11 October 2023

EXCITE CYBER EXPANDS MARKET ACCESS VIA NEW AGREEMENT WITH VOCUS

Excite Technology Services Limited [ASX:EXT] (**the Company**) is pleased to announce that its wholly owned subsidiary Brace168 Pty Ltd (now trading as Excite Cyber) has entered into an expanded agreement with leading specialist fibre and network solutions provider Vocus Pty Limited (Vocus).

The agreement will allow Vocus to now on-sell services provided by the Company to its customers. This new agreement extends the master services agreement previously announced to the market in October 2021 to include resale of Managed Detection and Response (MDR) and other related Company Services.

Excite Technology Services CEO Bryan Saba said:

"We are very pleased to be able to extend our longstanding arrangement with Vocus to now be able to offer our services to their customers. Vocus has a strong presence in the medium enterprise market and having them as a channel partner will open up a multitude of opportunities that Excite Cyber could not otherwise access."

Vocus and the Company are in the final stages of deploying and testing the new services, and have a number of live opportunities in progress.

Services are expected to be in market in the coming quarter.
