1 February 2023

CHANGE OF COMPANY SECRETARY

Mach7 Technologies Limited ("Mach7" or the "Company") (ASX:M7T), a company specialising in innovative medical imaging software solutions, is pleased to announce the appointment of Mr Tony Panther as Company Secretary, effective 1 February 2023, to replace Ms Veronique Morgan-Smith, following team reassignments at Vistra Australia, the Company's provider of secretarial and corporate compliance services.

Mr Panther is a Chartered Accountant with over 30 years' experience in a variety of fields. Following completion of university commerce and law degrees he worked as an external auditor with a major international chartered accounting firm and has progressed to a range of internal audit, compliance, senior finance, and company secretarial roles with a number of ASX-listed and unlisted public companies and professional services firms, covering financial services, utilities, biotech, IT services, mineral exploration and environmental technologies. He specialises in financial reporting and company secretarial practice.

Mr Panther is responsible for communication with the ASX in relation to listing rule matters for the purposes of ASX Listing Rule 12.6.

The Board wishes to thank Ms Morgan-Smith for her contributions to the Company and wishes her well for her future endeavours.

Released on authority of the Board by:

Mike Lampron
Managing Director and Chief Executive Officer

About Mach7 Technologies:

Mach7 Technologies (ASX:M7T) is a medical imaging systems provider that develops innovative image management and viewing solutions for healthcare organisations. The core of these offerings is the Mach7 Enterprise Imaging Solution, encompassing Enterprise Data Management, Enterprise Diagnostic Viewing and Diagnostic Workflow applications. Mach7's Enterprise Data Management solution, consisting of a powerful Vendor Neutral Archive (VNA) and data administration tools, allows for the fast storage, access, retrieval and viewing of images across a healthcare network with connectivity to the Cloud. In July 2020, Mach7 acquired Client Outlook and the eUnity Enterprise Diagnostic Viewing technology to augment Mach7's Enterprise Data Management and Diagnostic Workflow applications. eUnity is a zero-footprint, FDA-approved, image viewing solution that makes images accessible on any workstation. This offers healthcare professionals consolidated access to all patient images and data, ensuring clinical staff have timely access to the right information to diagnose and treat patients. Uniquely, the company also gives customers independence to deploy its solutions either on a component basis or in a unified comprehensive platform. Mach7 has built a global network of diverse customers that range from expansive Integrated Delivery Networks, National Health Systems, medical research facilities, and large academic medical institutions to regional community hospitals, private radiology practices, and independent provider groups.
