

IRIS METALS LIMITED
ACN 646 787 135

PROSPECTUS

For an offer of up to 15,000,000 Shares at an issue price of \$1.00 per Share to raise up to \$15,000,000, together with one (1) free attaching Option for every two (2) Shares subscribed for and issued (Public Offer).

The Public Offer comprises:

- (a) a priority offer to Iris Shareholders as at the Priority Offer Record Date (Priority Offer); and
- (b) an offer to the general public (General Offer).

This Prospectus also contains the Secondary Offers, which are detailed in Sections 4.5 and 4.6 (together with the Public Offer, the Offers).

The Offers are conditional upon satisfaction of the Conditions, which are detailed further in Section 4.10. No Securities will be issued pursuant to this Prospectus until those Conditions are met.

This Prospectus is a re-compliance prospectus for the purposes of satisfying Chapters 1 and 2 of the ASX Listing Rules and to satisfy the ASX requirements for re-admission to the Official List following a change in nature and scale of the Company's activities.

Lead Manager: Jett Capital Advisors, LLC

IMPORTANT NOTICE

This document is important and should be read in its entirety. If, after reading this Prospectus you have any questions about the Securities being offered under this Prospectus or any other matter, then you should consult your professional advisers without delay.

The Shares offered by this Prospectus should be considered as highly speculative.

IMPORTANT NOTICE

This Prospectus is dated 18 April 2023 and was lodged with the ASIC on that date. The ASIC, the ASX and their officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Shares may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in the Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that you read this Prospectus in its entirety and seek professional advice where necessary. The Securities the subject of this Prospectus should be considered as highly speculative.

No offering where offering would be illegal

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should observe any of these restrictions. Failure to comply with these restrictions may violate securities laws.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. It is important that investors read this Prospectus in its entirety and seek professional advice where necessary.

No action has been taken to register or qualify the Shares or the Offers, or to otherwise permit a public offering of the Shares in any jurisdiction outside Australia. This Prospectus has been prepared for publication in Australia and may not be distributed outside Australia except to Eligible Investors in transactions exempt from local prospectus or registration requirements, as contemplated below. The Shares have not been, and will not be, registered under the US Securities Act of 1933 ("US Securities Act") or the securities laws of any state or other jurisdiction of the United States. Accordingly, the Shares

may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of Options issued under this Prospectus. The Company and the Lead Manager will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website (www.irismetals.com). By making an application under the Offer, you warrant that you have read and understood the TMD and that you fall within the target market set out in the TMD.

Electronic prospectus

A copy of this Prospectus can be downloaded from the website of the Company at www.irismetals.com. If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian, New Zealand or United States resident and must only access this Prospectus from within Australia, New Zealand or the United States.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on +61 2 8072 1400 during office hours or by emailing the Company at admin@irismetals.com.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company website

No document or other information available on the Company's website is incorporated into this Prospectus by reference.

No cooling-off rights

Cooling-off rights do not apply to an investment in Shares issued under the Prospectus. This means that, in most circumstances, you cannot withdraw your application once it has been accepted.

No investment advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

Risks

You should read this document in its entirety and, if in any doubt, consult your professional advisers before deciding whether to apply for Securities. There are risks associated with an investment in the Company. The Securities offered under this Prospectus carry no guarantee with respect to return on capital investment, payment of dividends or the future value of the Securities. Refer to Section D of the Investment Overview as well as Section 7 for details relating to some of the key risk factors that should be considered by prospective investors. There may be risk factors in addition to these that should be considered in light of your personal circumstances.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 7.

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Competent persons statement

The information in the Investment Overview Section of the Prospectus, included at Section 3, the Company and Projects Overview, included at Section 5, and the ITAR, included at Annexure A of the Prospectus,

which relate to exploration results is based on information compiled by Dr. Louis Bucci. Dr. Louis Bucci has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code). Dr. Louis Bucci is an associate of Valuation and Resource Management Pty Ltd. Dr. Louis Bucci consents to the inclusion of the information in these Sections of the Prospectus in the form and context in which it appears.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Shares.

Price sensitive information will be publicly released through ASX before it is disclosed to Shareholders and market participants. Distribution of other information to Shareholders and market participants will also be managed through disclosure to the ASX. In addition, the Company will post this information on its website after the ASX confirms an announcement has been made, with the aim of making the information readily accessible to the widest audience.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Shares issued to them under this

Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Photographs and diagrams

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

Definitions and time

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 12.

All references to time in this Prospectus are references to Australian Eastern Daylight Time.

Privacy statement

If you complete an Application Form, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your Shares in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.

Change in nature and scale of activities and re-compliance with Chapters 1 and 2 of the ASX Listing Rules

ASX has determined that the Proposed Acquisitions, if successfully completed, will represent a significant change in the nature and scale of the Company's operations. The change in the nature and scale of the Company's operations will require:

- (a) the approval of Shareholders which will be sought at the general meeting convened to be held on 5 May 2023 (General Meeting) (refer to notice of meeting released on the ASX on 31 March 2023 (Notice of Meeting); and
- (b) the Company to re-comply with the admission requirements set out in Chapters 1 and 2 of the ASX Listing Rules.

The Company's Shares are currently suspended from trading on ASX and will remain suspended until the Company re-complies with the admission requirements of Chapters 1 and 2 of the ASX Listing Rules.

The Proposed Acquisitions are conditional on:

- (a) the satisfaction of the Conditions to the Offers which are set out in Section 4.10; and
- (b) approval of the ASX of the Company's re-compliance with the admission requirements of Chapters 1 and 2 of the ASX Listing Rules.

There is a risk that the Company may not be able to meet the requirements of ASX for re-admission to the Official List. In the event the Conditions are not satisfied or the Company does not receive conditional approval for re-admission to the Official List then the Company will not proceed with the Offers and will repay all application monies received.

Enquiries

If you are in any doubt as to how to deal with any of the matters raised in this Prospectus, you should consult with your broker or legal, financial or other professional adviser without delay. Should you have any questions about the Offers or how to accept the Offers please call the Company Secretary on +61 2 8072 1400.

1. CHAIR'S LETTER

Dear Investor

On behalf of the directors of IRIS Metals Limited (IRIS or the Company), it gives me great pleasure to invite you to increase your existing shareholding or to become a shareholder of the Company.

The Company listed on the ASX on 23 September 2021. Its principal activities to date have comprised the acquisition and exploration of minerals tenements in Western Australia and more recently, South Dakota.

On 23 May 2022, IRIS announced that it had acquired strategic tenure in the highly prospective Tier-1 mining jurisdiction of South Dakota. The hard rock lithium South Dakota Project provides the Company and its Shareholders with exposure to the battery metals space in a mining friendly jurisdiction with a history of past production. IRIS is pursuing a strategy of rapid prospect evaluation in recognised mineral fields, with a view to making economic discoveries, thereby enhancing Shareholder value.

On 18 August 2022, IRIS announced that it had grown its South Dakota footprint by 290% through newly staked claims under its control, securing highly mineralised corridors of spodumene bearing lithium-caesium-tantalum (LCT) pegmatites. These acquisitions mean that IRIS now controls 2,056 claims (an increase of 1,531 new claims) covering approximately 42,287 acres or 171km² in the historic mining region of the Black Hills of South Dakota.

On 4 October 2022, IRIS announced that the State of South Dakota had issued IRIS' local US partner mining licenses covering two properties that form part of the overall Custer Project. This means that the Company is licenced to mine spodumene pegmatites on the properties, both of which have a significant history of producing lithium-spodumene ore.

As announced on 31 March 2023, the Company has entered into a binding agreement pursuant to which it will acquire Longview Minerals, LLC (Longview), which owns two patented properties, Longview and Beecher respectively. Furthermore, the Company has also entered into a separate agreement to acquire the Edison patented Property, (Edison Patented Claim) and 313 Bureau of Land Management (BLM) claims located in Keystone and Tinton (the BLM Claims) (together, the Proposed Acquisitions). This Prospectus is seeking to raise a minimum of \$12,000,000 and a maximum of \$15,000,000 via the issue of Shares at an issue price of \$1.00 per Share under the Public Offer. The purpose of the Public Offer is to provide funds to implement the Company's business strategies (explained in Section 5).

The Current Directors and the Proposed Director have significant expertise and experience in the mineral exploration industry and will aim to ensure that funds raised through the Public Offer will be utilised in a cost-effective manner to advance the Company's Projects.

This Prospectus is issued for the purpose of supporting an application to have the Company's Securities reinstated to trading on ASX. This Prospectus contains detailed information about the Company, its Projects and the Public Offer, as well as the risks of investing in the Company, and I encourage you to read it carefully. The Securities offered by this Prospectus should be considered highly speculative.

I look forward to this exciting new direction for the Company and sharing in what we believe are exciting and prospective times ahead for the Company. Before

you make your investment decision, I urge you to read this Prospectus in its entirety and seek professional advice if required.

Yours sincerely

Simon Lill
Non-Executive Chair

2. KEY OFFER INFORMATION

INDICATIVE TIMETABLE¹

Event	Date
Notice of Meeting for the Proposed Acquisitions sent to Shareholders	5 April 2023
Lodgement of the Prospectus with ASIC	18 April 2023
Opening date of the Priority Offer and General Offer	19 April 2023
Closing date of the Priority Offer	5 May 2023
Shareholder Meeting to approve the Proposed Acquisitions	5 May 2023
Closing date of the General Offer and Secondary Offers	12 May 2023
Completion of Proposed Acquisitions and the Public Offer	16 May 2023
Expected re-quotation on the ASX (subject to the Company re-complying with Chapters 1 & 2 of the Listing Rules)	24 May 2023

- The above dates are indicative only and may change without notice. Unless otherwise indicated, all times given are AEST. The Company reserves the right to extend the Closing Date or close the Offers early without prior notice. The Company also reserves the right not to proceed with the Public Offer at any time before the issue of Shares to applicants.*
- The above stated date for Completion of the Proposed Acquisitions is a good faith estimate by the Directors and may be extended.*
- If the Public Offer is cancelled or withdrawn before completion of the Public Offer, then all application monies will be refunded in full (without interest) as soon as possible in accordance with the requirements of the Corporations Act. Investors are encouraged to submit their applications as soon as possible after the Public Offer opens.*

Public Offer Price per Share	\$1.00	\$1.00
Shares currently on issue ³	100,580,000	100,580,000
Shares to be issued under the Public Offer	12,000,000	15,000,000
Shares to be issued to Jasdak in consideration for Longview ⁴	5,500,000	5,500,000
Shares to be issued to Schad Investments in consideration for the Edison Patented Claim ⁵	3,800,000	3,800,000
Shares to be issued to Cody Schad in consideration for the BLM Claims ⁶	200,000	200,000
Options currently on issue	34,000,000	34,000,000
Options to be issued under the Public Offer ⁹	6,000,000	7,500,000
Options to be issued to Jasdak in consideration for Longview ^{4,9}	2,500,000	2,750,000

	Minimum Subscription (\$12,000,000) ¹	Maximum Subscription (\$15,000,000) ²
Options to be issued to the Lead Manager under the Public Offer ⁹	750,000	750,000
Performance Rights currently on issue ¹⁰	1,000,000	1,000,000
Performance Rights to be issued to Related Parties ¹¹	11,000,000	11,000,000
Performance Rights to be issued to the Chief Financial Officer ¹¹	1,000,000	1,000,000
Gross Proceeds of the Offers	\$12,000,000	\$15,000,000
Shares on issue Post-Listing (undiluted) ⁷	122,080,000	125,080,000
Market Capitalisation Post-Listing (undiluted) ⁸	\$122,080,000	\$125,080,000
Enterprise Valuation Post-Listing (undiluted)	\$110,080,000	\$113,080,000

Notes:

1. Assuming the Minimum Subscription of \$12,000,000 is achieved under the Public Offer.
2. Assuming the Maximum Subscription of \$15,000,000 is achieved under the Public Offer.
3. 2,000,000 Shares have agreed to be issued pursuant to a consulting agreement with RLL Consulting LLC which is summarised at Section 9.4.3. As the Shares have not yet been earned, they have not been included in the table. The first tranche of 500,000 Shares under the consulting agreement vest on 13 May 2023.
4. To be issued, subject to shareholder approval, to Jasdak Pty Ltd (ACN 661 829 698) (Jasdak) in consideration for the proposed acquisition of Longview Minerals, LLC. Refer to Section 9.2.1 for a summary of the Longview SPA.
5. To be issued, subject to shareholder approval, to Schad Investments, LLC (Schad Investments) in consideration for the proposed acquisition of the Edison Patented Claim. Refer to Section 9.2.2 for a summary of the Schad HOA.
6. To be issued, subject to shareholder approval, to Cody Schad in consideration for the proposed acquisition of the BLM Claims. Refer to Section 9.2.2 for a summary of the Schad HOA.
7. Certain Shares on issue post-listing will be subject to ASX-imposed escrow. Refer to Section 4.18 for a disclaimer with respect to the likely escrow position.
8. Based on the Public Offer Price of \$1.00 per Share, however the Company notes that the Shares may trade above or below this price.
9. Refer to Section 10.4 for the terms of the Options.
10. Refer to Section 10.5.1 for the terms of the Performance Rights.
11. Refer to Section 10.5.2 for the terms of the Performance Rights.

3. INVESTMENT OVERVIEW

This Section is a summary only and is not intended to provide full information for investors intending to apply for Shares offered under this Prospectus. This Prospectus should be read and considered in its entirety.

Item	Summary	Further information
A. Company		
Who is the issuer of this Prospectus?	IRIS Metals Limited (ACN 646 787 135) (Company or IRIS).	Section 5.1
Who is the Company?	The Company is an Australian listed public company, incorporated on 23 December 2020 and listed on the ASX on 23 September 2021. The Company holds an interest in the existing tenure of the hard rock lithium South Dakota Project. The Company also holds an interest in Western Australian Projects located in Kookynie, Leonora, Menzies and the Paterson Province (together, the Existing Projects).	Sections 5.3 and 5.4
What are the Proposed Acquisitions?	As announced on 31 March 2023, the Company has entered into: (a) a share purchase agreement to acquire 100% of the Shares in Longview from Jasdak Pty Ltd (ACN 661 829 698) (Longview SPA); and (b) a heads of agreement with Schad Investments and Cody Schad, pursuant to which it will acquire the Schad Properties (Schad HOA), (together, the Acquisition Agreements).	Section 5.2
What is the consideration payable for the Proposed Acquisitions?	In accordance with the terms of the Longview SPA, the Company agreed to issue Jasdak: (a) 5,500,000 Shares; (b) 2,500,000 Options, exercisable at \$1.50 each on or before the date that is three (3) years from the date of issue (the Jasdak Options); and (c) if the Prospectus has not been lodged with ASIC in connection with the re-compliance by 30 June 2023, an additional 250,000 Options, exercisable at \$1.50 each on or before the date that is three (3) years from the date of issue, (together, the Longview Consideration Securities). In accordance with the terms of the Schad HOA, the Company agreed to issue the Vendors a total of 4,000,000 Shares in consideration for the Edison Property, Keystone BLM and Tinton BLM claims.	Sections 9.2.1 and 9.2.2

Item	Summary	Further information
What are the outstanding conditions precedent under the Acquisition Agreements?	Under the Longview SPA, the following condition precedent must be satisfied prior to Completion: (a) the Company obtaining all necessary shareholder approvals required to lawfully complete the acquisitions as required by the Corporations Act and its Constitution. Under the Schad HOA, the following conditions precedent must be satisfied prior to Completion: (a) the Company obtaining all necessary shareholder approvals required to lawfully complete the acquisitions as required by the Corporations Act and its Constitution; (b) the parties obtaining all necessary corporate, governmental and regulatory approvals, consents and waivers pursuant to the ASX Listing Rules, the Corporations Act and any other applicable law to allow the parties to lawfully complete the acquisitions; and (c) the parties obtaining all necessary third-party approvals, consents and waivers to allow the parties to lawfully complete the acquisitions.	Sections 9.2.1 and 9.2.2
What are the Key Investment Highlights?	The Directors are of the view that an investment in the Company provides the following non-exhaustive list of key highlights: (a) ownership of Longview which: (i) ideally complements previously announced exploration and mining agreements over the Black Diamond and Beecher extended patented claims; (ii) comprises projects covering the majority of the historic lithium mines of the Beecher Trend; and (iii) has previously been mined for lithium in the 1950s; (b) ownership of the Edison Patented Property, Keystone and Tinton BLM Claims which are situated in an area which is famous for the production of lithium in the form of very large spodumene crystals; and (c) the Company has an experienced Board and management team that will assist the growth of the Company and development of the Longview and Schad Properties.	

Item	Summary	Further information
C. Business Model		
What is the Company's business model?	Following completion of the Public Offer and the Proposed Acquisitions, the Company's proposed business model will be to further explore and develop its south Dakota Lithium Project inclusive of the Longview and Schad Properties as per the Company's intended exploration programs and maintain its interest in its Existing Projects. The Company will seek further exploration, acquisition and joint venture opportunities that have a strategic fit for the Company globally within the critical and battery metals space and base and precious metals space. In addition to the exploration programs, the Company intends to continue to acquire additional tenure to increase its claim portfolio (both BLM and Patent) in the South Dakota region, which may be in the form of staking, acquisition and/or joint venture. The Company will also seek to engage with complementary resource companies to evaluate, explore and develop potential projects in the critical/battery minerals space and the base and precious metals space, in capacities that fit the expertise and focus of the Company. The Company proposes to fund its exploration activities over the first two years following Re-Instatement as outlined in the table at Section 5.8. A detailed explanation of the Company's business model and strategy post Re-Instatement is provided at Section 5.5.	Section 5.5
What are the key business objectives of the Company?	The Company's main objectives upon Re-Instatement will be to: (a) implement an exploration strategy aimed at the discovery of lithium resources at its South Dakota Project (inclusive of the Longview and Schad Properties) as rapidly as possible; (b) prioritise drilling at identified and known lithium opportunities within the broader South Dakota Project; (c) continue to identify various opportunities for acquisition, joint venture and/or investment (globally) within the critical/battery mineral space. Specifically, and of immediate focus to the Company, is the identification of further complementary acquisitions within South Dakota that have the ability to enhance IRIS' post re-compliance portfolio of assets;	Section 5.5

Item	Summary	Further information
	(d) to undertake a strategic review of existing West Australian assets with the intention of value maximisation for shareholders; (e) focus on mineral exploration or resource opportunities that have the potential to deliver growth for Shareholders; and (f) continue to pursue other acquisitions and partnerships that have a strategic fit for the Company and that have the potential to deliver growth for Shareholders, including potential investment in other companies, acquisition of complementary or new projects within the broader mineral space, and or joint venture opportunities on new or existing projects.	
What are the key dependencies of the Company's business model?	The key dependencies influencing the viability of the Proposed Acquisitions include: (a) Completion of the Proposed Acquisitions; (b) the Company's capacity to re-comply with Chapters 1 and 2 of the Listing Rules to enable re-admission to quotation of the Company's Securities; (c) tenure and access to the Longview and Schad Properties; (d) lithium price volatility and US\$:A\$ exchange rate risk; (e) ability to meet resource and reserves and exploration targets; (f) the Company raising sufficient funds to satisfy expenditure requirements, exploration and operating costs in respect of the Longview and Schad Properties; and (g) minimising environmental impact and complying with health and safety requirements.	Section 5.6
D. Key Risks		
Completion Risk	Pursuant to the Acquisition Agreements, the Company has a conditional right to acquire Longview and the Schad Properties. The Proposed Acquisitions constitute a significant change in the nature and scale of the Company's activities and the Company needs to re-comply with Chapters 1 and 2 of the Listing Rules as if it were seeking admission to the Official List of ASX. Trading in the Company's Shares is currently suspended and will remain suspended until the Company re-complies with Chapters 1 and 2 of	

Item	Summary	Further information
	the Listing Rules following Completion of the Proposed Acquisitions. There is a risk that the conditions for completion of the Proposed Acquisitions cannot be fulfilled, including where the Company is unable to meet the requirements of the ASX for re-quotation of its Securities on the ASX. If the Proposed Acquisitions are not completed, the Company will incur costs relating to advisors and other costs without any material benefit being achieved. Should this occur, Shares will not be able to be traded on the ASX until such time as the Company has recompiled with Chapters 1 and 2 of the Listing Rules and Shareholders may be prevented from trading their Shares until such time as a successful re-compliance is completed.	
Exploration and Operating Risk	The mineral exploration claims and licences comprising the Longview and Schad Properties are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that future exploration of these claims and licences, or any other mineral claims and licences that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited. The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process, changing government regulations and many other factors beyond the control of the Company. The success of the Company will also depend upon the Company being able to maintain title to the mineral exploration claims comprising the Longview and Schad Properties and obtaining all required approvals for their contemplated activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the Longview	

Item	Summary	Further information
	and Schad Properties, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the mineral exploration claims or properties.	
Other risks	For additional specific risks please refer to Section 7.2. For other risks with respect to the industry in which the Company operates and general investment risks, many of which are largely beyond the control of the Company and its Directors, please refer to Sections 7.3 and 7.4.	Sections 7.2, 7.3 and 7.4
E. Board		
Who are the Current Directors and Proposed Director?	Upon Re-Instatement, the Board will consist of: (a) Simon Lill – Non-Executive Chair; (b) Peter Marks – Executive Director; (c) Christopher Connell – Executive Director; (d) Tal Paneth – Non-Executive Director; and (e) Bruce Smith – proposed Non-Executive Director The profiles of each of the Directors and the Proposed Director are set out in Section 8.1. Are there any related party transactions?	The Company has entered into appointment letters and deeds of indemnity, insurance and access with its Directors. These agreements are summarised in Section 9.3.	Section 9.3																				

Item	Summary	Further information
	The Company has entered into an appointment letter with the Proposed Director. This agreement is summarised in Section 9.3.4. The Company has not entered into any other agreements with related parties of the Company.	
F. Financial Information		
How has the Company been performing?	The Company is currently listed on ASX and its financial history, including Annual Report for the period from 23 December 2020 to 31 March 2021 and the Annual Report for 31 March 2022 are available on its ASX platform at www.asx.com.au (ASX:IR1). The pro forma statement of financial position as at completion of the Offers is set out in the Independent Limited Assurance Report included at Annexure D. The Board believes that this financial information adequately presents the financial position and performance of the Company, and the effect that the transactions the subject of the Proposed Acquisitions will have on the Company.	Section 6 and Annexure D
What is the financial outlook for the Company?	Given the current status of the Company's Projects and the speculative nature of its business, the Directors do not consider it appropriate to forecast future earnings. Any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection on a reasonable basis.	Section 6 and Annexure D
Does the Company have sufficient funds for its activities?	The Current Directors and the Proposed Director are of the view that the funds raised under the Public Offer, together with existing cash reserves of the Company, will provide the Company with sufficient working capital to progress the business set out in this Prospectus.	Section 5.8
G. Offers		
What is the Public Offer?	The Public Offer is an offer of up to 15,000,000 Shares at an issue price of \$1.00 per Share to raise up to \$15,000,000 (before costs), together with one (1) free attaching Option for every two (2) Shares subscribed for and issued (Public Offer Options). The Public Offer comprises of: (a) the Priority Offer to eligible Shareholders of up to 1,500,000 Shares; and (b) the General Offer of up to 13,500,000 Shares to any other applicant,	Section 4.1

Item	Summary	Further information
	together with one (1) free attaching Option for every two (2) Shares subscribed for and issued.	
Who is an eligible Shareholder?	Shareholders who are registered as a holder of Iris Shares on the Priority Offer Record Date (being 10 March 2023) and are eligible under applicable laws of Australia and New Zealand (or such other jurisdiction as the Directors consider reasonable to make the Priority Offer and issue Shares) to receive an offer under the Priority Offer.	
Is there a minimum subscription under the Public Offer?	The minimum amount to be raised under the Public Offer is \$12,000,000 (the Minimum Subscription).	Section 4.2
What are the Secondary Offers?	The Prospectus also includes the following Secondary Offers: (a) 5,500,000 Shares and up to 2,750,000 Options to Jasdak, 3,800,000 Shares to Schad Investments and 200,000 Shares to Cody Schad under the Consideration Offer; (b) 750,000 Options to the Lead Manager (or its nominees) under the Lead Manager Offer; and (c) 12,000,000 Performance Rights to the PR Recipients under the Performance Rights Offer. Only specified persons will be entitled to participate in the Secondary Offers, all of whom will be approached directly by the Company.	Section 4.5
What are the purposes of the Offers?	The purposes of the Offers are to: (a) assist the Company to meet the re-admission requirements of ASX under Chapters 1 and 2 of the ASX Listing Rules (see Section 4.11 for further details); (b) provide the Company with additional funding to progress exploration and development of the Projects; (c) remove the need for an additional disclosure document to be issued upon the sale of any Shares that are to be issued under the Offers; and (d) provide the Company with sufficient working capital. The Company intends on applying the funds raised under the Public Offer along with its current cash reserves in the manner detailed in Section 5.8.	Section 4.11 and 5.8

Item	Summary	Further information
Is the Public Offer underwritten?	No, the Public Offer is not underwritten.	Section 4.4
Who is eligible to participate in the Offers?	Eligible Investors in permitted jurisdictions, as further set out in Section 4.16.	Section 4.16
How do I apply for Shares under the Offers?	Applications for Securities under the Offers must be made by completing the Application Form attached to this Prospectus in accordance with the instructions set out in the Application Form.	Section 4.12
What is the allocation policy?	The Company retains an absolute discretion to allocate Securities under the Offers, and will be influenced by the factors set out in Section 4.13. There is no assurance that any applicant will be allocated any Shares, or the number of Securities for which it has applied.	Section 4.13
What will the Company's capital structure look like on completion of the Offers and the Proposed Acquisitions?	The Company's pro forma capital structure following completion of the Offers and the Proposed Acquisitions is set out in Section 5.10.	Section 5.10
What are the terms of the Shares offered under the Offers?	A summary of the material rights and liabilities attaching to the Securities offered under the Offers are set out in Sections 10.3 to 10.5.	Sections 10.3, 10.4 and 10.5
Will any Shares be subject to escrow?	None of the Shares issued under the Public Offer will be subject to escrow. However, subject to the Company complying with Chapters 1 and 2 of the ASX Listing Rules and completing the Offers and Proposed Acquisitions, it is anticipated that Securities issued under the Secondary Offers will be subject to ASX imposed escrow for up to 24 months from the date of Official Quotation. During the period in which restricted Shares are prohibited from being transferred, trading in Shares may be less liquid which may impact on the ability of a Shareholder to dispose of his or her Shares in a timely manner. The Company will announce to ASX full details (quantity and duration) of the Shares required to be held in escrow prior to the Company's listed securities being reinstated to trading on ASX (such	Section 4.18

Item	Summary	Further information
	Re-Instatement is subject to ASX's discretion and approval). The Company's 'free float' (being the percentage of Shares not subject to escrow and held by Shareholders that are not related parties of the Company (or their associates) at the time of Re-Instatement to the Official List) will be not less than 20% in compliance with ASX Listing Rule 1.1 Condition 7.	
Who are the current Shareholders of the Company and on what terms were their Shares issued?	The Company has been listed on ASX since 2021. As such, it has many existing Shareholders. The Shareholders that currently hold more than 5% of the Company's Shares are listed in Section 5.11.	Section 5.11
Will the Shares be quoted on ASX?	Application for quotation of all Shares to be issued under the Public Offer will be made to ASX no later than 7 days after the date of this Prospectus.	Section 4.14
What are the key dates of the Offers?	The key dates of the Offers are set out in the indicative timetable in Section 2.	Section 2
What is the minimum investment size under the Public Offer?	Applications under the Public Offer must be for a minimum of \$2,000 worth of Shares (2,000 Shares) and thereafter, in multiples of \$500 worth of Shares (500 Shares).	Section 4.12
Are there any conditions to the Offers?	The Offers are conditional on the Proposed Acquisitions becoming unconditional, including: (a) the Company raising the Minimum Subscription under the Public Offer; (b) the Company receiving Shareholder approval for the Essential Resolutions at the Company's General Meeting to be held on 5 May 2023 (General Meeting); and (c) the Company receiving Conditional Approval (and the Company being satisfied that it can meet those conditions, (together, the Conditions). The Offers will only proceed if all Conditions are satisfied. Further details are set out in Section 4.10.	Section 4.10
I. Additional information		
Is there any brokerage, commission or	No brokerage, commission or duty is payable by applicants on the acquisition of Shares under the Offers.	Section 9.1

Item	Summary	Further information
duty payable by applicants?	However, the Company will pay to the Lead Manager a 2% (ex GST) management fee and a 4% selling fee (ex GST) of the total amount raised under the Public Offer.	
Can the Offers be withdrawn?	The Company reserves the right not to proceed with the Offers at any time before the issue or transfer of Shares to successful applicants. If the Offers do not proceed, application monies will be refunded (without interest).	Section 4.21
What are the tax implications of investing in Shares?	Holders of Shares may be subject to Australian tax on dividends and possibly capital gains tax on a future disposal of Shares subscribed for under this Prospectus. The tax consequences of any investment in Shares depend upon an investor's particular circumstances. Applicants should obtain their own tax advice prior to deciding whether to subscribe for Shares offered under this Prospectus.	Section 4.20
What is the Company's Dividend Policy?	For the Company to progress its business model as detailed in section 5.5, significant funding is likely to be required and therefore the Company currently has no plans to declare any dividends. Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the availability of distributable earnings and operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.	Section 5.13
What are the corporate governance principles and policies of the Company?	To the extent applicable, in light of the Company's size and nature, the Company has adopted <i>The Corporate Governance Principles and Recommendations (4th Edition)</i> as published by ASX Corporate Governance Council (Recommendations). The Company's main corporate governance policies and practices and the Company's compliance and departures from the Recommendations as at the date of this Prospectus are outlined in Section 8.4. In addition, the Company's full Corporate Governance Plan is available from the Company's website (www.irismetals.com).	Section 8.4
Where can I find more information?	(a) By speaking to your sharebroker, solicitor, accountant or other independent professional adviser;	

Item	Summary	Further information
	(b) By contacting the Company Secretary, on +61 2 8098 1169; or (c) By contacting the Share Registry on 1300 288 664 within Australia or +61 (2) 9698 5414 from outside Australia.	

This Section is a summary only and is not intended to provide full information for investors intending to apply for Securities offered pursuant to this Prospectus. This Prospectus should be read and considered in its entirety.

4. DETAILS OF THE OFFERS

4.1 The Public Offer

Pursuant to this Prospectus, the Company invites applications for up to 15,000,000 Shares at an issue price of \$1.00 per Share to raise up to \$15,000,000, together with one (1) free attaching Option for every two (2) Shares subscribed for and issued (Maximum Subscription).

The Public Offer comprises:

- (a) the Priority Offer to eligible Shareholders of 1,500,000 Shares to raise up to \$1,500,000; and
- (b) the General Offer of up to 13,500,000 Shares to any other applicant to raise up to \$13,500,000,

together with one (1) free attaching Option for every two (2) Shares subscribed for and issued.

Eligible Shareholders are persons who are registered as holders of Iris Shares on the Priority Offer Record Date (being 10 March 2023) and are eligible under applicable laws of Australia and New Zealand (or such other jurisdiction as the Directors consider reasonable to make the Priority Offer and issue Shares) to receive an offer under the Priority Offer. Eligible Shareholders are guaranteed to be allocated 2,000 Shares under the Priority Offer, applications for amounts above 2,000 Shares will be allocated according to the allocation policy outlined in Section 4.13.

Members of the public wishing to apply for Shares under the Public Offer must do so through the General Offer.

The Shares issued under the Public Offer will rank equally with all other existing Shares currently on issue. A summary of the material rights and liabilities attaching to the Shares is set out in Section 10.3.

4.2 Minimum subscription

The minimum subscription for the Public Offer is \$12,000,000 (12,000,000 Shares) (Minimum Subscription).

If the Minimum Subscription has not been raised within four (4) months after the date of this Prospectus, the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

4.3 Oversubscriptions

No oversubscriptions above the Maximum Subscription will be accepted by the Company under the Public Offer.

4.4 Underwriter

The Public Offer is not underwritten.

4.5 Secondary Offers

The Prospectus also includes the following secondary offers:

- (a) 5,500,000 Shares and up to 2,750,000 Options to Jasdak, 3,800,000 Shares to Schad Investments and 200,000 Shares to Cody Schad under the Consideration Offer;
 - (b) 750,000 Options to the Lead Manager (or its nominees) under the Lead Manager Offer; and
 - (c) 12,000,000 Performance Rights to the Related Parties and the Chief Financial Officer under the Performance Rights Offer,
- (each, being a Secondary Offer).

4.6 Consideration Offer

This Prospectus includes an offer of:

- (a) 5,500,000 Shares and up to 2,750,000 Options, exercisable at \$1.50 each on or before the date that is three (3) years from the date of issue, to Jasdak in consideration for Longview;
- (b) 3,800,000 Shares to Schad Investments in consideration for the Edison Patented Claim; and
- (c) 200,000 Shares to Cody Schad in consideration for the BLM Claims,

(together, the Consideration Securities), pursuant to the Longview SPA and Schad HOA (the material terms of which are summarised at Sections 9.2.1 and 9.2.2 respectively) (Consideration Offer).

The Shares issued under the Consideration Offer will be fully paid and will rank equally with all other existing Shares currently on issue. A summary of the material rights and liabilities attaching to the Shares is set out in Section 10.3.

The Options issued under the Consideration Offer will be issued on the terms and conditions set out in Section 10.4. All Shares issued on conversion of the Options will rank equally with the Shares on issue at the date of this Prospectus.

Only Jasdak and the Vendors may accept the Consideration Offer. A personalised application form in relation to the Consideration Offer will be issued to Jasdak and the Vendors together with a copy of this Prospectus.

The Securities issued under the Consideration Offer may be subject to escrow under the ASX Listing Rules. Please refer to Section 4.18 for a summary of the likely escrow position.

4.7 Lead Manager Offer

This Prospectus includes an offer of 750,000 Options exercisable at \$1.50 each on or before the date that is two (2) years from the date of issue of the Options to the Lead Manager (or its nominees) (Lead Manager Offer).

The Options issued under the Lead Manager Offer will be issued on the terms and conditions set out in Section 10.4. The Options issued under the Lead Manager Offer will not be quoted, however the Company will apply for quotation of all Shares issued upon exercise of the Options.

Only the Lead Manager may accept the Lead Manager Offer. A personalised application form in relation to the Lead Manager Offer will be issued to the Lead Manager together with a copy of this Prospectus.

The Options issued under the Lead Manager Offer may be subject to escrow under the ASX Listing Rules. Please refer to Section 4.18 for a summary of the likely escrow position.

4.8 The Performance Rights Offer

The Performance Rights Offer is an offer of 12,000,000 Performance Rights (comprising 2,400,000 Class A Performance Rights, 2,400,000 Class B Performance Rights, 2,400,000 Class C Performance Rights, 2,400,000 Class D Performance Rights and 2,400,000 Class E Performance Rights to be issued to Messers Marks, Lill, Connell and Smith (the Related Parties) and the Chief Financial Officer Mr Damien Henderson (together, the PR Recipients).

The Performance Rights issued under the Performance Rights Offer will be issued on the terms and conditions set out in Section 10.5.2. The Performance Rights issued under the Performance Rights Offer will not be quoted, however, the Company will apply for quotation of all Shares issued upon exercise of the Performance Rights.

Only the PR Recipients may accept the Performance Rights Offer. A personalised Application Form in relation to the Performance Rights will be issued to the PR Recipients, together with a copy of this Prospectus.

All Performance Rights are expected to be restricted from trading for 24 months from the date of the Official Quotation in accordance with the ASX Listing Rules. A summary of the anticipated application of escrow to the Company's securities is set out in Section 4.18.

4.9 Lead Manager

The Company has appointed Jett Capital Advisors, LLC (Lead Manager) as lead manager to the Public Offer. In consideration for its services, the Company has agreed to pay the following fees to the Lead Manager:

- (a) a management fee of 2% of all funds raised under the Public Offer;
- (b) a selling fee of 4% of all funds raised under the Public Offer; and
- (c) 750,000 Options, exercisable at \$1.50 each on or before the date that is two (2) years from the date of issue.

4.10 Conditions of the Offers

The Offers are conditional upon the Acquisition Agreements becoming unconditional, including:

- (a) the Company raising the Minimum Subscription under the Public Offer;
- (b) the Company receiving Shareholder approval for the Essential Resolutions (see below for further details) at the General Meeting; and
- (c) the Company receiving Conditional Approval (and the Company being satisfied that it can meet those conditions),

(together the Conditions).

The Company has convened the General Meeting for the purpose of seeking the approval of Shareholders to a number of resolutions relevant to implementing the Proposed Acquisitions, including the Essential Resolutions set out below:

- (a) approval pursuant to Listing Rule 11.1.2 for the Company to undertake the Proposed Acquisitions;
 - (b) the issue of Securities in consideration for the proposed acquisition of Longview (see Section 9.2.1 for further details);
 - (c) the issue of Shares in consideration for the proposed acquisition of the Schad Properties (see Section 9.2.2 for further details);
 - (d) approval to undertake the Public Offer; and
 - (e) approval to issue the Lead Manager Options,
- (each an Essential Resolution).

Each of the Essential Resolutions are conditional upon the approval by Shareholders of each of the other Essential Resolutions. If one of the Essential Resolutions is not approved by Shareholders, all of the Essential Resolutions will fail, and completion of the Proposed Acquisitions will not occur. If the Conditions are not satisfied or waived, then the Offers will not proceed and the Company will repay all application monies received under the Offers within the time prescribed under the Corporations Act, without interest.

4.11 Purpose of the Public Offer

The primary purposes of the Public Offer are to:

- (a) assist the Company to meet the re-admission requirements of ASX under Chapters 1 and 2 of the ASX Listing Rules to facilitate the Company's application for Re-Instatement (see Section 4.10 for further details);
- (b) provide the Company with additional funding to progress exploration and development of the Projects; and
- (c) provide the Company with sufficient working capital.

The Company intends on applying the funds raised under the Public Offer together with its current cash reserves in the manner detailed in Section 5.8.

4.12 Applications

4.12.1 Priority Offer

Applications for Securities under the Priority Offer must be made by using the relevant Application Form as follows:

- (a) using an online Application Form at <https://apply.automic.com.au/IrisMetalsPriority> and pay the application monies electronically; or
- (b) completing a paper-based application using the relevant Application Form attached to, or accompanying, this Prospectus or a printed copy of

the relevant Application Form attached to the electronic version of this Prospectus.

By completing an Application Form, each applicant under the Priority Offer will be taken to have declared that all details and statements made by them are complete and accurate and that they have personally received the Application Form together with a complete and unaltered copy of the Prospectus.

Applications for Shares under the Priority Offer may be for \$2,000 worth of Shares (2,000) Shares and payment for the Shares must be made in full at the issue price of \$1.00 per Share.

If paying by BPAY® or EFT, please follow the instructions on the Application Form. A unique reference number will be quoted upon completion of the online application. Your BPAY reference number will process your payment to your application electronically and you will be deemed to have applied for such Shares for which you have paid. Applicants using BPAY should be aware of their financial institution's cut-off time (the time payment must be made to be processed overnight) and ensure payment is process by their financial institution on or before the day prior to the Closing Date of the Priority Offer. You do not need to return any documents if you have made payment via BPAY or EFT.

Payment by cheque will be accepted under the Priority Offer. Completed Application Forms and accompanying cheques, made payable to "IRIS Metals **Limited**" and crossed "Not Negotiable", must be mailed or delivered to the address set out on the Application Form by no later than 5:00pm (AEST) on the Priority Offer Closing Date, which is scheduled to occur on 26 April 2023.

If an Application Form is not completed correctly or if the accompanying payment is the wrong amount, the Company may, in its discretion, still treat the Application Form to be valid. The Company's decision to treat an application as valid, or how to construe, amend or complete it, will be final.

The Company reserves the right to close the Priority Offer early.

4.12.2 General Offer

Applications for Securities under the General Offer must be made by using the relevant Application Form as follows:

- (a) using an online Application Form at <https://apply.automic.com.au/IrisMetals> and pay the application monies electronically; or
- (b) completing a paper-based application using the relevant Application Form attached to, or accompanying, this Prospectus or a printed copy of the relevant Application Form attached to the electronic version of this Prospectus.

By completing an Application Form, each applicant under the General Offer will be taken to have declared that all details and statements made by them are complete and accurate and that they have personally received the Application Form together with a complete and unaltered copy of the Prospectus.

Applications for Shares under the General Offer must be for a minimum of \$2,000 worth of Shares (2,000) Shares and payment for the Shares must be made in full at the issue price of \$1.00 per Share.

Applicants under the General Offer can make their payments by BPAY® or EFT, please follow the instructions on the Application Form. A unique reference number will be quoted upon completion of the online application. Your BPAY reference number will process your payment to your application electronically and you will be deemed to have applied for such Shares for which you have paid. Applicants using BPAY should be aware of their financial institution's cut-off time (the time payment must be made to be processed overnight) and ensure payment is processed by their financial institution on or before the day prior to the Closing Date of the General Offer. You do not need to return any documents if you have made payment via BPAY or EFT.

If an Application Form is not completed correctly or if the accompanying payment is the wrong amount, the Company may, in its discretion, still treat the Application Form to be valid. The Company's decision to treat an application as valid, or how to construe, amend or complete it, will be final.

The Company reserves the right to close the General Offer early.

4.12.3 Secondary Offers

Participation in the Secondary Offers is personal and Application Forms in relation to the Secondary Offers will be issued to the relevant participants together with a copy of this Prospectus.

4.13 Allocation policy under the Public Offer

The Company retains an absolute discretion to allocate Shares under the Public Offer and reserves the right, in its absolute discretion, to allot to an applicant a lesser number of Shares than the number for which the applicant applies or to reject an Application Form. If the number of Shares allotted is fewer than the number applied for, surplus application money will be refunded without interest as soon as practicable.

No applicant under the Public Offer has any assurance of being allocated all or any Shares applied for. This excludes the first 2,000 Shares applied for under the Priority Offer, which are guaranteed to be allocated to Shareholders, noting that applications in excess of 2,000 Shares will be allocated according to the policy below.

The allocation of Shares by Directors (in conjunction with the Lead Manager) will be influenced by the following factors:

- (a) the number of Shares applied for;
- (b) the overall level of demand for the Public Offer;
- (c) the desire for a spread of investors, including institutional investors; and
- (d) the desire for an informed and active market for trading Shares following completion of the Public Offer.

The Company will not be liable to any person not allocated Shares or not allocated the full amount applied for.

4.14 ASX listing

Application for Official Quotation by ASX of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. However,

applicants should be aware that ASX will not commence Official Quotation of any Shares until the Company has re-complied with Chapters 1 and 2 of the ASX Listing Rules and has received the approval of ASX to be re-admitted to the Official List. As such, the Shares may not be able to be traded for some time after the close of the Public Offer.

If the Shares are not admitted to Official Quotation by ASX before the expiration of three (3) months after the date of this Prospectus, or such period as varied by the ASIC, the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

4.15 Issue

Subject to the Conditions set out in Section 4.10 being met, issue of Shares offered by this Prospectus will take place as soon as practicable after the Closing Date, and in accordance with the timetable set out in Section 2.

If an Application Form is not completed correctly or if the accompanying payment is the wrong amount, the Company may, in its discretion, still treat the Application Form to be valid. The Company's decision to treat an application as valid, or how to construe, amend or complete it, will be final.

Pending the issue of the Shares or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each applicant waives the right to claim interest.

The Directors (in conjunction with the Lead Manager) will determine the recipients of the issued Shares in their sole discretion in accordance with the allocation policy detailed in Section 4.13). The Directors reserve the right to reject any application or to allocate any applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus application monies will be refunded without any interest to the applicant as soon as practicable after the Closing Date.

Holding statements for Shares issued to the issuer sponsored subregister and confirmation of issue for Clearing House Electronic Subregister System (CHES) holders will be mailed to applicants being issued Shares pursuant to the Public Offer as soon as practicable after their issue.

4.16 Applicants outside Australia

This Prospectus does not, and is not intended to, constitute an offer of, or an invitation to apply for Shares in any place or jurisdiction, or to any person to whom, it would not be lawful to make such an offer or invitation. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should observe any of these restrictions, including those outlined below. In particular, this Prospectus may not be distributed in the United States or elsewhere outside Australia. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

4.16.1 New Zealand

This Prospectus has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013 (New Zealand) (the FMC Act). The Shares are not being offered or sold in New Zealand (or allotted with a view to being offered for sale in New Zealand) other than to a person who:

- (a) is an investment business within the meaning of clause 37 of Schedule 1 of the FMC Act;
- (b) meets the investment activity criteria specified in clause 38 of Schedule 1 of the FMC Act;
- (c) is large within the meaning of clause 39 of Schedule 1 of the FMC Act;
- (d) is a government agency within the meaning of clause 40 of Schedule 1 of the FMC Act; or
- (e) is an eligible investor within the meaning of clause 41 of Schedule 1 of the FMC Act.

4.16.2 United States

This Prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States. The Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States. Accordingly, the Shares may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

This Prospectus may be distributed only by the Company and Jett Capital, and the Shares may only be offered and sold, in the United States to institutional accredited investors within the meaning of Rule 501(a)(1), (2), (3), (7), (8), (9) or (12) under the US Securities Act.

