**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION**

News Corporation (together with its subsidiaries, “News Corporation,” “News Corp,” the “Company,” “we” or “us”) is a global diversified media and information services company comprised of businesses across a range of media, including: digital real estate services, subscription video services in Australia, news and information services and book publishing.

***Basis of Presentation***

The accompanying unaudited consolidated financial statements of the Company, which are referred to herein as the “Consolidated Financial Statements,” have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments consisting only of normal recurring adjustments necessary for a fair presentation have been reflected in these Consolidated Financial Statements. Operating results for the interim period presented are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2024. The preparation of the Company’s Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts that are reported in the Consolidated Financial Statements and accompanying disclosures. Actual results could differ from those estimates.

Intercompany transactions and balances have been eliminated. Equity investments in which the Company exercises significant influence but does not exercise control and is not the primary beneficiary are accounted for using the equity method. Investments in which the Company is not able to exercise significant influence over the investee are measured at fair value, if the fair value is readily determinable. If an investment’s fair value is not readily determinable, the Company will measure the investment at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer.

The consolidated statements of operations are referred to herein as the “Statements of Operations.” The consolidated balance sheets are referred to herein as the “Balance Sheets.” The consolidated statements of cash flows are referred to herein as the “Statements of Cash Flows.”

The accompanying Consolidated Financial Statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2023 as filed with the Securities and Exchange Commission (the “SEC”) on August 15, 2023 (the “2023 Form 10-K”).

The Company’s fiscal year ends on the Sunday closest to June 30. Fiscal 2024 and fiscal 2023 include 52 weeks. All references to the three and six months ended December 31, 2023 and 2022 relate to the three and six months ended December 31, 2023 and January 1, 2023, respectively. For convenience purposes, the Company continues to date its Consolidated Financial Statements as of December 31.

**Recently Issued Accounting Pronouncements**

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). The amendments in ASU 2023-07 expand public entities’ segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss, an amount and description of other segment items and expanded interim disclosures that align with those required annually, among other provisions. ASU 2023-07 requires the amendments to be applied retrospectively and is effective for the Company for annual reporting periods beginning on July 1, 2024 and interim reporting periods beginning on July 1, 2025, with early adoption permitted. The Company is currently evaluating the impact ASU 2023-07 will have on its consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* (“ASU 2023-09”). The amendments in ASU 2023-09 require disaggregated disclosure of material categories in effective tax rate reconciliations as well as disclosure of income taxes paid by specific domestic and foreign jurisdictions. Additionally, the amendments eliminate certain disclosures currently required under Topic 740. ASU 2023-09 is effective for the Company for annual reporting periods beginning on July 1, 2025, with early adoption permitted. The Company is currently evaluating the impact ASU 2023-09 will have on its consolidated financial statements.

***Foxtel Group Debt Refinancing***

During the six months ended December 31, 2023, the Foxtel Group refinanced its A\$610 million 2019 revolving credit facility, A\$250 million term loan facility and tranche 3 of its 2012 U.S. private placement senior unsecured notes with the proceeds of a new A\$1.2 billion syndicated credit facility (the “2024 Foxtel Credit Facility”). The 2024 Foxtel Credit Facility consists of three sub-facilities: (i) an A\$817.5 million three year revolving credit facility (the “2024 Foxtel Credit Facility — tranche 1”), (ii) a US\$48.7 million four year term loan facility (the “2024 Foxtel Credit Facility — tranche 2”) and (iii) an A\$311.0 million four year term loan facility (the “2024 Foxtel Credit Facility — tranche 3”). In addition, the Foxtel Group amended its 2017 working capital facility to extend the maturity to August 2026 and modify the pricing.

Depending on the Foxtel Group’s net leverage ratio, (i) borrowings under the 2024 Foxtel Credit Facility — tranche 1 and 2017 working capital facility bear interest at a rate of the Australian BBSY plus a margin of between 2.35% and 3.60%; (ii) borrowings under the 2024 Foxtel Credit Facility — tranche 2 bear interest at a rate based on a Term SOFR formula, as set forth in the 2024 Foxtel Credit Agreement, plus a margin of between 2.50% and 3.75%; and (iii) borrowings under the 2024 Foxtel Credit Facility — tranche 3 bear interest at a rate of the Australian BBSY plus a margin of between 2.50% and 3.75%. All tranches carry a commitment fee of 45% of the applicable margin on any undrawn balance during the relevant availability period. Tranches 2 and 3 of the 2024 Foxtel Credit Facility amortize on a proportionate basis in an aggregate annual amount equal to A\$35 million in each of the first two years following closing and A\$40 million in each of the two years thereafter.

The agreements governing the Foxtel Debt Group’s external borrowings contain customary affirmative and negative covenants and events of default, with customary exceptions, including specified financial and non-financial covenants calculated in accordance with Australian International Financial Reporting Standards. Subject to certain exceptions, these covenants restrict or prohibit members of the Foxtel Debt Group from, among other things, undertaking certain transactions, disposing of certain properties or assets (including subsidiary stock), merging or consolidating with any other person, making financial accommodation available, giving guarantees, entering into certain other financing arrangements, creating or permitting certain liens, engaging in transactions with affiliates, making repayments of certain other loans and undergoing fundamental business changes. In addition, the agreements require the Foxtel Debt Group to maintain a ratio of net debt to Earnings Before Interest, Tax, Depreciation and Amortization (“EBITDA”), as adjusted under the applicable agreements, of not more than 3.25 to 1.0. The agreements also require the Foxtel Debt Group to maintain a net interest coverage ratio of not less than 3.5 to 1.0. There are no assets pledged as collateral for any of the borrowings.

***REA Group Debt***

***REA Group Debt Refinancing***

During the six months ended December 31, 2023, REA Group entered into a new unsecured syndicated credit facility (the “2024 REA Credit Facility”) which replaces the 2022 Credit Facility and consists of two sub-facilities: (i) a five-year A\$400 million revolving loan facility (the “2024 REA Credit Facility—tranche 1”) which was used to refinance tranche 1 of the 2022 Credit Facility and (ii) an A\$200 million revolving loan facility representing the continuation of tranche 2 of the 2022 Credit Facility (the “2024 REA Credit Facility—tranche 2”). REA Group may request increases in the amount of the 2024 REA Credit Facility up to a maximum amount of A\$500 million, subject to the terms and limitations set forth in the syndicated facility agreement.

