LETTER FROM THE CHAIRMAN

Dear Shareholder

On behalf of the Board, I am pleased to present this Prospectus and to offer you to acquire new securities in Cann Group Limited (**Cann** or **Company**) through participation in this Offer.

The Company is pleased to offer Eligible Shareholders the opportunity to participate in the Offer on the basis of one (1) New Share for every four (4) Shares held at the Record Date at an issue price of \$0.12 per New Share. Eligible Shareholders will also receive one (1) free attaching New Option for every two (2) New Shares subscribed for under the Offer.

The decision to raise capital at this time was a decision not taken lightly by the Board. It was driven by the significant business development potential of the Company and the desire to continue to scale the Mildura facility.

The key objective of the Offer is to raise the additional capital required to fund our accelerated growth initiatives and to realise the significant increase in production. Over the past few years, we have built a world-class facility at Mildura, witnessed remarkable production progress and achieved several significant milestones, including planting the biggest crop in our history in May 2023. We firmly believe that this Offer will enable us to accelerate our growth trajectory and strengthen our market position, including by enabling Cann to pursue an increase in production to reach 12.5 tonnes on an annualised basis.

The funds from the Offer will assist Cann in executing a number of scale up activities including:

- enhanced automation for GMP manufacturing facilities;
- accelerated staffing levels for scale up activities.
- laboratory and Quality Control enhancements;
- research and development, including the development of THC containing capsule; and
- environmental, social and governance feasibility projects – including solar and waste.

Funds will also be used towards the working capital of the Company as well as the costs of the Offer.

Please refer to Section 6 for further risks associated with an investment in the Company. Further information about the Group and its operations is contained in publicly available documents lodged by the Company with ASIC and ASX. This Prospectus should be read in conjunction with this material.

Accompanying this Prospectus is your personalised Entitlement and Acceptance Form. Please refer to Section 5 for further information on how to take up your entitlement.

If you have any questions, please call Cann's Company Secretary, Ms Deborah Ambrosini on 03 9095 7088 (local call cost) or +61 3 9095 7088 (outside Australia) between 8:00am and 5:00pm (AEST) Monday to Friday until the Closing Date.

As a Board, we appreciate the continued support of all our Shareholders. We encourage you to consider participating in the Offer, as it presents a unique chance to invest in the future of Cann Group Limited and contribute to our continued success. Your support and continued belief in our business is invaluable to us.

Yours faithfully

Allan McCallum, AO
Chairman

	<p>errors, breakdowns, aging or failure of equipment or processes, labour disputes, any rise in energy and utilities costs and limits on availability of such utilities.</p> <ul style="list-style-type: none"> <li data-bbox="523 427 1174 824">• Funding risks: The failure to raise the necessary funding, whether as debt or equity, could result in the delay or indefinite postponement of Cann's business expansion. There can be no assurance that additional funding or other types of financing will be available if needed or that, if available, the terms of such funding will be available on favourable terms. In addition, debt funding may materially increase Cann's debt levels and gearing. This may increase Cann's funding costs, reduce its financial performance and increase the risk of Cann being in default or being unable to pay its debts when due in the future. <li data-bbox="523 860 1174 1160">• Import risks: If overseas suppliers are unable to meet the requirements to enable Cann to import the necessary volumes of flower e.g. by not providing the required documentation, by not providing flower of the necessary standard, or by not complying with shipping and customs requirements, this would impact Cann's ability to import the products and meet customer demands, which would ultimately have a negative impact on Cann's revenues and prospects. <li data-bbox="523 1196 1174 1496">• R&D funding: An important source of funding for Cann is the R&D tax refund it receives each year. There can be no assurance that the R&D tax refund scheme will remain in place, or that Cann will continue to be entitled to access it in the future. Therefore, if Cann were to not receive an R&D tax refund, this would negatively impact Cann's financial performance as well as increase its working capital requirements, potentially causing it to seek additional funding. <li data-bbox="523 1532 1174 1957">• Operating losses risks: Cann continues to incur operating losses. Cann may not be able to achieve profitability and may continue to incur significant losses in the future. In addition, Cann will increase its operating expenses as it grows its business. If Cann's revenues do not increase to offset these expected increases in expenditures and operating expenses, it will not be profitable. Anticipated or expected sales may not be achieved, and even if achieved, may not result in Cann being profitable. There is no assurance that Cann will be successful in achieving a return on shareholders' investments and the chances of success must be considered in light of the proposed expansion of its operations. 	

