

BLUECHIIP LIMITED

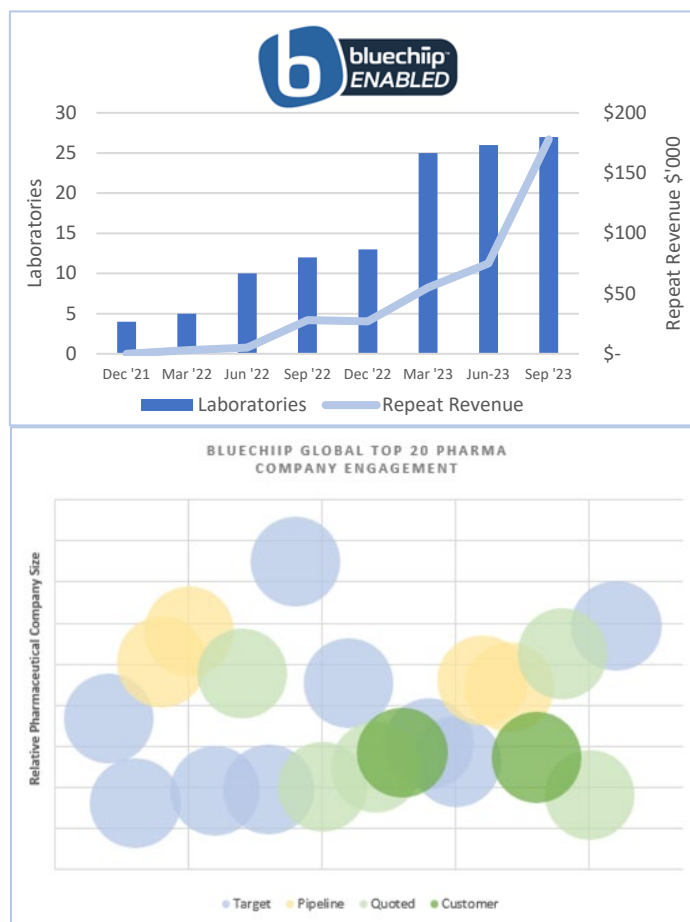

SEPTEMBER 2023 QUARTERLY CASH FLOW REPORT

Bluechiip Limited (**Bluechiip** or the **Company**) (**ASX: BCT**), a leader in the development of advanced sample management solutions for harsh environments, is pleased to release the Company's Appendix 4C - Quarterly Cashflow report and update for the quarter ended 30 September 2023.

ACTIVITIES REPORT FOR THE QUARTER ENDED 30 SEPTEMBER 2023

Corporate and Business updates for the quarter

- Successfully completed a capital raise of \$1.632m via a placement subsequent to September 2023 quarter;
- Recorded sales of \$200k and cash receipts from customers of \$267k for the first quarter in FY24;
- Number of laboratories serviced doubled and repeat sales have tripled year on year to September 2023;
- 16 end-users have now ordered Bluechiip products across their 27 laboratories (compared to 12 laboratories at the same time last year);
- Repeat revenue from those customers rose 117% to \$163,000;
- Bluechiip solution in use in two global big pharma companies in the USA and EU and an IVY League institution in New York;
- North American sales and marketing team continue to work on acceleration of pipeline opportunities to over 50 potential customers;
- Successfully obtained notice of registration for the refundable R&D Tax Incentive for FY23 with circa \$930k expected to be received; and
- Subsequent to successful placement on 18 Oct 2023, cash and cash equivalents stand at \$1.976m on a proforma basis.

Additional information

The Company successfully completed a capital raise through a placement to institutional, sophisticated and professional investors for 77,703,329 new ordinary fully paid shares at an issue price of \$0.021 per ordinary in Bluechiip, that raised \$1.632m (**Placement**). With the exception of subscriptions by Chairman Iain Kirkwood, Managing Director Andrew McLellan and Non-Executive Director Michael Ohanessian (\$50k, \$15k and \$25k respectively, which are subject to shareholders approval at the Company's next general meeting), \$1.542m was fully received. The proceeds of \$1.542m received was prior to defraying management and selling fees in relation to the Placement.

During the quarter, Mr. Kirkwood provided an interest free, unsecured loan to the Company of A\$100,000, with the loan being repaid by offsetting the May Placement consideration should shareholders approve Resolution 5 at the Company's 2023 Annual General Meeting.

During the quarter, the Company recorded sales of goods and engineering services of \$200k (Q4 2023: \$171k). The Company also recorded cash receipts from customers for the quarter ended 30 September 2023 of \$267k (Q4 2023: \$164k) for sales of products and engineering services.

The Company continues to actively engage with customers mainly in North America through its expanded sales and marketing team who is aggressively pursuing new business opportunities, building its pipeline, target customer engagement and sales closure.

Bluechiip's new range of consumables and Advanced Sample Management Solutions continue to receive strong interest. Since product launch in the December quarter 2021 end-customer use has grown, with orders from 16 customers for use in their 27 operating laboratories.

Notably, these customers are beginning to generate recurring revenue, with \$163k in September 2023 quarter up from \$75k in June 2023 quarter, \$55k in the March 2023 quarter and \$24k in December 2022 quarter. These orders are for both Bluechiip enabled consumables, additional readers and hardware and software licences. The Bluechiip-enabled solution is embedded into their high-value sample inventory management processes.