Borrowings under the 2024 REA Credit Facility — tranche 1 accrue interest at a rate of the Australian BBSY plus a margin of between 1.45% and 2.35%, depending on REA Group’s net leverage ratio. Borrowings under the 2024 REA Credit Facility — tranche 2 continue to accrue interest at a rate of the Australian BBSY plus a margin of between 1.15% and 2.25%, depending on REA Group’s net leverage ratio. Both tranches carry a commitment fee of 40% of the applicable margin on any undrawn balance.

The syndicated facility agreement governing the 2024 REA Credit Facility requires REA Group to maintain (i) a net leverage ratio of not more than 3.5 to 1.0 and (ii) an interest coverage ratio of not less than 3.0 to 1.0. The agreement also contains certain other customary affirmative and negative covenants and events of default. Subject to certain exceptions, these covenants restrict or prohibit REA Group and its subsidiaries from, among other things, incurring or guaranteeing debt, disposing of certain properties or assets, merging or consolidating with any other person, making financial accommodation available, entering into certain other financing arrangements, creating or permitting certain liens, engaging in non arms’ length transactions with affiliates, undergoing fundamental business changes and making restricted payments.

*Subsidiary Financing*

During the six months ended December 31, 2023, REA Group entered into an A\$83 million unsecured bilateral revolving credit facility (the “2024 Subsidiary Facility”). Proceeds of the 2024 Subsidiary Facility will be used to refinance an existing facility at one of its subsidiaries and to fund its business of providing short-term financing to real estate agents and vendors.

Borrowings under the 2024 Subsidiary Facility accrue interest at a rate of the Australian BBSY plus a margin of 1.40% and undrawn balances carry a commitment fee of 40% of the applicable margin. The facility agreement governing the 2024 Subsidiary Facility permits the lender to cancel its commitment and declare all outstanding amounts immediately due and payable after a consultation period in specified circumstances, including if certain key operating measures of its subsidiary fall below the budgeted amount for two consecutive quarters. The agreement also contains certain other customary affirmative and negative covenants and events of default that are similar to those governing the 2024 REA Credit Facility.

*Covenants*

The Company’s borrowings and those of its consolidated subsidiaries contain customary representations, covenants and events of default, including those discussed in the Company’s 2023 Form 10-K. If any of the events of default occur and are not cured within applicable grace periods or waived, any unpaid amounts under the applicable debt agreements may be declared immediately due and payable. The Company was in compliance with all such covenants at December 31, 2023.

The manner, timing, number and share price of any repurchases will be determined by the Company at its discretion and will depend upon such factors as the market price of the stock, general market conditions, applicable securities laws, alternative investment opportunities and other factors. The Repurchase Program has no time limit and may be modified, suspended or discontinued at any time. As of December 31, 2023, the remaining authorized amount under the Repurchase Program was approximately \$522 million.

The timing, declaration, amount and payment of future dividends to stockholders, if any, is within the discretion of the Board of Directors. The Board of Directors' decisions regarding the payment of future dividends will depend on many factors, including the Company's financial condition, earnings, capital requirements and debt facility covenants, other contractual restrictions, as well as legal requirements, regulatory constraints, industry practice, market volatility and other factors that the Board of Directors deems relevant.

**NOTE 7. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS**

In accordance with ASC 820, *Fair Value Measurements* ("ASC 820") fair value measurements are required to be disclosed using a three-tiered fair value hierarchy which distinguishes market participant assumptions into the following categories:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Observable inputs other than quoted prices included in Level 1. The Company could value assets and liabilities included in this level using dealer and broker quotations, certain pricing models, bid prices, quoted prices for similar assets and liabilities in active markets or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. For the Company, this primarily includes the use of forecasted financial information and other valuation related assumptions such as discount rates and long term growth rates in the income approach as well as the market approach which utilizes certain market and transaction multiples.

Under ASC 820, certain assets and liabilities are required to be remeasured to fair value at the end of each reporting period.

**NEWS CORPORATION**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

The following table summarizes those assets and liabilities measured at fair value on a recurring basis:

### Equity and other securities

The fair values of equity and other securities with quoted prices in active markets are determined based on the closing price at the end of each reporting period. These securities are classified as Level 1 in the fair value hierarchy outlined above. The fair values of equity and other securities without readily determinable fair market values are determined based on cost, less any impairment, plus or minus changes in fair value resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer. These securities are classified as Level 3 in the fair value hierarchy outlined above.

A rollforward of the Company's equity and other securities classified as Level 3 is as follows:

**Derivative Instruments**

The Company is directly and indirectly affected by risks associated with changes in certain market conditions. When deemed appropriate, the Company uses derivative instruments to mitigate the potential impact of these market risks. The primary market risks managed by the Company through the use of derivative instruments include:

- foreign currency exchange rate risk: arising primarily through Foxtel Debt Group borrowings denominated in United States (“U.S.”) dollars, payments for customer premise equipment, certain programming rights, product development costs and inventory purchases; and
- interest rate risk: arising from fixed and floating rate Foxtel Debt Group and News Corporation borrowings.

During the six months ended December 31, 2023, in connection with the 2024 Foxtel Credit Facility, the Company entered into (i) a cross-currency interest rate swap derivative with a notional amount of \$49 million to exchange the U.S. dollar-denominated floating rate interest component of its 2024 Foxtel Credit Facility — Tranche 2 for an Australian dollar-denominated fixed rate of 4.375% and (ii) interest rate swap derivatives with notional amounts totaling A\$610 million to exchange the floating rate interest component of the remaining tranches to fixed rates ranging from 4.248% to 4.338%. These cross-currency interest rate swap and interest rate swap derivatives are accounted for as cash flow hedges under ASC 815, *Derivatives and Hedging*.

During the six months ended December 31, 2023, the Company settled its hedges and derivatives related to the 2019 Credit facility and the 2012 U.S. private placement - USD portion - tranche 3. A gain of \$5 million was recognized in Other, net related to the settlement of cross-currency interest rate swap derivatives for which hedge accounting was previously discontinued, and a gain of \$7 million was recognized within Interest expense, net related to the remaining net derivative gains in Accumulated other comprehensive loss.

