#### **About Octava Minerals Ltd**

Octava Minerals Limited (ASX:OCT) is a Western Australian based green energy metals exploration and development company. The Company has 3 strategically located projects in geographically proven discovery areas, with the key project being the East Pilbara (Talga) lithium project.

# **OCTAVA MINERALS LIMITED**

New Energy Metals of Lithium, Nickel, PGM's and Gold

# **INVESTOR PRESENTATION**

# IMPORTANT NOTICE AND DISCLAIMER

The information contained in this document ("Document") has been prepared by Octava Minerals Limited (referred to as "Octava" or "the Company"). The purpose of this Document is to provide background information to assist readers in obtaining a general understanding of the Company's proposals and objectives. It is not and should not be considered as an offer or invitation to apply for or purchase any securities of the Company or as a recommendation or inducement to make an offer or invitation in respect of securities in the Company. No agreement to subscribe for securities will be entered into on the basis of this Document or any information contained in this Document.

- The Company has authorised the distribution of this Document to recipients ("Recipients"), subject to the terms of this Disclaimer, to assist them in deciding whether they wish to proceed with a further investigation of the Company. However, the information in this Document is not intended to form the basis of any investment decision in relation to the Company or its assets and should not be considered as a recommendation to the Recipient to invest in the Company's assets. This Document is not a prospectus, product disclosure document or other offering document under Australian law or under the law of another jurisdiction. The Recipient should carry out and should rely on their own independent review, investigation, analysis and due diligence of Octava and its operations, business and assets.
- The information in this Document, which is selective and does not purport to contain all the information that the Recipient may require to evaluate the opportunity, has not been independently verified by the Company or any other person. The Company releases material information as announcements to the ASX (ASX:OCT). Recipients seeking further information in respect of the Company should review the Company's announcements as released to ASX from time to time.
- No representation or warranty, expressed or implied, is or will be made by the Company and its professional advisors and their related bodies corporate, affiliates and each of their respective directors, officers, partners, employees, advisers and agents and any other person involved in the preparation of this Document (collectively "Disclosers") as to or in relation to the accuracy, reasonableness, completeness or reliability of this Document or any other written or oral information made available to any Recipients or their advisers and to the maximum extent permitted by law the Disclosers disclaim all liability and responsibility (including without limitation any liability arising from fault or negligence) for any direct or indirect loss or damage which may arise or be suffered through use of or reliance on anything contained in, or omitted from, this Document or any errors or omissions in this Document. In particular, no representation or warranty is given as to the achievability or reasonableness of any future projections, management estimates or plans, prospects or returns. The projections in this Document are indicative only and are not and should not be relied upon as representations as to future matters. The projections are based on assumptions that may or may not prove to be correct. The Recipient must make their own independent assessment and investigation of those assumptions.
- Various statements in this Document constitute statements relating to intentions, future acts and events ("Forward Looking Statements"). Forward Looking Statements involve subjective judgment and analysis, known and unknown risks, uncertainties and other important factors that cause those future acts, events and circumstances to differ from the way or manner in which they are expressly or impliedly portrayed herein. Disclosers do not make or give any representation, warranty or guarantee, express or implied, that any Forward-Looking Statements will be achieved or proven correct, or that any assumptions, projections, management estimates or plans on which the Forward-Looking Statements are based are reasonable. No historical financial information, estimates, projections, management estimates or plans contained in this Document, or any other financial information derived from that information, can be relied upon as a promise or representation, as to the past, present or the future. The Company is not bound by any statement of intention contained in this Document to then undertake the proposed activity, including any statement relating to the potential conduct an initial public offering by the Company.
- None of the Disclosers makes or gives any representation, warranty or guarantee, express or implied, that the information in this Document is accurate, current, reliable or complete, has been or will be audited or independently verified, or that reasonable care has been taken in compiling, preparing or furnishing it. Nor do the Disclosers accept any responsibility to inform the Recipients of any matter arising or coming to its attention after this date.
- Neither the Company nor its representatives or agents undertake any obligation to to inform Recipients of any matter arising or coming to their notice after the above date which may affect any matter referred to in this Document or to provide the Recipients with access to any additional information or to correct any inaccuracies herein which may become apparent.
- Neither the receipt of this Document by any person nor any information contained in it or supplied with it or subsequently communicated to any person in connection with a proposed investment in or purchase of the Company's assets constitutes, or is to be taken as constituting, the giving of investment, financial product, legal, tax or other advice to any such person. Each such person should make their own independent investigation and assessment, including obtaining their own professional advice.
- The distribution of this Document (including electronic copies) outside Australia may be restricted by law and persons who come into possession of this Document outside of Australia should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.
- This Document must not be copied, reproduced, distributed or passed to others at any time without the prior written consent of the Company.
- By accepting this Document, Recipient's acknowledge and agree to be bound by the above statements
  In accordance with ASX Listing Rule 5.23.2, the Company confirms in this subsequent public report that it is not aware of any new information or data that materially affects the information included in any prior market announcements and that the form and context of the respective competent persons' findings in relation to those reports have not been materially modified from the original market announcements. For the purposes of ASX Listing Rules 5.23.1, the relevant Company announcements which refer to these exploration results are:
- "Prospectus and Supplementary Prospectus", released 14 September 2022, which included a competent person's statement from Bryan Bourke; and
- "Lithium Targets Enhanced At Talga Lithium Project", released 10 November 2022, which includes a competent person's statement from Simon Atwell."

