About Amaero International Limited:

Amaero International Limited is an Australian-based company focused on titanium and other alloy powder production utilised by the additive manufacturing industry. The Company provides applied engineering and commercialisation services in collaboration with aerospace, defence and other industries that utilise additive manufacturing.

Amaero was established with the support of Monash University in 2013 to take advantage of commercial opportunities identified by the Monash Centre for Additive Manufacturing (MCAM). Amaero is co-located with MCAM in Melbourne Australia. It operates two additional facilities, in Adelaide, South Australia, and Los Angeles, California, USA.