The Company formally designates qualifying derivatives as hedge relationships and applies hedge accounting when considered appropriate. The Company does not use derivative financial instruments for trading or speculative purposes.

Derivatives are classified as current or non-current in the Balance Sheets based on their maturity dates. Refer to the table below for further details:

*Cash flow hedges*

The Company utilizes a combination of interest rate derivatives, foreign currency derivatives and cross-currency interest rate derivatives to mitigate currency exchange rate risk and interest rate risk in relation to future interest and principal payments and payments for customer premise equipment, certain programming rights, product development costs and inventory purchases.

The total notional value of interest rate swap derivatives designated for hedging was approximately \$491 million and A\$610 million as of December 31, 2023 for News Corporation and Foxtel Debt Group borrowings, respectively. **Contingencies**

The Company routinely is involved in various legal proceedings, claims and governmental inspections or investigations, including those discussed below. The outcome of these matters and claims is subject to significant uncertainty, and the Company often cannot predict what the eventual outcome of pending matters will be or the timing of the ultimate resolution of these matters. Fees, expenses, fines, penalties, judgments or settlement costs which might be incurred by the Company in connection with the various proceedings could adversely affect its results of operations and financial condition.

The Company establishes an accrued liability for legal claims when it determines that a loss is probable and the amount of the loss can be reasonably estimated. Once established, accruals are adjusted from time to time, as appropriate, in light of additional information. The amount of any loss ultimately incurred in relation to matters for which an accrual has been established may be higher or lower than the amounts accrued for such matters. Legal fees associated with litigation and similar proceedings are expensed as incurred. Except as otherwise provided below, for the contingencies disclosed for which there is at least a reasonable possibility that a loss may be incurred, the Company was unable to estimate the amount of loss or range of loss. The Company recognizes gain contingencies when the gain becomes realized or realizable.

*News America Marketing*

In May 2020, the Company sold its News America Marketing business. In the transaction, the Company retained certain liabilities, including those arising from the legal proceeding with Insignia Systems, Inc. ("Insignia"). In July 2019, Insignia filed a complaint in the U.S. District Court for the District of Minnesota against News America Marketing FSI L.L.C., News America Marketing In-Store Services L.L.C. and News Corporation alleging violations of federal and state antitrust laws and common law business torts. The complaint sought treble damages, injunctive relief and attorneys' fees and costs. In July 2022, the parties agreed to settle the litigation and Insignia's claims were dismissed with prejudice.

**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

*HarperCollins*

Beginning in February 2021, a number of purported class action complaints have been filed in the U.S. District Court for the Southern District of New York (the “N.Y. District Court”) against Amazon.com, Inc. (“Amazon”) and certain publishers, including the Company’s subsidiary, HarperCollins Publishers, L.L.C. (“HarperCollins” and together with the other publishers, the “Publishers”), alleging violations of antitrust and competition laws. The complaints seek treble damages, injunctive relief and attorneys’ fees and costs. In September 2022, the N.Y. District Court granted Amazon and the Publishers’ motions to dismiss the complaints but gave the plaintiffs leave to amend. The plaintiffs filed amended complaints in both cases in November 2022, and in January 2023, Amazon and the Publishers filed motions to dismiss the amended complaints. In August 2023, the N.Y. District Court dismissed the complaints in one of the cases with prejudice. While it is not possible at this time to predict with any degree of certainty the ultimate outcome of these actions, HarperCollins believes it has been compliant with applicable laws and intends to defend itself vigorously.

*U.K. Newspaper Matters*

Civil claims have been brought against the Company with respect to, among other things, voicemail interception and inappropriate payments to public officials at the Company’s former publication, *The News of the World*, and at *The Sun*, and related matters (the “U.K. Newspaper Matters”). The Company has admitted liability in many civil cases and has settled a number of cases. The Company also settled a number of claims through a private compensation scheme which was closed to new claims after April 8, 2013.

In connection with the separation of the Company from Twenty-First Century Fox, Inc. (“21st Century Fox”) on June 28, 2013, the Company and 21st Century Fox agreed in the Separation and Distribution Agreement that 21st Century Fox would indemnify the Company for payments made after such date arising out of civil claims and investigations relating to the U.K. Newspaper Matters as well as legal and professional fees and expenses paid in connection with the previously concluded criminal matters, other than fees, expenses and costs relating to employees (i) who are not directors, officers or certain designated employees or (ii) with respect to civil matters, who are not co-defendants with the Company or 21st Century Fox. 21st Century Fox’s indemnification obligations with respect to these matters are settled on an after-tax basis. In March 2019, as part of the separation of FOX Corporation (“FOX”) from 21st Century Fox, the Company, News Corp Holdings UK & Ireland, 21st Century Fox and FOX entered into a Partial Assignment and Assumption Agreement, pursuant to which, among other things, 21st Century Fox assigned, conveyed and transferred to FOX all of its indemnification obligations with respect to the U.K. Newspaper Matters.

The net expense related to the U.K. Newspaper Matters in Selling, general and administrative was \$2 million and \$3 million for the three months ended December 31, 2023 and 2022, respectively, and \$5 million and \$9 million for the six months ended December 31, 2023 and 2022, respectively. As of December 31, 2023, the Company has provided for its best estimate of the liability for the claims that have been filed and costs incurred, including liabilities associated with employment taxes, and has accrued approximately \$81 million. The amount to be indemnified by FOX of approximately \$89 million was recorded as a receivable in Other current assets on the Balance Sheet as of December 31, 2023. It is not possible to estimate the liability or corresponding receivable for any additional claims that may be filed given the information that is currently available to the Company. If more claims are filed and additional information becomes available, the Company will update the liability provision and corresponding receivable for such matters.

The Company is not able to predict the ultimate outcome or cost of the civil claims. It is possible that these proceedings and any adverse resolution thereof could damage its reputation, impair its ability to conduct its business and adversely affect its results of operations and financial condition.

