### **1.3 Rights Trading**

The Rights Issue is renounceable and accordingly Eligible Shareholders will be able to trade their Entitlement. Instructions on how to trade your Entitlement are set out in Section 6.5. Eligible Shareholders who choose not to take up their Entitlement and not to trade their Entitlement will receive no benefit from the Rights Issue and will be diluted from the issue of New Shares (and the issue of shares on exercise of New Options, if any) under the Rights Issue, including pursuant to the Shortfall (if any).

### **1.4 Non-eligible Foreign Shareholders**

Only Eligible Shareholders are eligible to participate in the Rights Issue. The Company has decided that it is unreasonable to make the Rights Issue outside Australia and New Zealand having regard for:

- the number of holders in places where the Rights Issue would be made; and
- the number and value of securities those holders would be offered; and
- the cost of complying with the legal and regulatory requirements of regulatory authorities in those jurisdictions.

The Company will be notifying each of the non-qualifying foreign shareholders of the Rights Issue and advising them that they will not be able to participate in the Rights Issue.

The Company will apply to ASIC under section 615 of the Corporations Act for approval of the Underwriter to act as nominee to arrange the sale of Entitlements that would have been given to non-qualifying foreign shareholders and to account to them for the net proceeds of the sale.

At the date of this Prospectus, a total of 1,983,334 Shares (approximately 1.21% of existing Shares) are held by 5 non-qualifying foreign shareholders in 3 different countries. The shares of non-qualifying foreign shareholders are equivalent to entitlements to apply for and receive a maximum of 991,667 New Shares and 495,834 free-attaching New Options (subject to rounding), being an aggregate amount of approximately \$29,750 at the \$0.03 (3 cents) issue price per New Share. The equivalent entitlements of non-qualifying foreign shareholders will form part of the Shortfall further details of which are set out in section 1.5.

## **1.5 Shortfall**

Any part of your Entitlement not taken up will form part of the Shortfall.

If you are an Eligible Shareholder and you apply for your full Entitlement, you may also apply for more New Shares and free-attaching New Options than the number shown on your Entitlement and Acceptance Form.

To apply for more New Shares and free-attaching New Options than your Entitlement (being an application for New Shares and free-attaching New Options from the Shortfall (**Shortfall Securities**)) please follow the instructions in Section 6 and as contained in your Entitlement and Acceptance Form.

The issue of additional Shortfall Securities in response to applications will depend on there being sufficient Shortfall Securities available after all valid acceptances of Entitlements are fulfilled.

The Directors in conjunction with the Underwriter reserve the right at their absolute discretion and subject to the Corporations Act and Listing Rules, to:

- issue Shortfall Securities at their discretion by applying a policy of allocating Shortfall Securities in a manner that is in the Company's best interests; and
- to reject any application for Shortfall Securities or to issue a lesser number of Shortfall Securities than that applied for.

It is an express term of the Rights Issue that applicants for Shortfall Securities will be bound to accept a lesser number of Shortfall Securities allocated to them than applied for. If a lesser number is allocated, excess application money received will be refunded without interest.

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 1.2. If the Offer is oversubscribed (by take up of entitlements and applications for Shortfall Securities by Eligible Shareholders), a scale back will be applied to applications for Shortfall Securities on a pro-rata basis to the respective shareholdings of Eligible Shareholders, although there is no guarantee that Eligible Shareholders will receive any Shortfall Securities applied for.

The Company reserves the right to offer and issue Shortfall Securities at its discretion on or before the date that is three months after the Closing Date. The Company may seek to place the remaining Shortfall Securities with unrelated professional, sophisticated and other exempt investors who are invited by the Company to subscribe.

## **1.6 Underwriter Option Offer**

The Underwriter Option Offer is an offer of up to a maximum of 4,924,227 New Options to the Underwriter (and/or its nominee(s)) as part fees for the Underwriter underwriting the Rights Issue. The number of New Options to be issued under the Underwriter Option Offer is the total amount raised under the Rights Issue multiplied by two. Further details regarding the underwriting of the Rights Issue are set out in Section 1.2. The full terms of the New Options are set out in Section 9.2.

## **1.7 ASX Listing**

### *New Shares*

The Company will apply to ASX for admission of the New Shares to official quotation within 7 days of the date of this Prospectus. The fact that ASX may grant official quotation of the New Shares is not to be taken in any way as an indication of the merits of the Company or those securities.

If ASX does not grant permission for the Official Quotation of New Shares within 3 months after the date of issue of this Prospectus (or such period as is permitted by the Corporations Act), the Company, in its absolute discretion, will either repay the application monies to applicants without interest or (subject to any necessary ASIC or ASX waivers or consents being obtained) issue a supplementary or replacement prospectus and allow applicants one month to withdraw their application and be repaid their application monies without interest.

