Strategic Initiatives 1 & 2

- *FY22 customer receipts was skewed by the AUD 2.2 million TKF 1000 sale to TWI, UK.
- **FY23 Customer receipts remained strong in FY23. The sale of a Custom TKF System to Sabanci University (AUD 2.4 million) was announced in August, FY24.
- Titomic continues to minimize reliance on government grants and R&D tax incentives, moving away from R&D and toward customer ordered and paid projects.
- ***Titomic recorded reduced employee and director costs, despite the Company's restructure being completed in May 2023, which incurred redundancy expenses, and was reflected in only two months of the financial year.

Progress Made on Strategic Initiatives

3 Educate the market on cold spray technology

4 Scale all revenue-generating activities across all active regions

Strategic Initiatives 3 & 4

- Titomic is now creating a higher volume of parts for clients.
- Enable the cold spray market by providing cold spray systems to higher education organisations such as Perron038, Neue Materialien Bayreuth, and Rey Juan Carlos Universidad.
- All regions are showing considerable growth.
- Focusing on more cost-effective marketing methods such as webinars, targeted marketing, and 1:1 engagement, targeting specific applications.

FY23 Operational Update

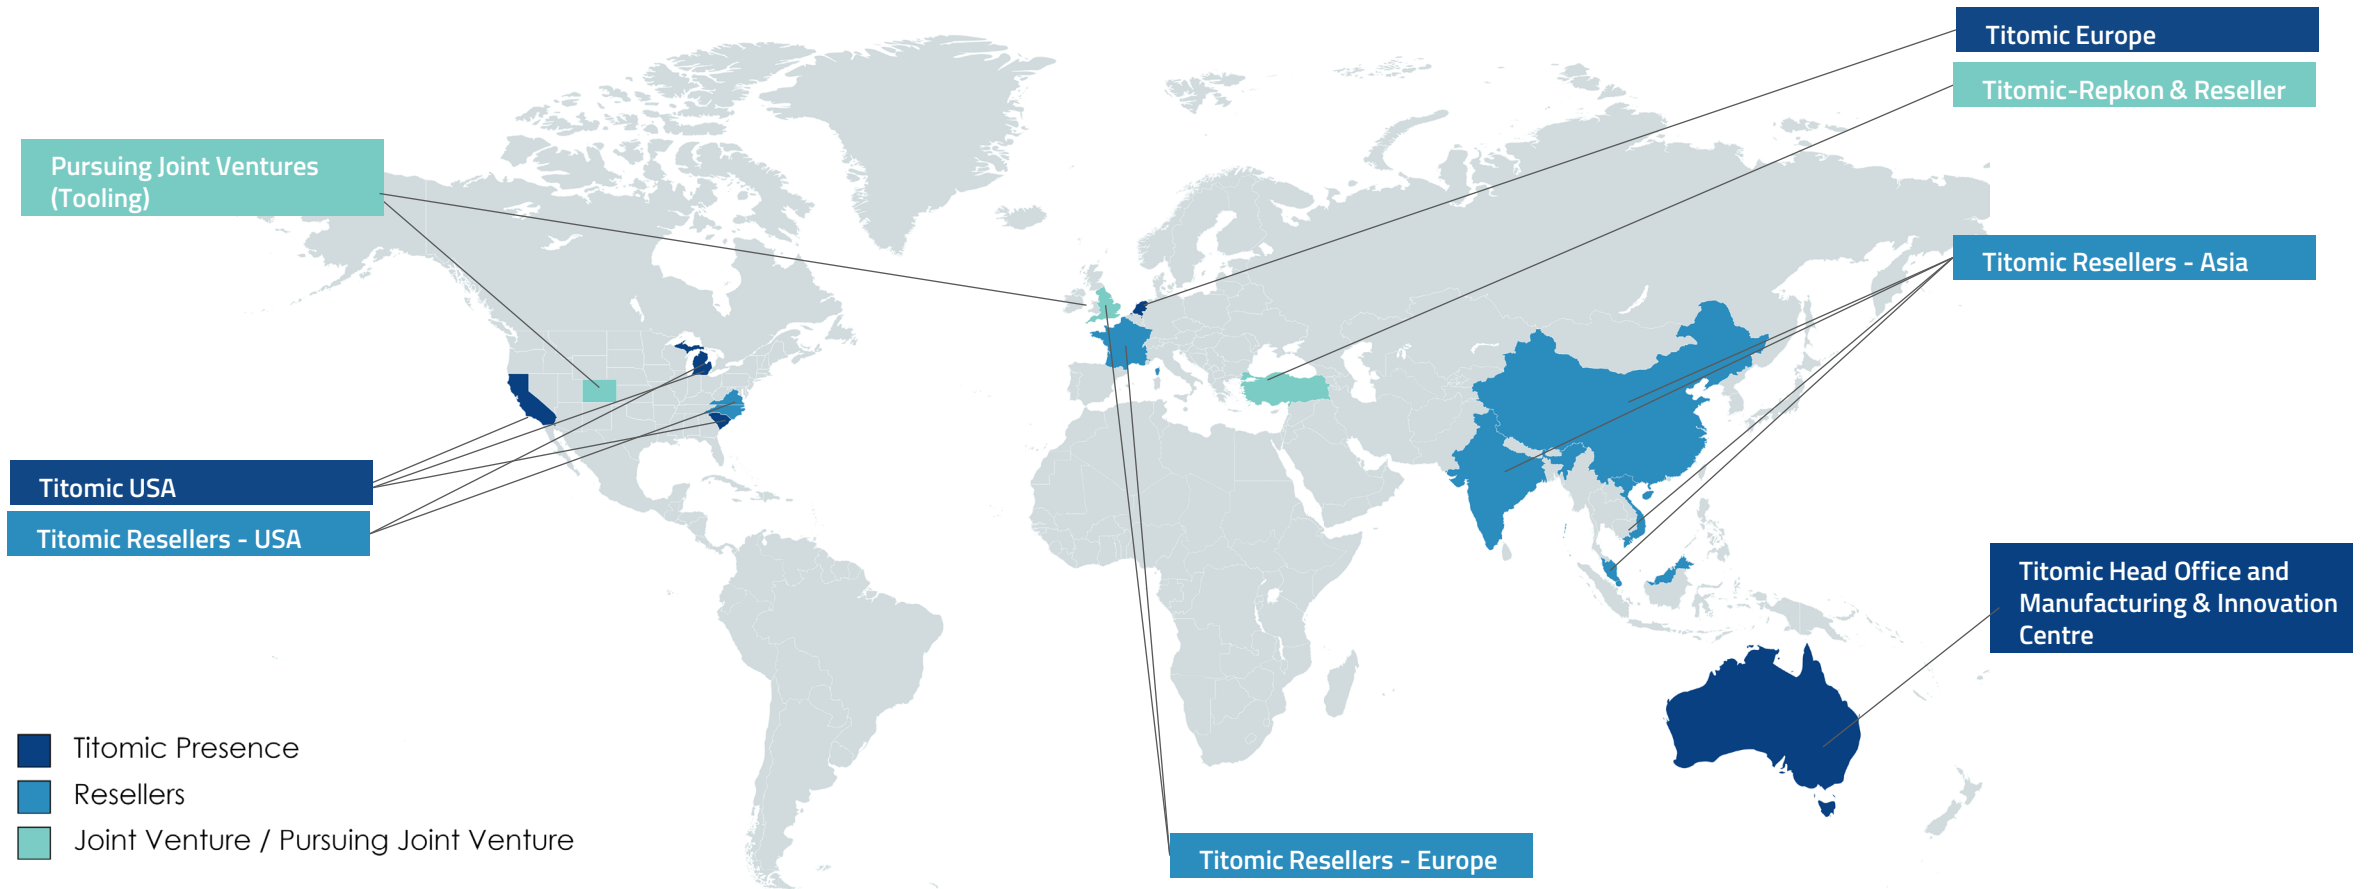

Further narrowed commercial focus

Scaling all revenue-generating activities across all active regions

Global production, supply and service network to meet our customer's needs with 11 resellers across USA,

Defined product and solutions portfolio to target customers

TKF Custom

- High pressure Cold Spray additive manufacturing and coating
- Demonstration of Titomic's ability to engineer and construct bespoke AM systems
- Build volume of 40.5m³
- Deployed in the Titomic Melbourne Production Bureau

TKF 1000

- High pressure Cold Spray additive manufacturing and coating
- Designed for prototyping and low volume production tasks
- Build volume of 0.75m³
- 1st gen system operating at Titomic Melbourne Bureau
- 2nd gen system at TWI (UK)

