1. Unaudited preliminary financial information.
2. Underlying EBITDA excludes the impact of FX, share based payments, transaction costs for the RIMAB acquisition and any one-off costs in relation to the cost-out program.
3. Constant currency basis assumes Q4 FY23 results are converted at the average foreign exchange rate for Q4 FY22. This removes the impact of changes in currency rates and allows comparison of IMEXHS's underlying operating performance.

Summary Q4 FY23¹ Cash Flow

\$'000	Q4 FY23	Q4 FY22
Net cash from (used in) operating activities	1,420	(96)
Net cash used in investing activities	(343)	(288)
Net cash from (used in) from financing activities	394	(339)
Net cash movement	1,471	(723)
Cash at the beginning of the period	882	2,713
Effects of exchange rate	9	(78)
Cash at the end of the period	2,362	1,912

1. Unaudited preliminary financial information.

- Closing cash balance of \$2.4m as at 31-Dec-23.
- Net cash from operating activities of \$1.4m; cash receipts of \$7.2m in Q4.
- Debt of \$0.2m repaid during Q4 and \$0.6m of new debt taken.

Progress in ARR

ARR as at 31 December 2023

- \$25.0m, up 27% vs pcp; up 1% on a constant currency basis
 - Radiology services - \$14.5m, up 38% vs pcp (\$10.5m at 31 Dec-22) and
 - Software - \$10.5m, up 14% vs pcp (\$9.2m at 31 Dec-22).

Constant currency basis assumes that historic results at each year end are converted at the 31 Dec-23 exchange rate. This removes the impact of changes in currency rates and allows comparison of IMEXHS's underlying operating performance. Adjustments to ARR are made as contracts move from estimates to actual volumes and as estimates are removed for any older contracts which are assessed as unlikely to proceed.
