Directors' Report

The Directors submit herewith their report together with the financial report of RMA Global Limited and its controlled entities ('the Group' or 'RMA'), for the half year ended 31 December 2022.

In order to comply with the provisions of the *Corporations Act 2001*, the Directors report as follows:

Directors

The names of the Directors of the Group in office during the half year and up to the date of the report are set out below. All Directors held their position as a Director throughout the entire period up to the date of this report.

- Mr David Williams (Chairman)
- Mrs Sigal Pilli (non-Executive)
- Mr Philip Powell (non-Executive)
- Mr Charlie Oshman (non-Executive)
- Mr Max Oshman (non-Executive)
- Mr Edward van Roosendaal (non-Executive)
- Mr Mark Armstrong (non-Executive) (resigned 26 October 2022)

Principal activities

RMA is an online digital marketing business providing extensive data on residential property sale results for residential real estate agents and agencies, as well as reviews of agent performance from vendors and buyers of residential real estate. This data can be used by agents to build their profile to market themselves, or by vendors to compare agents and find an agent or agency to sell their property.

The product offering also allows for the rating of agencies on leased properties as well as mortgage brokers.

RMA currently operates in Australia, New Zealand and the USA.

Sources of Revenue

The primary revenue streams for the business consist of Subscriptions and Promoter fees.

Subscription revenue is generated through agents and agencies paying a monthly fee to receive a more prominent profile and get access to digital marketing products and services.

In Australia, the subscription product also includes an offering for mortgage brokers.

Promoter is a product which enables agents and agencies to digitally promote their digital profiles through various third-party platforms (Google, Facebook, Instagram, etc). Promotion campaigns are renewable and typically run for between 1 week and 3 months.

Review of operations and financial performance

RMA is the leading agent review platform in Australia and New Zealand and has seen rapid growth in the US market.

We use a consistent approach in each market to grow our customer base and revenue. First, we obtain transaction and agent data and invite agents to claim their profile. Once on the platform, agents collect reviews against their profile to take advantage of the benefits of the platform. This engages agents with the platform and encourages them to collect more reviews and take up a subscription to unlock the additional benefits of our paid services.

The United States is a significant market opportunity for RMA with approximately 865,000 active agents in the market. The market is estimated to be over c.20x larger than Australia, boosted by its dual agent system where each transaction typically involves agents for the buyer and seller.

Replicating the current Australian experience where c.36% of the approximately 33,000 active agents are under a subscription, provides guidance on how large the addressable market is and the remaining opportunity available to RMA.

Our focus in FY23 is to monetise our US customer base, particularly in the key US states of Florida and California. In Australia, a more mature market for us, we are looking to grow through continuing to enhance our product offering and customer experience.

Group revenues for 1H FY23 are up c.19% YoY compared to 1H FY22, with subscription revenue up 24% YoY over the same period. This represents solid performance in an environment where significant headwinds are being seen in global Real Estate markets.

US revenues continue to underpin our growth, increasing 143% in 1H FY23 compared to 1H FY22, and now comprises c.20% of Group revenues.

Group recurring revenue

USA

The real estate industry in the US has been significantly impacted by the rates environment, with seasonally adjusted sales volume in December down c.34% YoY¹. In a market as large as the US, this still translated in to just over 4 million homes being sold over the calendar year.

Agents on the platform and reviews

RMA’s target market is the top 30% of agents who facilitate over 80% of the transactions. These agents are more resilient through market downturns and continue to drive growth for RMA. With over 230,000 agents on the platform and c.5,000 agents under a subscription, there remains significant opportunity for growth even in more difficult market conditions. Once on the platform, agents collect reviews to improve their online profile. This engages agents with the platform and encourages them to collect more reviews and ultimately to take up a subscription and benefit from the additional marketing features RMA offers.

Reviews and platform usage are the leading indicators for paid subscriptions. RMA has continued to drive review growth with c.615,000 reviews at 31 December 2022 up 118% on December 2021. There are now over 650,000 reviews on the US platform.

A key benefit for agents is our Easy Reviews feature which simplifies and automates review requests through integration with agent workflow systems. This brings us closer to the transaction and increases the rate of review collection. Our review requests also have a high conversion rate with c.65% of review requests converting to a review.

Agents on the platform vs reviews (cumulative)

Revenue

The US focus in the half year has been to improve on the monetisation initiatives delivered during 2022. Our uplift has been delivered through improvements making it easier for an agent to start a paid subscription, as well as improving on and expanding our subscription pricing and product offerings.

Our trial subscriptions have been a major success, converting to paid subscriptions at c.80% following improvements to our organic sales channel.

In 1H FY23 the Company earned c.\$1.44 million in subscription revenues, up 140% YoY. This growth reflects some benefit from positive exchange rate movements, but underlying currency growth is also impressively high at 120% YoY. Promoter revenues, which are more seasonal, were up 158% in 1H FY23 compared to 1H FY22.