Topic	Summary	Further information
	<ul style="list-style-type: none"> • Regulatory Approvals: Cann’s ability to continue its business is dependent on holding certain authorisations, licences and permits and adherence to all regulatory requirements related to such activities. Any failure to comply with the conditions of those approvals and licences, or to renew the approvals and licences after their expiry dates, would have a material adverse impact on the financial position, financial performance and/or prospects of Cann. • Product Approvals: Cannabis products are currently regulated as medicines in Australia. Generally, medicines imported into, supplied in, and exported from Australia must be entered in the Australian Register of Therapeutic Goods (ARTG), which is administered by the Therapeutic Goods Administration (TGA) or through the Special Access Scheme (SAS), Authorised Prescriber (AP) scheme or clinical trial exemptions. Cann cannot guarantee that any or all of its medicinal cannabis products will be approved for supply to patients under these pathways or that these pathways will remain available. Any failure to continue to be able to access these pathways would have a material adverse impact on the financial position, financial performance and/or prospects of Cann. • Compliance with licence conditions: A licence to cultivate, produce and/or manufacture under the <i>Narcotic Drugs Act 1967</i> (Cth) is subject to a number of conditions, which if not maintained may result in a suspension or revocation of the licence or permit. Such conditions include ensuring that all staff engaged are suitable, that directors and officers (and the business itself) is a fit-and-proper person and that certain security and reporting measures are maintained. Any failure to maintain these licenses would have a material adverse impact on the financial position, financial performance and/or prospects of Cann. • Product Development: Cann may not be successful in developing effective and safe new products to market in time to be effectively commercialised, or in obtaining any required regulatory approvals or funding, which may impact its growth initiatives relating to product development with an associated material adverse effect on its prospects. • Diversiónary risk and theft: Given the nature of Cann’s cannabis products and despite meeting or even exceeding the TGA and ODC security requirements, there remains a risk of shrinkage as well as theft. 	

Topic	Summary	Further information
	<ul style="list-style-type: none"> • Industry confidence: There is a risk that incidents beyond the control of Cann could occur which would have the effect of reducing patient, medical/scientific or regulatory confidence or preferences for cannabis or medicinal cannabis products, including serious adverse effect incidents involving medicinal cannabis, negative medical or scientific findings, or material breaches of a law or regulation by Cann or a competitor. • Competition risks: Should the size of the Australian medicinal cannabis market increase, the overall demand for products and number of competitors will, or is likely to, increase as well, and in order for Cann to be competitive, Cann will need to invest significantly in research and development, new product and market development, marketing, new client identification, distribution channels and client support. If Cann is not successful in obtaining sufficient resources to invest in these areas, Cann's ability to compete in the market could be adversely affected and this could have a material adverse effect on its business, financial position, financial performance and/or prospects. • Third party manufacture risks: Cann is currently reliant on a single source of manufacturing to manufacture certain of Cann's products. There are other potential commercial manufacturers that Cann could use to meet its manufacturing requirements. However, if Cann needed to engage a new manufacturer, the process of transitioning to a new manufacturer would likely take several months, so there would be a risk that Cann's manufacturing abilities would be adversely impacted during the transition period, with a negative associated impact on Cann's financial performance. <p>The Company is also exposed to certain industry-specific risks, including (but not limited to):</p> <ul style="list-style-type: none"> • General regulatory risk: Companies which operate in the medicinal cannabis industry are subject to a highly regulated environment and numerous laws and regulations. Changes to such laws, regulations and directives may cause adverse effects on a business operating in this industry, its financial position, financial performance and/or prospects. • Market risks: There is a risk that the demand for the supply of medicinal cannabis products may decrease due to various market factors, with an associated adverse effect on a business operating in this industry, its financial position, financial performance and/or prospects. 	

Topic	Summary	Further information
	<ul style="list-style-type: none"> • Clinical trial outcomes: There are various clinical trials being conducted in Australia and internationally in relation to medicinal cannabis. An adverse finding from an approved or recognised clinical trial is likely to or may have a material adverse effect on a company's prospects of conducting clinical trials in the medicinal cannabis sector, with an associated adverse effect on the financial position, financial performance and/or prospects of a company and the medicinal cannabis industry generally. <p>The Company is also exposed to general risks, including (but not limited to) the following:</p> <ul style="list-style-type: none"> • Nature of investment: There are inherent risks associated with investment in any listed company. The New Shares under the Offer do not guarantee payment of dividends, return on capital or maintenance of capital or value. No assurances can be given that the New Shares will trade at or above the Offer Price at any time, or that they may be sold at any price. The value of the New Shares may vary depending on the financial and operating performance of Cann and external factors over which Cann and its directors have no control, including changes to market sentiment. • Dilution risk: If Cann needs to raise additional equity in the future, this may dilute the shareholdings of existing shareholders, who may not have the opportunity to participate in that raising. • General economic conditions: Adverse changes in economic conditions such as to interest rates, exchange rates, inflation, government policy, taxation law, investor sentiment towards particular market sectors, demand for and supply of capital, national and international economic conditions (including any trade conflicts between major countries, terrorism, war, social upheaval or other hostilities) amongst others are outside Cann's control and have the potential to have an adverse impact on Cann (including Cann's financial performance and/or financial position) and its operations. • Tax legislation & accounting standards: Changes in tax laws or accounting standard from time to time can have an adverse impact on the financial performance, financial position and/or prospects of a company. • Cyber security: A company may suffer material losses from cyber-attacks or other information security breaches. 2. Company Overview

2.1 Overview

The principal activities of the Company are cultivation of medicinal cannabis for both medicinal and research purposes pursuant to the licenses and permits issued to the Group; the development and manufacture (via third party arrangements) of finished product formulations; and the pursuit and execution of various supply agreements with third parties.

