### Acorn Capital - Investment Update

"Australian equities were up strongly during the month of November after falling for three consecutive months, as global markets began to factor in a peak in interest rates as inflation showed signs of slowing, driving a sharp drop in bond yields.

The Small Ordinaries Index outperformed the broader market for the month, returning 7%. The rally was broad based, with all industry sectors except Energy (-3.3%) yielding strong positive returns. The strongest contributor was Healthcare (+16.6%), followed by Information Technology (+12.1%) and Financials -ex REITS (+11.2%).

ACQ paid a 4.25c fully franked dividend on 27 November 2023."

### Sector Exposures

### ACQ Objective

The Objective is to create a diversified portfolio of listed microcap companies and then to invest opportunistically in unlisted entities that offer better relative value. The performance objective for ACQ is to outperform the S&P/ASX Small Ordinaries Accumulation Index over the medium to long term.

### Dividend Intention

Acorn Capital Investment Fund Limited intends to pay annual dividends targeting at least 5% of closing post-tax NTA for each financial year, franked to the highest extent possible and without the Company incurring a liability.

Where the Company accumulates franking credits that the Board determines are in excess to its requirements it is the intent to distribute those excess credits by way of special dividends. This is subject to the Company having sufficient profit and cash flow to make such payments

### Investment Philosophy

The investment philosophy is based on a belief that there are pricing inefficiencies amongst emerging or microcap companies due to a lack of readily available external research conducted on such entities.

Acorn Capital believes that through a research driven investment process the pricing inefficiencies that exist in both listed microcaps and unlisted microcaps can be exploited to earn returns superior to those available in the broader market.

Unlisted microcap opportunities must be of better relative value on a risk-adjusted basis to displace existing listed portfolio investments in the corresponding sector.

### Investment Strategy

- Research-driven stock selection
- Economic sector diversified
- Style agnostic
- Long term investor
- Create diversified portfolios to reduce volatility

### Investment Manager profile

Acorn Capital was established in 1998 as a specialist investment manager in emerging Australian companies.

Acorn Capital distinguishes itself through its relatively large research and investment team with expertise across all industries as well as its provision of expansion capital to developing companies.

Through its strategies Acorn Capital can provide Investors with efficient off-index exposure to both public and private emerging companies.