### *New Options*

The Company proposes applying for quotation (listing) of New Options. New Options will be unquoted (unlisted) until such time as the Company satisfies the quotation requirements of ASX.

The quotation requirements of ASX in respect of New Options will include:

- There being at least 100,000 New Options on issue; and
- The New Options being held by at least 50 holders with a marketable parcel (being if all New Options held by a holder were exercised in full, the underlying Shares would be a parcel of not less than \$500 based on the closing price of the Shares at the time of purchase (issue) of the New Options).

If official quotation (listing) of New Options is not granted, New Options will be issued as unlisted securities and will not be tradeable on ASX. The fact that ASX may grant official quotation of New Options is not to be taken as an indication of the merits of the Company or the New Options.

Nothing in this Prospectus is to be construed as stating or implying that the New Options will be quoted (listed) at any particular time, or at all.

## **2. Purpose and costs of the Offers**

**2.2 Purpose of the Underwriter Option Offer**

The purpose of the Underwriter Option Offer is to facilitate the issue and secondary trading of the New Options the subject of the Underwriter Option Offer (if quotation (listing) of New Options is granted) and further to facilitate the secondary trading of Shares issued on exercise of New Options issued under the Underwriter Option Offer (if any).

## 2.3 Costs of the Offers

The estimated anticipated costs of the Offers in combination are set out in the following tables:

### IF THE RIGHTS ISSUE IS SUBSCRIBED TO THE UNDERWRITTEN AMOUNT

<b>TOTAL</b>	<b>\$191,288</b>

Notes to table:

### IF THE RIGHTS ISSUE IS FULLY SUBSCRIBED

Particulars	Amount
Fee to Underwriter <sup>(a)</sup>	\$122,121
Legal and other corporate costs	\$40,000
Registry fees (including print and postage)	\$31,328
ASIC and ASX Fees <sup>(b)</sup>	\$24,509
<b>TOTAL</b>	<b>\$217,958</b>

Notes to table:

- (a) Includes a 5% fee on the Underwritten Amount and a 1% fee on the total amount received under the Rights Issue, plus \$60,000. The Underwriter may elect to receive these fees in New Shares and free-attaching New Options. The table assumes the Rights Issue is fully subscribed by Eligible Shareholders and accordingly does not include a 5% fee payable to the Underwriter on New Shares and free-attaching New Options placed under the Shortfall beyond the Underwritten Amount. Refer Section 1.2 for a summary of the material terms of the Underwriting Agreement including fees payable by the Company.
- (b) Assumes issue and quotation of the maximum of 82,070,455 New Shares and 41,035,228 New Options under the Rights Issue and the maximum of 4,924,227 New Options under the Underwriter Option Offer. If New Options are not quoted (listed) then the costs of the Offers will be reduced.

The costs of the Offers will differ if a different amount is raised under the Rights Issue than as set out in the above tables.

## 3. Financial effect of the Offers

If the Rights Issue is subscribed to the Underwritten Amount, it is anticipated the Rights Issue will increase cash reserves of the Company by \$558,712, being \$750,000 (the Underwritten Amount) less anticipated costs of the Offers if the Underwritten Amount is raised of \$191,288.

If the Rights Issue is fully subscribed, it is anticipated the Rights Issue will increase the cash reserves of

the Company by \$2,244,156, being \$2,462,114 (the maximum amount that may be raised under the Rights Issue) less anticipated costs of the Offers if the Rights Issue is fully subscribed of \$217,958. These anticipated costs of the Offers do not include a 5% fee payable to the Underwriter in respect of New Shares and free-attaching New Options placed under the Shortfall beyond the Underwritten Amount and accordingly, if this were to occur, the increase to cash reserves on the Company would be reduced.

No funds will be raised from the issue of New Options under the Underwriter Option Offer, which are being issued as part fees for the Underwriter underwriting the Rights Issue.

##### **4.1 Capital Structure**

### CONVERTIBLE SECURITIES

The existing and proposed options of the Company are set out in the table below:

Number of options	Expiry Date	Exercise price
3,000,000	16 June 2024	\$0.25
400,000	24 August 2025	\$0.20
Up to 41,035,228* Being the New Options under the Rights Issue	30 months from issue	\$0.075
Up to 4,924,227 Being the New Options under the Underwriter Option Offer	30 months from issue	\$0.075

\* Subject to rounding

All existing options are unlisted. As noted in Section 1.7 and elsewhere in this Prospectus, the Company proposes applying for quotation (listing) of New Options subject to meeting the quotation requirements of ASX. Nothing in this Prospectus is to be construed as stating or implying that the New Options will be quoted (listed) at any particular time, or at all.

