

AVITA Medical Rejoins the Russell 3000 Index

VALENCIA, Calif., and MELBOURNE, Australia, June 26, 2023 (GLOBE NEWSWIRE) — AVITA Medical, Inc. (NASDAQ: RCEL, ASX: AVH), a regenerative medicine company leading the development and commercialization of first-in-class devices and autologous cellular therapies for skin restoration, today announced that it has rejoined the broad-market Russell 3000® Index following the conclusion of the 2023 Russell indexes annual reconstitution, effective after the U.S. market opens on June 26, 2023.

The annual Russell indexes reconstitution captures the 4,000 largest U.S. stocks as of April 28, 2023, ranking them by total market capitalization, including both the Russell 3000 and Russell Microcap® Indexes. Membership in the U.S. all-cap Russell 3000 Index, which remains in place for one year, means automatic inclusion in the small-cap Russell 2000® Index as well as the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings, and style attributes.

“We are pleased to rejoin the globally recognized Russell indexes,” said Jim Corbett, Chief Executive Officer of AVITA Medical. “We believe our inclusion will expand our exposure to the investment community and broaden our investor base, further advancing our strategic growth initiatives.”

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$12.1 trillion in assets are benchmarked against Russell’s U.S. indexes. Russell indexes are part of FTSE Russell, a leading global index provider.