4.16.3 Canada

This document constitutes an offering of New Shares only in the Provinces of British Columbia, Ontario and Quebec (the "Provinces"), only to persons to whom New Shares may be lawfully distributed in the Provinces, and only by persons permitted to sell such securities. This document is not a prospectus, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to persons that are "accredited investors" within the meaning of National Instrument 45-106 – Prospectus Exemptions, of the Canadian Securities Administrators.

No securities commission or authority in the Provinces has reviewed or in any way passed upon this document, the merits of the New Shares or the offering of New Shares and any representation to the contrary is an offence. No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a

security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Any financial information contained in this document has been prepared in accordance with Australian Accounting Standards and also comply with International Financial Reporting Standards and interpretations issued by the International Accounting Standards Board. Unless stated otherwise, all dollar amounts contained in this document are in Australian dollars.

Statutory rights of action for damages and rescission. Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser's Province for particulars of these rights or consult with a legal adviser.

Certain Canadian income tax considerations. Prospective purchasers of the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the New Shares as there are Canadian tax implications for investors in the Provinces.

Language of documents in Canada. Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the New Shares (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu'il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d'achat ou tout avis) soient rédigés en anglais seulement.

4.17 Suspension and re-admission to ASX

ASX has determined that the Proposed Acquisitions, if successfully completed, will represent a significant change in the nature and scale of the Company's activities. In accordance with the ASX Listing Rules, the change in the nature and scale of the Company's activities will require:

- (a) Shareholder approval for the Proposed Acquisitions, which will be sought at the General Meeting to be held on 5 May 2023; and
- (b) the Company to re-comply with the admission requirements set out in Chapters 1 and 2 of the ASX Listing Rules.

The Company's Securities are currently suspended from trading on the ASX and will remain suspended and not be reinstated to Official Quotation until the

Company has re-complied with Chapters 1 and 2 of the ASX Listing Rules and is re-admitted by the ASX to the Official List.

Some of the key requirements of Chapters 1 and 2 of the Listing Rules are:

- (a) the Company must satisfy the shareholder spread requirements relating to the minimum number of Shareholders and the minimum value of the shareholdings of those Shareholders; and
- (b) the Company must satisfy the "assets test" asset out in ASX Listing Rule 1.3. The Company expects that the conduct of the Public Offer pursuant to this Prospectus will enable the Company to satisfy the above requirements.

4.18 Restricted securities and free float

Subject to Re-Instatement and completion of the Offers, certain Securities will be classified by ASX as restricted securities and will be required to be held in escrow for up to 24 months from the date of Official Quotation. During the period in which these Securities are prohibited from being transferred, trading in Shares may be less liquid which may impact on the ability of a Shareholder to dispose of Shares in a timely manner.

None of the Securities issued under the Public Offer will be subject to escrow.

While ASX has not yet confirmed the final escrow position, the Company anticipates that the Securities under the Secondary Offers will be escrowed for a period of 24 months.

The number of Securities that are subject to ASX imposed escrow are at ASX's discretion in accordance with ASX Listing Rules and underlying policy. The above is a good faith estimate of the Securities that are expected to be subject to ASX imposed escrow.

The Company will announce to ASX full details (quantity and duration) of the Securities required to be held in escrow prior to the Shares re-commencing trading on ASX (which Re-Instatement is subject to ASX's discretion and approval).

The Company's 'free float' (being the percentage of Shares not subject to escrow and held by Shareholders that are not related parties nor promoters of the Company (or their associates) at the time of Re-Instatement) will be approximately 61.78% (at Minimum Subscription).

4.19 Commissions payable

The Company reserves the right to pay a commission of up to 6% (exclusive of goods and services tax) of amounts subscribed through any licensed securities dealers or Australian financial services licensee in respect of any valid applications lodged and accepted by the Company and bearing the stamp of the licensed securities dealer or Australian financial services licensee. Payments will be subject to the receipt of a proper tax invoice from the licensed securities dealer or Australian financial services licensee.

The Lead Manager will be responsible for paying all commission that they and the Company agree with any other licensed securities dealers or Australian financial services licensees out of the fees paid by the Company to the Lead Manager.

4.20 Taxation

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor.

It is not possible to provide a comprehensive summary of the possible taxation positions of all potential applicants. As such, all potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus or the reliance of any applicant on any part of the summary contained in this Section.

No brokerage, commission or duty is payable by applicants on the acquisition of Shares under the Offer.

4.21 Withdrawal of Offers

The Offers may be withdrawn at any time. In this event, the Company will return all application monies (without interest) in accordance with applicable laws.

5. COMPANY AND PROJECTS OVERVIEW

5.1 Background

The Company was incorporated on 23 December 2020, for the primary purpose of acquiring, exploring, and developing exploration assets, at the time, in Western Australia. A company objective as outlined in its prospectus dated 16 July 2021, was "to continue to assess and evaluate further resource opportunities with the intention of creating shareholder value". Accordingly, on 23 May 2022 the Company announced the acquisition of its South Dakota Lithium Project.

Subsequent to the lithium transaction, the Company has also been focusing on acquiring, exploring, and developing Lithium projects in the United States, with a view to becoming a leading supplier of lithium to the North American battery metals industry.

Initially the Company listed on ASX with gold assets in Western Australia and given its expansion into the battery metals sector and anticipated growth within this sector, the Board of Directors have opted that the focus of the Company moving forward be adjusted to include a battery metals focus, in addition to its existing activities. Accordingly, a re-compliance is being undertaken, enabling the Company to achieve its objectives in manner that is in-line with the ASX guidance and all relevant listing rules.

Upon re-listing, the Company proposes to maintain a battery metals, base and precious metals focus, while concurrently continuing to assess various projects both locally and internationally within the broader battery, base and precious metals/minerals space for future acquisition, investment, and/or joint venture purpose, with a view to creating Shareholder value.

This is important for the Company going forward as it is open to new transactions as and when they may arise. For this purpose, and more specifically, the Company will seek to add additional tenure to increase its claim portfolio (both BLM and patented) in the South Dakota and neighbouring regions which may be in the form of staking, acquisition and/or joint venture.

The Company's Securities were suspended from Official Quotation on 23 December 2022 following consultation with ASX regarding the Proposed Acquisitions set out below. ASX confirmed that Listing Rule 11.1.3 would apply to the Proposed Acquisitions and that the Company would be required under Listing Rule 11.1.3 to comply with all of the requirements of Chapters 1 and 2 of the Listing Rules before completing the acquisitions.

As at the date of this Prospectus, the Company's Securities remain suspended. During the period of suspension, the Company has continued to maintain its interest in its existing assets.

5.2 Proposed Acquisitions

5.2.1 Background

As announced on 31 March 2023, the Company has entered into binding agreements pursuant to which it will acquire interests in the following:

- (a) Longview: Longview Minerals, LLC (Longview) owns two patented properties:

- (i) the Longview Property: the Longview mine is located 7km from the township of Custer in the Black Hills of South Dakota. The Longview project is located on a 15-acre patented claim; and
- (ii) the Beecher Property: The Beecher mine on the Beecher Property is the oldest mine in the Beecher trend, with first work carried out by Bond and Sutherland in 1900. The three large open pits were excavated from 1925 to 1934 in the mining of spodumene, columbite, and beryl. Many small pits and trenches on the property were excavated to remove large individual spodumene crystals and six diamond drill holes were drilled between 1941 and 1942,

(together, the Longview Properties).

- (b) the Schad Properties: The Schad Properties consist of the Edison Patented Claim and the 313 BLM Claims located in Keystone and Tinton:

- (i) Keystone Project: The Keystone Project consists of 137 BLM lode claims and covers an area of approximately 2,801 acres of prospective LCT-pegmatites. The claims are located near the township of Keystone. This area is famous for the production of lithium in the form of very large spodumene crystals;
- (ii) Tinton Project: The Tinton Project consists of 176 BLM lode claims and covers an area of approximately 3,622 acres of prospective LCT-pegmatites. The western portion of the claims are located in the State of Wyoming. The Tinton claims cover the interpreted extension of the Giant-Volney Mine near Spearfish in the northern part of the Black Hills. The Giant-Volney pegmatite was subject to tantalum, tin and lithium mining, undertaken in the 1930s and 1940s; and
- (iii) the Edison Patented Claim.

(together, the Schad Properties).

The Proposed Acquisitions are subject to Shareholder approval, which the Company is seeking to obtain at its General Meeting to be held on 5 May 2023.

The Company has made a number of enquiries and investigations into the Longview and Schad Properties. These enquiries consisted of Company representatives visiting the sites and carrying out due diligence investigations on the Projects. The Company recently completed these due diligence investigations and is satisfied with the results. Consequentially, as was announced by the Company on 31 March 2023, the Company entered into the respective Acquisition Agreements to effect the Proposed Acquisitions.

The Board confirms that as part of its due diligence program with respect to the Proposed Acquisitions, the Company has undertaken appropriate enquiries in relation to the impact that the Proposed Acquisitions will have on the Company's assets and liabilities, financial position and performance, profits and losses and future prospects to satisfy itself that the Proposed Acquisitions are in the interests of the Company and its Shareholders.

The consideration payable for the Longview and Schad Properties and summaries of each of the Acquisition Agreements is set out in Sections 9.2.1 and 9.2.2.

The Board considers that the quantum of the consideration payable at Completion of the Proposed Acquisitions reflects the reasonable fair value of the Longview and Schad Properties, and the Company conducted arm's length negotiations with representatives of Jasdak and the Vendors to arrive at the commercial terms of the Proposed Acquisitions.

In determining the consideration payable for each of the Proposed Acquisitions, the Company also took into account the Board's assessment of the future prospects of the Longview and Schad Properties based on its geological review of the Properties.

The Board considers that the Proposed Acquisitions present the Company with the opportunity to generate value for its Shareholders, subject to the successful implementation of the Company's proposed exploration program and development plan (as detailed in Sections 5.3, 5.4 and 5.8) and the associated risk factors detailed in Section 7.

In addition to the Proposed Acquisitions, the Company is in ongoing negotiations with Schad regarding the top 15m of surface rights for the South Dakota Project, as is in industry standard for this type of tenure and immaterial to the Company for the purposes of its own exploration.

5.3 South Dakota Project

5.3.1 Overview and Location

Following the completion of the Proposed Acquisitions, the Company will have control of 2,387 BLM claims, ownership of 3 patented claims and access rights over 2 patented claims, covering a total area of approximately 198km². The existing project areas include the Dewy Project, the Custer Project, the Ruby Project and the Helen Beryl Project. The new project areas include the Keystone claims, the Tinton claims, the Beecher and Longview Mines and the Edison Mine.

These projects are district scale and host lithium-caesium-tantalum (LCT) pegmatites covering several historic lithium mines and many historical industrial mineral pegmatite mines.

Figure 1 Iris' South Dakota Tenure

5.3.2 Previous Exploration

The area has seen little modern-day exploration, with previous efforts limited to early 20th century prospecting and ad hoc mining within historic open pits, adits / tunnels and limited underground development. Given the extensive distribution of pegmatite-related occurrences in the region, the Company has chosen to primarily focus on the aforementioned prospects.

The Beecher Project is comprised of 5 contiguous patented claims, covering historic lithium mines and extensive un-explored LCT pegmatites (Figure 2).

Figure 2: Surface mapping of the mineralised pegmatites and locations of historic mines in the Beecher Project.

Mapping has defined two main parallel mineralised pegmatite bodies outcropping along the length of the project (Figure 3). With limited historical value, spodumene was only mined at the Beecher Project for a short period, mining in this area mainly focussed on higher value products such as tantalite, Bery and mica. For this reason, the potential to extend the spodumene rich zones targeted by previous workers in the Beecher pegmatites is considered high.

Figure 3 - Geology mapping of the Beecher Project identifying the two parallel mineralised pegmatites.

The Beecher prospect represents the oldest historic mine in Beecher area and the first work was carried out by Bond and Sutherland in 1900. It is reported that the excavation of three large open pits was completed from 1925 to 1934, with the mining of spodumene, columbite, and beryl the main focus. Many small pits and trenches on the property were ex-cavated to remove large individual spodumene crystals and six diamond-drill holes were completed between 1941 and 1942.

Reported production data from the Beecher Lode are incomplete, but the available production data notes extraction of columbite (25t), Beryl (100t), spodumene (50t), amblygonite (1,970t), and tantalite (33t).

(a) Beecher

Recent mapping has confirmed an extensive strike length of prospective pegmatite intrusions at Beecher. This correlates with and exceeds historic

reports of the Beecher pegmatite "lode" being lenticular in shape, ~ 265m in length and estimated as being up to 25m in thickness.

Potential for Li mineralization within pegmatite at Beecher is supported by the presence of spodumene, with crystal sizes ranging from 0.1 to 3 meters (Figure 4). In Beecher #1 and #2 pits the crystals show the biggest size, but in turn have the lowest density compared to Longview pit where the crystals are smaller but have the highest density. Kunzite and hiddenite have further been identified, as well as lepidolite.

As part of the mapping works, the Company has utilised a handheld Laser Induced Breakdown Spectroscopy (LIBS) unit to measure elemental concentrations in samples. Although not a conclusive analytical technique, the LIBS provides indicative qualitative and quantitative analysis of samples for Li %, which can then be validated through laboratory analysis.

Preliminary LIBS analysis at Beecher defines anomalies ranging between 0.3 to 31.79% Li. The highest results are located in open pits, but other significant values have been identified in newly mapped outcrops along the same trends that extend the ore body. In addition, anomalies (>1% Li) have been defined in outcrops of Beecher metamorphic complex rocks where pegmatites have not yet been identified.

Figure 4 - View of the Beecher mine with very large spodumene crystals in the walls of the historic pit.

(b) Longview

At Longview, preliminary mapping has undertaken, three (3) trenches have been developed and sampled within a historic pit, and 142 rock channel samples have been collected (Figure 5).

Figure 5 - Aerial view showing the three trenches cutting the base of the historic mining operation at Longview.

High concentrations of weathered spodumene (Figure 6) were identified along all three trenches. Whilst Li values are strongly depleted in the weathered zones, visual indications of spodumene in the trenches will guide drill targeting to test the Li values at depth below the effects of weathering.

Figure 6 - A) Weathered spodumene mineralisation in the base of Trench 2 (spodumene is represented by the milky white crystal laths). B & C) Spodumene is a fluorescent mineral when viewed under ultra-violet light.

(c) Edison Mine Area

The Edison Mine is located within the Keystone Claims (Figure 1), approximately 2km to the southeast of Keystone and 26km to the southwest of Rapid City within the Black Hills National Forest. The Edison Mine commenced production in 1917 however the principal production was between 1942 and 1944. During that time, detailed geological logs were completed for twelve diamond drill holes in the region with these all intersecting LCT pegmatites.

There has been minimal additional exploration within the claims other than recent mapping. This work has identified that the pegmatites are zoned with a central core that is consistent with other LCT pegmatites in the district.

5.3.3 Work program and expenditure

The Company's objective for the South Dakota Project is to continue to define the lateral surface extents of outcropping LCT pegmatites for the South Dakota Projects, and field truth the documented distribution of pegmatite workings and occurrences as documented by previous miners since the early 1950's.

The Company proposes to conduct the following exploration at the South Dakota Project:

- (a) Refine the mineral zonation systematics identified and implement as an exploration vector to plan future drilling;
- (b) Continue extensive trenching at identified Li mineralization outcrop areas;
- (c) Implement a systematic surface geochemical sampling program via auger to better define the underlying geology; and
- (d) Drill test trenched areas to determine the subsurface extents and distribution of LCT Pegmatites.

The total budgeted expenditure for the South Dakota Project over the next two years is \$6,823,830.

5.4 Existing Projects

The Company intends on undertaking a strategic review in relation to its existing West Australian projects, with the intention of maximising shareholder value. See Section 5.8 for further details in relation to the proposed use of funds.

The Board considers that it is in the best interests of Shareholders to pursue the lithium opportunity presented in the South Dakota Project, inclusive of the Longview and Schad Properties.

For more specific tenure information for the Existing Projects, refer to Section 4 of the Independent Technical Assessment Report at Annexure A and the Solicitor's Report on Tenements at Annexure B.

5.4.1 Kookynie / Menzies Gold and Nickel Project

The Kookynie Project lies within the Norseman-Wiluna greenstone belt of the Eastern Goldfields Province of the Yilgarn Craton, an area of prolific gold mineralisation and production. The Kookynie area, both within and external to the

IRIS Metals tenements, hosts a large number of gold occurrences which have been mined over 130 years. The most recent production (in the 1990s and 2000s) was sourced from the Ulysses, Orient Well, Admiral, Butterfly and Puzzle deposits. Kookynie is currently undergoing a renaissance of gold exploration with many exploration companies recognising the prospectivity of this mineral field to host large economic gold deposits.

The Kookynie Project area is located approximately 60 km southeast of Leonora and approximately 180 km north of Kalgoorlie. IRIS controls one of the largest land holdings in Central Kookynie. IRIS' portfolio comprises land holding of 4,245 ha or 42.45 Km² in the heart of the Kookynie Gold camp, and a further 66 km² in Menzies prospective for both Gold and Nickel comprising:

- (a) 22 Prospecting Leases;
- (b) 4 Mining Leases; and
- (c) 4 Exploration Licences.

Amongst IRIS' broader Kookynie Project, are several sub-projects being: Lily; O'Shea; Thowell Well; Treasure-Whale and Rise & Shine.

Current Status

As announced on 22 October 2021, the Company conducted an aeromagnetic survey with its geophysical interpretation identifying 24 high priority targets.

Subsequently, on 28 July 2022, the Company announced the acquisition of a further 5 prospecting licences including the historic standard mine/mineral occurrence, which historical records reflect 1,783 tonnes at an average grade of 15.28 g/t Au.

Given that the acquired tenure is within the initial survey area, IRIS was able to incorporate the new tenements into the project-wide structural interpretation and on 5 September 2022, reported a further 2 aeromagnetic targets.

Since listing, the Company has undertaken desktop reviews, completed aeromagnetic surveys and their interpretations, in addition to undertaking both Reverse Circulation (RC) and Aircore (AC) drilling programs.

The next steps at Kookynie, are intended to be systematic in nature. Targets have been identified through the Aeromagnetic survey and desktop reviews undertaken. The Company is currently undertaking a strategic review in relation to these assets to maximise shareholder value. This may include further development, Joint Venture opportunities and/or any other corporate means of maximising shareholder value.

5.4.2 Leonora Project

The Leonora Project is a relatively underexplored tenement package located proximal to significant gold occurrences and workings in highly prospective terrain that exhibits a favourable structural environment for mineralisation. Exploration results to date show strong widespread gold anomalism with prospectivity for further delineation of several potential deposits.

Both project areas have been prospected since the discovery of gold in the district in the late 1890's. Since the mid 1980's the emphasis has been on gold exploration and more lately laterite nickel mineralisation.

The Leonora Project is located approximately 240 km north of Kalgoorlie and 60 km northeast of Leonora. The project consists of two groups of contiguous tenements, the Chain Bore project to the north and the Benalla project to the south.

IRIS' portfolio comprises land holding of 7,084 ha or 70.84 Km² in the Leonora Gold camp, prospective Gold, comprising: 41 Prospecting Leases.

Current status of the Leonora Project

Since listing on ASX on 23 September 2021, the Company has undertaken various desktop reviews of open file data, to better understand the underlying geology, and best path forward.

Aeromagnetic surveys have been completed, as have the geophysical interpretation, (Refer to ASX announcement 07/01/2022, "Aeromagnetic Survey Interpretation Highlights the Potential at Leonora Gold Project") resulting in the definition of 7 exploration targets for further evaluation and eventual drill testing.

Based on the culmination of desktop reviews, historic open file data and the aeromagnetic surveys completed to date, exploration is intended to be systematic in nature. Targets have been identified through the Aeromagnetic survey and desktop reviews undertaken. Geochemical works are required to be undertaken to further refine existing targets and identify additional areas of interest prior to any drilling.

The Company is currently undertaking a strategic review in relation to these assets to maximise shareholder value. This may include further development, joint venture opportunities and/or any other corporate means of maximising shareholder value.

5.4.3 Paterson Province Project

IRIS applied for E45/5939 on 1 June 2021 which was subsequently granted on 4 July 2022. The project's land holding is 60 blocks (approximately 192 Km²) of prospective tenure.

E45/5939 is located in the Great Sandy Desert approximately 390km east of Port Headland and 270km south of Broome, with access via the Northern Highway. The project is located in the Paterson Province region and in the same area as Fortescue Metals Group (ASX:FMG), Rio Tinto Limited (ASX:RIO) and Antipa Minerals Limited (ASX:AZY) are all active.

The Paterson Province Project is considered prospective for both Copper and Gold mineralisation.

Current status of the Paterson Province Project

The Company is currently undertaking a strategic review in relation to these assets to maximise shareholder value. This may include further development, joint venture opportunities and/or any other corporate means of maximising shareholder value.

5.5 Business model

The Company is focused on mineral exploration and development.

Following completion of the Public Offer and the Proposed Acquisitions, the Company's main objective will be to explore the South Dakota Project including the Longview and Schad Properties systematically and methodically, with the intention of creating shareholder value. The Company proposes to undertake the exploration program described above and further explained in the Independent Technical Assessment Report in Annexure A.

In relation to its West Australian assets, the Company is currently undertaking a strategic review with the intention of maximising shareholder value. This may include further development of the assets seldom, joint venture opportunities, or any other form of corporate action that is value accretive in nature and that have a strategic fit for the company.

As noted, the Company will continue to pursue other acquisitions and partnerships that have a strategic fit for the Company and that have the potential to deliver growth for Shareholders, including investment in other companies, acquisition of complementary or new projects within the broader mineral space, and/or joint venture opportunities on new or existing projects. The Company will particularly focus to continue to pursue additional acquisitions (including via staking activities) that are complementary to the South Dakota Project (both BLM and Patent).

5.6 Key dependencies of the business model

The key dependencies influencing the viability of the Proposed Acquisitions are:

- (a) completion of the Proposed Acquisitions;
- (b) the Company's capacity to re-comply with Chapters 1 and 2 of the Listing Rules to enable re-admission to quotation of the Company's Securities;
- (c) tenure and access to the Projects;
- (d) commodity price volatility and exchange rate risk;
- (e) ability to meet resource and reserves and exploration targets;
- (f) raising sufficient funds to satisfy expenditure requirements, exploration and operating costs; and
- (g) minimising environmental impact and complying with health and safety requirements.

5.7 Growth strategy

The Company intends to increase Shareholder value as per the vision outlined above, by adopting the following strategies:

- (a) advancing the exploration and evaluation of deposits located within the Projects (where possible) to demonstrate the ability for the Projects to be developed into operating mines;
- (b) in addition to the exploration programs, the Company intends to continue to acquire additional tenure to increase its claim portfolio (both

BLM and Patent) in the South Dakota and neighbouring regions, which may be in the form of staking, acquisition and/or joint venture;

- (c) the Company will also seek to engage with complementary resource companies to evaluate, explore and develop potential projects in the critical/battery minerals space and the base and precious metals space, in capacities that fit the expertise and focus of the Company;
- (d) evaluating and pursuing other prospective opportunities in the resources sector in line with its strategy to develop high quality assets; and
- (e) utilising funds raised from the Public Offer to continue exploration activities on the Projects aimed at the discovery and expansion of JORC Resources and implement low cost mining activities.

5.8 Use of funds

To assist the Company to re-comply with Chapters 1 and 2 of the Listing Rules and to support its strategy post-completion of the Proposed Acquisitions, the Company intends, subject to Shareholder approval, to conduct the Public Offer.

The Company intends to apply funds raised from the Public Offer, together with existing cash reserves, over the first two years following re-admission of the Company to the Official List of ASX as follows:

Funds available	Minimum Subscription (\$) (\$12,000,000)	Percentage of Funds (%)	Maximum Subscription (\$) (\$15,000,000)	Percentage of Funds (%)
Existing cash reserves ¹	201,427	2%	201,427	1%
Funds raised from the Public Offer	12,000,000	98%	15,000,000	99%
Total	12,201,427	100%	15,201,427	100%
Allocation of funds				
Expenditure on South Dakota Project ²	6,823,830	55.9%	6,823,830	44.9%
Expenditure on Existing Projects ³	998,582	8.2%	998,582	6.6%
Re-compliance costs ⁴	1,251,000	10.3%	1,431,000	9.4%
New project identification and acquisitions ⁵	0	0.0%	3,000,000	19.7%
Administrative expenses ⁶	2,922,612	24.0%	2,922,612	19.2%
Working Capital ⁷	205,403	1.7%	25,403	0.2%
Total	12,201,427	100%	15,201,427	100%

Notes:

1. Refer to the announcement dated 31 March 2023 for details of the Initial Raise and application of the funds raised.
2. Refer to Section 5.3 and 5.4 and the Independent Technical Assessment Report in Annexure A for further details with respect to the proposed exploration programs at the Projects.

3. Kookynie, Leonora and Paterson Province budgets are reflective of minimal expenditure until such further time that a corporate decision is made with respect to the future direction of the said projects.
4. Refer to Section 10.10 for further details.
5. The Company intends to continue to look to add complementary assets to its existing portfolio. Specifically, the company's intention is to acquire additional tenure to increase its claim portfolio (Both BLM and Patent) in the South Dakota (and neighbouring) region, which may be in the form of staking, acquisition and/or joint venture). In the event that there are no new opportunities, this money will instead be used as working capital.
6. Administration costs include the general costs associated with the management and operation of the Company's business including administration expenses, management salaries, directors' fees, rent and other associated costs.
7. Working capital provides for additional capital to be used for additional exploration following the planned exploration programs or grant of additional tenements applied for by the Company and investment in new mineral exploration projects not yet identified by the Directors, including due diligence costs incurred in consideration of such projects.

In the event the Company raises more than the Minimum Subscription of \$12,000,000 under the Public Offer but less than the Maximum Subscription, the additional funds raised will be first applied towards the expenses of the Public Offer and then proportionally to the other line items in the above table.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis. As and when further funds are required, either for existing or future developments, the Company will consider raising both additional capital from the issue of Securities and/or from debt funding.

The Current Directors and Proposed Director consider that following completion of the Public Offer, the Company will have sufficient working capital to carry out its stated objectives. It should however be noted that an investment in the Company is speculative and investors are encouraged to read the risk factors outlined in Section 7.

5.9 Group structure (post-Completion)

Upon Completion of the Proposed Acquisitions, the corporate structure of the Company will be as follows:

5.10 Capital structure

The capital structure of the Company following completion of the Proposed Acquisitions and the Offers (assuming both Minimum Subscription and Maximum Subscription under the Offers) is summarised below:

Shares¹

	Minimum Subscription	Maximum Subscription
Shares currently on issue		
Fully paid ordinary shares ²	59,170,000	59,170,000
Shares escrowed until 14/09/2023	36,350,000	36,350,000
Shares escrowed until 15/06/2024	4,000,000	4,000,000
Shares escrowed until 15/08/2023	1,000,000	1,000,000
Shares escrowed until 26/09/2023	60,000	60,000
Shares not yet vested	2,000,000	2,000,000
Shares to be issued pursuant to the Public Offer ^{2,3,4}	12,000,000	15,000,000
Shares to be issued to Jasdak in consideration for Longview ^{3,5,6}	5,500,000	5,500,000
Shares to be issued to Schad Investments in consideration for the Edison Patented Claim ^{3,5}	3,800,000	3,800,000
Shares to be issued to Cody Schad in consideration for the BLM Claims ^{3,5}	200,000	200,000
Total Shares on completion of the Proposed Acquisitions	122,080,000	125,080,000

Notes:

1. The rights attaching to the Shares are summarised in Section 10.3.
2. Including Shares issued under the Initial Capital Raise.
3. The issue of these Shares is subject to Shareholder approval being obtained at the Company's General Meeting to be held on 5 May 2023.

4. An issue of 12,000,000 Shares at an issue price of \$1.00 per Share to raise \$12,000,000 at the Minimum Subscription and up to 15,000,000 Shares at an issue price of \$1.00 per Share to raise up to \$15,000,000 at the Maximum Subscription.
5. Issued pursuant to the Acquisition Agreements, the material terms of which are summarised in Sections 9.2.1 and 9.2.2.

Options

	Minimum Subscription	Maximum Subscription
Options currently on issue		
Unlisted options exercisable at \$1.50 on or before 31/01/25 ¹ (Code: IR1AJ)	750,000	750,000
Unlisted options exercisable at \$1.20 on or before 31/01/26 (Code: IR1AK)	500,000	500,000
Unlisted Options exercisable at \$0.30 on or before 15/09/2024	3,750,000	3,750,000
Unlisted Options exercisable at \$0.30 on or before 15/10/2024	500,000	500,000
Unlisted Options exercisable at \$0.40 on or before 31/07/25	18,500,000	18,500,000
Zero Exercise Price Options	10,000,000	10,000,000
Options to be issued under the Public Offer ²	6,000,000	7,500,000
Options to be issued to Jasdak in consideration for Longview ³	2,500,000	2,750,000
Options to be issued to the Lead Manager under the Public Offer ²	750,000	750,000
Total Options on completion of the Proposed Acquisitions	43,250,000	45,000,000

Notes:

1. Issued to Warratah Electric, a professional investor under the Initial Raise.
2. Exercisable at \$1.50 each on or before the date that is two (2) years from the date of issue.
3. Exercisable at \$1.50 each on or before the date that is three (3) years from the date of issue. If the Prospectus has not been lodged with ASIC in connection with the re-compliance by 30 June 2023, an additional 250,000 Options, exercisable at \$1.50 per option on or before the date that is three (3) years from the date of issue,

Performance rights

	Minimum Subscription	Maximum Subscription
Performance Rights currently on issue ¹	1,000,000	1,000,000
Performance Rights to be issued to the Related Parties ²	11,000,000	11,000,000
Performance Rights to be issued to the Chief	1,000,000	1,000,000

Financial Officer ²		
Total Performance Rights on issue after completion of the Proposed Acquisitions	13,000,000	13,000,000

Notes:

1. Issued to R.L.L. Consulting LLC under a consulting agreement. Refer to Section 10.5.1 for a summary of the terms and conditions of the Performance Rights.
2. Refer to Section 10.5.2 for a summary of the terms and conditions of the Performance Rights.

5.11 Substantial shareholders

Those Shareholders holding 5% or more of the Shares on issue both as at the date of this Prospectus and on completion of the Proposed Acquisitions and the Offers (assuming both Minimum Subscription and Maximum Subscription) are set out in the respective tables below.

As at the date of the Prospectus

Shareholder	Shares	Percentage (%) (undiluted)	Percentage (%) (fully diluted)
Tal Paneth	30,000,000	29.83%	22.29%
Lisa Mochkin ¹	6,500,000	6.46%	4.83%

Notes:

1. Comprising 5,000,000 Shares held by Nasdaq Securities Australia Pty Ltd ATF NASDAQ Securities Aust A/C and 1,500,000 Shares held by Ledger Holdings Pty Ltd ATF Mochkin Family No#2 A/C (accounts controlled by Lisa Mochkin).

On completion of the Proposed Acquisitions and the Offers with Minimum Subscription (assuming no existing substantial Shareholder subscribes and receives additional Shares pursuant to the Public Offer)

Shareholder	Shares	Percentage (%) (undiluted)	Percentage (%) (fully diluted)
Tal Paneth	30,000,000	24.57%	16.82%
Cody Schad ¹	8,000,000	6.55%	4.49%
Lisa Mochkin ²	6,500,000	5.32%	3.64%
BL Family Nominees ATF Bori Liberman A/C ³	6,486,100	5.31%	5.18%

Notes:

1. Comprising 4,200,000 Shares held in his own name and 3,800,000 Shares held by Schad Investments LLC.
2. Comprising 5,000,000 Shares held by Nasdaq Securities Australia Pty Ltd ATF NASDAQ Securities Aust A/C and 1,500,000 Shares held by Ledger Holdings Pty Ltd Mochkin Family No#2 A/C (accounts controlled by Lisa Mochkin).
3. Comprising 986,100 Shares held by BL Family Nominees ATF Bori Liberman A/C and 5,500,000 Shares held by Jasadak.

On completion of the Proposed Acquisitions and the Offers with Maximum Subscription (assuming no existing substantial Shareholder subscribes and receives additional Shares pursuant to the Public Offer)

Shareholder	Shares	Percentage (%) (undiluted)	Percentage (%) (fully diluted)
Tal Paneth	30,000,000	23.98%	16.39%
Cody Schad ¹	8,000,000	6.40%	4.37%
Lisa Mochkin ²	6,500,000	5.20%	3.55%
BL Family Nominees ATF Bori Liberman A/C ³	6,486,100	5.19%	3.54%

Notes:

1. Comprising 4,200,000 Shares held in his own name and 3,800,000 Shares held by Schad Investments LLC.
2. Comprising 5,000,000 Shares held by Nasdaq Securities Australia Pty Ltd ATF NASDAQ Securities Aust A/C and 1,500,000 Shares held by Ledger Holdings Pty Ltd ATF Mochkin Family No#2 A/C (accounts controlled by Lisa Mochkin).
3. Comprising 986,100 Shares held by BL Family Nominees ATF Bori Liberman A/C and 5,500,000 Shares held by Jasdak.

The Company will announce to the ASX details of its top-20 Shareholders following completion of the Public Offer prior to the date of re-admission of the Company to the Official List.

5.12 Additional information

Prospective investors are referred to and encouraged to read in its entirety the Independent Technical Assessment Report in Annexure A for further details about the geology, location and mineral potential of the Company's Projects.

5.13 Dividend policy

For the Company to progress its business model as detailed in Section 5.5, significant funding is likely to be required and therefore the Company currently has no plans to declare any dividends.

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the availability of distributable earnings and the operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Board. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

6. FINANCIAL INFORMATION

6.1 Introduction

The financial information relating to IRIS Metals Limited (the Company) and its controlled entities (together, the Group or the Group) contained in this Section 6 includes:

- (a) The Group's statutory historical financial information for the financial half-year ended 30 September 2022 (HY22) comprising:
 - (i) the reviewed consolidated statement of profit or loss and other comprehensive income for HY22;
 - (ii) the reviewed consolidated statement of financial position as at 30 September 2022; and
 - (iii) the reviewed consolidated cash flow statement for HY22;
- (b) The Group's statutory historical financial information for the financial period 23 December 2020 to 31 March 2021 (FY21) and the financial year ended 31 March 2022 (FY22) comprising:
 - (i) the audited consolidated statements of profit or loss and other comprehensive income for FY21 and FY22;
 - (ii) the audited consolidated statements of financial position for FY21 and FY22; and
 - (iii) the audited consolidated cash flow statements for FY21 and FY22,

(together for the Group, the Historical Financial Information); and
- (c) The Group's pro-forma statement of financial position at 30 September 2022 based on the Offers and Proposed Acquisitions set out in this Prospectus (the Pro Forma Historical Statement of Financial Position),

(the Pro Forma Statement of Financial Position, herein referred to as the Financial Information).

The information in this Section 6 should also be read in conjunction with all other information set out in this Prospectus and in particular, the risk factors detailed in Section 7.

All amounts disclosed in Section 6 are unless otherwise noted, rounded to the nearest Australian dollar. Some numerical figures included in this Prospectus have been subject to rounding adjustments. Any differences between totals and sums of components in figures or tables contained in this Prospectus are due to rounding.

The Company has a 31 March financial year end.

6.2 Basis of preparation and presentation of the financial information

6.2.1 Overview of preparation and presentation of the Historical Financial Information

The Directors are responsible for the preparation and presentation of the Financial Information.

The Financial Information included in this Prospectus is intended to present potential investors with information to assist them in understanding the underlying historical financial performance, cash flow and financial position of IRIS.

Given that IRIS is in an early stage of development, there are significant uncertainties associated with forecasting the future revenues and expenses of the Company. On this basis, the Directors believe that there is no reasonable basis for the inclusion of financial forecasts in the Prospectus.

The Statutory Historical Financial Information has been prepared in accordance with the recognition and measurement principles of Australian equivalents to International Financial Reporting Standards (AIFRS) issued by the Australian Accounting Standards Board. Following the Offers, the Company will continue to report under AIFRS in Australian Dollars, which is its elected presentation currency. The significant accounting policies are described in Section 6.6.7.

The Pro Forma Historical Statement of Financial Position has been prepared in accordance with the recognition and measurement principles of Australian Accounting Standards (AAS) and AIFRS other than it includes certain adjustments which have been prepared in a manner consistent with AAS and AIFRS, that reflect the impact of certain transactions as if they had occurred on or before 30 September 2022.

The Financial Information is presented in an abbreviated form and it does not include all of the presentation and disclosures, statements or comparative information required by AAS and AIFRS and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act.

6.2.2 Basis for inclusion of Historical Financial Information

IRIS was incorporated on 23 December 2020.

The historical financial statements of IRIS Metals Limited for HY22 were reviewed and an unmodified conclusion was issued, with a material uncertainty related to going concern.

The historical financial statements of IRIS Metals Limited for FY21 and FY22 were audited and unqualified audit opinions were issued.

IRIS is the parent entity of the following companies (collectively, the Group):

- Lofasz Pty Ltd;
- BH Exploration Pty Ltd;
- White Rock, L.L.C.; and
- Lotus Minerals, L.L.C.

The Pro Forma Historical Statement of Financial Position reflects a consolidation of IRIS that will comprise the revised Group structure post-completion (refer 5.9).

6.2.3 Limited Assurance Report

The Financial Information has been reviewed by William Buck Audit (Vic) Pty Ltd in accordance with the Australian Standard on Assurance Engagements ASAE 3450: "Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information" as stated in its Independent Limited Assurance Report set out in Annexure D. Investors should note the scope and limitations of the Independent Limited Assurance Report.

6.2.4 Preparation of the Financial Information

The Financial Information has been presented on both a statutory and a pro forma basis.

The Pro Forma Historical Statement of Financial Position has been prepared for the purpose of inclusion in this Prospectus. The Pro Forma Historical Statement of Financial Position has been derived from the reviewed statutory historical consolidated statement of financial position of IRIS Metals Limited and adjusted for the effects of the pro forma adjustments, including the impact of the Offers as if they had occurred as at 30 September 2022.

In preparing the Financial Information, The Company's accounting policies have been consistently applied throughout the periods presented.

Investors should note that past results are not a guarantee of future performance.

Going Concern

The Financial Information has been prepared on a going concern basis, which contemplates continuity of normal business activities and realisation of assets and discharge of liabilities in the normal course of business.

The Directors believe that there are reasonable grounds that IRIS will be able to continue as a going concern as a result of the cash on hand prior to the commencement of the Offer, in addition to proceeds raised from the Offer.

Accordingly, the board of Directors believe that the Company will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the Financial Information.

6.3 Summary of Statutory Historical Statements of Profit or Loss and other Comprehensive Income

The table below sets out the Group's Historical Statement of Profit or Loss and other Comprehensive Income for FY21, FY22 and HY22.

	FY21 Audited \$	FY22 Audited \$	HY22 Reviewed \$
Expenses

Shares to be issued pursuant to the Public Offer	(iii)	12,000,000	15,000,000
Transaction costs of Public Offer	(iv)	(1,251,000)	(1,431,000)
GST impact of transaction costs	(v)	(124,780)	(322,779)
Jasdak reimbursement	(vi)	(724,000)	(724,000)
Total		10,500,220	13,122,221

- (i) *Shares issued under the Pre-emptive Raise* – 1,500,000 ordinary shares issued on 31 January 2023 at an issue price of \$1 per share. The Pre-emptive Raise included the issue of 750,000 options in the Company, being 1 option for every 2 shares subscribed.
- (ii) *Expenses during the period* – costs incurred during the period primarily relating to exploration and evaluation activities in South Dakota. Other cash expenses incurred include professional fees, employee benefits expenses, Directors fees and corporate and administrative costs.
- (iii) *Shares to be issued pursuant to the Public Offer* – proposed placement issuing 12,000,000 (minimum) to 15,000,000 (maximum) ordinary shares at an issue price of \$1 per share. The Public Offer includes the issue of 6,000,000 (minimum) to 7,500,000 (maximum) options in the Company, being 1 option for every 2 shares subscribed.
- (iv) *Transaction costs of Public Offer* – estimated cash costs associated with the capital raising, including broker fees, legal advisory fees, accounting fees, independent expert report fees, ASX fees etc. Refer to 6.6.5 for further details.
- (v) *GST impact of transaction costs* – estimated cash impact of GST charged on costs associated with the capital raising as noted in (iv) above. Reduced income tax credits have been assessed as claimable on certain input taxed financial supplies, however not all GST charged is claimable by the Company.

- (vi) *Jasdak reimbursement* – reimbursement of up to US\$500,000 to Jasdak per the Longview SPA (9.2.1) translated at \$0.6908.

6.6.2 Pro forma issued capital reconciliation

The table below details the reconciliation of the pro-forma capital structure of the Company as at 30 September 2022, reflecting the actual issued capital balance at that date and reflecting the impact of the pro-forma adjustments discussed below.

	Ref	Min raise		Max raise	
		No. of shares	\$	No. of shares	\$
As at 30 September 2022:		97,580,000	12,821,572	97,580,000	12,821,572
Subsequent events:					
Shares issued to Ledger Holdings Pty Ltd	(i)	1,500,000	1,845,000	1,500,000	1,845,000
Shares issued under the Pre-emptive Raise	(ii)	1,500,000	1,500,000	1,500,000	1,500,000
Costs of capital - Options issued to Jett under the Pre-emptive Raise	(iii)	-	(223,345)	-	(223,345)
Issued capital before the Offers and Proposed Acquisitions		100,580,000	15,943,227	100,580,000	15,943,227
Pro forma transactions in relation to the Offers and Proposed Acquisitions					
Shares to be issued to Jasdak in consideration for Longview	(iv)	5,500,000	4,675,000	5,500,000	4,675,000
Shares to be issued to Schad in consideration for the Edison Patented Claim	(v)	3,800,000	3,230,000	3,800,000	3,230,000
Shares to be issued to Cody Schad in consideration for the BLM Claims	(vi)	200,000	170,000	200,000	170,000
Shares to be issued pursuant to the Public Offer	(vii)	12,000,000	12,000,000	15,000,000	15,000,000
Costs of capital - Options to be issued to the Lead Manager under the Public Offer	(viii)	-	(229,767)	-	(229,767)
Costs of capital - Transaction costs of Public Offer	(ix)	-	(780,896)	-	(967,442)
Costs of capital – GST impact of transaction costs	(x)	-	(27,296)	-	(219,385)
Total		122,080,000	34,980,268	125,080,000	37,601,633

- (i) *Shares issued to Ledger Holdings Pty Ltd* – 1,500,000 ordinary shares issued for Business Development Services on 5 October 2022 at a grant date price of \$1.23. Refer to 9.4.2 for further details.
- (ii) *Shares issued under the Pre-emptive Raise* – 1,500,000 ordinary shares issued on 31 January 2023 at an issue price of \$1 per share. The Pre-emptive Raise included the

issue of 750,000 options in the Company, being 1 option for every 2 shares subscribed.

- (iii) *Costs of capital - Options issued to Jett under the Pre-emptive Raise* – relates to options issued to the Lead Manager of the Company, Jett Capital for services provided in connection with the Pre-emptive Raise. These were valued using the Black Scholes valuation model, taking into account the terms and conditions upon which the instruments were granted. These were issued with a grant date of 31 January 2023, exercise price of \$1.20 and a 3 year expiry.
- (iv) *Shares to be issued to Jasdak in consideration for Longview* – 5,500,000 ordinary shares at an issue price of \$1 per share to be issued to Jasdak in connection with the Longview SPA (9.2.1). For accounting purposes, shares have been fair valued at \$0.85 to incorporate the implicit value of the free attaching Options issued in conjunction with the Offer.
- (v) *Shares to be issued to Schad in consideration for the Edison Patented Claim* – 3,800,000 ordinary shares at an issue price of \$1 per share to be issued to Schad Investments, LLC in connection with the Schad HOA (9.2.2). For accounting purposes, shares have been fair valued at \$0.85 to incorporate the implicit value of the free attaching Options issued in conjunction with the Offer.
- (vi) *Shares to be issued to Cody Schad in consideration for the BLM Claims* – 200,000 ordinary shares at an issue price of \$1 per share to be issued to Cody Schad in connection with the Schad HOA (9.2.2). For accounting purposes, shares have been fair valued at \$0.85 to incorporate the implicit value of the free attaching Options issued in conjunction with the Offer.
- (vii) *Shares to be issued pursuant to the Public Offer* – proposed placement issuing 12,000,000 (minimum) to 15,000,000 (maximum) ordinary shares at an issue price of \$1 per share. The Public Offer includes the issue of 6,000,000 (minimum) to 7,500,000 (maximum) options in the Company, being 1 option for every 2 shares subscribed.
- (viii) *Costs of capital - Options to be issued to the Lead Manager under the Public Offer* – relates to 750,000 options issued to the Lead Manager of the Company, Jett Capital for services provided (9.1) in connection with the Public Offer. These were valued using the Black Scholes valuation model, taking into account the terms and conditions upon which the instruments were granted.
- (ix) *Costs of capital - Transaction costs of Public Offer* – estimated costs offset against equity associated with the capital raising, including broker fees, legal advisory fees, accounting fees, independent expert report fees, ASX fees etc. Refer to 6.6.5 for further details.
- (x) *Costs of capital – GST impact of transaction costs* – estimated equity impact of GST charged on costs associated with the capital raising as noted in (ix) above. Reduced income tax credits have been assessed

as claimable on certain input taxed financial supplies, however not all GST charged is claimable by the Company.