In March 2022, the Company reached practical completion at its state-of-the-art facility at Mildura with the Office of Drug Control (**ODC**) granting the necessary permits to commence cultivation activities. The first commercial crops were harvested in June 2022 in parallel with the Therapeutic Goods Administration issuing a Good Manufacturing Practice licence for the facility.

The Company believes that the Mildura facility is one of the most technologically advanced large scale, operational medicinal cannabis facilities in Australia. The facility can produce up to 12.5 tonnes of high-quality dried flower per year.

The Company is moving to scaled production at Mildura and is now preparing for the harvest of its largest commercial crop at an annualised figure of eight tonnes. The increased scale in cultivation and production activities provides the opportunity for the Company to further accelerate sales momentum that has already been achieved during this financial year.

The Company is based in Melbourne, Australia.

2.2 Strategic Plan

Cann Group is committed to expanding its cultivation and production activities at its Mildura facility with the aim of growing its revenue base.

The Company intends to achieve this strategy by focusing on the following in the near term:

- significant scale up of production at Mildura to allow the Company to meet the needs of a rapidly growing market, realise scale-based cost efficiencies and be a stable, secure, local supplier of high quality product;
- accelerating sales growth momentum by strengthening partnerships with key existing customers and developing new long-term relationships with prospective customers; and
- developing a strong and exciting pipeline of innovative products including proprietary genetics and THC forms of the Satipharm platform.

2.3 Funding

The Offer will raise up to approximately \$11.7 million, depending on the level of acceptances received by the Company.

The Company has access to a working capital facility with the National Australia Bank. As at 31 December 2022, the facility had been drawn down by \$11.95 million, leaving an undrawn balance of \$3.05 million.

R&D Tax Incentive

The Company has in the past, and intends in the future, to utilise the Federal Government research and development tax incentives, assuming they remain available.

The Company received an amount of \$4.348 million for the 2022 tax year and intends to lodge a claim based on eligible expenditure for the 2023 tax year in August 2023.

Sale of Southern Facility

Funding will be raised from the sale of the Southern cultivation and manufacturing facility as described in section 2.6.

2.4 Use of Funds

The Company proposes to use the funds raised through the Offer as set out in Table 2.4.1, below.

The key objective of the Offer is to raise the required additional capital necessary to fund the Company's growth initiatives and to significantly increase its production.

Over the past few years, Cann Group has built a world-class facility at Mildura, witnessed remarkable progress and achieved several significant milestones, including planting the biggest crop in Cann's history in May 2023. The Company firmly believes that this Offer will enable it to accelerate the growth trajectory and strengthen its current market position.

The funds from the Offer will assist Cann in a number of scale up activities, including:

- enhanced automation for GMP manufacturing facilities;
- accelerated staffing levels for scale up activities;
- laboratory and Quality Control enhancements;
- environmental, social and governance feasibility projects including solar and waste; and
- research and development, including the development of THC containing capsules,

2.5 Future of Cann Group

Cann Group's strategic plan is to expand its cultivation and production activities with the ultimate aim of growing its revenue base. The Company firmly believes that this Offer will enable it to accelerate the growth trajectory and strengthen its current market position to take advantage of the continually developing and expanding market.

2.6 Information disclosed under section 713(5)

On 23 December 2022, Cann Group announced it had agreed to terms with Sativite Pty Ltd on the sale of Cann's Southern cultivation and manufacturing facility for total consideration of \$5.48 million. The parties agreed to terms on the sale of the Southern facility's land and certain business assets, the licensing of certain Cann proprietary genetics and the provision of services from Cann Group to Sativite to assist with the transfer of commercial operations.

On 1 March 2023, Cann Group completed the sale of the Southern facility land for a total consideration of \$3.1 million. The parties are yet to enter into long-form documents regarding the sale of certain business assets of the Southern facility, however it is expected that the parties will do so in the near future and that \$1.9 million will be paid by Sativite once the applicable conditions precedents have been satisfied (which will include Sativite securing a licence from the ODC). Sativite currently operates another ODC-licensed medicinal cannabis cultivation facility which the Company believes should assist Sativite in obtaining the ODC licence approval in a timely manner. Cann will also provide access rights to certain genetic strains for a total fee of \$0.48 million.