# 3 HIGH QUALITY PROJECT LOCATIONS

#### Significant anomalies strategically located in "Tier 1" exploration regions

#### **Talga Lithium Project**

- Pinnacle Well and Nimerry lithium prospects lie ~10km to the north of the Global Lithium (ASX: GL1) Archer Lithium deposit (18Mt @ 1.0% Li2O¹).
- Confirmed lithium mineralisation at both Pinnacle Well and Nimerry with no prior drill testing.

#### Talga Gold Project

 Talga Razorback gold prospect is located in the same greenstone stratigraphy & structures as the nearby Warrawoona gold mine (1.5Moz²)
 Calidus (ASX: CAI) and the Bamboo Creek gold deposits

#### **Yallalong Project**

100% (63km<sup>2</sup>)

 Prospective holding in the new exploration frontier for Ni-Cu-PGM & REE along the western edge of the Yilgarn craton.

#### **East Kimberley Project**

100% (32km<sup>2</sup>)

• Leases adjoining the Panton PGM-Ni Project Resource (5.0Moz PGM3E³) along strike held by **Future Metals (ASX: FME)** as well as the former Copernicus Nickel mine.

2. CAI Updated PFS 29 June 2020

<sup>3.</sup> FME Independent Resource Estimate 21 June 2022

# PILBARA – A WORLD CLASS LITHIUM REGION

# Talga has a premier location in a world class hard rock lithium discovery region

- Global Lithium Resources (ASX:GL1) Archer Deposit (18Mt @ 1.0% Li<sub>2</sub>O<sup>1</sup>) 10km to the south – geology analogous to Talga.
- Pilbara Minerals (ASX:PLS) Pilgangoora Lithium Mine (309Mt @ 1.14% Li<sub>2</sub>O<sup>2</sup>) ~100km west – geology analogous to Talga.
- Albermarle / Minerals Resources (ASX:MRS) Wodgina Lithium Mine (259Mt @1.17% Li<sub>2</sub>O<sup>3</sup>) ~120km west – geology analogous to Talga.
- The Talga lithium project has ~20km of granite-greenstone contact zones which are prospective for LCT (lithium cesium tantalum) mineralisation with new targets being added.

Lithium mineralisation has previously been recorded in pegmatite at the Talga project but much of the tenure remains effectively unexplored for lithium.

<sup>1.</sup> GL1 ASX release 15 December 2022

<sup>2.</sup> PLS Material Increase in Ore Reserve 6 September 2021

<sup>3.</sup> MIN Announcement 23 October 2018

# LARGE PEGMATITE IDENTIFIED AT PINNACLE WELL

#### **Pinnacle Well Lithium Prospect**

- Previous exploration identified pegmatite at the Pinnacle Well lithium prospect where a rock chip sample returned an anomalous lithium assay of 0.22% Li<sub>2</sub>O<sup>1</sup>.
- The **Pinnacle Well lithium** prospect lies within the Talga Project area, only ~**10km** to the northeast of the Archer Lithium Deposit (18Mt @ 1.0% Li2O²) with similar geology.
- Field reconnaissance has confirmed a large pegmatite outcrop at Pinnacle Well where lithium mineralisation has been previously recorded.
- In addition, there were multiple newly identified pegmatites observed which include northwest striking pegmatite with visible lithium minerals.
- These pegmatites appear to be part of much larger linear structures identified from remote sensing work and can be kilometers in length.

Pegmatite outcrop at Pinnacle Well, looking east

<sup>2.</sup> GL1 ASX release 15 December 2022

# PINNACLE WELL – MULTIPLE PEGMATITES IDENTIFIED

NW trending pegmatites identified during field reconnaissance at Pinnacle Well.