6.6.3 Pro forma reserves reconciliation

The table below details the reconciliation of the pro forma costs of capital raise of the Company as at 30 September 2022, reflecting the actual costs of capital at that date and reflecting the impact of the pro-forma adjustments discussed below:

		Min raise	Max raise
	Ref	\$	\$
As at 30 September 2022:		5,138,202	5,138,202
Subsequent events:			
Options issued to Jett under the Pre-emptive Raise	(i)	223,345	223,345
Expensing of options issued in prior periods	(ii)	5,072,840	5,072,840
Reserves before the Offers and Proposed Acquisitions		10,434,387	10,434,387
Pro forma transactions in relation to the Offers and Proposed Acquisitions			
Options to be issued to Jasdak in consideration for Longview	(iii)	1,013,074	1,114,381
Options to be issued to the Lead Manager under the Public Offer	(iv)	229,767	229,767
Total		11,677,228	11,778,535

- (i) *Options issued to Jett under the Pre-emptive Raise* – relates to 500,000 options issued to the Lead Manager of the Company, Jett Capital for services provided in connection with the Pre-emptive Raise. These were valued using the Black Scholes valuation model, taking into account the terms and conditions upon which the instruments were granted. These were issued with a grant date of 31 January 2023, exercise price of \$1.20 and a 3 year expiry.
- (ii) *Expensing of options issued in prior periods* – relates to the expensing of options issued during the financial year throughout the vesting period. None of the options had features that accelerated their initial vesting period as a result of the Offer or Proposed Acquisitions.
- (iii) *Options to be issued to Jasdak in consideration for Longview* – corresponds to the 2,500,000 options issued to Jasdak in connection with the Longview SPA (9.2.1). These were valued using the Black Scholes valuation model, taking into account the terms and conditions upon which the instruments were granted. The maximum subscription amount considers the 250,000 options in the Longview SPA as detailed in 9.2.1, showing the maximum potential options on issue.

- (iv) *Options to be issued to the Lead Manager under the Public Offer* – relates to 750,000 options issued to the Lead Manager of the Company, Jett Capital for services provided in connection with the Public Offer. These were valued using the Black Scholes valuation model, taking into account the terms and conditions upon which the instruments were granted. Refer to 9.1 for further details.

6.6.4 Pro forma accumulated losses reconciliation

The table below details the reconciliation of the pro forma accumulated losses of the Company as at 30 September 2022, reflecting the actual accumulated losses at that date and reflecting the impact of the pro-forma adjustments discussed below:

		Min raise	Max raise
	Ref	\$	\$
As at 30 September 2022:		16,571,309	16,571,309
Subsequent events:			
Shares issued to Ledger Holdings Pty Ltd	(i)	1,845,000	1,845,000
Expenses during the period	(ii)	2,416,243	2,416,243
Expensing of options issued in prior periods	(iii)	5,072,840	5,072,840
Accumulated losses before the Offers and Proposed Acquisitions		25,905,392	25,905,392
Pro forma transactions in relation to the Offers and Proposed Acquisitions			
Shares to be issued to Jasdak in consideration for Longview	(iv)	4,675,000	4,675,000
Options to be issued to Jasdak in consideration for Longview	(v)	1,013,074	1,114,381
Jasdak reimbursement	(vi)	724,000	724,000
Shares to be issued to Schad in consideration for the Edison Patented Claim	(vii)	3,230,000	3,230,000
Shares to be issued to Cody Schad in consideration for the BLM Claims	(viii)	170,000	170,000
Transaction costs of Public Offer	(ix)	470,104	463,558
GST impact of transaction costs	(x)	43,484	35,894
Total		36,231,054	36,318,225

- (i) *Shares issued to Ledger Holdings Pty Ltd* – 1,500,000 ordinary shares issued for Business Development Services on 5 October 2022 at a grant date price of \$1.23. Refer to 9.4.2 for further details.
- (ii) *Expenses during the period* – costs incurred during the period primarily relating to exploration and evaluation activities in South Dakota. Other cash expenses incurred include professional fees, employee benefits

expenses, Directors fees and corporate and administrative costs.

- (iii) *Expensing of options issued in prior periods* – relates to the expensing of options issued during the financial year throughout the vesting period. None of the options had features that accelerated their initial vesting period as a result of the Offer or Proposed Acquisitions.
- (iv) *Shares to be issued to Jasdak in consideration for Longview* – 5,500,000 ordinary shares at an issue price of \$1 per share to be issued to Jasdak in connection with the Longview SPA (9.2.1). For accounting purposes, shares have been fair valued at \$0.85 to incorporate the implicit value of the free attaching Options issued in conjunction with the Offer.
- (v) *Options to be issued to Jasdak in consideration for Longview* – corresponds to the 2,500,000 options issued to Jasdak in connection with the Longview SPA (9.2.1). These were valued using the Black Scholes valuation model, taking into account the terms and conditions upon which the instruments were granted. The maximum subscription amount considers the 250,000 options in the Longview SPA as detailed in 9.2.1.
- (vi) *Jasdak reimbursement* – reimbursement of up to US\$500,000 to Jasdak per the Longview SPA (9.2.1) translated at \$0.6908.
- (vii) *Shares to be issued to Schad in consideration for the Edison Patented Claim* – 3,800,000 ordinary shares at an issue price of \$1 per share to be issued to Schad Investments, LLC in connection with the Schad HOA (9.2.2). For accounting purposes, shares have been fair valued at \$0.85 to incorporate the implicit value of the free attaching Options issued in conjunction with the Offer.
- (viii) *Shares to be issued to Cody Schad in consideration for the BLM Claims* – 200,000 ordinary shares at an issue price of \$1 per share to be issued to Cody Schad in connection with the Schad HOA (9.2.2). For accounting purposes, shares have been fair valued at \$0.85 to incorporate the implicit value of the free attaching Options issued in conjunction with the Offer.
- (ix) *Transaction costs of Public Offer* – estimated costs allocated to the statement of profit or loss associated with the capital raising, including broker fees, legal advisory fees, accounting fees, independent expert report fees, ASX fees etc. Refer to 6.6.5 for further details.
- (x) *GST impact of transaction costs* – estimated profit or loss impact of GST charged on costs associated with the capital raising as noted in (ix) above. Reduced income tax credits have been assessed as claimable on certain input taxed financial supplies, however not all GST charged is claimable by the Company.

6.6.5 Pro forma costs of the Offers

The total cost of the Offers have been estimated to be \$1,251,000 (minimum raise) and \$1,431,000 (maximum raise), GST exclusive. The costs of the Offers will be borne by the Company from the proceeds of the offer.

The estimated costs are as follows:

	Min raise	Max raise
	\$	\$
ASIC fees	3,206	3,206
ASX fees	182,019	183,483
Lead Manager Fees	720,000	900,000
Legal Fees	280,000	280,000
Independent Technical Expert's fees	40,000	40,000
Investigating Accountant's fees	15,000	15,000
Printing, distribution and other miscellaneous fees	10,775	9,311
Total expenses of the offer	1,251,000	1,431,000

With the exception of the Lead Manager fee, which is 100% connected with the issue of new shares, the Offer costs above will be apportioned between equity and the statement of profit or loss (shown as accumulated losses in the pro forma balance sheet). The apportionment is based on the ratio of new shares issued against the total number of shares on issue on completion of the offer.

	Min raise	Max raise
	\$	\$
Equity portion:		
ASIC fees	-	-
ASX fees	-	-
Lead Manager Fees	720,000	900,000
Legal Fees	49,312	54,845
Independent Technical Expert's fees	7,045	7,835
Investigating Accountant's fees	2,642	2,938
Printing, distribution and other miscellaneous fees	1,897	1,824
Total costs of the offer allocated to equity	780,896	967,442
Profit or loss portion:		
ASIC fees	3,206	3,206
ASX fees	182,019	183,483
Lead Manager Fees	-	-
Legal Fees	230,688	225,155
Independent Technical Expert's fees	32,955	32,165
Investigating Accountant's fees	12,358	12,062
Printing, distribution and other miscellaneous fees	8,878	7,487
Total costs of the offer allocated to the statement of profit or loss	470,104	463,558

6.6.6 Contractual obligations, commitments and contingent liabilities

The acquisition of White Rock, L.L.C. in HY22 included a contingent liability through a Net smelter return (NSR) royalty of 1.25% payable to the vendor.

There are no further contractual obligations, commitments or contingent liabilities.

6.6.7 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial information are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated.

Historical cost convention

The financial information has been prepared under the historical cost convention.

Critical accounting estimates

The preparation of the financial information requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial information, are disclosed in '*Critical accounting judgements, estimates and assumptions*' below.

Parent entity information

In accordance with the Corporations Act 2001, the financial information presents the results of the Group only.

Principles of consolidation

The consolidated financial information incorporates the assets and liabilities of all subsidiaries of IRIS Metals Limited.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted

from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial period and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Share-based payments

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees, directors and/or brokers in exchange for the rendering of services.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that

do not determine whether the Group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Exploration and evaluation expenditure

Exploration and evaluation costs are expensed as incurred. Acquisition costs are accumulated in respect of each separate area of interest.

Exploration and evaluation expenditures will be recognised as assets when the activities have reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Critical accounting judgements, estimates and assumptions

The preparation of the financial information requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial information. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Performance rights issued to related parties (10.4.1) and the Chief Financial Officer (10.4.2) have not been included in the pro forma financial information as the vesting period is yet to commence and therefore, no expense is incurred.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and carry-forward losses only if the Group considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Presently the Group has incurred losses from its operations in all tax jurisdictions that may be potentially available to be applied against assessable income in the future. Given the uncertainty as to when or if this occurs, the directors have decided not to recognise any deferred tax assets that may be represented by those losses.

Contingent consideration

A provision has been made for the cash consideration agreed on the sale and purchase of the Mining Property Agreements subscribed with the vendors. The cash consideration is contingent upon the conditions established in each Agreement being met.

Mine rehabilitation provision

The Group has considered whether a provision for rehabilitation of any tenements is required. The directors do not consider that such a provision is necessary due to the fact that rehabilitation is being undertaken on a progressive basis. Whilst the Group is in exploration phase it cannot reliably estimate the scope and costs of rehabilitation work that will need to be undertaken.

Jasdak Reimbursement of Expenditure

A pro forma transaction has been recorded to reflect the reimbursement of USD\$500,000 of historical costs incurred in developing the Longview Properties. The Group are confident that Jasdak will evidence proof of historical expenditure that will entitle them to the Reimbursement Amount.

Initial Public Offering ('IPO') Costs

In connection with the IPO, the Group incurred costs, which are treated as follows:

- Incremental costs that are directly attributable to issuing new shares are deducted from equity (net of any income tax benefit).
- Costs that relate to the ASX listing, or are otherwise not incremental and directly attributable to issuing new shares, are recorded as an expense in the consolidated statement of profit or loss and other comprehensive income.
- Costs that relate to both share issuance and listing are allocated between those functions based on the proportion of new shares issued to the total number of new and existing shares listed.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the reporting periods presented. The directors have assessed that none of these new Standards or Interpretations are unlikely to materially impact the Group in future financial reporting periods.

7. RISK FACTORS

7.1 Introduction

The Securities offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The future performance of the Company and the value of the Shares may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks that have a direct influence on the Company, its Projects and activities are set out in Section 3. Those key risks as well as other risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 7, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 7 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 7, together with all other information contained in this Prospectus.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 7 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

7.2 Company specific risks

Risk Category	Risk
Dilution Risk	The Company currently has 100,580,000 Shares on issue. Pursuant to the Proposed Acquisitions, the Company proposes to issue: (a) 5,500,000 Shares pursuant to the proposed acquisition of Longview; (b) 3,800,000 Shares pursuant to the proposed acquisition of the Edison Patented Claim; and (c) 200,000 Shares pursuant to the proposed acquisition of the BLM Claims. On an undiluted basis, following the issue of the abovementioned securities and assuming the Maximum Subscription under the Public Offer: (a) the existing Shareholders will retain approximately 79% of the Company's issued share capital; and (b) Jasdak, Schad Investments and Cody Schad (the Vendors) will be issued approximately 8% of the Company's issued share capital in aggregate.

Risk Category	Risk
Suspension	As the Company's Shares have been suspended from trading for approximately three months, there is currently no public market for Shares. There is no guarantee that an active trading market in the Company's Shares will develop or that that prices at which Shares trade will increase following completion of the Proposed Acquisitions and the Public Offer. The prices at which Shares trade may be above or below the price of the Public Offer and may fluctuate in response to several factors.
Contractual Risk	The Company's interest in the Longview and Schad Properties is subject to contracts with Jasdak and the Vendors. The ability of the Company to achieve its stated objectives will depend on the performance by the parties of their obligations under these agreements. If the Company is unable to satisfy its undertakings under these agreements the Company's interest in their subject matter may be jeopardised. If any party defaults in the performance of their obligations, it may be necessary for the Company to approach a court to seek a legal remedy, which can be costly.
Tenure and Renewal	Mining and exploration claims and licences are subject to periodic renewal. There is no guarantee that current or future claims or licences or future applications for production claims or licences will be approved. The mineral claims and licences are subject to the applicable mining acts and regulations in the United States, South Dakota and Western Australia. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the claims and licences comprising the Company's Projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.
Rights of Indigenous and First Nations Peoples	In relation to the claims which the Company has an interest in or will in the future acquire such an interest, there may be areas over which certain native title, heritage or cultural rights exist. If rights do exist, the ability of the Company to gain access to the claims (through obtaining consent of any relevant landowner) or to progress from the exploration phase to the development and mining phases of operations may be adversely affected. It is noted that unpatented claims may be located in a part of South Dakota where Native Americans have historically lived and travelled. There are state and federal US laws that protect ancient artifacts and Native American remains. Discovery of such artifacts or remains triggers reporting requirements together with time for officials to assess, protect and remove such artifacts and remains. Care should be taken to comply with legal

Risk Category	Risk
	reporting and damage-avoidance obligations required by law. The National Historic Preservation Act also requires consultation with interested Native American Tribes be conducted by the BLM prior to approving any major federal action or authorisation. This may result in the BLM imposing certain monitoring and/or cultural resource mitigation within the Project areas. The Directors will closely monitor the potential effect of native and heritage/cultural matters involving claims in which the Company has or may have an interest. Please refer to the Independent Technical Assessment Report in Annexure A for further details.
Climate Risk	There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include: (a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and (b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.
Ukraine Conflict	The current evolving conflict between Ukraine and Russia (Ukraine Conflict) is impacting global economic markets. The nature and extent of the effect of the Ukraine Conflict on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine Conflict. The Directors are continuing to closely monitor the potential secondary and tertiary macroeconomic impacts of the unfolding events, including the changing pricing of commodity and energy markets and the potential of cyber activity impacting governments and

Risk Category	Risk
	businesses. Further, any governmental or industry measures taken in response to the Ukraine Conflict, including limitations on travel and changes to import/export restrictions and arrangements involving Russia, may adversely impact the Company's operations and are likely to be beyond the control of the Company. The Company is monitoring the situation closely and considers the impact of the Ukraine Conflict on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.
COVID-19 Risk	While to date COVID-19 has not had any material impact on the Company's operations, supply chain disruptions resulting from the COVID-19 pandemic, labour shortages and measures implemented by governmental authorities around the world to limit the transmission of the virus (such as travel bans and quarantining) may, in addition to the general level of economic uncertainty caused by the COVID-19 pandemic, also adversely impact the Company's operations, financial position and prospects. The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market regarding the impact of the coronavirus on its revenue channels and adverse impact on the Company.
Foreign Jurisdiction Risk – United States Government Regulation	The Company's operating activities will be subject to laws and regulations governing exploration of property, health and worker safety, employment standards, waste disposal, protection of the environment, land and water use, prospecting, taxes, labour standards, occupational health standards, toxic wastes, the protection of endangered and protected species and other matters. While the Company understands that it is in substantial compliance with all material current laws and regulations affecting its activities, future changes in applicable laws, regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned development projects. Where required, obtaining necessary permits and licences can be a complex, time consuming process and the Company cannot be sure whether any necessary permits will be obtainable on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could stop or

Risk Category	Risk
	materially delay or restrict the Company from proceeding with any future exploration or development of its properties. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in interruption or closure of exploration, development or other activities and could result in material fines, penalties or other liabilities. Adverse changes in US government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in the US may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation.

7.3 Industry specific risks

Risk Category	Risk
Exploration Costs	The exploration costs of the Company as summarised in Section 5.8 are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainty, and accordingly, the actual costs may materially differ from the estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely impact the Company's viability.
Resource and Reserves and Exploration Targets	The Company has identified a number of exploration targets based on geological interpretations and limited geophysical data, geochemical sampling and historical drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the Company intends to undertake additional exploratory work with the aim of defining a resource, no assurances can be given that additional exploration will result in the determination of a resource on any of the exploration targets identified. Even if a resource is identified no assurance can be provided that this can be economically extracted. Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.
Grant of future authorisations to explore and mine	If the Company discovers an economically viable mineral deposit that it then intends to develop, it will, among other things, require various approvals, licence and permits

Risk Category	Risk
	before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required approvals, licenses and permits. To the extent that required authorisations are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.
Mine Development	Possible future development of mining operations at the Projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services. If the Company commences production on one of the Projects, its operations may be disrupted by a variety of risks and hazards which are beyond the control of the Company. No assurance can be given that the Company will achieve commercial viability through the development of the Projects. The risks associated with the development of a mine will be considered in full should the Projects reach that stage and will be managed with ongoing consideration of stakeholder interests.
Environmental	The operations and proposed activities of the Company are subject to the relevant local laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws. Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by

Risk Category	Risk
	previous operations or non-compliance with environmental laws or regulations. The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive. Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.
Regulatory Compliance	Regulatory Risks The Company's operating activities are subject to extensive laws and regulations relating to numerous matters including resource licence consent, environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species and other matters. The Company requires permits from regulatory authorities to authorise the Company's operations. These permits relate to exploration, development, production and rehabilitation activities. While the Company believes that it is in substantial compliance with all material current laws and regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned development projects. Obtaining necessary permits can be a time-consuming process and there is a risk that Company will not obtain these permits on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a project or the operation or development of a mine. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of the Company's activities or forfeiture of one or more of the claims.

7.4 General risks

Risk Category	Risk
Reliance on Key Personnel	The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment. The Company's future depends, in part, on its ability to attract and retain key personnel. It may not be able to hire and retain such personnel at compensation levels consistent with its existing compensation and salary structure. Its future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, the inability to continue to attract appropriately qualified personnel could have a material adverse effect on the Company's business.
Additional requirements for Capital	The funds to be raised under the Public Offer are considered sufficient to meet the immediate objectives of the Company. Additional funding may be required in the event costs exceed the Company's estimates and to effectively implement its business and operational plans in the future to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur. If such events occur, additional funding will be required. In addition, should the Company consider that its exploration results justify commencement of production on any of its Projects, additional funding will be required to implement the Company's development plans, the quantum of which remain unknown at the date of this Prospectus. Following completion of the Public Offer, the Company may seek to raise further funds through equity or debt financing, joint ventures, licensing arrangements, or other means. Failure to obtain sufficient financing for the Company's activities may result in delay and indefinite postponement of their activities and the Company's proposed expansion strategy. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing may not be favourable to the Company and might involve substantial dilution to Shareholders.
Economic	General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company, as well as on its ability to fund its operations. If activities cannot be funded, there is a risk that the Projects may have to be surrendered or not renewed. General economic conditions may also affect

Risk Category	Risk
	the value of the Company and its valuation regardless of its actual performance.
Competition Risk	The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.
Market Conditions	Share market conditions may affect the value of the Company's Shares regardless of the Company's operating performance. Share market conditions are affected by many factors such as: (a) general economic outlook; (b) introduction of tax reform or other new legislation; (c) interest rates and inflation rates; (d) changes in investor sentiment toward particular market sectors; (e) the demand for, and supply of, capital; and (f) terrorism or other hostilities. The market price of Shares can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company. Applicants should be aware that there are risks associated with any securities investment. Securities listed on the stock market, and in particular securities of exploration companies experience extreme price and volume fluctuations that have often been unrelated to the operating performance of such companies. These factors may materially affect the market price of the shares regardless of the Company's performance. Further, after the end of the relevant escrow periods affecting Shares in the Company, a significant sale of then tradeable Shares (or the market perception that such a sale might occur) could have an adverse effect on the Company's Share price. Please refer to Section 4.18 for further details on the Shares likely to be classified by the ASX as restricted securities.
Commodity Price and Exchange Rate Risks	The Company's operating results, economic and financial prospects and other factors will affect the trading price of the Shares. In addition, the price of Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to, general economic conditions including the performance of the Australian dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the

Risk Category	Risk
	general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Shares. In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors. As the Company's Shares have been suspended from trading for approximately three months, there is currently no public market for Shares. There is no guarantee that an active trading market in the Company's Shares will develop or that the prices at which Shares trade will increase following Completion of the Proposed Acquisitions and Offers. The prices at which Shares trade may be above or below the price of the Public Offer and may fluctuate in response to a number of factors.
Government Policy Changes	Adverse changes in government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in Western Australia or South Dakota may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation.
Insurance	The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company. Insurance of all risks associated with is the Company's business may not always available and where available the costs can be prohibitive.
Force Majeure	The Company's projects now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.
Taxation	The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences

Risk Category	Risk
	of acquiring Shares from a taxation viewpoint and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.
Litigation Risks	The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, reputation, financial performance and financial position. The Company is not currently engaged in any litigation.

7.5 Investment speculative

The risk factors described above, and other risks factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Shares offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Shares.

Before deciding whether to subscribe for Shares under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

8. BOARD, MANAGEMENT AND CORPORATE GOVERNANCE

8.1 Directors and key personnel

The Board of the Company upon Re-Instatement on the ASX will be as follows:

(a) Simon Lill (BSc, MBA) – *Non-Executive Chair*

Simon is currently the Non-Executive Chair of De Grey Mining Ltd. (ASX:DEG), an ASX 300 gold exploration/development company with 100% ownership of one of Western Australia's largest greenfield discoveries – Hemi/Mallina (9Moz) - in the Pilbara region of Western Australia. Simon has over 35 years' experience in stockbroking, capital raising, management, business development and analysis for a range of small and start-up companies in the manufacturing and resources industries, and has specialised in that time, in company restructuring activities. Simon is also the Non-Executive Chair of Evergreen Lithium Limited (ASX:EG1) and Nimy Resources Limited (ASX:NIM).

The Board considers that Simon Lill is an independent Director.

(b) Peter Marks (BEc, LLB, MBA, GradDip Comm Law) – *Executive Director*

Peter brings over 35 years' experience in corporate advisory, investment banking and director/advisory roles to the Board. He has been involved in a board capacity in publicly listed companies in resources, biotechnology and technology. Peter's corporate skills lie in capital raising for pre-IPO and listed companies, cross border M&A transactions, corporate underwriting, and venture capital transactions for companies in Australia, the United States of America and Israel. Peter is a Non-Executive Director of Noxopharm Limited (ASX:NOX), Alterity Therapeutics Limited (ASX:ATH) and Evergreen Lithium Limited (ASX:EG1). Peter is also a Director of Electriq Global Ltd, an unlisted public company.

The Board considers that Peter Marks is not an independent Director.

(c) Christopher Connell (BSc (Hons), MAIG) – *Executive Director*

Chris is the former Regional Exploration Manager of SolGold Plc and has a successful track record in discovering economic deposits both in Australia and worldwide. He led the exploration team that recently discovered the large 500Mt copper-gold Porvenir project in southern Ecuador. Chris has extensive lithium experience having worked on lithium pegmatite projects in Australia and the USA. Chris is currently a Non-Executive Director of Evergreen Lithium Limited (ASX:EG1).

The Board considers that Christopher Connell is not an independent Director.

(d) Tal Paneth (BComm) – *Non-Executive Director*

Tal has over a decade of multidisciplinary business experience including exposure to the diverse facets of the equity and debt markets. Tal specialises in identifying strategic mineral projects, financing, and project management. Tal is currently an Executive Director of however as part of the re-compliance, Tal will be transitioning to a Non-Executive Director role. Tal is currently a Non-Executive Director of Evergreen Lithium Limited (ASX:EG1).

The Board considers that Tal Paneth is not an independent Director.

- (e) Bruce Smith (MSc(geol), MEng (water & environment)) – *Non-Executive Director*

Bruce Smith is a professional geologist and has been exploring for 28 years in Australasia, Africa, Asia-Pacific, Europe, North and South America. He has experience in all phases of exploration from grass roots identification and staking to resource definition, feasibility studies and mining. He has senior management experience with public companies, as CEO, President, Director, Exploration Manager and has participated in and led exploration teams to multiple precious and base metal discoveries in Mexico, Guinea, Guatemala, Nicaragua and Argentina. Bruce is a Member of the Australian Institute of Geoscientists, with B.Sc. and M.Sc. degrees in Geology from Otago University, New Zealand and Master of Engineering in Water and Environmental Resource Management, from the IHE Delft, Netherlands.

The Board considers that Bruce Smith will be an independent Director.

The Board is satisfied that the proposed composition of the Board represents an appropriate range of experience, qualifications and skills.

Key management

Damien Henderson – *Chief Financial Officer*

Damien Henderson is a senior finance professional who has had over 25 years in the resource industry experience, both in Australia and overseas. This experience has included most aspects of the mining industry including exploration, feasibility, construction, production and processing. Mr Henderson's international experience has been gained through working in the UK, Papua New Guinea, Ghana, Mongolia, Indonesia and the USA. He is a Fellow Certified Practising Accountant (FCPA) who holds a Bachelor of Business (Accounting) degree from the University of Southern Queensland, and is also an Affiliated Member of the Governance Institute of Australia. Mr Henderson has been involved in senior executive roles for a number of international mining companies in Australia, Asia and Africa including SolGold PLC, Bayan Resources tbk, Rio Tinto, Placer Dome (now Barrick Gold), and Peabody Winsway amongst others.

David Franks – *Company Secretary*

David is a Fellow of the Governance Institute of Australia, Fellow of the Financial Services Institute of Australasia and a Chartered Accountant with over 25 years' experience in company secretarial, governance, finance and accounting.

The Company is aware of the need to have sufficient management to properly supervise its operations and the Company has, or will in the future have, an interest and the Board will continually monitor the management roles in the Company. As the Company's exploration and development activities and overall operations require an increased level of involvement the Board will look to appoint additional management and/or consultants when and where appropriate.

8.2 Disclosure of interests

Remuneration

Details of the Directors' and Proposed Director's remuneration are set out in the table below:

Director	Remuneration for the year ended 31 March 2021 ¹	Remuneration for the year ended 31 March 2022	Proposed remuneration for year ending 31 March 2023
Directors			
Peter Marks	\$41,062	\$222,688	\$165,563 ²
Simon Lill	\$16,425	\$66,075	\$ 66,225 ³
Christopher Connell	\$177,700	\$159,800	\$297,009 ⁴
Tal Paneth	\$106,762	\$165,188	\$135,000 ⁵
Bruce Smith ⁶	Nil ⁶	Nil ⁶	\$9,904 ⁷

Notes:

- From 23 December 2020 to 31 March 2021. The consolidated entity was incorporated on 23 December 2020 therefore, the comparative period is from incorporation date to 31 March 2021.
- Comprising Directors' fees/salary of \$150,000 and superannuation payments of \$15,563.
- Comprising Directors' fees/salary of \$60,000 and superannuation payments of \$6,225.
- Comprising Directors' fees/salary of \$199,497, superannuation payments of \$19,687 and consulting fees for geological work of \$77,825.
- Comprising Directors' fees/salary of \$122,172 and superannuation payments of \$12,828.
- Proposed Director to be appointed at or prior to Re-Instatement.
- Comprising consulting fees of \$9,904.

Interests in securities

As at the date of this prospectus

Directors are not required under the Company's Constitution to hold any Shares to be eligible to act as a director. As at the date of this Prospectus, the Current Directors have relevant interests in securities as follows:

Director	Shares	Options	Performance Rights	Percentage (%) (Undiluted)	Percentage (%) (Fully Diluted)
Tal Paneth	30,000,000	Nil	Nil	30.28%	22.59%
Simon Lill	4,250,000 ¹	Nil	Nil	4.29%	3.20%
Peter Marks	2,500,000 ²	2,000,000 ³	Nil	2.52%	3.39%
Christopher Connell	250,000 ⁴	6,250,000 ⁵	Nil	0.25%	4.89%
Bruce Smith	155,000	Nil	Nil	0.16%	0.12%

Notes:

1. Comprising 3,500,000 founder Shares acquired for \$10,973; 500,000 Shares purchased in a pre-IPO seed raising round at \$0.10 per Share; and 250,000 Shares acquired at IPO at \$0.20 per Share.
2. Comprising 300,000 Shares purchased in a pre-IPO seed raising round at \$0.10 per Share, held indirectly by Shanti Capital Pty Ltd ATF P Marks Superfund A/C, to which Mr Marks is a beneficiary and 2,200,000 founder Shares acquired for \$6,897 held directly by Mr Marks.
3. Incentive Options issued for nil consideration as approved by Shareholders at the 30 August 2022 annual general meeting (AGM).
4. Held indirectly by Christopher Connell ATF Joue De Fesse A/C, to which Mr Connell is trustee and beneficiary. The Shares were issued in lieu of services.
5. Comprising 5,000,000 unlisted Options with nil exercise price, exercisable on or before 30 July 2025 and 1,250,000 Options exercisable at \$0.30 each on or before 15 September 2024, held directly by Mr Connell. The 5,000,000 unlisted Options were issued to Christopher Connell under his executive services agreement and approved by Shareholders at the Company's AGM. The 1,250,000 Options were issued in connection with his appointment as a Director.

Post-completion of the Proposed Acquisitions and the Offers – Minimum Subscription

Director	Shares	Options	Performance Rights	Percentage (%) (Undiluted)	Percentage (%) (Fully Diluted)
Tal Paneth	30,000,000	Nil	Nil	24.57%	16.82%
Simon Lill	4,250,000 ¹	Nil	1,500,000	3.48%	3.22%
Peter Marks	2,500,000 ²	2,000,000 ³	3,500,000	2.05%	4.49%
Christopher Connell	250,000 ⁴	6,250,000 ⁵	5,000,000	0.20%	6.45%
Bruce Smith	155,000	Nil	1,000,000	0.13%	0.65%

Notes:

1. Comprising 3,500,000 founder Shares acquired for \$10,973; 500,000 Shares purchased in a pre-IPO seed raising round at \$0.10 per Share; and 250,000 Shares acquired at IPO at \$0.20 per Share.
2. Comprising 300,000 Shares purchased in a pre-IPO seed raising round at \$0.10 per Share, held indirectly by Shanti Capital Pty Ltd ATF P Marks Superfund A/C, to which Mr Marks is a beneficiary and 2,200,000 founder Shares acquired for \$6,897 held directly by Mr Marks.

5. Comprising 5,000,000 unlisted options with nil exercise price, exercisable on or before 30 July 2025 and 1,250,000 Options exercisable at \$0.30 each on or before 15 September 2024, held directly by Mr Connell. The 5,000,000 unlisted Options were issued to Christopher Connell under his executive services agreement and approved by Shareholders at the Company's AGM. The 1,250,000 Options were issued in connection with his appointment as a Director.

The Company's constitution provides that the remuneration of non-executive Directors will be not more than the aggregate fixed sum determined by a general meeting. The aggregate remuneration for non-executive Directors is currently \$250,000 per annum, although the Company is seeking approval at General Meeting to increase the aggregate remuneration to \$400,000 per annum.

The remuneration of any executive director that may be appointed to the Board will be fixed by the Board and may be paid by way of fixed salary or consultancy fee.

8.3 Agreements with directors and related parties

The Company's policy in respect of related party arrangements is:

- (a) a Director with a material personal interest in a matter is required to give notice to the other Directors before such a matter is considered by the Board; and
- (b) for the Board to consider such a matter, the Director who has a material personal interest is not present while the matter is being considered at the meeting and does not vote on the matter.

The agreements between the Company and related parties are summarised in Section 9.3.

8.4 Corporate governance

(a) ASX Corporate Governance Council Principles and Recommendations

The Company has adopted comprehensive systems of control and accountability as the basis for the administration of corporate governance. The Board is committed to administering the policies and procedures with openness and integrity, pursuing the true spirit of corporate governance commensurate with the Company's needs.

To the extent applicable, the Company has adopted *The Corporate Governance Principles and Recommendations (4th Edition)* as published by ASX Corporate Governance Council (Recommendations).

In light of the Company's size and nature, the Board considers that the current board is a cost effective and practical method of directing and managing the Company. As the Company's activities develop in size, nature and scope, the size of the Board and the implementation of additional corporate governance policies and structures will be reviewed.

The Company's main corporate governance policies and practices as at the date of this Prospectus are outlined below and the Company's full Corporate Governance Plan is available in a dedicated corporate governance information section of the Company's website www.irismetals.com.

(b) Board of directors

The Board is responsible for corporate governance of the Company. The Board develops strategies for the Company, reviews strategic objectives and monitors performance against those objectives. The goals of the corporate governance processes are to:

- (i) maintain and increase Shareholder value;
- (ii) ensure a prudential and ethical basis for the Company's conduct and activities consistent with the Company's stated values; and
- (iii) ensure compliance with the Company's legal and regulatory objectives.

Consistent with these goals, the Board assumes the following responsibilities:

- (i) leading and setting the strategic direction, values and objectives of the Company;
- (ii) appointing the Chair of the Board, Managing Director or Chief Executive Officer and approving the appointment of senior executives and the Company Secretary;
- (iii) overseeing the implementation of the Company's strategic objectives, values, code of conduct and performance generally;
- (iv) approving operating budgets, major capital expenditure and significant acquisitions and divestitures;

- (v) overseeing the integrity of the Company's accounting and corporate reporting systems, including any external audit (satisfying itself financial statements released to the market fairly and accurately reflect the Company's financial position and performance);
- (vi) establishing procedures for verifying the integrity of those periodic reports which are not audited or reviewed by an external auditor, to ensure that each periodic report is materially accurate, balanced and provides investors with appropriate information to make informed investment decisions;
- (vii) overseeing the Company's procedures and processes for making timely and balanced disclosure of all material information that a reasonable person would expect to have a material effect on the price or value of the Company's securities;
- (viii) reviewing, ratifying and monitoring the effectiveness of the Company's risk management framework, corporate governance policies and systems designed to ensure legal compliance; and
- (ix) approving the Company's remuneration framework.

The Company is committed to the circulation of relevant materials to Directors in a timely manner to facilitate Directors' participation in the Board discussions on a fully-informed basis.

(c) Composition of the board

Election of Board members is substantially the province of the Shareholders in general meeting, subject to the following:

- (i) membership of the Board of Directors will be reviewed regularly to ensure the mix of skills and expertise is appropriate; and
- (ii) the composition of the Board has been structured so as to provide the Company with an adequate mix of directors with industry knowledge, technical, commercial and financial skills together with integrity and judgment considered necessary to represent Shareholders and fulfil the business objectives and values of the Company as well as to deal with new and emerging business and governance issues.

Following completion of the Proposed Acquisitions, the Board will consist of five Directors (three non-executive Directors and two executive Director) of whom Messers Lill and Smith are considered independent. The Board considers the current balance of skills and expertise to be appropriate given the Company for its currently planned level of activity.

To assist in evaluating the appropriateness of the Board's mix of qualifications, experience and expertise, the Board intends to maintain a Board Skills Matrix to ensure that the Board has the skills to discharge its obligations effectively and to add value.

The Board undertakes appropriate checks before appointing a person as a Director or putting forward to Shareholders a candidate for election as a Director or senior executive.

The Board ensures that Shareholders are provided with all material information in the Board's possession relevant to a decision on whether or not to elect or re-elect a Director.

The Company shall develop and implement a formal induction program for Directors, which is tailored to their existing skills, knowledge and experience. The purpose of this program is to allow new directors to participate fully and actively in Board decision-making at the earliest opportunity, and to enable new directors to gain an understanding of the Company's policies and procedures.

The Board maintains oversight and responsibility for the Company's continual monitoring of its diversity practices. The Company's Diversity Policy provides a framework for the Company to achieve enhanced recruitment practices whereby the best person for the job is employed, which requires the consideration of a broad and diverse pool of talent.

(d) Identification and management of risk

The Board's collective experience will enable accurate identification of the principal risks that may affect the Company's business. Key operational risks and their management will be recurring items for deliberation at Board meetings.

(e) Ethical standards

The Board is committed to the establishment and maintenance of appropriate ethical standards and to conducting all of the Company's business activities fairly, honestly with integrity, and in compliance with all applicable laws, rules and regulations. In particular, the Company and the Board are committed to preventing any form of bribery or corruption and to upholding all laws relevant to these issues as set out in the Company's Anti-Bribery and Anti-Corruption Policy. In addition, the Company encourages reporting of actual and suspected violations of the Company's Code of Conduct or other instances of illegal, unethical or improper conduct. The Company and the Board provide effective protection from victimisation or dismissal to those reporting such conduct as set out in its Whistleblower Protection Policy.

(f) Independent professional advice

Subject to the Chair's approval (not to be unreasonably withheld), the Directors, at the Company's expense, may obtain independent professional advice on issues arising in the course of their duties.

(g) Remuneration arrangements

The remuneration of an executive Director will be decided by the Board, without the affected executive Director participating in that decision-making process.

In accordance with the Constitution, the total maximum remuneration of non-executive Directors is initially set by the Board and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective

contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$250,000 per annum.

In addition, a Director may be paid fees or other amounts for example, and subject to any necessary Shareholder approval, non-cash performance incentives such as Options) as the Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director.

Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in the performance of their duties as Directors.

The Board reviews and approves the remuneration policy to enable the Company to attract and retain executives and Directors who will create value for Shareholders having regard to the amount considered to be commensurate for a company of its size and level of activity as well as the relevant Directors' time, commitment and responsibility. The Board is also responsible for reviewing any employee incentive and equity-based plans including the appropriateness of performance hurdles and total payments proposed.

(h) Trading policy

The Board has adopted a policy that sets out the guidelines on the sale and purchase of securities in the Company by its key management personnel (i.e. Directors and, if applicable, any employees reporting directly to the managing director). The policy generally provides that, the written acknowledgement of the Chair (or the Board in the case of the Chair) must be obtained prior to trading.

(i) External audit

The Company in general meetings is responsible for the appointment of the external auditors of the Company. From time to time, the Board will review the scope, performance and fees of those external auditors.

(j) Audit committee

The Company will not have a separate audit committee until such time as the Board is of a sufficient size and structure, and the Company's operations are of a sufficient magnitude for a separate committee to be of benefit to the Company. In the meantime, the full Board will carry out the duties that would ordinarily be assigned to that committee under the written terms of reference for that committee, including but not limited to:

- (i) monitoring and reviewing any matters of significance affecting financial reporting and compliance;
- (ii) verifying the integrity of those periodic reports which are not audited or reviewed by an external auditor;
- (iii) monitoring and reviewing the Company's internal audit and financial control system, risk management systems; and
- (iv) management of the Company's relationships with external auditors.

(k) Diversity policy

The Company is committed to workplace diversity. The Company is committed to inclusion at all levels of the organisation, regardless of gender, marital or family status, sexual orientation, gender identity, age, disabilities, ethnicity, religious beliefs, cultural background, socio-economic background, perspective and experience.

The Board has adopted a diversity policy which provides a framework for the Company to achieve, amongst other things, a diverse and skilled workforce, a workplace culture characterised by inclusive practices and behaviours for the benefit of all staff, improved employment and career development opportunities for women and a work environment that values and utilises the contributions of employees with diverse backgrounds, experiences and perspectives.

(l) Departures from recommendations

Under the ASX Listing Rules the Company will be required to provide a statement in its annual financial report or on its website disclosing the extent to which it has followed the Recommendations during each reporting period. Where the Company has not followed a Recommendation, it must identify the Recommendation that has not been followed and give reasons for not following it.

The Company's compliance and departures from the Recommendations will also be announced prior to Re-Instatement to the Official List of the ASX.

9. MATERIAL CONTRACTS

Set out below is a brief summary of the certain contracts to which the Company is a party and which the Directors have identified as material to the Company or are of such a nature that an investor may wish to have details of particulars of them when making an assessment of whether to apply for Shares.

To fully understand all rights and obligations of a material contract, it would be necessary to review it in full and these summaries should be read in this light.

9.1 Lead Manager Mandate

The Company has signed a mandate letter to engage Jett Capital Advisors, LLC to act as lead manager to the Public Offer (Lead Manager Mandate). The material terms and conditions of which are summarised below:

Scope of Work/Services	The Lead Manager agreed to act as lead manager to the Public Offer.
Fees	Under the terms of the Lead Manager Mandate the Company agreed to pay the Lead Manager: (a) a 2% management fee of the total amount raised under the Public Offer; (b) a 4% selling fee of the total amount raised under the Public Offer; and (c) subject to Shareholder approval, 750,000 options exercisable at \$1.50 each on or before the date that is two (2) years from the date of issue. For funds raised under the Chair's list, including the Priority Offer, the Lead Manager will only receive the management fee.
Expenses	The Company agreed to reimburse the Lead Manager all reasonable out-of-pocket expenses incurred in connection with the Public Offer with any expense in excess of US\$1,000 requiring prior written approval from the Company.
Termination	(a) Prior to lodgement of the Prospectus, the Lead Manager Mandate may be terminated by mutual agreement of the Company and the Lead Manager. (b) Post lodgement of the Prospectus, the Lead Manager Mandate may be terminated by the Company.
Right of First Refusal	The Company agreed to grant the Lead Manager the right to act as lead manager in respect of any subsequent capital raising conducted by the Company within six (6) months from the completion of the Public Offer.

The Lead Manager Mandate otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.2 Acquisition Agreements

9.2.1 Longview SPA

The Company has entered into a share purchase agreement with Jasdak, the material terms and conditions of which are summarised below:

Acquisition	Jasdak has agreed to sell and the Company has agreed to acquire 100% of the shares in the capital of Longview, free from all encumbrances (the Longview Shares) (Longview Acquisition).
Consideration	In consideration for the Acquisition, the Company agreed to, at Completion, issue Jasdak: (a) 5,500,000 Shares; (b) 2,500,000 Options exercisable at \$1.50 each on or before the date that is three (3) years from the date of issue; and (c) if the Prospectus has not been lodged with ASIC by 30 June 2023, an additional 250,000 Options, exercisable at \$1.50 each on or before the date that is three (3) years from the date of issue. This further issue of Options provides Iris with the ability to extend the date by which any reimbursements need to be made by a further 60 days.
Reimbursement of Expenditure	(a) In addition to the consideration above, subject to the Jasdak providing evidence of historical expenditure incurred in developing the Longview Properties (to the reasonable satisfaction of the Company and in accordance with the requirements of the ASX Listing Rules), the Company agrees and guarantees to pay Jasdak up to US\$500,000 in cash (Reimbursement Amount) as a reimbursement of prior expenditure incurred by Jasdak and/or Longview in developing the Longview Properties. (b) The Company agreed to pay the Reimbursement Amount to Jasdak immediately upon the earlier of: (i) the Company's successful re-instatement to the Official List of the ASX which includes completion of the Public Offer; (ii) 120 days from the completion of the acquisition of Longview by the Company; or (iii) such other date as is mutually agreed between the parties.
Condition Precedent	Settlement of the Longview Acquisition is subject to and conditional on the following condition precedent (Condition Precedent) being satisfied (or waived by mutual agreement of the parties): the Company obtaining all necessary shareholder approvals required to lawfully complete the Longview Acquisition, the issue of the Longview Consideration Securities, in each case as required by the Corporations Act and its Constitution.

	The Condition Precedent may only be waived by the written mutual agreement of the parties. If the Condition Precedent are not satisfied or waived by IRIS on or before 5.00 pm (WST) on 30 June 2023, or such longer period as is mutually agreed in order to satisfy any remaining ASX or other requirements (End Date), then either IRIS or Jasdak may terminate the Longview SPA by notice in writing to the other party, in which case the agreement constituted by the Longview SPA shall be deemed to be at an end and of no force or effect with none of the parties being subject to any of the obligations contained in the Longview SPA and with no party claiming any rights at law or equity against the other parties, save for the performance of those covenants and agreements (if any) which should have been performed and all damages for breach of the same. The parties agreed to use their best endeavours to satisfy the Condition Precedent on or before the End Date. Each party agreed to provide all reasonable assistance to the other parties as is necessary to satisfy the Condition Precedent. Each party agreed to keep the other party informed as to the status of the Condition Precedent on a regular basis, including notifying the other party if any Condition Precedent is satisfied, is unable to be satisfied by the End Date, or if a party considers, acting reasonably, that the Condition Precedent is unlikely to be satisfied by the End Date. Notwithstanding the above, a party may not terminate the Longview SPA where it is in breach of its obligation to use its best endeavours to satisfy the Conditions Precedent on or before the End Date.
Completion	Completion of the Longview Acquisition will occur on that date which is five (5) business days after the satisfaction or waiver of the last of the Condition Precedent.

