ASX Announcement

1 December 2023

Service Stream Contracts Update

Leading essential network services company Service Stream Limited (ASX: SSM) is pleased to announce that it has recently secured extensions across several major operation and maintenance contracts servicing the telecommunications and utility sectors, with a combined value of approximately \$540 million over their respective terms.

Optus Wireless

The Company's Telecommunications Division has secured a three-year contract extension to its national wireless agreement with Optus. Under the agreement, Service Stream will continue to support Optus with the provision of site acquisition, design, construction, and upgrade services across their national wireless infrastructure networks.

Multinet Gas Networks

In Victoria, Service Stream is proud to have secured a three-year contract extension with Multinet Gas Networks. Under the agreement, the Company will continue to provide specialist operations, maintenance and capital works across Multinet's Victorian gas network supporting over 700,000 residential, commercial and industrial customers.

Energy Queensland

Service Stream's Utility Division has secured a three-year extension and scope expansion across its existing metering services agreement with Energy Queensland. The agreement expands the Company's metering services operations to incorporate two additional regions: South East Queensland and North Queensland, complementing the current works across Energy Queensland's Southern Region.

Managing Director, Leigh Mackender said: *"Service Stream is delighted to have secured these significant operation and maintenance contract extensions and the expansion of works with our valued and long-term clients."*

"These major agreements are testament to our Group's strong operational performance and positive client relationships. The annuity-style revenues will further strengthen our secured work in hand profile and position the business well for continued profitable growth".
