At the date of this report, Lion had 141,150,775 fully paid ordinary shares on issue.

### Directors

The names of the Company's directors in office during the half year and until the date of this report are as below:

- Robin Widdup (Director) (Executive Chairman from 1 February 2024)
- Barry Sullivan (Chairman) (Non-Executive Director from 1 February 2024)
- Peter Maloney (Non-Executive Director)
- Chris Melloy (Non-Executive Director)

## **Principal Activities**

During the half year the principal continuing activities of the Company were investment in mining and exploration companies.

### **Results and Review of Operations**

The Company's loss before tax for the half year was \$0.3 million (2023: profit \$0.8 million).

The result for the half year reflects a mark to market loss of \$0.9 million with respect to investments.

Key movements in the portfolio include increases of \$1.0 million in the value of Lion's investment in Saturn Metals Limited, offset by decreases in the value of Lion's holdings in Erdene Development Corporation (\$0.9 million), PhosCo Ltd (\$0.5 million) and Alto Metals (\$0.4 million).

At 31 January 2024 the Company held investments valued at \$17.0 million (31 July 2023: \$13.1 million), and cash and term deposits of \$68.3 million (31 July 2023: \$75.0 million).

### Dividends

On 18 October 2023 Lion Selection Group Limited declared a 1.5¢ps unfranked dividend to shareholders (totalling \$2.1 million) which was paid on 10 November 2023. This takes the total value of returns to shareholders since the Pani sale to \$16.7 million, comprising dividends of 8.5¢ps and \$3.5 million in the on-market buyback.

### **Likely Developments and Future Results**

The Company's future operating results will depend on the results of its investments. The Company's ability to sustain profits is dependent on future sales of investments which in turn are dependent on market opportunities and the performance of the Company's various investments, which are difficult to predict.

There are a wide variety of risks associated with the mining and exploration industry including market conditions, exploration, operational and political risk, tenure of tenements, liquidity and native title issues. Because of the vagaries of the mining and exploration industry and the long-term nature of most of Lion's investments, the directors are unable to predict future results.

### **Auditor Independence**

We have obtained an independence declaration from our auditors, Nexia Melbourne Audit Pty Ltd, as required under section 307 of the Corporations Act 2001. A copy can be found on page 3 of this financial report.

### **Rounding of Amounts**

The Company is of a kind referred to ASIC Legislative Instrument 2016/191 relating to the 'rounding off' of amounts in the financial report and Directors' report. Amounts in the financial report and Directors' report have been rounded off in accordance with that Instrument to the nearest thousand dollars unless specifically stated to be otherwise.

This report has been made in accordance with a resolution of the directors.

# Notes to the Financial Statements for the Half Year ended 31 January 2024

#### NOTE 1. BASIS OF PREPARATION

The half year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report.

The half year financial report should be read in conjunction with the annual financial report of Lion Selection Group Limited as at 31 July 2023, which was prepared based on Australian Accounting Standards. The half year financial report has been prepared with the same accounting policies and methods of computation as used in the most recent annual financial report.

It is also recommended that the half year financial report be considered together with any public announcements made by the Company during the half year ended 31 January 2024 in accordance with the continuous disclosure obligations arising under the *Corporations Act 2001* and ASX Listing Rules.

#### (a) Basis of accounting

The half year financial report has been prepared in accordance with the requirements of the *Corporations Act 2001*, applicable Accounting Standards including AASB 134 *Interim Financial Reporting* and other mandatory professional reporting requirements.

The half year financial report has been prepared on a historical cost basis, except for financial assets measured at fair value through profit or loss.

For the purpose of preparing the half year financial report, the half year has been treated as a discrete reporting period.

Lion meets the qualifying criteria under AASB 10 of an "investment entity", and Lion Selection Asia Limited does not provide investment-related services to the Company. Accordingly, the Company has applied the exemption from consolidating Lion Selection Asia Limited and continues to carry these investments at fair value.

# (b) New or Revised Australian Accounting Standards and Interpretations that are first effective in the current reporting period

#### **New Standards**

There are no new standards that apply from 1 August 2023 that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

#### Accounting Standards Issued But Not Yet Effective

There are no standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

#### (c) Summary of significant revised accounting policies

The Company's accounting policies are consistent with those of the comparative periods. The full disclosure of accounting policies is available in the annual financial report of Lion Selection Group Limited for the year ended 31 July 2023.

#### NOTE 2. FAIR VALUE MEASUREMENTS

The Company carries its investments at fair value with changes in value recognised in profit or loss.

AASB 13 Fair Value Measurement requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- (b) Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

#### **NOTE 2. FAIR VALUE MEASUREMENTS - CONTINUED**

(c) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of financial instruments traded in active markets (such as publicly traded securities) is based on quoted market prices at the reporting date.

#### Recognised fair value measurements

The following tables present the Company's assets measured and recognised at fair value for the periods ended 31 January 2024 and 31 July 2023.

#### Valuation techniques used to derive level 2 and level 3 fair values.

The fair value of financial instruments that are not traded in an active market (for example, unlisted investments) is determined using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on unobservable inputs. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments are applied in accordance with the International Private Equity and Venture Capital Valuation Guidelines including:

- Net assets, looking through to the underlying assets held through interposed investment vehicles.
- The fair value of unlisted option contracts is determined using a Black Scholes valuation at the reporting date.
- The use of guoted market prices or dealer quotes for similar instruments where available.
- Other techniques, such as Monte Carlo option-pricing models and discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.

The price of a recent investment conducted in an orderly transaction between market participants generally represents fair value as of the transaction date. At subsequent measurement dates, the price of a recent investment may be an appropriate reference point for estimating fair value subject to the current facts and circumstances including changes in market conditions or changes in the performance of the investee company that would impact a market participant's perspective of fair value.

#### Valuation Processes

The Lion Manager includes a team that performs monthly valuations of the financial instruments required for financial reporting purposes, including level 3 fair values. This team reports directly to the Lion Board. Discussions of valuation processes and results are held between the Lion Manager and the Lion Board at least once every six months in line with Lion's half-yearly reporting dates, including changes in level 2 and 3 fair values.

#### Capital Risk Management

Lion's objective when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders. In order to maintain or adjust the capital structure, Lion may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

#### NOTE 6. CONTINGENT LIABILITIES

Lion has a potential liability for contingent consideration that may be payable if Lion sells its investment in either PhosCo or Atlantic Tin. This obligation arises following Lion agreeing to purchase the shares it did not own in African Lion 3 Ltd to consolidate ownership (with the exception of Lion Manager Pty Ltd who opted to hold its investment). The transaction involved part cash consideration and Lion agreeing to pay contingent consideration to be paid in certain circumstances for up to 5 years ending 3 March 2026. The value of the contingent consideration depends on the ultimate exit price for PhosCo and/or Atlantic Tin, how long Lion holds the investments, and how much additional investment is required. The decision to sell the investments in PhosCo and Atlantic Tin is entirely at Lion's discretion.

Based on a theoretical sale at the carrying value for both investments at 31 January 2024, contingent consideration of \$1.6 million would arise.

### NOTE 7. COMMITMENTS

Lion does not have any material commitments.

#### NOTE 8. EVENTS OCCURING AFTER THE BALANCE SHEET DATE

There has not arisen in the interval between the end of the period and the date of this report, any item, transaction or event of a material or unusual nature which has or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future periods.

- i) giving a true and fair view of Lion Selection Group Limited's financial position as at 31 January 2024 and of its performance for the half-year ended on that date; and
- iii) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### **Basis for Conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity.* Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. ### Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 January 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
