¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

During FY23 the board, through the audit and risk committee, has continued working on the Company's risk management framework. Further, owing to the nature of the Company's business and its obligations to the Office of Drug Control to only employ 'suitable persons' as that term is defined in the Narcotic Drugs Act 1967 (Cth), and the necessary criminal checks that are undertaken regarding all prospective employees, the Company has robust and detailed screening processes.
- Financial controls - various policies and procedures are in place for financial controls including a delegations policy.

- Finally, the CEO and CFO confirm they have disclosed to the audit and risk committee and the external auditor any significant deficiencies of material weaknesses in internal control and financial reporting and they have disclosed any significant changes that have occurred that effected internal controls over the financial reporting period and whether any corrective actions were taken if any significant deficiencies and material weaknesses were identified.

Recommendation 7.4

A listed entity should disclose whether it has any material exposure to environmental or social risks and, if it does, how it manages or intends to manage those risks.

See information related to recommendations 4.1 and 7.3 for details of the Company's risk management systems which assist in identifying and managing potential or apparent business, economic, environmental and social sustainability risks (if appropriate). The current operations of the Company are not subject to any significant environmental regulations under Commonwealth or state legislation.

Review of the Company's risk management framework is conducted at least annually and reports are continually created by management on the efficiency and effectiveness of the Company's risk management framework and associated internal compliance and control procedures.

Principle 8: remunerate fairly and responsibly

Recommendation 8.1

The board of a listed entity should:

- (2) is chaired by an independent director,***

and disclose:

- (3) the charter of the committee;***
- (4) the members of the committee; and***
- (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings;***

or

(b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.

Due to the size and nature of the existing board and the magnitude of the Company's operations, the Company has a combined remuneration and nomination committee. All members of the board are also members of this committee.

The remuneration and nomination committee determines remuneration packages and policies applicable to the Chief Executive Officer, senior executives and the directors themselves (subject to a cap imposed by shareholders).

This also includes responsibility for future entitlements under any option plan and share plan, incentive performances packages, superannuation entitlements, retirement and termination entitlement and fringe benefit policies.

To the extent that any members have a conflict of interest in respect to remuneration policies they abstain.

Remuneration levels are competitively set to attract the most qualified and experienced directors and senior executives. Where appropriate, the remuneration committee seeks independent advice on the appropriateness of remuneration packages.

The shareholders determine at a general meeting the total remuneration to be paid to non-executive directors. When setting fees and other compensation for non-executive directors, the board takes independent advice and applies Australian and international benchmarks.

Any share plan, incentives or option incentives are predicated on the enhancement of shareholder value and the achievement of specific corporate milestones.

The remuneration and nomination committee has determined that:

- Non-executive directors should be remunerated by way of fees and should not participate in schemes designed for the remuneration of executives.
- Non-executive directors are only entitled to receive retirement benefits as determined by the law.

Recommendation 8.2

A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives and ensure that the different roles and responsibilities of non-executive directors compared to executive directors and other senior executives are reflected in the level and composition of their remuneration.

The Company's remuneration policy requires the board to disclose its policies and practices regarding the remuneration of non-executive and executive directors and other senior employees. Such disclosures are contained in the annual report. A copy of the remuneration policy is available on the Company's website.

Remuneration paid to senior executives is distinguished from that paid to non-executive directors.
