Dear Sir/Madam,

FY2023 results

Increased franked dividend quarterly dividend in accordance with progressive dividend policy

Full year results

WCM Global Growth Limited (the **Company**) (ASX:WQG) today announced a net operating profit after tax for the year ended 30 June 2023 (**FY2023**) of \$37,184,000 (30 June 2022: net operating loss after tax of \$48,065,000). The increase in after-tax profit for the year is primarily attributed to an increase in the value of the Company's investment portfolio during a period of improved market conditions, especially in the second half of the financial year.

Calendar year 2022 was challenging for global markets as investors attempted to navigate a flurry of concurrent economic hurdles, including soaring inflation and rising investment rates around the world. However, after these challenging market conditions in 2022, the investment portfolio delivered strong investment returns in second half of the financial year.

For FY2023, the pre-tax net tangible asset (**NTA**) value per share of the Company increased from \$1.32 as at 30 June 2022 to \$1.47 as at 30 June 2023. The higher NTA was after the payment of a 3.00 cents per share final dividend (100% franked) for FY2022 on 30 September 2022, a 3.25 cents per share interim dividend (100% franked) for FY2023 paid on 31 March 2023 and a 1.64 cents per share interim dividend (100% franked) for FY2023 paid on 30 June 2023, which was the first quarterly dividend payment paid under the enhanced progressive dividend policy announced in February 2023.

Overall, the portfolio, which is managed by the Company's portfolio manager, WCM Investment Management, LLC (**WCM**), delivered a return of 23.25% in FY2023 compared with the benchmark, the MSCI All-Country World Index (ex-Australia) (**Benchmark**) return of 21.51%. For the 6 months to 30 June 2023, the portfolio delivered 18.73% versus the Benchmark which delivered 17.06%, highlighting the more buoyant investment markets in 2023.

Whilst markets continue to be volatile in the short term, it is pleasing to see the portfolio now has delivered returns in excess of the Benchmark over one and three months, one and five years, and since inception.

As at 14 August 2023, the Company's pre-tax NTA had further increased to \$1.49 per share.

Outlook

Despite a challenging first six months of the 2023 financial year, it was pleasing to see a strong rebound in the second half of the financial year. The long-term performance of the Company's investment portfolio remains strong. Since inception in June 2017, the WQG portfolio has returned 13.07% per annum after all fees compared with the Benchmark return of 11.35%.

While markets remain volatile in the short term, more than a decade of outperformance by WCM demonstrates that the Company's investment approach is robust. The Board is confident that the Company is well positioned to navigate volatility in the short term for continued future success.

The Board looks forward to a successful year and thanks all shareholders for their ongoing support.
