About Imricor

Imricor Medical Systems, Inc. (ASX:IMR) is a leading developer of innovative MRI-compatible medical devices which can be used to carry out MRI-guided cardiac catheter ablation procedures. Headquartered in the US, Imricor seeks to make a meaningful impact on patients, healthcare professionals, and healthcare facilities around the world by increasing the success rates and bringing down the overall costs of cardiac catheter ablation procedures.

Imricor's Products

Imricor is a pioneer and leader in developing MRI-compatible products for cardiac catheter ablation procedures, and believes it is the first company in the world to bring commercially viable and safe MRI-compatible products to the cardiac catheter ablation market.

The Vision-MR Ablation Catheter is the Company's prime product offering, specifically designed to work under real-time MRI guidance, with the intent of enabling higher success rates along with a faster and safer treatment compared to conventional procedures using x-ray guided catheters. The Vision-MR Ablation Catheter has been approved in the European Union with an indication for treating type 1 atrial flutter. Imricor intends to seek approval for expanded indications in the future. The Company is also in the early stages of pursuing the required regulatory approvals to place its key products on the market in Australia and the U.S.

The Company has also obtained approval within the EU for the sale of the Advantage-MR EP Recorder/Stimulator System and its consumable product, the Vision-MR Dispersive Electrode.

Imricor sells its capital and consumable products to hospitals and clinics for use in Interventional Cardiac Magnetic Resonance Imaging (iCMR) labs, in which ablation procedures using the Vision-MR Ablation Catheter can be performed. An iCMR lab is an interventional lab that is fitted with MRI equipment for use in cardiac diagnostic and interventional procedures. The installation of iCMR labs is driven primarily by MRI equipment vendors working collaboratively with Imricor. Vendors such as Koninklijke Philips N.V. and Siemens Healthcare GmbH help to target certain sites and support the design and construction of iCMR labs for those sites.

Schedule 1 – CHESSE Depository Interests

What is a CHESSE Depository Interest (or CDI)?

A CHESSE Depository Interest is a unit of beneficial ownership in a share (or beneficial interest in a share) or option of a foreign company, where the underlying share, interest or option is registered in the name of a depository nominee (see 'What is a depository nominee?' below), for the purpose of enabling the foreign share, interest or option to be traded on the relevant financial market.

CDI holders receive all direct economic and other benefits of the Shares, including on any liquidation dissolution or winding up of the Company, and receive all notices and company announcements (such as annual reports) that shareholders are entitled to receive from the Company.

What is a depository nominee?

A depository nominee holds the legal title to the foreign securities on behalf of the CDI holders. The Company has appointed CHESSE Depository Nominees Pty Limited (ACN 071 346 506 and Australian Financial Services Licence Number: 254514) ("**CDN**") as the depository nominee for its CDIs. CDN is authorised by its Australian Financial Services Licence to operate custodial and depository services, other than investor directed portfolio services, to wholesale and retail clients. CDN does not receive any fees from investors for acting as the depository for the CDIs.

The relationship between the Company, CDN and the holders of CDIs is governed in part by the ASX Listing Rules and the ASX Settlement Operating Rules (each of which has the force of law under the Corporations Act) in combination with the Company's Bylaws.

Conversion ratio for the Company's CDIs

Each of the Company's CDIs represents one share of Class A common stock ("**Share**"). To obtain one Share, an investor will need to convert one CDI (see 'How to convert CDIs into Share' below).

Registers

The Company operates three registers for the Shares and CDIs:

- an uncertificated register of Shares;
- an uncertificated issuer-sponsored sub-register of CDIs; and
- an uncertificated CHESSE sub-register of CDIs.

The register of Shares is the register of legal title.

The Shares will be uncertificated unless a Shareholder requests a stock certificate from the Company's US transfer agent, Computershare Trust Company, N.A. ("**U.S. Registry**"), denoting the number of Shares owned.

The Company must ensure that at all times the total number of CDIs on the issuer sponsored sub-register of CDIs and CHESSE sub-register of CDIs reconciles with the number of Shares registered in the name of CDN on the Share register.

The Company will make available for inspection the Share register and the CDI register as if those registers were registers of securities of an Australian listed public company.

Transferring CDIs

CDI holders who wish to trade their CDIs will be transferring the beneficial interest in the Shares rather than the legal title. The transfer will be settled electronically through CHESSE. Trading in CDIs is essentially the same as trading in other CHESSE approved securities, such as shares in an Australian public company.

