### About Respiri Limited

Respiri is an e-Health SaaS company supporting respiratory health management and Remote Patient Monitoring services. Its world-first technology detects wheeze, a typical symptom of asthma, COPD and respiratory disease to provide an objective measure of airway limitation. wheezo®, Respiri's innovative technology, comprises an eHealth app combined with a simple, easy to use, handheld device. wheezo® is the first smart device to help improve asthma management by monitoring wheeze and documenting symptoms, signs, triggers, weather conditions and medication use. The asthma management platform also facilitates the sharing of data with caregivers, physicians and other health care professionals.

Respiri's mission is to help improve quality of life for hundreds of millions of children and adults around the world and dramatically reduce hospital admissions and the economic burden of asthma. Respiri Limited's operations are based in Melbourne, Australia and in New York, USA.

For additional information about Respiri and its products, please visit [www.respiri.co](http://www.respiri.co)

Developed in Australia, with the support of respiratory specialists and other healthcare professionals, the innovative wheezo® device analyses breath sounds for wheeze, and the eHealth App assists patients with managing their asthma by tracking symptoms, triggers, medication use and geo-specific weather conditions. The platform has been designed to extend asthma management beyond the clinic and make it easy to share information with doctors and make appropriate adjustments to asthma action plans. Better active management may lead to better outcomes and improved quality of life for the asthma patient.