ISB Series

- Low pressure Cold Spray coating
- Robotic or linear coating system
- Automated loading and unloading of parts
- Utilises D523 core cold spray system
- Ideal for R&D deployment or as a base for customised automated coating systems

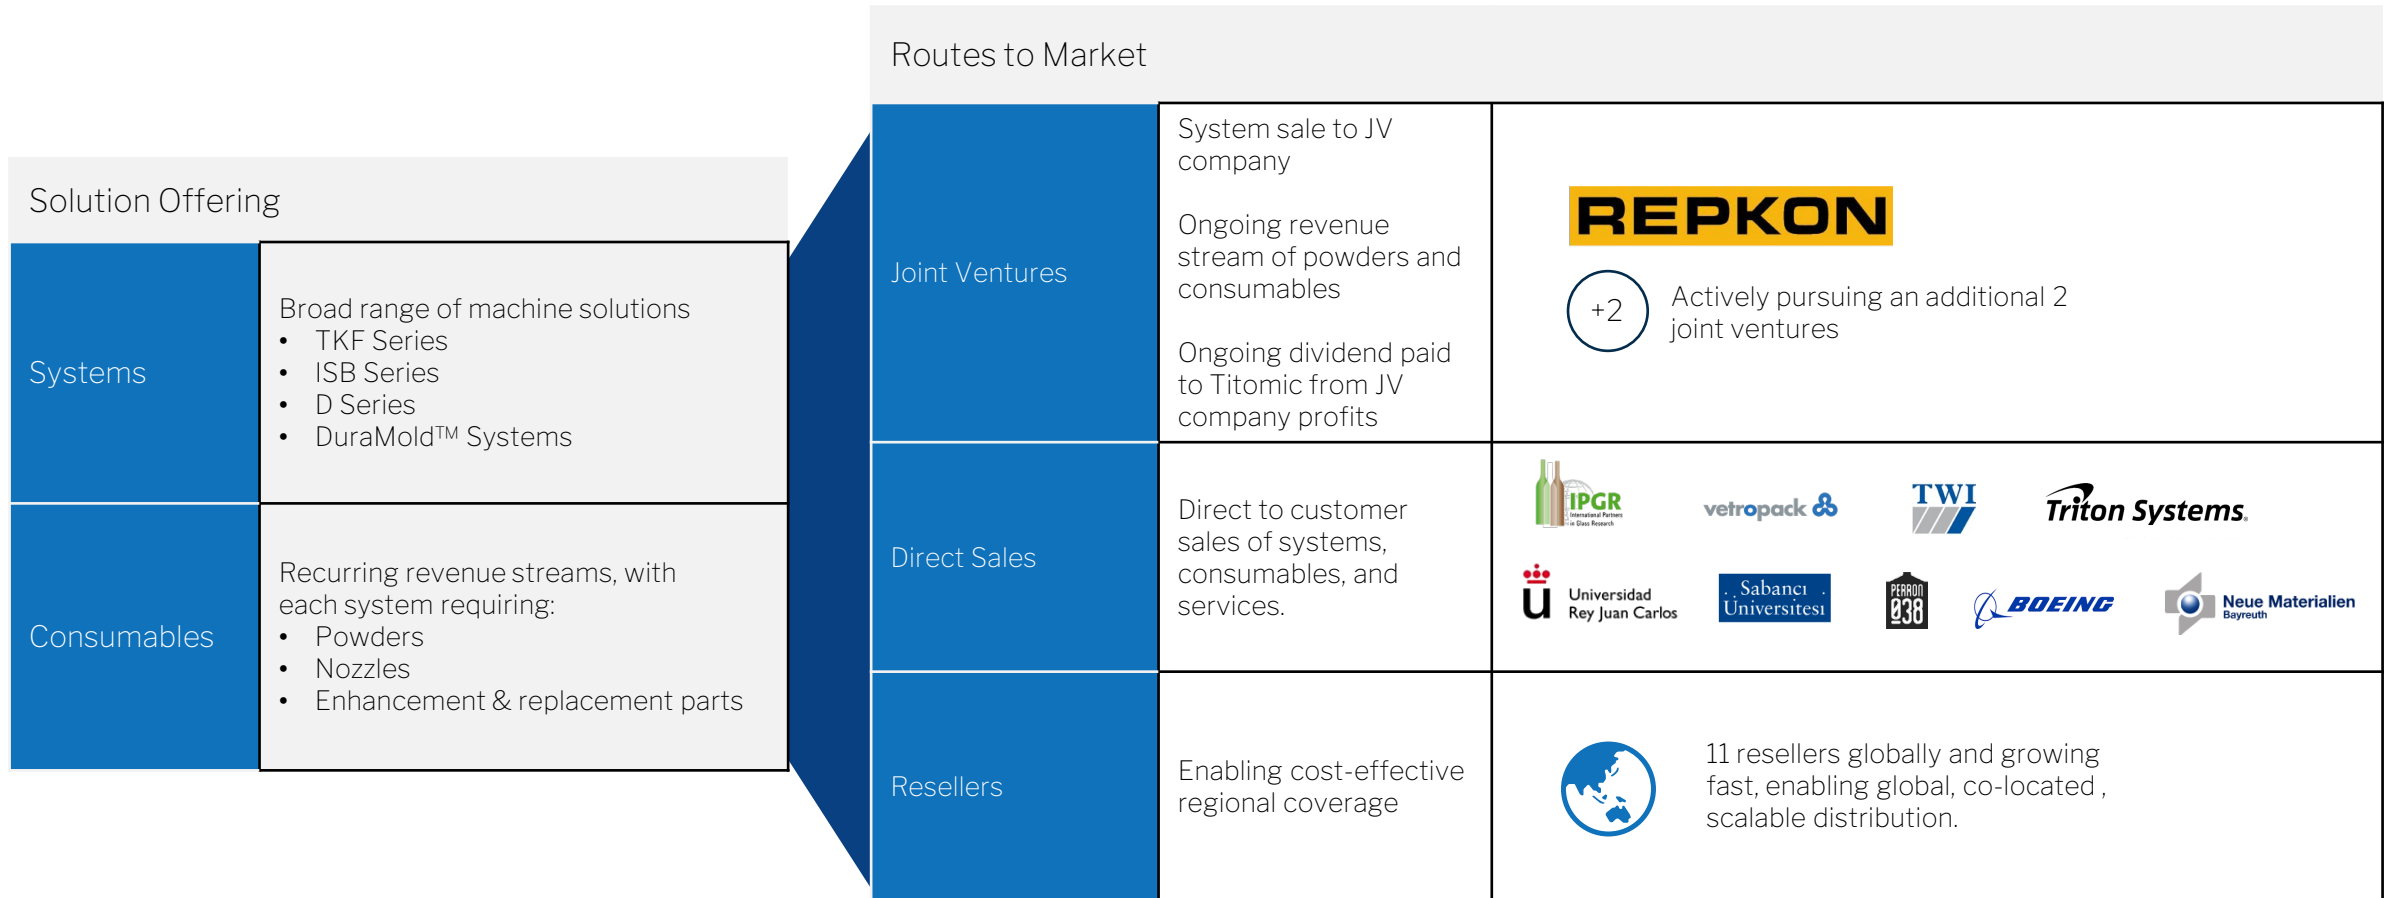

D523 & D623

- Low and Medium pressure Cold Spray coating
- Modular portable repair system
- Designed for robotic or manual repair and coatings
- Deployable for in-field repairs

