ASX Release

2023 Drilling Update

Further to the ASX release dated 7 June 2023, Byron Energy Limited (Byron or the Company), (**ASX: BYE**), provides the following update on the status of the Enterprise 264 (EOD 264) jack up drilling rig.

On 7 June 23, Byron advised the market that the EOD 264 jack-up rig was on location ready to work for another operator and waiting on a final drilling permit from BSEE while on day rate. Today, the Company was advised by Enterprise that the operator received verbal approval to begin driving conductor pipe after a 23 day delay and operations have now begun. Byron was also advised that the well is anticipated to take 45-50 days to drill and complete, subject to any delays resulting from downhole issues or weather.

Byron has selected all vendors, finalized drilling permits, and will commence operations on a two well drilling program in direct continuation of the current operator once the rig is released.

Further information will be released to the market as it becomes available.