The Longview SPA otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.2.2 Schad HOA

The Company has entered into a binding heads of agreement with Cody Schad and Schad Investments, the material terms and conditions of which are summarised below:

Acquisition	The Company agreed to acquire, and the Schad Vendors agreed to sell all of their rights, title and interest in: (a) the property at 13280 & 13272 Greyhound Gulch Road, Keystone South Dakota 57751 USA; (b) the BLM Claims; (c) all associated technical information in their possession or control (including (without limitation) geological, geochemical and geophysical reports, surveys, mosaics, aerial photographs, samples, drill core, drill logs, drill pulp, assay results, maps and plans, whether

	in physical, written or electronic form) relating to the Schad Properties (Mining Information); and (d) statutory licences, approvals, consents, authorisations, rights or permits relating to the Schad Properties issued by any government agency, in so far as they may be transferred by the Vendors, (the Schad Acquisition).
Consideration	In consideration for the Schad Acquisition, the Company agreed to issue: (a) 3,800,000 Shares to Schad Investments; and (b) 200,000 Shares to Cody Schad, in consideration for the Schad Acquisition.
Royalty	(a) In addition to the consideration above, the Company agrees to grant the Vendors a royalty of up to 1.25% of the net smelter returns from the sale or other disposal of mineral products derived from the area within the boundaries of the Schad Properties and the BLM Claims (Royalty). (b) The Royalty is to be documented in a royalty deed to be entered into by the parties (Royalty Deed).
Conditions Precedent	Completion of the Schad Acquisition is conditional upon the satisfaction (or waiver by the Company) of the following conditions precedent: (a) Shareholder approval: the Company's Shareholders approving the Schad Acquisition at the General Meeting; (b) Regulatory approvals: the parties obtaining all necessary regulatory approvals or waivers pursuant to the ASX Listing Rules, Corporations Act or any other law to allow the parties to lawfully complete the Schad Acquisition; and (c) Third party approvals: the parties obtaining all third party approvals and consents, necessary to lawfully complete the Schad Acquisition; (together, the Conditions Precedent). If the Conditions Precedent are not satisfied (or waived by the party with the benefit of the Condition Precedent) on or before 5:00pm (AEST) on that date that is four (4) months following the date of the Schad HOA (or such date as the parties may agree) (End Date), then any party may terminate the Schad HOA by notice in writing to the other party, in which case the agreement constituted by the Schad HOA will be at an end and the parties will be released from their obligations under the Schad HOA (other than in respect of any breaches that occurred prior to termination). The parties agreed to use their best efforts to ensure that the Conditions Precedent are satisfied before the End Date.
Completion	Completion of the Schad Acquisition will occur on that date which is five (5) business days after the satisfaction or waiver of the last of the Conditions Precedent.

The Schad HOA otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.3 Agreements with directors

9.3.1 Peter Marks – Executive Services Agreement

The Company has entered into an executive services agreement with Lampam Pty Ltd (ACN 006 457 576) (Lampam) and Peter Marks, under which Lampam will procure that Mr Marks act as an Executive Director of the Company (Marks ESA). The material terms and conditions of which are summarised below:

Term	The Marks ESA commenced on 23 December 2020 and will continue until terminated in accordance with the terms of the Marks ESA.
Remuneration	The Company has agreed to pay Lampam \$150,000 per annum (plus superannuation of the greater of 9.5% or the statutory minimum). The remuneration above encompasses all amounts payable to Mr Marks in performance of his role as Executive Director.
Termination	Termination by the Company The Marks ESA may be terminated by the Company with immediate effect by the Company giving written notice to Lampam if Lampam or Mr Marks: (a) in the reasonable opinion of the Company, commits an act of wilful dishonesty, fraud, wilful disobedience, or gross misconduct, or makes any false representation to the Company, and which acts or representations have a material detrimental effect on the Company; (b) voluntarily resigns as a director of the Company or is removed as a Director of the Company by Shareholders; (c) is prohibited by law from acting as a director of any company; (d) becomes insolvent and/or is convicted of any criminal offence involving fraud or dishonesty; (e) becomes bankrupt or makes any arrangement or composition with his creditors; (f) in the reasonable opinion of the Company, becomes unable to perform their duties or becomes of unsound mind; or (g) in the reasonable opinion of the Company, wilfully refuses or neglects to comply with any lawful and reasonable direction or order given to them by the Board and after receipt of prior notice, has failed to rectify within fourteen (14) days. Termination with notice The Marks ESA may be terminated by the Company or Lampam by providing three (3) months' notice to the other party.

The Marks ESA otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.3.2 Christopher Connell - Executive Services Agreement

The Company has entered into an executive services agreement with Christopher Connell, pursuant to which Christopher Connell has been appointed as an Executive Director of the Company (Connell ESA). The material terms and conditions of which are summarised below:

Term	The Connell ESA will continue until terminated in accordance with the terms of the Connell ESA.
Remuneration	The Company agreed to pay Mr Connell a base salary of \$250,000 per annum (plus superannuation up to the maximum statutory superannuation contribution) (Salary).
Options	Subject to receipt of shareholder approval, the Company agreed to issue Mr Connell: (a) 1,500,000 zero exercise price options (ZEPOs) vesting upon 12 months of service; (b) 1,500,000 ZEPOs vesting upon 24 months of service; and (c) 2,000,000 ZEPOs vesting upon 36 months of service.
Performance Based Bonuses	The Company may, at any time during the Term, pay to Mr Connell a performance-based bonus over and above the Salary, taking into consideration the key performance indicators of Mr Connell and the Company, and any other matter that it deems appropriate.
Termination by the Company	Termination with reason The Company may, at its sole discretion, terminate Mr Connell's employment: (a) by giving not less than one (1) month's written notice if at any time Mr Connell: (i) is or becomes incapacitated by illness or injury which prevents him from performing duties under the Connell ESA for a period of two (2) consecutive months or any periods aggregating two (2) months in any period of 12 months during the Term; or (ii) is or becomes of unsound mind or under the control of any committee or officer under any law relating to mental health; (b) by giving one (1) month's written notice if at any time Mr Connell: (i) commits a serious or persistent breach of the Connell ESA and the breach is not remedied within 14 days of the receipt of written notice from the Company to Mr Connell to do so;

	(ii) in the reasonable opinion of the Board, is absent in, or demonstrates incompetence with regard to the performance of his duties under the Connell ESA, or is neglectful of any duties under the Connell ESA or otherwise does not perform his duties in a satisfactory manner, provided that he has been counselled on at least three occasions of the specific matters and has been provided with a reasonable opportunity of at least a month to remedy the specific matters; (iii) commits or becomes guilty of any gross misconduct; (iv) refuses or neglects to comply with any lawful reasonable direction or order given to him by the Company which, after receipt of prior notice, he has failed to rectify to the reasonable satisfaction of the Company within 21 business days of receipt of that notice; or (c) without notice, if at any time Mr Connell: (i) is convicted of any major criminal offence which brings the Company into lasting disrepute, by giving notice effective immediately; or (ii) discloses, communicates, uses or misuses price sensitive information without the prior written consent of the Board. Termination without reason The Company may, at its sole discretion, terminate the Mr Connell's employment by giving three (3) months' written notice to Mr Connell and, at the end of that notice period, making a payment to Mr Connell equal to the Salary payable over a three (3) month period.
Termination by Mr Connell	Mr Connell may, at his sole discretion, terminate his employment with the Company: (a) if at any time the Company commits any serious or persistent breach of any of the provisions contained in the Connell ESA and the breach is not remedied within 28 days of receipt of written notice from Mr Connell to the Company to do so, by giving notice effective immediately; or (b) by giving three (3) months' written notice to the Company.

The Connell ESA otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.3.3 Tal Paneth - Executive Services Agreement

The Company has entered into an executive services agreement with Talpan 2 Pty Ltd (ACN 623 270 940) (Talpan) and Tal Paneth, under which Talpan will procure that Mr Paneth act as an Executive Director of the Company (Paneth ESA). The material terms and conditions of which are summarised below:

Term	The Paneth ESA commenced on 1 February 2021 and will continue until terminated in accordance with the terms of the Paneth ESA.
Remuneration	The Company has agreed to pay Talpan \$150,000 per annum (plus superannuation of the greater of 9.5% or the statutory minimum). The remuneration above encompasses all amounts payable to Mr Paneth in performance of his role as Executive Director.
Termination	Termination by the Company The Paneth ESA may be terminated by the Company with immediate effect by the Company giving written notice to Talpan if Talpan or Mr Paneth: (a) in the reasonable opinion of the Company, commits an act of wilful dishonesty, fraud, wilful disobedience, or gross misconduct, or makes any false representation to the Company, and which acts or representations have a material detrimental effect on the Company; (b) voluntarily resigns as a director of the Company or is removed as a Director of the Company by Shareholders; (c) is prohibited by law from acting as a director of any company; (d) becomes insolvent and/or is convicted of any criminal offence involving fraud or dishonesty; (e) becomes bankrupt or makes any arrangement or composition with his creditors; (f) in the reasonable opinion of the Company, becomes unable to perform their duties or becomes of unsound mind; or (g) in the reasonable opinion of the Company, wilfully refuses or neglects to comply with any lawful and reasonable direction or order given to them by the Board and after receipt of prior notice, has failed to rectify within fourteen (14) days. Termination with notice The Paneth ESA may be terminated by the Company or Talpan by providing three (3) months' notice to the other party.

The Paneth ESA otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

As noted above, upon completion of the Proposed Acquisitions and successful re-listing of the Company on the Official List of the ASX, Tal Paneth will transition to a Non-Executive Director role, and the existing Paneth ESA will be replaced with a new Non-Executive Director appointment and management services agreement.

9.3.4 Non-executive director appointments

Simon Lill has entered into an appointment letter with the Company to act in the capacity of Non-Executive Chair.

Bruce Smith and Tal Paneth have entered into an appointment letter with the Company to act in the capacity of Non-Executive Director.

These Directors will receive the remuneration set out in Section 8.2.

9.3.5 Deeds of indemnity, insurance and access

The Company has entered into a deed of indemnity, insurance and access with each of its Directors and Proposed Director. Under these deeds, the Company will agree to indemnify each officer to the extent permitted by the Corporations Act against any liability arising as a result of the officer acting as an officer of the Company. The Company will also be required to maintain insurance policies for the benefit of the relevant officer and allow the officers to inspect board papers in certain circumstances.

9.4 Consultancy Agreements

9.4.1 Consultancy Agreements – Bayview

The Company has entered into a consultancy with Bayview P.M.F Pty Ltd (ACN 004 859 812) (Bayview) and Jason Ward, pursuant to which Bayview will procure that Mr Ward provide technical geological support, expertise and assistance (the Services) as agreed by the Company and Bayview from time to time (Consultancy Agreement). The material terms and conditions of which are summarised below:

Term	The Consultancy Agreement commenced on 11 August 2022 and will continue until terminated in accordance with the terms of the Consultancy Agreement.
Remuneration	The Company agreed to pay Bayview a daily fee of \$1,450 (exclusive of GST) to be paid by the Company on a monthly basis following receipt from Bayview of a valid tax invoice detailing the Services provided in the preceding month.
Issue of Securities	In addition to the remuneration above, the Company agreed, subject receipt of Shareholder approval, to issue Bayview: (a) 1,000,000 Shares, subject to 12 months escrow; (b) 1,000,000 ZEPOs, vesting upon 12 months of continuous service with the Company; and (c) 1,000,000 ZEPOs, vesting upon 24 months continuous services with the Company, subject to the terms and conditions of the Company's Employee Securities Incentive Plan.
Reimbursement of expenses	Bayview is not entitled to claim reimbursement for any expenses incurred in providing the Services, other than travel related expenses.
Termination	Termination by either party

	The Consultancy Agreement may be terminated at any time by either party by providing the other party with 30 days' prior written notice. Termination by the Company The Consultancy Agreement may be terminated by the Company with immediate effect and without notice if Bayview: (a) commits a breach of a material term of the Consultancy Agreement; or (b) is bankrupt, insolvent, enters into a deed of arrangement with its creditors, has a receiver or manager appointed or an order is made for it to be wound up.

The Consultancy Agreement otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.4.2 Consultancy Agreement – Ledger Holdings

The Company has entered into a consultancy with Ledger Holdings Pty Ltd (ACN 007 253 723) (Ledger) and Levi Mochkin, pursuant to which Ledger will procure that Mr Mochkin provide business development services (the Services) (Ledger Consultancy Agreement). The material terms and conditions of which are summarised below:

Term	The Ledger Consultancy Agreement commenced on 11 July 2022 and will continue until terminated in accordance with the terms of the Ledger Consultancy Agreement.
Remuneration	The Company agreed to pay Ledger a monthly fee of \$7,000 (exclusive of GST and superannuation) to be paid following receipt from Ledger of a valid tax invoice detailing the Services provided in the preceding month.
Issue of Securities	In addition to the remuneration above, the Company agreed, subject receipt of Shareholder approval, to issue Ledger: (a) 6,000,000 Options, exercisable at \$0.40 each on or before 31 July 2025; (b) 1,500,000 Shares; (c) 1,500,000 ZEPOs, vesting upon 12 months of continuous service with the Company; and (d) 1,500,000 ZEPOs, vesting upon 24 months continuous services with the Company.
Reimbursement of expenses	Ledger is not entitled to claim reimbursement for any expenses incurred in providing the Services, other than travel related expenses.
Termination	Termination by either party The Ledger Consultancy Agreement may be terminated at any time by either party by providing the other party with three (3) months' prior written notice (or by the Company

making a pro-rata termination payment of the remuneration in lieu of notice to Ledger).

Termination by the Company

The Ledger Consultancy Agreement may be terminated by the Company with immediate effect and without notice if Ledger:

- (a) commits a breach of a material term of the Consultancy Agreement; or
- (b) is bankrupt, insolvent, enters into a deed of arrangement with its creditors, has a receiver or manager appointed or an order is made for it to be wound up.

The Ledger Consultancy Agreement otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.4.3 Consultancy Agreement – RLL Consulting

A wholly owned subsidiary of the Company, BH Exploration Pty Ltd (ACN 655 553 389) (BH Exploration), has entered into a consultancy with RLL Consulting, L.L.C., a company incorporated in South Dakota, (Consultant) pursuant to which the Consultant will act as country manager in South Dakota (excluding Tinton and Keystone) (the Territory) and provide assistance to the exploration manager (the Services) (RLL Consultancy Agreement). The material terms and conditions of which are summarised below:

Term	The RLL Consultancy Agreement commenced on 13 May 2022 (Commencement Date) and will continue until terminated in accordance with the terms of the RLL Consultancy Agreement.
Remuneration	BH Exploration agreed to pay the Consultant a fee of USD100,000 per annum.
Issue of Securities	In addition to the remuneration above, BH Exploration agreed to procure the Company to issue the Consultant: (a) 500,000 Shares on that date which is 12 months from the Commencement Date; (b) 500,000 Shares on that date which is 24 months from the Commencement Date; (c) 500,000 Shares on that date which is 36 months from the Commencement Date; and (d) 500,000 Shares on that date which is 48 months from the Commencement Date; and (e) 1,000,000 Shares within 10 Business Days of BH Exploration announcing a drilling intercept of not less than 10m at 1.25% Li2O within five (5) years from the Commencement Date, where such drilling intercept occurs on a claim in the Territory, either identified by the Consultant as a result of the provision of the Services which is acquired by BH Exploration, provided that where the milestone is achieved in respect of a claim which is acquired by BH Exploration, as a result of its acquisition of White

	Rock L.L.C, the Consultant shall receive a payment of 1,000,000 Shares under, and pursuant to the terms of, a share sale agreement entered into on or about the Commencement Date and shall no longer be entitled to any further payment under this clause.
Royalty	BH Exploration agreed to grant the Consultant net smelter royalty of 1.25% in respect of minerals produced directly from any additional claims (excluding any claims which were acquired by BH Exploration as a result of the acquisition of White Rock L.L.C), identified by the Consultant as a result of the provision of the Services, which are acquired by the Company.
Reimbursement of expenses	BH Exploration agreed to reimburse the Consultant for all reasonable out of pocket expenses incurred in the performance of the Services and with the prior approval of BH Exploration.
Termination	Termination by either party The RLL Consultancy Agreement may be terminated by mutual agreement of the Consultant and BH Exploration. Termination by the Company (a) The RLL Consultancy Agreement may be terminated by BH Exploration at any time for any reason by providing three (3) months' notice in writing to the Consultant; or (b) The RLL Consultancy Agreement may be terminated by BH Exploration with immediate effect by providing written notice to the Consultant if the Consultant: (i) breaches of a term of the RLL Consultancy Agreement and fails to remedy the breach within seven (7) days of receipt of notice to do so; (ii) engages in gross or wilful disobedient, misconduct, dishonesty, insubordination or neglect; (iii) is convicted of a criminal offence involving fraud or dishonesty; or (iv) is incapacitated due to illness, accident or otherwise that renders the Consultant unable to comply with their obligations under the RLL Consultancy Agreement for an aggregate period of three (3) months within any twelve-month period.

The RLL Consultancy Agreement otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.5 Royalty Agreements

9.5.1 Royalty Agreement - Cody Schad and White Rock

Cody Schad entered into a royalty agreement with White Rock LLC (a company incorporated in South Dakota) (White Rock), dated 13 May 2022, pursuant to which White Rock agreed to grant Cody Schad the right to receive a royalty (White Rock Royalty Agreement). The material terms and conditions of which are summarised below:

Royalty	(a) From the date of completion of the share sale agreement between Mr Schad and White Rock (Commencement Date), for the sale of 100% of the issued capital in White Rock, for each quarter in which any mineral or metallic product (Product) extracted or recovered from the tenements held by White Rock, at the date on which it is acquired, are sold by or on behalf of White Rock, White Rock agreed to pay Mr Schad the Royalty (as defined below). (b) The obligation to pay the Royalty accrues upon extraction by or on behalf of White Rock of ore, minerals or Product from the tenements. Royalty means the royalty percentage of 1.25% multiplied by the gross revenue for the quarter less deductions for the quarter.
Payment of Royalty	Within 30 days of the end of each quarter following the Commencement Date, White Rock agreed to: (a) calculate the Royalty payable for that quarter, if any; (b) give to Mr Schad a statement in respect of that quarter if there is a Royalty payable for that quarter (Statement); (c) if the Royalty is payable, pay to Mr Schad the Royalty due in immediately available funds without demand, reduction or set-off: (i) by direct deposit to the bank account nominated by Mr Schad; or (ii) if no bank is nominated, by cheque payable to Mr Schad.
Adjustment of Royalty	(a) The payment of Royalty in a quarter may not coincide with the actual amounts of Products produced during that quarter. (b) White Rock: (i) may make adjustments to the Royalty records and the Statement following determination of any adjustment; and (ii) must provide a final Statement of the Royalty due for a quarter within 30 days of determination of the final adjustment.

Interest and costs	If White Rock fails to pay the Royalty on or before the due date for payment, White Rock must also pay to Mr Schad immediately upon demand: (a) interest on the amount due, calculated on a daily basis at an annual rate of 2% calculated on a daily basis and compounded monthly and the lesser of: (i) the rate in effect on the first banking day of the quarter; (ii) the maximum rate permitted by law; or (iii) such other similar rate as the parties may agree; and (b) the costs and expenses reasonably incurred by Mr Schad attributable to White Rock's failure to pay.

The White Rock Royalty Agreement otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

9.5.2 Royalty Agreement – The Consultant, BH Exploration and Lotus

BH Exploration and Lotus Minerals LLC, a company incorporated in South Dakota) (Lotus) entered into a royalty agreement with the Consultant, dated 13 May 2022, pursuant to which BH Exploration and Lotus agreed to grant the Consultant the right to receive a royalty (Royalty Agreement). The material terms and conditions of which are summarised below:

Royalty	(a) From 13 May 2022 (Commencement Date), for each quarter in which any mineral or metallic product (Product) extracted or recovered from the tenements, identified by the Consultant and acquired by BH Exploration or Lotus, are sold by or on behalf of BH Exploration or Lotus, BH Exploration or Lotus agreed to pay the Consultant the Royalty (as defined below). (b) The obligation to pay the Royalty accrues upon extraction by or on behalf of BH Exploration or Lotus of ore, minerals or Product from the tenements. Royalty means the royalty percentage of 1.25% multiple by the gross revenue for the quarter less deductions for the quarter.
Payment of Royalty	Within 30 days of the end of each quarter following the Commencement Date, BH Exploration or Lotus agreed to: (a) calculate the Royalty payable for that quarter, if any; (b) give to the Consultant a statement in respect of that quarter if there is a Royalty payable for that quarter (Statement); (c) if the Royalty is payable, pay to the Consultant the Royalty due in immediately available funds without demand, reduction or set-off: (iii) by direct deposit to the bank account nominated by the Consultant; or

	(iv)	if no bank is nominated, by cheque payable to the Consultant.
Adjustment of Royalty	(a)	The payment of Royalty in a quarter may not coincide with the actual amounts of Products produced during that quarter.
	(b)	BH Exploration or Lotus:
	(i)	may make adjustments to the Royalty records and the Statement following determination of any adjustment; and
	(ii)	must provide a final Statement of the Royalty due for a quarter within 30 days of determination of the final adjustment.
Interest and costs		If BH Exploration or Lotus fails to pay the Royalty on or before the due date for payment, BH Exploration or Lotus must also pay to the Consultant immediately upon demand:
	(a)	interest on the amount due, calculated on a daily basis at an annual rate of 2% calculated on a daily basis and compounded monthly and the lesser of:
	(i)	the rate in effect on the first banking day of the quarter;
	(ii)	the maximum rate permitted by law; or
	(iii)	such other similar rate as the parties may agree; and
	(b)	the costs and expenses reasonably incurred by the Consultant attributable to BH Exploration and Lotus' failure to pay.

The Royalty Agreement otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

10. ADDITIONAL INFORMATION

10.1 Previous Acquisitions

Kookynie and Leonora Project Acquisitions

In connection with its initial public offer (IPO), the Company entered into various agreements to acquire the Kookynie and Leonora Projects. Details of these agreements are as follows:

(a) Leonora

Crew, Bhasin And Legendre Sale And Purchase Agreements

The Company has entered into sale and purchase agreements in relation to tenements forming part of the Leonora Project.

Details of the tenements and the third party vendors are described below:

- (i) 11 January 2021 - Ross Crew for P37/8686 and P37/8936;
- (ii) 11 January 2021 - Ross Crew and Neelesh Bhasin for P37/9374, P37/9385, P37/9386, P37/9387, P37/9388, P37/9389, P37/9390 and P37/9391;
- (iii) 11 January 2021 - Ross Crew and Bruce Legendre for P37/9351, P37/9352, P37/9353, P37/9354, P37/9355, P37/9356 and P37/9357; and
- (iv) 11 January 2021 - Ross Crew and Christopher Crew for P37/9033, P37/9034 and P37/9035.

The aggregate consideration for the acquisition of the above tenements comprised:

- (i) \$25,000 in cash, which has been paid, and 3,500,000 Shares, which have been issued; and
- (ii) \$75,000 in cash, to be paid upon the Company being admitted to the official list of the ASX.

Kjazz Sale and Purchase Deed

On 9 February 2021, the Company entered into a sale and purchase deed with KJAZZ Pty Ltd (KJAZZ) to purchase tenements P37/8980, P37/8983, P37/8984, P37/8987, P37/8981, P37/8982, P37/8985 and P37/8986, which form part of the Leonora Project, for aggregate consideration of \$50,000. The Company has also granted KJAZZ a royalty of 0.75% of the gross proceeds received by the Company or applied to its benefit from the sale or other disposal of ore, minerals or product extracted from the relevant tenements (or any one or more of them).

KJAZZ was not a related party of the Company.

Lorentz Sale and Purchase Agreement

On 30 January 2021, the Company entered into a sale and purchase agreement with Wolfgang Michael Lorentz (Lorentz) to acquire all interests, rights and title in tenements P37/8657, P37/8696, P37/8720, P37/9373, P37/9159, P37/8812, which form part of the Leonora Project, for an aggregate consideration of \$30,000. Lorentz retains Alluvial Rights on the tenements, within 2 metres down from the surface and not contained in hard rock or primary bed rock.

Lorentz was not a related party of the Company.

(b) Kookynie

The Company entered into eight binding sale and purchase agreements to acquire 100% of eight separate and distinct prospecting licences forming part of its Kookynie Project for an aggregate consideration of \$112,500 in cash.

The respective tenements and respective vendors of each were: P40/1419 (17/10/2020 Adam John Cumming), P40/1386 (16/10/2020 Benjamin Jack White), P40/1505 (14/10/2020 Duane Daniel Briggs), P40/1400 (25/09/2020 Kim Edwin Pritchard), P40/1379 (19/01/2021 Fairplay Gold Pty Ltd (Fairplay)), P40/1448 (9/2/21 Robert Tate), P40/1391 (7/12/2020 Mark John Hannam) and P40/1463 (14/10/2020 Scott Archer). Each vendor was an unrelated party of the Company.

Each vendor warranted there were no mortgages, caveats, securities or royalties on their tenement.

In addition, Lofasz Pty Ltd (ACN 644 637 105) (Lofasz) (being a wholly owned subsidiary of the Company) on 22/10/2020 entered into a separate sale and purchase agreement with Fairplay to acquire all interests, rights and title in tenement P40/1420, which forms part of the Kookynie Project, for aggregate consideration of \$17,500 in cash.

Chittleborough and Grinham Sale and Purchase Agreement

On 8 January 2021, the Company entered into a sale and purchase agreement with Graham John Chittleborough (Chittleborough) and Gaye Leonie Grinham to acquire all interests, rights and title in tenements E40/348, P40/1385, P40/1413, P40/1509, M40/336, E40/270, P40/1471 and P40/1494, which form part of the Kookynie Project, for an aggregate consideration of \$200,000. The vendors were unrelated parties of the Company.

Further terms of the Chittleborough and Grinham Sale and Purchase Agreement are set out below:

- (i) The Company granted the vendors Alluvial Rights in the purchased tenements E40/348, P40/1385, P40/1413, P40/1509 and M40/336.
- (ii) The Company (or Lofasz) further granted the vendors Alluvial Rights in the following tenements: P40/1386, P40/1391, P40/1400, P40/1419, P40/1420, P40/1463 and P40/1505.
- (iii) Following completion and until 31 March 2024, the Company grants Chittleborough (subject to the directions and instructions of the Company and applicable law) access to M40/336 for the

sole purposes of use as camping ground and for Alluvial Rights described above.

- (iv) The sale and transfer of P40/1509 took effect from 30 October 2021.

Jones Sale And Purchase Agreement

On 3 February 2021, the Company entered into a sale and purchase agreement with Jamie Douglas Jones (Jones) to acquire all interests, rights and title in tenement P40/1334, which forms part of the Kookynie Project. In consideration for the acquisition of P40/1334, the Company agreed to:

- (i) pay Jones \$70,000 in cash as upfront consideration for the acquisition of P40/1334. This amount has been paid;
- (ii) pay Jones \$30,000 in cash upon and subject to the successful conversion of P40/1334 to a mining licence;
- (iii) issue Jones 100,000 new Shares upon and subject to successful completion of the IPO; and
- (iv) issue Jones 100,000 Shares upon and subject to achievement of a drilling intercept of equal to or greater than 20 grams to the tonne over an interval of at least 1 meter on P40/1334.

Jones was not a related party of the Company.

Malatesta Sale and Purchase Agreement

The Company entered into a sale and purchase agreement on 6/2/21 with Nathan Kim Malatesta (Malatesta) to acquire all interests, rights and title in tenements P40/1383 and P40/1384, which form part of the Kookynie Project, for an aggregate consideration of \$11,500.

Malatesta retains Alluvial Rights on the tenements, within 2 metres down from the surface and not contained in hard rock or primary bed rock. Malatesta also retains certain property on the tenement area (the Company is not liable for any damage to or theft of same).

Malatesta was not a related party of the Company.

Stephen Pritchard Sale and Purchase Agreement

On 8/01/21, the Company entered into a sale and purchase agreement with Stephen John Pritchard (Pritchard) to acquire all interests, rights and title in P40/1333, which forms part of the Kookynie Project, for consideration of \$30,000. Pritchard retains the existing infrastructure and certain property on the tenement area (the Company is not liable for any damage to or theft of same). Pritchard also retains the right to use the existing water on the tenement (subject to applicable law).

Pritchard was not a related party of the Company.

Curnow, Moses and Dixon Sale and Purchase Agreement

On 19 February 2021, the Company entered into a sale and purchase agreement with Ryan James Curnow, Kelly Anne Moses and Craig Dixon for the purchase P40/1489, which forms part of the Kookynie Project, for aggregate consideration of \$70,000 and 200,000 Shares upon the Company being admitted to the official list of the ASX. The Company also granted Craig Dixon Alluvial Rights within 2 metres down from the surface and not contained in hard rock or primary bed rock.

Ryan James Curnow, Kelly Anne Moses and Craig Dixon are not related parties of the Company.

Craig Dixon Agreement

On 26 July 2022, the Company entered into a sale and purchase agreement with Craig Dixon for the purchase P40/1345, P40/1502, P40/1503, P40/1559 and P40/1563, which forms part of the Kookynie Project, for aggregate consideration of \$42,000 and 60,000 Shares. The Company also grants Craig Dixon Alluvial Rights within 2 metres down from the surface and not contained in hard rock or primary bed rock.

Craig Dixon is not a related party of the Company.

Lofasz Share Sale Agreement

On 23 December 21, the Company entered into a share sale agreement with Tal Paneth to acquire 100% of the issued share capital in Lofasz from Tal Paneth for aggregate consideration of 30,000,000 founding Shares. The acquisition has completed and the Company holds 100% of the issued capital of Lofasz.

Lofasz holds the following tenements: P40/1386, P40/1391, P40/1400, P40/1419, P40/1420, P40/1463, P40/1505, P37/9468, P37/9469, P37/9470, P37/9471, P37/9472, P37/9473 and P37/9474.

Tal Paneth is a related party of the Company.

South Dakota Project Acquisition

On 13 May 2022, the Company entered into a Share Sale Agreement with White Rock LLC, to acquire the South Dakota Project prospective for hard rock lithium, on the following key terms:

- (a) USD\$100,000 cash consideration;
- (b) USD\$300,000 of cash reimbursements;
- (c) issue White Rock with 4,000,000 fully paid ordinary shares escrowed for 2-years from the date of issue; and
- (d) grant Cody Schad a net smelter return royalty of 1.25%.

At the time of entering into the White Rock agreement, White Rock LLC was an unrelated party of the Company.

10.2 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

10.3 Rights and liabilities attaching to shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid or credited as paid is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit, (and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) Shareholder liability

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) Transfer of shares

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(a) Future increase in capital

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(g) Variation of rights

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(h) Alteration of constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

10.4 Terms and Conditions of Options

(a) Entitlement

Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

(b) Subject to paragraph (i), the amount payable upon exercise of each Option will be (each an Exercise Price):

Option	Exercise Price
Public Offer	\$1.50
Lead Manager Options	\$1.50
Jasdak Options	\$1.50
Existing Options	
IR1AD	\$0.30
IR1AE	\$0.30
IR1AG	Nil
IR1AH	\$0.40
IR1AI	Nil
IR1AJ	\$1.50
IR1AK	\$1.20

(i) Expiry date

Option	Expiry Date
Public Offer	5:00 pm (AEST) on the date that is two (2) years from the date of issue.

Option	Expiry Date
Lead Manager Options	5:00 pm (AEST) on the date that is two (2) years from the date of issue.
Jasdak Options	5:00 pm (AEST) on the date that is three (3) years from the date of issue.
Existing Options	
IR1AD	5:00 pm (AEST) 15 September 2024
IR1AE	5:00 pm (AEST) 15 October 2024
IR1AG	5:00 pm (AEST) 15 September 2024
IR1AH	5:00 pm (AEST) 31 July 2025
IR1AI	5:00 pm (AEST) 31 July 2025
IR1AJ	5:00 pm (AEST) 31 January 2025
IR1AK	5:00 pm (AEST) 31 January 2026

An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(c) Exercise period

The Options are exercisable at any time on or prior to the Expiry Date (Exercise Period).

(d) Notice of exercise

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (Notice of Exercise) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(e) Exercise date

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (Exercise Date).

(f) Timing of issue of shares on exercise

Within five Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to

ensure that an offer for sale of the Shares does not require disclosure to investors; and

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under (ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

- (g) Shares issued on exercise

Shares issued on exercise of the Options rank equally with the then issued shares of the Company.

- (h) Quotation of shares issued on exercise

If admitted to the official list of ASX at the time, application will be made by the Company to ASX for quotation of the Shares issued upon the exercise of the Options.

- (i) Reconstruction of capital

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

- (j) Participation in new issues

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

- (k) Change in exercise price

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

- (l) Transferability

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

10.5 Terms and Conditions of the Performance Rights

10.5.1 Terms and Conditions of the existing Performance Rights

The terms and conditions of the existing performance rights on issue are set out below:

(a) Specific terms of Performance Rights

The Performance Rights have the following Performance Conditions and Expiry Date (Specific Terms):

Number of Performance Rights	Performance Condition	Expiry Date
1,000,000	BH Exploration Pty Ltd (BH Company) shall procure IRIS Metals Limited (Company) to issue 1 Share for each Performance Right to RLL Consulting, L.L.C (Consultant) within 10 Business Days of the BH Company announcing a drilling intercept of not less than 10m at 1.25% Li₂O within 5 years from the commencement date of the consulting agreement between the Consultant and the BH Company dated 13 May 2022 (Agreement) where such drilling intercept occurs on a claim in the Territory, either identified by the Consultant as a result of the provision of the Services under this Agreement which is acquired by the BH Company provided that where the milestone above is achieved in respect of a claim which is acquired by the BH Company as a result of its acquisition of White Rock L.L.C the Consultant shall receive a payment of 1,000,000 Shares under, and pursuant to the terms of, the share sale agreement entered into on 13 May 2022 between White Rock, L.L.C., Cody Schad and the BH Company (Share Sale Agreement) and shall no longer be entitled to any further payment under this item. This right shall survive termination of this Agreement. For the avoidance of doubt, the agreement above is a contractor right to receive a future Share and shall not require the BH Company to procure that the Company issue a performance share prior to satisfaction of the relevant milestone. In this Performance Condition: (a) Territory means South Dakota (excluding areas of Tinton and Keystone (b) Services means: (i) country manager - Territory; (ii) business development activities within the Territory; (iii) provision of assistance to the Exploration Manager; (iv) assistance and coordination with regards to tenement management and control; (v) identification of additional pegmatite bearing project areas available for claiming and acquiring in the Territory; (vi) introduction to the owners of other Bureau of Land (BLM) Management claims	13 May 2027

Number of Performance Rights	Performance Condition	Expiry Date
	prospective for pegmatites in the Territory; (vii) introduction to owners of patented BLM claims prospective for pegmatites in the Territory; and (viii) other assistance and advice as the Company may reasonably require in respect of its operations in the Territory.	

The date on which a Performance Condition is determined to have been satisfied is a Milestone Date. If a Performance Condition remains unsatisfied as at the Expiry Date then the relevant Performance Rights which are subject to that Performance Condition automatically lapse and are thereafter incapable of vesting or exercise.

(b) General terms of Performance Rights

The Performance Rights have the following general terms (General Terms) which are supplemental to the Specific Terms. To the extent of any inconsistency between the General Terms and the Specific Terms, the Specific Terms will prevail.

Offer administration	The Offer will be administered by the Board of the Company, or a committee of the Board of the Company (Board), which will have an absolute discretion to: (a) determine appropriate procedures for administration of the Offer and these General Terms; (b) resolve conclusively all questions of fact or interpretation arising in connection with the Offer; (c) determine whether a particular Performance Condition has been satisfied as at a particular date; and (d) delegate to any one or more persons, for such period and on such conditions as they may determine, the exercise of any of their powers or discretions in connection with the Offer and these General Terms. The Board may only exercise its powers in accordance with the Listing Rules.
Vesting Conditions and Exercise	Vesting conditions may be waived at the absolute discretion of the Board (unless such waiver is excluded by the terms of the offer).
Rights attaching to Shares	The Shares issued on exercise of the Performance Rights will upon allotment: (a) be credited as fully paid; and (b) rank equally for dividends and other entitlements where the record date is on or after

	the date of allotment, but will carry no right to receive any dividend or entitlement where the record date is before the date of allotment; and (c) be subject to any restrictions imposed under the offer and will be escrowed in line with ASX requirements at the time of issue; and (d) otherwise rank equally with the existing issued Shares at the time of allotment. Unless the Board resolves otherwise the Company will, as soon as practicable after the date of the allotment of Shares, apply for official quotation of such Shares on the ASX. The Company may, in its discretion, either issue new Shares or cause existing Shares to be acquired for transfer to the holder, or a combination of both alternatives, to satisfy the Company's obligations under the offer and this section (B). If the Company determines to cause the transfer of Shares to the holder, the Shares may be acquired in such manner as the Company considers appropriate, including from a trustee.
Trustee	The Company may appoint a trustee on terms and conditions which it considers appropriate to acquire and hold Performance Rights of the Company on the holder's behalf.
Dividends	The holder will have a vested and indefeasible entitlement to any dividends declared and distributed by the Company on Shares issued to the holder in respect of a Performance Right which, at the books closing date for determining entitlement to those dividends, are standing to the holder's account. The holder may participate in any dividend reinvestment plan operated by the Company in respect of Shares issued to the holder in respect of a Performance Right held by the holder and such participation must be in respect of all such Shares held by the holder. Shares issued under any dividend reinvestment plan operated by the Company will not be subject to any restrictions on dealing.
Application of restrictions to pro rata bonus issues	If the Company makes a pro rata bonus issue to the holder of any Performance Rights in respect of which a restriction on sale or disposal applies (Restricted Award), the Shares issued to the holder under the pro rata bonus issue will be subject to the balance of the restriction period that applied to the Restricted Award.
Takeovers and Corporate control events	If a takeover bid is made to acquire all of the issued Shares of the Company, or a scheme of arrangement, selective capital reduction or other transaction is initiated which has an effect similar to a full takeover bid for Shares in the Company, the holder will be entitled to accept the takeover bid or participate in the other transaction in respect of all or part of the holder's Performance Rights notwithstanding that a restriction period in respect of such Performance Rights has not expired.

	In the event that the takeover or other similar transaction does not proceed for any reason any discretion exercised by the Board to waive unsatisfied vesting conditions will be voided.
Hedging unvested Awards	The holder must not enter into transactions or arrangements, including by way of derivatives or similar financial products, which limit the economic risk of holding unvested Performance Rights.
Power of Attorney	In consideration of the issue of the Performance Rights, the holder irrevocably appoints each Director and the secretary for the time being of the Company severally as its attorney, to do all acts and things and to complete and execute any documents, including share transfers, in the holder's name and on the holder's behalf that may be convenient or necessary for the purpose of giving effect to the provisions of Specific Terms and these General Terms. The holder will be deemed to ratify and confirm any act or thing done under this power and must indemnify the attorney in respect of doing so.
Tax and social security contributions	Where the Company, or a subsidiary of the Company, must account for any tax or social security contributions (in any jurisdiction) for which the holder is liable because of the issue or transfer of Shares, payment of cash to the holder or the vesting or exercise of a Performance Right, either the Company or subsidiary of the Company may withhold that amount in its discretion or the holder must, prior to its Shares being issued or transferred or cash being paid to the holder, or the Performance Rights vesting or being exercised (as applicable), either: (a) pay the amount to the Company; or (b) make acceptable arrangements with the Company for the amount to be made available to the Company.
Governing Law	The Offer and these General Terms are governed by and are to be construed in accordance with the laws of New South Wales.

10.5.2 Terms and Conditions of Performance Rights under Performance Rights Offer

(a) Entitlement

Each Performance Right entitles the holder to subscribe for one (1) Share upon conversion of the Performance Right.

(b) Vesting Conditions and Expiry Dates

The Performance Rights shall convert to Shares upon satisfaction of the following vesting conditions and shall expire on the following expiry dates:

Class	No. of Performance Rights to be issued	Vesting Condition	Expiry Date
Class A	2,400,000	The Company achieving a market capitalisation of \$500,000,000 over a consecutive 20 day period.	On or before 30 June 2024.
Class B	2,400,000	The Company achieving an independently verified JORC inferred resource of at least 7.5mt at equal to or greater than 1.0% Li2O at the South Dakota Project.	The date that is two (2) years from the date of issue
Class C	2,400,000	The Company achieving an independently verified JORC inferred resource of at least 7.5mt at equal to or greater than 1.5% Li2O at the South Dakota Project.	On or before 31 December 2024.
Class D	2,400,000	The Company achieving an independently verified JORC inferred resource of at least 15mt at equal to or greater than 1.5% Li2O at the South Dakota Project.	On or before 30 June 2025.
Class E	2,400,000	The Company achieving an independently verified JORC inferred resource of at least 20mt at equal to or greater than 1.5% Li2O at the South Dakota Project.	On or before 30 June 2026.

(c) Consideration

Each Performance Right will be issued for nil cash consideration.

(d) Notification to holder

The Company shall notify the holder in writing when the relevant Vesting Condition has been satisfied.

(e) Conversion

Subject to paragraph (a), immediately following satisfaction of the relevant Vesting Condition, each Performance Right will convert into one (1) Share upon the holder lodging with the Company, on or prior to the Expiry Date:

- (i) in whole or in part; and
- (ii) a written notice of conversion of Performance Rights specifying the number of Performance Rights being converted (Exercise Notice).

(f) Share ranking

All Shares issued upon the vesting of a Performance Right will, upon issue, rank *pari passu* in all respects with other Shares on issue.

(g) Application to ASX

The Performance Rights will not be quoted on ASX. The Company must apply for the official quotation of a Share issued on conversion of a Performance Right on ASX within the time period required by the ASX Listing Rules.

(h) Transfer of Performance Rights

The Performance Rights are not transferrable.

(i) Lapse of a Performance Right

If the Vesting Condition attached to the relevant Performance Right has not been satisfied prior to its Expiry Date, the relevant Performance Rights will automatically lapse on the Expiry Date.

(j) Participation in new issues

A Performance Right does not entitle a holder (in their capacity as a holder of a Performance Right) to participate in new issues of capital offered to holders of Shares such as bonus issues and entitlement issues, other than as set out below.

(k) Reorganisation of capital

If at any time the issued capital of the Company is reconstructed, all rights of a holder will be changed in a manner consistent with the applicable ASX Listing Rules and the Corporations Act at the time of reorganisation.

(l) Adjustment for bonus issue

In the event the Company proceeds with a bonus issue of securities to Shareholders after the date of issue of the Performance Rights, a Performance Right does not confer the right to a change in the number of underlying securities over which the Performance Right can be converted.

(m) Dividend and Voting Rights

The Performance Rights do not confer on the holder an entitlement to receive notice of, vote at or attend a meeting of the shareholders of the Company (except as otherwise required by law) or receive any dividends declared by the Company.

(n) Change of Control

If a Change of Control Event (being an event which results in any person (either alone or together with associates) owning more than 50% of the Company's issued capital) occurs, all Performance Rights will vest immediately prior to the effective Change of Control.

(o) Timing of issue of Shares and quotation of Shares on conversion

Within five (5) business days after the issue of an Exercise Notice by the holder, the Company will:

- (i) issue, allocate or cause to be transferred to the holder the number of Shares to which the holder is entitled;
- (ii) if required, issue a substitute certificate for any remaining unconverted Performance Rights held by the holder;
- (iii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iv) in the event the Company is admitted to the official list of ASX, do all such acts, matters and things to obtain the grant of quotation of the Shares by ASX in accordance with the ASX Listing Rules and subject to the expiry of any restriction period that applies to the Shares under the Corporations Act or the ASX Listing Rules.

(p) Ceasing to be an employee or Director

If a holder (or the person who nominated the holder to receive the Performance Rights) ceases to be an employee or Director of the Company in circumstances where the cessation or termination arises because the holder (or such person):

- (i) voluntarily resigns his or her position (other than to take up employment with a subsidiary of the Company);
- (ii) wilfully breaches the terms of the engagement of the holder or any policy of the Company's published policies regulating the behaviour of holder (or such person);
- (iii) is convicted of a criminal offence which, in the reasonable opinion of the Company, might tend to injure the reputation or the business of the Company; or
- (iv) is found guilty of a breach of the Corporations Act and the Board considers that it brings the holder or the Company into disrepute,

then:
 - (v) unless the Board decides otherwise in its absolute discretion, will deem any Performance Rights of the holder to have immediately lapsed and be forfeited; and
 - (vi) any Performance Rights that have vested will continue in existence in accordance with their terms of issue only if the relevant Vesting Conditions have previously been met and any Shares issued on satisfaction of the applicable Vesting Conditions will remain the property of the holder.

(q) Other circumstances

The Performance Rights will not lapse and be forfeited where the holder ceases to be an employee or Director of the Company for one of the following reasons:

- (i) death or total permanent disability (in respect of total permanent disability being that because of a sickness or injury, the holder is unable to work in his or her own or any occupation for which they are suited by training, education, or experience for a period beyond one year); or
- (ii) any other reason, other than a reason listed in rules (p), in which case the Board may exercise its absolute discretion to allow the resigned to retain their Performance Rights), that the Board determines is reasonable to permit the holder to retain his or her Performance Rights, including but not limited to where there is a Board restructure and/or the holder is a good leaver, and in those circumstances the Performance Rights will continue to be subject to the applicable Vesting Conditions.