**NOTE 10. INCOME TAXES**

At the end of each interim period, the Company estimates its annual effective tax rate and applies that rate to ordinary quarterly earnings. The tax expense or benefit related to significant, unusual or extraordinary items that will be separately reported or reported net of their related tax effect are individually computed and recognized in the interim period in which those items occur. In addition, the effects of changes in enacted tax laws or rates or tax status are recognized in the interim period in which the change occurs.

**NEWS CORPORATION**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

For the three months ended December 31, 2023, the Company recorded income tax expense of \$94 million on pre-tax income of \$277 million, resulting in an effective tax rate that was higher than the U.S. statutory tax rate. The tax rate was impacted by foreign operations which are subject to higher tax rates and by valuation allowances recorded against tax benefits in certain businesses.

For the six months ended December 31, 2023, the Company recorded income tax expense of \$131 million on pre-tax income of \$372 million, resulting in an effective tax rate that was higher than the U.S. statutory tax rate. The tax rate was impacted by foreign operations which are subject to higher tax rates and by valuation allowances recorded against tax benefits in certain businesses.

For the three months ended December 31, 2022, the Company recorded income tax expense of \$61 million on pre-tax income of \$155 million, resulting in an effective tax rate that was higher than the U.S. statutory tax rate. The tax rate was impacted by foreign operations which are subject to higher tax rates and by valuation allowances recorded against tax benefits in certain businesses.

For the six months ended December 31, 2022, the Company recorded income tax expense of \$96 million on pre-tax income of \$256 million, resulting in an effective tax rate that was higher than the U.S. statutory tax rate. The tax rate was impacted by foreign operations which are subject to higher tax rates and by valuation allowances recorded against tax benefits in certain businesses.

Management assesses available evidence to determine whether sufficient future taxable income will be generated to permit the use of existing deferred tax assets. Based on management's assessment of available evidence, it has been determined that it is more likely than not that certain deferred tax assets may not be realized and therefore, a valuation allowance has been established against those tax assets.

The Company's tax returns are subject to on-going review and examination by various tax authorities. Tax authorities may not agree with the treatment of items reported in the Company's tax returns, and therefore the outcome of tax reviews and examinations can be unpredictable. The Company is currently undergoing an audit with the Internal Revenue Service for the fiscal year ended June 30, 2018, as well as audits with certain U.S. states and foreign jurisdictions. The Company believes it has appropriately accrued for the expected outcome of uncertain tax matters and believes such liabilities represent a reasonable provision for taxes ultimately expected to be paid. However, the Company may need to accrue additional income tax expense and its liability may need to be adjusted as new information becomes known and as these tax examinations continue to progress, or as settlements or litigations occur.

The Inflation Reduction Act ("IRA"), which was signed into law on August 16, 2022, imposes a 15% corporate minimum tax on corporations with over \$1 billion of financial statement income. The Company has evaluated the relevant provisions of IRA along with guidance issued by the U.S. Treasury Department and is not expected to be subject to the corporate minimum tax.

The Organization for Economic Co-operation and Development's ("OECD") Inclusive Framework on Base Erosion and Profit Shifting ("BEPS") has been working to develop an agreement on a two-pillar approach to help address tax challenges arising from taxation of the digital economy. The two-pillar approach seeks to (1) allocate profits to market jurisdictions ("Pillar One"), and (2) ensure multinational enterprises pay a minimum level of tax regardless of where they are headquartered or where they operate ("Pillar Two").

Pillar One targets multinational groups with global revenue exceeding 20 billion Euros and a profit-to-revenue ratio of more than 10%. Companies subject to Pillar One will be required to allocate their profits and pay taxes to market jurisdictions. Based on the current proposed revenue and profit thresholds, the Company does not expect to be subject to Pillar One taxes.

Pillar Two establishes a global minimum effective tax rate of 15% for multinational groups with annual global revenue exceeding 750 million Euros. On December 15, 2022, European Union Member States unanimously adopted a directive implementing the global minimum tax rules of Pillar Two requiring members to enact the directive into their national laws which are expected to begin going into effect for tax years beginning on or after January 1, 2024. The majority of the EU countries and the U.K. enacted the Pillar Two legislation in 2023. The Company is currently evaluating the potential impact of the Pillar Two global minimum tax proposals on its consolidated financial statements and related disclosures.

### *Announced Headcount Reduction*

In response to the macroeconomic challenges facing many of the Company's businesses, the Company implemented a number of cost savings initiatives, including the 5% headcount reduction announced in February 2023. The Company has notified substantially all of the affected employees and recognized associated cash restructuring charges of approximately \$106 million through December 31, 2023. Based on the actions taken, the Company expects to generate annualized gross cost savings of at least \$160 million, the majority of which will be reflected in fiscal 2024. See Note 3—Impairment and Restructuring Charges in the accompanying Consolidated Financial Statements.

### *Proposed Combination of U.K. Printing Operations*

In October 2023, News UK and DMG Media announced a proposed arrangement to combine certain printing operations of both companies within a separate joint venture. The Company believes this proposal would help improve the efficiency of News UK and DMG Media's print operations and establish a sustainable business model for national newspaper printing in the U.K. The proposed arrangement is subject to regulatory approval, and each company's print operations will remain separate until approval is granted.

**Revenues**— Revenues increased \$65 million, or 3%, and \$86 million, or 2%, for the three and six months ended December 31, 2023, respectively, as compared to the corresponding periods of fiscal 2023.

The revenue increase for the three months ended December 31, 2023 was primarily driven by increases at the Digital Real Estate Services segment due to higher Australian residential revenues at REA Group, partially offset by lower revenues at Move primarily due to the continued impact of the macroeconomic environment on the U.S. housing market, at the Dow Jones segment primarily due to higher professional information business revenues and at the Book Publishing segment due to higher digital sales and improved returns in the U.S. primarily driven by recovering consumer demand industry-wide and the absence of some logistical constraints at Amazon. The increases were partially offset by lower revenues at the News Media segment primarily due to lower advertising revenues. The impact of foreign currency fluctuations of the U.S. dollar against local currencies resulted in a revenue increase of \$13 million, or 1%, for the three months ended December 31, 2023 as compared to the corresponding period of fiscal 2023.