Route to markets enabling growth in all regions

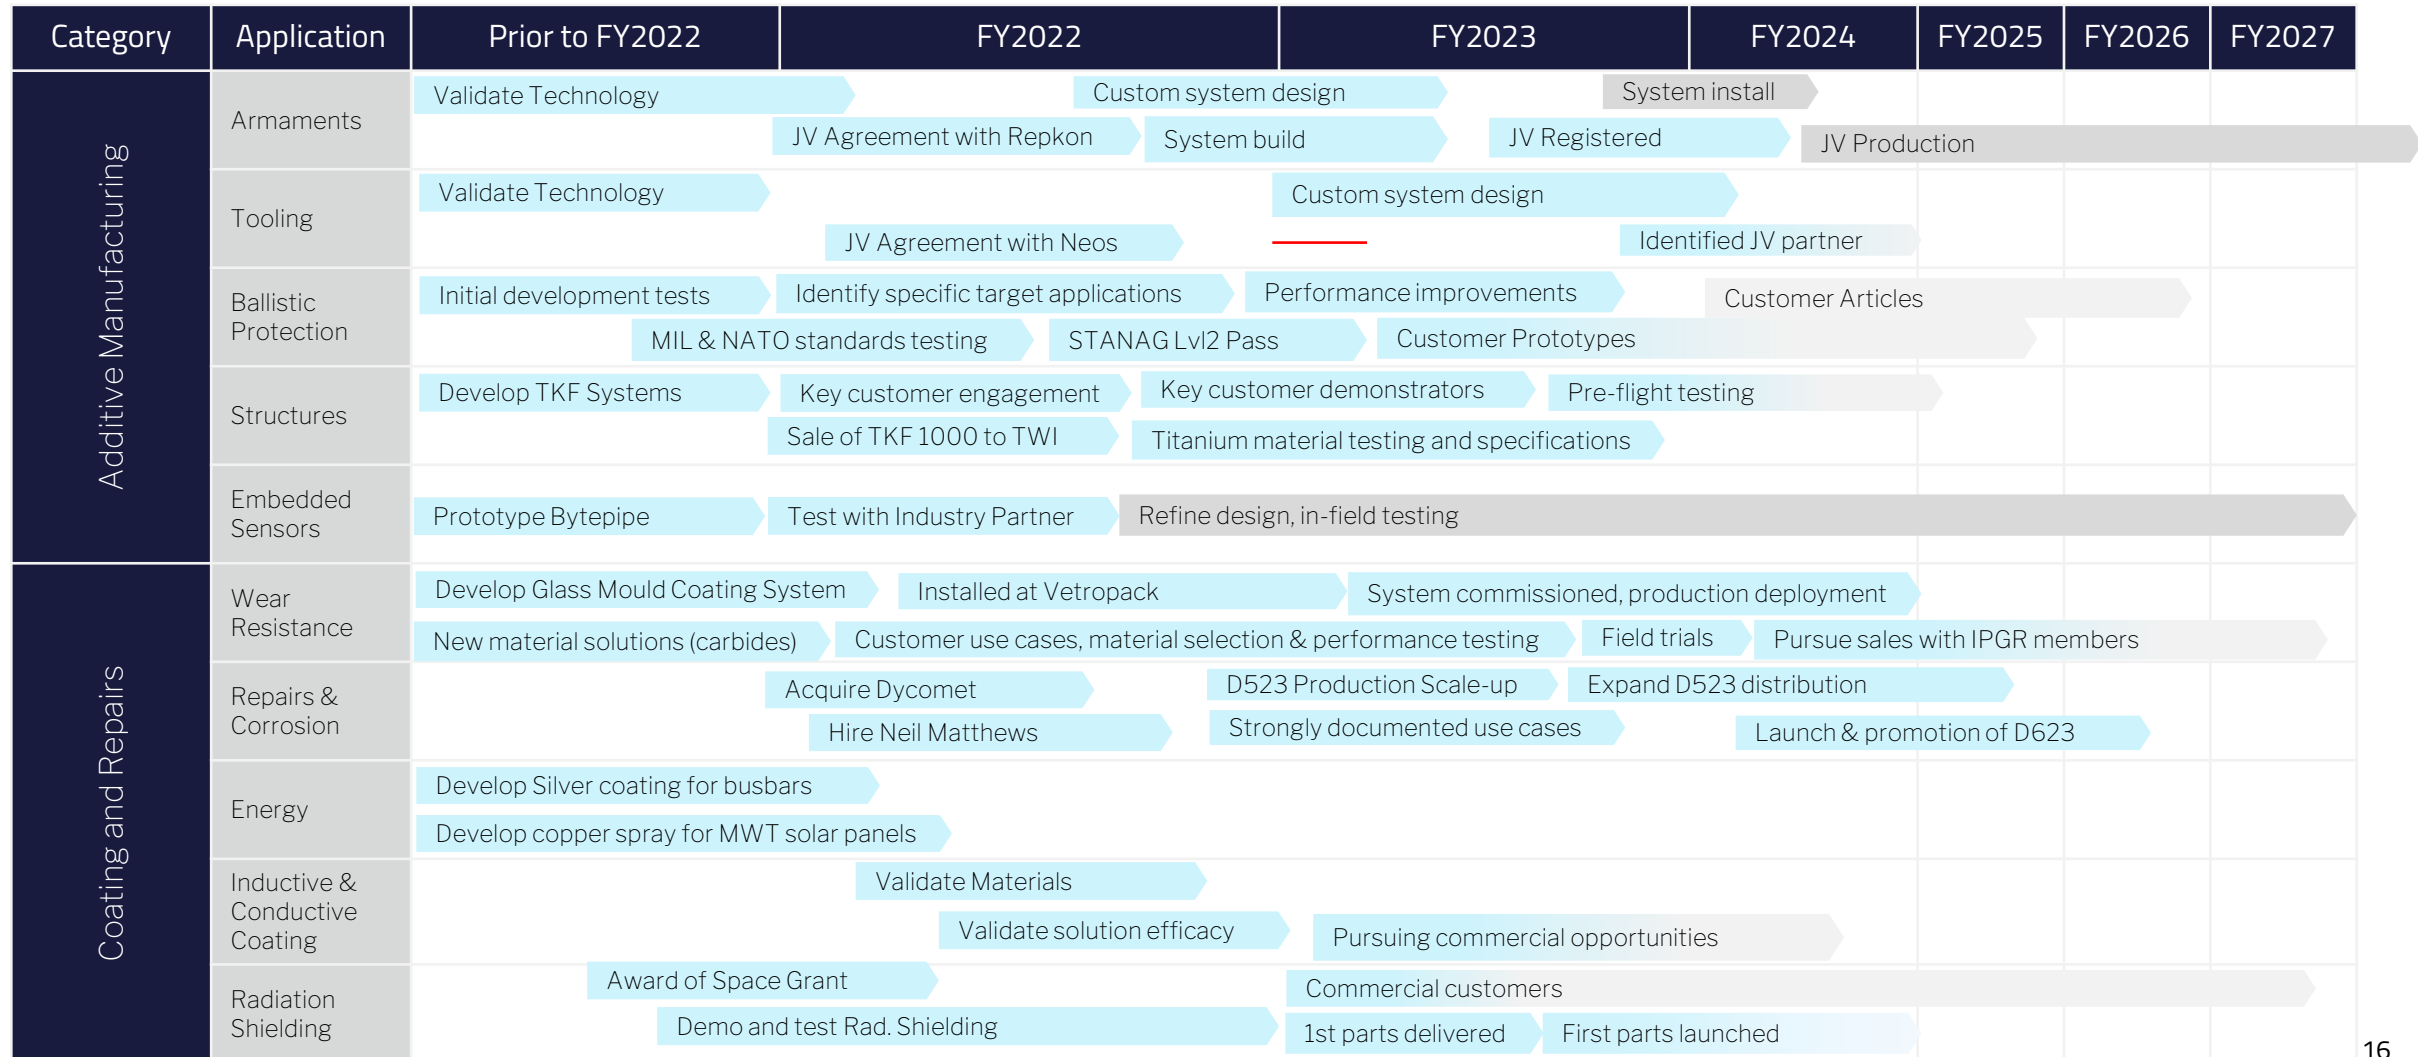

Systems and consumables, with multiple routes to market.

Proven track record of execution

Performance to plan with progress across focus applications

Trusted by a global, growing customer base

Titomic Remains Optimistic for FY24

3 Steps to Success

1. Reduced ongoing costs by 30% ✓
2. Successful capital raise ✓
3. Accelerate commercialisation through successful sales ✓
 - a) Pipeline at record size and expanding
 - b) Reseller network growing rapidly
 - c) Clearly defined and efficient marketing