(r) No rights to return of capital

A Performance Right does not entitle the holder to a return of capital, whether in a winding up, upon a reduction of capital or otherwise.

(s) Rights on winding up

A Performance Right does not entitle the holder to participate in the surplus profits or assets of the Company upon winding up.

(t) No other rights

A Performance Right gives the holder no rights other than those expressly provided by these terms and those provided at law where such rights at law cannot be excluded by these terms.

10.5.3 Guidance Note 19

Pursuant to and in accordance with the requirements of Guidance Note 19, the following information is provided in relation to the issue of the Performance Rights:

- (a) the Performance Rights to be issued to the PR Recipients in connection with the Re-Instatement are considered by the Company to be remuneration-based incentives linked to the performance of the Related Parties in executing their roles as Directors and Damien Henderson in executing his role as Chief Financial Officer;
- (b) the Company considers that as Directors and Chief Financial Officer, respectively, the Related Parties and Damien Henderson will play a key role in the achievement of the milestones attaching to each class of the Performance Rights;
- (c) the current proposed remuneration of the Related Parties at Re-Instatement is set out in Section 8.2;
- (d) details of the Related Parties' relevant interests in the securities of the Company is set out in Section 8.2;

- (e) the Company wishes to grant the Performance Rights to the PR Recipients for the following reasons:
 - (i) the Performance Rights are unlisted, therefore the grant of the Performance Rights has no immediate dilutionary impact on Shareholders;
 - (ii) the grant of the Performance Rights to the PR Recipients will align the interests of the PR Recipients with those of Shareholders;
 - (iii) the issue of the Performance Rights is a reasonable and appropriate method to provide cost effective remuneration as the non-cash form of this benefit will allow the Company to spend a greater proportion of its cash reserves on its operations than it would if alternative cash forms of remuneration were given to the PR Recipients; and
 - (iv) it is not considered that there are any significant opportunity costs to the Company or benefits foregone by the Company in granting the Performance Rights on the terms proposed;
- (f) the number of Performance Rights proposed to be issued to the PR Recipients has been determined based upon a consideration of:
 - (i) current market standards and/or practices of other ASX listed companies of a similar size and stage of development to the Company; and
 - (ii) the cash remuneration of the PR Recipients;
- (g) the Performance Rights are consistent with the base requirements for performance securities which are detailed in section 9 of Guidance Note 19;
- (h) in accordance with section 10 of Guidance Note 19, the Company submits that the number of Performance Rights to be issued and the number of Shares into which they will be exercised if the relevant Vesting Conditions are achieved is appropriate and equitable for the purposes of Listing Rule 6.1 as the number of Shares into which the Performance Rights may be exercised into if the Vesting Conditions are achieved (being a total of 11,000,000 Shares) is significantly less than the number of Shares which the Company proposes to have on issue at the date of its listing (being 122,080,000 Shares assuming the Minimum Subscription is raised); and
- (i) in accordance with section 11 of Guidance Note 19, the Company submits that the Vesting Conditions attaching to the Performance Rights are appropriate and equitable as:
 - (i) the Performance Rights are being issued to the PR Recipients to incentivise them to continue to grow the Company's business;
 - (ii) the Vesting Conditions are clearly articulated by reference to objective criteria which allows investors and analysts to readily understand and have reasonable certainty as to the circumstances in which the Vesting Conditions will be taken to have been met;

- (iii) the number of Shares into which the Performance Rights will convert if the Vesting Conditions are achieved is fixed (one for one) which allows investors and analysts to readily understand and have reasonable certainty as to the impact on the Company's capital structure if the Vesting Conditions are achieved; and
- (iv) the Performance Rights have a date by which the Vesting Conditions are to be achieved and, if the Vesting Conditions are not achieved by that date, the Performance Rights will lapse.

10.6 Employee Incentive Securities Plan

The Company is proposing, subject to Shareholder approval, to adopt an Employee Incentive Securities Plan to allow eligible participants to be granted Securities in the Company. The principle terms of the Plan are summarised below:

Eligible Participant	Eligible Participant means a person that is a 'primary participant' (as that term is defined in Division 1A of Part 7.12 of the Corporations Act) in relation to the Company or an Associated Body Corporate (as defined in the Corporations Act) and has been determined by the Board to be eligible to participate in the Plan from time to time.
Purpose	The purpose of the Plan is to: (a) assist in the reward, retention and motivation of Eligible Participants; (b) link the reward of Eligible Participants to Shareholder value creation; and (c) align the interests of Eligible Participants with shareholders of the Group (being the Company and each of its Associated Bodies Corporate), by providing an opportunity to Eligible Participants to receive an equity interest in the Company in the form of Plan Shares, Options, Performance Rights and other convertible securities (Securities).
Plan administration	The Plan will be administered by the Board. The Board may exercise any power or discretion conferred on it by the Plan rules in its sole and absolute discretion (except to the extent that it prevents the Participant relying on the deferred tax concessions under Subdivision 83A-C of the <i>Income Tax Assessment Act 1997</i> (Cth)). The Board may delegate its powers and discretion.
Eligibility, invitation and application	The Board may from time to time determine that an Eligible Participant may participate in the Plan and make an invitation to that Eligible Participant to apply for any (or any combination of) the Securities provided under the Plan on such terms and conditions as the Board decides. On receipt of an invitation, an Eligible Participant may apply for the Securities the subject of the invitation by sending a completed application form to the Company. The Board may accept an application from an Eligible Participant in whole or in part. If an Eligible Participant is permitted in the invitation, the Eligible Participant may, by notice in writing to the Board, nominate a party in whose favour the Eligible Participant wishes to renounce the invitation.
Grant of Securities	The Company will, to the extent that it has accepted a duly completed application, grant the Participant the relevant number and type of Securities, subject to the terms and conditions set out in the invitation, the Plan rules and any ancillary documentation required.

Rights attaching to Convertible Securities	A Convertible Security represents a right to acquire one or more Plan Shares in accordance with the Plan (for example, an Option or a Performance Right). Prior to a Convertible Security being exercised, the holder: (a) does not have any interest (legal, equitable or otherwise) in any Share the subject of the Convertible Security other than as expressly set out in the Plan; (a) is not entitled to receive notice of, vote at or attend a meeting of the shareholders of the Company; (b) is not entitled to receive any dividends declared by the Company; and (c) is not entitled to participate in any new issue of Shares (see Adjustment of Convertible Securities section below).
Vesting of Convertible Securities	Any vesting conditions which must be satisfied before Convertible Securities can be exercised and converted to Shares will be described in the invitation. If all the vesting conditions are satisfied and/or otherwise waived by the Board, a vesting notice will be sent to the Participant by the Company informing them that the relevant Convertible Securities have vested. Unless and until the vesting notice is issued by the Company, the Convertible Securities will not be considered to have vested. For the avoidance of doubt, if the vesting conditions relevant to a Convertible Security are not satisfied and/or otherwise waived by the Board, that Convertible Security will lapse.
Exercise of Convertible Securities and cashless exercise	To exercise a Convertible Security, the Participant must deliver a signed notice of exercise and, subject to a cashless exercise of Convertible Securities (see next paragraph below), pay the exercise price (if any) to or as directed by the Company, at any time following vesting of the Convertible Security (if subject to vesting conditions) and prior to the expiry date as set out in the invitation or vesting notice. An invitation may specify that at the time of exercise of the Convertible Securities, the Participant may elect not to be required to provide payment of the exercise price for the number of Convertible Securities specified in a notice of exercise, but that on exercise of those Convertible Securities the Company will transfer or issue to the Participant that number of Shares equal in value to the positive difference between the Market Value of the Shares at the time of exercise and the exercise price that would otherwise be payable to exercise those Convertible Securities. Market Value means, at any given date, the volume weighted average price per Share traded on the ASX over the 5 trading days immediately preceding that given date, unless otherwise specified in an invitation. A Convertible Security may not be exercised unless and until that Convertible Security has vested in accordance with the Plan rules, or such earlier date as set out in the Plan rules.
Timing of issue of Shares and quotation of Shares on exercise	As soon as practicable after the valid exercise of a Convertible Security by a Participant, the Company will issue or cause to be transferred to that Participant the number of Shares to which the Participant is entitled under the Plan rules and issue a substitute certificate for any remaining unexercised Convertible Securities held by that Participant.
Restrictions on dealing with Convertible Securities	A holder may not sell, assign, transfer, grant a security interest over or otherwise deal with a Convertible Security that has been granted to them unless otherwise determined by the Board. A holder must not enter into any arrangement for the purpose of hedging their economic exposure to a Convertible Security that has been granted to them.

	However, in Special Circumstances as defined under the Plan (including in the case of death or total or permanent disability of the Participant) a Participant may deal with Convertible Securities granted to them under the Plan with the consent of the Board.
Listing of Convertible Securities	A Convertible Security granted under the Plan will not be quoted on the ASX or any other recognised exchange. The Board reserves the right in its absolute discretion to apply for quotation of an Option granted under the Plan on the ASX or any other recognised exchange.
Forfeiture of Convertible Securities	Convertible Securities will be forfeited in the following circumstances: (a) where a Participant who holds Convertible Securities ceases to be an Eligible Participant (e.g. is no longer employed or their office or engagement is discontinued with the Group), all unvested Convertible Securities will automatically be forfeited by the Participant; (b) where a Participant acts fraudulently or dishonestly, negligently, in contravention of any Group policy or wilfully breaches their duties to the Group; (c) where there is a failure to satisfy the vesting conditions in accordance with the Plan; (d) on the date the Participant becomes insolvent; or (e) on the Expiry Date.
Change of control	If a change of control event occurs, or the Board determines that such an event is likely to occur, the Board may in its discretion determine the manner in which any or all of the holder's Convertible Securities will be dealt with, including, without limitation, in a manner that allows the holder to participate in and/or benefit from any transaction arising from or in connection with the change of control event.
Adjustment of Convertible Securities	If there is a reorganisation of the issued share capital of the Company (including any subdivision, consolidation, reduction, return or cancellation of such issued capital of the Company), the rights of each Participant holding Convertible Securities will be changed to the extent necessary to comply with the Listing Rules applicable to a reorganisation of capital at the time of the reorganisation. If Shares are issued by the Company by way of bonus issue (other than an issue in lieu of dividends or by way of dividend reinvestment), the holder of Convertible Securities is entitled, upon exercise of the Convertible Securities, to receive an issue of as many additional Shares as would have been issued to the holder if the holder held Shares equal in number to the Shares in respect of which the Convertible Securities are exercised. Unless otherwise determined by the Board, a holder of Convertible Securities does not have the right to participate in a pro rata issue of Shares made by the Company or sell renounceable rights.
Plan Shares	The Board may, from time to time, make an invitation to an Eligible Participant to acquire Plan Shares under the Plan. The Board will determine in its sole absolute discretion the acquisition price (if any) for each Plan Share which may be nil. The Plan Shares may be subject to performance hurdles and/or vesting conditions as determined by the Board. Where Plan Shares granted to a Participant are subject to performance hurdles and/or vesting conditions, the Participant's Plan Shares will be subject to certain restrictions until the applicable performance hurdles and/or vesting conditions (if any) have been satisfied, waived by the Board or are deemed to have been satisfied under the Rules.

Rights attaching to Plan Shares	All Shares issued or transferred under the Plan or issued or transferred to a Participant upon the valid exercise of a Convertible Security, (Plan Shares) will rank equally in all respects with the Shares of the same class for the time being on issue except for any rights attaching to the Shares by reference to a record date prior to the date of the allotment or transfer of the Plan Shares. A Participant will be entitled to any dividends declared and distributed by the Company on the Plan Shares and may participate in any dividend reinvestment plan operated by the Company in respect of Plan Shares. A Participant may exercise any voting rights attaching to Plan Shares.
Disposal restrictions on Plan Shares	If the invitation provides that any Plan Shares are subject to any restrictions as to the disposal or other dealing by a Participant for a period, the Board may implement any procedure it deems appropriate to ensure the compliance by the Participant with this restriction. For so long as a Plan Share is subject to any disposal restrictions under the Plan, the Participant will not: (a) transfer, encumber or otherwise dispose of, or have a security interest granted over that Plan Share; or (b) take any action or permit another person to take any action to remove or circumvent the disposal restrictions without the express written consent of the Company.
General Restrictions on Transfer of Plan Shares	If the Company is required but is unable to give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, Plan Shares issued under the Plan (including on exercise of Convertible Securities) may not be traded until 12 months after their issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Act. Restrictions are imposed by Applicable Law on dealing in Shares by persons who possess material information likely to affect the value of the Shares and which is not generally available. These laws may restrict the acquisition or disposal of Shares by you during the time the holder has such information. Any Plan Shares issued to a holder under the Plan (including upon exercise of Convertible Securities) shall be subject to the terms of the Company's Securities Trading Policy.
Buy-Back	Subject to applicable law, the Company may at any time buy-back Securities in accordance with the terms of the Plan.
Employee Share Trust	The Board may in its sole and absolute discretion use an employee share trust or other mechanism for the purposes of holding Convertible Securities for holders under the Plan and delivering Shares on behalf of holders upon exercise of Convertible Securities.
Maximum number of Securities	The Company will not make an invitation under the Plan which involves monetary consideration if the number of Plan Shares that may be issued, or acquired upon exercise of Convertible Securities offered under an invitation, when aggregated with the number of Shares issued or that may be issued as a result of all invitations under the Plan during the 3 year period ending on the day of the invitation, will exceed 5% of the total number of issued Shares at the date of the invitation (unless the Constitution specifies a different percentage and subject to any limits approved by Shareholders under Listing Rule 7.2 Exception 13(b)). The maximum number of equity securities proposed to be issued under the Plan, following Shareholder approval, is 6,004,000 Securities. It is not envisaged that the maximum number of Securities will be issued immediately.

Amendment of Plan	Subject to the following paragraph, the Board may at any time amend any provisions of the Plan rules, including (without limitation) the terms and conditions upon which any Securities have been granted under the Plan and determine that any amendments to the Plan rules be given retrospective effect, immediate effect or future effect. No amendment to any provision of the Plan rules may be made if the amendment materially reduces the rights of any Participant as they existed before the date of the amendment, other than an amendment introduced primarily for the purpose of complying with legislation or to correct manifest error or mistake, amongst other things, or is agreed to in writing by all Participants.
Plan duration	The Plan continues in operation until the Board decides to end it. The Board may from time to time suspend the operation of the Plan for a fixed period or indefinitely and may end any suspension. If the Plan is terminated or suspended for any reason, that termination or suspension must not prejudice the accrued rights of the Participants. If a Participant and the Company (acting by the Board) agree in writing that some or all of the Securities granted to that Participant are to be cancelled on a specified date or on the occurrence of a particular event, then those Securities may be cancelled in the manner agreed between the Company and the Participant.
Income Tax Assessment Act	The Plan is a plan to which Subdivision 83A-C of the <i>Income Tax Assessment Act 1997</i> (Cth) applies (subject to the conditions in that Act) except to the extent an invitation provides otherwise.

10.7 Interests of directors

Other than as set out in this Prospectus, no Director or Proposed Director holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- (a) the formation or promotion of the Company;
- (b) any property acquired or proposed to be acquired by the Company in connection with:
 - (i) its formation or promotion; or
 - (ii) the Offers; or
- (c) the Offers,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to a Director or Proposed Director:

- (d) as an inducement to become, or to qualify as, a Director; or
- (e) for services provided in connection with:
 - (i) the formation or promotion of the Company; or
 - (ii) the Offers.

10.8 Interests of experts and advisers

Other than as set out below or elsewhere in this Prospectus, no:

- (a) person named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus;
- (b) promoter of the Company; or
- (c) underwriter (but not a sub-underwriter) to the issue or a financial services licensee named in this Prospectus as a financial services licensee involved in the issue,

holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- (d) the formation or promotion of the Company;
- (e) any property acquired or proposed to be acquired by the Company in connection with:
 - (i) its formation or promotion; or
 - (ii) the Offers; or
- (f) the Offers,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to any of these persons for services provided in connection with:

- (g) the formation or promotion of the Company; or
- (h) the Offers.

Valuation and Resource Management Pty Ltd has acted as Independent Technical Expert and has prepared the Independent Technical Assessment Report which is included in Annexure A. The Company estimates it will pay Valuation and Resource Management Pty Ltd a total of \$40,000 (excluding GST) for these services. During the 24 months preceding lodgement of this Prospectus with the ASIC, Valuation and Resource Management Pty Ltd has received \$28,400 in fees from the Company.

Gunderson, Palmer, Nelson and Ashmore, LLP has acted as United States legal advisers and has prepared the Solicitor's Report on Title which is included in Annexure C. The Company estimates it will pay Gunderson, Palmer, Nelson and Ashmore, LLP a total of \$140,000 (excluding GST) for these services. During the 24 months preceding lodgement of this Prospectus with the ASIC, Gunderson, Palmer, Nelson and Ashmore, LLP has received \$93,777 in fees from the Company.

William Buck Audit (Vic) Pty Ltd has acted as Investigating Accountant and Auditor for the Company and has prepared the Independent Limited Assurance Report which is included in Annexure D. The Company estimates it will pay William Buck Audit (Vic) Pty Ltd a total of \$15,000 (excluding GST) for the preparation of the Independent Limited Assurance Report. During the 24 months preceding lodgement of this Prospectus with the ASIC, William Buck Audit (Vic) Pty Ltd has received \$91,798 in fees from the Company.

Jett Capital Advisors will receive those fees set out in Section 4.5 following the successful completion of the Public Offer for its services as Lead Manager to the Offer. Jett Capital Advisors will be responsible for paying all capital raising fees that Jett Capital Advisors and the Company agree with any other financial service licensees. Further details in respect to the Lead Manager Mandate with Jett Capital Advisors are summarised in Section 9.1. During the 24 months preceding lodgement of this Prospectus with the ASIC, Jett Capital Advisors has received \$90,000 in fees from the Company.

Steinepreis Paganin has acted as the Australian legal advisers to the Company in relation to the Offer and has prepared the Solicitor's Report on Title which is included in Annexure B. The Company estimates it will pay Steinepreis Paganin \$140,000 (excluding GST) for these services. Subsequently, fees will be charged in accordance with normal charge out rates. During the 24 months preceding lodgement of this Prospectus with the ASIC, Steinepreis Paganin has received \$83,991 (excluding GST and disbursements) in fees from the Company.

10.9 Consents

Chapter 6D of the Corporations Act imposes a liability regime on the Company (as the offer or of the Shares), the Directors, any persons named in the Prospectus with their consent as proposed Director, any underwriters, persons named in the Prospectus with their consent having made a statement in the Prospectus and persons involved in a contravention in relation to the Prospectus, with regard to misleading and deceptive statements made in the Prospectus. Although the Company bears primary responsibility for the Prospectus, the other parties involved in the preparation of the Prospectus can also be responsible for certain statements made in it.

Each of the parties referred to in this Section:

- (a) does not make, or purport to make, any statement in this Prospectus other than those referred to in this Section;
- (b) in light of the above, only to the maximum extent permitted by law, expressly disclaim and take no responsibility for any part of this Prospectus other than a reference to its name and a statement included in this Prospectus with the consent of that party as specified in this Section; and
- (c) has not withdrawn its consent prior to the lodgement of this Prospectus with the ASIC.

Valuation and Resource Management Pty Ltd has given its written consent to being named as Independent Technical Expert in this Prospectus, the inclusion of the Independent Technical Assessment Report in Annexure A in the form and context in which the report is included.

Steinepreis Paganin has given its written consent to being named as the Australian legal advisers to the Company in relation to the Offers in this Prospectus and the inclusion of the Solicitor's Report on Title in Annexure B in the form and context in which the report is included.

Gunderson, Palmer, Nelson and Ashmore, LLP has given its written consent to being named as United States legal advisers in this Prospectus and the inclusion of the Solicitor's Report on Title in Annexure C in the form and context in which the report is included.

William Buck Audit (Vic) Pty Ltd has given its written consent to being named as Investigating Accountant in this Prospectus and to the inclusion of the Independent Limited Assurance Report in Annexure D in the form and context in which the information and report is included.

William Buck Audit (Vic) Pty Ltd has given its written consent to being named as auditor of the Company in this Prospectus and the inclusion of the audited financial information of the Company in the form and context in which it appears.

Jett Capital Advisors, LLC has given its written consent to being named as the Lead Manager to the Company in this Prospectus.

10.10 Expenses of the Offers

The total expenses of the Offers (excluding GST) are estimated to be approximately \$1,251,000 for Minimum Subscription or \$1,431,000 for Maximum Subscription and are expected to be applied towards the items set out in the table below:

Item of Expenditure	Minimum Subscription (\$)	Maximum Subscription (\$)
ASIC fees	3,206	3,206
ASX fees	182,019	183,483
Lead Manager Fees ¹	720,000	900,000
Legal Fees ²	280,000	280,000
Independent Technical Expert's Fees	40,000	40,000
Investigating Accountant's Fees	15,000	15,000
Printing, distribution and other miscellaneous fees	10,775	9,311
TOTAL	1,251,000	1,431,000

Notes:

1. Refer to Section 9.1 for further details regarding fees payable to the Lead Manager.
2. Including Australian and US legal fees.

11. **DIRECTORS' AUTHORISATION**

This Prospectus is issued by the Company and its issue has been authorised by a resolution of the Directors.

In accordance with section 720 of the Corporations Act, each Director has consented to the lodgement of this Prospectus with the ASIC.

Simon Lill
Non-Executive Chair
For and on behalf of
IRIS Metals Limited

12. GLOSSARY

Where the following terms are used in this Prospectus they have the following meanings:

\$ means an Australian dollar.

AEST means Australian Eastern Standard Time as observed in Melbourne, Victoria.

AGM means the Company's 30 August 2022 annual general meeting.

Application Form means the application form attached to or accompanying this Prospectus relating to the Offer.

Acquisition Agreements has the meaning given to it in Section 5.2.1.

ASIC means Australian Securities & Investments Commission.

ASX means ASX Limited (ACN 008 624 691) or the financial market operated by it as the context requires.

ASX Listing Rules means the official listing rules of ASX.

BLM means Bureau of Land Management.

Board means the board of Directors as constituted from time to time.

Business Days means Monday to Friday inclusive, except New Year's Day, Good Friday, Easter Monday, Christmas Day, Boxing Day, and any other day that ASX declares is not a business day.

CHESS means the Clearing House Electronic Subregister System operated by ASX Settlement.

Closing Date means the closing date of the Offer as set out in the indicative timetable in the Key Offer Information Section (subject to the Company reserving the right to extend the Closing Date or close the Offer early).

Company or IRIS means IRIS Metals Limited (ACN 646 787 135).

Completion means settlement of the Proposed Acquisitions pursuant to the Acquisition Agreements.

Conditional Approval means the letter issued by the ASX to the Company stating that the conditions that are required to be met by the Company in order to re-comply with Chapters 1 and 2 of the ASX Listing Rules for re-quotation of its Shares on the Official List.

Conditions has the meaning set out in Section 4.10.

Consideration Offer means the offer of Securities that is defined in Section 4.6.

Consideration Securities has the meaning given in Section 4.6.

Constitution means the constitution of the Company.

Corporations Act means *the Corporations Act 2001* (Cth).

Current Directors means the directors of the Company at the date of this Prospectus.

Edison Patented Claim means the Edison patented claim near the township of Keystone, including the Edison lithium mine.

Essential Resolutions means the resolutions designated as such in Section 4.10.

Eligible Investor means:

- (a) If in Canada, it (and any person for whom it is acting) is an "accredited investor" within the meaning of National Instrument 45-106 – Prospectus Exemptions, of the Canadian Securities Administrators;
- (b) If in New Zealand, it (and any person for whom it is acting) (i) is an investment business within the meaning of clause 37 of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand) (the FMC Act), (ii) meets the investment activity criteria specified in clause 38 of Schedule 1 of the FMC Act, (iii) is large within the meaning of clause 39 of Schedule 1 of the FMC Act, (iv) is a government agency within the meaning of clause 40 of Schedule 1 of the FMC Act or (v) is an eligible investor within the meaning of clause 41 of Schedule 1 of the FMC Act (and, if an eligible investor, have provided the necessary certification; and
- (c) If in the United States If in the United States, it (and any person for whom it is acting) is an "institutional accredited investor" within the meaning of Rule 501(a)(1), (2), (3), (7), (8), (9) or (12) under the US Securities Act of 1933.

Exercise Period has the meaning given in Section 10.4(c).

Exercise Price has the meaning given in Section 10.4(b).

Existing Projects means the Kookynie Gold Project and Leonora Gold Project.

Expiry Date has the meaning given in Section 10.4(b)(i).

FMC Act means the Financial Markets Conduct Act 2013 (New Zealand).

General Meeting means the general meeting convened by the Company to be held on 5 May 2023.

General Offer means the offer of Shares pursuant to this Prospectus as set out in Section 4.1.

IPO has the meaning given in Section 10.1.

ITAR means the Independent Technical Assessment Report included at Annexure A.

Jasdak means Jasdak Pty Ltd (ACN 661 829 698).

Jasdak Options means the Options to be issued to Jasdak under the Longview SPA, the terms and conditions of which are summarised in Section 10.4.

JORC Code has the meaning given in the Important Notice Section.

Lampam means Lampam Pty Ltd (ACN 006 457 576).

Lead Manager means Jett Capital Advisors, LLC.

Lead Manager Mandate means the agreement with the Lead Manager summarised in Section 9.1.

Lead Manager Offer has the meaning given in Section 4.7.

Lead Manager Options means the Options to be issued to the Lead Manager under the Lead Manager Mandate.

Longview means Longview Minerals, LLC.

Longview Acquisition has the meaning given in Section 9.2.1.

Longview Consideration Securities means the Shares and Options to be issued to Jasdak under the Longview SPA, as set out in Section 4.6.

Longview Properties has the meaning given in Section 5.2.1(a).

Longview Shares has the meaning given in Section 9.2.1.

Longview SPA means the share purchase agreement between Jasdak and the Company, as summarised in Section 9.2.1.

Maximum Subscription means the maximum amount to be raised under the Offer, being \$15,000,000.

Minimum Subscription means the minimum amount to be raised under the Offer, being \$12,000,000.

Notice of Exercise has the meaning given in Section 10.4(d).

Notice or Notice of Meeting means the notice of meeting for the General Meeting published on the ASX on 31 March 2023, including the Explanatory Statement and the Proxy Form.

Offers means the Public Offer and the Secondary Offers.

Official List means the official list of ASX.

Official Quotation means official quotation by ASX in accordance with the ASX Listing Rules.

Option means an option to acquire a Share.

Optionholder means a holder of an Option.

Performance Right means a performance right convertible into a Share.

Plan has the meaning set out in Section 10.6.

PR Recipients has the meaning given in Section 4.8.

Priority Offer means the offer of Shares pursuant to this Prospectus as set out in Section 4.1.

Priority Offer Record Date means 10 March 2023.

Projects means the Existing Projects and the South Dakota Project.

Proposed Acquisitions means the company's Proposed Acquisitions of Longview and the Schad Properties.

Proposed Director means Bruce Smith.

Prospectus means this prospectus.

Public Offer means the offer of Shares pursuant to this Prospectus as set out in Section 4.1.

Public Offer Options means the Options to be issued under the Public Offer.

Public Offer Price means \$1.00.

Recommendations has the meaning set out in Section 8.4.

Re-compliance means the Company re-complying with the admission requirements in Chapters 1 and 2 of the Listing Rules.

Reimbursement Amount has the meaning given in Section 9.2.1.

Re-Instatement means the re-instatement to quotation of the Company's Securities.

Related Parties has the meaning given in Section 4.8.

Royalty has the meaning given in Section 9.2.2.

Royalty Deed has the meaning given in Section 9.2.2.

Schad Acquisition has the meaning given in Section 9.2.2.

Schad Investments means Schad Investments, LLC.

Schad HOA means the heads of agreement agreement between Schad Investments and the Company, as summarised in Section 9.2.2.

Schad Properties has the meaning given in Section 5.2.1(b).

Schad Vendors means Schad Investments and Cody Schad.

Secondary Offer has the meaning set out in Section 4.5.

Section means a Section of this Prospectus.

Securities has the meaning given to that term under the Listing Rules.

Share means a fully paid ordinary share in the capital of the Company.

Shareholder means a holder of Shares.

South Dakota Project means the hard rock lithium South Dakota Project and a number of newly staked claims in South Dakota, including the Longview and Schad Properties.

Talpan means Talpan 2 Pty Ltd (ACN 623 270 940).

US means United States of America.

Vendors means Jasdak, Schad Investments and Cody Schad.

INDEPENDENT TECHNICAL ASSESSMENT REPORT

Presented to:

Iris Metals Limited

IRIS METALS

Date Issued:

14 April 2023

Document Reference	Iris Metals Ltd ITAR Final	
Distribution	Iris Metals Ltd Valuation and Resource Management Pty Ltd	
Principal Author	Louis Bucci PhD BAppSc Hons (Geology) MAIG	 Date: 14 April 2023
Peer Review / VRM Approval	Paul Dunbar BSc Hons (Geology) MSc MINEX M AusIMM M AIG	 Date: 14 April 2023
Report Date	14 April 2023	

Executive Summary

Iris Metals Ltd (Iris or the Company) commissioned Valuation and Resource Management Pty Ltd (VRM) to prepare an Independent Technical Assessment Report (ITAR or the Report) of the mineral assets in which Iris has an interest or has a right to acquire an interest. The ITAR is to be included in a re-compliance prospectus issued by the Company and dated around the date of this Report for an offer of up to 15,000,000 shares at an issue price of \$1.00 each to raise 15,000,000 (before costs) (Prospectus) to facilitate the Company's re-admission to the Official List of the Australian Securities Exchange (ASX).

This Report has been prepared as a public document, in the format of an independent specialist's report and in accordance with the guidelines of the *Australasian Code for Public Reporting of Technical Assessments and Valuations of Mineral Assets* – the 2015 VALMIN Code (VALMIN) and the *Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves* – the 2012 JORC Code (JORC).

This Report is a technical review of the Company's four (4) main mineral projects covering approximately 198km² in the United States of America and ~292.5km² in Australia. The combined Projects cover approximately 490.5km². The general location of the USA Projects is presented in Figure 1, and the Kookynie and Leonora Projects in Figure 2.

South Dakota Projects

South Dakota Projects cover a broad area totalling 198.38km² over 2,387 Claims in the prospective Black Hills region in the USA (Figure 1). The area has been historically explored and mined for spodumene and amblygonite (lithium), as well as columbite, tantalite and beryl mineralization. Lithium-Caesium-Tantalum (LCT) pegmatites have been identified in the Company's Claims and the Company has developed an exploration budget and strategy to better-define these pegmatite systems and to target additional occurrences.

In regard to their overall project portfolio, the Company has decided to preferentially prioritise exploration efforts on the South Dakota Projects, with the proposed exploration designed to directly test identified lithium mineralization in pegmatites via surface sampling and drilling. This strategy is reflected in the Company's exploration proposed budget of \$6.8 million over the next two years. In VRM's opinion, the South Dakota Projects represent an under-explored LCT Pegmatite terrane that has numerous immediate drill targets which justify Iris' prioritisation and proposed exploration program and budget.

Figure 1: Location of Iris' Project in the United States of America.

(Source: Iris)

Kookynie Projects

The Kookynie Projects are located over a broad area ~600km east of Perth and centred approximately 40km south of Leonora (Figure 2). The Project consists of four (4) granted Exploration Licences, twenty-five (25) granted Prospecting Licences (three of which are in the process of being converted to Mining Leases), one (1) granted Mining Licence and three (3) Mining Licence Applications totalling 28.54 km². The mineralization model for exploration is primarily Orogenic lode gold, and Iris has developed an exploration budget and

strategy based on the previous exploration and largely untested existing targets. The proposed exploration plans to test identified high-priority targets with efficient surface and subsurface geochemical sampling techniques. The budget for proposed for exploration over the next two years irrespective of whether the minimum or maximum subscription is raised is reflective of minimal expenditure until such further time that a corporate decision is made with respect to the future direction of the Kookynie Project. In VRM's opinion, this budget and work program is justified in consideration of Iris' overall portfolio of Projects.

Figure 2: Location of Iris Projects in the Western Australia.

(Source: Iris)

Leonora Project

The Leonora Project exhibit similar mineralization styles as at Kookynie, located approximately 50km northeast of Leonora (Figure 2). The Project consists of forty-one (41) granted Prospecting Licences, totalling 70.84km², with the package not having seen systematic and persistent exploration historically. The projects display similar mineralization styles as at Kookynie, and Iris proposes to implement exploration programs to test identified high-priority targets. The budget for proposed for exploration over the next two years irrespective of whether the minimum or maximum subscription is raised is reflective of minimal expenditure until such further time that a corporate decision is made with respect to the future direction of the Leonora Project. In VRM's opinion, this budget and work program is justified and in line with the Company's exploration strategy.

Patterson Province Project

The Patterson Province Project is a conceptual target following an Iron Oxide Copper Gold mineralization model, covering a tenement of approximately 193.1km². Given the early nature of the Project, the company has rightly allocated minimal expenditure budget of irrespective of subscription size until such further time that a corporate decision is made with respect to the future direction of the Patterson Province Project. In VRM's opinion, this budget and work program is justified.

Exploration Budget

Iris has proposed a total exploration budget of \$7.8 million within the granted tenements, which represents the primary use of funds from the proposed capital raising. Residual capital raised relative to the maximum subscription will be utilised for project acquisitions. The Company's exploration budget consists of \$3.91 million in the first year and \$3.91 million in the second year following the completion of the offer.

VRM has reviewed the budget and work program and considers that the lithium and gold targets presented justify additional work, with the budgets reasonable, appropriate and in line with the current exploration costs. It is, in the opinion of VRM, considered likely that ongoing, targeted, and modern exploration activities would further extend known mineralisation and identify additional mineralisation. Subject to Iris obtaining sufficient funding, it is VRM's recommendation that the proposed work programs be carried out.

A summary of the exploration budgets of the Company's projects is presented in Section 8.

Should the minimum subscription be raised under the Offer, VRM considers that the Company will have sufficient working capital to carry out its stated objectives, maintain the tenements in good standing by meeting or exceeding tenement expenditure commitments and also satisfy the requirements of the ASX Listing Rules.

Conclusions

Iris Metals holds 2,387 Claims in the USA and three (3) exploration Projects within Western Australia. There are no JORC Code 2012 Mineral Resource estimates within any of the Projects.

In the USA, the Claims are divided into numerous Project areas and are considered highly prospective for lithium as associated with LCT pegmatites, which have been mined in the region since the early 1900's, but not have not seen any modern-day exploration. Preliminary site investigations by Iris geologists have identified numerous strike-extensive Li-rich pegmatites in addition to those reported historically, and the Company is rightly focussing their primary efforts within those Claims. In VRM's opinion, the potential for the discovery of additional LCT Pegmatites is considered high and warrants further exploration testing at the levels proposed by the Company.

The WA Projects are predominantly prospective for Archean Orogenic lode gold mineralization with a range of priority targets planned for follow-up drilling of mineralisation. In addition, the Company holds a conceptual exploration target area in the Pilbara (Patterson Province Project), considered by Iris to be prospective for copper-gold mineralization of an iron oxide copper gold affinity. Although prospective in their own right, the Company has decided to primarily focus the majority of their exploration efforts to the USA Projects, and this is reflected in the relative allocation of the proposed exploration budgets between Projects.

The exploration strategy, programs and budgets prepared by the Company are consistent with the findings of this Report, and VRM considers that the identified targets have sufficient technical merit to justify the proposed programs and associated expenditure. The proposed exploration budget exceeds the minimum statutory annual expenditure commitments for the tenements (assuming all tenements are granted), which is \$0.570 million, and only relates to the Australian tenements.

1. Introduction

Valuation and Resource Management Pty Ltd (VRM) was engaged by Iris Metals Limited (Iris or the Company) to prepare an Independent Technical Assessment Report (Report or ITAR) on the mineral assets in which Iris has an interest or has a right to acquire an interest, for inclusion in a prospectus to be issued by the Company for an offer of up to 15,000,000 shares at an issue price of \$1.00 each to raise up to a total of \$15,000,000 (before costs) (Prospectus). The mineral assets comprise Projects covering 2,387 Claims in the Black Hills area of South Dakota and three (3) Projects in the Eastern Goldfields of Western (together the Mineral Assets).

1.1. Compliance with the JORC and VALMIN Codes and ASIC Regulatory Guides

In preparing the ITAR, VRM has applied the guidelines and principles of the *Australasian Code for Public Reporting of Technical Assessments and Valuations of Mineral Assets* – 2015 VALMIN Code (VALMIN) and the *Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves* – the 2012 JORC Code (JORC). Both industry codes are mandatory for all members of the Australasian Institute of Mining and Metallurgy (AusIMM) and the Australian Institute of Geoscientists (AIG). These codes are also requirements under Australian Securities and Investments Commission (ASIC) rules and guidelines and the listing rules of the Australian Securities Exchange (ASX).

This ITAR is a Public Report as described in the VALMIN Code (Clause 5) and the JORC Code (Clause 9). It is based on, and fairly reflects, the information and supporting documentation provided by Iris and previous owners and associated Competent Persons as referenced in this ITAR and additional publicly available information.

1.2. Scope of Work

VRM's primary obligation in preparing this ITAR is to independently describe mineral projects applying the guidelines of the JORC and VALMIN Codes. These require that the Report contains all the relevant information at the date of disclosure, which investors and their professional advisors would reasonably require in making a reasoned and balanced judgement regarding the projects.

VRM has compiled the Report based on the principle of reviewing and interrogating both the documentation of Iris and other previous exploration within the area. This Report is a summary of the work conducted, completed, and reported by the various explorers to 5 April 2023 based on information supplied to VRM by Iris and other information sourced in the public domain, to the extent required by the VALMIN and JORC Codes.

VRM understands that its review and report will be included in the Prospectus, and as such, it is understood that VRM's review will be a public document. Accordingly, this report has been prepared in accordance with the requirements of the 2015 VALMIN Code.

1.3. Statement of Independence

VRM was engaged to undertake an ITAR of the tenements and tenement applications in which Iris has an interest. This work was conducted applying the principles of the JORC and VALMIN Codes, which in turn reference ASIC Regulatory guide 111 Content of expert reports (RG111) and ASIC Regulatory guide 112 Independence of Experts (RG112).

Mr Paul Dunbar and Dr Louis Bucci of VRM have not had any association with Iris, its individual employees, or any interest in the securities of the Company or potential interest, nor are they expected to be employed by the Company after the initial public offering (IPO), which could be regarded as affecting their ability to give an independent, objective, and unbiased opinion. VRM will be paid a fee for this work based on standard commercial rates for professional services. The fee is not contingent on the results of this review and is estimated to be approximately \$40,000.

1.4. Competent Persons Declaration and Qualifications

This Report was prepared by Dr Louis Bucci as the primary author and peer reviewed by Mr Paul Dunbar.

The Report and information that relates to geology, exploration, and the assessment of planned exploration programs is based on information compiled by Dr Louis Bucci, PhD, BAppSc (Hons), a Competent Person who is a member of the AIG. Dr Bucci is an associate of VRM and has sufficient experience, which is relevant to the style of mineralisation, geology, and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person under the 2012 JORC Code. Dr Bucci consents to the inclusion in the report of the matters based on her information in the form and context in which it appears.

The Peer Review was completed by Mr Paul Dunbar, BSc (Hons), MSc, a Competent Person who is a member of the AusIMM and the AIG. Mr Dunbar is a Director of VRM and has sufficient experience, which is relevant to the style of mineralisation, geology, and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person under the 2012 JORC Code and a Specialist under the 2015 VALMIN Code. Mr Dunbar consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

1.5. Reliance on Experts

The authors of this Report are not qualified to provide extensive commentary on the legal aspects of the tenure of the mineral properties or the compliance with the legislative environment and permitting in the USA or Western Australia. In relation to the tenement standing within Western Australia, VRM has relied on the information publicly available on the Department of Industry and Resources (DMIRS). On this basis VRM has confirmed the tenements are located in Western Australia government records and understands that the tenements are in good standing and has confirmed such with Iris. Regarding the legal standing of the Claims (USA) and tenements (WA) that constitute the projects, VRM directs the reader to both the US and Australian Solicitor's Reports included in the Prospectus to which this Report is appended.

In respect of the information contained in this Report, VRM has relied on:

- Information and Reports obtained from Iris, including but not limited to:
 - Presentation material including several cross sections and plans.
 - Annual Technical Reports for the tenements.
 - WAMEX Reports for each of the project areas.
 - Iris Metal's internal reports.
- Various ASX releases including from previous owners and neighbouring companies.
- Publicly available information including several publications on the regional geology by the Geological Survey of Western Australia (GSWA) and the US Geological Survey (USGS) and other subdivisions of the US Department of the Interior.
- Government Regional WA datasets and other regional datasets, including geological mapping and explanatory notes.

1.6. Sources of Information

All information and conclusions within this Report are based on information Iris made available to VRM to assist with this Report and other relevant publicly available data to 5 April 2023. Reference has been made to other sources of information, published and unpublished, including government reports and reports prepared by previous interested parties and joint venturers to the areas, where it has been considered necessary. Significantly a significant portion of the exploration activities on the Australian projects has been sourced from various Iris ASX releases since its listing on the ASX including the initial prospectus. VRM relies on the competent persons and disclosures contained in the previous ASX releases and has summarised the previous exploration activities rather than re reporting the previous exploration. VRM has, as far as possible and making all reasonable enquiries, attempted to confirm the authenticity and completeness of the technical data used in the preparation of this Report and to ensure that it had access to all relevant technical information. VRM has relied on the information contained within the reports, articles and databases provided by Iris as detailed in the reference list. A draft of this Report was provided to Iris for the purpose of identifying and addressing any factual errors or omissions prior to finalisation of the Report.

1.7. Site visit

No site visits were conducted to the Projects during the preparation of this Report. VRM has reviewed reports for previous exploration and considers that a site visit would not reveal any additional information that would change the recommendations or make a material difference to the contents and of this report. All the projects are considered to be early-stage exploration projects with minimal recent exploration activities.

During the last 25 years Dr Bucci has undertaken site visits to several mines and exploration sites similar in geological settings to those described for the South Dakota Projects (primarily in Nevada and Alaska USA,

and Yukon, Northwest Territories and British Columbia Canada). Similarly, Dr Bucci and Mr Dunbar have undertaken innumerable site visits in the Eastern Goldfields, Coolgardie and Kurnalpi Domains, the broader Leonora-Laverton region and the Pilbara. Previous site visits have been conducted to lithium and gold projects across various deposit models hosted in or spatially related to granitic rocks, as well as mafic and ultramafic volcanic and felsic to intermediate volcanic / volcanoclastic rocks displaying various lithium and gold mineralization styles.

2. Mineral Assets

The Mineral Assets in this review include a large Claim holding in South Dakota, USA and three active Projects within the Eastern Goldfields and Pilbara Regions of Western Australia. The locations of the Projects are shown in Figure 1 and Figure 2, respectively.

2.1. Mineral Tenure

The tenement schedule pertaining to the Mineral Assets is given in Appendix A. The Western Australian tenements have been validated via checking with the DMIRS Mineral Titles Online database. The reader is referred to the US Solicitors Report for additional information on the Claims in the USA.

South Dakota Projects cover a broad area totalling 198.38km² over 2,387 Claims in the prospective Black Hills region in the USA (Figure 1). The Western Australian Projects which cover 292.5km², consist of five granted Exploration Licences, 66 granted Prospecting Licences, one granted Mining Leases and three Mining Lease applications which are conversions of three granted Prospecting Licences.

VRM has made all reasonable enquiries regarding the status of these tenements and confirms that to the best of VRM's knowledge these tenements remain in good standing with all statutory filings, reports and documentation supplied to the various government departments. As VRM and the authors of this Report are not experts in the mining acts for South Dakota or Western Australia, no warranty or guarantee, be it expressed or implied, is made by VRM with respect to the completeness or accuracy of the legal aspects regarding the security of the tenure. VRM relies on the various government databases and websites which confirm Iris's tenements are, at the time of this Report, in good standing. Further information is provided in the Solicitor's Report on Claims (USA) and tenements (WA) discussed in the Prospectus.

3. South Dakota Projects

This report is the first reporting of the geology and exploration history within the South Dakota projects owned by Iris and as such this report contains the required JORC table 1 for the previous exploration activities on the extensive mineral claims.

3.1. Location, Access, and Climate

Iris holds a significant ground position in the historic mining region of the Black Hills of South Dakota, USA (Figure 3). The Projects are located approximately 75 km southwest from Rapid City, inside the boundaries of Black Hills National Forest. The main access is along the US-16 W, and then by the Sidney Park Road and Flynn Creek Roads to various Project sites.

The Company controls 2,387 Claims covering approximately 49,021 acres (198.38km²) over ground considered prospective for lithium pegmatites of the lithium-caesium-tantalum (LCT) style. The area has been sporadically mined since 1898 for Li-bearing spodumene and amblygonite (containing up to 7% and 10% Li₂O, respectively; see DeWitt *et al.*, (1986) and references therein), and the company has divided the holding into four (4) key Project areas; Custer, Helen Beryl, Dewy and Ruby (Iris, 2022c; Figure 3).