## Table of Contents

The revenue increase for the six months ended December 31, 2023 was primarily driven by the increase at the Book Publishing segment due to higher digital and physical book sales and improved returns in the U.S. primarily driven by recovering consumer demand industry-wide and the absence of the impact of Amazon's reset of its inventory levels and rightsizing of its warehouse footprint in the prior year, at the Dow Jones segment due to higher professional information business revenues and at the Digital Real Estate Services segment due to higher Australian residential revenues at REA Group, partially offset by lower revenues at Move primarily due to the continued impact of the macroeconomic environment on the U.S. housing market. These increases were partially offset by lower advertising revenues at the News Media segment. The impact of foreign currency fluctuations of the U.S. dollar against local currencies resulted in a revenue decrease of \$1 million for the six months ended December 31, 2023 as compared to the corresponding period of fiscal 2023.

The Company calculates the impact of foreign currency fluctuations for businesses reporting in currencies other than the U.S. dollar by multiplying the results for each quarter in the current period by the difference between the average exchange rate for that quarter and the average exchange rate in effect during the corresponding quarter of the prior year and totaling the impact for all quarters in the current period.

**Operating expenses**— Operating expenses decreased \$13 million, or 1%, for both the three and six months ended December 31, 2023 as compared to the corresponding periods of fiscal 2023.

The decrease in operating expenses for the three months ended December 31, 2023 was primarily driven by lower expenses at the Book Publishing segment primarily due to lower manufacturing, freight and distribution costs driven by product mix and the absence of prior year supply chain challenges and inventory and inflationary pressures and at the News Media segment primarily due to lower production costs at News UK driven by lower print volume and newsprint prices. These decreases were partially offset by higher expenses at the Subscription Video Services segment primarily due to higher sports programming rights costs due to contractual increases. The Company also benefited from gross cost savings related to the announced 5% headcount reduction initiative. The impact of foreign currency fluctuations of the U.S. dollar against local currencies resulted in an Operating expense increase of \$8 million, or 1%, for the three months ended December 31, 2023 as compared to the corresponding period of fiscal 2023.

The decrease in operating expenses for the six months ended December 31, 2023 was primarily driven by lower expenses at the Book Publishing segment primarily due to lower manufacturing, freight and distribution costs driven by product mix and the absence of prior year supply chain challenges and inventory and inflationary pressures and at the News Media segment primarily due to lower production at News UK driven by lower print volume and newsprint prices. The Company also benefited from gross cost savings related to the announced 5% headcount reduction initiative. The impact of foreign currency fluctuations of the U.S. dollar against local currencies resulted in an Operating expense increase of \$5 million for the six months ended December 31, 2023 as compared to the corresponding period of fiscal 2023.

**Selling, general and administrative**— Selling, general and administrative increased \$14 million, or 2%, and \$21 million, or 1%, for the three and six months ended December 31, 2023, respectively, as compared to the corresponding periods of fiscal 2023.

The increase in Selling, general and administrative for the three months ended December 31, 2023 was primarily driven by higher expenses at the Digital Real Estate Services segment primarily due to higher employee costs and broker commissions at REA Group and at the Book Publishing segment primarily due to higher employee costs. These increases were partially offset by the decrease at the Subscription Video Services segment due to lower technology and marketing costs and the absence of \$6 million of one-time costs related to the professional fees incurred by the Special Committee and the Company in connection with evaluating the proposal from the Murdoch Family Trust in the prior year. The Company also benefited from gross cost savings related to the announced 5% headcount reduction initiative. The impact of foreign currency fluctuations of the U.S. dollar against local currencies resulted in a Selling, general and administrative increase of \$5 million, or 1%, for the three months ended December 31, 2023 as compared to the corresponding period of fiscal 2023.

Management assesses available evidence to determine whether sufficient future taxable income will be generated to permit the use of existing deferred tax assets. Based on management's assessment of available evidence, it has been determined that it is more likely than not that certain deferred tax assets may not be realized and therefore, a valuation allowance has been established against those tax assets.

The Company's tax returns are subject to on-going review and examination by various tax authorities. Tax authorities may not agree with the treatment of items reported in the Company's tax returns, and therefore the outcome of tax reviews and examinations can be unpredictable. The Company believes it has appropriately accrued for the expected outcome of uncertain tax matters and believes such liabilities represent a reasonable provision for taxes ultimately expected to be paid. However, these liabilities may need to be adjusted as new information becomes known and as tax examinations continue to progress, or as settlements or litigations occur. See Note 10—Income Taxes in the accompanying Consolidated Financial Statements.

### Segment Analysis

Segment EBITDA is the primary measure used by the Company's chief operating decision maker to evaluate the performance of, and allocate resources within, the Company's businesses. Segment EBITDA is defined as revenues less operating expenses and selling, general and administrative expenses. Segment EBITDA does not include: depreciation and amortization, impairment and restructuring charges, equity losses of affiliates, interest (expense) income, net, other, net and income tax (expense) benefit. Segment EBITDA may not be comparable to similarly titled measures reported by other companies, since companies and investors may differ as to what items should be included in the calculation of Segment EBITDA. Segment EBITDA provides management, investors and equity analysts with a measure to analyze the operating performance of each of the Company's business segments and its enterprise value against historical data and competitors' data, although historical results may not be indicative of future results (as operating performance is highly contingent on many factors, including customer tastes and preferences).

Total Segment EBITDA is a non-GAAP measure and should be considered in addition to, not as a substitute for, net income (loss), cash flow and other measures of financial performance reported in accordance with GAAP. In addition, this measure does not reflect cash available to fund requirements and excludes items, such as depreciation and amortization and impairment and restructuring charges, which are significant components in assessing the Company's financial performance. The Company believes that the presentation of Total Segment EBITDA provides useful information regarding the Company's operations and other factors that affect the Company's reported results. Specifically, the Company believes that by excluding certain one-time or non-cash items such as impairment and restructuring charges and depreciation and amortization, as well as potential distortions between periods caused by factors such as financing and capital structures and changes in tax positions or regimes, the Company provides users of its consolidated financial statements with insight into both its core operations as well as the factors that affect reported results between periods but which the Company believes are not representative of its core business. As a result, users of the Company's consolidated financial statements are better able to evaluate changes in the core operating results of the Company across different periods.