Following the Satipharm S3 sleep trial results, Cann expects Haleon will not further pursue their option on right to the use of this data pathway. However, Cann remains in conversation with Haleon to explore opportunities for CBD.

The Company is in the process of negotiating a supply agreement to supply Cann products to a third party which, if finalised, may become material in nature. The final terms of the agreement are yet to be agreed but the Company will announce details, keeping shareholders and the market informed, at the appropriate time.

2.7 No underwriting

The Offer will not be underwritten.

Any New Securities under the Entitlement Offer which are not applied for will form the Top Up Securities. The offer to issue Top Up Securities is a separate offer under this Prospectus (**Top Up Offer**).

3.6 Top Up allocation policy

The allocation policy in relation to the Top Up Offer is as follows:

- if the number of Top Up Securities applied for is less than the number of Top Up Securities available, then each Eligible Shareholder who has applied for Top Up Securities will receive the number of Top Up Securities applied for; and
- if the number of Top Up Securities applied for is greater than the number of Top Up Securities available, then each Eligible Shareholder who has applied for Top Up Securities will receive such number of Top Up Securities applied for as reflects the pro rata number of Top Up Securities applied for as a proportion of those available.

In applying the allocation policy set out above, the Company may issue to an Eligible Shareholder a lesser number of Top Up Securities than the number applied for. If the number of Top Up Securities issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

As with any securities investment, there are risks associated with investing in the New Securities. Having regard to the matters detailed in Section 2.4 and the risks applicable to the Company and its business detailed in Section 6, Eligible Shareholders should be aware that an investment in the New Securities offered under this Prospectus should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the New Securities, Eligible Shareholders should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 6), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

3.9 Entitlement and Acceptance Form, BPAY® Payments and electronic funds transfer

Eligible Shareholders may apply for New Securities under the Entitlement Offer, and Top Up Securities under the Top Up Offer, by following the instructions in their personalised Entitlement and Acceptance Form to be issued with a copy of this Prospectus. See Section 5 for further information regarding how to accept all or part of your Entitlement and applying for Top Up Securities.

Acceptance of:

- a completed Entitlement and Acceptance Form; or
- a BPAY® payment; or
- an electronic funds transfer and a completed Entitlement and Acceptance Form (for shareholders with a registered address in New Zealand only),

by the Company creates a legally binding contract between the Eligible Shareholder and the Company for the number of Securities accepted by the Company. An Entitlement and Acceptance Form does not need to be signed to be a binding acceptance of New Securities.

If an Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

3.10 Issue and Dispatch

All New Securities under the Offer are expected to be issued on or before the dates specified in the Indicative Timetable.

It is the responsibility of Eligible Shareholders to determine their allocation prior to trading in New Securities. Eligible Shareholders who sell New Securities before they receive their holding statements will do so at their own risk.

Shortfall Securities may be issued within three months after the Closing Date.

3.11 Application Monies held on trust

All Application Monies will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the New Securities are issued. All Application Monies will be returned (without interest) to the extent that New Securities are not issued.

3.12 ASX quotation

An application will be made to ASX no later than seven days after the Prospectus Date for Quotation of the New Shares offered under this Prospectus.

If ASX does not grant Quotation of the New Shares within three months after the Prospectus Date (or such period as ASIC allows), no New Shares will be issued or allotted under the Offer and the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

The Company does not intend to apply for Quotation by ASX of the New Options offered under this Prospectus.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Quotation is not to be taken in any way as an indication of the merits of the Company or the New Securities.

The CHES statement will set out the number of Securities issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Securities.

CHES statements or Issuer Sponsored statements will routinely be sent to securityholders at the end of any calendar month during which the balance of their securityholding changes. Securityholders may request a statement at any other time, however, a charge may be made for additional statements.

3.15 Ineligible Shareholders

The Offer is not being extended to any Shareholders whose registered address is outside Australia or New Zealand (**Ineligible Shareholders**).

The Company is of the view that it is unreasonable to make the Offer to Shareholders outside Australia and New Zealand due to a small number of such Shareholders and the number and value of New Securities these Shareholders would be offered, the cost of complying with applicable regulations in such other jurisdictions and the administrative burden that will place on the Company in making the Offer available to Shareholders in those other jurisdictions.

This Prospectus and accompanying Entitlement and Acceptance Form do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such Offer.

Shareholders resident in Australia and New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Offer does not breach applicable laws in the relevant overseas jurisdiction. In particular, you may not accept Entitlements for persons in the United States or for the account or benefit of a person in the United States.

Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those applicable laws.

3.16 Nominees and custodians

Nominees and custodians may not distribute this Prospectus and may not permit any beneficial shareholder to participate in the Offer, in any country outside Australia and New Zealand except, with the consent of the Company, to beneficial shareholders resident in certain other countries where the Company may determine it is lawful and practical to make the Offer.

