24 April 2024

## ACTIVITIES REPORT AND APPENDIX 4C: STRONGER Q3 DRIVEN BY GROWTH FROM ZOLEO

**Highlights:**

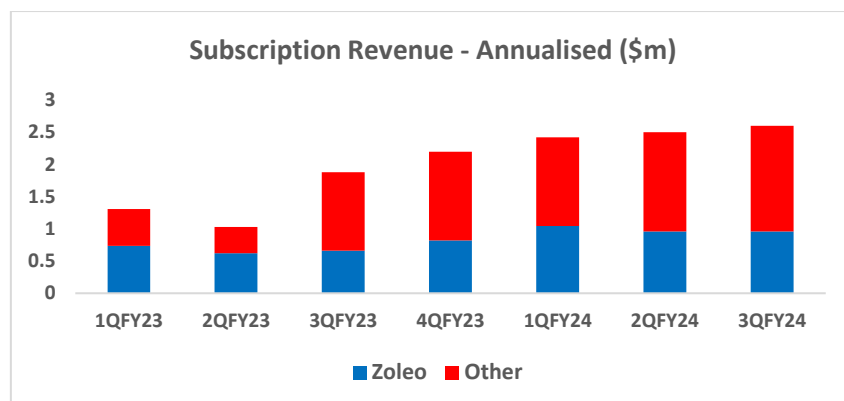

- **Solid Q3 with revenue of \$9.3m up 5.5% on the PCP driven by growth in ZOLEO hardware sales and higher ANZ sales of core Beam terminals, handsets and accessories.**
- **Annualised subscription revenue now \$2.6m, up 38% on the PCP, this includes Beam’s ZOLEO royalty revenue up 45% on the PCP.**
- **Strong subscriber and usage metrics for ZOLEO with subscribers up 35% for the 12 months and total messages sent exceeding 45 million.**
- **Free cash outflow of \$0.7m includes one-off arbitration expenses of \$0.5m.**
- **At 31 March 2024 the Company had \$2.7m cash at bank, and expects this balance to increase across the final quarter of FY24 driven by solid free cash flow performance.**

**Beam Communications Holdings Ltd** (ASX: BCC, “Beam” or the “Company”), a leading developer and distributor of mobile satellite solutions and services, is pleased to provide its quarterly update for the three months ended 31 March 2024 (3QFY24), to accompany the Appendix 4C.

**Cash Flow, Revenue and Cash Position**

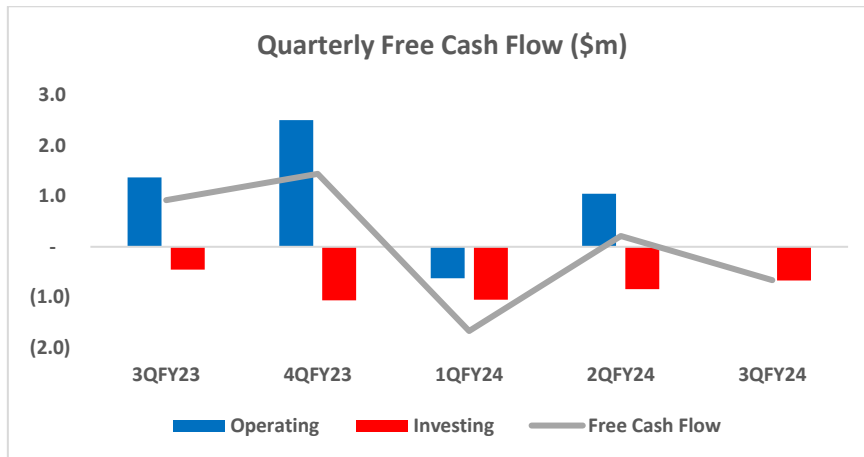

Cash receipts of \$7.5m were in-line with the Company’s expectations and below the PCP (3QFY23) and QoQ (3Q v 2QFY24) with the the timing of hardware sales significantly influencing these outcomes. The lower cash receipts contributed to a modest operating cash flow surplus of \$5k.

Revenue of \$9.3m in the quarter was up 5.5% on the PCP, well ahead of the 19% decline at the half-year following increased sales of ZOLEO hardware to support growth in North America, and higher ANZ sales of core Beam terminals, handsets and accessories. Pleasingly the revenue growth also included \$0.65m (up 38% on the PCP) of annuity style subscription revenue, comprising \$0.24m for the ZOLEO Royalty Fee (up 45% on the PCP). Zoleo activations for the Australian and NZ business continue to accelerate and reflects the positive momentum within the Beam sales team to drive sales and activations in the region. Beam’s subscription revenue now exceeds \$2.6m on an annualised basis (up 38% on the PCP).

Included in the operating and free cash flow results is ~\$0.5m of arbitration related expenses. On a year-to-date basis these costs are ~\$1.3m. These are non-recurring costs and are expected to total approximately \$1.6m (up from ~\$1.5m) for FY24. An update on the arbitration process is provided below.

