Titomic receives an order for high-pressure cold spray system to be supplied to Sabanci University.

Titomic Limited (ASX: TTT) ("Titomic" or "Company"), a leading manufacturing technology and engineering company, is pleased to announce the receipt of an order for a custom high pressure cold spray system (System) to be supplied to Sabanci University's Integrated Manufacturing Technologies Research and Application Center (Sabanci University). Sabanci University is based in Turkey.

The sale of the System has been agreed with Sabanci University by Seha Mühendislik Müşavirlik Ticaret ve Makina Sanayi A.Ş. who is acting as an agent for Titomic. The System has been sold for EUR1.4 million (AUD2.4 million) and is expected to be delivered, installed, and paid for by April 2024. The System incorporates Titomic's roboticised high-pressure Titomic Kinetic Fusion technology, also known as cold spray, to enable novel additive manufacturing, material science, and surface engineering capabilities.

Sabanci University is an industrial-scale research and technology development centre specialising in multifunctional advanced composite materials and structures, additive, and digital manufacturing technologies.

The acquisition of the System is designed to address the specific research and development needs of Sabanci University.

A valuable factor of Titomic Kinetic Fusion is its ability to fuse dissimilar metals, including titanium, Inconel, steel, and various other metals used in modern manufacturing processes. This capability opens new avenues for research and will allow Sabanci University to explore innovative applications and materials in industries ranging from aerospace to automotive, energy to defence.

Herbert Koeck, Managing Director of Titomic, commented:

"We are proud to supply Sabanci University with this technology. This union exemplifies the transformative potential of our Titomic Kinetic Fusion technology and its wide-ranging applications in various industries. We look forward to witnessing Sabanci University pushing the boundaries of manufacturing research and innovation.

This sale further cements Titomic's position as a pioneering force in the manufacturing and engineering domain. The successful sale of the custom System to Sabanci University emphasises Titomic's commitment to advancing the field of metals manufacturing and strengthening our presence globally."

This announcement has been authorised for release by the Board of Titomic Limited.

ABOUT TITOMIC LIMITED

Titomic Limited (ASX: TTT) is an Australian public company specialising in large integrated solutions for industrial-scale metal additive manufacturing, using its patented cold spray additive manufacturing (Cold Spray AM) technology. Titomic provides Cold Spray AM solutions, OEM production and R&D services to the global Aerospace, Defence, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also offers global sales and support for all of its Cold Spray AM activities from its Melbourne Head Office, as well as through local presence in the USA and Europe. Titomic delivers competitive advantages in metal additive manufacturing at every stage in the product value chain. For more information, please visit www.titomic.com.

FORWARD LOOKING STATEMENTS

Certain statements made in this release are forward-looking statements and are based on Titomic's current expectations, estimates and projections. Words such as "anticipates", "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward-looking statements. Although Titomic believes the forward-looking statements are based on reasonable assumptions, they are subject to certain risks and uncertainties, some of which are beyond Titomic's control, including those risks or uncertainties inherent in the process of both developing and commercialising technology. As a result, actual results could materially differ from those expressed or forecasted in the forward-looking statements. The forward-looking statements made in this release relate only to events as of the date on which the statements are made. Titomic will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this release except as required by law or by any appropriate regulatory authority.