3.17 Taxation implications

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Eligible Shareholders. Eligible Shareholders should consult their own professional tax adviser to obtain advice in relation to the taxation laws, regulations and implications applicable to their personal circumstances.

6. Risks

The New Securities are considered highly speculative and carry no guarantee with respect to the payment of dividends or returns of capital. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consult their professional advisers and consider the risks described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for New Securities.

The following list of risks ought not to be taken as exhaustive of all the risks faced by the Company or by Shareholders. The proposed future activities of the Company are subject to a number of risks and other factors which may impact its future performance. These risks may be outside the control of the Company or the Directors and may not be able to be mitigated.

6.1 Risks specific to the Company

The current and future operations of the Company, may be affected by a range of factors, including:

(a) Agricultural risks

Cann's business involves the cultivation and processing of cannabis, an agricultural product. Risks inherent with agricultural businesses apply to Cann's business, including lower than expected yields, disease, mould and insects and other pests. Although Cann currently grows and expects to grow the significant majority of its product in climate controlled, monitored, indoor locations, there is no guarantee that changes in outside weather and climate, as well as catastrophic weather events such as fires, earthquakes, high winds or storms, will not adversely affect production or that inherent agricultural risks will not arise anyway. Losses in production may increase Cann's costs of goods sold, reducing margin, as well as limiting revenue due to lower amounts of product being available to sell. This would have an adverse effect on Cann's financial performance.

(b) Production risks

Cann's ability to produce cannabis and manufacture cannabis products, and to increase its production in the future, may be adversely impacted by a number of production factors. These include plant design errors, non-performance by third party contractors, increases in materials or labour costs and /or limits on availability of materials or labour, production performance falling below expected levels of output or efficiency, human error, the agricultural factors described above, contractor or operator errors, breakdowns, aging or failure of equipment or processes, labour disputes, any rise in energy and utilities costs and limits on availability of such utilities. Further power or water failures could lead to the Mildura Facility not functioning as it is designed with resultant damage to crops.

Any significant interruption or diminution in the availability of the supply chain for key inputs could materially impact Cann's ability to produce cannabis and manufacture cannabis products, which would negatively impact its business, financial performance and/or prospects.

(c) Funding risks

Cann may look to further expand its business, both organically and inorganically. This could include rolling out the further development stages the Company has proposed at the Mildura Facility. Cann may also enter into transactions to acquire medicinal cannabis or related or synergistic businesses or companies. However, any future expansion of Cann's business may well require additional capital, depending on the nature of the development or expansion. The failure to raise the necessary funding, whether as debt or equity, could result in the delay or indefinite

postponement of Cann's business expansion. There can be no assurance that additional funding or other types of financing will be available if needed or that, if available, the terms of such funding will be available on favourable terms.

If additional funds are raised through issuances of equity or convertible debt securities, existing shareholders could suffer significant dilution.

In addition, debt funding may materially increase Cann's debt levels and gearing. This may increase Cann's funding costs, reduce its financial performance and increase the risk of Cann being in default or being unable to pay its debts when due in the future.

(d) **Import risks**

Some of Cann's operations depends on its ability to import cannabis products, particularly flower, from foreign jurisdictions. If overseas suppliers are unable to meet the requirements to enable Cann to import the necessary volumes of flower e.g. by not providing the required documentation, by not providing flower of the necessary standard, or by not complying with shipping and customs requirements, this would impact Cann's ability to import the products and meet customer demands, which would ultimately have a negative impact on Cann's revenues and prospects.

In addition, there is no guarantee that Australian legislation and regulations will not change in the future and prohibit the importation of cannabis or cannabis products from all or specific overseas jurisdictions which Cann imports from. This may have a material adverse impact on the financial position, financial performance and / or prospects of Cann.

(e) **R&D funding risk**

An important source of funding for Cann is the R&D tax refund it receives each year. There can be no assurance that the R&D tax refund scheme will remain in place, or that Cann will continue to be entitled to access it in the future. Therefore, if Cann were to not receive an R&D tax refund, this would negatively impact Cann's financial performance as well as increase its working capital requirements, potentially causing it to seek additional funding.

(f) **Operating losses**

Cann continues to incur operating losses. Cann may not be able to achieve profitability and may continue to incur significant losses in the future. In addition, Cann will increase its operating expenses as it grows its business. If Cann's revenues do not increase to offset these expected increases in expenditures and operating expenses, it will not be profitable. Anticipated or expected sales may not be achieved, and even if achieved, may not result in Cann being profitable. There is no assurance that Cann Group will be successful in achieving a return on shareholders' investments and the chances of success must be considered in light of the proposed expansion of its operations. Also, Cann may require additional funding to meet those losses or bridge the period of time until it becomes profitable, with the associated risks of funding noted above.