1. National Association of Realtors <https://www.nar.realtor/newsroom/existing-home-sales-receded-1-5-in-december>.

US revenue

Australia and New Zealand

Agents on the platform and reviews

Interest rate increases and inflation are having a significant impact on the real estate industry, particularly in Australia where YoY housing sales volumes are down c.13% YoY¹. We estimate that the number of active agents in the market has also decreased by c.2% since January 2022.

Revenue

In Australia the majority of highly successful agents are under an Agency subscription. Consequently, the subscriber base is less volatile to changes in the overall real estate market with agent engagement remaining high and subscription revenues continuing to increase.

We are pleased with the subscription revenue growth in ANZ, with subscriptions up 9% in 1H FY23 from 1H FY22 to \$4.9 million. New Zealand remains a growth market, increasing 65% to \$550k over the same period.

Promoter revenues are a higher-touch sales product and more seasonal than subscriptions. The RMA Awards in February also provide an uplift in the second half of the financial year. In 1H FY23 revenues were impacted by COVID-19-related staff shortages, resulting in revenues being down 5% compared to 1H FY22. Revenues have since recovered.

Group Operating Costs

Staff Costs

Attracting and retaining the best people is vital for the success of our technology company. RMA was impacted to some extent in FY22 by a volatile employment market brought on by COVID-19 and extended lockdowns, which has increased staff churn rates, mainly in the mid-junior level salary range. This put upward pressure on salaries and required increased reliance on the use of external consultants to backfill vacant positions in the short term.

Staff levels for most of 1H FY23 were consistent with 1H FY22, however, more functions were brought in-house, reducing the requirement for external contracting. The Company restructured in late November 2022, reducing headcount by c.15%, which increased the short-term cost by c.\$400k. As a result, direct employee costs increased 9% YoY while consulting costs reduced by c.50%. Excluding the restructuring costs, overall staff costs reduced by c.2% YoY.

RMA regularly conducts employee engagement surveys annually. Participation rates are high at c.90% or more, with our engagement scores remaining above 80%. This has played a large role in our ability to attract new talent, limit staff churn and maintain a highly motivated team.

Other costs

Other major costs include technology costs, marketing costs and administration costs. Technology costs form the bulk of other costs, mostly comprising data storage and web traffic fees. These fees are semi-variable and increased by c.17% YoY due to a combination of increased agents and reviews on the platform, increased website traffic and high inflation.

Capital Management

In December 2022, the Company announced an accelerated non-renounceable rights offer (“ANREO”) where shareholders were able to apply for 1 share for every 6.1 shares held at a price of \$0.07 a share, raising a total of \$5.5 million of Capital, before costs. The ANREO consisted of an accelerated offer to institutional shareholders, which raised \$3.8 million and settled in December 2022, and a retail portion settled in January 2023.

The Company is currently well funded. At 31 December 2022 the cash balance was \$5.8 million and the net cash outflow in 2Q FY23 was \$1.0 million.

Notes to the Condensed Consolidated Interim Financial Statements

Section 1. Accounting policies and basis of preparation

1. General information

Statement of compliance

The condensed consolidated interim financial statements for the six months ended 31 December 2022 have been prepared in accordance with the *Corporations Act 2001* and AASB 134: *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim Financial Reporting.

The condensed consolidated interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's most recent annual financial report.

2. New and revised Accounting Standards and Interpretations

Amendments to Accounting Standards and new Interpretations that are mandatorily effective for the current reporting period.

The Group has adopted all the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current half-year.

3. Significant accounting policies

Basis of reporting

The condensed consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Company's 2022 Annual Financial Report for the financial year ended 30 June 2022. The accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

Going concern

The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group is involved in significant expansionary activity and as such, is currently cash absorbing. During the period the group incurred a loss of \$2.9 million and had net cash outflows from operating activities of \$3.3 million. The available cash balance at 31 December 2022 was \$5.8 million.

In December 2022, the Group announced a \$5.5 million capital raise to be raised through an accelerated non-renounceable entitlement offer. The raise was fully successful with the accelerated institutional portion settled in December 2022, raising \$3.8 million and the balance of \$1.7 million being received in January 2023.

At the date of this financial report and having considered the above factors, including estimated revenue growth and cash runway, the Directors are confident that the Group will be able to continue as a going concern.

Section 2. Financial performance

4. Operating segments

Management has determined the operating segments based on the reports reviewed by the Directors (the Chief Operating Decision Makers as defined under AASB 8) that are used to make strategic and operating decisions. The Directors consider the business primarily from a geographic perspective. The Group has a presence in Australia, New Zealand, and the USA. Operating costs and balances of the reportable segment's assets, liabilities and equity have not been disclosed as this information is not provided to the Group's Chief Operating Decision maker or used in making resource allocation decisions.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of services

The primary revenue streams for the business consist of Subscriptions and Promoter revenue. Subscription revenue is mostly generated through agents and agencies paying a fee to receive a more prominent profile and get access to marketing products and services. The subscription product also includes an offering for mortgage brokers in Australia.