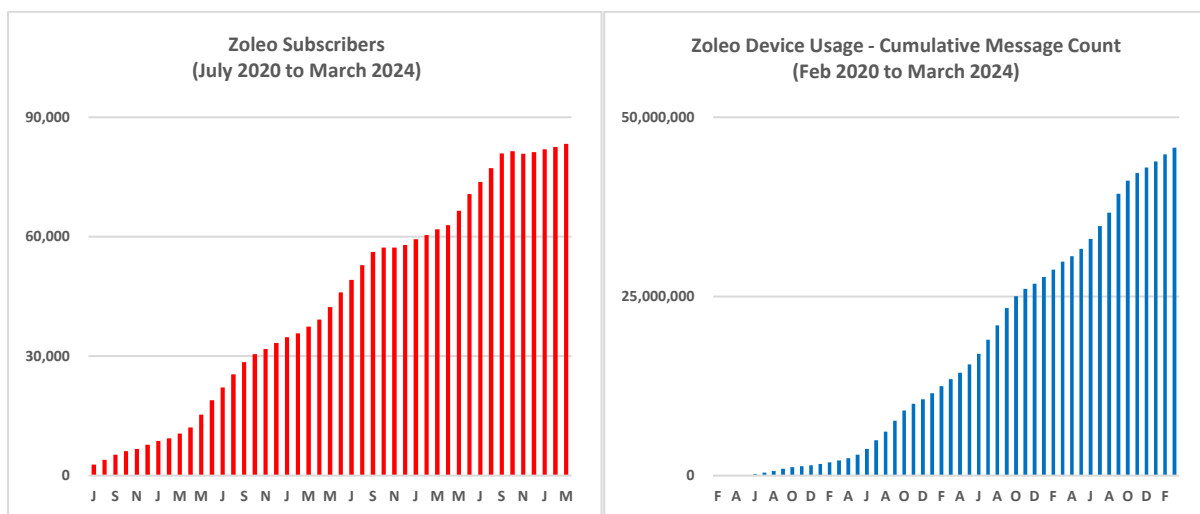

The free cash out flow of \$0.7m for the quarter was achieved while maintaining appropriate levels of investment, with investing cash flows of \$0.7m. Investment activity has peaked for the development of the new Certus terminal and Certus Messaging Service to run over the Go Exec.

At 31 March 2024 the Company had \$2.7m cash at bank, and expects this balance to increase across the final quarter of FY24 driven by solid free cash flow performance.

### Strong growth in ZOLEO activations and usage

There were 83.4k ZOLEO subscribers at the end of March 2024, up 35% from March 2023. Usage growth has been very strong, in a little over 4 years total messages sent from ZOLEO devices has exceeded 45 million. Annual usage as measured by messages sent from ZOLEO devices has grown 11x between 2020 and 2023. Across the last 12 months average messages per active user has been steady at 73 messages per month.

## **ZOLEO Revenue and JV Structure**

ZOLEO operates through a 50/50 joint venture (JV) between Beam and Roadpost Inc (RP). Both Beam and Roadpost serve as Master Distributors for their respective territories, appointing authorised retailers. Beam's territories encompass Australia, New Zealand, China, and Japan, while Roadpost's territories cover Canada and the United States.

Authorised retailers, including channels directly controlled by the JV partners within their territories (e.g. Beam's SatPhone Shop, eBay, Amazon, Kogan), sell devices to customers, earning revenue through product margins without sharing subscription revenues.

As a royalty, Beam and Roadpost receive 70% of the gross margin from subscriptions in their respective territories, with the remaining 30% being retained by the JV. For the rest of world, for which Europe and UK are operational, all the profits stay within ZOLEO Inc.

The JV in total generates around \$40 million of revenue per year.

## **ZOLEO arbitration update**

Beam owns 50% of Zoleo, a global business of significant inherent value. It is a predominantly high gross margin, recurring revenue, subscription style of business which is expected to continue to grow strongly in FY24.

Beam and its JV partner, Roadpost Inc., have commenced a formal arbitration process. The Company may either become the 100% owner of Zoleo Inc. or divest and crystallise its 50% share of the JV to Roadpost Inc.

The hearing is scheduled to commence on 29 April 2024 in Canada. The Company looks forward to providing further updates on this arbitration process. A finding is expected mid-2024.

## **Outlook**

The Company reaffirms the outlook provided in February 2024. Beam continues to anticipate second-half FY24 revenue to be weaker than the PCP largely due to order deferment into FY25. Normalised EBITDA is expected to be within the range of \$3.1m to \$3.6m, excluding ZOLEO arbitration costs of around \$1.6m.

Free cash flow including approximately \$3m for capital expenditure is expected to be positive for FY24 and positive for the second half. This excludes ZOLEO arbitration costs.

The Company also anticipates several catalysts in the second half of FY24 including:

- Conclusion of ZOLEO arbitration with the potential for a value accretive decision and a consolidated business with >\$70m of revenue should Beam be in a position to secure ownership of ZOLEO.
- Positive free cash flow in H2 to further bolster cash reserves and balance sheet shape; and
- Continued strong growth in recurring revenues.

**Commenting on the quarter, Managing Director, Michael Capocchi said:**

*“Q3 was a solid quarter with revenue growth of 5.5%. Beam’s higher margin subscription revenues are growing strongly. We are confident with the growth trajectory and cash generation of the core business, noting that profitability from period to period remains impacted by the lumpiness of hardware sales, albeit this impact is reducing due to growth in subscription revenues.*

*Beam maintains a strong balance sheet with ample cash reserves, providing us liquidity to support the current business plan and the ZOLEO arbitration.*

*Consistent with our guidance from February 2024 we expect to generate positive free cashflow in both the second half and full year, net of arbitration costs.*

This announcement has been approved by the Board of Directors.