(g) **Regulatory approvals**

Cann's ability to continue its business is dependent on holding certain authorisations, licences and permits and adherence to all regulatory requirements related to such activities. Any failure to comply with the conditions of those approvals and licences, or to renew the approvals and licences after their expiry dates, would have a material adverse impact on the financial position, financial performance and / or prospects of Cann

(h) **Product approvals**

Cannabis products are currently regulated as medicines in Australia. Generally, medicines imported into, supplied in, and exported from Australia must be entered in the Australian Register of Therapeutic Goods (ARTG), which is administered by the Therapeutic Goods Administration (TGA) or through the Special Access Scheme (SAS), Authorised Prescriber (AP) scheme or clinical trial exemptions. Cann cannot guarantee that any or all of its medicinal cannabis products will be approved for supply to patient under these pathways or that these pathways will remain available. Any failure to continue to be able to access these pathways would have a material adverse impact on the financial position, financial performance or prospects of Cann.

(i) **Compliance with licence conditions**

A licence to cultivate, produce and/or manufacture under the *Narcotic Drugs Act 1967* (Cth) is subject to a number of conditions, which if not maintained may result in a suspension or revocation of the licence or permit. Such conditions include ensuring that all staff engaged are suitable, that directors and officers (and the business itself) is a fit-and-proper person and that certain security and reporting measures are maintained. Any failure to maintain these licenses would have a material adverse impact on the financial position, financial performance and / or prospects of Cann.

(j) **Product development**

Cann may not be successful in developing effective and safe new products to market in time to be effectively commercialised, or in obtaining any required regulatory approvals or funding, which may impact its growth initiatives relating to product development with an associated material adverse effect on its prospects.

(k) **Diversions risk and theft**

Given the nature of Cann's cannabis products and despite meeting or even exceeding the TGA and ODC security requirements, there remains a risk of shrinkage as well as theft. A security breach at one of Cann's facilities could expose Cann to additional liability and to potentially costly fines, penalties and litigation, increased expenses relating to the resolution and future prevention of these breaches and may result in the possible suspension or revocation of licences and permits and may also deter existing or potential customers from purchasing Cann's products. Any such event may have a material adverse effect on Cann's prospects.

(l) **Industry confidence**

There is a risk that incidents beyond the control of Cann could occur which would have the effect of reducing patient, medical/scientific or regulatory confidence or preferences for cannabis or medicinal cannabis products, including serious adverse effect incidents involving medicinal cannabis, negative medical or scientific findings, material breaches of a law or regulation by Cann or a competitor. Any such event may have a material adverse effect on Cann's prospects.

(m) **Competition risks**

Should the size of the Australian medicinal cannabis market increase, the overall demand for products and number of competitors will, or is likely to, increase as well, and in order for Cann to be competitive, Cann will need to invest significantly in research and development, new product and market development, marketing, new client identification, distribution channels and client support. If Cann is not successful in obtaining sufficient resources to invest in these areas, Cann's ability to compete in the market could be adversely affected and this could have a material

adverse effect on its business, financial position, financial performance and/or prospects.

(n) **Third party manufacture risks**

Cann is currently reliant on a single source of manufacturing to manufacture certain of Cann's products. There are other potential commercial manufacturers that Cann could use to meet its manufacturing requirements. However, if Cann needed to engage a new manufacturer, the process of transitioning to a new manufacturer would likely take several months, so there would be a risk that Cann's manufacturing abilities would be adversely impacted during the transition period, with a negative associated impact on Cann's financial performance.

6.2 Industry risks

(a) **General regulatory risk**

Companies which operate in the medicinal cannabis industry are subject to a highly regulated environment and numerous laws and regulations. Changes to such laws, regulations and directives may cause adverse effects on a business operating in this industry, its financial position, financial performance and/or prospects.

(b) **Market risks**

There is a risk that the demand for the supply of medicinal cannabis products may decrease due to various market factors, which could have an associated adverse effect on a business operating in this industry, its financial position, financial performance and/or prospects.

(c) **Clinical trial outcomes**

There are various clinical trials being conducted in Australia and internationally in relation to medicinal cannabis. An adverse finding from an approved or recognised clinical trial is likely to or may have a material adverse effect on a company's prospects of conducting clinical trials in the medicinal cannabis sector, which could have an associated adverse effect on the financial position, financial performance and/or prospects of a company and the medicinal cannabis industry generally.

6.3 General risks

(a) **Nature of investment**

There are inherent risks associated with investment in any listed company. The New Shares under the Offer do not guarantee payment of dividends, return on capital or maintenance of capital or value. No assurances can be given that the New Shares will trade at or above the Offer Price at any time, or that they may be sold at any price. The value of the New Shares may vary depending on the financial and operating performance of Cann and external factors over which Cann and its directors have no control, including changes to market sentiment.

