global marketplace for brands to discover, contract with and pay digital marketing agencies. The company has over 5,000 brands and 7,000 agencies signed up to their marketplace. The Early Stage Portfolio value increased in this month as a result of the investment, reducing cash accordingly.

Movement in September Net Tangible Asset Backing (NTA)

The change in the NTA per share is predominantly the result of unrealised foreign currency movements of investments denominated in foreign currencies.

1. NTA figures are unaudited and no adjustments have been made for future exercises of options or performance rights, future tax liabilities/benefits or end of period accounting adjustments.
