

10 August 2023

## RETIREMENT OF CHAIR

Mach7 Technologies Limited (“Mach7” or the “Company”) (ASX:M7T), a company specialising in innovative medical imaging software solutions, announces that Mr. David Chambers will retire as Chair and Non-Executive Director of Mach7, effective from the close of the Company’s Annual General Meeting on 16 November 2023.

Mr. Chambers joined the Mach7 Board in August 2018 as an independent Non-Executive Director, and was appointed to the role of Chair in June 2019. The retirement of Mr. Chambers marks the five year anniversary of his tenure and is consistent with the planned Board renewal process to ensure the appropriate mix of skills, diversity experience and tenure.

Mr. Chambers said: *“It has been an honour to serve the shareholders of Mach7 for the past five years, a period which has seen much progress and growth despite the challenges of a global pandemic. During the timeframe annual sales orders have tripled to A\$40 million, aided by the transformational acquisition of ClientOutlook. I’m enormously proud of the Mach7 team which, under the leadership of Mike Lampron, has produced top ranking software and services, built a loyal and rapidly growing global customer base, expanded its footprint into Asia Pacific and the Middle East and won significant contracts with the recent Veterans Health Administration contract representing a breakthrough in terms of scale and entry to the US public health sector.”*

Mach7 Managing Director, Mr. Mike Lampron acknowledged: *“David brought extensive global healthcare/IT industry experience to the Board and along with my fellow directors, I’d like to sincerely thank him for his contribution. David will be leaving the Company in great shape with strongly growing sales orders and revenue and a healthy cash balance. A search is underway for a replacement to steer Mach7 through the next phase of its evolution.”*

**Released on authority of the Board by:**

Mike Lampron  
Managing Director and Chief Executive Officer

**About Mach7 Technologies:**

Mach7 Technologies (ASX:M7T) is a medical imaging systems provider that develops innovative image management and viewing solutions for healthcare organisations. The core of these offerings is the Mach7 Enterprise Imaging Solution, encompassing Enterprise Data Management, Enterprise Diagnostic Viewing and Diagnostic Workflow applications. Mach7's Enterprise Data Management solution, consisting of a powerful Vendor Neutral Archive (VNA) and data administration tools, allows for the fast storage, access, retrieval and viewing of images across a healthcare network with connectivity to the Cloud. In July 2020, Mach7 acquired Client Outlook and the eUnity Enterprise Diagnostic Viewing technology to augment Mach7's Enterprise Data Management and Diagnostic Workflow applications. eUnity is a zero-footprint, FDA-approved, image viewing solution that makes images accessible on any workstation. This offers healthcare professionals consolidated access to all patient images and data, ensuring clinical staff have timely access to the right information to diagnose and treat patients. Uniquely, the company also gives customers independence to deploy its solutions either on a component basis or in a unified comprehensive platform. Mach7 has built a global network of diverse customers that range from expansive Integrated Delivery Networks, National Health Systems, medical research facilities, and large academic medical institutions to regional community hospitals, private radiology practices, and independent provider groups.
