### About Ittani Resources

Ittani Resources (ASX: ILT) is an ASX listed company exploring for the base metals and critical raw materials required to create a low emission future and has built a portfolio of advanced exploration projects in Queensland and Tasmania with multiple high quality, drill-ready targets.

Ittani has commenced drilling at the Orient Silver-Indium Project, part of its Herberton Project, in Northern Queensland. The drilling has returned outstanding intercepts of silver-lead-zinc-indium mineralisation, positioning Orient as Australia's most exciting silver-indium discovery.

Other projects include the Northern Base Metal, Southern Gold and Rookwood Projects in Queensland plus the Mt Read Project, a highly strategic 99km<sup>2</sup> licence in Tasmania's Mt Read Volcanics (MRV) Belt, located between the world-class Rosebery and Hellyer-Que River polymetallic (CuPbZn) precious metal rich volcanic hosted massive sulphide deposits.