How to convert CDIs into Shares

A CDI holder may either leave their holdings in the form of CDIs (so that legal title remains in the name of CDN) or convert the CDIs to Shares and hold legal title in their own right. CDI holders can convert their ASX listed CDIs to Shares by instructing the Company's CDI registry, Computershare Investor Services Pty Limited, ("**Australian Registry**"), either:

- directly in the case of CDIs on the issuer sponsored sub-register operated by the Company. CDI holders will be provided with a form for completion and return to the Australian Registry; or
- through their 'sponsoring participant' (usually your broker) in the case of CDIs which are sponsored on the CHESSE subregister. In this case, the sponsoring broker will arrange for completion of the relevant form and its return to the Australian Registry.

The Australian Registry will then arrange for the transfer of the Shares from CDN to the former CDI holder and a new Statement of Account Holding will be issued. The Shares will be registered in the name of the holder on the Company's share register and trading on the ASX will no longer be possible. The Shares are not and will not in the near future be quoted on any securities exchange. The Shares may bear restrictive legends on the register in accordance with US law.

This process will normally be completed within three to five days once the Australian Registry receives a duly completed and valid instruction. However, the timeframe for conversion cannot be guaranteed.

The Australian Registry will not charge an individual holder a fee for transferring their CDIs into Shares (although a fee may be payable by market participants).

Shareholders can convert their holdings to CDIs by contacting the US Registry and completing the appropriate form. The U.S. Registry will not charge a fee for the conversion (although a fee may be payable by market participants).

The underlying Shares will then be transferred to CDN and a holding statement for the CDIs will be issued to the shareholder. No trading in the CDIs on the ASX can take place until this transfer process is complete.

The contact details for the Australian Registry are as follows:

GPO Box 505,
Melbourne, Victoria 3001 Australia
Telephone: 1300 850 505 (within Australia)
or +61 3 9415 4000 (outside Australia)

Voting rights

CDI holders may attend and vote at the Company's general meetings. The Company must allow CDI holders to attend any meeting of stockholders unless relevant US law at the time of the meeting prevents CDI holders from attending those meetings.

In order to vote at such meetings, CDI holders may:

- instruct CDN, as the legal owner, to vote the Shares underlying their CDIs in a particular manner. A voting instruction form will be sent to CDI holders with the notice of meeting or proxy statement for the meeting and this must be completed and returned to the Registry before the meeting;

- inform the Company that they wish to nominate themselves or another person to be appointed as CDN's proxy for the purposes of attending and voting at the general meeting; or
- convert their CDIs into a holding of Shares and vote these at the meeting. Afterwards, if the former CDI holder wishes to sell their investment on the ASX it would need to convert the Shares back to CDIs. In order to vote in person, the conversion from CDIs to Shares must be completed before the record date for the meeting. See above for further information regarding the conversion process.

One of the above steps must be undertaken before CDI holders can vote at shareholder meetings.

CDI voting instruction forms and details of these alternatives will be included in each notice of meeting or proxy statement sent to CDI holders by the Company.

CDI holders are entitled to direct CDN to vote one vote for every CDI held by such holder.

Dividends and other distributions

Any dividend declared or other distribution paid in respect of the Shares underlying the CDIs will be distributed to CDI holders. The directors of the Company do not however, envisage that the Company will pay dividends or make other distributions for the foreseeable future.

The Company expects that any dividends declared in the future will be paid in U.S. dollars. Holders of CDIs trading on the ASX will receive an equivalent amount in Australian currency based on the exchange rate on the record date.

Corporation actions (including bonus issues, rights issues, reconstructions and mergers)

The Company must administer all corporate actions (including bonus issues, rights issues, reconstructions and mergers) that result in the issue of additional or replacement shares so that the benefits are generally distributed to CDI holders on the same terms as shareholders as though the CDI holders are the holders of the relevant corresponding number of Shares.

Takeovers

If a takeover bid or similar transaction is made in relation to the Shares under which CDN is the registered holder, under the ASX Settlement Operating Rules, CDN must not accept the takeover offer unless that acceptance is authorised by the relevant CDI holder. If a CDI holder instructs it to do so, CDN must ensure that the offeror processes the takeover acceptance.