Revenues at REA Group increased \$52 million, or 22%, to \$292 million for the three months ended December 31, 2023 from \$240 million in the corresponding period of fiscal 2023, primarily driven by higher Australian residential revenues due to price increases, increased depth penetration, favorable geographic mix and growth in national listings and higher financial services revenue, partially offset by the \$3 million, or 1%, negative impact of foreign currency fluctuations. Revenues at Move decreased \$19 million, or 13%, to \$127 million for the three months ended December 31, 2023 from \$146 million in the corresponding period of fiscal 2023, primarily driven by the continued impact of the macroeconomic environment on the housing market, including higher interest rates. ## LIQUIDITY AND CAPITAL RESOURCES

### *Current Financial Condition*

The Company's principal source of liquidity is internally generated funds and cash and cash equivalents on hand. As of December 31, 2023, the Company's cash and cash equivalents were \$1.7 billion. The Company also has available borrowing capacity under its revolving credit facility (the "Revolving Facility") and certain other facilities, as described below, and expects to have access to the worldwide credit and capital markets, subject to market conditions, in order to issue additional debt if needed or desired. The Company currently expects these elements of liquidity will enable it to meet its liquidity needs for at least the next 12 months, including repayment of indebtedness. Although the Company believes that its cash on hand and future cash from operations, together with its access to the credit and capital markets, will provide adequate resources to fund its operating and financing needs for at least the next 12 months, its access to, and the availability of, financing on acceptable terms in the future will be affected by many factors, including: (i) the financial and operational performance of the Company and/or its operating subsidiaries, as applicable, (ii) the Company's credit ratings and/or the credit rating of its operating subsidiaries, as applicable, (iii) the provisions of any relevant debt instruments, credit agreements, indentures and similar or associated documents, (iv) the liquidity of the overall credit and capital markets and (v) the state of the economy. There can be no assurances that the Company will continue to have access to the credit and capital markets on acceptable terms.

As of December 31, 2023, the Company's consolidated assets included \$838 million in cash and cash equivalents that were held by its foreign subsidiaries. Of this amount, \$214 million is cash not readily accessible by the Company as it is held by REA Group, a majority owned but separately listed public company. REA Group must declare a dividend in order for the Company to have access to its share of REA Group's cash balance.

The principal uses of cash that affect the Company's liquidity position include the following: operational expenditures including employee costs, paper purchases and programming costs; capital expenditures; income tax payments; investments in associated entities; acquisitions; the repurchase of shares; dividends; and the repayment of debt and related interest. In addition to the acquisitions and dispositions disclosed elsewhere, the Company has evaluated, and expects to continue to evaluate, possible future acquisitions and dispositions of certain businesses. Such transactions may be material and may involve cash, the issuance of the Company's securities or the assumption of indebtedness.

### *Issuer Purchases of Equity Securities*

The Company's Board of Directors (the "Board of Directors") has authorized a repurchase program to purchase up to \$1 billion in the aggregate of the Company's outstanding Class A Common Stock and Class B Common Stock (the "Repurchase Program"). The manner, timing, number and share price of any repurchases will be determined by the Company at its discretion and will depend upon such factors as the market price of the stock, general market conditions, applicable securities laws, alternative investment opportunities and other factors. The Repurchase Program has no time limit and may be modified, suspended or discontinued at any time. As of December 31, 2023, the remaining authorized amount under the Repurchase Program was approximately \$522 million.

During the three and six months ended December 31, 2023, the Company repurchased and subsequently retired 0.8 million and 1.8 million shares, respectively, of Class A Common Stock for approximately \$18 million and \$38 million, respectively, and 0.4 million and 0.8 million shares, respectively, of Class B Common Stock for approximately \$8 million and \$17 million, respectively. During the three and six months ended December 31, 2022, the Company repurchased and subsequently retired 1.9 million and 6.9 million shares, respectively, of Class A Common Stock for approximately \$31 million and \$115 million, respectively, and 1.0 million and 3.5 million shares, respectively, of Class B Common Stock for approximately \$16 million and \$59 million, respectively.

### *Dividends*

In August 2023, the Board of Directors declared a semi-annual cash dividend of \$0.10 per share for Class A Common Stock and Class B Common Stock. The dividend was paid on October 11, 2023 to stockholders of record as of September 13, 2023. The timing, declaration, amount and payment of future dividends to stockholders, if any, is within the discretion of the Board of Directors. The Board of Directors' decisions regarding the payment of future dividends will depend on many factors, including the Company's financial condition, earnings, capital requirements and debt facility covenants, other contractual restrictions, as well as legal requirements, regulatory constraints, industry practice, market volatility and other factors that the Board of Directors deems relevant.

Net cash provided by operating activities increased by \$144 million for the six months ended December 31, 2023 as compared to the six months ended December 31, 2022. The increase was primarily due to higher Total Segment EBITDA, lower working capital and lower tax payments, partially offset by higher restructuring payments.

	For the six months ended December 31,	
	2023	2022

## Table of Contents

Net cash used in financing activities for the six months ended December 31, 2023 and 2022 was as follows (in millions):

	For the six months ended December 31,	
	2023	2022
Net cash used in financing activities	\$ (144)	\$ (312)

Net cash used in financing activities was \$144 million for the six months ended December 31, 2023, as compared to \$312 million for the six months ended December 31, 2022.

During the six months ended December 31, 2023, the Company had \$1,044 million of borrowing repayments, primarily related to the refinancing of Foxtel and REA Groups' debt portfolios, dividend payments of \$85 million to News Corporation stockholders and REA Group minority stockholders and \$56 million of stock repurchases of outstanding Class A and Class B Common Stock under the Repurchase Program. The net cash used in financing activities was partially offset by new borrowings of \$1,049 million primarily related to the refinancings at Foxtel and REA Group and \$53 million related to the net settlement of certain hedges which were terminated in connection with the refinancing at Foxtel.

During the six months ended December 31, 2022, the Company had \$462 million of borrowing repayments, primarily related to Foxtel's U.S. private placement senior unsecured notes that matured in July 2022, \$178 million of stock repurchases of outstanding Class A and Class B Common Stock under the Repurchase Program and dividend payments of \$89 million to News Corporation stockholders and REA Group minority stockholders. The net cash used in financing activities was partially offset by new borrowings of \$407 million related to Foxtel.