 - d) Defined product and solutions portfolio to target customers

Business Operations

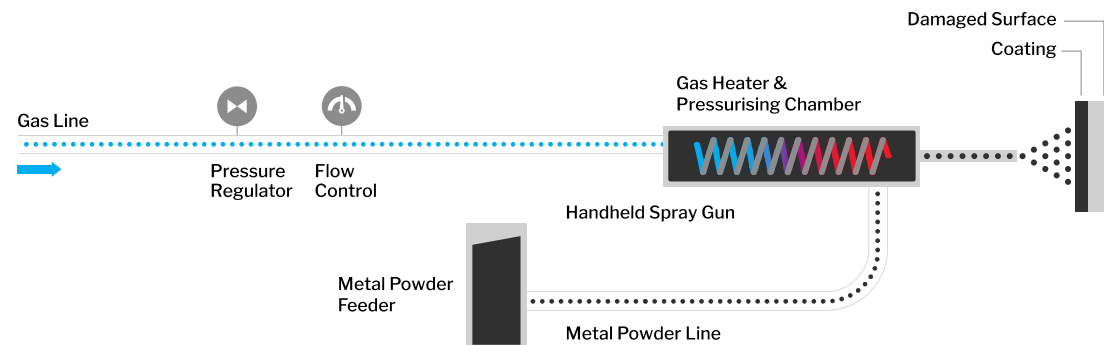

Our cold spray process

Robotic High-Pressure System for AM

Low to Medium Pressure System for Coating and Repair

Our story

- Founded in 2014 to commercialise cold gas spraying metal particles to produce 3D structures
- Now the only globally active, publicly listed cold spray solutions company
- Our cutting-edge technology and systems are changing manufacturing for the better

Structures – Additive Manufacturing

For lighter stronger titanium components

Why?