The climate in this area is seasonal, with January and February being the coldest months with daytime temperatures averaging 0° to 15°C, and low temperature averages from -5° to -10°C. Average monthly snowfall ranges from 15 – 40cm. During summer, July and August are the warmest months of the year, with daytime temperatures between 20°-30°C albeit low humidity. Low temperatures average between 5° - 10°C. In VRM's opinion, although more difficult in the winter months from a logistics perspective, exploration can be carried out in this region broadly year-round.

3.1. Geological Setting and Mineralization

The overall Project area is characterised by Precambrian metamorphic and igneous rocks with surrounding Palaeozoic sedimentary sequences; uplift and erosion due to doming is estimated as Tertiary in age (Redden, 1959).

Metamorphic sequences include quartzite and other metasedimentary rocks of the Beecher Metamorphic Complex. These include phyllite, muscovite-sericite ± biotite ± kyanite ± garnet schist, hornblende-plagioclase-quartz ± actinolite amphibolite, and contact hornfels zones proximal to intrusive sequences DeWitt *et al.*, 1986).

Intrusive rocks include quartz-orthoclase-microcline pegmatite with subordinate mica (muscovite) pegmatite, and fewer albite ± apatite ± tourmaline ± beryl pegmatites. The Beecher metamorphic complex is interpreted as the major host rock of pegmatite, which is lithium-bearing as determined through documentation of spodumene and amblygonite, as well as columbite, tantalite and beryl (Page, 1953).

Figure 3: Location of the South Dakota Projects in USA

(Source: Iris)

Historic pegmatite production centres for various commodities and precious stones are distributed throughout the region, with a large percentage positioned within the Custer and Helen Beryl Projects (Figure 4).

3.2. Custer Project Area

The Custer Project has been the primary focus of the Company, with their initial efforts on the Beecher area, which is located ~10km south of Custer city in the broadly western central part of the Custer Project area (Figure 5). The Beecher area consists of four (4) historic pits and 1 tunnel that have been mined to extract Lithium minerals, especially spodumene (see Lincoln, R and Others, 1953). Trending north to south within the area, the main prospects are: Long View, Beecher#1, Beecher#2, and the south extension of Beecher#2 (Figure 5).

3.2.1. Previous Exploration

The area has seen little modern-day exploration, with previous efforts limited to early 20th century prospecting and ad hoc mining within historic open pits, adits / tunnels, and limited underground development (DeWitt *et al.*, 1986). Given the extensive distribution of pegmatite-related occurrences in the region (Figure 4), the Company has chosen to primarily focus on the aforementioned prospects, which are reflected in this discussion on previous exploration.

The Beecher #1 prospect represents the oldest historic mine in Beecher area and the first work was carried out by Bond and Sutherland in 1900 (Lincoln, R and Others, 1953). It is reported that the excavation of three large open pits was completed from 1925 to 1934, with the mining of spodumene, columbite, and beryl the primary focus. Many small pits and trenches on the property were excavated to remove large individual spodumene crystals and six diamond drill holes were completed between 1941 and 1942 (Lincoln, R and Others, 1953).

Reported production data from the Beecher Lode are incomplete, but the available information notes extraction of columbite (25t), Beryl (100t), spodumene (50t), amblygonite (1,970t), and tantalite (33t) (Lincoln, R and Others, 1953).

Figure 5: Location of the Beecher area and proximal prospects within Iris' Claims

(Source: Iris)

3.2.2. Recent Exploration

Beecher

A first round of outcrop mapping (1:200 scale) has been completed and has confirmed an extensive strike length of prospective pegmatite intrusions at Beecher (Figure 6). This correlates with and exceeds historic reports of the Beecher pegmatite "lode" being lenticular in shape, ~ 265m in length and estimated as being up to 25m in thickness (Gonzaga, 2022a).

Potential for Li mineralization within pegmatite at Beecher is supported by the presence of spodumene, with crystal sizes reportedly ranging from 0.1 to 3 meters (Figure 7). The biggest crystal sizes are observed in the Beecher #1 and #2 pits, but in turn have the lowest density compared to Long View pit where the crystals are smaller but have the highest density. Kunzite and hiddenite have further been identified, as well as lepidolite.

As part of the mapping works a handheld Laser Induced Breakdown Spectroscopy (LIBS) unit was utilised to measure elemental concentrations in samples. Although not a conclusive analytical technique, the LIBS provides indicative qualitative and quantitative analysis of samples for Li %, which can then be validated through laboratory analysis. Utilisation of a LIBS unit is now standard common practice in modern exploration.

Figure 6: Fact (left) and interpreted geology (right) of the Beecher area.

(Source: Gonzaga, 2022a)

Figure 7: Spodumene crystal sizes within the Beecher prospect area.

(Source: Gonzaga, 2022a)

Preliminary LIBS analysis at Beecher defines anomalous lithium rich pegmatites. The highest results are located in open pits, but other significant values have been identified in newly mapped outcrops along the same trends, which in turn extend the interpreted strike extent of mineralization.

Figure 8: Preliminary LIBS mapping results at Beecher.

(Source: Gonzaga, 2022a)

Long View

At Long View preliminary mapping has been undertaken, as well as developing and sampling three (3) trenches within a historic pit, and 142 rock channel samples have been collected (Gonzaga, 2022c). Detailed mapping has identified two (2) types of intrusive rocks cutting the Beecher metamorphic sequence:

- Medium to coarse-grained granite, with abundant greenish tourmaline (up to 7 %), cut by late LCT pegmatite dyke swarms; and

- Very coarse to extremely coarse-grained LCT pegmatite typically composed of K-feldspar, quartz, plagioclase, muscovite, spodumene. and apatite.

In addition, four (4) mineralogically distinct zones have been defined, with demonstrative association to Li mineralization is specific zones (Figure 9):

- *K-feldspar – Quartz ± Plagioclase zone*: largest zone hosting most of the mineralization (spodumene). K-feldspar is the predominant gangue mineral up to 0.5 meters in size;
- *Spodumene - Quartz zone*: associated with massive mineralization (spodumene) with minor quartz intergrowths and rare K-feldspar, plagioclase, or muscovite;
- *Plagioclase ≥ Quartz ± Muscovite ± K-feldspar* hosts sporadic discontinuous zones of spodumene and tends to decrease moving south; and
- Muscovite – Plagioclase – Quartz: least mineralized zone.

This mineral zonation will be used by the Company as an exploration vector in future works. As is the case at Beecher, Li mineralization is expressed as extensive development of spodumene in trenches and outcrop (Figure 10), with LIBS analysis further validating their potential.

Figure 9: Interpreted geological mapping and alteration zonation at the Long View prospect.

(Source: Gonzaga, 2022c)

Figure 10: Spodumene crystals exposed in the Long View trenches.
(Source: Gonzaga, 2022c)

3.3. Edison Mine Area

The Edison Mine is located within the Keystone Claims (Figure 3), approximately 2km to the southeast of Keystone and 26km to the southwest of Rapid City within the Black Hills National Forest. The Edison Mine commenced production in 1917 however the principal production was between 1942 and 1944 (Stoll and Hall 1942, Page et.al., 1944). Stoll and Hall (1942 and Page et.al. (1944) detailed geological logging for twelve diamond drill holes in the region with these all intersecting LCT pegmatites.

There has been minimal additional exploration within the claims other than recent mapping. This work has identified that the pegmatites are zoned with a central core that is consistent with other LCT pegmatites in the district.

3.4. Exploration Potential

The South Dakota Projects are located within a region that has seen extensive historic mining of intrusion-related metals, with demonstrable LCT Pegmatites identified in outcrop, historic open pits, and exploration trenches. Most of the significant mining activity in the region was completed mid-previous century and was largely within small workings developed through rudimentary hand-mining techniques. Subsequent exploration in the area has been limited to surface mapping and opportunistic grab sampling of outcrop, with occasional trenching and sample pits developed.

The mapping, trenching and LIBs analysis work by Iris represents the most recent modern-day exploration in the area covered by Iris' Claims, and has identified numerous strike-extensive Li-rich pegmatites in addition to those reported historically. The Company has developed a mineralogical model for the zonation of Li-rich mineralization in at least two (2) of the Project areas and is applying that knowledge in their exploration targeting strategy. Given the extensive distribution of pegmatite-focussed mines in the Custer Project area, the Company is rightly focussing their primary efforts within those Claims. The potential for the discovery of additional LCT Pegmatites is considered high warrants further exploration testing.

4. Australian Projects

The Location, access, Geology exploration history and recent exploration within the Australian Projects is a summary of various Iris ASX releases since listing. The ASX releases include the prospectus (ASX release 21 September 2021), and several ASX releases especially the ASX release of drilling results on 21 February 2022.

To the extent that previous Iris ASX releases and the results therein have been referred to, VRM confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcement.

Figure 11: Location and access to the Kookynie Projects

(Source: Iris)

4.1. Kookynie Projects

4.1.1. Location, Access, and Climate

The Kookynie Projects are located over a broad area ~600km east of Perth and consists of four (4) granted Exploration Licences, twenty-five (25) granted Prospecting Licences, one (1) granted Mining Licence and three (3) Mining Licence Applications (& Figure 12). The tenements are located north and southwest of the historic Kookynie mining centre, approximately 200km to the north of Kalgoorlie. Tenements are accessed via an all-weather gravel road from Kookynie township. Figure 12 shows the tenements that were included in the initial prospectus with additional tenements (in blue) that were acquired in September 2022 (Iris ASX release 26 September 2022).

Regional Geological Setting and Mineralization

The Kookynie Projects are situated within the Norseman-Wiluna greenstone belt of the Eastern Goldfields Province of the Yilgarn Craton (and Figure 12). The overall Project areas are located on the Melita and Yerilla 1:100,000 geological map sheets, and a detailed discussion of the regional lithostratigraphic and structural evolution of the region can be found therein (see Witt, 1994; Oversby, Vanderhor, and Whitaker, 1996).

The immediate Kookynie area contains many historic gold production areas with the production within the Iris tenements detailed in Table 1.

4.1.1. Lily Prospect

The Lily Prospect is located within tenements P40/1471 and P40/1489, the later mantling the previous (Figure 12). The Lily Prospect occurs within the Niagara Gabbro Complex and is associated with an interpreted broadly northeast striking shear zone which contains numerous historic workings (see WAMEX 91603). The Niagara Gabbro is often reported with mineralization hosted as quartz veins in weathered dolerite (WAMEX 54270).

4.1.2. Treasure-Whale Prospect

The Treasure-Whale Prospect (Figure 12) trends across tenements P40/1333 and P40/1334. The area has reported historical production from a number of locations within the tenements, with the main sources being the Britannia mine (13,840 oz produced) and the Whale operation (2,600 oz produced) (WAMEX 36903). Total historical production from P40/1333 is recorded as 14,308 ounces and from P40/1332 production is 4,320 ounces (WAMEX 60355).

Figure 12: Geological Setting of the Kookynie Project, gold occurrences and significant intersections from for Iris's maiden drilling program.

(Source: Iris Metals 2022b and CP statement therein)

Table 1: Significant gold production reported for areas within the Iris tenements.

Tenement	Production Area	Reported Production (t)	Reported Au Grade (g/t)	Gold (Oz)
P40/1333	Britannia	16,206	25.6	13,840
P40/1334	Whale	1983	40.8	2,600
P40/1334	Treasure	587	29.3	554
P40/1334	Ballarat	730	28.7	673
P40/1413	Rise and Shine	622	26.5	529
P40/1494	Eureka	696	26.0	581
P40/1471	Lily	650	63.8	1,333

(Source: WAMEX and Mindex)

4.1.3. Rise and Shine Prospect

The Rise and Shine Prospect is located within tenements P40/1413 and P40/1385 and is characterised by historic drilling and surface exploration workings across both tenements (Figure 12). Historical mining reportedly commenced in 1898 within quartz veins at shallow depths, with reported production of 622 tonnes for 532 ounces gold between 1902 and 1906 (WAMEX 95097). Most of the gold mineralisation reportedly occurred in quartz veins or stockworks containing free gold with minor associated sulphides (mainly pyrite). Previous explorers report relatively flat, southerly-dipping, east to northeast-striking quartz veins and stockworks over the tenement P40/1413 area. Extensive alluvial and surficial workings are also reported as having contained gold; however, no quantum of retrieved gold is reported from these sources (WAMEX 105985).

4.1.4. Exploration by Iris

In October 2021, the Company completed a high-resolution aeromagnetic and radiometric survey over the Kookynie Project tenements. The data was collected at 50m line spacing and average sensor height of 30m above ground level. The survey comprised 6,342-line kilometres in total (see Iris Metals, 2021 and CP statement therein). Interpretation of the airborne geophysical data by the Company has identified twenty-four (24) high priority structural geological targets, considered prospective for gold mineralization (Figure 13). It should be noted these targets are in addition to the Company's existing gold prospects which are drill-ready targets as based on historic exploration work.

In February 2022, the Company released results from their maiden drilling campaign (Figure 12). RC drilling at the *Lily* prospect tested the strike and depth extent of previously reported mineralisation. The RC drilling at Lily intercepted high-grade gold mineralisation in a quartz vein within a broad shallow dipping zone of sheared dolerite persistent over several drill lines, with the ENE trending mineralised shear projecting from near surface, down dip to fresh dolerite. It remains open down dip and along strike to the ENE (see Figure 14 and Figure 15). Peak intervals in the drilling included (see Iris Metals, 2022b and CP statement therein):

- 8m @ 3.9 g/t Au from 17m, including 1m @ 7.6 g/t Au (LYRC005);
- 5m @ 6.1 g/t Au from 34m, including 1m @ 22.7 g/t Au (LYRC007);
- 5m @ 3.0 g/t Au from 26m, including 1m @ 6.7 g/t Au (LYRC006);
- 6m @ 3.7 g/t Au from 16m, including 1m @ 12.4 g/t Au (LYRC030);
- 5m @ 3.3 g/t Au from 45m, including 1m @ 8.3 g/t Au (LYRC032); and
- 4m @ 2.6 g/t Au from 25m, including 1m @ 7.8 g/t Au (LYRC035).

Figure 13: High resolution TMI aeromagnetic survey data covering all of Iris's Kookynie tenure with major gold prospects labelled and all significant historical gold occurrences shown as yellow dots.

(Source: Iris Metals, 2021)

(Source: Iris Metals 2022b and CP statement therein)

Figure 15: Lily Cross Section looking West, mineralization remains open down dip.
(Source: Iris Metals 2022b and CP statement therein)

Also included in the February 2022 ASX release were the results of drilling within the Treasure-Whale Prospect (Figure 12) which confirmed high-grade gold down dip of the historic Whale and Treasure workings. In addition to a discrete high-grade intercept down dip from the Whale shaft, intervals of silica-pyrite-arsenopyrite alteration containing gold mineralisation were intercepted further downhole (see Iris Metals, 2022b and CP statement therein). Peak gold intervals at Whale and Treasure included:

- 1m @ 8.2 g/t Au from 29m (TWRC018);
- 4m @ 0.7 g/t Au from 35m,
- 1m @ 1.0 g/t Au from 50m (TWRC018); and
- 1m @ 1.2 g/t Au from 67m at end of hole (TWRC019, Hole ended in mineralisation)
- 3m @3.1 g/t Au from 27m (TWRC013);
- 1m @2.7 g/t Au from 9m (TWRC013);
- 2m @1.8 g/t Au from 14m (TWRC010); and
- 1m @2.1 g/t Au from 35m (TWRC012).

Drill results from the Rise and Shine Prospect, as well as Big E, positioned ~700m to the South-West of Rise and Shine (Figure 12) were also contained in the February 2023 ASX release. Drill assay results included.

Significant drill intersections at Rise and Shine included:

- 3m @ 2.9 g/t Au from 42m (RSRC030);
- 1m @ 2.4 g/t Au from 11m (RSRC008);
- 5m @ 1.3 g/t Au from 55m (RSRC012); and
- 5m @ 1.0 g/t Au from 18m (RSRC016).

Peak gold intervals at Big E included:

- 1m @ 18.3 g/t Au from 9m (BERC004); and
- 1m @ 6.6 g/t Au from 15m (BERC002).

4.2. Leonora Project

4.2.1. Location, Access, and Climate

The Leonora Project consists of forty-one (41) granted Prospecting Licences for a total of 7,04.21 hectares of ground (Figure 2). The Project is located ~240 km north of Kalgoorlie and 60km northeast of Leonora and consists of two large contiguous groups tenements being the Chain Bore Project and the Little Dipper Project. Access to the overall Project area is via the sealed Leonora – Nambi road, and then by way of an all-weather dirt road from Mertondale. Within the project tenements access is via station tracks which can be restricted in wet conditions.

The climate of the region is listed as arid to semi-arid, with temperatures ranging from an average minimum in winter of 5°C to an average maximum in summer of 35°C with occasional days up to 46°C (www.bom.gov.au). Precipitation averages at 200 mm per annum.

In VRM's opinion, and based on experience working in the area, the climatic conditions do not have a significant impact on the ability to undertake exploration throughout the year.

4.2.2. Geological Setting and Mineralization

The Leonora Project is located within the Kurnalpi Domain of the Eastern Goldfields Province of Western Australia, immediately adjacent to the Mertondale Shear Zone. The elongated and fault bound nature of this granite- greenstone terrain is structurally very complex, with extensive folding and faulting (Swager, 1995). Interpretations of the crustal-scale structures indicate that they are deep features that potentially link the Celia Lineament to the north and the major Keith-Kilkenny tectonic zone further south (Williams et al., 1989).

The geology of the overall area is dominated by pillow basalts intercalated with felsic to intermediate volcanic, volcanoclastic, and ultramafic rocks (Swager, 1995). Regional metamorphism is mid to upper greenschist facies. These supercrustal sequences have been multiply intruded by gabbro-dolerite sills, dykes and granitoids of varying composition. These intrusive rocks are variably reported to be associated with mineralization (see Champion and Sheraton, 1993 & 1997).

From a regional geological perspective, the Leonora Project tenements are positioned on the western limb of the Benalla anticline. Previous workers interpret this limb to be overturned and comprised of felsic to intermediate volcanoclastic rocks intruded by a series of dolerite and gabbroic sills. Post-folding late-stage faulting offsets the stratigraphy, (Kubale, 2018). Transported and residual regolith, calcrete and strongly laterised coarse scree of ironstone material, quartz and banded iron formation largely conceals the bedrock resulting in limited outcrop exposure. The depth of weathering is reportedly variable, ranging from ~ 10m to 65m, and averaging about 35m depth.

4.2.3.Chain Bore Project

Located on the western limb of the Benalla Anticline, the Chain Bore Project is positioned within a structurally complex zone between the Keith-Kilkenny and Celica Tectonic Lineaments (Figure 16). The Mertondale Project of Kin Mining is located to the northwest of the Project area (11.1Mt @ 1.24 g/t Au for 445,000ozs; <https://www.kinmining.com.au/projects>).

The local geology of the western portion of the Project is interpreted to include a felsic volcanic sequence intruded by a north-northwest striking gabbro-dolerite unit (WAMEX 42731). Felsic volcanic and volcanoclastic sedimentary rocks constitute the remainder of the Project area. Detailed local geology is hindered due to deep surficial weathering and cover, with only isolated outcrop and a paucity of drilling. Regolith material is interpreted to be partially transported (WAMEX 124491).

The Chain Bore Project has several areas of historic gold workings, with numerous proximal gold deposits on adjacent tenements. Mineralization appears to be fracture-controlled and hosted by either quartz vein sets or by alteration haloes around the veins (WAMEX 124491). Identification of this mineralization style has prompted Iris to utilise an Orogenic lode gold model (Groves et al., 1998) as their primary exploration targeting strategy.

Figure 16: Geological setting of the Chain Bore Project with significant intersections from historic exploration.
(Source: Iris Metals 2022a)

4.2.4.Exploration by Iris

In January 2022, the Company announced that a high-resolution aeromagnetic survey had been completed over the entire Leonora Project, and that processing and interpretation of the data has identified 7 high priority target areas (Figure 17). The Company reported that the geological team has reviewed all new available data, which has improved interpretation and modelling of the bedrock geology and structural framework, as well as identified new untested structural targets in an area of deeper surficial cover.

Figure 17: High resolution TMI aeromagnetic survey data covering all of Iris's Leonora tenure.
(Source: Iris Metals 2022a)

4.2.5. Little Dipper Project

The Little Dipper Project comprises the southern group of tenements within the broader Leonora Project, and is underlain by basalt, doleritic and gabbroic rocks, with minor chert units (Figure 18). The lithostratigraphy trends broadly northeast and the rocks have been exposed to several periods of weathering and erosion, resulting in a complex regolith profile. Potentially mineralised structures in the area are hosted within flat-lying quartz veined basalt which dips shallowly to the east-southeast. The structure has a consistent infilling of white bucky quartz with a thickness from 2m to 4m, displaying gold grades both above and below the quartz (WAMEX 43666).

Figure 18: Geological setting of the Little Dipper Project showing significant historic exploration results.

(Source: Iris Metals 2022a)

Previous Exploration

Historic mining over the Little Dipper tenements has been reported over five (5) production areas / deposits, with past production presented in Table 2.

Table 2: Production history summary within the Little Dipper tenement area

Mineralized Area	Tonnes Processed	Grade Au (g/t)	Total Ounces	Year
May Queen	74.47	22.9	54.7	1899
Brilliant	38.36	3.6	4.5	1899
Triumph	34	26.5	30.0	1899
Triumph Extended	15	8	3.9	1899
Narcissus	19	46.2	28.2	1898
TOTAL		20.9	121.3

4.3. Exploration Potential – Kookynie and Laverton Projects

An area of demonstrable gold mineralization and production, the Kookynie Projects represent a series of Prospects that have seen historic exploration efforts with varying degrees of success. Mineralization occurs within host rocks of Archean age and varying composition (mafic through to felsic) but is generally associated with sulphide-rich quartz veins and/or stock works, with strong structural controls spatially and temporally associated with regional-scale structures. Gold mineralization of an Orogenic lode gold style is the primary target.

At *Lily*, known gold reefs have produced ~1,300 oz of gold, and have been intersected by non-systematic drilling focussed on historic workings. Multiple intercepts of syngenetic mineralisation have been documented, with supergene enrichment within lateritic and transported cover sequences also noted. A preliminary drilling program by Iris in October 2021 tested the strike and depth extent of previously reported ENE-striking mineralisation in quartz veins in sheared dolerite and confirmed that the mineralised shear extends from near surface, down dip to fresh dolerite, and remains open down dip and along strike to the ENE. VRM considers Lily as representing a viable and justified target for future exploration efforts.

At *Treasure-Whale*, the broader tenement is dominated by biotite monzogranite and syenitic rocks, with identified mineralisation associated with a broadly north-south trending structure. This correlates with the trend observed at the historic Champion and Batavia Projects to the south. Extensive, albeit non-systematic, exploration in the area in the 80's and 90's identified narrow zones of gold mineralisation in quartz veining

within a chlorite-sericite schist proximal to granitic rocks. In conjunction with historic costeaning, a narrow zone of northeast trending gold mineralisation is defined within the Treasure-Whale area, with Iris's recent RC drilling confirming high-grade gold down dip of the historic Whale and Treasure shafts. Early indications are that mineralization extends down dip from the Whale shaft and occurs within intervals of silica-pyrite-arsenopyrite alteration. This mineralization style is akin to prolific gold producers in the Eastern Goldfields and is open along strike and down dip. In VRM's opinion, and in concert with Lily, Treasure-Whale represents a target for additional drilling.

The *Rise and Shine* Prospect has seen historic mining and exploration, with the identification of shallowly-dipping quartz veins close to surface, and stockworks containing free gold with minor associated sulphides (mainly pyrite). Soil and mullock / ore waste sampling in the 90's returned varying results, with Iris recently undertaking an RC program aimed at confirming this reported mineralisation. The drilling intersected gold mineralisation on several 40m spaced drill sections with over 200m of strike length defined within mafic volcanic rocks within an ENE trending altered shear zone. There is potential to extend the strike and down-dip extent of mineralization with additional drilling.

The Leonora Projects displays similar mineralization styles as at Kookynie and have also seen extensive yet non-systematic and persistent exploration historically. The *Chain Bore Project* is characterised by several areas of historic gold workings, with numerous proximal gold deposits on adjacent tenements. Mineralization in these areas appear to be fracture-controlled and hosted by either quartz vein sets or by alteration haloes around the veins, as well as associated with haematite-altered quartz veining within gabbroic rocks. The Company has not yet drilled this area but has further defined 7 high target areas based on a recent geophysical survey.

Little Dipper comprises potentially mineralised structures hosted within flat-lying quartz veins in basalt. Thick (2-4m) white bucky quartz with gold grades in hanging wall and footwall positions is also noted. Explorers in the 90's drilled numerous holes and defined a small historic resource which was estimated pre-JORC (2012) and is not appropriate to report. The mineralisation remains open down dip and potentially laterally and has seen no subsequent follow-up work. This represents an immediate target for drilling.

4.4. Patterson Province Project

4.4.1. Location, Access, and Climate

The Patterson Province Project consists of one exploration licence E45/5939 covering 193.1km², located in the Great Sandy Desert approximately 390km east of Port Headland and 270km south of Broome, and 150 km southeast of the Sandfire Roadhouse on the Northern Highway within East Pilbara Shire (Figure 20). Access to the immediate tenement area is from the Northern Highway via the Kidson Track.

Figure 20: Location of the Patterson Province Project in the Pilbara Region of Western Australia.
(Source: WAMEX 127163 with the current tenement number overlain.)

4.4.2. Geological Setting

The tenement area is underlain by rocks of the Lower Cretaceous Anketell Formation comprising fine-grained sandstone and siltstone, with lesser coarse-grained sandstone and conglomerate (ANKETELL SF51-02). It is interpreted that the Pilbara Craton extends below the Cretaceous cover.

4.4.3. Previous Exploration

The tenement covers a regional gravity feature located approximately 60 kilometres northeast of Rio Tinto's Winu discovery (<https://www.riotinto.com/en/news/releases/2020/Rio-Tinto-reveals-maiden-Resource-at-Winu-and-new-discovery>), with the area considered prospective for Iron Oxide Copper Gold (IOCG) / copper and gold mineralised hematite breccia akin to the giant Olympic Dam deposit in South Australia. Previous work has comprised a review of regional geophysical and geological data, which identified a previously untested gravity anomaly (WAMEX 127163; Figure 21). The previous tenement holder, Red Metal Limited,

considered the target prohibitive due to the modelled depth of the anomaly and the tenement was surrendered.

Figure 21: Previously untested gravity anomaly as identified by Red Metal in 2021.
(Source: WAMEX 127163 with the current tenement number overlain)

4.4.4.Exploration Potential

Iris considers that the anomaly warrants additional exploration and is considering the viability of an exploration program to test of the gravity anomaly. The project is a conceptual target for potential IOCG mineralization.

5. Exploration Strategy

The Company's exploration strategy and objectives are summarised below.

5.1. Strategy

- Advance Projects using best practise exploration techniques;
- Identify opportunities for strategic partnerships with mid-tier/major mining companies;
- Have clear project development / divestment decision points;
- Realise value of projects by exploration discovery, joint venture farm-out and/or partial/full sale;
- Subject to the results of exploration activities, technical studies and available funding, progress from an explorer to a developer; and
- Assess complimentary business opportunities as and when they arise in the form of direct acquisitions, joint ventures, farm-ins and applications for tenements, permits and licences adding to the existing mineral portfolio.

5.2. Project Objectives

- Continue to define the lateral surface extents of outcropping LCT pegmatites within the Custer Project;
- As a priority, sub-surface test via trenching, pitting, and drilling the extents of spodumene-bearing pegmatites at the Beecher and Long View areas;
- Systematically field truth and map the distribution of pegmatite workings and occurrences as documented by previous miners for the Ruby, Helen Beryl, and Tin Mountain Projects (i.e., Figure 4);
- Determine the gold potential for economic gold mineralisation at Lily, Treasure-Whale, Rise and Shine and Little Dipper;
- Test newly-identified geophysical target defined at both the Kookynie and Leonora Projects; and
- Determine prospectivity of gold and related metals in all areas. Assess complimentary business opportunities as and when they arise in the form of direct acquisitions, joint ventures, farm-ins and applications for tenements, permits and licences adding to the existing mineral portfolio.

6. Risks and Opportunities

The data included in this Report and the basis of the interpretations herein have been derived from a compilation of data produced by the various subdivisions associated with the U.S Department of the Interior, including the U.S. Geological Survey (USGS). For the Australian Projects, information has been derived from various annual technical reports sourced from the Western Australian Mineral Exploration reports (WAMEX reports) compiled by way of historical tenement database searches.

There are two potential sources of uncertainty associated with this type of compilation. The first is that significant material information may not have been identified in the data compilation, while the second potential risk is associated with the timely release of the exploration reports. Under the current regulations associated with annual technical reporting, any report linked to a current tenement that is less than five years old remains confidential and the company can also make submissions to ensure the reports remain confidential for longer periods. Finally, the historical reports are not all digitally available. Therefore, obtaining the historical reports often requires extremely time-consuming and costly searches in the DMIRS and USGS library. There is also duplication and compilation errors associated with several of the publicly available data compilations; this is commonly associated with multiple reporting of the exploration activities by different tenement managers using different grid references for the exploration activities. As such, these data may not be available and may have material errors that could have a material impact on potential exploration decisions.

Often the historical exploration reports do not include or discuss the use of quality assurance and quality control (QAQC) procedures as part of the sampling programs, this data frequently not reported. Therefore, it is difficult to determine the validity of much of the historical samples, even where original assays are reported. It is common for different grid systems to be reported in exploration reports including local grids. A review of drill hole locations against large-scale satellite images and historical exploration plans has revealed that some holes may be mislocated, either as result of incorrect grid reference, or due to errors in original location. The inability to properly validate all the exploration data reported herein, which has an impact on the proposed exploration, increases the exploration risk. Previous mining can limit potential drill pad locations or limit the drill sites to less optimal locations, especially regarding drill hole data collected before the common use of GPS. This is of particular note in regard to Iris's use of historic assay results to genera gram-metre interpretive long sections.

There are environmental, safety and regulatory risks associated with exploration within an area where there has been historical exploration, including potential rehabilitation liabilities.

There are no Mineral Resource estimates prepared under the guidelines of the JORC Code 2012 within any of the projects. Mineral exploration, by its very nature has significant risks, especially for early-stage projects. Based on the industry-wide exploration success rates it is possible that no additional significant economic mineralisation will be located within any of the projects. Even in the event significant mineralisation does exist within the projects, factors both in and out of the control of Iris may prevent the location or development of such mineralisation.

This may include, but is not limited to, factors such as community consultation and agreements, metallurgical, mining, and environmental considerations, availability and suitability of processing facilities or capital to build appropriate facilities, regulatory guidelines and restrictions, ability to develop infrastructure appropriately, and mine closure processes. In addition, variations in commodity prices, saleability of commodities and other factors outside the control of the Company may have either negative or positive impacts on the projects that may be defined.

The tenements have no publicly registered heritage sites at the date of this report. It is possible however, that additional surveys may identify heritage sites. VRM notes that heritage surveys have previously been undertaken in the area, with no new sites registered, and that exploration has been undertaken within the projects in the past.

At the time of writing this Report the impact of COVID-19 is being felt globally with waves of infections in many parts of the world, including hotspots in Australia. While to date the mining industry and resources sector has adapted quickly and largely continued business activities throughout this time, the potential risks for future exploration in the near future remains unclear.

Changes to commodity prices and access to capital to fund exploration can be considered as both risks and opportunities.

7. Proposed Exploration

To achieve the exploration strategy, it is expected that Iris will undertake distinctly different exploration activities within each of the Projects as summarised below.

7.1. South Dakota Project

Representing the majority of the committed exploration expenditure, Iris has proposed the following at the South Dakota Project:

- Refine the mineral zonation systematics identified and implement as an exploration vector to plan future drilling;
- Continue extensive trenching and pitting at identified Li mineralization outcrop areas within the Custer Project;
- Implement a systematic surface geochemical sampling program via auger drilling to better define the underlying geology; and
- Drill test under trenched areas to determine the subsurface extents and distribution of LCT Pegmatites.

7.2. Australian Projects

The Company is currently undertaking a strategic review in relation to these assets to maximise shareholder value. This may include further development, joint venture opportunities and/or any other corporate means of maximising shareholder value. Following the review, the Company will plan its 2023 exploration program which will both methodical and systematic in its approach. The Company intends to ensure that the Australian projects remain in good standing and that the minimum exploration commitment is undertaken on these projects.

8. Proposed Exploration Budget

The exploration strategy and targets are discussed in more detail in the various project sections. Table 3 summarises expenditure by activity and project. The costs are shown as an all-in inclusive cost that includes the cost of drilling, sampling, assaying, personnel, and all other on-costs. All costs are expressed in Australian dollars (A\$).

Table 3: Summary of exploration expenditure – All projects

Project	Minimum Subscription (\$12 million)			Maximum Subscription (\$15 million)		
	Year 1	Year 2	Total	Year 1	Year 2	Total
South Dakota	3,411,915	3,411,915	6,823,830	3,411,915	3,411,915	6,823,830
Australian Projects	499,291	499,291	998,582	499,291	499,291	998,582
Total All Projects	3,911,206	3,911,206	7,822,412	3,911,206	3,911,206	7,822,412

Note:

* Activities on tenement applications budgeted in year two is subject to relevant approvals being received

** Drilling in year two is dependent on positive results from year one activities

In VRM's opinion the proposed exploration budget and work programs are valid, consistent with the exploration potential within Iris' Projects and broadly in line with the current exploration costs in the USA and WA. The exploration budget as presented includes exploration drilling at all granted tenements; however, the exact number and depth of these drill holes is not sufficiently advanced to document in this Report. The proposed exploration budget is sufficient to meet the statutory minimum exploration expenditure on the granted tenements in WA, which is \$568,800. There is no minimum expenditure commitment for the USA Claims.

9. References

The reference list below is dominated by unpublished company reports obtained either directly from the Company or ASX releases of previous Joint Venture holders or previous holders of the tenements. The Annual Technical Reports lodged with the DMIRS and subsequently made public either after five years or when the tenement was surrendered are listed in the project specific references section below.

9.4. Patterson Province Project Specific References

Patterson Province Project WAMEX Reports. Only reports which reported drilling or other relevant information on the project and digital data has been uploaded to the digital drilling database are included. Other reports are available on the DMIRS WAMEX database.

A Number	Author	Date	Report Title	Company/Operator
27163	PIENMUNNE J	2021	E 45/5385 Oakover Surrender Report for Period Ended 6 April 2021	RED METAL LIMITED

10. Glossary

Below are brief descriptions of some terms used in this report. For further information or for terms that are not described here, please refer to internet sources such as Webmineral www.webmineral.com, Wikipedia www.wikipedia.org.

The following terms are taken from the 2015 VALMIN Code.

Annual Report means a document published by public corporations on a yearly basis to provide shareholders, the public and the government with financial data, a summary of ownership and the accounting practices used to prepare the report.

Australasian means Australia, New Zealand, Papua New Guinea, and their offshore territories.

Code of Ethics means the Code of Ethics of the relevant Professional Organisation or Recognised Professional Organisations.

Corporations Act means the Australian Corporations Act 2001 (Cth).

Experts are persons defined in the Corporations Act whose profession or reputation gives authority to a statement made by him or her in relation to a matter. A Practitioner may be an Expert. Also see Clause 2.1.

Exploration Results is defined in the current version of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (the JORC Code). Refer to <http://www.jorc.org> for further information.

Feasibility Study means a comprehensive technical and economic study of the selected development option for a mineral project that includes appropriately detailed assessments of applicable Modifying Factors together with any other relevant operational factors and detailed financial analysis that are necessary to demonstrate at the time of reporting that extraction is reasonably justified (economically mineable). The results of the study may reasonably serve as the basis for a final decision by a proponent or financial institution to proceed with, or finance, the development of the project. The confidence level of the study will be higher than that of a Pre-feasibility Study.

Financial Reporting Standards means Australian statements of generally accepted accounting practice in the relevant jurisdiction in accordance with the Australian Accounting Standards Board (AASB) and the Corporations Act.

Independent Expert's Report means a Public Report as may be required by the Corporations Act, the Listing Rules of the ASX or other security exchanges prepared by a Practitioner who is acknowledged as being independent of the Commissioning Entity. Also see ASIC Regulatory Guides RG 111 and RG 112 as well as Clause 5.5 of the VALMIN Code for guidance on Independent Expert Reports.

Information Memoranda means documents used in financing of projects detailing the project and financing arrangements.

Investment Value means the benefit of an asset to the owner or prospective owner for individual investment or operational objectives.

Life-of-Mine Plan means a design and costing study of an existing or proposed mining operation where all Modifying Factors have been considered in sufficient detail to demonstrate at the time of reporting that extraction is reasonably justified. Such a study should be inclusive of all development and mining activities proposed through to the effective closure of the existing or proposed mining operation.

Market Value means the estimated amount of money (or the cash equivalent of some other consideration) for which the Mineral Asset should exchange on the date of Valuation between a willing buyer and a willing seller in an arm's length transaction after appropriate marketing wherein the parties

each acted knowledgeably, prudently and without compulsion. Also see Clause 8.1 for guidance on Market Value.

Materiality or being **Material** requires that a Public Report contains all the relevant information that investors and their professional advisors would reasonably require, and reasonably expect to find in the report, for the purpose of making a reasoned and balanced judgement regarding the Technical Assessment or Mineral Asset Valuation being reported. Where relevant information is not supplied, an explanation must be provided to justify its exclusion. Also see Clause 3.2 for guidance on what is Material.

Member means a person who has been accepted and entitled to the post-nominals associated with the AIG or the AusIMM or both. Alternatively, it may be a person who is a member of a Recognised Professional Organisation included in a list promulgated from time to time.

Mineable means those parts of the mineralised body, both economic and uneconomic, that are extracted or to be extracted during the normal course of mining.

Mineral Asset means all property including (but not limited to) tangible property, intellectual property, mining and exploration Tenure and other rights held or acquired in connection with the exploration, development of and production from those Tenures. This may include the plant, equipment, and infrastructure owned or acquired for the development, extraction, and processing of Minerals in connection with that Tenure.

Most Mineral Assets can be classified as either:

(a) **Early-stage Exploration Projects** – Tenure holdings where mineralisation may or may not have been identified, but where Mineral Resources have not been identified.

(b) **Advanced Exploration Projects** – Tenure holdings where considerable exploration has been undertaken and specific targets identified that warrant further detailed evaluation, usually by drill testing, trenching or some other form of detailed geological sampling. A Mineral Resource estimate may or may not have been made, but sufficient work will have been undertaken on at least one prospect to provide both a good understanding of the type of mineralisation present and encouragement that further work will elevate one or more of the prospects to the Mineral Resources category.

(c) **Pre-Development Projects** – Tenure holdings where Mineral Resources have been identified and their extent estimated (possibly incompletely), but where a decision to proceed with development has not been made. Properties at the early assessment stage, properties for which a decision has been made not to proceed with development, properties on care and maintenance and properties held on retention titles are included in this category if Mineral Resources have been identified, even if no further work is being undertaken.

(d) **Development Projects** – Tenure holdings for which a decision has been made to proceed with construction or production or both, but which are not yet commissioned or operating at design levels. Economic viability of Development Projects will be proven by at least a Pre-Feasibility Study.

(e) **Production Projects** – Tenure holdings – particularly mines, wellfields, and processing plants – that have been commissioned and are in production.

Mine Design means a framework of mining components and processes taking into account mining methods, access to the Mineralisation, personnel, material handling, ventilation, water, power, and other technical requirements spanning commissioning, operation, and closure so that mine planning can be undertaken.

Mine Planning includes production planning, scheduling and economic studies within the Mine Design taking into account geological structures and mineralisation, associated infrastructure and constraints, and other relevant aspects that span commissioning, operation, and closure.

Mineral means any naturally occurring material found in or on the Earth's crust that is either useful to or has a value placed on it by humankind, or both. This excludes hydrocarbons, which are classified as Petroleum.

Mineralisation means any single mineral or combination of minerals occurring in a mass, or deposit, of economic interest. The term is intended to cover all forms in which mineralisation might occur, whether by class of deposit, mode of occurrence, genesis, or composition.

Mineral Project means any exploration, development, or production activity, including a royalty or similar interest in these activities, in respect of Minerals.

Mineral Securities means those Securities issued by a body corporate or an unincorporated body whose business includes exploration, development or extraction and processing of Minerals.

Mineral Resources is defined in the current version of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (the JORC Code). Refer to <http://www.jorc.org> for further information.

Mining means all activities related to extraction of Minerals by any method (e.g., quarries, open cast, open cut, solution mining, dredging etc).

Mining Industry means the business of exploring for, extracting, processing, and marketing Minerals.

Modifying Factors is defined in the current version of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (the JORC Code). Refer to <http://www.jorc.org> for further information.

Ore Reserves is defined in the current version of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (the JORC Code). Refer to <http://www.jorc.org> for further information.

Petroleum means any naturally occurring hydrocarbon in a gaseous or liquid state, including coal-based methane, tar sands and oil-shale.

Petroleum Resource and **Petroleum Reserve** are defined in the current version of the Petroleum Resources Management System (PRMS) published by the Society of Petroleum Engineers, the American Association of Petroleum Geologists, the World Petroleum Council, and the Society of Petroleum Evaluation Engineers. Refer to <http://www.spe.org> for further information.

Practitioner is an Expert as defined in the Corporations Act, who prepares a Public Report on a Technical Assessment or Valuation Report for Mineral Assets. This collective term includes Specialists and Securities Experts.

Preliminary Feasibility Study (Pre-Feasibility Study) means a comprehensive study of a range of options for the technical and economic viability of a mineral project that has advanced to a stage where a preferred mining method, in the case of underground mining, or the pit configuration, in the case of an open pit, is established and an effective method of mineral processing is determined. It includes a financial analysis based on reasonable assumptions on the Modifying Factors and the evaluation of any other relevant factors that are sufficient for a Competent Person, acting reasonably, to determine if all or part of the Mineral Resources may be converted to an Ore Reserve at the time of reporting. A Pre-Feasibility Study is at a lower confidence level than a Feasibility Study.

Professional Organisation means a self-regulating body, such as one of engineers or geoscientists or of both, that:

- (a) admits members primarily on the basis of their academic qualifications and professional experience.
- (b) requires compliance with professional standards of expertise and behaviour according to a Code of Ethics established by the organisation; and
- (c) has enforceable disciplinary powers, including that of suspension or expulsion of a member, should its Code of Ethics be breached.

Public Presentation means the process of presenting a topic or project to a public audience. It may include, but not be limited to, a demonstration, lecture or speech meant to inform, persuade, or build good will.

Public Report means a report prepared for the purpose of informing investors or potential investors and their advisers when making investment decisions, or to satisfy regulatory requirements. It includes, but is not limited to, Annual Reports, Quarterly Reports, press releases, Information Memoranda, Technical Assessment Reports, Valuation Reports, Independent Expert Reports, website postings and Public Presentations. Also see Clause 5 for guidance on Public Reports.

Quarterly Report means a document published by public corporations on a quarterly basis to provide shareholders, the public and the government with financial data, a summary of ownership and the accounting practices used to prepare the report.

Reasonableness implies that an assessment which is impartial, rational, realistic, and logical in its treatment of the inputs to a Valuation or Technical Assessment has been used, to the extent that another Practitioner with the same information would make a similar Technical Assessment or Valuation.

Royalty or Royalty Interest means the amount of benefit accruing to the royalty owner from the royalty share of production.

Securities has the meaning as defined in the Corporations Act.

Securities Expert are persons whose profession, reputation or experience provides them with the authority to assess or value Securities in compliance with the requirements of the Corporations Act, ASIC Regulatory Guides and ASX Listing Rules.

Scoping Study means an order of magnitude technical and economic study of the potential viability of Mineral Resources. It includes appropriate assessments of realistically assumed Modifying Factors together with any other relevant operational factors that are necessary to demonstrate at the time of reporting that progress to a Pre-Feasibility Study can be reasonably justified.

Specialists are persons whose profession, reputation, or relevant industry experience in a technical discipline (such as geology, mine engineering or metallurgy) provides them with the authority to assess or value Mineral Assets.

Status in relation to Tenure means an assessment of the security of title to the Tenure.

Technical Assessment is an evaluation prepared by a Specialist of the technical aspects of a Mineral Asset. Depending on the development status of the Mineral Asset, a Technical Assessment may include the review of geology, mining methods, metallurgical processes and recoveries, provision of infrastructure and environmental aspects.

Technical Assessment Report involves the Technical Assessment of elements that may affect the economic benefit of a Mineral Asset.

Technical Value is an assessment of a Mineral Asset's future net economic benefit at the Valuation Date under a set of assumptions deemed most appropriate by a Practitioner, excluding any premium or discount to account for market considerations.

Tenure is any form of title, right, licence, permit or lease granted by the responsible government in accordance with its mining legislation that confers on the holder certain rights to explore for and/or extract agreed minerals that may be (or is known to be) contained. Tenure can include third-party ownership of the Minerals (for example, a royalty stream). Tenure and Title have the same connotation as Tenement.

