March 2024 Quarterly Activities Report

FAR Limited (ASX: FAR) an independent, Africa focused, oil & gas exploration company, provides its quarterly activities report for the quarter ended 31 March 2024.

Highlights

- The Company has given notice of its surrender of Blocks A2 and A5 effective 31 March 2024. The Company is awaiting the final certificate of completion from The Gambian government.
- The Gambian office was closed during the March quarter and the in-country presence is in the final stages of being shut down.
- Gneiss Energy Limited, a UK-based leading energy corporate finance advisory firm continues to act as corporate financial advisor in connection with the preparation for, marketing and potential sale of the up to US\$55 million contingent payment from Woodside Energy in relation to the RSSD Project in Senegal.
- Cash at quarter end was US\$2.5 million (unaudited).

Commenting on the activities during the quarter, Independent Chairman Patrick O'Connor said:

"The Company completed the process of shutting down its presence in The Gambia during the quarter with the in-country office closed at the end of March. The Company wishes to express its strong appreciation for the support received from the authorities of The Government of The Gambia.

The Company is intending to seek offers with respect to its up to US\$55 million contingent payment due from Woodside Energy nearer to the commencement of first oil production from Sangomar. We look forward to the potential monetisation of this contingent asset."

The Gambia - Blocks A2/A5 (FAR 100% working interest)

As the Company was not able to secure an agreement with a third party to continue exploration activities for Blocks A2 and A5 to a notice of surrender was issued to the Government of The Gambia in the December 2023 quarter.

During the March 2024 quarter the in-country support activities were shut down and the office closed, with expenditure in the quarter approximately US\$39,000.

Woodside Energy Contingent Payment

As part of the consideration for the sale of its interest in the RSSD Project in Senegal to Woodside Energy ("**Woodside**"), FAR received rights to a Contingent Payment with a maximum value of US\$55 million.

On 27 November 2023, FAR advised that a notification of adjustments had been received by Woodside with respect to a potential claim from the Senegal Tax Authority relating to the sale by the FAR group of its interest in the RSSD project to Woodside Energy (Senegal) BV in 2021. The notification of adjustments included a capital gains tax claim of approximately US\$4 million relating to the FAR sale.

A further communication was received from the Senegal Tax Authority by Woodside during the quarter that accepts that there was no capital gain on the sale. Accordingly, FAR considers that it is no longer exposed to a capital gains tax claim relating to the sale.

In the first quarter 2024 report announced to the market on 19 April 2024, Woodside provided an update on the Sangomar Field Development Phase 1 project ("**Sangomar**"). The Floating Production Storage and Offloading (FPSO) facility arrived offshore Senegal in February and the commissioning program is underway. First oil production from Sangomar is targeted for mid-2024 and as at 31 March 2024 the overall project was 96% complete.

Based on progress of the Sangomar development and current oil prices, the Board of FAR expects that the full US\$55 million will be received prior to the transaction long stop date in 2027.

The Contingent Payment comprises 45% of entitlement barrels (being the share of oil relating to FAR's previously held 13.67% of the RSSD Project comprising the Sangomar Field exploitation area of interest), multiplied by the excess of the crude oil price per barrel and US\$58 per barrel (capped at US\$70 per barrel). The Contingent Payment terminates on the earliest of 31 December 2027, three years from the first oil being sold (excluding periods of zero production), or a total Contingent Payment of US\$55 million being reached, whichever occurs first.

Gneiss Energy Limited, a UK-based leading energy corporate finance advisory firm has been appointed as corporate financial advisor in connection with advising and assisting with the potential sale of the Contingent Payment. Preparation works are well advanced for a sale process that will be undertaken nearer to the commencement of first oil production from Sangomar.
