Key Themes

FY23 performance

Macro resilient business generating strong growth

- Strong revenue growth (revenue up **28%** YOY, **25%** CC) through both net subscriber adds (subscribers up **14%** YOY) and Xero's high value proposition (ARPU up by **10%** YOY, **8%** CC)

Xero has more subscribers than ever and they're staying with us longer

- In a challenging environment Xero has more subscribers than ever. Total subscribers reached **3.74m**, and churn remained low at **0.90%**

Growing with efficiency: improved operating leverage drives increase in operating income margin

- Improving efficiency alongside continued revenue momentum drove **operating income margin higher**
- Targeting an operating expense to operating revenue ratio in **FY24 of around 75.0%, this will improve operating income margin compared to FY23¹**

1. This applies both including and excluding restructuring charges

1. Other includes platform revenues

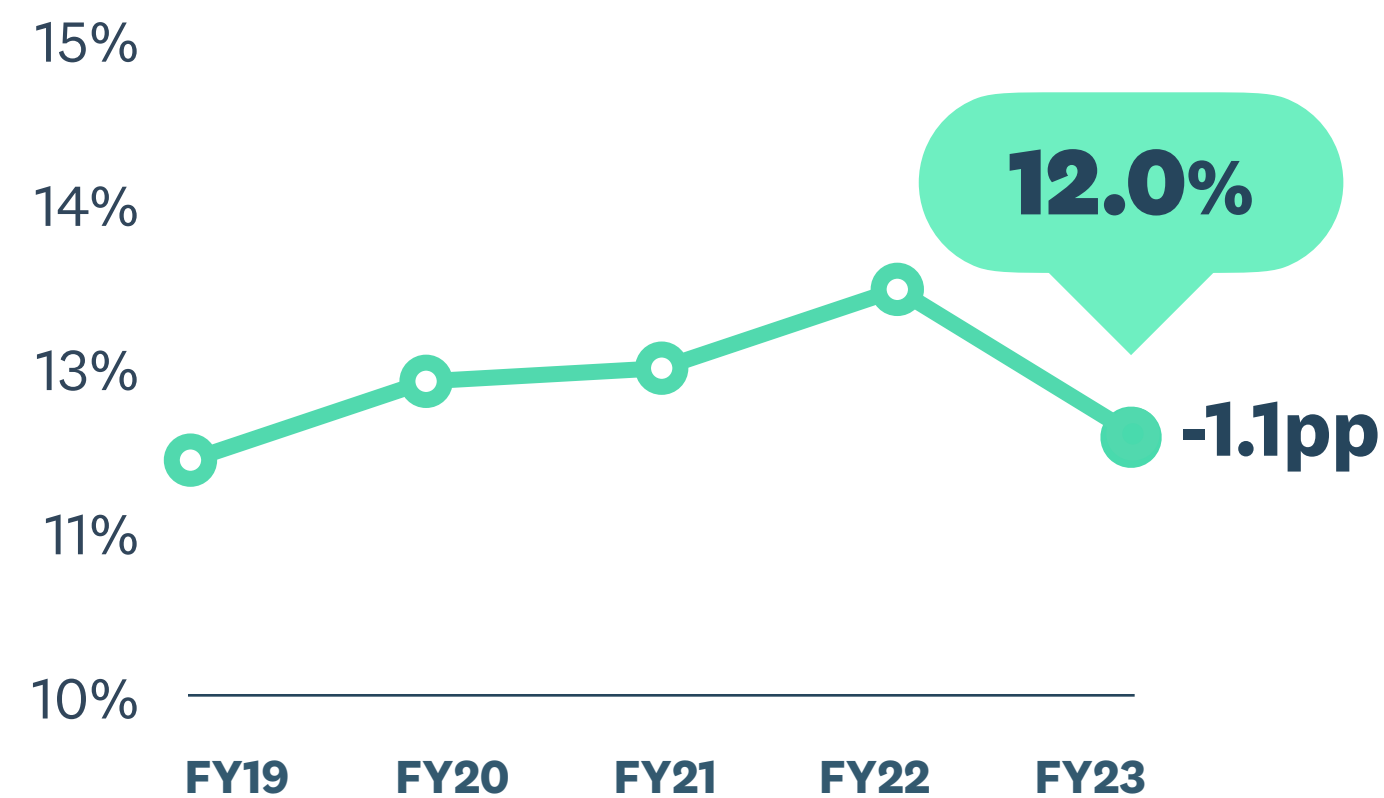

Balancing cost discipline with long term investment

Sales & marketing as a % of revenue

Sales and marketing costs increased by 16% YOY which was lower than the growth in operating revenue in FY23. This resulted in a 3.3pp improvement in CAC as a percentage of revenue. Excluding Xerocon, this ratio falls to 32.5% of revenue

General & administration as a % of revenue

General and administration costs increased by 17% YOY which was lower than the growth in operating revenue in FY23. This resulted in 1.1pp improvement in G&A as a percentage of revenue YOY

Product design & development as a % of revenue

Product design and development costs increased 32% YOY, higher than the growth in operating revenue in FY23. This reflected continued investment in global product innovation and platform delivery while managing inflationary cost pressures. This resulted in a 1.1pp increase in these costs as a percentage of revenue YOY