As referred to in Section 1.2, the Underwriter may elect to receive certain fees in New Shares and free-attaching Options. These New Shares and Options are not offered under this Prospectus and would be in addition to the above.

The Company also has an aggregate of 2,726,850 performance rights on issue at the date of this Prospectus. The milestone(s) for conversion of performance rights is set out in the annual report for the period ended 30 June 2023 released to ASX on 21 September 2023 and available at [www.asx.com.au](http://www.asx.com.au), search code "FG1".

#### 4.2 Substantial shareholder

As at the date of this Prospectus, the Company has one substantial shareholder, being Colin Bourke and his associated entities (**Bourke Holding**). The Bourke Holding holds an aggregate of 59,909,161 fully paid ordinary shares, representing approximately 36.50% of the Shares at the date of this Prospectus. The Company has not received an indication from the Bourke Holding as to what the Bourke Holding intends to do with its Entitlement prior to lodgement of this Prospectus.

#### 4.3 Dilution and control

The potential dilutive impact of the issue of New Shares under the Rights Issue is as follows:

- If all Eligible Shareholders take up their full Entitlements, the Rights Issue will not have a material effect on the control of the Company as all Eligible Shareholders will maintain, or depending on allocation of New Shares from the Shortfall marginally increase, their respective percentage interest in the Company.

- If an Eligible Shareholder takes up their Entitlement in full and applies for and receives New Shares from the Shortfall, the percentage interest in the Company of that Eligible Shareholder will increase.
- If an Eligible Shareholder takes up their full Entitlement and the Rights Issue is not fully subscribed (including following allocation of New Shares from the Shortfall), the percentage interest in the Company of that Eligible Shareholder will increase.
- If an Eligible Shareholders takes up some, but not all, of their Entitlement then the percentage interest in the Company of that Eligible Shareholder may increase, decrease or remain the same depending on the number of New Shares issued under the Rights Issue, including New Shares under the Shortfall.
- To the extent that an Eligible Shareholder does not take up any of their Entitlement (including as a result of trading their entire Entitlement), the percentage interest in the Company of that Eligible Shareholder will be reduced as a result of the issue of New Shares and the Rights Issue and the Shortfall.

All Ineligible Shareholders will be diluted as a result of the Rights Issue.

As noted in Section 1.2, the Underwriter has agreed to underwrite the Rights Issue up to the Underwritten Amount. If no Eligible Shareholder took up their Entitlement and the Underwritten Amount was subscribed for by the Underwriter under the Rights Issue, the Underwriter and its associates would acquire a relevant interest in 13.22% of the issued Shares following completion of the Rights Issue (noting the Underwriter and its associates do not currently hold Shares). As referred to in Section 1.2, the Underwriter may elect to receive certain fees in New Shares and free-attaching Options. If the Underwriter subscribed for the Underwritten Amount under the Rights Issue and elected to receive the fees referred to in Section 1.2 in New Shares and free-attaching New Options, the Underwriter would have a relevant interest in 49.49% of the issued Shares following completion of the Rights Issue (noting the Underwriter and its associates do not currently hold Shares).

Other than the Bourke Holding which holds approximately 36.50% of the Shares at the date of this Prospectus, no other person will by acceptance of their Entitlement, nor will any person through acceptance of New Shares and free-attaching New Options from the Shortfall be permitted to, acquire or increase a relevant interest in 20% or more of the issued Shares. As a result, the Rights Issue will not have a material effect on control of the Company.

Further details with respect to the Bourke Holding are set out in Section 4.2.

Indicative examples of the impact of dilution of the Rights Issue on existing shareholders where a shareholder does not take up their Entitlement (assuming either the Underwritten Amount is raised or if the Rights Issue is fully subscribed) are set out in the following tables:

### RIGHTS ISSUE SUBSCRIBED TO THE UNDERWRITTEN AMOUNT

No shareholder will be diluted as a result of the issue of New Options under the Offers until as New Options are exercised into Shares. There is no guarantee a certain number of New Options (or any at all) will be exercised into Shares prior to the expiry date of New Options at a particular time, or at all.

## 5. Risks

The securities offered under this Prospectus are considered highly speculative. An investment in the Company carries risk. The Directors strongly recommend potential investors consider the risk factors described below, together with information contained elsewhere in the Prospectus.

This section identifies circumstances the Directors regard as risks associated with investment in the Company and which may have a material adverse impact on the financial performance of the Company,

if they were to arise.