(b) **Dilution risk**

If Cann needs to raise additional equity in the future, this may dilute the shareholdings of existing shareholders, who may not have the opportunity to participate in that raising.

(c) **General economic conditions**

Adverse changes in economic conditions such as to interest rates, exchange rates, inflation, government policy, taxation law, investor sentiment towards particular market sectors, demand for and supply of capital, national and international economic conditions (including any trade conflicts between major countries, terrorism, war, social upheaval or other hostilities) amongst others are outside Cann's control and have the potential to have an adverse impact on Cann (including Cann's financial performance and/or financial position) and its operations.

(d) **Tax legislation & accounting standards**

Changes in tax laws or accounting standard from time to time can have an adverse impact on the financial performance, financial position and / or prospects of a company.

(e) **Cyber security**

A company may suffer material losses from cyber-attacks or other information security breaches. As cyber threats continue to evolve, a company may be required to expend additional resources to continue to modify or enhance protective measures or to investigate and remediate any security vulnerabilities, with an adverse impact on its financial performance.

(f) **Privacy**

A company may collect or be provided with information which is considered personal or sensitive, and the company is responsible for protecting that information from privacy breaches and mandatory reporting obligations under the Notifiable Data Breaches scheme contained within the *Privacy Act 1988* (Cth) (**Privacy Act**). A breach of its obligations under the Privacy Act may have an adverse effect on the company's business, reputation, financial position, financial performance and/or prospects.

6.4 Investment highly speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus. Therefore, the New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Securities pursuant to this Prospectus.

7. Rights attaching to New Shares and New Options

7.1 Rights attaching to New Shares

The New Shares issued under this Prospectus will rank *pari passu* in all respects with existing Shares on and from their date of issue.

The following is a summary of the more significant rights and liabilities attaching to New Shares to be issued pursuant to this Prospectus.

This summary is qualified by the full terms of Company's Constitution and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. A full copy of the Constitution is available from Company on request free of charge or available for inspection at the Company's registered office during normal business hours. It can also be downloaded from the Company's website (<https://www.canngrouplimited.com/> for free) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General meetings

Directors may call a meeting of Shareholders whenever they think fit, by Board resolution. Shareholders may call a meeting as provided by the Corporations Act. All Shareholders are entitled to a notice of meeting.

A meeting may be held in two or more places linked together by audio-visual communication devices. A quorum for a meeting of Shareholders is two eligible voters.

A poll may be demanded by the chairperson of the meeting, any five Shareholders entitled to vote in person or by proxy, attorney or representative or by any one or more Shareholders holding not less than 5% of the total voting rights of all Shareholders having the right to vote.

(c) Dividends

The Directors may declare and authorise the distribution from the profits of the Company, dividends to be distributed to Shareholders according to their rights and interests. The Directors may, before declaring any dividend, set aside reserves out

of the profits of the Company which at the Directors' discretion may be used in the business of the Company or be invested in such investments as the Directors think fit. Except to the extent that the terms of issue of shares provide otherwise, each dividend must be distributed according to the amount paid up on the Share in a manner calculated in accordance with the Constitution.

(d) **Winding up**

If the Company is wound up, the liquidator may, with the sanction of a special resolution of the Company, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the sanction of a special resolution of the Company, vest the whole or any part of any such property in trustees on such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Transfer of shares**

Generally, Shares are freely transferable, subject to formal requirements, and to the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia.

Where the Shares are classified by the ASX as 'Restricted Securities' certain restrictions on transfer will also apply.

(f) **Directors**

The business of the Company is to be managed by or under the direction of the Directors.

Directors are not required under the Constitution to hold any Shares.

Unless changed by the Company in general meeting, the minimum number of Directors is three and the maximum is 10. The existing Directors may appoint a new Director to fill a casual vacancy or as an addition to the Board. Any such Director will hold office until the conclusion of the next general meeting (at which meeting he or she may be eligible for election as a Director).

The Constitution contains provisions relating to the rotation and election of directors. No Director other than the Managing Director may hold office later than the third annual general meeting after his or her appointment or election, without submitting himself or herself for re-election.

For a person to be eligible for election as a Director, a nomination for the office of Director and the written consent of the proposed director must be received at the Company's registered office not later than 35 Business Days before the meeting.

(g) **Offer of shares**

Subject to the requirements of the Corporations Act and if applicable, the Listing Rules, the issue of Shares by the Company is under the control of the Directors.

Under the Constitution the Company is empowered, without prejudice to any special rights previously conferred on the holders of any existing shares or class of shares,

to issue shares with preferred, deferred or other rights on such terms and conditions as they see fit.

(h) **Variation of shares and rights attaching to shares**

The rights and privileges attached to any Shares may be varied in accordance with the requirements of the Corporations Act, and the Company's share capital may be altered in any manner permitted by law.