Observations from new CEO

Areas to touch on

North America

Continued confidence that North America is a critical market. **Xero is providing value** to partners and small businesses. Doing a **deeper review on current execution and strategy** against the opportunity

Planday

Impairment of \$77.9m mainly reflects a **reduction in market valuation multiples along with an element of operational performance**. Year of **transition**: Opportunity with **new CEO, AU product launch**, and focus on the **small business segment**

Modernisation

Continued **multi year journey** which will help us modernise, drive greater productivity and **realise further efficiency**, balanced with near term delivery to **add customer value** and benefits for the long term

Key Themes

Observations from new CEO

Well positioned for significant long term opportunity

- The **long term opportunity for cloud accounting adoption is significant** across our portfolio of businesses (**TAM of 45m¹**) and we are well positioned

Multiple levers for growth available to Xero

- We have multiple levers to deliver growth including **deepening customer engagement** and driving **further cloud accounting adoption**

We will be more disciplined and customer focused in the way we manage resources and capital

- We will become **more focused on customers**, we will **be more dynamic in short term** capital allocation, and **more measured on long term** investment and returns
- We will be **more balanced** and look to **Rule of 40²** as a useful performance evaluation measure in managing the balance of growth and profitability

1. Estimated TAM across English speaking cloud accounting markets that Xero has a presence in, based on publicly available data of number of small businesses

2. Rule of 40 is defined as the sum of annual revenue growth percentage and annual free cash flow margin percentage (free cash flow as a percentage of revenue)