Specifically:

- the securities offered under this Prospectus are subject to specific risks (refer to section 5.1);
- the business, assets and operations of the Company are subject to specific risk factors that could potentially influence the performance of the Company in the future (refer section 5.2); and
- there are general investment and market risks (refer section 5.3).

Where possible, the Directors aim to manage these risks by carefully planning the Company's activities and implementing risk control measures. However, some of the risks identified are highly unpredictable or are out of the control of the Company and the Company is therefore limited to the extent it can effectively manage them.

These risk factors are not intended to be an exhaustive list of risks to which the Company is, or will be, exposed.

### **5.1 Risks associated with the Offers**

#### *(a) Risk of termination of the Underwriting Agreement*

As set out in section 1.2, the Underwriting Agreement under which the Underwriter has agreed to underwrite the Rights Issue contains various conditions precedent and termination events. There is a risk that the Company does not satisfy the conditions precedent and/or that a termination event occurs, in which case the Underwriter may seek to terminate the Underwriting Agreement.

#### *(b) Value of securities, liquidity and share market conditions*

The market price of the Company's securities is subject to varied and unpredictable influences on the market for equities in general and with respect to resources stocks in particular. Market conditions and lack of liquidity may affect the value of the Company's securities regardless of the performance of the Company. No assurance can be given that there will be, or will continue to be, an active market for the ordinary shares of the Company (which will include the New Shares and shares issued on exercise of New Options (if any)) or, if ASX grants quotation, the New Options. The trading price of the ordinary shares of the Company and, if quoted (listed), New Options, may fall as well as rise.

No guarantee can be given that the New Options will be quoted (listed) and nothing in this Prospectus is to be construed as stating or implying that the New Options will be quoted (listed) at any particular time, or at all.

#### *(c) Taxation consequences*

The issue of New Shares and/or New Options (including Shares on exercise of New Options, if any) may have taxation consequences depending on the particular circumstances of the recipient. You should seek your own professional advice before investing in the Company.

#### *(d) Dilution*

The issue of New Shares will result in holders who do not take up their full Entitlement being diluted. The number of New Shares to be subscribed for by an Eligible Shareholder to not be diluted as a

result of the issue of New Shares under the Rights Issue is dependent upon the current shareholding of the Eligible Shareholder and the total number of New Shares issued.

The issue of New Options will not dilute shareholders until Shares are issued on the exercise of New Options (if any). The conversion of any existing convertible securities into shares (including performance rights) will also dilute shareholders.

*(e) Exercise price of New Options*

There is no guarantee that the share price will be greater than the \$0.075 (7.5 cents) exercise price of New Options prior to the expiry date of 30 months from issue of New Options. Accordingly, there is a risk that New Options will be out of the money during the entire exercise period, which will affect the value of the New Options.

## **5.2 Company Specific Risks**

*(a) Exploration risk*

The activities of the Company will comprise mining exploration for the foreseeable future. These activities may be adversely affected by a range of factors including lack of access to suitable personnel, lack of access to drill rigs or other equipment, mechanical failure or breakdowns, adverse weather, industrial accidents or disputes, shortages or increased costs of consumables, and other factors outside the control of the Company.

Mining exploration activities are by their very nature high risk and inherently uncertain. There can be no guarantee or assurance that exploration of the existing projects of the Company, or of any project acquired in future, will result in the discovery of one or more mineral deposit. Furthermore, in the event that a mineral deposit were discovered, there is no guarantee that mining of that deposit would be economically viable.

Accordingly, there is a risk that the expenditure of funds by the Company on exploration activities will not lead to the discovery and development of an economically viable resource. Such an outcome would be adverse to the prospects of the Company and may result in the Company scaling back its activities.

In the event that the Company identified an economically viable mineral deposit, the capacity of the Company to proceed to develop a mine in respect of that deposit would be dependent upon a number of factors including obtain required regulatory and third party approvals, seasonal weather, construction issues, funding and plant, equipment and labour availability. Some of these factors are outside of the control of the Company. These factors may create risks in respect of the successful development of a mineral deposit.

*(b) Tenement risks*

The interests of the Company in its tenements are governed by mining legislation, regulations and conditions imposed by the relevant legislature. Each tenement is subject to annual expenditure and reporting obligations. Tenements are granted for fixed terms and renewal or extension of tenements is subject to government approval, which depends in part upon historical and ongoing compliance with tenement conditions and relevant law. Failure to meet these requirements may result in loss of a tenement. Renewal or extension of a tenement will necessitate surrender of a portion of the area covered. The Company may also form the view that one or more of its tenements

is no longer prospective and determine to forfeit the tenement(s).