(i) **Unmarketable parcels**

The Company may procure the disposal of Securities where the member holds Securities of which the aggregate market value is less than a marketable parcel of Securities within the meaning of the Listing Rules (i.e., a parcel of Securities with a market value of less than \$500). To invoke this procedure, the Company must first give notice to the relevant member holding less than a marketable parcel of Securities, who may then elect not to have his or her Shares sold by notifying the Company.

(j) **Share buy-backs**

The Company may buy-back Shares in itself in accordance with the provisions of the Corporations Act.

(k) **Indemnity and insurance of officers**

Under the Constitution, the Company is obliged, to the extent permitted by law, to indemnify an officer (including Directors) of the Company against liabilities incurred by the officer in that capacity, and against costs and expenses incurred by the officer in defending civil or criminal proceedings; unless the liability arises out of their own dishonesty, negligence, lack of good faith or breach of duty.

To the extent permitted by law, the Company may also pay the premium on any insurance policy for any person who is or has been, an officer against a liability incurred by that person in his or her capacity as an officer of the Company or a subsidiary of the Company.

(l) **Changes to the constitution**

The Constitution can only be amended in accordance with the requirements of the Corporations Act.

(m) **Listing Rules**

Provided the Company remains admitted to the Official List of the ASX, then despite anything in the Constitution, no act may be done that is prohibited by the Listing Rules, and authority is given for acts required to be done by the Listing Rules. The Constitution will be deemed to comply with the Listing Rules, as amended from time to time.

7.2 Rights Attaching to New Options

The following is a summary of the terms and conditions attaching to New Options to be issued pursuant to this Prospectus.

(a) **Entitlement**

Each New Option entitles the holder to subscribe for one Share upon the exercise of the New Option (subject to adjustment under the terms of issue).

(b) **Exercise Price and Expiry Date**

The New Options have an exercise price of \$0.22 per New Option (**Exercise Price**) and expire at 5:00pm (AEST) on the date 18 months after their date of issue (**Expiry Date**).

A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(c) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date.

(d) **Quotation of the New Options**

The Company does not intend to apply for Quotation by ASX of the New Options offered under this Prospectus.

(e) **Notice of Exercise**

The New Options may be exercised by notice in writing to the Company in the manner specified on the New Option certificate (**Exercise Notice**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

New Options will be deemed to have been exercised on the latest of the date that:

- (i) the Exercise Notice;
- (ii) the Exercise Price; and
- (iii) the applicable holding statement relating to the New Options (if any),

is received by the Company or the Share Registry.

(f) **Shares Issued on Exercise**

Shares issued on exercise of the New Options rank equally with the then issued Shares.

(g) **Timing of the Issue of Shares on Exercise and Quotation**

Within five (5) business days of an Exercise Notice being given in accordance with these terms and conditions and payment of the Exercise Price for each New Option being exercised, the Company will:

- (i) issue the Shares resulting from the exercise of the New Options; and
- (ii) apply for quotation on ASX of Shares issued resulting from the exercise of the New Options.

(h) **Participation in New Issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options. The Company will ensure, for the purposes of determining entitlements to any issue, that Option holders will

be notified of a proposed issue after the issue is announced. This will give the holders of New Options the opportunity to exercise their New Options prior to the date for determining entitlements to participate in any such issue.

(i) **Adjustment for Bonus Issues of Shares**

If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):

(i) the number of Shares which must be issued on the exercise of a New Option will be increased by the number of Shares which the New Option holder would have received if the New Option holder had exercised the New Option before the record date for the bonus issue; and

(ii) no change will be made to the Exercise Price.

(j) **Adjustment for Reorganisation**

If there is any reorganisation of the issued share capital of the Company, the rights of the New Option holders will be varied in accordance with the Listing Rules.

(k) **Transferability**

The New Options are not transferable.

8. Additional information

8.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus, and the New Options are options to be issued Shares.

This Prospectus is a prospectus to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or options to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms the Prospectus is only required to contain information in relation to the effect of the issue of New Securities on the Company and the rights attaching to the New Securities. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the Company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Shareholders should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the closing date of the Offer:
 - (i) the annual financial report of the Company for the financial year ended 30 June 2022 being the most recent annual financial report of the Company lodged with the ASIC before the issue of this Prospectus; and
 - (ii) the half year financial report of the Company for the six months ended 31 December 2022 lodged with ASIC after the lodgement of

the annual financial report mentioned in paragraph (i) and before the issue of this Prospectus; and

- (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the annual financial report referred to in paragraph (i) above until the issue of this Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

The Company has lodged the announcements set out in Table 8.1.1 below with ASX since the lodgement of its annual report on 29 August 2022 and prior to the lodgement of this Prospectus with ASIC.