Octava Minerals Limited INVESTOR PRESENTATION – March 2023

# **NEW LITHIUM PROSPECT IDENTIFIED AT NIMERRY**

#### **Nimerry Lithium Prospect**

- Field reconnaissance has identified a new lithium prospect at Talga named Nimerry Prospect<sup>1</sup>, located 3km east of the Pinnacle Well lithium Prospect.
- Multiple pegmatites have been identified at Nimerry in a granite -greenstone contact area, which is an important target geology used in the discovery of lithium mineralised pegmatites in the Pilbara.
- The Nimerry pegmatite outcrops varied in size, with the largest identified being approximately 30m in width and over 60m in length.
- The pegmatites have been sampled and sent to the laboratory for analysis, with results expected shortly.

1. See OCT ASX release 15 February 2023.

# SOIL SAMPLING CONFIRMS TALGA LITHIUM POTENTIAL

#### **Talga Soil Sampling program**

- Assay results of an initial soil sampling program (2001 samples) and rock chip sampling (39 samples) confirm the lithium prospectivity at Talga.<sup>1</sup>
- A significant number of assay results were in excess of 100ppm lithium with a maximum value of 203ppm lithium
- This includes the large 1.5km<sup>2</sup> lithium anomaly previously identified at Pinnacle Well via pXRF Li analysis of the soil samples.<sup>2</sup>
- Considering the mobility of lithium in the weathered environment, these results are highly encouraging
- Multiple pegmatites have now been identified in the field at Pinnacle Well and Nimerry prospects.
- Octava is conducting a systematic exploration program to identify and prioritise targets for an extensive drill program to commence at the conclusion of the current wet season.

<sup>1.</sup> See OCT ASX release 15 February 2023

<sup>2.</sup> See OCT ASX release 10 November 2022

## TALGA GOLD PROJECT

#### Proven gold discovery region

#### **Talga Razorback Gold Prospect**

- Project covers one of the most prospective and mineralised greenstone / granite terranes in the Pilbara.
- 40km south is the Calidus Resources (ASX:CAI) Warrawoona gold mine (1.5Moz¹) and Bamboo Creek gold mine 15km to the east.
- <10km west is the Global Lithium (ASX:GL1) Twin Veins prospect, where previous drilling included 12m @ 2.95g/t from 37m².</li>
- Previous exploration has encountered widespread gold and base metal anomalism, identifying 2 priority prospects: Razorback and Cord.

## **Drill ready targets**

## TALGA GOLD PROJECT

#### Proven gold discovery region

#### Razorback

- Drilling at Razorback has intersected gold mineralisation<sup>1</sup>, including:
  - > 16m @ 1.99 g/t from 0m
  - > 8m @ 1.57g/t from 50m
  - > 9m @ 1.12g/t from 62m

- Razorback has only been tested over about 700m of 4km strike.
- Recent IP survey has identified a total of 11 gold targets, including 6 high priority targets<sup>2</sup>.

#### Cord

- Previous explorers encountered anomalous massive sulphide horizons, occurring over 14km of strike and only small section has been drill tested.
- Significant intersections include:
  - 16m @ 158ppb Au, 5g/t Ag, 3212ppm Cu, 50ppm Pb, 101ppm Zn from 19m
  - 10m @ 86ppb Au, 6g/t Ag, 6099ppm Cu, 23ppm Pb, 57ppm Zn from 26m<sup>3</sup>

#### Significant previous gold intercepts

- 1. See pp 115-117 of the Independent Geologists Report contained in OCT's IPO Prospectus
- 2. See pp 116-117 of the Independent Geologists Report contained in OCT's IPO Prospectus
- 3. See pp 117-118 of the Independent Geologists Report contained in OCT's IPO Prospectus

# **ESTABLISHED LOGISTICS & INFRASTRUCTURE**In close proximity to Talga

Established lithium & gold processing operations close by

Pilbara Minerals (PLS), Mineral Resources (MRS), Calidus Resources (CAI)

Octava Minerals Limited

## **EAST KIMBERLEY PROJECT**

#### A proven Ni/PGM resource region

- The Kimberley project comprises two granted tenements,
   Panton North project and Copernicus North project located in the Halls Creek Orogen, a Tier 1 nickel sulphide – PGM province.
- Both projects have recorded strong nickel, copper & PGM geochemistry.
- Panton North is located north of the Panton PGM-Ni Resource (5.0Moz PGM3E and 239kt Ni and 20kt Co (6.9Moz PdEq¹) held by Future Metals (ASX:FME) and covers extensions of this <u>same</u> <u>stratigraphy</u>.
- The Panton West prospect area exhibits strong soil and rock chip geochemistry: 807ppb Pd, 154ppb Pt, 2,220ppm Ni and 824ppm Cu)<sup>2</sup> and has **not previously been drill tested**.
- The Copernicus North tenure is located along strike from the former Copernicus nickel mine and contains a strong nickel and copper geochemical anomaly.