*(c) Access risks*

There may be restrictions on the operations of the Company that exclude, limit or impose conditions on the ability of the Company to access and conduct exploration activities on one or more of the tenements forming the projects of the Company. Restrictions may include, but are not limited to:

- exclusions from pursuing exploration on certain areas of Commonwealth land;
- requirements arising from Native Title legislation and claims;
- requirements arising from state legislation relating to Aboriginal heritage, culture and objects;
- environmental based conditions and restrictions;
- access procedures and compensation requirements in relation to privately held land; and
- access procedures and conditions in relation to land falling within deeds of grant in trust.

The Company has formulated its exploration plans to seek to accommodate and work within the access restrictions outlined above, however these requirements can be complex and sometimes require approvals, consents or negotiations involving government entities or third parties. As such, there is a risk one or more of these access issues may prevent the Company from implementing its intended exploration plans, which may thereby adversely affect the Company's financial position, operations and prospects.

*(d) Environmental risks*

The operations of the Company in both the near and long term are subject to extensive State and Federal environmental laws and regulations. The future activities of the Company may impact upon the environment, especially if advanced exploration or mine development proceeds. The Company will use all reasonable endeavours to comply with all environmental and regulatory requirements, however the laws are complex and there is a risk of inadvertent non-compliance by the Company.

Proceeding with a mining operation would be expected to create significantly enhanced environmental risks, particularly with respect to environmental damage through construction activities, disposal of waste products and/or water contamination. Such occurrences could delay production or increase costs of operations.

Natural events such as excessive rainfall, floods, storms or bushfire could adversely affect the Company's ongoing compliance with environmental laws and regulations. Breaches of environmental legal and regulatory requirements may result in fines, damages, clean-up costs and other penalties against the Company.

*(e) Climate change*

As an entity engaged in exploration activities, the Company anticipates it will be subject to climate risks and in particular:

- The emergence of new or expanded regulations associated with transitioning to a lower carbon economy including market changes associated with climate change mitigation. The Company may be impacted by local and international compliance regulations, or specific taxes or penalties associated with carbon emissions or environmental damage. Given the uncertainty with respect to the future regulatory framework regarding climate change mitigation, the Company may be subject to further restrictions, conditions and risks. While the Company will seek to manage risks associated with climate change as and when they arise, there can be no guarantee that the Company will be able to do so in a cost-effective manner, if at all.
- Climate change may cause physical and environmental risks that cannot be predicted, including extreme weather patterns and events that may directly or indirectly impact the operations of the Company and may significantly disrupt the industry in which the Company operates.

*(f) Mineral resource risk*

The Company has formulated its exploration plans to seek to accommodate and work within the access restrictions outlined above, however these requirements can be complex and sometimes require approvals, consents or negotiations involving government entities or third parties. As such, there is a risk one or more of these access issues may prevent the Company from implementing its intended exploration plans, which may thereby adversely affect the Company's financial position, operations and prospects.

*(g) Future capital requirements*

The Company has no operating revenue and is unlikely to generate any operating revenue in the foreseeable future. Exploration and development costs and pursuit of its business plan will use funds from the Company's current cash reserves and the amount raised under the Rights Issue.

Any additional equity financing may be dilutive to shareholders, may be undertaken at lower prices than the then market price (or the price of New Shares) or may involve restrictive covenants which limit the Company. Debt financing, if available, may involve restrictions on financing and activities.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain funding as needed, it may be required to reduce the scope of its activities.

*(h) Commodity prices*

Commodity prices, including gold, can fluctuate rapidly and are affected by numerous factors beyond the control of the Company. These factors include world demand for commodities, production cost levels, macroeconomic factors such as expectations regarding inflation, interest rates and global and regional demand for, and supply of, commodities as well as general global economic conditions. These factors may have an adverse effect on the Company's activities as well as the Company's ability to fund those activities.

*(i) Potential acquisitions and divestments*

As part of its business strategy, the Company may make acquisitions of, or significant investments in,

complementary companies or projects and make asset divestments. Any such transactions would be accompanied by the risks commonly encountered in making acquisitions of companies or projects and any divestment activity could result in realising values less than fair value. In addition, as a result of such transactions the Company may be exposed to additional or heightened risks

### **5.3 General Risks**

#### *(a) Pandemic*

The Company's operations may be adversely affected by the economic uncertainty caused by a pandemic. No guarantee can be given that governmental or industry measures taken in response to a potential future pandemic (if any) will not adversely impact the operations of the Company.