### ***Reconciliation of Free Cash Flow and Free Cash Flow Available to News Corporation***

Free cash flow and free cash flow available to News Corporation are non-GAAP financial measures. Free cash flow is defined as net cash provided by (used in) operating activities, less capital expenditures, and free cash flow available to News Corporation is defined as free cash flow, less REA Group free cash flow, plus cash dividends received from REA Group. Free cash flow and free cash flow available to News Corporation may not be comparable to similarly titled measures reported by other companies, since companies and investors may differ as to what items should be included in the calculation of free cash flow.

Neither free cash flow nor free cash flow available to News Corporation represents the total increase or decrease in the cash balance for the period and should be considered in addition to, not as a substitute for, the net change in cash and cash equivalents as presented in the Company's consolidated statements of cash flows prepared in accordance with GAAP, which incorporates all cash movements during the period.

The Company believes free cash flow provides useful information to management and investors about the Company's liquidity and cash flow trends. The Company believes free cash flow available to News Corporation, which adjusts free cash flow to exclude REA Group's free cash flow and include dividends received from REA Group, provides management and investors with a measure of the amount of cash flow that is readily available to the Company, as REA Group is a separately listed public company in Australia and must declare a dividend in order for the Company to have access to its share of REA Group's cash balance. The Company believes free cash flow available to News Corporation provides a more conservative view of the Company's free cash flow because this presentation includes only that amount of cash the Company actually receives from REA Group, which has generally been lower than the Company's unadjusted free cash flow.

## Table of Contents

The following table presents a reconciliation of net cash provided by operating activities to free cash flow and free cash flow available to News Corporation:

	For the six months ended December 31,	
	2023	2022
	(in millions)	
Net cash provided by operating activities	\$ 305	\$ 161
Less: Capital expenditures	(236)	(217)
Free cash flow	69	(56)
Less: REA Group free cash flow	(134)	(96)
Plus: Cash dividends received from REA Group	44	50
Free cash flow available to News Corporation	\$ (21)	\$ (102)

Free cash flow in the six months ended December 31, 2023 was \$69 million compared to \$(56) million in the prior year. Free cash flow available to News Corporation in the six months ended December 31, 2023 was \$(21) million compared to \$(102) million in the prior year. Free cash flow and Free cash flow available to News Corporation improved primarily due to higher cash provided by operating activities, partially offset by higher capital expenditures, as discussed above.

### **Borrowings**

As of December 31, 2023, the Company, certain subsidiaries of NXE Australia Pty Limited (the “Foxtel Group” and together with such subsidiaries, the “Foxtel Debt Group”) and REA Group and certain of its subsidiaries (REA Group and certain of its subsidiaries, the “REA Debt Group”) had total borrowings of \$3.0 billion, including the current portion. Both the Foxtel Group and REA Group are consolidated but non wholly-owned subsidiaries of News Corp, and their indebtedness is only guaranteed by members of the Foxtel Debt Group and REA Debt Group, respectively, and is non-recourse to News Corp.

#### *News Corp Borrowings*

As of December 31, 2023, the Company had (i) borrowings of \$1,974 million, consisting of its outstanding 2021 Senior Notes, 2022 Senior Notes and Term A Loans and (ii) \$750 million of undrawn commitments available under the Revolving Facility.

#### *Foxtel Group Borrowings*

As of December 31, 2023, the Foxtel Debt Group had (i) borrowings of approximately \$767 million, including the amounts outstanding under the 2024 Foxtel Credit Facility (described below), the 2017 Working Capital Facility and the Telstra Facility (described below) and (ii) total undrawn commitments of A\$255 million available under the 2024 Foxtel Credit Facility and 2017 Working Capital Facility.

During the six months ended December 31, 2023, the Foxtel Group refinanced its A\$610 million 2019 revolving credit facility, A\$250 million term loan facility and tranche 3 of its 2012 U.S. private placement senior unsecured notes with the proceeds of a new A\$1.2 billion syndicated credit facility (the “2024 Foxtel Credit Facility”). The 2024 Foxtel Credit Facility consists of three sub-facilities: (i) an A\$817.5 million three year revolving credit facility (the “2024 Foxtel Credit Facility — tranche 1”), (ii) a US\$48.7 million four year term loan facility (the “2024 Foxtel Credit Facility — tranche 2”) and (iii) an A\$311.0 million four year term loan facility (the “2024 Foxtel Credit Facility — tranche 3”). In addition, the Foxtel Group amended its 2017 Working Capital Facility to extend the maturity to August 2026 and modify the pricing.

Depending on the Foxtel Group’s net leverage ratio, (i) borrowings under the 2024 Foxtel Credit Facility — tranche 1 and 2017 Working Capital Facility bear interest at a rate of the Australian BBSY plus a margin of between 2.35% and 3.60%; (ii) borrowings under the 2024 Foxtel Credit Facility — tranche 2 bear interest at a rate based on a Term SOFR formula, as set forth in the 2024 Foxtel Credit Agreement, plus a margin of between 2.50% and 3.75%; and (iii) borrowings under the 2024 Foxtel Credit Facility — tranche 3 bear interest at a rate of the Australian BBSY plus a margin of between 2.50% and 3.75%. All tranches carry a commitment fee of 45% of the applicable margin on any undrawn balance during the relevant availability period. Tranches 2 and 3 of the 2024 Foxtel Credit Facility amortize on a proportionate basis in an aggregate annual amount equal to A\$35 million in each of the first two years following closing and A\$40 million in each of the two years thereafter.