Transparency or being **Transparent** requires that the reader of a Public Report is provided with sufficient information, the presentation of which is clear and unambiguous, to understand the report and not be misled by this information or by omission of Material information that is known to the Practitioner.

Valuation is the process of determining the monetary Value of a Mineral Asset at a set Valuation Date.

Valuation Approach means a grouping of valuation methods for which there is a common underlying rationale or basis.

Valuation Date means the reference date on which the monetary amount of a Valuation in real (dollars of the day) terms is current. This date could be different from the dates of finalisation of the Public Report

or the cut-off date of available data. The Valuation Date and date of finalisation of the Public Report **must** not be more than 12 months apart.

Valuation Methods means a subset of Valuation Approaches and may represent variations on a common rationale or basis.

Valuation Report expresses an opinion as to monetary Value of a Mineral Asset but specifically excludes commentary on the value of any related Securities.

Value means the Market Value of a Mineral Asset.

Appendix A - Iris tenement schedule as of April 2023– All Projects

South Dakota Projects

Project	Number of Claims	Areas (Acres)
Keystone ¹	137	2,801
Tinton ¹	176	3,622
Black Diamond Patent Access ²	1	7
Beecher Extended Patent Access ²	1	5
Longview Patent ³	1	15
Beecher Patent ¹	2	24
Edison Patent ¹	1	12
Custer	1,314	26,954
Dewy/Ruby	529	10,933
Tin Mountain	225	4,648
Total	2,387	49,021 (198.38km ²)

1. Subject to royalty agreement. NSR of 1.25%. 2. Subject to royalty agreement. USD\$50,000 upon decision to mine. USD\$50 per ton of Spodumene mined. 3. Subject to royalty agreement. Total NSR of 2.00%.

Note all Mineral claims remain current provided annual fees of approximately USD\$170/year are paid prior to 1 September each year. There are no annual exploration commitments nor any rates payable on the claims.

VRM has relied on the Iris ASX releases associated with the acquisition of the various claims and the reader is directed to the US Solicitors report that details the tenure and licence documents appended to the prospectus to which this report is also appended.

Leonora	P 37/9473	Granted	Lofasz Pty Ltd	9/06/2021	8/06/2025	194.73	HA.	143.5	7,800
Leonora	P 37/9474	Granted	Lofasz Pty Ltd	1/07/2021	30/06/2025	182.80	HA.	651	7,320
Patterson Province Project	E 45/5939	Granted	Iris Metals Ltd	4/07/2022	3/07/2027	60.00	BL.	9,180	60,000

* 'E' denotes Exploration Licence; 'P' denotes Prospecting Licence; 'M' denotes Mining Lease

BL denotes Block; HA denotes hectare; AC denotes acres

See Solicitor's Report on Western Australian Tenements (annexed to the Prospectus) for details on tenure related agreements.

Appendix B - JORC Tables

Kookynie / Leonora Projects

Material exploration activities undertaken by Iris Metals has reported in their ASX announcements with accompanying CP statements. The information required in the JORC Tables 1 has been appended to the various ASX releases including the original prospectus of the company and have been relied on by VRM regarding the technical aspects of the projects. VRM has reviewed the information that underpins the previously reported exploration information and considers that it is reliable and reasonable.

South Dakota Projects

Much of the exploration activities reported in this report are based on historical geological observations and reports. No exploration assay results for the South Dakota projects have been included in this report. Recent exploration activities by Iris have included geological mapping and sampling of various outcropping pegmatites which are reported as containing the lithium bearing mineral spodumene however there have been no chemical assay results provided to VRM.

Field work by Iris has been supported by the use of a Laser-Induced Breakdown Spectroscopy ("LIBS") analyser. A "LIBS" analyser, measures "light elements" (such as Li, Be, Al & Mg) and provides real time in field point analysis of a sample and aids in the identification of lithium (and other elements) within the host medium. VRM has not reported any LIBS analysis as it is considered by VRM to be a field instrument that assists with the recognition of spodumene from lithium pegmatite ores. VRM considers that reporting any LIBS lithium determinations could be misinterpreted as an assay result from chemical analysis of a representative sample. Additionally, VRM is not aware of any calibration or procedures used to ensure that any reported LIBS analysis is representative of an entire sample rather than a point analysis of a coarse-grained inhomogeneous sample.

Given the nature of the data presented in the historical reports, VRM considers previous work has been conducted using industry standard practices; however, details have largely not been documented in the historical reports used to compile this ITAR. All relevant information where reliable and reported has been included in the JORC Code Table 1 below.

South Dakota Projects JORC Table 1

Section 1 Sampling Techniques and Data

Criteria	JORC Code explanation	Commentary
Sampling techniques	<i>Nature and quality of sampling (e.g., cut channels, random chips, or specific specialised industry standard measurement tools appropriate to the minerals under investigation, such as down hole gamma sondes, or handheld XRF instruments, etc). These examples should not be taken as limiting the broad meaning of sampling.</i> <i>Include reference to measures taken to ensure sample representivity and the appropriate calibration of any measurement tools or systems used.</i> <i>Aspects of the determination of mineralisation that are Material to the Public Report.</i> <i>In cases where 'industry standard' work has been done this would be relatively simple (e.g., 'reverse circulation drilling was used to obtain 1 m samples from which 3 kg was pulverised to produce a 30 g charge for fire assay'). In other cases, more explanation may be required, such as where there is coarse gold that has inherent sampling problems. Unusual commodities or mineralisation types (e.g., submarine nodules) may warrant disclosure of detailed information.</i>	No Sampling has been documented in this report
Drilling techniques	<i>Drill type (e.g., core, reverse circulation, open-hole hammer, rotary air blast, auger, Bangka, sonic, etc) and details (e.g., core diameter, triple or standard tube, depth of diamond tails, face-sampling bit, or other type, whether core is oriented and if so, by what method, etc).</i>	here has been historical diamond drilling within the South Dakota mineral claims the details of the drilling are contained in the report.
Drill sample recovery	<i>Method of recording and assessing core and chip sample recoveries and results assessed.</i> <i>Measures taken to maximise sample recovery and ensure representative nature of the samples.</i> <i>Whether a relationship exists between sample recovery and grade and whether sample bias may have occurred due to preferential loss/gain of fine/coarse material.</i>	- There are inconsistent records of the core recovery from the diamond drilling in individual reports referenced however as the drilling has been carried out by many different parties over an extended period, varying standards have been applied. - No known relationship between recovery and grade has been demonstrated.
Logging	<i>Whether core and chip samples have been geologically and geotechnically logged to a level of detail to support appropriate Mineral Resource estimation, mining studies and metallurgical studies.</i> <i>Whether logging is qualitative or quantitative in nature. Core (or costean, channel, etc) photography.</i> <i>The total length and percentage of the relevant intersections logged.</i>	Geological logging is qualitative in nature.
Sub-sampling techniques and sample preparation	<i>If core, whether cut or sawn and whether quarter, half or all cores taken.</i> <i>If non-core, whether riffled, tube sampled, rotary split, etc and whether sampled wet or dry.</i> <i>For all sample types, the nature, quality, and appropriateness of the sample preparation technique.</i> <i>Quality control procedures adopted for all sub-sampling stages to maximise representivity of samples.</i> <i>Measures taken to ensure that the sampling is representative of the in-situ material collected, including for instance results for field duplicate/second-half sampling.</i> <i>Whether sample sizes are appropriate to the grain size of the material being sampled.</i>	No sub sampling has been documented and no assay or sampling is documented in the report due to the historic nature of the previous exploration activities.
Quality of assay data and laboratory tests	<i>The nature, quality and appropriateness of the assaying and laboratory procedures used and whether the technique is considered partial or total.</i> <i>For geophysical tools, spectrometers, handheld XRF instruments, etc, the parameters used in determining the analysis including instrument make and model, reading times, calibrations factors applied and their derivation, etc.</i>	No assay results are presented nor available for the projects. Due to the historical nature of the exploration activities any QAQC procedures were not documented.

Criteria	JORC Code explanation	Commentary
	<i>Nature of quality control procedures adopted (e.g., standards, blanks, duplicates, external laboratory checks) and whether acceptable levels of accuracy (i.e., lack of bias) and precision have been established.</i>	
<i>Verification of sampling and assaying</i>	<i>The verification of significant intersections by either independent or alternative company personnel. The use of twinned holes. Documentation of primary data, data entry procedures, data verification, data storage (physical and electronic) protocols. Discuss any adjustment to assay data.</i>	No Sampling or assay results are presented in the report, the report is limited to the geological descriptions of the projects and geological mapping
<i>Location of data points</i>	<i>Accuracy and quality of surveys used to locate drill holes (collar and down-hole surveys), trenches, mine workings and other locations used in Mineral Resource estimation. Specification of the grid system used. Quality and adequacy of topographic control.</i>	No drilling or sampling has been detailed in the report.
<i>Data spacing and distribution</i>	<i>Data spacing for reporting of Exploration Results. Whether the data spacing, and distribution is sufficient to establish the degree of geological and grade continuity appropriate for the Mineral Resource and Ore Reserve estimation procedure(s) and classifications applied. Whether sample compositing has been applied.</i>	Historical drilling has occurred at inconsistent spacing; the existing drilling is insufficient and historical in nature and as such is not suitable for the estimation of a Mineral Resource.
<i>Orientation of data in relation to geological structure</i>	<i>Whether the orientation of sampling achieves unbiased sampling of possible structures and the extent to which this is known, considering the deposit type. If the relationship between the drilling orientation and the orientation of key mineralised structures is considered to have introduced a sampling bias, this should be assessed and reported if material.</i>	Due to the historic nature of the exploration, there is no guarantee that the drilling orientation has been optimal with respect to the pegmatite intrusives. Where the orientation of the pegmatites is known from geological mapping or from field observations drilling has been oriented largely normal to strike of the pegmatite
<i>Sample security</i>	<i>The measures taken to ensure sample security.</i>	There are no records of measures taken to ensure sample security.
<i>Audits or reviews</i>	<i>The results of any audits or reviews of sampling techniques and data.</i>	There are no records of audits or reviews conducted however Iris has undertaken a geological mapping program to validate the historical exploration and to target new exploration.

Section 2 Reporting of Exploration Results

(Criteria listed in the preceding section also apply to this section.)

Criteria	JORC Code explanation	Commentary
<i>Mineral tenement and land tenure status</i>	<i>Type, reference name/number, location and ownership including agreements or material issues with third parties such as joint ventures, partnerships, overriding royalties, native title interests, historical sites, wilderness or national park and environmental settings. The security of the tenure held at the time of reporting along with any known impediments to obtaining a licence to operate in the area.</i>	- Details of the mineral claims are included in Appendix A of this report or in the solicitors' report which is included in the re compliance prospectus. - Each of the mineral claims remains active and is renewed on 1 September each year as long as the annual fee of approximately US\$170/year is paid. There is no minimum exploration commitment or rates payable on the mineral claims.
<i>Exploration done by other parties</i>	<i>Acknowledgment and appraisal of exploration by other parties.</i>	All exploration has been carried out by parties other than Iris. This has been documented in the report under each of the main prospects.

Criteria	JORC Code explanation	Commentary
Geology	<i>Deposit type, geological setting, and style of mineralisation.</i>	• Exploration is for LCT pegmatite bodies containing Spodumene as the primary lithium mineral. • Iris has undertaken extensive geological mapping and validation of the previous historical geological mapping and interpretation along with documenting the previous mining activities within the mineral claims.
Drill hole Information	<i>A summary of all information material to the understanding of the exploration results including a tabulation of the following information for all Material drill holes:</i> <i>easting and northing of the drill hole collar</i> <i>elevation or RL (Reduced Level – elevation above sea level in metres) of the drill hole collar</i> <i>dip and azimuth of the hole</i> <i>down hole length and interception depth</i> <i>hole length.</i> <i>If the exclusion of this information is justified on the basis that the information is not Material and this exclusion does not detract from the understanding of the report, the Competent Person should clearly explain why this is the case.</i>	• No drilling summaries are included in the report due to the uncertainty in locating the historical drilling. • Iris has, as a part of its exploration activities, identified historical drilling in the mineral claims and is in the process of trying to validate the location of the historical drilling. • No Assay results have been included in the report.
Data aggregation methods	<i>In reporting Exploration Results, weighting averaging techniques, maximum and/or minimum grade truncations (e.g., cutting of high grades) and cut-off grades are usually Material and should be stated.</i> <i>Where aggregate intercepts incorporate short lengths of high-grade results and longer lengths of low-grade results, the procedure used for such aggregation should be stated and some typical examples of such aggregations should be shown in detail.</i> <i>The assumptions used for any reporting of metal equivalent values should be clearly stated.</i>	• N/A no assay results have been reported
Relationship between mineralisation widths and intercept lengths	<i>These relationships are particularly important in the reporting of Exploration Results.</i> <i>If the geometry of the mineralisation with respect to the drill hole angle is known, its nature should be reported.</i> <i>If it is not known and only the down hole lengths are reported, there should be a clear statement to this effect (e.g., 'down hole length, true width not known').</i>	• Geological mapping and validation of the previous mining and exploration activities are ongoing, Based on the work completed to date it appears that most of the drilling is normal to the strike of the pegmatite outcrops and workings and the historical drilling is considered to be an accurate reflection of the pegmatite bodies at depth however the reader is cautioned on the accuracy of the historical information. • The relationship between down hole and true width is not known.
Diagrams	<i>Appropriate maps and sections (with scales) and tabulations of intercepts should be included for any significant discovery being reported These should include, but not be limited to a plan view of drill hole collar locations and appropriate sectional views.</i>	• Diagrams are included in the main body of the report.
Balanced reporting	<i>Where comprehensive reporting of all Exploration Results is not practicable, representative reporting of both low and high grades and/or widths should be practiced to avoid misleading reporting of Exploration Results.</i>	• No Assay results have been included in the report, geological mapping and validation of the historical drilling is ongoing.
Other substantive exploration data	<i>Other exploration data, if meaningful and material, should be reported including (but not limited to): geological observations; geophysical survey results; geochemical survey results; bulk samples – size and method of treatment; metallurgical test results; bulk density, groundwater, geotechnical and rock</i>	• Covered in the main body of this Report

Criteria	JORC Code explanation	Commentary
	<i>characteristics; potential deleterious or contaminating substances.</i>	
<i>Further work</i>	<i>The nature and scale of planned further work (e.g., tests for lateral extensions or depth extensions or large-scale step-out drilling).</i> <i>Diagrams clearly highlighting the areas of possible extensions, including the main geological interpretations and future drilling areas, provided this information is not commercially sensitive.</i>	Covered in the main body of this Report.

IRIS Metals Limited
Level 6
400 Collins Street
Melbourne VIC 3000

Dear Board of Directors

SOLICITOR'S REPORT ON TENEMENTS

This Report is prepared for inclusion in a prospectus for the public offer of up to 15,000,000 shares in the capital of IRIS Metals Limited (ACN 646 787 135) (Company) at an issue price of \$1.00 per Share, together with one (1) free attaching Option for every two (2) Shares subscribed for and issued to raise up to \$15,000,000 (Prospectus).

1. SCOPE

We have been requested to report on certain Australian mining tenements in which the Company has an interest (the Tenements).

The Tenements are located in Western Australia. Details of the Tenements are set out in Part I of this Report.

This Report is limited to the Searches (as defined below) set out in Section 2 of this Report.

2. SEARCHES

For the purposes of this Report, we have conducted searches and made enquiries in respect of all of the Tenements as follows (Searches):

- (a) we have obtained mining tenement register searches of the Tenements from the registers maintained by the Western Australian Department of Mines, Industry Regulation and Safety (DMIRS) (Tenement Searches). These searches

were conducted on 17 January 2023 and updated on 11 April 2023. Key details on the status of the Tenements are set out in Part I of this Report;

- (b) we have obtained results of searches of the schedule of native title applications, register of native title claims, national native title register, register of indigenous land use agreements and national land use agreements as maintained by the National Native Title Tribunal (NNTT) for any native title claims (registered or unregistered), native title determinations and indigenous land use agreements (ILUAs) that overlap or apply to the Tenements. This material was obtained on 17 January 2023 and updated on 14 April 2023. Details of any native title claims (registered or unregistered), native title determinations and ILUAs are set out in Section 5 of this Report and Part II of this Report;
- (c) we have obtained searches from the online Aboriginal Heritage Inquiry System maintained by the Department of Planning, Lands and Heritage (DPLH) for any Aboriginal sites registered on the Western Australian Register of Aboriginal sites over the Tenements or Other Heritage Places not yet registered over the Tenements (Heritage Searches). These searches were conducted on 17 January 2023 and updated on 13 April 2023. Details of any Aboriginal Sites are set out in Part II of this Report;
- (d) we have obtained quick appraisal user searches of Tengraph which is maintained by the DMIRS to obtain details of features or interests affecting the Tenements (Tengraph Searches). These searches were conducted on 17 January 2023 and updated on 12 April 2023. Details of any material issues identified from the Tengraph Searches are set out in the notes to Part I of this Report; and
- (e) we have reviewed all material agreements relating to the Tenements provided to us or registered as dealings against the Tenements as at the date of the Tenement Searches and have summarised the material terms throughout the Report.

1. OPINION

As a result of our Searches, but subject to the assumptions and qualifications set out in this Report, we are of the view that, as at the date of the relevant Searches this Report provides an accurate statement as to:

- (a) **Company's interest**

The Company's interest in the Tenements.

- (b) **Good standing**

The validity and good standing of the Tenements.

- (c) **Third party interests**

Third party interests, including encumbrances, in relation to the Tenements.

2. EXECUTIVE SUMMARY

Subject to the qualifications and assumptions in this Report, we consider the following to be material issues in relation to the Tenements:

(a) Crown land

Some of the land the subject of the Tenements overlaps Crown land. Further details are provided in Section 6 of this Report. The Mining Act imposes prohibitions on prospecting, exploration and mining activities and restrictions on access to certain parts of mining tenements that overlap Crown land without the prior agreement of the occupier which commonly involves the tenement holder paying compensation to the occupier of the Crown land. Although the Company will be able to undertake its proposed activities on those parts of the granted Tenements not covered by the prohibitions and pass over those parts of the Tenements to which the restrictions do not apply immediately upon listing on ASX, the Company should consider entering into access and compensation agreements with the occupiers of the Crown land upon commencement of those activities in the event further activities are required on other areas of the Tenements which are subject to prohibitions or restrictions.

(b) **Company's** interest

The Company, has an interest in 72 tenements, 1 mining lease, 5 exploration licenses, and 66 prospecting licenses, 14 of which are held through its wholly owned subsidiary, Lofasz Pty Ltd (ACN 644 637 105).

Details of all the licences are listed in Part I of this Report.

(c) Material contracts

On 30 March 2021, Lofasz Pty Ltd (ACN 644 637 105) (the Applicant) entered into an Access Deed Agreement with Navigator Mining Pty Ltd (ACN 109 351 564) (the Owner) (the Parties) (the Access Agreement). The Access Agreement details the access arrangements between the Parties in relation to the Owner's held miscellaneous licence 37/195 (the Existing Tenement), the Applicant's prospecting licence 37/9474 (if granted) (the New Tenement) and the Parties' access arrangements in the area of overlap where the New Tenement, when granted, encroaches over part of the Existing Tenement.

(d) Native title and Aboriginal Tenements

Each of the tenements are within the boundaries of various Native Title determinations and claims. Refer to Part II of this Report for further information.

3. DESCRIPTION OF THE TENEMENTS

The Tenements comprise prospecting licences and mining leases granted under the *Mining Act 1978* (WA) (Mining Act). The Schedule provides a list of the Tenements. A description of the nature and key terms of these types of mining tenements as set out in the Mining Act and potential successor tenements is set out below.

3.1 Prospecting licence

(a) Application

A person may lodge an application for a prospecting licence in accordance with the Mining Act. The mining registrar or warden decides whether to grant an application for a prospecting licence. An application for a prospecting licence (unless a reversion application) cannot be legally transferred and continues in the name of the applicant.

(b) Rights

The holder of a prospecting licence is entitled to enter upon land for the purposes of prospecting for minerals with employees and contractors, and such vehicles, machinery and equipment as may be necessary or expedient.

(c) Term

A prospecting licence has a term of 4 years. Where the prospecting licence was applied for and granted after 10 February 2006, the Minister may extend the term by 4 years and if retention status is granted (as discussed below), by a further term or terms of 4 years. Where a prospecting licence is transferred before a renewal application has been determined, the transferee is deemed to be the applicant.

(d) Retention status

The holder of a prospecting licence applied for and granted after 10 February 2006 may apply for approval of retention status for the prospecting licence. The Minister may approve the application where there is an identified mineral resource in or under the land the subject of the prospecting licence, but it is impractical to mine the resource for prescribed reasons. Where retention status is granted, the minimum expenditure requirements are reduced in the year of grant and cease in future years. However, the Minister has the right to impose a program of works or require the holder to apply for a mining lease. The holder of a prospecting licence applied for or granted before 10 February 2006 can apply for a retention licence (see below), rather than retention status.

(e) Conditions

Prospecting licences are granted subject to various standard conditions including conditions relating to minimum expenditure, the payment of rent and observance of environmental protection and reporting requirements. These standard conditions are not detailed in Part I of this Report. A failure to comply with these conditions or obtain an exemption from compliance may lead to forfeiture of the prospecting licence.

(f) Relinquishment

There is no requirement to relinquish any portion of the prospecting licence.

(g) Priority to apply for a mining lease

The holder of a prospecting licence has priority to apply for a mining lease over any of the land subject to the prospecting licence. An application for a

mining lease must be made prior to the expiry of the prospecting licence. The prospecting licence remains in force until the application for the mining lease is determined.

(h) Transfer

There is no restriction on transfer or other dealing in a prospecting licence.

3.2 Exploration Licence

(a) Rights

The holder of an exploration licence is entitled to enter the land for the purposes of exploration for minerals with employees and contractors and such vehicles, machinery and equipment as may be necessary or expedient.

(b) Term

An exploration licence has a term of 5 years from the date of grant. The Minister may extend the term by a further period of 5 years followed by a further period or periods of 2 years.

(c) Retention status

The holder of an exploration licence granted after 10 February 2006 may apply for approval of retention status for the exploration licence. The Minister may approve the application where there is an identified mineral resource in or under the land the subject of the exploration licence but it is impractical to mine the resource for prescribed reasons. Where retention status is granted, the minimum expenditure requirements are reduced in the year of grant and cease in future years. However, the Minister has the right to impose a programme of works or require the holder to apply for a mining lease.

(d) Conditions

Exploration licences are granted subject to various standard conditions, including conditions relating to minimum expenditure, the payment of prescribed rent and royalties and observance of environmental protection and reporting requirements. These standard conditions are not detailed in Part I of this Report. A failure to comply with these conditions or obtain an exemption from compliance may lead to forfeiture of the exploration licence.

(e) Compulsory partial surrender

The holder of an exploration licence applied for prior to 10 February 2006 must be reduced at the end of its 3rd and 4th years by 50% each year. It is possible to apply for an exemption from the requirement to surrender ground at the end of the 3rd and 4th years where holders, for specified reasons, are unable to conduct or complete planned exploration programmes.

The holder of an exploration licence applied for and granted after 10 February 2006 which contains more than 10 blocks must be reduced by 40% at the end of its 6th year of its term. There is no ability to apply for an exemption or deferral of this compulsory surrender requirement.

A failure to lodge the required partial surrender could render the tenement liable for forfeiture.

(f) Priority to apply for mining lease

The holder of an exploration licence has priority to apply for a mining lease over any of the land subject to the exploration licence. Any application for a mining lease must be made prior to the expiry of the exploration licence. The exploration licence remains in force until the application for the mining lease is determined.

(g) Transfer

No legal or equitable interest in an exploration licence can be transferred or otherwise dealt with during the first year of its term without the prior written consent of the Minister. Thereafter, there is no restriction on transfer or other dealings.

3.3 Mining lease

(a) Application

Any person may lodge an application for a mining lease, although a holder of a prospecting licence, exploration licence or retention licence over the relevant area has priority. The Minister decides whether to grant an application for a mining lease.

The application, where made after 10 February 2006, must be accompanied by either a mining proposal or a statement outlining mining intentions and a "mineralisation report" indicating there is significant mineralisation in the area over which a mining lease is sought. A mining lease accompanied by a "mineralisation report" will only be approved where the Director, Geological Survey considers that there is a reasonable prospect that the mineralisation identified will result in a mining operation.

(b) Rights

The holder of a mining lease is entitled to mine for and dispose of any minerals on the land in respect of which the lease was granted. A mining lease entitles the holder to do all acts and things necessary to effectively carry out mining operations.

(c) Term

A mining lease has a term of 21 years and may be renewed for successive periods of 21 years. Where a mining lease is transferred before a renewal application has been determined, the transferee is deemed to be the applicant.

(d) Conditions

Mining leases are granted subject to various standard conditions, including conditions relating to expenditure, the payment of prescribed rent and royalties and observance of environmental protection and reporting requirements. An unconditional performance bond may be required to secure performance of these obligations. A failure to comply with these

conditions may lead to forfeiture of the mining lease. These standard conditions are not detailed in Part I of this Report.

(e) Transfer

The consent of the Minister is required to transfer a mining lease.

4. ABORIGINAL HERITAGE

Aboriginal sites were identified from the Heritage Searches (as noted in Part II of this Report).

Currently the Company has not entered into any Aboriginal heritage agreements. To the extent that any work programs overlap with any Aboriginal sites, the Company will enter into standard Aboriginal heritage agreements which set out the obligations of the parties holding an interest in the Tenements (whether title or mineral rights only) in protecting Aboriginal heritage in areas where exploration takes place in a manner that is transparent, timely, certain and cost effective.

4.1 Commonwealth legislation

The *Aboriginal and Torres Strait Islander Heritage Protection Act 1984* (Cth) (Commonwealth Heritage Act) is aimed at the preservation and protection of any Aboriginal areas and objects that may be located on the Tenements.

Under the Commonwealth Heritage Act, the Minister for Aboriginal Affairs may make interim or permanent declarations of preservation in relation to significant Aboriginal areas or objects, which have the potential to halt exploration activities. Compensation is payable by the Minister for Aboriginal Affairs to a person who is, or is likely to be, affected by a permanent declaration of preservation.

It is an offence to contravene a declaration made under the Commonwealth Heritage Act.

4.2 Western Australian legislation

Tenements are granted subject to a condition requiring observance of the *Aboriginal Heritage Act 1972* (WA) (WA Heritage Act).

The WA Heritage Act makes it an offence to alter or damage sacred ritual or ceremonial Aboriginal sites and areas of significance to Aboriginal persons (whether or not they are recorded on the register or otherwise known to the Register of Aboriginal Sites, DPLH or the Aboriginal Cultural Material Committee).

The Minister's consent is required where any use of land is likely to result in the excavation, alteration or damage to an Aboriginal site or any objects on or under that site.

Aboriginal sites may be registered under the WA Heritage Act. However, there is no requirement for a site to be registered. The WA Heritage Act protects all registered and unregistered sites.

5. NATIVE TITLE

5.1 General

The law of Australia recognises the existence of native title rights held by indigenous Australians over their traditional lands¹. Native title exists where an indigenous group has maintained a continuous traditional connection with the land, and those rights have not been extinguished.

Native title may be extinguished:

- (a) in whole by the grant of an interest in land conferring “exclusive possession” such as a freehold interest in the land; or
- (b) in part by the grant of an interest conferring “non-exclusive possession” including the grant of pastoral leases and mining leases, or the creation of certain reserves. In this case, the native title will co-exist with the other rights to the land.

The *Native Title Act 1993* (Cth) (NTA):

- (a) provides a process for indigenous people to claim native title rights² and compensation³;
- (b) confirms the validity of past actions (including grants of land tenure) by the Commonwealth and State governments⁴; and
- (c) specifies the procedures which must be complied with to ensure that acts that may affect native title rights (such as the grant or renewal of a mining tenement) are valid.

The NTA has been adopted in Western Australia by the enactment of the Titles (Validation) and Native Title (Effect of Past Acts) Act 1995.

5.2 Native title claim process

Persons claiming to hold native title may lodge an application for determination of native title with the Federal Court. The application is then referred to the NNTT to assess whether the claim meets the registration requirements in the NTA, and if so, the native title claim will be entered on the register of native title claims (RNTC) maintained by the NNTT.

Native title claimants have certain procedural rights, including the rights to negotiation and compensation, in relation to the grant of mining tenements if their native title claim is registered at the time the State issues a notice of the proposed grant of the mining tenement (Section 29 Notice), or if their claim becomes registered within four months after the Section 29 Notice.

Once a claim is registered, a claimant must prove its claim in the Federal Court in order to have native title determined and the claim entered on the National Native Title Register (NNTR).

¹ *Mabo v Queensland (No 2)* (1992) 175 CLR 1

² Parts 3 and 4 of the NTA

³ Part 3, Division 5 of the NTA

⁴ Part 2, Division 2 of the NTA

5.3 Grant of tenements and compliance with the NTA

The grant of any mining tenement after 23 December 1996 must comply with the applicable NTA procedures in order to be valid. The exception to this is where native title has never existed over the land covered by the tenement, or has been extinguished prior to the grant of the tenement.

The absence of a claim does not necessarily indicate that there is no native title over an area, as native title claims could be made in the future.

Unless it is clear that native title does not exist (such as where the land the subject of a tenement application is freehold land), the usual practice of the State is to comply with the NTA when granting a tenement. This ensures the grant will be valid if a court subsequently determines that native title rights exist over the land subject to the tenement.

The procedural requirements in the NTA relating to the grant of a mining tenement (referred to as the "Future Act" procedures) include four alternatives:

1. the right to negotiate, which is the primary Future Act procedure prescribed by the NTA;
2. the expedited procedure, which may be used in relation to the grant of exploration and prospecting licences;
3. an indigenous land use agreement; and
4. the infrastructure process.

Future Act procedures are provided below.

5.4 Right to negotiate

The primary Future Act procedure prescribed by the NTA is the "right to negotiate".

The right to negotiate involves a negotiation between the registered native title claimants, the tenement applicant and the State government, the aim of which is to agree the terms on which the tenement may be granted.

The applicant for the tenement is usually liable for any compensation that the parties agree to pay to the native title claimants. The parties may also agree on conditions that will apply to activities carried out on the tenement.

The initial negotiation period is six months from the date on which the State issues a Section 29 Notice.

If the parties cannot reach an agreement within the initial six month period, any party may refer the matter to arbitration before the NNTT, which then has six (6) months to determine whether the tenement can be granted and if so, on what conditions.

5.5 Expedited procedure

Where the grant of a tenement is unlikely to directly interfere with community or social activities or areas or sites of particular significance, or involve major disturbance to land or waters, the NTA permits the State to follow an expedited procedure for the grant of a tenement.

The State applies the expedited procedure to the grant of exploration and prospecting tenements.

Registered native title parties can lodge an objection to the use of the expedited procedure within the period of four months following the issue of the Section 29 Notice by the State (Objection Period).

If no objections are lodged or if the objections are withdrawn, the State may grant the tenement at the expiry of the Objection Period without undertaking a negotiation process.

If an objection is lodged, the NNTT must determine whether the grant of the tenement is an act attracting the Expedited Procedure. If the NNTT determines the expedited procedure does not apply, the parties must follow the right to negotiate procedure or enter into an indigenous land use agreement.

The DMIRS currently has a policy of requiring applicants for prospecting licences and exploration licences to sign and send a Regional Standard Heritage Agreement (RSHA) to the registered native title claimant, or prove they have an existing RSHA or Alternative Heritage Agreement in place.

The RSHA provides a framework for the conduct of Aboriginal heritage surveys over the land the subject of a tenement prior to the conducting of ground-disturbing work and conditions that apply to activities carried out within the tenement.

If the registered native title claimant does not execute the RSHA within the Objection Period (and no objections are otherwise lodged), the tenement may still be granted at the expiry of the Objection Period. If the tenement applicant refuses or fails to execute or send the RSHA to the registered native title holder, the DMIRS will process the application under the right to negotiate procedure.

5.6 Indigenous land use agreement

The right to negotiate and expedited procedures do not have to be followed if an indigenous land use agreement (ILUA) has been registered with the NNTT.

An ILUA is a voluntary contractual arrangement negotiated with all registered native title claimants for a relevant area. The State and the applicant for the tenement are usually the other parties to the ILUA.

An ILUA must set out the terms on which the relevant mining tenement may be granted. An ILUA will also specify conditions on which activities may be carried out within the tenement. The applicant for a tenement is usually liable for any compensation that the parties agree to pay to the registered native title claimants in return for the grant of the tenement being approved. These obligations pass to a transferee of the tenement.

Once an ILUA is agreed and registered, it binds the whole native title claimant group and all holders of native title in the area (including future claimants), even though they may not be parties to it.

5.7 Infrastructure process

The right to negotiate and expedited procedures also do not apply for grants of tenements for the sole purpose of the construction of an infrastructure facility.

In Western Australia, the DMIRS applies the infrastructure process to most miscellaneous licences and general purpose leases, depending on their purpose. For these types of tenements, an alternative consultation process applies, and in the absence of an agreement between the native title claimants and the applicant, the matter can be referred to an independent person for determination.

5.8 Renewals

Renewals of mining tenements made after 23 December 1996 must comply with the Future Act provisions in order to be valid under the NTA, except where:

- (a) the area to which the mining tenement applies is not extended;
- (b) the term of the renewed mining tenement is not longer than the term of the earlier mining tenement; and
- (c) the rights to be created are not greater than the rights conferred by the earlier mining tenement.

5.9 Native title claims and determinations affecting the Tenements

Our searches indicate that all of the Tenements are within the external boundaries of the native title claims and determinations as specified in Part I of this Report.

5.10 Indigenous land use agreements affecting the Tenements

As at the date of this Report, there are no registered ILUA's in respect of the Tenements.

6. CROWN LAND

As set out in Part I of this Report, land the subject of the Tenements below overlaps Crown land.

Tenement	Crown land	% overlap
P40/1471	Unallocated Crown Land: 1 Land parcel affected.	(9.3901HA) (100%)
P40/1494	Unallocated Crown Land: 2 Land parcels affected.	(51.5146HA) (63.23%)
E45/5939	Unallocated Crown Land: 1 Land parcel affected.	(19240.4165HA) (100%)

The Mining Act:

- (a) prohibits the carrying out of prospecting, exploration or mining activities on Crown land that is less than 30 metres below the lowest part of the natural surface of the land and:
 - (i) for the time being under crop (or within 100 metres of that crop);
 - (ii) used as or situated within 100 metres of a yard, stockyard, garden, cultivated field, orchard vineyard, plantation, airstrip or airfield;
 - (iii) situated within 100 metres of any land that is an actual occupation and on which a house or other substantial building is erected;
 - (iv) the site of or situated within 100 metres of any cemetery or burial ground; or
 - (v) if the Crown land is a pastoral lease, the site of or situated within 400 metres of any water works, race, dam, well or bore not being an excavation previously made and used for purposes by a person other than the pastoral lessee,without the written consent of the occupier, unless the warden by order otherwise directs.
 - (b) imposes restrictions on a tenement holder passing over Crown land referred to in section (a), including:
 - (i) taking all necessary steps to notify the occupier of any intention to pass over the Crown land;
 - (ii) the sole purpose for passing over the Crown land must be to gain access to other land not covered by section (a) to carry out prospecting, exploration or mining activities;
 - (iii) taking all necessary steps to prevent fire, damage to trees, damage to property or damage to livestock by the presence of dogs, the discharge of firearms, the use of vehicles or otherwise; and
 - (iv) causing as little inconvenience as possible to the occupier by keeping the number of occasions of passing over the Crown land to a minimum and complying with any reasonable request by the occupier as to the manner of passage.
 - (c) requires a tenement holder to compensate the occupier of Crown land:
 - (i) by making good any damage to any improvements or livestock caused by passing over Crown land referred to in section (a) or otherwise compensate the occupier for any such damage not made good; and
 - (ii) in respect of land under cultivation, for any substantial loss of earnings suffered by the occupier caused by passing over Crown land referred to in section (a).
-

The warden may not give the order referred to in section (a) that dispenses with the occupier's consent in respect of Crown land covered by section (iii). In respect of other areas of Crown land covered by the prohibition in section (a), the warden may not make such an order unless he is satisfied that the land is genuinely required for mining purposes and that compensation in accordance with the Mining Act for all loss or damage suffered or likely to be suffered by the occupier has been agreed between the occupier and the tenement holder or assessed by the warden under the Mining Act.

Although the Company will be able to undertake its proposed activities on those parts of the Tenements not covered by the prohibitions and pass over those parts of the Tenements to which the restrictions do not apply immediately upon listing on ASX, the Company should consider entering into access and compensation agreements with the occupiers of the Crown land upon commencement of those activities in the event further activities are required on other areas of the Tenements which are subject to prohibitions or restrictions.

7. PASTORAL LEASES

As set out in Part I of the Schedule to this Report certain tenements overlap with pastoral leases.

The Mining Act:

- (a) prohibits the carrying out of mining activities on or near certain improvements and other features (such as livestock and crops) on Crown land (which includes a pastoral lease) without the consent of the lessee;
- (b) imposes certain restrictions on a mining tenement holder passing through Crown land, including requiring that all necessary steps are taken to notify the occupier of any intention to pass over the Crown land and that all necessary steps are taken to prevent damage to improvements and livestock; and
- (c) provides that the holder of a mining tenement must pay compensation to an occupier of Crown land (ie the pastoral lessee) in certain circumstances, in particular to make good any damage to improvements, and for any loss suffered by the occupier from that damage or for any substantial loss of earnings suffered by the occupier as a result of, or arising from, any exploration or mining activities, including the passing and re-passing over any land.

We have been advised by the Company and the Company has confirmed that to the best of its knowledge it is not aware of any improvements and other features on the land the subject of the pastoral leases which overlaps the Tenements which would require the Company to obtain the consent of the occupier or lease holder or prevent the Company from undertaking its proposed mining activities on the Tenements.

Upon commencing mining operations on any of the Tenements, the Company should consider entering into a compensation and access agreement with the pastoral lease holders to ensure the requirements of the Mining Act are satisfied and to avoid any disputes arising. In the absence of agreement, the Warden's Court determines compensation payable.

The DMIRS imposes standard conditions on mining tenements that overlay pastoral leases. It appears the Tenements incorporate the standard conditions.

8. PRIVATE LAND

Generally, and subject to certain exceptions and limitations, private land which is not already subject to a mining tenement is considered open for mining under the Mining Act, and a mining tenement may be issued in relation to such land, entitling the holder to the rights granted thereby. However, a tenement may not be granted in respect of private land which is:

- (a) in *bona fide* and regular use as a yard, stockyard, garden, orchard, vineyard, plant nursery or plantation or is land under cultivation or within 100m of that site;
- (b) the site of a cemetery or burial ground or within 100 metres of that site;
- (c) the site of a dam, bore, well or spring or within 100 metres of that site;
- (d) on which there is erected a substantial improvement or within 100 metres of that improvement; or
- (e) a parcel of land with an area of 2,000 square metres or less,

unless the written consent of the private landholder and any other occupier is obtained or the tenement is only granted in respect of the land below 30 metres from the surface of the private land. If the tenement is only granted in respect of the land below 30 metres from the surface of the private land, the tenement holder can apply to the Minister for the land between the surface and 30 metres depth to be included in the tenement, which application may be granted provided that the private landowner has consented to such land being included in the tenement.

Tenement P40/1489 overlaps with private land as follows: Lot 81 on DP222903 (0.0073HA) (<0.01%).

The owners and occupiers of any land where mining takes place are entitled according to their respective interests to compensation for all loss and damage suffered or likely to be suffered by them resulting or arising from the mining, whether or not lawfully carried out. The tenement holder may not commence mining on the surface or within a depth of 30 metres from the surface until compensation has been agreed with the private landowner or paid in accordance with the Mining Act. Compensation may be determined by agreement between the tenement holder and private landowner or occupier, or by the warden.

The owner and any other occupier may be entitled to compensation for:

- (a) deprivation of the possession or use of the natural surface or any part of the land;
 - (b) damage to the land or any part of the land;
 - (c) severance of the land or any part of the land from other land of, or used by, the owner or occupier;
 - (d) loss or restriction of a right of way or other easement or right;
 - (e) loss of, or damage to, improvements;
 - (f) social disruption;
-

- (g) in the case of private land that is land under cultivation, any substantial loss of earnings, delay, loss of time, reasonable legal or other costs of negotiation, disruption to agricultural activities, disturbance of the balance of the agricultural holding, the failure on the part of a person concerned in the mining to observe the same laws or requirements in relation to that land as regards the spread of weeds, pests, disease, fire or erosion, or as to soil conservation practices, as are observed by the owner or occupier of that land; and
- (h) any reasonable expenses properly arising from the need to reduce or control the damage resulting or arising from the mining.

9. QUALIFICATIONS AND ASSUMPTIONS

This Report is subject to the following qualifications and assumptions:

- (a) we have assumed the accuracy and completeness of all Searches, register extracts and other information or responses which were obtained from the relevant department or authority including the NNTT;
 - (b) we assume that the registered holder of a Tenement has valid legal title to the Tenement;
 - (c) this Report does not cover any third party interests, including encumbrances, in relation to the Tenements that are not apparent from our Searches and the information provided to us;
 - (d) we have assumed that any agreements provided to us in relation to the Tenements are authentic, were within the powers and capacity of those who executed them, were duly authorised, executed and delivered and are binding on the parties to them;
 - (e) with respect to mining leases already granted, we have assumed that the applicant strictly complied with all requirements under the Mining Act during the application process;
 - (f) with respect to the granting of the Tenements, we have assumed that the State and the applicant for the Tenements have complied with, or will comply with, the applicable Future Act Provisions;
 - (g) we have assumed the accuracy and completeness of any instructions or information which we have received from the Company or any of its officers, agents and representatives;
 - (h) unless apparent from our Searches or the information provided to us, we have assumed compliance with the requirements necessary to maintain a Tenement in good standing;
 - (i) references in Parts I and II of this Report to any area of land are taken from details shown on searches obtained from the relevant department. It is not possible to verify the accuracy of those areas without conducting a survey;
 - (j) the information in Parts I and II of this Report is accurate as at the date the relevant Searches were obtained. We cannot comment on whether any changes have occurred in respect of the Tenements between the date of the Searches and the date of this Report;
-

- (k) where Ministerial consent is required in relation to the transfer of any Tenement, we express no opinion as to whether such consent will be granted, or the consequences of consent being refused, although we are not aware of any matter which would cause consent to be refused;
- (l) we have not conducted searches of the Database of Contaminated Sites maintained by the Department of the Environment and Conservation;
- (m) native title may exist in the areas covered by the Tenements. Whilst we have conducted Searches to ascertain that native title claims and determinations, if any, have been lodged in the Federal Court in relation to the areas covered by the Tenements, we have not conducted any research on the likely existence or non-existence of native title rights and interests in respect of those areas. Further, the NTA contains no sunset provisions and it is possible that native title claims could be made in the future; and
- (n) Aboriginal heritage sites or objects (as defined in the WA Heritage Act or under the Commonwealth Heritage Act) may exist in the areas covered by the Tenements regardless of whether or not that site has been entered on the Register of Aboriginal Sites established by the WA Heritage Act or is the subject of a declaration under the Commonwealth Heritage Act other than the Heritage Searches. We have not conducted any legal, historical, anthropological or ethnographic research regarding the existence or likely existence of any such Aboriginal heritage sites or objects within the area of the Tenements.

10. LIMITATION OF LIABILITY

We do not accept any liability, nor shall we be liable for anything stated in or done in connection with the documents reviewed, this Report or any related enquiries and work:

- (a) for any aspect, issue, subject or consideration which falls outside the scope of the review as set out in Section 1 of this Report; or
- (b) for any incorrect or incomplete information provided to us.

Without limiting the foregoing, the partners and employees of Steinepreis Paganin or any of its affiliates shall not be liable in their personal capacity for any claim whatsoever arising, directly or indirectly, in connection with any advice or opinions given in, views expressed in, errors in, or omissions from, this Report, and all such claims shall be enforceable only against the partnership and may be satisfied only from the assets of the partnership, including the partnership's professional indemnity cover (and not from the personal estates of any individual referred to above).

11. CONSENT

This Report is given for the benefit of the Company and the directors of the Company in connection with the issue of the Prospectus and is not to be disclosed to any other person or used for any other purpose or quoted or referred to in any public document or filed with any government body or other person without our prior consent.

Yours faithfully

A handwritten signature in blue ink, reading "Steinepreis Paganin". The signature is fluid and cursive, with the first name "Steinepreis" and the last name "Paganin" clearly distinguishable.

STEINEPREIS PAGANIN

Key to Tenement Schedule

P – Prospecting Licence

M – Mining Lease

References to numbers in the “Notes” column refers to the following:

Non-standard tenement endorsements

1.	The Licensee's attention is drawn to the existence of a licence for proposed extension for access and use of borrow pits and water bores granted pursuant to section 91 of the Land Administration Act 1997 and which is shown designated as FNA 13287 in TENGRAPH.
2.	The Licensee's attention is drawn to the existence of a licence for proposed access easement over portion of UCL, along Kidson Track, Telfer, Shire of East Pilbara. granted pursuant to section 144 of the Land Administration Act 1997 and which is shown designated as FNA 13704 in TENGRAPH.