#### *(b) Economic Risks*

General economic conditions, movements in interest and inflation rates and currency exchange rates may adversely affect the Company's activities, as well as its ability to fund those activities. Further, share market conditions may affect the value of the Company's securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- international trade disputes and sanctions;
- political instability and civil unrest;
- restricted access to trade routes;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

#### *(c) Regulatory Risks*

The Company's activities could be adversely affected by changes to laws such as the impact of taxes and charges, increasing requirements relating to regulatory and environmental matters and changes to mining or exploration rights granted under legislation. The Company could also be adversely affected by changes to laws regarding native title and heritage matters, employee relations, health and worker safety, protection of endangered and protected species and other matters. Failure to comply with applicable laws or permit conditions could result in fines, penalties or other sanctions including suspension or forfeiture of rights.

*(d) Litigation Risks*

The Company is exposed to possible litigation risks including contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.

*(e) Unforeseen expenditure or risks*

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected. There may be other risks which the Directors and/or management of the Company are unaware of at the time of issuing this Prospectus which may impact upon the Company, its operations and/or the value and performance of the securities of the Company.

**5.4 Investment Speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or in connection with an investment in the Company. The above risk factors, and other risk factors not specifically referred to above, may materially affect the future financial performance of the Company and the value of the securities offered under this Prospectus.

New Shares and Shares issued upon exercise of New Options (if any) carry no guarantee with respect to the payment of dividends, returns of capital or market value. The Company does not expect to declare any dividends for the foreseeable future.

Potential investors should consider that the investment in the Company is highly speculative.

**6. Acceptance Instructions**

**6.1 Choices available under the Rights Issue**

Eligible Shareholders may:

- exercise their right to participate in the Rights Issue and take up their Entitlement in full; or
- exercise their right to participate in the Rights Issue and take up their Entitlement in full, and apply for additional New Shares and free-attaching New Options from the Shortfall; or
- exercise their right to participate in the Rights Issue and take up their Entitlement in part; or
- trade some or all of their Entitlement as described in section 1.3; or
- take no action under the Rights Issue and allow their Entitlement to lapse.

Entitlements not taken up will become part of the Shortfall. The Company may reject an acceptance where payment of the acceptance amount is not received, or without prejudice to its rights, issue New Shares and free-attaching New Options in response to the acceptance and recover outstanding acceptance amount from the recipient. If your Entitlement and Acceptance Form is not completed correctly it may still be treated as a valid application for New Shares and free-attaching New Options. The Directors' decision in whether to treat an Entitlement and Acceptance Form as valid and how to

construe, amend or complete the form is final. The Company, the Underwriter and the share registry of the Company accept no responsibility for failure by your stockbroker or other third parties to carry out your instructions.

## **6.2 Applying under the Rights Issue**

All acceptances of Entitlements must be made in accordance with the instructions set out in your Entitlement and Acceptance Form accompanying this Prospectus.

The amount payable on acceptance will be deemed not to have been received until the Company is in receipt of cleared funds. Payments in cash will not be accepted.

If the amount of payment received is insufficient to pay in full for the number of New Shares and free-attaching New Options you have accepted or is more than required for the number of New Shares and free-attaching New Options you have accepted, you will be taken to have accepted the lesser of your Entitlement or such whole number of New Shares and free-attaching New Options which is covered in full by your payment.

*\* <sup>®</sup> Registered to Bpay Pty Ltd ABN 69 079 137 518*

#### **6.4 Multiple Holdings**

To ensure that you receive your Entitlement in respect of each holding, you must use the reference number shown on each Entitlement and Acceptance Form when paying to accept your Entitlement in respect of that holding. An Eligible Shareholder may trade their Entitlement on ASX or transfer it to a third party. Trading of Entitlement rights will commence on ASX on 8 April 2024 and cease on 22 April 2024 (unless extended). An Eligible Shareholder may elect to transfer all or part of their Entitlement to another person other than on ASX. If the potential purchaser is not an Eligible Shareholder, that purchaser will not be able to take up the Entitlement that they have purchased.

If the transferee wishes to exercise some or all of the Entitlement of an Eligible Shareholder, that Eligible Shareholder should follow the

instructions of their stockbroker as to the most appropriate way to take up the Entitlement on behalf of the transferee. Application monies for New Shares and free-attaching New Options the transferee of the Entitlement wishes to acquire must be received in accordance with the payment terms set out elsewhere in this section 6.

### **7. Continuous Disclosure Obligations**

This Prospectus is issued by the Company in accordance with the provisions of the Corporations Act applicable to a prospectus for continuously quoted securities or securities convertible into continuously quoted securities.