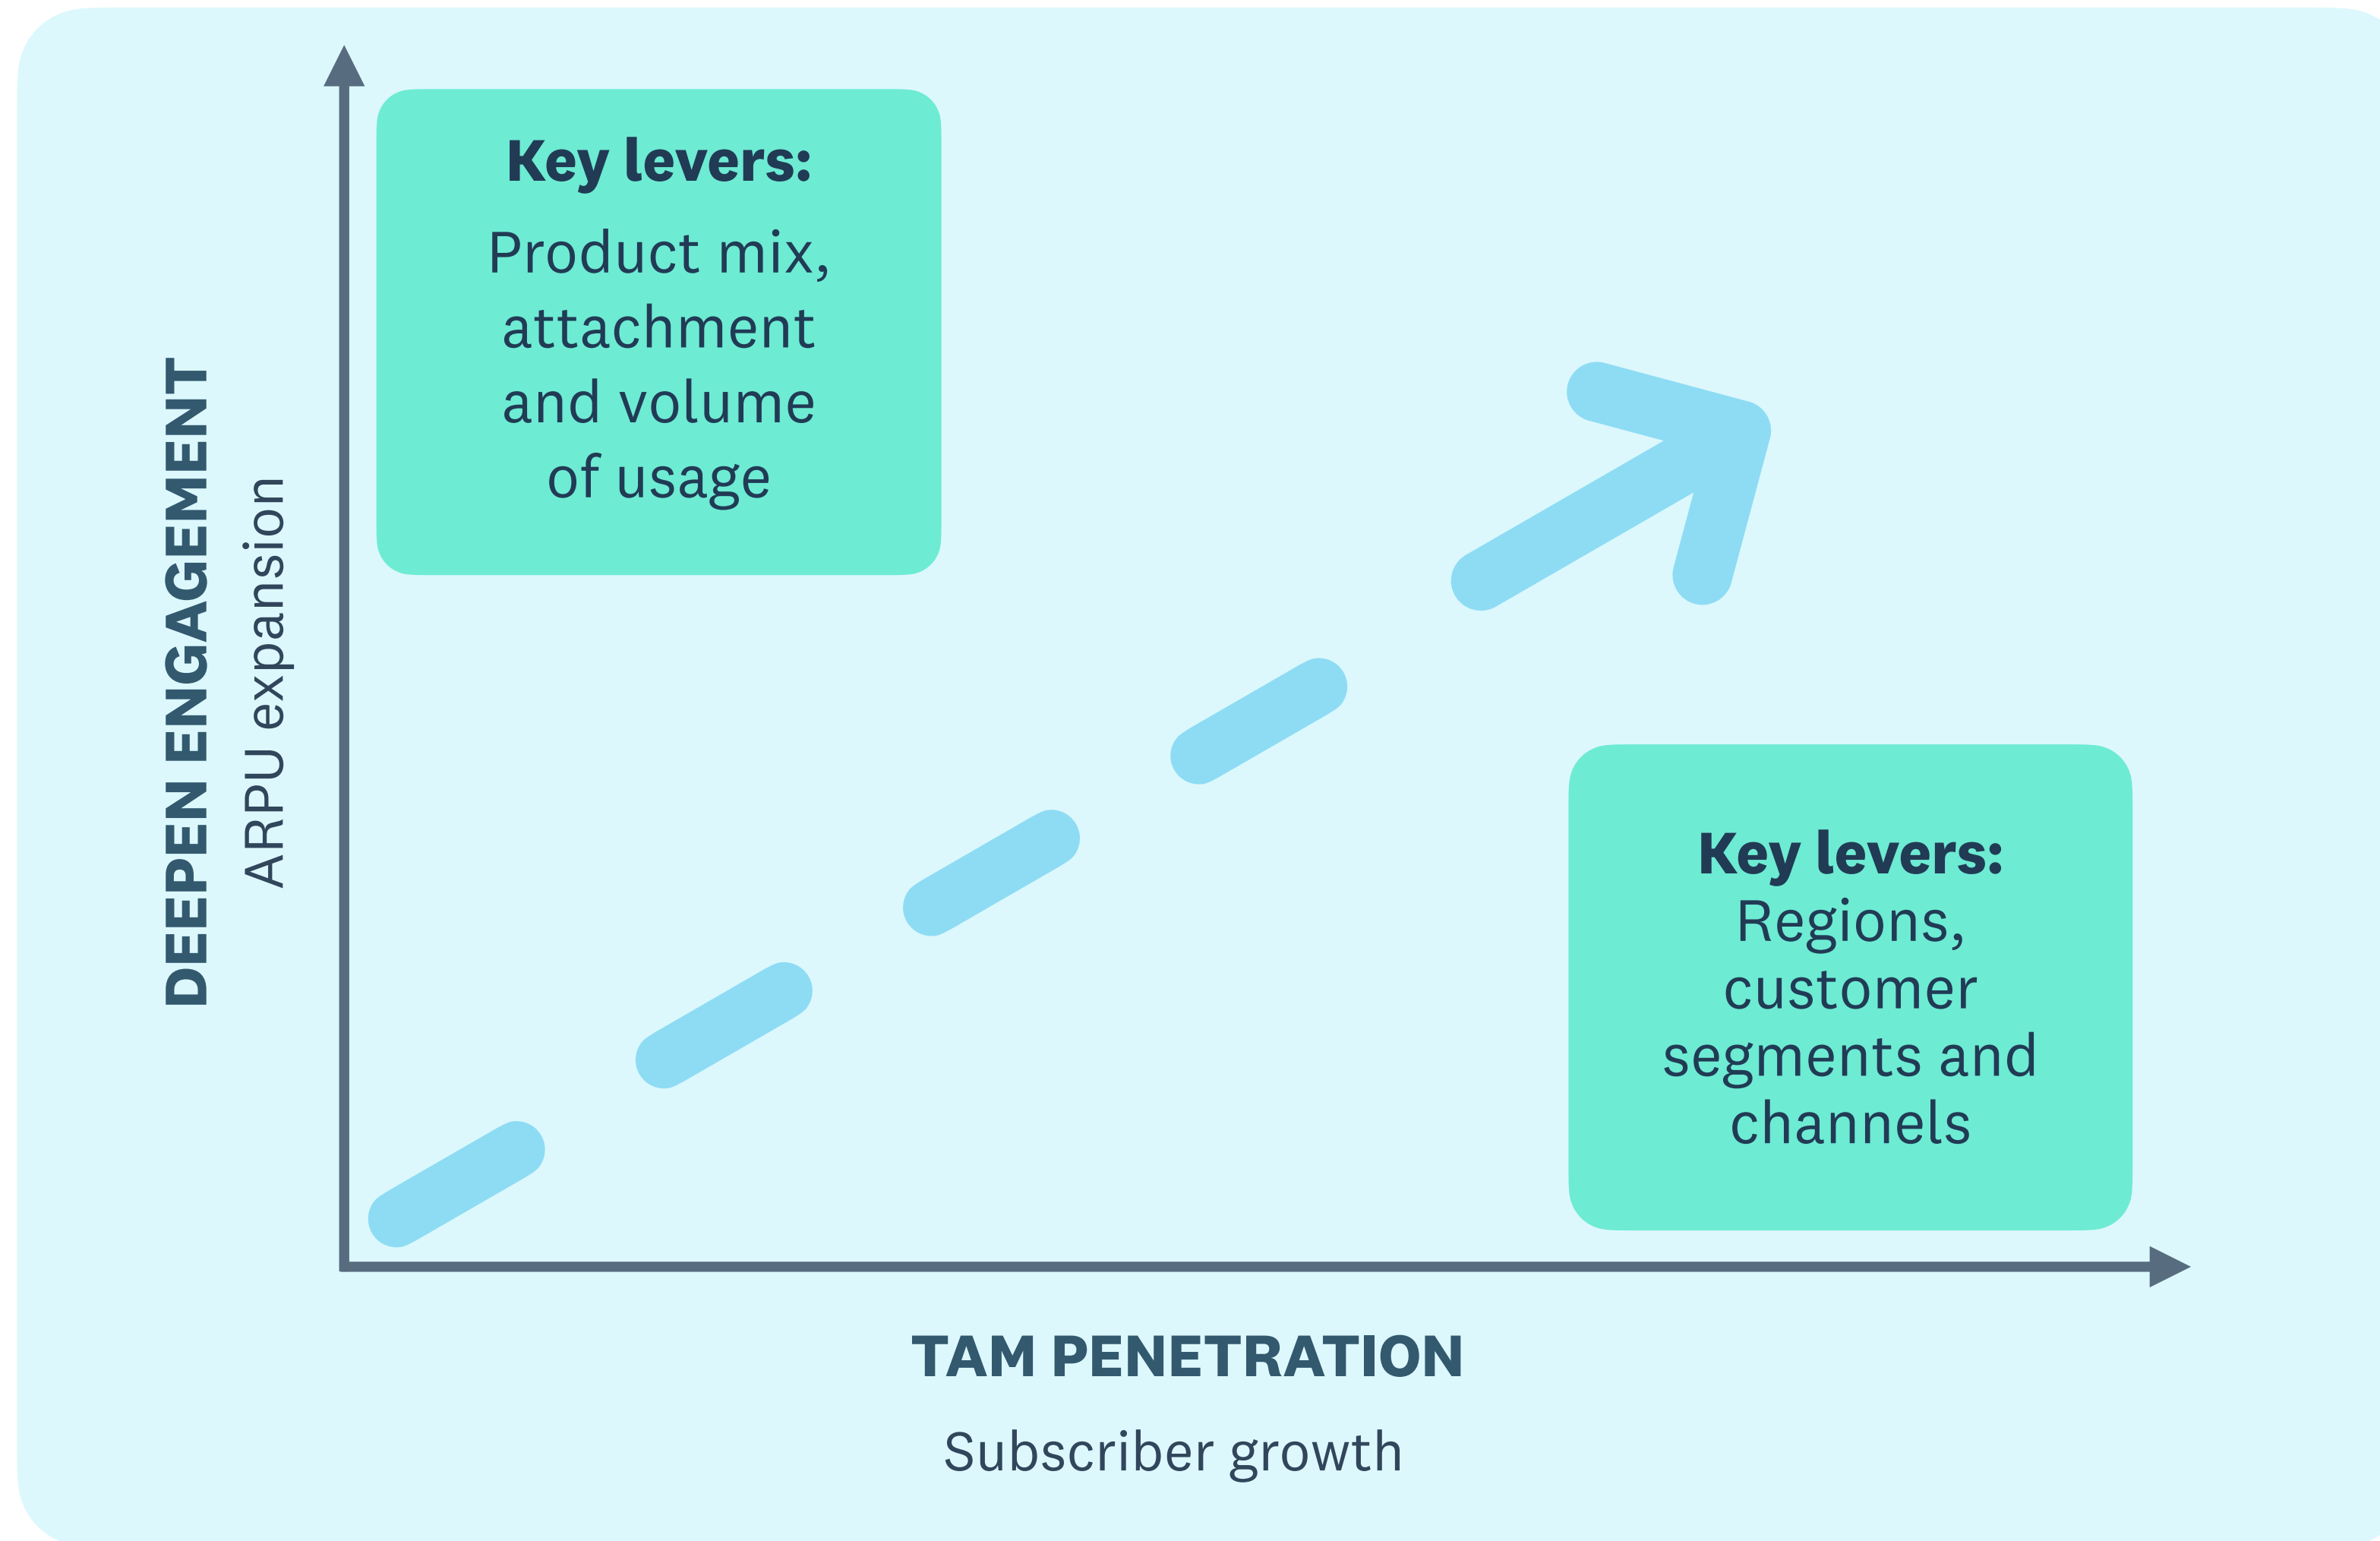

Well positioned for significant long term opportunity

The long term opportunity for cloud accounting adoption is significant across our portfolio of businesses (TAM of **45m¹**). We are well positioned and have multiple levers to deliver growth including deepening customer engagement and driving further cloud adoption

Multiple levers for growth available to Xero¹

1. Chart included is for illustrative purposes only

We will be more disciplined and customer focused in the way we manage resources and capital to grow

Being more focused...

...on serving our customers and adding value for them

Being more dynamic...

...in our short term allocation of resources to maximise yield

Being more measured...

...and clear on our investment returns to drive long term value creation for shareholders

Being more balanced...

...Xero will look to “**Rule of 40**” as a useful performance evaluation measure in managing the balance of growth and profitability¹

1. Rule of 40 is defined as the sum of annual revenue growth percentage and annual free cash flow margin percentage (free cash flow as a percentage of revenue)

Outlook

Xero will seek to balance growth and profitability in its approach to capital allocation, subject to investment criteria and market conditions, to drive long-term shareholder value

Along with reinvestment in strategic priorities management is targeting an operating expense to operating revenue ratio in FY24 of around 75%. This will improve operating income margin compared to FY23

Xero's long-term aspiration is to continue to improve its operating expense ratio and its operating income margin, although a specific timeline has not been set. These ratios, and their component parts, may vary from period to period as we identify opportunities for disciplined, customer-focused growth