#### **Recently announced exploration JV with Future Metals<sup>3</sup>**

- 1. FME Independent Resource Estimate 21 June 2022
- 2. See pp 123-126 of the Independent Geologists Report contained in OCT's IPO Prospectus
- 3. See Octava (OCT) ASX release dated 17 January 2023

# YALLALONG PROJECT

#### Western Yilgarn - A new Ni-Cu PGM exploration opportunity

- The Yallalong project is located ~ 220km to the northeast of the port town of Geraldton with an exploration area of ~ 63km<sup>2</sup>.
- Prospective for gold associated with structures related to the Darling Fault and Ni-Cu-PGM mineralisation related to mafic – ultramafic intrusions.
- Project has a similar setting to the Proterozoic craton edge Ni-Cu-PGM mineralisation, such as the Chalice Julimar (ASX:CHN) discovery.
- Early drilling at **S2 Resources' (ASX:S2R)** nearby West Murchison project encountered zones of disseminated sulphides including 1.06% Cu and 0.7% Ni over 1m<sup>1</sup>.
- Todd River Resources (ASX:TRT) have recorded anomalous PGM-Cu at their Nerramyne project to the south<sup>2</sup>.

#### Recorded significant previous Ni-Cu and PGM geochemistry<sup>3</sup>

- See S2 Resources (S2R) Investor Presentation released to ASX 22/02/23.
- 2. See Todd River Resources (TRR) ASX release Quarterly Activities Report dated January 30 2023.
- 3. See pp 123-126 of the Independent Geologists Report contained in OCT's IPO Prospectus

# YALLALONG PROJECT

#### Western Yilgarn - A new Ni-Cu PGM exploration opportunity

- The mafic intrusions within the project area have not been explored in any detail but have returned significant Ni-Cu and PGM geochemistry<sup>1</sup>.
- A number of highly prospective targets have been identified.
- The Discovery Prospect gold mineralisation is associated with very high antimony (Sb).
- Rock chip sampling assayed 60.1% antimony (Sb) and 0.28% lead,
   0.14% copper and 31ppb gold.

#### Yallalong Selected Rock Chip Assay Results (PGM & Base Metals)

Sample No.	Nickel ( <b>ppm</b> )	Copper ( <b>ppm</b> )	Cobalt ( <b>ppm</b> )	Platinum ( <b>ppb</b> )	Palladium ( <b>ppb</b> )
YA85	1,150	150	2,850	10	72
YA97	650	250	320	11	4
B3	650	250	920	119	47

Sampling of priority targets to commence in Q1-23

# SYSTEMATIC EXPLORATION PROGRAM

#### **Talga Project**

- Mapping & sampling
- Hyperspectral Survey
- Geochemical sampling
- Geophysical Survey
- RC Drill testing

#### **East Kimberley Project**

 Farm-in Exploration JV with Future Metals NL

#### **Yallalong Project**

- Geochemical sampling over magnetic targets
- Ground/AB EM Survey
- AC & RC Drill testing

## **BOARD AND MANAGEMENT TEAM**

Mr Clayton Dodd Non-Executive Chairman

Mr Damon O'Meara Non-Executive Director

Mr Bevan Wakelam Managing Director / CEO

Mr Clayton Dodd is a chartered accountant with more than 35 years' experience in finance and the resources sector in Australia, South Africa, South America, the UK and North America. He has held directorships in public companies listed on AIM, the ASX, the TSX and the JSE. He was previously Executive Chairman of Podium Minerals Limited (ASX:POD).

Over 40 years experience in the mining industry having worked for Denis O'Meara Prospecting, founders of Atlas Iron, Kalamazoo Resources and De Grey Mining, and former ASX-Listed Miralga Mining NL. Co-founder of Outback Trees of Australia which has been contracting to prominent mining groups such as Rio Tinto, BHP & FMG for over 30 years. He is currently is a non-executive director of First Au Limited (ASX:FAU) and Narryer Metals Ltd (ASX:NYM).

A resource industry executive with over 25 years' experience, holding senior geological and marketing roles across a number of commodities. He spent over 10 years with Rio Tinto and was part of the start-up team at Roy Hill Iron Ore. Bevan has the right blend of technical and corporate experience to lead a dedicated team that will build on an exiting portfolio of tenements. He is also a member of the Australian Institute of Mining and Metallurgy.

# **INVESTMENT SUMMARY**

Octava Minerals Ltd has high quality projects in proven discovery areas.

These holdings have potential for new energy minerals, such as lithium, gold, nickel and PGM's that have strong market fundamentals.

Key Project: **Talga lithium** is located only 10km from the Archer Lithium resource (18Mt @1.0% Li2O ASX:GL1) in similar geology with identified <u>lithium</u> mineralisation.

**Talga lithium** - Assessing a number of lithium pegmatite targets to progress rapidly towards drill testing the most promising areas. No previous drilling for lithium.

Aggressive exploration will lead to strong news flow.