Non-standard tenement conditions

1.	Scrape and detecting and dry blowing operations are to be progressively rehabilitated so that no more than two hectares will be open (meaning disturbed without rehabilitation works being completed) at any one time.
2.	No mining within 30 metres of either side and to a depth of 15 metres of the Rail Corridor Land RCL/14 Kookynie to Leonora as shown in TENGRAPH without the prior written approval of the Minister responsible for the Mining Act 1978.

References to letters in the “Notes” column refers to the following material contracts:

- A. On 30 March 2021, Lofasz Pty Ltd (ACN 644 637 105) (the Applicant) entered into an Access Deed Agreement with Navigator Mining Pty Ltd (ACN 109 351 564) (the Owner) (the Parties) (the Access Agreement). The Access Agreement details the access arrangements between the Parties in relation to the Owner's held miscellaneous licence 37/195 (the Existing Tenement), the Applicant's prospecting licence 37/9474 (if granted) (the New Tenement) and the Parties' access arrangements in the area of overlap where the New Tenement, when granted, encroaches over part of the Existing Tenement.

Unless otherwise indicated, capitalised terms have the same meaning given to them in the Prospectus.

Please refer to Part II of this Report for further details on native title and Aboriginal heritage matters.

Tengraph interests

	Land Type	Description
1.	Pastoral Lease (PL)	A pastoral lease is a lease of Crown land that has been granted under Section 114 of the Land Act 1933 (WA), which provides that any Crown land within the State which is not withdrawn from the selection for pastoral purposes, and which is not required to be reserved, may be leased for pastoral purposes. Refer to Section 7 of this Report for further information with respect to pastoral leases. Historical Pastoral Lease 395 489 overlaps the following Tenements: • P37/8657 (40.3319HA) (100%) • P37/8686 (185.8738HA) (100%) • P37/8696 (188.6254HA) (100%) • P37/8720 (198.1475HA) (100%) • P37/8936 (58.2014HA) (100%) • P7/8980 (196.6083HA) (100%) • P37/8981 (199.9426HA) (100%), • P37/8982 (200.1207HA) (100%) • P37/8983 (196.0514HA) (100%) • P37/8984 (195.9956HA) (100%) • P37/8985 (199.7923HA) (100%) • P37/8986 (200.0882HA) (100%) • P37/8987 (198.9302HA) (100%) • P37/9033 (199.2535HA) (100%) • P37/9034 (199.0521HA) (100%) • P37/9035 (68.661HA) (34.61%) • P37/9351 (189.2193HA) (100%) • P37/9352 (181.4681HA) (100%) • P37/9353 (193.4257HA) (100%) • P37/9354 (196.4853HA) (100%) • P37/9355 (196.2016HA) (100%) • P37/9356 (172.3024HA) (100%) • P37/9357 (160.5476HA) (100%) • P37/9373 (1.7994HA) (100%)

	Land Type	Description
		• P37/9385 (165.0605HA) (82.53%) • P37/9386 (125.7943HA) (82.53%) • P37/9468 (13.3766HA) (7.3%) Pastoral Lease N050241 overlaps the following tenements: • M40/336 (8.5726HA) (100%) • P40/1379 (37.4325HA) (46.63%) • P40/1383 (66.5458HA) (100%) • P40/1384 (25.0023HA) (100%) • P40/1385 (172.2758HA) (100%) • P40/1386 (151.45HA) (91.34%) • P40/1391 (184.8968HA) (94.57%) • P40/1400 (139.5645HA) (100%) • P40/1413 (4.2522HA) (100%) • P40/1419 (197.2151HA) (100%) • P40/1420 (66.4337HA) (49.35%) • P40/1448 (9.4251HA) (100%) • P40/1494 (28.3598HA) (34.81%) • P40/1535 (10.3589HA) (100%) • P40/1509 (74.455HA) (63.74%) • P40/1563 (104.6892HA) (97.93%) • P40/1559 (132.4385HA) (97.59%) • E40/270 (299.1311HA) (100%) • E40/348 (1194.7095HA) (99.97%) • E40/407 (299.2626HA) (100%) • P40/1333 (110.2427HA) (98.11%) • P40/1334 (119.0354HA) (100%) • P40/1345 (15.1833HA) (10.79%) Pastoral Lease N 049 728 overlaps the following tenements: • P40/1463 (176.4637HA) (100%) • P40/1505 (74.6461HA) (100%)

	Land Type	Description
		Pastoral Lease N 050 242 overlaps Tenement E29/1152 (6587.1602HA) (100%)
2.	Groundwater Area (GWA)	Groundwater is a reserve of water beneath the earth's surface in pores and crevices of rocks and soil. Recharge of groundwater aquifers is slow and can take many years. Groundwater often supports wetland and stream ecosystems. Groundwater areas are proclaimed under the Rights in Water and Irrigation Act, 1914. There are 45 proclaimed groundwater areas in Western Australia where licences are required to construct or alter a well and to take groundwater. The Department of Water is responsible for managing proclaimed areas under the Act. GWA 21 was identified on the following tenements: • P37/8657 (40.3319HA) (100%) • P37/8686 (185.8738HA) (100%) • P37/8696 (188.6254HA) (100%) • P37/8720 (198.1475HA) (100%) • P37/8812 (128.7787HA) (100%) • P37/8936 (58.2014HA) (100%) • P7/8980 (196.6083HA) (100%) • P37/8981 (199.9426HA) (100%) • P37/8982 (200.1207HA) (100%) • P37/8983 (196.0514HA) (100%) • P37/8984 (195.9956HA) (100%) • P37/8985 (199.7923HA) (100%) • P37/8986 (200.0882HA) (100%) • P37/8987 (198.9302HA) (100%) • P37/9033 (199.2535HA) (100%) • P37/9034 (199.0521HA) (100%) • P37/9035 (198.3719HA) (100%) • P37/9159 (9.6122HA) (100%) • P37/9351 (189.2193HA) (100%) • P37/9352 (181.4681HA) (100%) • P37/9353 (193.4257HA) (100%) • P37/9354 (196.4853HA) (100%) • P37/9355 (196.2016HA) (100%)

5.	Class "C" Reserve	Under section 41 of the Land Administration Act 1997 (LAA) the Minister may set aside Crown lands by Ministerial Order in the public interest. Every such reservation has its description and designated purpose registered on a Crown Land Title (CLT) and is depicted on an authenticated map held by Landgate. Reservation action is normally initiated by the Department of Planning, Lands and Heritage following community or Government request, land planning decisions, or as a result of the subdivision of land. The Land Act 1933 provided for State reserves to be classified as Class A, B or C. There is no provision in the LAA to create new Class B reserves and there is no longer reference to Class C reserves. Class A affords the greatest degree of protection for reserved lands, requiring approval of Parliament to amend the reserve's purpose or area, or to cancel the reservation. The "A" Classification is used solely to protect areas of high conservation or high community value. Class B reserves continue yet are no longer created under the LAA. The Minister for Lands may deal with Class B reserved lands as normal reserves, provided that, should the reservation be cancelled, a special report is made to both Houses of Parliament within 14 days from the cancellation or within 14 days after the commencement of the next session. Once created, a reserve is usually placed under the care, control and management of a State government department, local government or incorporated community group by way of a Management Order registered against the relevant CLT. A Management Order under the LAA does not convey ownership of the land – only as much control as is essential for the land's management. The Mining Act: (a) prohibits mining (which by definition includes prospecting and exploration) on Class C reserved land without the written consent of the Mines Minister; and (b) requires that before the Mines Minister may give written consent to mining on Class C reserved land, he must consult with, and obtain the recommendation of the responsible Minister and the local government, public body, or trustees or other persons in which the control and management of such land is vested. In practice, the Company will be required to consult with the vesting authority before consent will be granted. P37/9035 overlaps the following Class "C" Reserve: "C" Class Reserve Common (R 6259) (129.7114HA) (65.39%) P37/9374 overlaps the following Class "C" Reserve: "C" Class Reserve Common (R 6259) (184.4437HA) (100%) P40/1379 overlaps the following Class "C" Reserve:

7.	File Notation Area (FNA)	FNAs are an indication of areas where Government has proposed some change of land tenure that is being considered or endorsed by DMIRS for possible implementation; and/or areas of some sensitivity to activities by the mineral resource industry that warrants the application of specific tenement conditions. Many of the FNA's involve Section 16(3) clearances under the Mining Act 1978. Tenement P37/9385 overlaps the following File Notation Area: - FNA 16295 (165.0605HA) (82.53%) Tenement P37/9386 overlaps the following File Notation Area: - FNA 16295 (125.7943HA) (64.61%) Tenement P37/9468 overlaps the following File Notation Area: - FNA 16295 (13.3766HA) (7.3%) Tenement E45/5939 overlaps the following File Notation Area: - FNA 13704 (44.126HA) (0.23%)
8.	Railway Reserve	Tenement P40/1386 overlaps the following Railway Reserve:

	Land Type	Description
		- Railway Reserve Unnumbered (14.3596HA) (8.66%) Tenement P40/1420 overlaps the following Railway Reserve: - Railway Reserve Unnumbered (15.4713HA) (11.49%) Tenement P40/1489 overlaps the following Railway Reserve: - Railway Reserve Unnumbered (3.7065HA) (2.44%) Tenement P40/1559 overlaps the following Railway Reserve: - Railway Reserve Unnumbered (1.5893HA) (1.17%)
9.	Rail Corridor Land	Rail Corridor Land - Under section 34 of the Rail Freight System Act 2000, the Minister for Transport may designate government railway land as corridor land by order notice published in the Gazette. The Minister may dispose of corridor land to a company that provides and maintains facilities for the operation of railways. The interest in land that is disposed of cannot be any greater than a leasehold interest. The corridor land is currently leased to Arc Infrastructure, (which is currently wholly owned by Brookfield Infrastructure Partners L.P.). Corridor land may not be used in a way that is inconsistent with rights conferred by the Minister. The Public Transport Authority of WA manages corridor land on behalf of the Minister for Transport. Tenement P40/1386 overlaps the following Rail Corridor Land: - Kookynie To Leonora (14.3598HA) (8.66%) Tenement P40/1420 overlaps the following Rail Corridor Land: - Kookynie To Leonora (44.2776HA) (32.89%) Tenement P40/1489 overlaps the following Rail Corridor Land: - Goongarrie To Kooyne (6.2819HA) (4.13%) Tenement P40/1559 overlaps the following Rail Corridor Land: - Kookynie To Leonora (1.5893HA) (1.17%)
10.	General Purpose Lease (GE)	Tenement P40/1420 overlaps the following General Purpose Lease: - GE L692283 (22.5525HA) (16.75%) Tenement P40/1502 overlaps the following General Purpose Lease: - GE L692283 (9.8112HA) (100%) Tenement P40/1503 overlaps the following General Purpose Lease: - GE L692283 (5.9327HA) (100%)
11.	Unallocated Crown Land	Unallocated crown land is crown land in which no proprietary interest other than native title is known to exist, and which is not reserved, declared or otherwise dedicated under the LAA. Tenement P40/1471 overlaps the following Unallocated Crown Land: Unallocated Crown Land: 1 Land parcel affected (9.3901HA) (100%) Tenement P40/1494 overlaps the following Unallocated Crown Land:

	Land Type	Description
		- Unallocated Crown Land: 2 Land parcels affected (51.5146HA) (63.23%) Tenement E45/5939 overlaps the following Unallocated Crown Land: - Unallocated Crown Land: 1 Land parcel affected (19240.4165HA) (100%) Tenement P40/1345 overlaps the following Unallocated Crown Land: - Unallocated Crown Land: 1 Land parcel affected (125.0606HA) (88.88%)
12.	Road Reserves	Tenement P40/1489 overlaps the following Road Reserves: - Closed Road (0.0487HA) (0.03%) - Closed Road (0.182HA) (0.12%)
13.	Freehold /Private Land	Tenement P40/1489 overlaps the following Freehold Land: Lot 81 on DP222903 (0.0073HA) (<0.01%)

Re: Limited Title Report - Iris Metals
GPNA File No. 16461.0002

Gentlemen:

At the request of Iris Metals Limited (ACN 646 787 135) (the “Company”), this Limited Title Report (the “Report”) has been prepared by Gunderson, Palmer, Nelson & Ashmore, LLP for the inclusion in a prospectus to be issued by the Company on or around 11 April, 2023 (the “Prospectus”). Pursuant to the Company’s request, we have examined title to those certain patented real property parcels and unpatented mining claims (collectively, the “Claims”) which make up the Company’s South Dakota mineral holdings. All currently owned Claims are located in the State of South Dakota, United States of America.

EXECUTIVE SUMMARY

The Company has entered into a binding agreement pursuant to which it will acquire 100% of the issued share capital in Longview Minerals, LLC, which owns certain patented real property located in Custer County, South Dakota (the “Longview Claims”) in fee simple, including all mineral interests associated with these parcels. This ownership will provide the Company with the right to explore, develop and mine certain materials, including lithium-bearing minerals, in, on and under the Longview Claims.

The Company also holds a Mining Lease on certain patented real property located in Custer County, South Dakota (the “Leased Claims”) through a wholly owned subsidiary, Lotus Minerals, LLC (“Lotus”). The Mining Lease provides the Company the right to explore, develop and mine all minerals in, on and under the Leased Claims.

The Company also owns numerous unpatented mining claims through two wholly owned subsidiaries, White Rock, LLC (“White Rock”) and Lotus (the “Unpatented Claims”). Unpatented mining claims are real property interests in the minerals on the public lands of the United States. In addition to the Unpatented Claims, White Rock and Lotus have agreed to acquire numerous other staked, unpatented mining claims that have not yet been adjudicated by the Bureau of Land Management (“BLM”). The Mining Law of 1872 (“General Mining Law”) authorizes citizens and domestic entities to enter public lands and locate unpatented mining claims. White Rock and Lotus are domestic limited liability companies, both organized in the

Offices in Rapid City and Pierre, South Dakota

Attorneys licensed to practice in South Dakota, North Dakota, Nebraska, Wyoming, and Montana

State of South Dakota and are qualified to locate and own unpatented mining claims. The owner of an unpatented mining claim holds the right to enter, explore, develop and mine certain materials in, on and under those claims, to the extent such minerals are present, and to use so much of the surface as is reasonably necessary to access and extract the minerals, subject to the rights and interests of any third party surface owners, including, as applicable, private parties and local, state and federal regulatory authorities with jurisdiction over the areas covered by the unpatented claims.

The Company has also executed a binding heads of agreement with Schad Investments, LLC (a company organized in South Dakota) and Cody Schad (a member and the manager of Schad Investments, LLC) to acquire additional patented real property ("Schad Property") and unpatented mining claims located in the Black Hills of South Dakota ("Schad Agreement"). The unpatented mining claims subject to this binding heads of agreement have not yet been adjudicated by the BLM.

I. DESCRIPTION OF THE TENEMENTS

A. The Longview Claims and Schad Property

Longview Minerals, LLC, holds record title to the following legally described real property in Custer County, South Dakota.

Section 18 Township 4 South, Range 5 East, Black Hills Meridian:

Longview Lode MS #2201 located in Sections 7 and 18, Township 4 South, Range 5 East of the Black Hills Meridian, Custer County, South Dakota

Georgia Tract of Bland Subdivision Phase III, located in the NW1/4 of Section 18, T4S, R5E, BHM, Custer County, South Dakota, shown on Plat recorded in Book 12 of Plats, Page 912.

("Collectively referred to as the "Longview Claims").

1. Records Examined, Longview Claims

For purposes of this Report, we examined the following documents regarding the Longview Claims.

- a. The mineral title documents filed of record with the Custer County Register of Deeds office regarding the parcels legally described above.
- b. Record title to private lands, patented mineral claims, unpatented mineral claims and other interests in real property are governed by

documents recorded in the Register of Deeds office in the County in which the real property is located.

Record title to the Longview Claims is vested with Longview Minerals, LLC. As of March 14, 2023, there are no instruments recorded in the Register of Deeds Office of Custer County, South Dakota by which a third party asserts an encumbrance or lien against the Longview Claims.

Longview Minerals, LLC is a South Dakota limited liability company that was duly formed and organized on August 25, 2022. As of March 20, 2023, Longview Minerals, LLC is in good standing with the South Dakota Secretary of State.

Schad Property

The patented real property subject to the Schad Agreement (the "Schad Property") is located in Pennington County, South Dakota. Neither the Schad Agreement, nor the recorded Warranty Deed transferring the patented real property to Schad Investments, LLC, reserved any mineral rights in the property to the respective seller. Therefore, assuming that previously recorded instruments transferring title to the real property have not reserved any mineral interests, the Company shall have full access to explore and develop any minerals located on these patented parcels, subject to applicable federal, state and local regulations.

B. Leased Claims

Additionally, the Company holds a Mining Lease by which Lotus, a wholly owned subsidiary, leases from David and Winfred Bland, the record title holders, the following legally described real property in Custer County:

Section 18 Township 4 South, Range 5 East, Black Hills Meridian:

The D & W Tract of Bland Subdivision Phase 3 (the "Leased Claims").

1. Records Examined, Leased Claims.

For purposes of this report we examined the following documents regarding the Leased Claims.

- a. The mineral title documents filed of record with the Custer County Register of Deeds office regarding the parcels legally described above.
- b. Record title to the Leased Claims is vested with Dave Bland and Winfred Bland aka Sammie Bland. A Mining Lease executed by Dave Bland and Winfred Bland aka Sammie Bland on August 4, 2022, grants to Lotus the

rights to explore, develop and mine all minerals on the Leased Claims for 20 years.

Lotus Minerals, LLC is a South Dakota limited liability company that was duly formed and organized on April 13, 2022. As of March 20, 2023, Lotus Minerals, LLC is in good standing with the South Dakota Secretary of State.

C. Unpatented Claims

The Company's mineral interests in South Dakota include unpatented mining claims owned by White Rock and Lotus. These unpatented claims are identified on the BLM Mining Claim Customer Information reports attached hereto as Exhibits A and B respectively (collectively referred to as the "Unpatented Claims").

1. Records Examined.

For purposes of this Report we examined the following documents regarding the Unpatented Claims.

- a. The BLM Mineral & Land Records System ("MLRS") Mining Claim Customer Information Reports for White Rock, LLC and Lotus Minerals, LLC, which record the filing of the certificates of location and mining claims maps for the Unpatented Claims and BLM's receipts for payment of the federal annual mining claim maintenance fee.
- b. Record title to private lands, patented mineral claims, unpatented mineral claims and other interests in real property are governed by documents recorded in the Register of Deeds office in the County in which the real property is located. BLM identification of the Unpatented Claims as "Active" on the BLM Mining Claim Customer Information Report does not necessarily indicate that the Notice and Certificate of Location, Lode Mining Claims have been timely filed with the Register of Deeds office of the County in which the Notice was filed, as well as the date filed and location of the filing in the Register of Deeds office.
- c. Our examination is limited to the foregoing records for purposes of determining the good standing of the Claims as shown on the BLM records and the absence of recorded claims of title adverse to the Company and the subsidiaries identified in this Report. We have not examined the public records concerning the status of any Federal public lands, mining claims, mineral rights or other property interests, except those described in this Report.

Based solely on our examination of the records identified above and based on and subject to the requirements, comments, limitations and assumptions contained herein, the locator and

current claimants of record for the Unpatented Claims are Lotus Minerals, LLC and White Rock, LLC, as identified on the attached BLM Mining Claim Customer Information reports.

Additionally, Lotus Minerals, LLC and White Rock, LLC have entered into binding agreements to acquire interests in numerous other unpatented mining claims in South Dakota and Wyoming which have not yet been adjudicated by the BLM. Based on our review of the processes utilized by the agents of White Rock and Lotus, we do not foresee issues with the filing and recording of any such claims. At this time, however, we express no opinion as to the validity of any claims not identified as "Active" on the BLM Mining Claim Customer Information Reports attached hereto. A spreadsheet identifying the location and date of location of these claims is attached as Exhibit C. Our examination did not include verification of any information provided in Exhibit C.

Finally, under the Schad Agreement, the Company has agreed to acquire additional unpatented mining claims. The unpatented mining claims subject to the Schad Agreement are located in Custer, Lawrence and Pennington Counties, South Dakota and Crook County Wyoming. These unpatented mining claims have not yet been adjudicated by the BLM. Based on our review of the processes utilized by the agents of the Company, we do not foresee issues with the filing and recording of any such claims. At this time, however, we express no opinion as to the validity of any claims not identified as "Active" on the BLM Mining Claim Customer Information Reports attached hereto, including the unpatented claims subject to the Schad Agreement.

White Rock, LLC is a South Dakota limited liability company that was duly formed and organized on March 25, 2022. As of March 20, 2023, White Rock, LLC is in good standing with the South Dakota Secretary of State.

II. Litigation

Searches were conducted at the county, state and federal level for actions pending in which the Company, or any of the subsidiaries identified in this Report, are named as parties.

As of February 22, 2022, there are no actions currently pending in the South Dakota State Courts against the Company or any of the subsidiaries identified in this Report. We caused searches to be performed by the County Clerk of Courts in Custer and Pennington Counties, South Dakota. As of March 20, 2023 the clerks of court in each county indicated that there were no actions pending in which the Company, or any of the subsidiaries identified in this Report, are named as parties.

As of April 3, 2023, there are no actions pending in the United States District Courts against Company, or any of the subsidiaries of Company identified in this Report. As of April 3, 2023, there are no bankruptcy proceedings pending in the United States Bankruptcy Courts in which Company, or any of the subsidiaries of Company, are named as parties. Our examination of the

federal courts, both District Courts and Bankruptcy Courts, was conducted through the PACER on-line service.

III. Judgments, Liens

UCC and federal tax lien searches were conducted through the South Dakota Secretary of State's Office on March 20, 2023 for the following names: Iris Metals, Limited; White Rock, LLC; Lotus Minerals, LLC; and Longview Minerals, LLC. No such liens were identified.

We requested the Office of the Register of Deeds of Custer and Pennington County, South Dakota, search their records for any effective recorded instruments which assert adverse claims, encumbrances, liens or royalties against the following names: Iris Metals Limited; White Rock, LLC; Lotus Minerals, LLC; and Longview Minerals, LLC. On January 24, 2023, the Register of Deeds offices indicated that there are no effective recorded instruments which assert adverse claims, encumbrances, liens or royalties against the ownership interests of the Company, White Rock or Lotus in the Longview Claims, Leased Claims, Unpatented Claims or Schad Property.

IV. COMMENTS, QUALIFICATIONS, AND EXCEPTIONS

1. Status of Rights Held Under fee ownership of Longview Claims, Schad Property and Leased Claims

Real property can be divided into two estates – the surface estate and the mineral interest estate. In certain situations, the surface estate and the mineral estate can be severed, such that the owner of the surface estate and mineral estate may be different parties. In such situations, the owner of the mineral estate must negotiate an agreement with the owner of the surface estate prior to disrupting the surface, or pay just compensation to the surface owner occasioned by the mineral development.

Where, as with the Longview Claims and Leased Claims, the surface estate and mineral estate are not severed, but owned by the same party, exploration and exploitation of the minerals associated with the real property is much less complicated. As owner of both the surface and mineral estates, the Company, through Longview Minerals, will have the ability to explore and exploit minerals on the Longview Claims, subject only to applicable federal and state regulations. Likewise, through the Mining Lease entered regarding the Leased Claims, the Company has the ability to explore and exploit minerals on the Leased Claims.

As identified above regarding the Schad Property, neither the Schad Agreement, nor the recorded Warranty Deed transferring the patented real property to Schad Investments, LLC, reserved any mineral rights in the property to the respective seller. Therefore, assuming that previously recorded instruments transferring title to the real property have not reserved any mineral interests, the Company shall have full access to explore and develop any minerals located on these patented parcels, subject to applicable federal, state and local regulations.

In the Black Hills of South Dakota, lithium is found in spodumene, a pegmatite crystal. A license to mine for pegmatite minerals on privately owned property is regulated by the State's sand, gravel and construction aggregate mining statutes, codified at SDCL ch. 45-6. The requirements for obtaining such a license are much less burdensome than those required for obtaining a large- or small-scale mining permit. On December 12, 2022, the Company applied to the South Dakota Department of Agriculture and Natural Resources for the necessary license to mine pegmatite minerals and expects licensure in short order. Additionally, on November 30, 2022, Longview Minerals filed a Notice to Conduct Mineral Exploration Operation with the South Dakota Department of Agriculture and Natural Resources. On February 10, 2022, the Company received a response from DANR authorizing exploratory drilling on the Longview Claims, with certain common conditions. These conditions do not limit the Company's ability to conduct exploratory drilling on the Longview Claims. The conditions apply to reclamation, potential discharge of surface water, and archeological considerations should artifacts be encountered.

2. Status of Rights Held Under Unpatented Mining Claims.

The holder of an unpatented mining claim has a unique property interest. Under the General Mining Law, a citizen of the United States who complies with the statutory requirements for locating an unpatented mining claim automatically acquires the full possessory interest in the claims, without any action by the government. For purposes of a United States mining claim location a "citizen" includes an entity organized under the laws of any State. Lotus Minerals, LLC and White Rock, LLC are limited liability companies organized in the State of South Dakota and are qualified to locate and own unpatented mining claims.

Only certain types of minerals are subject to location. Locatable minerals include, but are not limited to: alum, amber, asphaltum, bog iron, borax, cement, diamonds, feldspar, fluorspar, granite, gypsum, guano, lithium, lustral, marble, mica, paint stone, pumice, salt, slate, umber, uranium, as well as metallic minerals (gold, silver, lead, cooper, zinc, nickel) and certain uncommon varieties of other mineral materials.

The locator's possessory rights in an unpatented mining claim include the right to exploit the locatable minerals within the claim and the right to use as much of the surface as reasonably necessary for operations associated with mineral development of the claim, subject to the rights of the surface owner. Where the United States has retained rights as the legal title holder to the lands on which an unpatented claim is located, it retains the right to manage the surface of the mining claim for other purposes and to dispose of mineral rights not covered by the mining claim location (e.g., the right to issue rights-of-way, easements, and oil and gas leases). The rights held under an unpatented mining claim are subject to certain statutory requirements and limitations, including the payment of annual claim maintenance fees. Failure to perform these ongoing requirements can result in loss of the right to maintain the claims. A mining claim locator's possessory rights are considered vested property rights in real property with full attributes and benefits of ownership exercisable against third parties, and these rights may be sold, transferred and mortgaged.

The locator of an unpatented mining claim may be eligible for a conveyance from the United States of the full fee simple interest in both the surface and mineral estates in the lands subject to the claim (known as a "patent" of the land). However, there has been a moratorium on the issuance of such patents in the United States since 1991. A locator's possessory rights to mine all of the minerals to exhaustion are complete in unpatented claims, and the locator is never required to apply for or obtain a patent in order to fully mine the minerals found on the claims.

In general, mining is excluded or may require additional stipulations in the following areas: national parks, wilderness areas, wilderness study areas, national monuments, areas of critical environmental concern, national conservation areas, or other designated areas that would prohibit or limit mining. While no governmental authorization is required for the mining claim owner to hold (without exploring or developing) its interest in the claims, various local, state and federal permits and other authorizations are generally required to begin exploration and development activities on the claims. For example, depending on the type of mining operation, the following permits and authorizations may be required: mining permit, plan of exploration or operations, air quality permit, water quality permit, hazardous materials permit, underground injection control permit, explosives license, mine safety permit, and a reclamation plan and accompanying reclamation bond.

4. Status of the Unpatented Mining Claims

The Unpatented Claims have an "Active" status with the BLM. The Unpatented Claims are in good standing according to the records in the BLM MLRS database. The annual mining claim maintenance fees must be paid in advance of the annual assessment year on or before September 1 of each year. The failure of the owner of an unpatented claim to pay the annual mining claim maintenance fees will result in automatic forfeiture of the mining claim. For all Unpatented Claims identified as "Active" on the attached BLM Mining Claim Customer Information reports, the maintenance fee for the 2023 assessment year has been paid and accepted by the BLM. The next annual maintenance fee for all such claims must be paid by September 1, 2023.

Pursuant to South Dakota law, the owner of unpatented mining claims must record with the County Register of Deeds, an affidavit specifying that compliance requirements arising under federal law to hold a mining claim have been met. These affidavits will be required to be filed by December 30th of each federal assessment year beginning in 2023.

5. Potential Conflict with Third Party Unpatented Mining Claims

A mining claim properly located on a designated date segregates the land from location by a subsequent locator as of the date of location, as long as all required acts of location are completed in the time required by law and the claimant maintains the

claims as valid and in good standing. A prior location is deemed to be the "senior" location and a claim subsequently located on the same ground is deemed the "junior" location. In addition, land that is occupied by a senior mineral patent, where the surface and minerals have been granted to a private party, is not open to the location of unpatented mining claims.

To the extent any of the Unpatented Claims conflict with senior, valid third party unpatented mining claims or patented lands in which third parties hold the mineral rights, the junior Claims will be invalid to the extent of the conflict. We did not conduct an analysis of potential conflicts among the Claims and any third-party unpatented mining claims.

C. Permitting and Land Use Restrictions

We have not been asked to review specific permit authorizations and requirements for the Claims. In general, operations on the Claims must be in compliance with all applicable laws and regulations promulgated by the federal, state and local authorities with jurisdiction over the lands on which the Claims are located.

While the BLM records received indicate that the Unpatented Claims appear to be located on ground open to mineral location, maps available on the BLM Minerals and Land Records system indicate that the Unpatented Claims are located within, or in the vicinity of, the Black Hills National Forest and the Mt. Rushmore National Monument. The BLM records examined also indicate that a Plan or Notice of Operations must be submitted and approved by the Forest Service prior to using any mechanized equipment on such Unpatented Claims.

The Unpatented Claims are located on federal land managed by the Black Hills National Forest. Holders of valid existing rights within National Forest lands are accorded the rights provided by the General Mining Law, but must also comply with the Forest Service regulations and may be subject to additional management requirements beyond those that would be imposed on operations outside of a national forest.

As a result of their location in, or proximity to, the Black Hills National Forest and the Mt. Rushmore National Monument, permitting for the Unpatented Claims is likely to be subject to additional requirements and restrictions imposed by the Forest Service, the National Park Service, and the BLM, the agencies with jurisdiction over the surrounding federal forest and monument lands. As discussed below, the acquisition of access rights across federal lands will be subject to the regulations of the agency with jurisdiction over such lands. Public comments related to permitting may attract the attention of non-governmental organizations with a focus on these areas.

D. Environmental and Mined Land Reclamation Laws & Regulations

We have not been asked to determine whether the Claims are in compliance with applicable environmental laws or whether there are any mining or environmental-related liabilities or contamination associated with the Claims. If there was historic mining activity in the areas where the Claims are located, there is significant potential for mining-related environmental contamination and/or liabilities that may become the responsibility, at least in part, of the Company.

Furthermore, mineral development on the Claims is subject to all applicable federal, state and local laws, regulations, and ordinances, including, but not limited to, (1) exploration, mining and reclamation permitting and bonding requirements of the BLM and the South Dakota Department of Agriculture & Natural Resources, Minerals and Mining Program and (2) environmental laws and regulations regulating environmental impacts, historic and cultural preservation, wildlife and endangered and threatened species, solid and hazardous waste, hazardous and toxic substances and materials, air quality, and surface and ground water quality.

E. Access

Access to the Longview Claims and Leased Claims is available by Flynn Creek Road, a publicly dedicated Right of Way. Access to the Schad Property is available primarily through Greyhound Gulch Road.

As discussed above, leasehold and ownership rights in the Unpatented Claims include the right to access the surface of the Unpatented Claims to exploit the minerals, with due regard for the rights that third party surface owners may have in the Unpatented Claims. We have not investigated the existence of ingress and egress routes to and from the Unpatented Claims; or whether such access rights are sufficient access to meet the requirements related to the Company's planned operations.

Access may be affected by the proximity of certain of the Unpatented Claims to the Black Hills National Forest and Mt. Rushmore areas, as discussed above. If access across lands managed by the Forest Service or the National Park Service is required, the company may be entitled to certain access rights that are associated with mining claims, including the rights of ingress and egress to the Unpatented Claims, "subject to reasonable regulations issued by the Secretary to protect the natural and other values of such lands." 16 U.S.C. § 3170(b). Under the surface management regulations established by federal agencies to regulate access to mining claims in order to minimize adverse impacts on surface resources, the agencies may control the route used for access, the type of construction, and the method of transportation.

If the Company is required to seek access rights across federal lands, permitting for access to mining claims is governed by the surface management regulations of the agency with jurisdiction over such lands. Here, depending on the location of the desired route, the relevant agency may be the BLM, Forest Service, or the National Park Service.

F. Water Rights

We have not been asked to investigate the existence, extent, or ownership of any water rights relating to the Claims, or the water rights that would be required for any exploration and or development and operations on the Claims.

G. Extralateral Rights

Under the General Mining Law, the statutorily granted rights associated with the Unpatented Claims include extralateral rights. These are rights associated with a valid lode claim that give a locator the rights to "all veins, lodes, and ledges throughout their entire depth, the top or apex of which lies inside of such surface lines extended downward vertically, although such veins, lodes, or ledges may so far depart from a perpendicular in their course downward as to extend outside the vertical sidelines of such surface locations." 30 U.S.C. § 26. In effect, extralateral rights give the locator rights to pursue the extralateral extension of a vein beyond the sideline limits of the surface of the lode location. The rights associated with the Unpatented Claims are also granted subject to the extralateral rights of other mining claimants. Where there are third party lode claims adjacent to the Unpatented Claims, the third-party claimant may be able to assert extralateral rights in the ground underlying the Unpatented Claims. However, such rights exist only to the extent the third-party lode claimant can demonstrate all of the prerequisites of the statutory grant are met (*i.e.*, the claim has been properly located as a valid lode location; all prerequisites of the General Mining Law are met, and the assertion of extralateral rights does not conflict with prior (senior) apex rights or dip rights). Due to the many variations in lode formations and other circumstances affecting lode locations, the existence of extralateral rights can be difficult to prove.

H. Taxes

Claim maintenance fees must be paid annually on or before noon of September 1 in order to hold the Unpatented Claims in good standing. If the payments are not timely made, all rights, title and interest in these claims will be forfeited. Identification of the Unpatented Claims as "Active" on the BLM MLRS website indicates that the required maintenance fees have been timely paid to the BLM for each claim so identified. Additionally, affidavits evidencing compliance with the federal maintenance requirements must be filed annually in the appropriate South Dakota County Register of Deeds Office; such affidavits will need to be filed prior to December 30 of 2023.

The State of South Dakota imposes a severance tax on Energy Minerals at a rate of 4.5% of the taxable value of any energy minerals severed and saved by or for the owner or operator. "Energy Minerals" are defined as "any mineral fuel including coal, lignite, petroleum, oil, natural gas, uranium, and thorium and any combination of minerals used in the production of energy." SDCL § 10-39A-1.1. During the most-recent legislative session, the South Dakota Legislature considered House Bill 1072, which would have added "lithium" to the list of minerals included in the definition of "Energy Minerals" for purposes of the 4.5% severance tax. On Friday, February 3, HB 1072 was moved to the 41st Legislative Day by a South Dakota Senate Committee. This action killed the bill.

South Dakota also classifies "mines, minerals and quarries" as real property for purposes of imposing an *ad valorem* tax on improvements to land. SDCL § 10-4-2.

I. Improvements, Fixtures and Personal Property

This Report does not address ownership of any improvements, structures, fixtures, equipment or other items on or within the Claims that may be characterized as personal property.

V. OTHER LIMITATIONS, ASSUMPTIONS AND EXCEPTIONS

A. Limited Document Examination. This Report is based solely upon the documents identified above, with the exceptions noted therein, and is, therefore, necessarily subject to any materials not disclosed thereby. This Report is subject to and conditioned upon the accuracy and completeness of the identified documents reviewed.

B. No Opinion. We can express no opinion as to the following: railroad and/or other rights-of-way or easements, possessor rights and discrepancies of survey not reflected by the identified documents, the existence of which may be determined by physical examination of the Claims; rights that would be shown by an accurate survey of the captioned land; zoning, environmental or other land use controls or restrictions imposed by governmental authority; mechanics' and materialmen's liens later perfected under the laws of South Dakota; matters of fact not disclosed of record which vary from statutorily permitted presumptions of fact or statutorily created *prima facie* evidence of facts; and any documents recorded in the relevant county records or filed with the State office of the BLM subsequent to the dates of review as noted above.

C. No Examination of Surface Title to Fee Lands. We did not conduct an examination in the county records of title to the surface of the lands on which the Unpatented Claims were located; instead, we have relied upon the records

of the State offices of the BLM showing that the surface and mineral estates in the land remain in the United States, except as otherwise stated in this Report.

D. No Examination of the Physical Location of the Unpatented Claims.

We did not conduct an examination of the physical process of location for the Unpatented Claims and make no conclusions as to whether these were properly physically located and monumented or whether the locator made a discovery of valuable minerals on each of the Unpatented Claims.

E. Assumptions and Exceptions Relating to Unpatented Mining Claims. The views expressed in this letter are subject to the following assumptions and exceptions:

1. that statements in the original notices and certificates of location for the unpatented mining claims as to the existence and location of a mineral discovery are true;
2. that the locator of each of the unpatented mining claims has complied with the requirements of the General Mining Law;
3. that the point of discovery and mineral location for fractional unpatented mining claims was made in an area outside the boundaries of areas previously appropriated;
4. that the Claims are located on the surface at the same place as indicated on the location map and as described in the location notices or patents;
5. that the dates shown on the location notices for each of the Claims as the date of location and the date of discovery are correct;
6. that all maintenance of notices, claim markers, monuments and discovery required to be done physically on the unpatented mining claims has been performed;
7. that all persons executing documents were authorized to do so and their signatures are genuine;
8. that all copies are true and exact copies of the original document;
9. that all requirements under South Dakota law as to location of monuments for the unpatented mining claims have been satisfied; and

10. that all Notice and Certificates of Location, Lode Mining Claims, were timely filed and recorded with the appropriate County Register of Deeds Office.

F. Recording Data. Unless otherwise indicated herein, all references to recording data refer to the real property records of Pennington and Custer Counties, South Dakota.

G. Use and Benefit of Report. This Report has been rendered by Gunderson, Palmer, Nelson & Ashmore, LLP for the use and exclusive reliance of: Iris Metals Limited and the directors of the Company in connection with the issue of the Prospectus and is not to be disclosed to any other person or used for any other purpose or quoted or referred to in any public document or filed with any government body or other person without our prior express written consent.

Sincerely,

Matthew E. Naasz

17 April 2023

The Directors
IRIS Metals Limited
Level 5, 126 Phillip Street
SYDNEY NSW 2000

Dear Directors

Investigating Accountant's Report on IRIS Metals Limited historical and pro-forma historical financial information

We have been engaged by *IRIS Metals Limited* and its controlled entities ("the Group") to report on the historical financial information and pro-forma historical financial information of the Group for inclusion in a Prospectus document dated on or around 17 April 2023 and relating to an offer of up to 15,000,000 Shares at an issue price of \$1.00 per Share to raise up to \$15,000,000, together with one (1) free attaching Option for every two (2) Shares subscribed for and issued ("the document").

Expressions and terms defined in the document have the same meaning in this report.

Scope

Historical Financial Information

You have requested William Buck to review the following historical financial information of the Group (the responsible party) included in the public document:

1. The Group's statutory historical financial information for the financial half-year ended 30 September 2022 (**HY22**) comprising:
 - a. the reviewed consolidated statement of profit or loss and other comprehensive income for HY22.
 - b. the reviewed consolidated statement of financial position as at 30 September 2022; and
 - c. the reviewed consolidated cash flow statement for HY22.
2. The Group's statutory historical financial information for the financial period 23 December 2020 to 31 March 2021 (**FY21**) and the financial year ended 31 March 2022 (**FY22**) comprising:
 - a. the audited consolidated statements of profit or loss and other comprehensive income for FY21 and FY22.
 - b. the audited consolidated statements of financial position for FY21 and FY22; and
 - c. the audited consolidated cash flow statements for FY21 and FY22,(Together for the Group, the **Historical Financial Information**).

Scope *(Continued)*

Historical Financial Information

The historical financial information has been prepared in accordance with the stated basis of preparation, being the recognition and measurement principles contained in Australian Accounting Standards and the Group's adopted accounting policies, which are disclosed in the financial information section of the Prospectus document. The historical financial information has been extracted from the general purpose financial reports of the Group for the period from the Group's incorporation through to 31 March 2021, for the year ended 31 March 2022 and for the half-year ended 30 September 2022, each of which were respectively audited or reviewed by William Buck Audit (Vic) Pty Ltd ("William Buck") in accordance with the Australian Auditing Standards.

William Buck issued unmodified audit opinion on the financial reports for the period from the Group's incorporation through to 31 March 2021 and for the year ended 31 March 2022. An emphasis of matter for a material uncertainty relating to the going concern basis was issued in the William Buck Review Report for the half-year ended 30 September 2022 interim financial report. This historical financial information is presented in the public document in an abbreviated form, insofar as it does not include all of the presentation and disclosures required by Australian Accounting Standards and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act 2001.

Pro-forma historical financial information

You have requested William Buck to review the Group's reviewed statutory historical consolidated statement of financial position as at 30 September 2022, and pro-forma statement of financial position at 30 September 2022 based on the Offers and Proposed Acquisitions set out in this Prospectus referred to as "the **Pro Forma Historical Statement of Financial Position**".

The pro-forma historical financial information has been derived from the historical financial information of the Group, after adjusting for the effects of pro-forma adjustments described in the financial information section of the Prospectus document. The stated basis of preparation is the recognition and measurement principles contained in Australian Accounting Standards applied to the historical financial information and the events and transactions to which the pro-forma adjustments relate, as described in the financial information section of the Prospectus document, as if those events or transactions had occurred as at the date of the historical financial information. Due to its nature, the pro-forma historical information does not represent the Group's actual or prospective financial position or financial performance.

Directors' responsibility

The directors of the Group are responsible for the preparation of the historical financial information and pro-forma historical financial information, including the selection and determination of pro-forma adjustments made to the historical financial information and include in the pro-forma historical information. This includes responsibility for such internal controls as the directors determine are necessary to enable the preparation of historical financial information and pro-forma historical financial information that are free from material misstatement, whether due to fraud or error.

Our responsibility

Our responsibility is to express a limited assurance conclusion on the financial information based on the procedures performed and the evidence we obtained. We have conducted our engagement in accordance with the Standard on Assurance Engagement ASAE 3450 *Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information*.

Our responsibility *(Continued)*

A review consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Accounting Standards and consequently does not enable us to obtain reasonable assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Our engagement did not involve updating or re-issuing any previously issued audit or review report on any financial information used as a source of the financial information.

Conclusions

Historical financial information

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the historical financial information, as described in the financial information section of the Prospectus document, and comprising:

1. The Group's statutory historical financial information for the financial half-year ended 30 September 2022 (**HY22**) comprising:
 - a. the reviewed consolidated statement of profit or loss and other comprehensive income for HY22.
 - b. the reviewed consolidated statement of financial position as at 30 September 2022; and
 - c. the reviewed consolidated cash flow statement for HY22.
2. The Group's statutory historical financial information for the financial period 23 December 2020 to 31 March 2021 (**FY21**) and the financial year ended 31 March 2022 (**FY22**) comprising:
 - a. the audited consolidated statements of profit or loss and other comprehensive income for FY21 and FY22.
 - b. the audited consolidated statements of financial position for FY21 and FY22; and
 - c. the audited consolidated cash flow statements for FY21 and FY22,
(Together for the Group, the **Historical Financial Information**); and

...is not presented fairly, in all material aspects, in accordance with the stated basis of preparation, as described in the financial information section of the Prospectus document.

Pro-forma historical financial information

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the **Pro Forma Historical Statement of Financial Position** being the Group's reviewed statutory historical consolidated statement of financial position as at 30 September 2022, and pro-forma statement of financial position at 30 September 2022 based on the Offers and Proposed Acquisitions set out in this Prospectus is not presented fairly in all material aspects, in accordance with the stated basis of preparation as described in the financial information section of the Prospectus document.

Restriction on Use

Without modifying our conclusions, we draw attention to the financial information section of the Prospectus document which describes the purpose of the financial information, being for inclusion in the public document. As a result, the financial information may not be suitable for use for another purpose.

William Buck has consented to the inclusion of this assurance report in the public document in the form and context in which it is included.

Liability

Responsibility

Consent to the inclusion of this Investigating Accountant's Report in the Prospectus in the form and context in which it appears has been given but should not be taken as an endorsement of the Group or a recommendation by William Buck of any participation in the share issue by any intending investors. At the date of this report our consent has not been withdrawn.

General Advice Limitation

This Report has been prepared and included in the Prospectus to provide investors with general information only and does not take into account the objectives, financial situation or needs of any specific investor. It is not intended to take the place of professional advice and investors should not make specific investment decisions in reliance on this information contained in this Report. Before acting or relying on information, an investor should consider whether it is appropriate for their circumstances having regard to their objectives, financial situation or needs.

Declaration of Interest

William Buck does not have any interest in the outcome of the issue of shares other than in the preparation of this Investigating Accountant's Report for which normal professional fees will be received.

Yours faithfully

William Buck Audit (Vic) Pty Ltd
ABN 59 116 151 136