## Table of Contents

The agreements governing the Foxtel Debt Group's external borrowings contain customary affirmative and negative covenants and events of default, with customary exceptions, including specified financial and non-financial covenants calculated in accordance with Australian International Financial Reporting Standards. Subject to certain exceptions, these covenants restrict or prohibit members of the Foxtel Debt Group from, among other things, undertaking certain transactions, disposing of certain properties or assets (including subsidiary stock), merging or consolidating with any other person, making financial accommodation available, giving guarantees, entering into certain other financing arrangements, creating or permitting certain liens, engaging in transactions with affiliates, making repayments of certain other loans and undergoing fundamental business changes. In addition, the agreements require the Foxtel Debt Group to maintain a ratio of net debt to Earnings Before Interest, Tax, Depreciation and Amortization ("EBITDA"), as adjusted under the applicable agreements, of not more than 3.25 to 1.0. The agreements also require the Foxtel Debt Group to maintain a net interest coverage ratio of not less than 3.5 to 1.0. There are no assets pledged as collateral for any of the borrowings.

In addition to third-party indebtedness, the Foxtel Debt Group has related party indebtedness consisting of A\$639 million of outstanding principal (excluding capitalized interest) of subordinated shareholder loans as of December 31, 2023. The shareholder loans bear interest at a variable rate of the Australian BBSY plus an applicable margin ranging from 6.30% to 7.75% and mature in December 2027. Amounts outstanding under the shareholder loans are permitted to be repaid if (i) no actual or potential event of default exists both before and immediately after repayment and (ii) the net debt to EBITDA ratio of the Foxtel Debt Group was on the most recent covenant calculation date, and would be immediately after the cash repayment, less than or equal to 2.25 to 1.0. In the three months ended December 31, 2023, the Foxtel Debt Group repaid A\$61 million of outstanding principal of shareholder loans. Additionally, the Foxtel Debt Group has an A\$170 million subordinated shareholder loan facility with Telstra which can be used to finance cable transmission costs due to Telstra. The Telstra Facility bears interest at a variable rate of the Australian BBSY plus an applicable margin of 7.75% and matures in December 2027. The Company excludes the utilization of the Telstra Facility from the Statements of Cash Flows because it is non-cash.

### *REA Group Borrowings*

As of December 31, 2023, REA Group had (i) borrowings of approximately \$271 million, consisting of amounts outstanding under the 2024 REA Credit Facility (described below) and 2024 Subsidiary Facility (described below) and (ii) A\$285 million of undrawn commitments available under the 2024 REA Credit Facility and the 2024 Subsidiary Facility.

During the six months ended December 31, 2023, REA Group entered into a new unsecured syndicated credit facility (the "2024 REA Credit Facility") which replaces the 2022 Credit Facility and consists of two sub-facilities: (i) a five-year A\$400 million revolving loan facility (the "2024 REA Credit Facility—tranche 1") which was used to refinance tranche 1 of the 2022 Credit Facility and (ii) an A\$200 million revolving loan facility representing the continuation of tranche 2 of the 2022 Credit Facility (the "2024 REA Credit Facility—tranche 2"). REA Group may request increases in the amount of the 2024 REA Credit Facility up to a maximum amount of A\$500 million, subject to the terms and limitations set forth in the syndicated facility agreement.

Borrowings under the 2024 REA Credit Facility — tranche 1 accrue interest at a rate of the Australian BBSY plus a margin of between 1.45% and 2.35%, depending on REA Group's net leverage ratio. Borrowings under the 2024 REA Credit Facility — tranche 2 continue to accrue interest at a rate of the Australian BBSY plus a margin of between 1.15% and 2.25%, depending on REA Group's net leverage ratio. Both tranches carry a commitment fee of 40% of the applicable margin on any undrawn balance.

The syndicated facility agreement governing the 2024 REA Credit Facility requires REA Group to maintain (i) a net leverage ratio of not more than 3.5 to 1.0 and (ii) an interest coverage ratio of not less than 3.0 to 1.0. The agreement also contains certain other customary affirmative and negative covenants and events of default. Subject to certain exceptions, these covenants restrict or prohibit REA Group and its subsidiaries from, among other things, incurring or guaranteeing debt, disposing of certain properties or assets, merging or consolidating with any other person, making financial accommodation available, entering into certain other financing arrangements, creating or permitting certain liens, engaging in non arms' length transactions with affiliates, undergoing fundamental business changes and making restricted payments.

## Table of Contents

During the six months ended December 31, 2023, REA Group also entered into an A\$83 million unsecured bilateral revolving credit facility (the “2024 Subsidiary Facility”). Proceeds of the 2024 Subsidiary Facility will be used to refinance an existing facility at one of its subsidiaries and to fund its business of providing short-term financing to real estate agents and vendors. Borrowings under the 2024 Subsidiary Facility accrue interest at a rate of the Australian BBSY plus a margin of 1.40% and undrawn balances carry a commitment fee of 40% of the applicable margin. The facility agreement governing the 2024 Subsidiary Facility permits the lender to cancel its commitment and declare all outstanding amounts immediately due and payable after a consultation period in specified circumstances, including if certain key operating measures of its subsidiary fall below the budgeted amount for two consecutive quarters. The agreement also contains certain other customary affirmative and negative covenants and events of default that are similar to those governing the 2024 REA Credit Facility.

All of the Company’s borrowings contain customary representations, covenants and events of default. The Company was in compliance with all such covenants at December 31, 2023.

See Note 5—Borrowings in the accompanying Consolidated Financial Statements for further details regarding the Company’s outstanding debt, including additional information about interest rates, amortization (if any), maturities and covenants related to such debt arrangements.

### Contingencies

The Company routinely is involved in various legal proceedings, claims and governmental inspections or investigations, including those discussed in Note 9 to the Consolidated Financial Statements. The outcome of these matters and claims is subject to significant uncertainty, and the Company often cannot predict what the eventual outcome of pending matters will be or the timing of the ultimate resolution of these matters. Fees, expenses, fines, penalties, judgments or settlement costs which might be incurred by the Company in connection with the various proceedings could adversely affect its results of operations and financial condition.

The Company establishes an accrued liability for legal claims when it determines that a loss is probable and the amount of the loss can be reasonably estimated. Once established, accruals are adjusted from time to time, as appropriate, in light of additional information. The amount of any loss ultimately incurred in relation to matters for which an accrual has been established may be higher or lower than the amounts accrued for such matters. Legal fees associated with litigation and similar proceedings are expensed as incurred. The Company recognizes gain contingencies when the gain becomes realized or realizable. See Note 9—Commitments and Contingencies in the accompanying Consolidated Financial Statements.