Evolution of Xero's financial profile

EXPENSE RATIO	FY23	FY24 EXPECTATION	LONG TERM ASPIRATION	
SALES & MARKETING	33.7% of revenue	Expected ratio trend vs FY23: Flat to down		
PRODUCT DESIGN & DEVELOPMENT	35.0% of revenue	Expected ratio trend vs FY23: Down		
GENERAL & ADMINISTRATION	12.0% of revenue	Expected ratio trend vs FY23: Down		
TOTAL OPERATING EXPENSES	80.7% ¹ of revenue	Along with reinvestment in strategic priorities, management is targeting an operating expense to operating revenue ratio in FY24 of around 75%

Glossary

Adjusted EBITDA

Adjusted EBITDA (a non-GAAP financial measure) is provided as Xero believes it provides useful information for users to understand and analyse the underlying business performance. Adjusted EBITDA is calculated by adding back net finance expense, depreciation and amortisation, and income tax expense, as well as certain non-cash, revaluation and other accounting adjustments and charges to net profit/(loss)

AMRR

Annualised monthly recurring revenue (AMRR) represents monthly recurring revenue at 31 March, multiplied by 12. It provides a 12 month forward view of revenue, assuming any promotions have ended and other factors such as subscriber numbers, transaction volumes, pricing and foreign exchange remain unchanged during the year

ARPU

Average revenue per user (ARPU) is calculated as AMRR at 31 March divided by subscribers at that time (and divided by 12 to get a monthly view)

CAC months

Customer Acquisition Cost (CAC) months are the months of ARPU to recover the cost of acquiring each new subscriber. The calculation represents the sales and marketing costs for the year, excluding the capitalisation and amortisation of contract acquisition costs, less Xerocon revenue, divided by gross new subscribers added during the same period, divided by ARPU

CAGR

Compound annual growth rate

Churn

Churn is the value of monthly recurring revenue (MRR) from subscribers who leave Xero in a month as a percentage of the total MRR at the start of that month. The percentage provided is the average of the monthly churn for the previous 12 months. Average subscriber lifetime is calculated as one divided by churn

Constant currency (cc)

Constant currency comparisons for revenue are based on average exchange rates for the 12 months ended 31 March 2023. Comparisons for ARPU, AMRR and LTV are based on exchange rates at 31 March 2023

Core accounting revenue

Core accounting revenue comprises subscription based revenue to Xero's cloud-based platform, including any revenue for products that are bundled into subscription plans (such as Hubdoc and Payroll in some regions)

Free cash flow

Free cash flow is defined as cash flows from operating activities less cash flows used for investing activities excluding cash used for acquisitions of, and investments into, businesses and strategic assets

GAAP

Generally accepted accounting principles

Lifetime value (LTV)

LTV is the gross margin expected from a subscriber over the lifetime of that subscriber. This is calculated by taking the average subscriber lifetime (1 divided by churn) multiplied by ARPU, multiplied by the gross margin percentage. Group LTV is calculated as the sum of the individual segment LTVs, multiplied by their respective segment subscribers, divided by total Group subscribers

Liquid resources

Liquid resources comprises cash and cash equivalents, short-term deposits including proceeds from convertible notes, and undrawn committed debt facilities

Operating Income

Operating income is a non-GAAP financial measure that has been included to demonstrate the operating performance of the business. Xero defines operating income as total operating revenue less cost of revenue less total operating expenses

Other revenue

Other revenues comprises non-recurring revenues and WorkflowMax. Non-recurring revenues include revenue from events (such as Xerocons and roadshows), and other non-subscription or platform services. WorkflowMax is online workflow and job management software

Platform revenue

Platform revenues include revenue derived from related services, including adjacent products (such as Hubdoc subscriptions on other accounting platforms) and add-ons with incremental revenue (such as Payroll, Projects and Expenses modules), and payments and revenue share agreements with partners

Subscribers

Subscriber means each unique subscription to a Xero-offered product that is purchased by a user (eg a small business or accounting partner) and which is, or is available to be, deployed. Subscribers that have multiple subscriptions to integrated products on the Xero platform are counted as a single subscriber