- Titanium is ideal for Cold Spray
- Multiple markets
 - Armaments
 - Ballistic protection
 - Space
- Total addressable market >\$47B

Done

- Boeing JP9102 Satellite Program
- Titanium tanks and valve body prototyping orders received
- Quotes to build manufacturing capacity

Next

- Execute paid prototyping projects (POs pending)
- Plan and execute manufacturing capability (Joint Venture)
- Execute paid prototyping projects with mining/oil & gas companies

Titanium Ring Partially machined

Titanium Ring 1.4m diameter

Seamless Titanium Tank

Manufacturing
made sustainable

Structures

Exploiting Titomic's technology and cost benefits for lightweight, rapidly manufactured components.

Coating & Repair

Titomic extending asset life

Why?

- Huge market opportunity of \$53b
 - Wear resistance: \$22b
 - Repair & Corrosion \$16b
 - Energy: \$14b

Done

- Expansion of reseller network
 - 2 new in US
 - 1 new in Europe
 - 1 new in Singapore
 - 1 new in Australia
- D523 machine sales accelerating
 - 22 sold already, with 1 sold in FY24
- Next generation D623 machine with higher pressure (new use cases) developed, introduced and sold 2 units.
- Large and growing demand for D623 within United States.

Next

- Continue expansion of reseller network to ensure geographic coverage and overcome distance and language barriers
- Refine solution offering by executing projects with mining/oil & gas companies

Coating and Repair

Targeting Mining, Oil & Gas, Transport and Marine Industries

Glass Mould Solution

DuraMold™

Why?

- Glass Bottle manufacturing market size (>200 companies)
- Very efficient solution developed in last 4 years with IPGR (Fevisa, Gallo, Vetropack)
- Business opportunity >\$25-35m in next 4 years

Done

- Solution development completed – 1st system sold and installed
- Successful site acceptance testing by TÜV Austria.
- Revenue recognised.

Next

- Investment conversations to support accelerated rollout for first 10-20 machines
- Develop and build product enhancements for automatic mould loading/unloading
- Develop and build product enhancements for automatic polishing and finishing.

Glass Equipment Coatings

Targeting glass manufacturing industries and enabling lower cost, safer, and more sustainable manufacturing.

Armaments & Tooling

Titomic enabling high performance, rapid manufacturing.

Armaments

Why?

- Armaments is large and growing market of \$16.9b
- Cold spray allows refinement of existing production methods and creation of new products (e.g. Inconel barrels)
- Very large and successful manufacturer, Repkon believes in Titomic

Done

- Multiple milestones achieved for Inconel barrels
- Machine configuration for Repkon JV completed
- Repkon invested again in December 2022 capital raise

Next

- Machine orders to establish Repkon JV pending
- Continue optimisation for existing flow forming/cold spray process
- Expand to new form factors – larger barrels

Tooling

Why?

- Total addressable market for Invar36 tooling \$700m
- Cold spraying of tools with invar has attractive commercial benefits (cost, time to market, performance)

Done

- Board and management assigned
- Joint Venture discussions with US company ongoing

Next

- Location for US JV pending (choice of multiple sites)
- Expansion to India pending
- Joint venture discussions with British tooling manufacturer ongoing.

Barrels

Targeting the global defence industry

Tooling

Targeting tooling for aerospace production

Tooling

Titomic enabling a simplified supply chain

Why?

- Total addressable market for Invar36 tooling \$700m
- Cold spraying of tools with invar has attractive commercial benefits (cost, time to market, performance)

Done

- Machine configuration for Neos Titomic JV completed
- Joint venture company founded and registered in UK
- Board and management assigned
- Joint Venture discussions with US company ongoing

Next

- Machine order for Neos Titomic JV pending
- Location for US JV pending (choice of multiple sites)
- Expansion to India pending
