

ASX Announcement

Prominent US biotech executive Ms Kim Drapkin appointed Non-Executive Director; Resignation of Charles Walker

Sydney, Australia, 21 June 2023: Imugene Limited (ASX: IMU), a clinical stage immuno-oncology company, is pleased to announce the appointment of Ms Kim Drapkin as Non-Executive Director.

With more than 25 years of experience in the biotechnology and pharmaceutical sectors, Ms Drapkin possesses a strong background in finance, capital raising, and strategic financial planning. She held the position of CFO and Treasurer at Jounce Therapeutics, Inc. from 2015 until its acquisition in May 2023, having played a pivotal role in the company's growth and financing since its inception. Alongside the CEO, she represented Jounce in the investment and analyst community and was a key figure in the company's IPO and subsequent NASDAQ listing.

Before joining Jounce, Ms Drapkin managed a financial consulting firm and served as interim CFO for various early-stage biotech companies, including Eleven Biotherapeutics, Inc., NinePoint Medical, Inc., Blueprint Medicines Corporation, Warp Drive Bio LLC, Edimer Pharmaceuticals, Avila Therapeutics, Inc., and Voyager Therapeutics, Inc. Prior to that, she held CFO positions at EPIX Pharmaceuticals and gained valuable experience at Millennium Pharmaceuticals.

Ms Drapkin also currently serves as the audit committee chair and compensation committee member on Acumen Pharmaceuticals' board (NASDAQ: ABOS). Previously, she served on Proteostasis Therapeutics' board (NASDAQ: PTI) from 2019 to 2020 and continued on Yumanity Therapeutics' board (NASDAQ: YMTX) following its merger with PTI in December 2020 until December 2022. In PTI and Yumanity, she chaired the audit

committee and participated in the governance and compensation committees. Ms. Drapkin also served on transaction committees for both companies.

"It's a pleasure to welcome Kim to the Imugene team as a Non-Executive Director," said Imugene's Executive Chairman Paul Hopper. "Kim's extensive knowledge of the US mid-cap biotechnology ecosystem, and the drivers of company success, will be instrumental in supporting our ongoing efforts to expand our investor footprint and further accelerate our clinical development programs in a financially disciplined manner."

Imugene also announces that Charles Walker has resigned from his position as a NED of Imugene on 30 June 2023 after a long period of service to focus on his other business interests.

Charles has served on Imugene's Board since August 2014, including a tenure as CEO, and has provided a valued contribution and wise counsel to the Company.

Imugene's Executive Chairman Paul Hopper said: "I'd like to thank Charlie for his guidance and efforts over almost a decade that he's been involved with Imugene and wish him all the best with his ongoing initiatives and business interests."

About Imugene (ASX:IMU)

Imugene is a clinical stage immuno-oncology company developing a range of new and novel immunotherapies that seek to activate the immune system of cancer patients to treat and eradicate tumours. Our unique platform technologies seek to harness the body's immune system against tumours, potentially achieving a similar or greater effect than synthetically manufactured monoclonal antibody and other immunotherapies. Our product pipeline includes multiple immunotherapy B-cell vaccine candidates and an oncolytic virotherapy (CF33) aimed at treating a variety of cancers in combination with standard of care drugs and emerging immunotherapies such as CAR T's for solid tumours. We are supported by a leading team of international cancer experts with extensive experience in developing new cancer therapies with many approved for sale and marketing for global markets.

Our vision is to help transform and improve the treatment of cancer and the lives of the millions of patients who need effective treatments. This vision is backed by a growing body of clinical evidence and peer-reviewed research. Imugene is well funded and resourced, to deliver on its commercial and clinical milestones. Together with leading specialists and medical professionals, we believe Imugene's immuno-oncology therapies will become foundation treatments for cancer. Our goal is to ensure that Imugene and its shareholders are at the forefront of this rapidly growing global market.