Promoter is a product which enables agents and agencies to promote their digital profiles through various third-party platforms (Google, Facebook, Instagram, etc). Promotion campaigns are renewable and typically run for between 1 week and 3 months. Consideration is recorded as deferred when it is received which is typically at the time of sales and revenue is recognised over the period as the customer simultaneously receives and consumes the benefits provided by RMA.

Revenue from the rendering of subscription services, including Promoter, is recognised on a straight-line basis over the period of real estate agents/agencies subscriptions, mortgage broker subscriptions, or promotion.

Sale of goods

RMA has an Awards programme included in non-recurring revenue that recognises agents who have excelled in various categories. The Group generates revenues through the sale of trophies, certificates and other memorabilia related to the awards.

Revenue from the sale of goods is recognised when control of the goods has transferred to the customer, being the point in time at which the customer accepts delivery of the goods.

Australian Government grants

Grants are recognised in profit or loss in the period in which the entity recognises the related costs as expenses.

In this period, the Group received \$24,600 in government grants for investment in export markets. No other government grants were received in this period.

7. Expenses

Loss before tax includes the following specific expenses:

The total cash flow for leases amount is \$172,320 (31 December 2021: \$175,312).

10. Lease liabilities

Group as a lessee

RMA leases all of its premises. The Group moved to its current location in May 2022, with a fixed lease term of 5 years. Rent increases are at a fixed rate per annum and will be negotiated on renewal. The lease is supported by a bank guarantee.

The US office moved to its current location in California in May 2021. The lease has been extended for a 2-year period, ending in November 2024.

The Group's commitments for future minimum lease payments in relation to non-cancellable operating leases were as follows:

11. Trade, other payables, provisions and other liabilities

Trade and other payables

Trade payables and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

Provisions

Provisions are recognised when the Group has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

Employee-related payables include payroll tax, superannuation, and provisions related to leave liabilities.

Total non-current trade and other payables, provisions and lease liabilities	1,092,947	1,224,803

12. Other commitments and contingencies

There were no material contingent liabilities or capital commitments as at the reporting date.

13. Share capital

Ordinary shares are classified as equity. Incremental costs from the acquisition of new shares are shown in equity as a deduction, net of tax, from the proceeds.

The number of ordinary shares in issue on 31 December 2022 was 532,973,453 (30 June 2022: 479,359,637).

In December 2022, the Company announced an accelerated non-renounceable entitlement offer to raise \$5.5 million in capital, before costs. Shareholders were granted 1 entitlement share for every 6.1 shares held. The institutional portion of the ANREO settled in December, raising \$3.8 million through the issue of 53.6 million shares.

15. Key management personnel

Remuneration arrangements of key management personnel are disclosed in the annual financial report.

16. Dividends

For the near-term, the Group will be focusing on growing and reinvesting revenues in the business. It is not expected that the Group will be in a position to pay dividends in FY23 after which the Group will consider the implementation of a dividend policy.

17. Significant events after the reporting date

In January 2023, the retail component of the ANREO announced in December 2022 completed successfully, raising a further \$1.7 million through the issue of 25.0 million shares. The number of ordinary shares in issue on the date of this report was 557,942,632.

The Directors are not aware of any other item, transaction or event of a material and unusual nature which occurred between the end of the half year and the date of this report, which is not dealt with in this report and, in the opinion of the Directors of the Company, is likely to significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Directors' Declaration

In the opinion of the Directors:

1. the attached half-year financial statements and notes of the Company and of the Consolidated Entity are in accordance with the *Corporations Act 2001*, including:
 - a) giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2022 and the performance of the Group for the half-year ended on that date;
 - b) compliance with Accounting Standards AASB 134 *Interim Financial Reporting* and the Corporation Regulations 2001; and
2. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors made pursuant to section 303(5) of the *Corporations Act 2001*.

On behalf of the Directors.

Independent Auditor's Review Report

To the Members of RMA Global Limited

Report on the half year financial report

Conclusion

We have reviewed the accompanying half year financial report of RMA Global Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated condensed statement of financial position as at [date], and the consolidated condensed statement of profit or loss and other comprehensive income, consolidated condensed statement of changes in equity and consolidated condensed statement of cash flows for the half year ended on that date, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of RMA Global Limited does not comply with the *Corporations Act 2001* including:

- a giving a true and fair view of the RMA Global Limited's financial position as at 31 December 2022 and of its performance for the half year ended on that date; and
- b complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