Section 713 of the Corporations Act enables a company to issue a special prospectus where the securities under that prospectus are continuously quoted securities within the meaning of the Corporations Act. This generally means that the relevant securities are in a class of securities that

were quoted enhanced disclosure securities at all times during the 3 months before the date of this Prospectus and other requirements relating to the Company not being subject to various exemptions and orders under the Corporations Act within the last 12 months are met.

In summary, special prospectuses are required to contain information in relation to the effect of the offer of securities on the company and the rights and liabilities attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company. Accordingly, this Prospectus does not contain the same level of disclosure as a prospectus of an unlisted company or an initial public offering prospectus.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the date of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

For the purpose of satisfying section 713(5) of the Corporations Act a prospectus must incorporate information that:

- (a) has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
- (b) is information that investors and their professional advisors would reasonably require for the purpose of making an informed assessment of:
  - the assets and liabilities, financial position and performance, profit and losses and prospects of the Company; and
  - the rights and liabilities attaching to the securities being offered.

The prospectus must contain this information only to the extent to which it is reasonable for investors and their professional advisors to expect to find such information in the prospectus. The Company is not aware of any matters that need to be disclosed under this section of the Corporations Act that have not been previously disclosed or which have not been set out in this Prospectus.

The Company operates an ongoing business and reports regularly on its activities. The Company from time to time seeks to engage in discussions on an ongoing basis in respect of potential opportunities. Funds may be used to fund the costs associated with identifying, investigating and pursuing such opportunities. While the Company may seek to negotiate such opportunities there is no certainty any such arrangement(s) will be finalised on particular terms, at a specific time, or at all. The Company will make further announcements in respect of any such opportunities (if any) in accordance with its continuous disclosure obligations as developments, if any, occur (however no guarantee can be given that such developments, if any, will occur).

As a disclosing entity under the Corporations Act, the Company is subject to regular reporting and disclosure obligations. Copies of documents lodged with ASX and ASIC in relation to the Company may be obtained from or inspected by accessing the respective websites.

Any person may request, and the Company will provide free of charge, a copy of each of the following documents during the acceptance period of this Prospectus:

- (a) The annual financial report of the Company for the financial year ended 30 June 2023 (released to ASX on 21 September 2023), being the most recent financial report of the Company before the lodgement of this Prospectus with ASIC;
- (b) The financial report of the Company for the half year ended 31 December 2023 (released to ASX on 3 March 2024); and
- (c) Any continuous disclosure notices given by the Company since the lodgement of the Annual Financial Report referred to in (a) above before lodgement of this Prospectus. Continuous disclosure notices given by the Company since the lodgement of the Annual Financial Report to the date of this Prospectus are listed in Section 8 of this Prospectus.

## **9. Terms of securities offered**

### **9.1 New Shares**

New Shares will be fully paid ordinary shares in the capital of the Company, which will rank equally with, and will have the same voting and other rights as existing issued shares of the Company. The rights attaching to the Company's shares are set out in the Company's constitution, the Listing Rules of ASX and the Corporations Act. The Company's constitution has been lodged with ASIC. The constitution contains provisions of the kind common for public companies in Australia and are taken to be included in this Prospectus by operation of Section 712 of the Corporations Act. Any person may request a copy of the constitution during the application period of the Prospectus, which the Company will provide free of charge.

An electronic copy of the Company's constitution was released to ASX on 15 June 2021.

### **9.2 New Options**

References in this Section 9.2 to "Option" is to New Options:

- (a) Each Option entitles the holder to one Share fully paid ordinary share in the capital of Flynn Gold Limited [ABN 82 644 122 216] (**the Company**) (each a **Share**).
- (b) The Options may be exercised at any time prior to 5.00pm Melbourne time on the date that is 30 months after the date of issue of the Options (**Expiry Date**).
- (c) The exercise price of the Options is A\$0.075 (7.5 Australian cents) each (**Exercise Price**).
- (d) The Company may seek quotation (listing) of the Options, subject to meeting the quotation requirements of the Australian Securities Exchange (**ASX**). The Options may accordingly be quoted (listed).
- (e) The Options are transferable, subject at all times to the requirements of the Australian Corporations Act 2001 and any other applicable law or regulation.
- (f) To exercise the Options, each Option holder must duly complete, execute and deliver to the Company an exercise notice in the form provided to the Option holder or as otherwise acceptable to the Company (**Notice of Exercise**). Options may be exercised by the Option holder in whole or in part by completing the Notice of Exercise (or such other form of written notice of exercise acceptable to the Company) and delivering it to the Company Secretary at its registered office or to its designated registry (which may include delivery or giving by electronic means), to be received prior to the Expiry Date. The Notice of Exercise must, among other things, state the number of Options exercised, the consequent number of Shares to be

allotted and the identity of the proposed allottee. The Notice of Exercise by an Option holder must be accompanied by payment (which may be made by electronic funds transfer by prior arrangement in writing with the Company or its designated registry) in full for the relevant number of Shares being subscribed, being an amount of the Exercise Price per Option exercised.

