## ABOUT SENETAS

Senetas is a global leader in high-performance encryption security solutions. Senetas cybersecurity solutions are developed and manufactured in Australia. **Senetas high-speed encryptors** protect network data in transit without compromising performance. They include certified high-assurance hardware encryptors for core IT network infrastructure and virtualised encryption to the network edge. For secure user-friendly file sharing and collaboration, **SureDrop** is the most secure application also providing 100% data sovereignty control and protection against malware and zero-day attacks.

All Senetas solutions share a crypto-agile and quantum-ready end-to-end encryption platform.

Senetas solutions are used to protect much of the world's most sensitive data, from enterprise, government, defence and intelligence agency data, to technology service provider and critical national infrastructure customers against data breaches and cyber-attacks. Leveraging end-to-end encryption, state-of-the-art key management and quantum-ready design, they provide long-term data protection without compromising network and application performance, or user experience.

Senetas encryption solutions are used in more than 40 countries. They are distributed and supported internationally by Thales, the world's largest security company.