Customer end markets include large pharmaceutical, cell therapy, clinical trial and research organisations, with significant opportunities to organically expand Bluechiip's footprint and usage. The adoption by laboratories of Bluechiip-enabled solutions has grown steadily since launch, from four in the December 2021 quarter to 26 in the June 2023 quarter.

The Company continues to advance its discussions and negotiations with potential OEMs in pursuit of OEM partner agreements while maintaining a focus on building our direct end customer business in North America.

During the quarter, Bluechiip's investment in the right people continues to see staff costs leading the cash outflow items: \$1.210m (Q4 Jun 23: \$1.147m). Also dominating the cashflow items are manufacturing costs, sales and marketing expenses, and administration and corporate expenses: \$325k (Q4 Jun 23: \$276k), \$107k (Q4 Jun 23: \$220k), and \$244k (Q4 Jun 23: \$191k) respectively.

During the quarter, the Company made a drawdown of \$250,000 loan from an advance facility from Asymmetric Innovation Finance Pty Limited secured by R&D tax incentive 2023/2024 receivable. An interest rate of 16% per annum is calculated and payable monthly on the amount drawn down. The

Tuesday, 31 October 2023

additional drawdown of \$250,000 brings the total loan liability of the Company to \$900,000. The Company will make a settlement of \$650,000 towards the first R&D Advance from R&D tax incentive 2022/2023 expected to be received sometime during Q2 Dec 24.

In the coming quarter, further to the proceeds of \$1.542m from the Placement and R&D tax incentive refundable of circa \$930k, the Company expects to generate receipts from sales made to customers it is working on and debtors which it is closely monitoring.

Outlook

The Company continues to respond to market conditions, including:

- Landing new direct customers with new installations, as well as meeting repeat orders from existing customers for Bluechiip Advanced Sample Management Solutions, including Bluechiip-enabled consumables, readers and software for the global biobanking market directly into North America and Australia/New Zealand and through distribution partners globally;
- Expanding through existing customers sites into additional potential laboratories and also into additional applications within customer sites;
- Progressing execution of the development activities under the licence and development agreement with FujiFilm Irvine Scientific with a continuous active pursuit of a subsequent supply agreement;
- Progressing towards OEM partner agreements with potential OEMs including in the pharmaceutical, cell therapy and target biobanking space, sectors that have gained significant traction for the Company's products and solutions; and
- Managing existing cash reserves, in line with the Company's overall strategy. The cash will be allocated to scaling the production of readers and Bluechiip-enabled consumables as anticipated demand increases. Cash resources will also be channelled in driving its sales and marketing activities with the aim of anticipated sales closure supported through its growing North American sales and marketing team.

About Bluechiip Limited

Bluechiip understands that every biological sample – stem cells, blood, eggs, sperm and other biospecimens – is critical, so our objective is to manage each one with optimal quality in the most efficient way. Bluechiip's Advanced Sample Management Solution is the only one that provides sample temperature with ID in cryogenic environments, driving productivity and improving quality. Bluechiip's solution delivers confidence in every sample.

Bluechiip's unique patented technology is a MEMS-based wireless tracking solution that contains no electronics. It represents a generational change from current tracking methods such as labels (hand-written and pre-printed), barcodes (linear and 2D), and Radio Frequency Identification. Bluechiip tags are either embedded or manufactured into storage products such as vials or bags. Each product is easily identified and critical information, such as sample temperature, detected by readers and stored in the Bluechiip software. In addition to functioning in extreme temperatures, the Bluechiip[®] Advanced Sample management solution can survive autoclaving, gamma irradiation sterilization, humidification, centrifuging, cryogenic storage and frosting.

Bluechiip listed on the ASX in June 2011. Since then, it has significantly developed its technology. Today Bluechiip's Technology has applications in healthcare, including in cryogenic storage facilities (biobanks and biorepositories), pathology, clinical trials and forensics. Other key markets include cold-chain logistics/supply chain, security/defence, industrial/manufacturing and aerospace/aviation.

Bluechiip: Delivering confidence in every sample.

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(1,607)
8.2 Cash and cash equivalents at quarter end (item 4.6)	426
8.3 Unused finance facilities available at quarter end (item 7.5)	379
8.4 Total available funding (item 8.2 + item 8.3)	805
8.5 Estimated quarters of funding available (item 8.4 divided by item 8.1)	0.50
<i>Note: if the entity has reported positive net operating cash flows in item 1.9, answer item 8.5 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.5.</i>	

8.6 If item 8.5 is less than 2 quarters, please provide answers to the following questions:

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No

The Company is expected to receive proceeds from expected sales to its customers in the coming quarters. The Company is expected to also receive its R&D Tax Incentive refundable from the FY 23 R&D Tax Incentive registration.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes.

Bluechiip successfully completed a capital raise of \$1.632m from the equity capital market via a Placement announced on 18 Oct 2023,

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes.

The Company is expected to continue its operations which is supported by the proceeds from sales to be made, FY 23 R&D Tax Incentive refundable expected to be received and also the recent proceeds received from Placement.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