- (g) Where an Option holder determines to exercise some, but not all, of their held Options, the total aggregate amount payable to exercise the Options that are sought to be exercised must be a minimum of \$1,000.
- (h) All Shares issued upon the exercise of the Options will rank equally in all respects with the Company's then issued Shares. The Company will apply to the ASX for all Shares issued pursuant to the exercise of the Options to be admitted to quotation.
- (i) In the event of a pro rata entitlements issue to the Company's shareholders, the Exercise Price shall be reduced in accordance with the formula set out in ASX Listing Rule 6.22.2.
- (j) In the event of a bonus issue the number of Shares over which the Option is exercisable shall be increased by the number of Shares which the Option holder would have received if the Option had been exercised before the record date for the bonus issue.
- (k) In the event of any reorganisation of the capital of the Company (including consolidation, subdivisions, reduction or return) prior to the Expiry Date the rights of an Option holder will be changed to extent necessary to comply with the Listing Rules of the ASX applying to a reorganisation of the capital at the time of the reorganisation.
- (l) There are no participating rights or entitlements inherent in the Options and an Option holder will not be entitled to participate in new issues of capital offered to the Company's shareholders during the term of the Options. However, the Company will if required by the Listing Rules of ASX send a notice to the Option holder at least 3 business days (or such longer period as the Listing Rules of ASX require) before the record date of any new issues of capital offered to the Company's shareholders in order to give the Option holder the opportunity to exercise their Options prior to the date for determining entitlements to participate in any such issue. Notice may be sent to the last email address advised by the Option holder.
- (m) The Options will not give any right to participate in dividends until Shares are issued pursuant to the exercise of the relevant Options.

- (b) no Director has, or has had within two years of lodgement of this Prospectus, any interest in:
  - the formation or promotion of the Company; or
  - any property acquired or proposed to be acquired by the Company in connection with its formation or promotion of the Offers (or either of them); or
  - the Offers (or either of them).

### **11. Taxation**

Recipients of this Prospectus and the Offers (or either of them) should seek and obtain their own taxation advice.

### **12. Overseas Investors**

This Prospectus and any application form do not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law, and persons outside Australia who come into possession of this Prospectus should seek advice on, and observe any, such restrictions. Any failure to comply with such restrictions may constitute violation of applicable securities laws.

No action has been taken to register or qualify the securities under this Prospectus or to otherwise permit a public offering of the securities under this Prospectus in any jurisdiction outside Australia. The Company reserves the right (at its absolute discretion) to accept an application form from a shareholder if it is satisfied that making and acceptance of the application complies with the requirements of the relevant jurisdiction.

The Offers have not been, and will not be, registered under the US Securities Act and has not been made in the United States of America or to a person or persons resident in the United States of America.

#### **New Zealand**

The New Shares and free-attaching New Options under the Rights Issue are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This Prospectus is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

The offer of New Shares and free-attaching New Options under the Rights Issue to Eligible Shareholders in New Zealand is made in compliance with the relevant Australian laws.

### **13. Nominees, Trustees and Custodians – Rights Issue**

The Rights Issue offer is being made to all Eligible Shareholders. The Company is not required to determine whether an Eligible Shareholder is acting as a nominee, trustee or custodian or the identity or residence of any beneficial owner of Shares. Where any registered holder that qualifies as an Eligible Shareholder is acting as a nominee for a foreign person, that registered holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Rights Issue is compatible with applicable foreign laws. For the avoidance of doubt, nominees, trustees and custodians that hold on behalf of the beneficial holder in the United States may not submit an Entitlement and Acceptance Form on behalf of such beneficial holder(s) resident in the United States.

Nominees and custodians who hold Shares as nominees or custodians will have received, or will shortly receive, a letter from FG1. Nominees and custodians should carefully consider the contents of that letter and note in particular that the additional New Shares and free-attaching New Options from the Shortfall (if any), is only available to any underlying beneficiaries who are eligible (accepted their Entitlement in full) to apply for the additional New Shares and free-attaching New Options from the Shortfall (if any). Nominees and custodians must aggregate any underlying beneficiary applications for additional New Shares and free-attaching New Options from the Shortfall (if any) and then make one application for the total of those underlying beneficiary applications. Any scale back required will be applied at the registered holder level not to the underlying beneficiary level.

### **14. Privacy**
