

AHF Infant Formula Facility Obtains Export Licence

The Board of Australian Dairy Nutritionals Group Limited (**AHF** or the **Group**) is pleased to advise that the Group's infant formula facility located in Camperdown, Victoria has been successful in achieving export certification through the Department of Agriculture, Fisheries and Forestry (**DAFF**).

The export certification means infant formula and other dried milk and milk powder products manufactured at AHF's manufacturing facility can be exported from Australia to international markets, subject to local requirements for importation of these products into each market.

All Ocean Road Dairies Organic A2 protein infant formula now produced at the facility will be eligible for export through the Chinese cross-border e-commerce channel (**CBEC**), and into other key markets, provided the products are registered for import into that market.

In the last quarter of 2022, AHF representatives attended two large trade shows in Asia where there was strong interest in the Ocean Road Dairies Organic A2 protein infant formula range so the export certification is a critical step in accessing these markets.

The release of this announcement was authorised by the Board of AHF.

About Australian Dairy Nutritionals Group

Australian Dairy Nutritionals Group (AHF) is a vertically integrated Australian dairy group which owns high quality organic and organic A2 dairy farms, and a processing facility located in Southwestern Victoria, the 'Golden Triangle' of Australia's dairy industry. In addition to our premium Future range of infant formulas the Group has also commenced production of Australia's first organic A2 protein infant formula made with farm fresh Australian milk from our farms at our purpose-built infant formula factory. The Group is a trusted source of premium quality branded dairy products sold in Australia and overseas.
